Through relentless innovation, unwavering commitment to continuous improvement, and a passion for fostering strong partnerships, we strive to deliver enduring value to our stakeholders and make a significant contribution to the transformation, sustainability and lasting prosperity of the industry.

At Avanti, the foundation of strong values drives cutting-edge innovation and significant contribution towards sustainability of the industry.

# Investing in the Future Expanding Our Reach and Impact

In the fiscal year 2023-24, Avanti Feeds Ltd. showcased a stellar performance, navigating the challenges of a volatile global market with remarkable resilience. The company's growth story is one of strategic agility and prudent financial management, making it a compelling narrative for our stakeholders.

### Riding the Wave: Growth Beyond Expectations

Avanti Feeds Ltd. reported a gross income of ₹ 5,505 crores for FY 2023-24, an impressive rise from ₹ 5,179 crores in the previous year. This significant growth of approximately 6% underscores our ability to scale operations effectively amidst fluctuating market conditions. The Profit Before Tax (PBT) for the year also saw a notable increase, reaching ₹ 537 crores, up from ₹ 427 crores in FY 2022-23, a 26% surge that highlights our enhanced profitability and strategic investments for the future.

#### Keeping Costs Afloat: A Focus on Efficiency

A key driver of this growth has been Avanti Feeds' strategic focus on cost management. By adeptly managing the costs of key raw materials such as fish meal, soybean meal, and wheat flour, which constitute the bulk of the feed production expenses, we have protected our margins and ensured steady profitability. Our efforts in this area have laid a solid foundation for future growth.

The company also leveraged several government incentives to bolster its financial health. Notably, the Production Linked Incentive (PLI) scheme and the Operation Green scheme.

A new shrimp processing plant is set up in Krishnapuram to boost our production capacity and efficiency.

# Setting Sail for the Future: A Clear Horizon

Looking ahead, Avanti Feeds is committed to expanding its reach and impact. Despite the volatility in shrimp culture and the various challenges faced by the industry, the feed division is confident in increasing its market share and solidifying its market presence.

In the shrimp processing division, the future looks equally promising. We anticipate an increase in export volumes in FY 2024-25 by the commencement of

commercial production at our new processing plant in Krishnapuram in March 2024. This expansion aligns perfectly with our vision by enhancing our capabilities and extending our market reach.

#### Building a Sustainable Future

Avanti Feeds' commitment to robust financial management, strategic expansion, and effective utilization of resources has positioned the company for sustainable growth. Looking ahead, Avanti remains dedicated to driving value for investors and stakeholders, ensuring continued success in the dynamic global market. Through these efforts, Avanti is not only investing in the future but also creating a lasting positive impact.

# Chairman's Message

### Dear Shareholders,

I share the achievements of Avanti Feeds Ltd. for the financial year 2023-24. This year has been marked by significant growth and strategic advancements across all our business verticals. Our Revenue reached ₹ 5,505 crores, an increase from ₹ 5,179 crores in the previous year, while our profit surged to ₹ 537 crores from ₹ 427 crores.

In the feed manufacturing sector, Avanti Feeds' position remains robust. Your company is also well-positioned in the export markets. In FY 2023-24, our feed division achieved a gross income of ₹ 4,396 crores, reflecting an impressive growth from the previous year.

Despite the challenges in shrimp exports like lower market prices, increased production costs, and growing competition from export markets such as Ecuador, Vietnam, and Indonesia, Avanti Feeds has maintained a competitive edge, realizing higher margins over the last two years. We have been proactive in our interventions, adapting swiftly to dynamic market fluctuations and challenges.

Your company has always been forward-looking, gearing up to tap into opportunities for growth and value addition for shareholders while fulfilling the mission of bridging the nutritional and food needs of the people. The Union Government's major push for aquaculture, especially fisheries, through fund allocation and incentives, is a positive development.

The PMMSY (Pradhan Mantri Matsya Sampada Yojana) introduced new operational guidelines in 2024 for the development of fish and aquatic products, infrastructure, and overall promo-

tion of the Blue Revolution. Aquaculture has been recognized for its role in enhancing farmers' livelihoods and improving the health of the population with better protein and nutrition.

The second growth area is the domestic consumption of aqua products, especially value-added ones. The realization of aqua and marine products as sources of protein and nutrition is driving demand upward. Avanti Frozen Foods is fully aware of these business opportunities and is focused on turning out more value-added products, positioning India among the best in class globally.

To achieve all these goals, a strong R&D, investment in the latest technologies, development of skilled human resources, and strengthening of linkages with farmers and stakeholders are essential. I am pleased to inform you that your company is dedicated to all these areas.

I acknowledge my heartfelt gratitude to our employees, aqua farmers, customers, dealers, partners, financial institutions, and all stakeholders for their steadfast and continuous support in maintaining Avanti's prime position despite multiple challenges. My sincere thanks are also due to my fellow Directors for their invaluable guidance and unwavering support throughout our journey.

With my best wishes to everyone,

Alluri Indra Kumar Chairman and Managing Director **Avanti Feeds**Board of Directors

Avanti Feeds is privileged to have a distinguished Board of Directors, consisting of accomplished leaders with proven track records in their respective fields. The Board brings a wealth of experience, strategic vision, and industry knowledge, providing invaluable guidance.

A Indra Kumar Chairman & Managing Director

# **Avanti Frozen**Board of Directors

The diverse composition of Avanti Frozen Board's fosters a collaborative environment, allowing a variety of perspectives to be considered, leading to well-informed decisions that drive sustainable growth and long-term shareholder value.

A Indra Kumar Chairman & Managing Director

Avanti Feeds Ltd. has achieved stellar performance yet again in the fiscal year 2023-24, leveraging our strong foundation and strategic foresight. This year, we've seen remarkable growth, innovative investments, and unwavering dedication to our stakeholders, which has further cemented our standing in the global marketplace.

India, despite facing challenges in key export markets like the USA, achieved record-high seafood exports in terms of both volume and value during this fiscal year. Frozen shrimp continues to be the leading export item by quantity and value, with the USA and China as primary importers of Indian seafood. This accomplishment underscores India's resilience and Avanti Feeds Ltd.'s significant role in the seafood industry.

For FY 2023-24, Avanti Feeds Ltd. reported a gross income of ₹ 5,505 crores, marking an

impressive increase from ₹ 5,179 crores in the previous year. This 6% growth demonstrates our ability to effectively scale operations amidst fluctuating market conditions. Our Profit Before Tax (PBT) saw a significant rise, reaching ₹ 536.86 crores, up from ₹ 426.78 crores in FY 2022-23, reflecting a 26% surge. This growth highlights our enhanced profitability and strategic investments for the future. The profit after tax stands at ₹ 393.80 crores, compared to ₹ 312.25 crores in the previous financial year.

Our Four Windmills in Karnataka, with a total capacity of 3.2 MW, generated 43.34 lakh units of power this year, as against 47.95 lakh units in the previous year. The power generated was sold to Karnataka Power Transmission Corporation Limited (KPTCL) under the Power Purchase Agreement (PPA).

The Company undertakes no obligation to publicly update or revise any of the opinions or statements expressed in this report, consequent to new information, future event, or otherwise.

#### **Global Economy**

The good news is that Global Growth is holding steady having slowed for 3 consecutive years. Inflation has been cut to a 3 year low. The Financial conditions have brightened. The World Economy, in short, appears to be in a final approach for a "soft landing".

Global growth is stabilizing at a rate of 2.7% a year on average through 2026, despite geopolitical tensions and high interest rates, well below the 3.1% average in the decade before COVID-19. This modest improvement in growth follows a couple of years of post COVID-19 pandemic, continued Russia-Ukraine War, its fallout of pushing up inflation in developed economies, the recent Israel invasion of Gaza and conflict with Hamas and the consequence of Red Sea crisis are all putting pressure on the Global Economy.

Despite an improvement in near- term growth prospects, the outlook remains subdued by historical standards in advanced and Emerging Markets and Developing Economies (EMDE) alike.

There are, of course, notable bright spots in the Global Economy. The US Economy, in particular, has shown impressive resilience. Growth has remained buoyant in the teeth of fiercest Monetary Policy tightening in 4 decades.

Among the EMDEs **India** and **Indonesia** are two additional examples of **robust performance**. India's economy has been buoyed by strong domestic demand, with a surge in investment, and robust services activity. It is projected to grow at an average of 6.7% per fiscal year from 2024 through 2026 – making South Asia the World's fastest growing region. Indonesia is expected to benefit from a growing middle class and generally prudent Economic Policies, expanding by an average of 5.1% over the next two years.

#### **Aquaculture And Seafood Industry Overview**

World fisheries and aquaculture production has hit a new high, with aquaculture production of aquatic animals surpassing capture fisheries for the first time, according to a new report from the Food and Agriculture Organization of the United Nations (FAO).

The State of World Fisheries and Aquaculture features, the "Blue Transformation" in action illustrated by activities, initiatives, led by FAO in collaboration with, partners and key stakeholders, to integrate Aquatic Foods into Global Food Security and Sustainability, enhance Policy advocacy, scientific research and capacity building, disseminate sustainable practices and technological innovations, and support community involvement.

The aquaculture market size is expected to see strong growth in the next few years. It will grow to \$340.3 billion in 2028 at a compound annual growth rate (CAGR) of 6.5%. Forecasted growth is driven

by increased seafood demand, a health-conscious consumer base, rising fish oil demand, and global population growth combined with urbanization.

The key trends observed in the sector include IoT connectivity, technological advancements, aquaculture drone use, research and development, artificial intelligence integration, climate change-resistant species adoption etc.

The global population is on the rise and is projected to reach 10 billion by 2050, leading to an increased demand for food. "The Agricultural Outlook" by the OECD and FAO predicts a 13% growth in global cereal production by 2027 to meet the needs of the expanding population. Consequently, companies in various markets, including seafood manufacturing, are poised to benefit from the growing demand for food and beverage products as a result of the increasing population during the forecast period.

According to the UN FAO, in the next 10 years, aquaculture must expand sustainably to satisfy the gap in global demand for aquatic foods, especially, in food- deficit regions, while generating new or securing existing sources of income and employment. The demand for aquatic food is expected to be 'ever green'.

The 2030 Agenda of ("UNFAO") for Sustainable Development continues to shape the strategies for development of Fisheries and Aquaculture.

The "Blue Transformation", is a vision for transforming Aquatic Food Systems. Aquatic Foods offer highly accessible and affordable sources of animal proteins and micro nutrients, playing a vital role in the food and nutrition security of many, particularly, vulnerable coastal population.

#### Aquaculture and Seafood Sector-Indian Scenario:

India's Seafood exports touch all time high with 17,81,602 MTs worth \$ 7.38 Bn of Seafood during 2023-24 despite several challenges in major export markets USA, EU and UK, with Frozen Shrimp remaining the major export item in Quantity and Value, while the USA and China are the major importers of Indian Seafood. However, there is decline by 5.38% in value terms.

The Indian aquaculture sector is poised to grow in the financial year 2024-25 with the Union government announcing a slew of measures in its interim budget presented in February. Accordingly, under the PMMSY, the government aims to double the aquaculture exports to nearly rupees one lakh crore and generate over 50 lakh job opportunities.

Aquaculture continues to be an important sector in Indian Economy, contributing to not only for Food Security but also providing employment to large scale coastal habitants while earning valuable Foreign Exchange to the country. The Govt. of India recognized transformation of Shrimp Culture in India as "Blue Revolution", wayback in late 80's and early 90's. Large coastal region of India has been brought under Shrimp Culture since then and the export of processed shrimp is growing year after year. The production of seafood and Shrimp over the past 4 years i.e. from 2019-20 to 2022-23 is given below:

Exports during the Year	Total Seafood		Frozen Shrimp	
	Qty (in Mts)	Value (₹ in Crores)	Qty (in Mts)	Value (₹ in Crores)
2022-23	1735286	63969.14	711099	43,135.58
2021-22	13,69,264	57,586.48	7,28,123	42,706.04
2020-21	11,49,510	43,720.98	5,90,275	32,520.29
2019-20	12,89,651	46,662.85	6,52,253	34,152.03

Indian Shrimp production 2023-24 reduced by nearly 8% compared to previous year. In 2023-24 shrimp Production was 850 thousand MT, compared to 920 thousand MT in 22-23, The major factor for reduction in shrimp WSA, Increase in Disease outbreak (WSS, EHP, White feases), Unstable and fluctuating prices, Limited cash flow with farmers and channel partners, Increasing cost of Inputs, unfavorable weather conditions.

There was increase in Black Tiger culture, totally Indian farmers (Gujarat and South AP) produced 42000 MT of BT shrimp in 2023-24, Most of the BT farmers earned better profits compared to Vannamei culture.

Andhra Pradesh accounts for approximately 75-85% of India's shrimp production. While other states, such as Odisha, West Bengal, and Gujarat, have expanded production over the past decade and still have great potential, it has become clear that producers outside AP struggle to compete under the current market conditions. The main reasons are AP offers relatively low electricity, PL, and feed costs.

#### **Shrimp Feed Consumption:**

On the basis of estimated shrimp production of about 8 Lakh Mts in 2023, the Feed consumption is estimated to be about 10.5 - 11 lakh Mts.

The Company's feed sales during the FY 2024 was about 5.31 lakh MT's as compared to 4.97 Lakhs MT's in FY 2023, an increase of 34,000 MTs.

The Indian shrimp feed market reached \$1.7 billion in 2023. It is expected to reach \$7.1 billion by 2032 at a growth rate of 17.21% CAGR during the period, according to <u>researchandmarkets.com</u>.

The changing dietary patterns and a rising preference for seafood, particularly shrimp, among consumers are stimulating the shrimp farming industry and, consequently, the shrimp feed industry. As India becomes more health-conscious, the high protein content and low fat in shrimps make them an attractive choice for many. This shift in consumption patterns is encouraging aquaculture farmers to increase their production to meet this demand, hence boosting the demand for shrimp feed. Along with this, the escalating shift towards sustainable and intensive shrimp farming practices to increase yield while reducing environmental impacts is positively influencing the market, it said.

#### **Shrimp Processing and Export:**

The Country's Shrimp exports, in terms of value, declined in FY 23 compared to FY 22 by 8.11% from US\$ 5,234 million to US\$ 4,809 million.

The Country's overall export of frozen shrimps, in quantitative terms, for FY 23 was 7,11,099 MTs as compared to 7,28,123 MTs in FY 22, a decline of 17,024 MTs representing 2.34%.

The Company's Shrimp exports during the FY 24 was about 13,443 MTs as compared to 12,497 MTs in the FY 23, an increase by 946 MTs. It is estimated that the exports during FY 25 would be around 16,000 MTs.

The major factors for the slight decline in the exports are the high inflation rates ruling in most developed economies that is impacting the purchasing power of the consumer; the increased production and export from Ecuador at a lesser cost; issues of supply chain management and rising costs of logistics. The demand from the Chinese market has also been sluggish. With Ecuador competing in the US market, India is pushing into other markets and also concentrating on exports of value added Products to increase its market share. In addition to the EU, new markets include, Canada, Japan, Russia, and the UK.

# **Strengths, Weaknesses, Opportunities and Threats: Strengths**

Avanti Feeds is pioneer in Indian Shrimp Industry having over three decades of operations. The company has strong and long lasting collaboration with Thai Union, a multi- national company in Global Seafood Industry. The Company is in constant interaction with Thai Union in exchange of developments in Aquaculture industry, bringing into India and to the door step of the Indian farmer to reap the best results in Aquaculture. The Feed formulation, Disease Management, Global market developments are exchanged periodically and Strategies are formulated to be the best provider of services to the farmer. This has resulted in a strong base of loyal farmers to the Company. The Company has ventured into research & development projects for sustainable growth in Shrimp Farming.

Avanti is well-equipped to meet the comprehensive needs of farmers. It has built a strong PAN-India feed dealership network and established partnerships with channel partners, processing units, and hatcheries. Regular interactions with stakeholders ensure seamless integration of operations. The company maintains constant communication with aqua-farmers, offering outreach programs and round-the-clock services through its qualified and experienced technical staff.

These initiatives have propelled Avanti to achieve a dominant position with a nearly 50% market share in the shrimp feed sector. The company is taking further steps to not only maintain but also increase its market share. Its subsidiary, Avanti Frozen Foods Private Ltd., focused on shrimp processing and export is expected to experience significant growth in both traditional and value-added products. The processing facilities are being expanded, with a particular focus on cooked and value-added products. Avanti is strategically focusing on exploring new export markets for both shrimp feed and shrimp exports.

To achieve these goals and more, Avanti has devised a strategy that allows for rapid scaling up of production through high-value capital expenditure (CAPEX) investments. This strategy positions the company to capitalize on the growing demand and opportunities in the shrimp industry.

#### Weaknesses

Despite being a significant sector in the Indian economy, the aquaculture industry faces several challenges and weaknesses. These include high production costs, inadequate infrastructure facilities, power supply issues, unregulated cost of raw materials, and shortage of cold storage facilities, and rising cost of ocean freights.

In addition, highly fluctuating raw material costs, dependence on climatic conditions and international developments on Shrimp prices, the Company is put to severe hardship, more often than not, due to factors beyond its control.

While the aquaculture industry and its stakeholders are aware of these challenges and taking measures to address them, government policies are slowly coming into play to help overcome some of these issues. For instance, in the Union Budget 2023-24, the government announced a reduction in customs duty on key inputs for producing shrimp food, which is expected to boost marine exports gradually. Similarly, the ongoing "Productivity Linked Incentive Scheme" for the marine products industry, which provides incentives based on increased sales year after year, has also proven beneficial. Avanti Frozen Foods has been granted this incentive scheme.

Furthermore, the Government of India is offering grant-in-aid for new processors to cover technical civil works and plant and machinery costs, up to 35% of the total cost with a cap of ₹ 10 crores. AFFPL has been granted this aid.

Avanti Feeds is aware of these weaknesses and challenges and is pro-actively preparing to overcome them through sustained measures. The company remains confident in its ability to address these issues and mitigate their impact on its operations.

#### **Opportunities**

The global seafood market has been witnessing a continuous uptick in recent years riding on recognition of its benefits to health. The growing awareness of the health benefits of seafood, with its nutritional and protein content, presents a favorable environment for increased consumption.

Health experts promoting seafood as a healthier alternative to red meat, which is being associated with challenges to human health, further contributes to the market's potential. Additionally, the rising purchasing power of the middle class and their desire for diverse food choices create opportunities for the seafood industry, including shrimp.

India, with its long coastline, farming community, and availability of land and labor, has emerged as a major player in the global shrimp industry. The Marine Products Export Development Authority (MPEDA), under the Union Ministry of Commerce, has drawn up a plan to achieve marine products exports worth ₹ 1 Lakh Crore by 2025, showcasing the government's commitment to supporting and promoting the industry's growth.

However, recent international market challenges, such as high inflation in developed nations, the Russia- Ukraine conflict, and lock downs in China, have posed supply chain and price challenges in the short term. As a result, the rapidly growing shrimp export industry in India has come under pressure.

To mitigate the risks associated with excessive reliance on exports, there is a need to focus on promoting and expanding domestic consumption and markets. Avanti Feeds has recognized this need and is preparing itself accordingly. According to data from the Food and Agriculture Organization of the United Nations, the per capita world shrimp consumption is estimated to be around 6.4 kilograms per person per year. This figure can vary by region, with some countries consuming more shrimp than others. The Company believes a that there is huge opportunity to increase domestic market.

The company has taken proactive steps, including product innovations, exploring new distribution channels, embracing e-commerce and home deliveries, and optimizing supply chains. These measures have strengthened the company's position and demonstrated its preparedness in anticipation of market trends. The company's performance over the past two years, with increased top-line growth, is a testament to its readiness to tap into domestic opportunities and adapt to market dynamics.

#### **Threats**

The aquaculture industry, including shrimp farming, faces various threats and challenges that need to be addressed for sustainable growth. These threats can be categorized into climate-related risks, production costs and disease control, market volatility, and external factors.

- Climate-Related Risks: Aquaculture is highly dependent on favorable climatic conditions, and events like floods, cyclones, and other natural disasters can disrupt production. Climate change poses long-term risks to the industry, including changes in water temperatures, ocean acidification, and rising sea levels, which can impact shrimp farming.
- Production Costs and Disease Control: Farmers face challenges related to the cost of production, including feed costs, availability and quality of seeds, disease prevention and control measures, and ensuring food safety standards. Disease outbreaks can cause significant economic losses and affect the overall sustainability of the industry.
- 3. **Market Volatility:** The international shrimp market is subject to price volatility, which can impact the profitability of shrimp farmers and exporters. Fluctuating foreign exchange rates and increasing raw material costs, including feed ingredients, can further add to market uncertainties.
- 4. External Factors: Factors such as high inflation in importing nations, restrictions due to the COVID-19 pandemic, and continued Russia-Ukraine War, its fallout of pushing up inflation in developed economies, the recent Israel invasion of Gaza and conflict with Hamas and the consequence of Red Sea crisis and increasing ocean freights can impact international trade and export opportunities. Dependence on imported Specific Pathogen-Free (SPF) Vannamei brood stock raises concerns about the long-term impact if international cargo movements are restricted.

To mitigate these threats and achieve sustainable growth, Avanti Feeds focuses on the following:

**Diversification and Domestic Market Opportunities:** Explore and tap into the potential of the domestic market to reduce reliance on volatile international markets. Developing strategies to meet the growing demand for seafood within the country can help de-risk the industry.

Also diversify into production of formulated Fish Feed for mainly domestic market.

**Traceability and Pond Management:** Implementing strict traceability systems and adopting scientific pond management practices can enhance productivity, reduce disease risks, and ensure compliance with food safety standards. This can help build consumer trust and confidence.

**Forex Management:** Managing foreign exchange risks through effective forex management strategies can help mitigate the impact of fluctuating exchange rates on profitability.

**Research and Development:** Continued investment in research and development is crucial to developing disease-resistant shrimp varieties, improving feed formulations, and implementing sustainable farming practices.

By addressing these threats and implementing necessary measures, Avanti minimises risks and works towards long-term growth and sustainability.

#### **Future Outlook for India's Aquaculture and Seafood Sector:**

In line with Global forecast of moderate recovery of Fisheries Sector in 2024 over 2023, the stockings of seed for first crop of Shrimp Culture in India commenced during 2<sup>nd</sup> half of Jan-2024 with an increase of about 10% to 15% over the corresponding period of the previous year, with a positive outlook for a successful first crop season. However, unfortunately, due to uncertain and unfavourable climatic conditions, white spot disease affecting the culture in some of the areas and fluctuations in farm gate price, the culture did not progress as expected and there were forced harvesting in some of the areas, impacting the overall production of shrimp securing the first quarter.

However, with climatic conditions being more stable, after a severe summer, the farmers are looking forward to commence fresh stockings from first week of June'24. Hopefully, this crop survives full season of 90 days to 120 days and the farmers will be able to make it a profitable quarter. The company will also be in a position to increase feed sales in ensuing two quarters.

The processing and export of Shrimp division is also expected to increase exports to about 16,000 MTs for the current year, considering commencement of commercial production by the new processing plant at Krishnapuram. The company is focusing on increasing the processing & export of value added products during FY 25. As mentioned before, the company's value added products exports have gone up by 142% in FY 24, compared to previous year. The company while strengthening the exports to US and Canada market, also exploring other markets like Japan, Korea, etc.

At this juncture, we would like to share with you two important events that have impact on Aquaculture Industry.

The First one, the levy of Countervailing Duty (CVD) @ 4.36% on export of shrimps by US Dept. of Commerce effective from 01st April, 2024. The USDOC has made preliminary determination of CVD rate on the basis of compliant lodged by US domestic Shrimp industry against imports from India and preliminary data analysed by the USDOC. In the next step, USDOC will determine final rate basing on the objections raised by the Seafood Exporters Association of India and on the basis of data provided by Govt. of India. The final determination is scheduled to be announced on first half of October,2024. In the meantime, the exporters are required to deposit the CVD @ 4.36%, subject to adjustment after final determination. Along with India, other countries Ecuador, Vietnam and Indonesia have also been levied CVD at different rates. The Seafood Exporters Association, MPEDA, EIA and Govt. of India are making efforts to get CVD withdrawn at the time of final determination in October'24.

The Industry considers these upheavals are part and parcel of the business activity and they do not hinder the sustainable growth of the Industry.

The Govt. of India has been focusing and encouraging Aquaculture Sector by extending promotional schemes like PLI Scheme, Operations Green, etc. which the company is availing. It is heartening to note that in the Budget for 2024-25 presented by the Honourable Finance Minister on 1st February 2024 announced "Pradhan Mantri Mastya Sampada Yojana (PMMSY)" is being stepped up to enhance Aquaculture productivity from existing 3 to 5 Ton/Hectare, doubling exports to Rs. 1 Lakh Crore and generate 55 Lakhs employment opportunities along with big infrastructural changes of establishing 5 integrated Aqua parks. Further details of the scheme are expected to be notified after the General Elections, while presenting the Regular Union Budget.

To conclude, the stake holders of the industry look forward for a bright future for the Aquaculture industry in 2024 and thereafter, unless any unforeseen developments in climate condition or changes in global market scenario impacts the Industry.

#### **POWER**

The Company has investment in the following power projects:

- a) The 3.2 MW Wind Mill Project in Chitradurg, Karnataka State installed in the year 2005 is operational and has generated 47.95 Lakhs units during the year.
- b) Srivathsa Power Projects Private Limited.

Srivathsa Power Projects Private Limited, is a 17.2 MW gas based independent power project situated in Andhra Pradesh.

During the Financial year 2023-24, Plant was stopped generating power due to increase in APM-gas price and non-availability of APM-gas since May,2022. In addition to that in the month of July,2022, Gail India Limited – a Government of India undertaking – a Maharatna Company, who is a natural gas supplier to Srivathsa, had informed that, as per the Ministry of Petroleum and Natural Gas guidelines and directives, the APM gas from KG basin allocated to power plants will be diverted to CGD (City Gas Distribution) entities outside KG basin w.e.f 01st August,2022. As per the above guidelines, Srivathsa is not getting APM gas from Gail India Limited. As a result, there is no power generation during the financial year. During the year 2023-24, the Company reported Other Income of ₹ 23.74 Lakhs and a loss of (₹ 161.42) Lakhs after charging interest and depreciation, as per audited financials.

#### (c) Patikari Power Private Limited

The Company holds 25.88% equity shares in PPPL which has a 16 MW Hydel Power Project in Himachal Pradesh, India. During the Financial year 2023 24 as per audited financials the Company generated 36.13 Million saleable energy units, yielding a gross sales income of ₹ 693.15 Lakhs which resulted in a net profit of ₹ 82.71 Lakhs after charging interest, depreciation and tax. For the FY 2023-24, the Company has not declared any dividend to the shareholders during the financial year 2023-24 as the plant was shutdown from 12<sup>th</sup> August, 2023 to 24<sup>th</sup> February, 2024 due to heavy rains with unexpected floods and land slide the project was heavily damaged. The plant was restored and the damaged was recovered thru Insurance.

#### **Internal Control Systems and their Adequacy**

The company has a proper and adequate system of internal controls to ensure that all assets are safeguarded and protected against loss from unauthorized use or disposition and that all transactions are properly authorized recorded and reported correctly. Further, the internal control system is designed to ensure that all the financial and other records are reliable for preparing financial statements and for maintaining accountability of the assets.

The Company has engaged an Independent Chartered Accountant firm as Internal Auditor responsible to ensure compliance of all the statutory requirements by the Company. The finance department in co-ordination with Internal Auditor is also responsible for periodical risk appraisal, internal as well as external, of all the functional departments in the organization is being taken up. On the basis of the appraisal, potential risks are identified and preventive measures are initiated depending on the perceived gravity of the risk.

Statement by director responsible for sibility related challengachievements

As part of our commitment to transparency and sustainable practices, I am pleased to present our Business Responsibility and Sustainability Report for the the fiscal year. At Avanti Feeds we recognize the importance of Environmental, business respon- Social, and Governance (ESG) factors in our operations, especially in the report, aquaculture industry where responsible practices are paramount. Navigating highlighting ESG the complex landscape of the industry presents several ESG challenges. Key among these are ensuring minimal environmental impact, maintaining es, targets and high social standards across our supply chain, and adhering to stringent governance principles amidst evolving regulatory frameworks.

I am pleased to report significant progress towards our ESG goals:

- Environmental: Implemented water recirculation systems & Solar panels there by reducing water withdrawal and dependency on grid electricity.
- Social: Conducted 350+ training programs benefiting over 10,000+ farmers and community members on responsible practices.
- · Governance: Secured certifications from various bodies and agencies for sustainable practices.

#### 4. Focal point for addressing human rights:

Do you have a focal point (Individual/ Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? (Yes/No)

Avanti is deeply committed to upholding human rights, placing paramount importance on this fundamental principle. To ensure the safeguarding of these rights within our operations, we have designated a dedicated individual - the HR Manager at our plant. Entrusted with the responsibility of receiving and addressing any issues related to human rights, this individual not only possesses the necessary expertise but also harbours a profound passion for ensuring that our business practices consistently align with our unwavering commitment to human rights.

Moreover, our commitment extends beyond mere rhetoric; we actively engage in frequent assessments and maintain an open dialogue with stakeholders. Through collaborative efforts with relevant organizations and stakeholders, we diligently identify and confront any potential adverse impacts on human rights. Our aim is not only to rectify any shortcomings but also to champion exemplary practices throughout our organization, thereby setting a standard for ethical conduct in our industry.

#### 5. Internal mechanisms in place to redress grievances related to human rights issues:

#### Describe the internal mechanisms in place to redress grievances related to human rights issues.

Avanti has instituted a range of internal mechanisms aimed at effectively addressing grievances related to human rights issues. Foremost among these is the establishment of a confidential and easily accessible complaint system, allowing individuals to report any concerns they may have regarding human rights violations. These reports are meticulously investigated by a designated focal point, working in collaboration with the HR & Admin Manager, to ensure thorough scrutiny. Subsequently, appropriate remedial measures are swiftly implemented to address the issues raised, reaffirming our commitment to upholding human rights within our operations.

Furthermore, Avanti prioritizes transparency and open communication with all stakeholders, including local communities, civil society organizations, and relevant government agencies. Through these transparent channels, we actively solicit feedback and engage in constructive dialogue, ensuring that any grievances brought forward are promptly acknowledged and addressed in a timely and efficient manner. By fostering an environment of trust and accountability, we endeavour to uphold the principles of human rights and social responsibility across all facets of our organization.

### 8. Mechanism to prevent adverse consequences to the complainant in discrimination and harassment cases.

Avanti stands resolute in its commitment to fostering a workplace environment free from harassment, with a particular emphasis on combating sexual harassment. We adamantly uphold a zero-tolerance policy towards any form of such misconduct, deeming it entirely intolerable. We actively promote a culture of transparency and support, encouraging the prompt reporting of any incidents of harassment or instances of unwelcome or offensive behaviour.

In our pursuit of maintaining a safe and respectful workplace, Avanti has implemented dedicated committees across multiple locations tasked with handling cases of sexual harassment. These committees play a crucial role in thoroughly investigating complaints and recommending appropriate actions to address the situation effectively. Moreover, we regularly conduct awareness and training sessions to ensure that all employees are well-versed in understanding the complexities of sexual harassment and are fully aware of the available avenues for seeking assistance and redressal. Through these proactive measures, we aim to uphold our commitment to providing a work environment where every individual feels valued, respected, and protected.

### 9. Human rights requirements forming part of your business agreements and contracts: (Yes/No).

Yes, In the process of on boarding suppliers, dealers, and vendors, Avanti diligently integrates human rights requirements. This entails a stringent adherence to pertinent laws, labour standards, environmental regulations, as well as upholding principles of human rights, ethics, and integrity in their operations. These stipulations serve as a cornerstone of the on boarding process, emphasizing the importance of aligning with Avanti's steadfast commitment to human rights and responsible business practices.

By incorporating these requirements into our on boarding procedures, we ensure that our business partners share our values and demonstrate a genuine commitment to ethical conduct. This not only fosters trust and transparency within our supply chain but also reinforces our collective efforts towards promoting social responsibility and sustainable practices across our operations. Through collaboration and mutual adherence to these standards, we strive to create a more equitable and just global business ecosystem.

#### 8. Project related to reducing Green House Gas emission:

Does the entity have any project related to reducing Green House Gas emission? If yes, then provide details.

In a dedicated effort to embrace sustainability and lessen reliance on non-renewable energy sources, our company has implemented several eco-conscious initiatives. Among these initiatives, rooftop solar panels have been installed to harness clean, renewable energy directly from the sun. This strategic investment not only reduces our carbon footprint but also contributes to long-term cost savings and energy independence. Additionally, we have implemented rainwater harvesting systems across our facilities to conserve water resources and alleviate strain on municipal water supplies. These combined efforts underscore our unwavering commitment to reduce Green House Gas.

# 18. Commodity Price Risk

The major raw materials for Shrimp Feed manufacturing are fish meal, soya DOC (De-oiled Cake) and wheat flour. Company has a policy of planning for raw material requirement for coming 3 months based on estimated sales. Accordingly, raw materials like fish meal and soya DOC are procured after considering the availability of these raw materials as both the raw materials are seasonal products. Wheat flour having very low shelf life being perishable is purchased regularly. However, as a policy Company does not to keep more than 90 days of stock of any indigenously available rawmaterials. This ensures availability of raw material for the culture season and ensures price stability during negative raw material price movements.

# **Independent Auditors' Report**

# To the Members of Avanti Feeds Limited

# Report on the Audit of the Standalone Financial Statements

# **Opinion**

We have audited the accompanying Standalone Financial Statements of **Avanti Feeds Limited** ("the Company") which comprise the Balance Sheet as at 31st March, 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date and notes to the financial statements, including a summary of material accounting policies and other explanatory information (herein after referred to as the "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, its profit including other comprehensive income, changes in equity and its cash flows for the year ended on that date.

# **Basis for Opinion**

We conducted our audit of the Standalone Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Companies Act, 2013 and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Financial Statements.

# **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Financial Statements of the current period. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

S. No	Key Audit Matters	Auditor's Response
1.	Accuracy of recognition, measurement, presentation and disclosures of revenues and other related balances in view of Ind AS 115 "Revenue from Contracts with Customers" (revenue accounting standard)  The application of the revenue accounting standard involves certain key judgements relating to identification of the contract with a customer, identification of distinct performance obligations, determination of transaction price of the identified performance obligations, the appropriateness of the basis used to measure revenue recognized when a performance obligation is satisfied. Additionally, revenue accounting standard contains disclosures which involves collation of information in respect of disaggregated revenue and periods over which the remaining performance obligations will be satisfied subsequent to the balance sheet date.  Refer Note 2.4c and 21 to the Financial Statements.	Principal Audit Procedures  We assessed the Company's process to identify the impact of revenue accounting standard. Our audit approach consisted testing of the design and operating effectiveness of the internal controls and substantive testing as follows:  • We assessed the appropriateness of the revenue recognition accounting policies by comparing with applicable accounting standards.  • Selected a sample of continuing and new contracts, and tested the operating effectiveness of the internal control, relating to identification of the distinct performance obligations and determination of transaction price. We carried out a combination of procedures involving enquiry and observation, performance and inspection of evidence in respect of operation of these controls.  • Tested the relevant information technology systems' access and change management controls relating to contracts and related information used in recording and disclosing revenue in accordance with the revenue accounting standard.  • Selected a sample of continuing and new contracts and performed the following procedures:  • Read, analysed and identified the distinct performance obligations in these contracts.  • Compared these performance obligations with that identified and recorded by the Company.  • Considered the terms of the contracts to determine the transaction price including any variable consideration to verify the transaction price used to compute revenue and to test the basis of estimation of the variable consideration.  • Samples in respect of revenue recorded upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services, were tested using a combination of sales orders, gate-in and gate-out passes, shipping bills including packing lists, subsequent customs invoicing, bills of lading, customer acceptances and historical trend of collections and disputes.  • Performed analytical procedures for reasonableness

S. No	Key Audit Matters	Auditor's Response
2.	The Company enters into various financial instruments such as investments in quoted and unquoted equity instruments, quoted mutual funds and quoted non-convertible debentures. As at 31st March, 2024, financial instruments carried at fair value through profit and loss totalled ₹ 41,010.19 lakhs (current investments of ₹ 41,003.79 lakhs and non-current investments of ₹ 6.40 lakhs) as disclosed in Note 6 to the Standalone Financial Statements. These financial instruments are recorded at fair value as required by the relevant accounting standard. We have focused on this area due to the complexities associated with the valuation and accounting for these financial instruments.	<ul> <li>Our procedures included but were not limited to:         <ul> <li>Obtaining an understanding of the internal risk management procedures and the systems and controls associated with the origination and maintenance of complete and accurate information relating to financial instruments;</li> <li>Utilizing our treasury experts, we also tested on a sample basis the existence and valuation of derivative contracts as at 31st March, 2024. Our audit procedures focused on the integrity of the valuation models and the incorporation of the contract terms and the key assumptions, including future price assumptions and discount rates; and</li> <li>Obtaining an understanding of key financial instrument contract terms to assess the appropriateness of accounting reflected in the financial report.</li> </ul> </li> <li>We have also assessed the appropriateness of the disclosures included in Note 37 to the Standalone Financial Statements</li> </ul>
3.	Inventory valuation and existence  At the balance sheet date, the value of inventory amounted to ₹ 66,277.26 lakhs representing 28.77% of total assets. Inventories were considered as key audit matter due to the size of the balance and because inventory valuation involves management judgment.  As described in Note 2.4i to the Standalone Financial Statements, inventories are carried at the lower of cost and net realizable value on a weighted average basis  The Company has segment specific procedures for identifying risk for obsolescence and measuring inventories at the lower of cost and net realizable value	<ul> <li>To address the risk for material error on inventories, our audit procedures included amongst other:</li> <li>Assessing the compliance of Company's accounting policies over inventory with applicable accounting standards.</li> <li>Observed the stock take process at Factory locations during the year and at the end of the year and undertook our test counts where ever necessary.</li> <li>Compared the Quantities we counted with Quantities recorded.</li> <li>Analysing the Inventory Ageing reports and Net realizable value of inventories</li> <li>Tested that inventory on hand at the end of the period was recorded at the lower of cost and net realizable value by testing a sample of inventory items to the most recent retail price.</li> </ul>

S. No	Key Audit Matters	Auditor's Response
4	<ul> <li>Purchase of Raw material is being considered as a key audit matter as the Company procures its principle raw materials from the suppliers and the price of the same is highly volatile to the market conditions.</li> <li>Based upon the production requirements and after considering the tentative prices, the management decides the raw materials which have to be procured.</li> <li>The total cost of raw material purchased by the entity for the financial year 2023-24 is ₹ 3,71,478.14 lakhs.</li> </ul>	<ul> <li>Following are some of the substantive tests that were part of our auditing procedures in addition to testing the internal controls' design and effectiveness:</li> <li>Internal controls relating to the purchase of raw materials and payments made to the suppliers of the raw materials on the basis of source documentation have been assessed in terms of their design and tested in terms of their implementation.</li> <li>We have performed test of controls over procurement procedures to assess the operating effectiveness of the controls placed in recognition of the cost of material consumption.</li> <li>We have conducted test of details through correlating the raw materials procured and the raw material consumed as per the production and stock reports.</li> <li>Understood the credit terms for payments to suppliers and assessed whether the same have been complied with.</li> </ul>

# Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report and Shareholder's Information, but does not include the Standalone Financial Statements and our auditor's report thereon.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

# Management's Responsibility and Those charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and

estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

# **Auditor's Responsibility for the Audit of the Standalone Financial Statements**

Our objectives are to obtain reasonable assurance about whether these Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Standalone Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

# **Report on Other Legal and Regulatory Requirements**

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure-A", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

# 2. As required by section 143 (3) of the Act, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books, except for the matters stated in paragraph 2h (vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.
- c) The balance sheet, the statement of profit and loss including other comprehensive income, the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account.
- d) In our opinion, the aforesaid Standalone Financial Statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e) On the basis of the written representations received from the directors as on 31st March, 2024, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2024, from being appointed as a director in terms of Section 164(2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure-B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:
  - In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:

- The Company has disclosed the impact of pending litigations on its financial position in its Standalone Financial Statements- Refer Note 30 to the Standalone Financial Statements.
- ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
- iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

iv)

- a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediaries shall, whether, directly or indirectly lend or invest in other person or entity identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- b) The management has represented that, to the best of its knowledge and belief, no funds have been received by the Company from any person or entity, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other person or entity identified in any manner whatsoever by or on behalf of the Funding Parties ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
- c) Based on the audit procedures that were considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.

v)

- a) The final dividend paid by the Company during the year in respect of the same declared for the previous year is in accordance with section 123 of the Act to the extent it applies to payment of dividend.
- b) The Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend declared is in accordance with section 123 of the Act to the extent it applies to declaration of dividend.
- vi) The reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 is applicable from 01<sup>st</sup> April, 2023.

Based on our examination which included test checks, the Company has used accounting software for maintaining its books of account for the financial year ended 31st March, 2024 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software except in the case of records of property, plant and equipment, payroll and inventory of finished goods which are being maintained manually.

Further, the feature of recording audit trail (edit log) facility was not available at the database level to log any direct data changes for the accounting software used for maintaining the books of account of the Company.

During the course of our audit we did not come across any instance of audit trail feature being tampered with.

As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable from April 01st, 2023, reporting under Rule 11 (g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirements for record retention is not applicable for the financial year ended 31st March, 2024.

# "Annexure – A" to the Independent Auditors' Report

on the Standalone Financial Statements of Avanti Feeds Limited for the year ended 31st March, 2024.

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

- i) In respect of the Company's Property, Plant and Equipment (including right-of-use assets) and Intangible Assets:
  - a) A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment and relevant details of right-of-use assets.
    - B) The Company has maintained proper records showing full particulars of intangible assets.
  - As explained to us, the management has physically verified a substantial portion of the Property, Plant and Equipment during the year and in our opinion frequency of verification is reasonable having regard to the size of the Company and the nature of its assets. The discrepancies noticed on physical verification of Property, Plant and Equipment as compared to the books of account were not material and have been properly dealt with in the books of accounts.
  - c) In our opinion and according to the information and explanations given to us, all the title deeds of immovable properties are held in the name of the Company. In respect of immovable properties of land and buildings that have been taken on lease and disclosed as assets in the financial statements, the lease agreements are in the name of the Company, where the Company is the lessee in the agreement.
  - d) The Company has not revalued any of its Property, Plant and Equipment (including right-of-use assets) and intangible assets during the year.
  - e) No proceedings have been initiated during the year or are pending against the Company as at 31st March, 2024 for holding any Benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.

ii

- a) According to the information and explanations given to us, the inventories have been physically verified by the management during the year. In our opinion, the frequency of verification is reasonable and the coverage and procedure of such verification by the management is appropriate. The discrepancies identified during such verification were not more than 10% in the aggregate for each class of inventory as compared to the books of account.
- b) The Company has been sanctioned working capital limits in excess of five crore rupees from banks on the basis of security of current assets. The quarterly returns or statements filed by the Company with such banks are in agreement with the books of account of the Company.
- iii According to the information and explanations given to us, in our opinion, the investments made by the Company are prima facie not prejudicial to the interest of the Company.
  - The Company has not provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, reporting under clause 3(iii)(a) to 3(iii)(f) of the Order are not applicable.
- iv There are no loans, guarantees and securities in respect of which provisions of sections 185 of the Act are applicable. Investments in respect of which provisions of section 186 of the Act are applicable, have been complied with by the Company.

- v. According to the information and explanations given to us, the Company has neither accepted any deposits from the public nor accepted any amount which are deemed to be deposits within the meaning of Section 73 and 76 or any other relevant provisions of the Act and the rules framed there under. Hence, reporting under clause 3(v) of the Order is not applicable.
- vi. We have broadly reviewed the books of account and records maintained by the Company pursuant to the Rules made by the Central Government of India for the maintenance of cost records prescribed under sub-section (1) of section 148 of the Act, related to generation of electricity and are of the opinion that prima facie, the prescribed accounts and records have been maintained. We have however, not made a detailed examination of the records with a view to determine whether they are accurate or complete.
- vii. In respect of Statutory dues:
  - a) The Company is regular in depositing with appropriate authorities, undisputed statutory dues including provident fund, employees state insurance, income-tax, goods and service tax, value added tax, duty of customs, cess and other statutory dues applicable to it. According to the information and explanations given to us, no undisputed amounts payable in respect of such statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.
  - b) According to the information and explanations given to us, there are no dues of provident fund, employees state insurance, goods and service tax, cess and other statutory dues which have not been deposited on account of any dispute. The details of dues of value added tax, duty of customs and Income Tax Act that have not been deposited on account of any dispute, are as follows:

Name of the Statute	Nature of the Dues	Amount '₹' in Lakhs	Period to which the amount relates	Forum where dispute is pending
Madhya Pradesh VAT Act, 2002	Sales tax (MP VAT demand for soya transactions in 2005-06)	29.22	2005-2006	High Court of Madhya Pradesh
Customs Act, 1962	Customs duty	60.82	2009-2010 to 2011-2012	CESTAT, Chennai
Income Tax Act, 1961	Income Tax	12.23	2013-2014	Commissioner Appeals, Income Tax, Hyderabad
Customs Act, 1962	Customs duty	11.44	2017-2018 & 2018-2019	The Commissioner of Customs (Appeals), JNCH-Navaseva, Mumbai

viii. According to information and explanation given to us, there were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).

xi.

- a) Based on our audit procedures and as per the information and explanations given by the management, we are of the opinion that the Company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to banks. There are no dues to financial institutions or government.
- b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.
- c) The Company has not taken any term loan during the year and there are no outstanding term loans at the beginning of the year and hence, reporting under clause 3(ix)(c) of the Order is not applicable.

- d) On an overall examination of the financial statements of the Company, funds raised on short-term basis have, prima facie, not been used during the year for long-term purposes by the Company.
- e) On an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries or associates. The Company does not have any joint venture.
- f) The Company has not raised any loans during the year on the pledge of securities held in its subsidiaries or associates and hence reporting under clause 3(ix)(f) of the Order is not applicable.

х.

- a) According to the information and explanations given to us, the Company has not raised any money during the year by way of public offer (including debt instruments) and hence reporting under clause 3(x)(a) of the Order is not applicable.
- b) During the year, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause 3(x)(b) of the Order is not applicable.

xi.

- a) Based upon the audit procedures performed for the purpose of reporting the true and fair view of the financial statements and as per the information and explanations given by the management, we report that, no fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
- b) During the year, no report under sub-section (12) of section 143 of the Act has been filed by secretarial auditor or by us in Form ADT 4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.
- c) We have taken into consideration the whistle blower complaints received by the Company during the year (and up to the date of this report), while determining the nature, timing and extent of our audit procedures.
- xii. In our opinion and according to the information and explanations given to us, the Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.
- xiii. According to the information and explanations given to us and based on our examination of the records of the Company, transactions with the related parties are in compliance with sections 177 and 188 of the Act where applicable and details of such transactions have been disclosed in the financial statements as required by the applicable accounting standards.

xiv.

- a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.
- b) We have considered the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedures.
- xv. According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into any non-cash transactions with its directors or persons connected with its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.

xvi.

a) In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3(xvi) (a), (b) and (c) of the Order is not applicable.

- b) In our opinion, there is no Core Investment Company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3(xvi)(d) of the Order is not applicable.
- xvii. The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.
- xviii There has been no resignation of the statutory auditors of the Company during the year.
- xix On the basis of the financial ratios disclosed in Note 39 to the Standalone financial statements, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

XX.

- a) In our opinion and according to the information and explanations given to us, there is no unspent amount towards Corporate Social Responsibility requiring to transfer to a Fund specified in Schedule-VII to the Companies Act in compliance with second proviso to subsection (5) of section 135 of the said Act. Accordingly, reporting under clauses 3(xx)(a) of the Order are not applicable.
- b) In respect of ongoing projects, the Company has transferred unspent CSR amount as at the end of the financial year, to a Special account within a period of 30 days from the end of the said financial year in compliance with the provision of section 135(6) of the Companies Act, 2013.

# Annexure - B to the Independent Auditors' Report Report

# on the Financial Statements of Avanti Feeds Limited for the year ended 31st March, 2024

Report on the Internal Financial Controls over financial reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

(Referred to in paragraph 2(f)) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

We have audited the internal financial controls over financial reporting of **Avanti Feeds Limited** ("the Company") as of 31<sup>st</sup> March, 2024 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

# Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

# **Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

# Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone Financial Statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and

fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the Standalone Financial Statements.

# Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

# **Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the internal financial control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

# 1 Corporate information

Avanti Feeds Limited, ("the Company") is a listed public company incorporated under "The Companies Act, 1956", with its registered office in Visakhapatnam, Andhra Pradesh. Avanti Feeds Limited has started its commercial operations in 1993 and now stands as the leading manufacturer of Shrimp Feed.

The financial statements are approved for issue by the Company's Board of Directors on 22<sup>nd</sup> May, 2024.

# 2 Basis of preparation of financial statements and material accounting policies:

# 2.1 Basis of preparation and measurement

# i Basis of preparation

These financial statements are prepared in accordance with Indian Accounting Standard (Ind AS), the provisions of The Companies Act, 2013 ('the Act') (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued there after.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use

#### ii Basis of measurement

The financial statements have been prepared under the historical cost convention on the accrual basis except for the following financial instruments which are measured at fair values:

- certain financial assets and liabilities are measured at fair value
- biological assets measured at fair value; and
- defined benefit plans- plan assets measured at fair value

# (iii) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash and cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in Cash and Cash equivalents.

#### 2.2 Measurement of fair values

The Company's accounting policies and disclosures require financial instruments to be measured at fair values. The Company has an established control framework with respect to the measurement of fair values.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

# 2.3 Use of estimates and judgements

The preparation of the financial statements in conformity with Ind AS requires the management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements. The areas involving critical estimates or judgements are;

- Estimation of defined benefit obligation
- Useful life of property, plant and equipment
- Fair value of biological asset

# 2.4 Material accounting policies

# a Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

The Chairman and Managing Director (CMD) of the Company has been identified as the chief operating decision maker for the segment information presented.

# b Foreign currency translation

# (i) Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency of its primary economic environment in which the Company operates ('the functional currency'). The financial statements are presented in Indian rupees (₹), which is the Company's functional and presentation currency.

# (ii) Transactions and translations

Foreign-currency denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in net profit in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and nonmonetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction

# c Revenue recognition

The Company earns revenue primarily from sale of Shrimp Feed. Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services. To recognize revenues, we apply the following five step approach:

- 1 identify the contract with a customer,
- 2 identify the performance obligations in the contract,
- 3 determine the transaction price,
- 4 allocate the transaction price to the performance obligations in the contract, and
- 5 recognize revenues when a performance obligation is satisfied.

At contract inception, the Company assesses its promise to transfer products or services to a customer to identify separate performance obligations. The Company applies judgement to determine whether each product or services promised to a customer are capable of being distinct, and are distinct in the context of the contract, if not, the promised product or services are combined and accounted as a single performance obligation. The Company allocates the arrangement consideration to separately identifiable performance obligation based on their relative stand-alone selling price or residual method. Stand-alone selling prices are determined based on sale prices for the components when it is regularly sold separately, in cases where the Company is unable to determine the stand-alone selling price, the Company uses third-party prices for similar deliverables or the

company uses expected cost plus margin approach in estimating the stand-alone selling price.

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold is net of variable consideration on account of various discounts and schemes offered by the company as part of the contract.

# d Government grant

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Government grants relating to income are deferred and recognised in the Statement of Profit and Loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to Statement of Profit and Loss on a straight-line basis over the expected lives of the related assets and presented within other income.

Loans received from government in the nature of interest free deferred sales taxes are treated in the nature of government grant. The difference between the fair value of the loan and the amount of loan received is accounted as government grant. The government grant is recognised in the Statement of Profit and Loss over the period of loan.

# e Income Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Company operates and generates taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions, where appropriate, on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

#### f Ind AS 116 - Leases

As a lessee

The Company's lease asset classes primarily consist of leases for land and buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use (ROU) asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of 12 months or less (short-term leases) and low value leases. For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised. The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

#### g Impairment of assets

Intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less costs of disposal and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash flows from other assets or group of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

# h Cash and cash equivalents

Cash and cash equivalents in the balance sheet includes cash at bank and cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet. For the purpose of statement of cash flows, cash and cash equivalents, cash and short term deposits as defined above is net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

#### i Inventories

Inventories are valued at lower of cost and net realizable value. Cost of raw materials, components and stores and spares is determined on a weighted average basis.

Cost of raw materials comprise of cost of purchase. Cost of work-in-progress and finished goods comprises direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. Cost is determined on a weighted average basis. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

#### j Biological assets

The Company recognises biological assets only when, the Company controls the assets as a result of past events, it is probable that future economic benefits associated with such assets will flow to the Company. Biological assets of the Company are in the nature of Consumable Biological Assets. It is bifurcated into Brood Stock, (the Parents) and harvested species which undergo biological transformation under different stages as Nauplius, Zoea, Mysis and Post Larvae. The Company sells the biological assets harvested from brood stock at Nauplius and Post Larvae Stages. The Brood Stock has a maximum useful life of 6 months for laying eggs. and thereafter these are destroyed.

The valuation of the Brood stock biological assets are determined on the following basis:

Brood stock are used for captive consumption or to support farmers, it can not be sold before the end of its useful life and as such, there is no active market. Other references to market prices such as market prices for similar assets are also not available due to the uniqueness of the breed. Valuation based on a discounted cash flow method is considered to be unreliable given the uncertainty with respect to mortality rates and production. Consequently, brood stock and Shrimp seed (Different stages) are measured at cost, less depreciation and impairment losses.

The transmission phase from Nauplius to Zoea and Mysis are not considered as significant transformation of biological asset and hence Zoea and Mysis are not valued as per Ind AS - 41.

The Company recognises other biological assets at the fair value or cost of the assets that can be measured reliably. Expenditure incurred on biological assets are measured on initial recognition and at the end of each reporting period at its fair value less costs to sell. The gain or loss arising from a change in fair value less costs to sell of biological assets are included in Statement of Profit and Loss for the period in which it arises.

Management estimates the fair value less costs to sell of biological assets, taking into account the most reliable evidence available at each reporting date. The future

realization of these biological assets may be affected by their survival rate, age and / or other market-driven changes that may reduce the future economic benefits associated with such assets. The fair value is arrived at based on the observable market prices of biological assets adjusted for cost to sells, as applicable.

# k Investments and other financial assets

#### i Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The Company reclassifies debt investments when and only when its business model for managing those assets changes.

#### ii Measurement

At initial recognition, the Company measures a financial asset at its fair value, plus in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in Statement of Profit and Loss. However, trade receivables that do not contain a significant financing component are measured at transaction price.

# **Debt instruments**

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

- Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.
- -Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in Statement of Profit and Loss. When the financial

asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/(losses). Interest income from these financial assets is included in other income using the effective interest rate method.

- Fair value through profit or loss: Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the Statement of Profit and Loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

#### **Equity instruments**

The Company subsequently measures all equity investments at fair value. Where the Company elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments are recognised in Statement of Profit and Loss as other income when the Company right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in other gain/(losses) in the Statement of Profit and Loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

# iii Impairment of financial assets

The Company assesses on a forward booking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 37 details how the Company determines whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected life time losses to be recognised from initial recognition of the receivables.

#### iv Derecognition of financial assets

A financial asset is derecognised only when

- the Company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

# v Income recognition

#### Interest income:

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

#### vi Dividends

Dividends are recognised in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

#### I Derivatives

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period and are included in other gains/(losses).

# m Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

#### n Property, plant and equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

# Depreciation methods, estimated useful lives and residual value

Depreciation on tangible assets is calculated on a straight-line basis so as to expense the cost less residual value over the estimated useful life's prescribed and in the manner laid down under Schedule II to the Companies Act, 2013. The useful lives have been determined based on technical evaluation done by the management's expert which are higher than those specified by Schedule II to the Companies Act; 2013, in order to reflect the actual usage of the assets. The estimated useful lives and residual values are reviewed at the end of each reporting period, with the effect of any change in estimate accounted for on a prospective basis. Assets costing individually rupee equivalent of ₹ 5,000 or less are fully charged off on purchase. Depreciation for assets purchased / sold during the period is proportionately charged.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Gains or losses arising from disposal of property, plant and equipment which are carried at cost are recognised in the Statement of Profit and Loss.

# o Intangible assets

Intangible assets that are acquired are recognized at cost initially and carried at cost less accumulated amortization and accumulated impairment loss, if any.

#### i Computer software

Computer software are stated at cost, less accumulated amortisation and impairment losses, if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use.

#### ii Amortisation methods and periods

Intangible assets with finite useful live are amortized over their respective individual estimated useful lives (6 years in case of computer softwares) on a straight line basis.

# p Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the year end which are unpaid . The amounts are unsecured and are usually paid as per mutually agreed terms. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

# q Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/(losses).

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

# r Borrowing Cost

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

Other borrowing costs are expensed in the period in which they are incurred.

# s Provisions, Contingent liabilities & Contingent assets

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provisions is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provisions due to the passage of time is recognized as interest expense.

#### Contingent liabilities

Contingent liabilities are disclosed, unless the possibility of outflow of resources is remote, when there is

- A possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or
- A present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or reliable estimate of the amount cannot be made

The Company has disclosed the same as per the requirements of Ind AS 37.

# Contingent assets

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by- the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. The Company does not recognize the contingent asset in its standalone financial statements since this may result in the recognition of income that may never be realised. Where an inflow of economic benefits are probable, the Company disclose a brief description of the nature of contingent assets at the end of the reporting period. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and the Company recognize such assets.

# t Employee benefits

i Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

ii Other long-term employee benefit obligations

The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

iii Post- employment obligations

The Company operates the following post-employment schemes:

- a defined benefit plans such as gratuity; and
- b defined contribution plans such as Provident fund, Employee State Insurance and Superannuation fund

# **Gratuity obligations**

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefits expense in the Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

#### **Defined contribution plans**

The Company pays provident fund contributions to publicly administered Provident funds and Employee State Insurance funds as per local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefits expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available. Superannuation Scheme (administered through a 'Superannuation Trust' formed by the Company) is a defined contribution plans, where the Company has no further obligations under the plan beyond its monthly/ quarterly contributions.

#### iv Bonus plans

The Company recognises a liability and an expense for bonuses. The Company recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

# u Contributed Equity

Equity shares are classified as equity.

Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

#### v Dividends

Provision is made for the amount of any dividend declared, being appropriately authorized and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at end of the reporting period.

# w Earnings per share

- i Basic earnings per share
  - Basic earnings per share is calculated by dividing the profit attributable to owners of the Company by the weighted average number of equity shares outstanding during the financial year.
- ii Diluted earnings per share
  - Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:
- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

# x Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

#### 2.5 Recent accounting pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended 31<sup>st</sup> March, 2024, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

- (i) The Company purchased soya bean in the year 2004-05, converted the same in to DOC in 2005-06 and used some part for own consumption in manufacturing of shrimp feed and some part was exported. The resultant soya oil was sold locally. The Sales Tax Act pertaining to soya bean processing and soya oil sale was amended with effect from 13<sup>th</sup> December, 2004 and Commercial Tax department took the view that the soya bean purchased prior to 13<sup>th</sup> December, 2004 will attract tax at old rates and a demand to ₹ 29.22 Lakhs was raised. This is being contested by the Company in the High Court of Madhya Pradesh.
- (ii) Company is importing Squid Liver Powder (SLP) which was one of the raw materials for manufacturing of shrimp feed. SLP was imported by the Company under raw material classification. However, Customs has disputed our claim and demanding duty applicable for import of complete feed. Company appealed against the order of CESTAT, Chennai, before Madras High Court.
  - The Company is contesting the demands and the management, including its tax advisors, believe that its position will likely be upheld in the appellate process. No tax expense has

(All amounts in lakhs in Indian Rupees, unless otherwise stated)

been accrued in the financial statements for the tax demand raised. The management believes that the ultimate outcome of this proceeding will not have a material adverse effect on the Company's financial position and results of operations.

- iii) The Income Tax Department has completed the assessment for the assessment year 2013-14 and has raised an additional demand of ₹ 12.23 Lakhs which the Company has contested and filed an appeal with the Commissioner of Appeals, Income Tax.
- iv) The Company has purchased spares like pellet dies etc. in the year 2017-2018 & 2018-2019 under stores & spares classification and paid IGST @ 12%. In the year 2022-23 customs has reclassified these items and charged IGST @ 18% and asked the Company to pay differential tax along with Interest. The Company has paid the differential amount of GST along with interest and asked waiver for fine and penalty. But the customs department has raised a fine ₹ 7,00,000/- and penalty 4,44,140/-. Aggrieved by the demand the Company has filed an appeal with the Commissioner of Customs (Appeals), Maharashtra.

The Company is contesting these demands and believes that its position will likely be upheld in the appellate process. Accordingly, the Company has not accounted the fine and penalty raised by the GST authorities. The management believes that the ultimate outcome of this proceeding will not have a material adverse effect on the Company's financial position and results of operations.

## 35 Employee Benefits

#### i) Leave obligations

The leave obligations cover the Company's liability towards earned leave.

Based on past experience, the Company does not expect all employees to take the full amount of accrued leave or require payment within the next 12 months. The following amounts reflect leave that is expected to be taken or paid within the next 12 months:

Particulars	31st March, 2024	31st March, 2023
Current leave obligations expected to be settled within the next 12 months	79.32	53.85

#### (ii) Defined Contribution Plans

The Company also has certain defined contribution plans. Contributions are made to provident fund (at the rate of 12% of basic salary); Employee State Insurance and Superannuation Fund in India for employees as per regulations. The contributions are made to registered funds administered by the government. The obligation of the Company is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the period towards defined contribution plan is ₹ 493.99 Lakhs (31st March, 2023 - ₹ 371.88 Lakhs)

#### (iii) Defined benefit Plans

#### Gratuity

The Company provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement / termination is the employee's last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. The gratuity plan is a funded plan. The Company does not fully fund the liability and maintains a target level of funding to be maintained over a period of time based on estimations of expected gratuity payments.

The amounts recognised in the balance sheet and the movements in the defined benefit obligation over the year are as follows:

## ii) Significant estimates: actuarial assumptions

The significant actuarial assumptions for defined benefit obligation are as follows:

Particulars	31st March, 2024	31st March, 2023
Discount rate	7.15%	7.50%
Salary escalation rate	10.00%	10.00%
Employee attrition rate	5.00%	5.00%
Assumptions regarding mortality rate are set based on actuarial advice in accordance with published statistics.	IALM (2012-14) Ult.	IALM (2012-14) Ult.
Normal retirement age	60 years	60 years

(All amounts in lakhs in Indian Rupees, unless otherwise stated)

#### (iii) Sensitivity analysis

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

(₹ In lakhs)

				lm	pact on	defined benefi	t obligat	ion
Particulars	Change in assumption			Increase in assumption				ease in nption
	31st March, 2024	31st March, 2023		31st March, 2024	31st March, 2023		31 <sup>st</sup> March, 2024	31st March, 2023
Discount rate	1.00%	1.00%	Decrease by	186.30	150.62	Increase by	218.95	176.81
Attrition rate	50.00%	50.00%	Decrease by	85.71	62.36	Increase by	120.29	87.39
Salary escalation rate	1.00%	1.00%	Increase by	210.73	170.77	Decrease by	183.37	149.65

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

#### (iv) The major categories of plan assets are as follows

Particulars	31st March, 2024	31st March, 2023
Funds managed by SBI Life Insurance Company Limited	2,378.54	1,971.16
Total	2,378.54	1,971.16

#### (v) Risk exposure

Through its defined benefit plan, the Company is exposed to a number of risks, the most significant of which are detailed below:

Asset volatility: The plan liabilities are calculated using a discount rate set with reference to bond yields; if plan assets under perform this yield, this will create a deficit. The Company's plan assets are insurer managed funds and are subject to less material risk.

Changes in bond yields: A decrease in bond yields will increase plan liabilities and the Company ensures that it has enough reserves to fund the liability

#### vi) Defined benefit liability and employer contributions

Expected contributions to define benefit plans for the year ending 31st March, 2025 is ₹ 388.05 lakhs

#### i) Fair value hierarchy

The carrying amount of the current financial assets and current financial liabilities are considered to be same as their fair values, due to their short term nature. In absence of specified maturity period, the carrying amount of the non-current financial assets and non-current financial liabilities such as security deposits, are considered to be same as their fair values.

The fair value of quoted equity investments, has been classified as Level 1 in the fair value hierarchy as the fair value has been determined on the basis of market value. The fair value of unquoted equity instruments has been classified as Level 2 in the fair value hierarchy as the fair

(All amounts in lakhs in Indian Rupees, unless otherwise stated)

value has been determined on the basis of discounted cash flows. The fair value of mutual funds is classified as Level 2 in the fair value hierarchy as the fair value has been determined on the basis of Net Assets Value (NAV) declared by the mutual fund. The fair value of Financial derivative contracts has been classified as Level 2 in the fair value hierarchy as the fair value has been determined on the basis of mark-to-market provided by the Bank from which the contract has been entered. The corresponding changes in fair value of investment is disclosed as 'Other Income'.

## 37 Financial Risk Management

The Company activities expose it to market risk, liquidity risk and credit risk. This note explains the sources of risk which the Company is exposed to and how the Company manages the risk.

Risk	Exposure arising from	Measurement	Management
Credit Risk	Cash and cash equivalents, trade receivables, security deposits, other bank deposits and loans	Ageing analysis Credit ratings of customers and subsidiaries	Credit monitoring for customers. Diversification of bank deposits.
Liquidity Risk	Borrowings	Cash flow forecasts managed by Joint Managing Director (JMD).	Working capital management by General Manager in under the guidance of Joint Managing Director. The excess liquidity is channelised through mutual funds and bank deposits.

The Company's risk management is carried out by the JMD under policies approved by the Risk Management Committee a sub-committee of the Board of Directors. The Committee provides guiding principles for overall risk management, as well as policies covering specific areas such as interest rate risk, credit risk and investment of excess liquidity.

#### **Credit Risk**

#### i) Credit Risk Management

Credit risk arises from cash and cash equivalents, loans, security deposits and deposits with banks and financial institutions, as well as credit exposures to customers including outstanding receivables.

(All amounts in lakhs in Indian Rupees, unless otherwise stated)

Credit risk is managed by the Marketing General Manager of the Avanti Feeds Limited. The Company has few customer with most of them being foreign customers. The Company provides a credit period of 60-90 days which is in line with the normal industry practice.

The Marketing GM undertakes the credit analysis of each customer before transacting. The finance team under the guidance of Marketing GM also periodically review the credit rating of the customers and follow up on long outstanding invoices.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an on going basis through out each reporting period. To assess whether there is a significant increase in credit risk the Company compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forwarding-looking information. The below factors are considered:

- external credit rating (as far as available)
- actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the borrower's ability to meet its obligations.
- actual or expected significant changes in the operating results of the borrower.
- significant increase in credit risk on other financial instruments of the same borrower.
- Significant changes in the expected performance and behaviour of the borrower, including changes in the payment status of the borrower in the Company and changes in operating results of the borrower.

Macro economic information (such as regulatory changes, market interest rate or growth rates) is incorporated as part of the internal rating model. In general, it is presumed that credit risk has significantly increased since initial recognition if the payments are more than 180 days past due.

A default on a financial asset is when the counter party fails to make contractual payments within 365 days of when they fall due. This definition of default is determined by considering the business environment in which the entity operates and other macro-economic factors.

#### ii) Provision for expected credit losses

The Company provides for expected credit loss based on the following:

Category	Description of category	Basis for recognition of expected credit loss provision			
		Investments	Loans and deposits	Trade receivables	
High quality assets, low credit risk	Assets where there is low risk of default and where the counterparty has sufficient capacity to meet the obligations and where there has been low frequency of defaults in the past	expected credit	12-month expected credit losses	Life time expected credit losses	
Medium risk, moderate credit risk	Assets where the probability of default is considered moderate, counter party where the capacity to meet the obligation is not strong	12-month expected credit losses	12-month expected credit losses	Life time expected credit losses

#### **Liquidity Risk**

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Joint Managing Director monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows and any excess/short liquidity is managed in the form of current borrowings, bank deposits and investment in mutual funds.

#### i) Maturities of financial liabilities

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and include estimated interest payments and exclude the impact of netting agreements.

### INDEPENDENT AUDITORS' REPORT

#### To the Members of Avanti Feeds Limited

#### **Report on the Audit of the Consolidated Financial Statements**

#### **Opinion**

We have audited the accompanying Consolidated Financial Statements of **Avanti Feeds Limited** ('the Company') and its subsidiaries (collectively referred to as "the Group"), and its associate, which comprise the Consolidated Balance Sheet as at 31<sup>st</sup> March, 2024, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year ended on that date and notes to the Consolidated Financial Statements, including a summary of material accounting policies and other explanatory information (herein after referred to as "the Consolidated Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31st March, 2024, the consolidated profit including other comprehensive income, consolidated statement of changes in equity and the consolidated statement of cash flows for the year ended on that date.

#### **Basis for Opinion**

We conducted our audit of the Consolidated Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements under the provisions of the Companies Act, 2013 and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Financial Statements.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Financial Statements of the current period. These matters were addressed in the context of our audit of the Consolidated Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

S. No	Key Audit Matters	Auditor's Response
1.	Accuracy of recognition,	Principal Audit Procedures
	measurement, presentation and disclosures of revenues and other related balances in view of Ind AS 115 "Revenue from Contracts with Customers" (revenue accounting	We assessed the Company's process to identify the impact of revenue accounting standard. Our audit approach consisted testing of the design and operating effectiveness of the internal controls and substantive testing as follows:
	Customers" (revenue accounting standard)  The application of the revenue accounting standard involves certain key judgements relating to identification of the contract with a customer, identification of distinct performance obligations, determination of transaction price of the identified performance obligations, the appropriateness of the basis used to measure revenue recognized when a performance obligation is satisfied. Additionally, revenue accounting standard contains disclosures which involves collation of information in respect of disaggregated revenue and periods over which the remaining performance obligations will be satisfied subsequent to the balance sheet date.  Refer Note 2.5c and 23 to the Consolidated Financial Statements.	<ul> <li>We assessed the appropriateness of the revenue recognition accounting policies by comparing with applicable accounting standards.</li> <li>Selected a sample of continuing and new contracts, and tested the operating effectiveness of the internal control, relating to identification of the distinct performance obligations and determination of transaction price. We carried out a combination of procedures involving enquiry and observation, performance and inspection of evidence in respect of operation of these controls.</li> </ul>

S. No	Key Audit Matters	Auditor's Response
2.	The Company enters into various financial instruments such as investments in quoted and unquoted equity instruments, quoted mutual funds and quoted non-convertible debentures. As at 31st March, 2024, financial instruments carried at fair value through profit and loss totaled ₹ 50,839.32 Lakhs (current investments of ₹ 50,832.92 Lakhs and non-current investments of ₹ 6.40 Lakhs) as disclosed in Note 7 to the Consolidated Financial Statements. These financial instruments are recorded at fair value as required by the relevant accounting standard. We have focused on this area due to the complexities associated with the valuation and accounting for these financial instruments.	Our procedures included but were not limited to:  Obtaining an understanding of the internal risk management procedures and the systems and controls associated with the origination and maintenance of complete and accurate information relating to financial instruments;  Utilizing our treasury experts, we also tested on a sample basis the existence and valuation of derivative contracts as at 31st March, 2024. Our audit procedures focused on the integrity of the valuation models and the incorporation of the contract terms and the key assumptions, including future price assumptions and discount rates; and  Obtaining an understanding of key financial instrument contract terms to assess the appropriateness of accounting reflected in the financial report.  We have also assessed the appropriateness of the disclosures included in Note 40 to the Consolidated Financial Statements.
3.	Inventory valuation and existence:  At the balance sheet date, the value of inventory amounted to ₹ 88,518.13 Lakhs representing 28.57% of total assets. Inventories were considered as key audit matter due to the size of the balance and because inventory valuation involves management judgment.  As described in note 2.5i to the Consolidated Financial Statements, inventories are carried at the lower of cost and net realizable value on a weighted average basis.  The Company has segment specific procedures for identifying risk for obsolescence and measuring inventories at the lower of cost and net realizable value.	To address the risk for material error on inventories, our audit procedures included amongst other:  Assessing the compliance of Company's accounting policies over inventory with applicable accounting standards.  Observed the stock take process at Factory locations during the year and at the end of the year and undertook our test counts where ever necessary.  Compared the Quantities we counted with Quantities recorded.  Analysing the Inventory Ageing reports and Net realizable value of inventories.  Tested that inventory on hand at the end of the period was recorded at the lower of cost and net realizable value by testing a sample of inventory items to the most recent retail price.

S. No	Key Audit Matters	Auditor's Response
4	Purchase of Raw material:  Purchase of Raw material is being considered as a key audit matter as the Company procures its principle raw materials from the suppliers and the price of the same is highly volatile to the market conditions.  Based upon the production requirements and after considering the tentative prices, the management decides the raw materials which have to be procured.  The total cost of Raw material purchased by the Entity for the financial year 2023-24 is  ₹ 4,40,406.87 Lakhs.	The following are some of the substantive tests that were part of our auditing procedures in addition to testing the internal controls design and effectiveness.: Internal controls relating to the purchase of raw materials and payments made to the suppliers of the raw materials on the basis of source documentation have been assessed in terms of their design and tested in terms of their implementation.  We have performed test of controls over procurement procedures to assess the operating effectiveness of the controls placed in recognition of the cost of material consumption.  We have conducted test of details through correlating the raw materials procured and the raw material consumed as per the production and stock reports.  Understood the credit terms for payments to suppliers and assessed whether the same have been complied with.

### Information Other than the Consolidated Financial Statements and Auditor's Report There on

The Holding Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report and Shareholder's Information, but does not include the Consolidated Financial Statements, Standalone financial Statements and our auditor's report thereon.

Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Consolidated Financial Statements that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated total comprehensive income, consolidated changes in equity and consolidated cash flows of the Group including its associate in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group are responsible for maintenance of the adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of

the accounting records, relevant to the preparation and presentation of the Consolidated Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error which have been used for the purpose of preparation of the Consolidated financial statements by the Directors of the Company, as aforesaid.

In preparing the Consolidated Financial Statements, the respective Board of Directors of the companies included in the Group and of its associate are responsible for assessing the ability of the Group and of its associate to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associate are responsible for overseeing the financial reporting process of the Group and of its associate.

#### Auditor's Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether these Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company, its subsidiary companies and associate company which are companies incorporated in India, have adequate internal financial controls system in place and the operating effectiveness of such controls.

Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associate to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associate to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associate to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the Consolidated Financial Statements.

Materiality is the magnitude of misstatements in the Consolidated Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Consolidated financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Other Matters**

We did not audit the financial statements / financial information of three subsidiaries included in the consolidated financial results, whose financial statements / information reflect total assets of ₹ 92,485.72 Lakhs as at 31st March, 2024 and total revenues of ₹ 1,11,890.91 Lakhs for the year ended 31st March, 2024, total net profit after tax of ₹ 9,001.88 Lakhs for year ended 31st March, 2024, total comprehensive income of ₹ 8,995.93 Lakhs for the year ended 31st March, 2024 and net cash flows of ₹ (461.12) Lakhs for the year ended 31st March, 2024, as considered in the Statement. #### of even date on the Consolidated Financial Statements of Avanti Feeds Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

(Referred to in paragraph 2(f)) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date).

In conjunction with our audit of the Consolidated Financial Statements of Avanti Feeds Limited as of and for the year ended 31<sup>st</sup> March, 2024, we have audited the internal financial controls over financial reporting of Avanti Feeds Limited (hereinafter referred to as "the Company"), its subsidiary companies and associate company which are companies incorporated in India, as of that date.

#### Management's Responsibility for Internal Financial Controls

The Board of Directors of the Company, its subsidiary companies and associate company, which are companies incorporated in India are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### **Auditors' Responsibility**

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company, its subsidiary companies and associate company, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the on the internal financial controls system over financial reporting of the Company, its subsidiary companies and associate company, which are companies incorporated in India.

#### Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### **Opinion**

In our opinion and to the best of our information and according to the explanations given to us, the Company, its subsidiary companies and associate company, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

### **Notes forming part of the Consolidated Financial Statements**

for the year ended 31st March, 2024

#### 1. Corporate information

Avanti Feeds Limited ('AFL' or the 'Company') is a listed public Company under "The Companies Act, 1956", with its registered office in Visakhapatnam. The company started its commercial operations in 1993 and now stands as the leading manufacturer of Shrimp Feed. AFL has three subsidiaries (incorporated in India) named Avanti Frozen Foods Private Limited (AFFPL) and Srivathsa Power Projects Private Limited, (SPPPL) and Avanti Pet Care Private Limited (APCPL). AFFPL is engaged in the business of exporting Shrimp, SPPPL is engaged in the business of generation and distribution of electricity and APCPL is engaged in manufacturing and trading of Pet Feeds. AFL, AFFPL, SPPPL and APCPL are hereinafter referred to as the 'Group'.

The Group's consolidated financial statements are approved for issue by the Company's Board of Directors on May 22, 2024.

### 2. Basis of preparation of financial statements and material accounting policies

#### 2.1 Basis of preparation and measurement

#### (i) Basis of preparation

These financial statements are prepared in accordance with Indian Accounting Standard (Ind AS), the provisions of the Companies Act, 2013 ('the Act') (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued there after.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use

#### (ii) Basis of measurement

The financial statements have been prepared under the historical cost convention on the accrual basis except for the following financial instruments which are measured at fair values:

- certain financial assets and liabilities that are measured at fair value
- biological assets measured at fair value; and
- defined benefit plans- plan assets measured at fair value

#### (iii) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash and cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading

- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in Cash and Cash equivalents.

#### 2.2. Principles of consolidation and equity accounting

#### (i) Subsidiaries

Subsidiaries are all entities (including structured entities) over which the group has control. The group controls an entity when the group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the group.

The group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit and loss, consolidated statement of changes in equity and balance sheet respectively.

#### (ii) Associates

Associates are all entities over which the group has significant influence but not control. This is generally the case where the group holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting, after initially being recognised at cost.

#### (iii) Equity method

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the group's share of the post-acquisition profits or losses of the investee in profit and loss, and the group's share of other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates and joint ventures are recognised as a reduction in the carrying amount of the investment.

When the group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the group and its associates and joint ventures are eliminated to the extent of the group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been

changed where necessary to ensure consistency with the policies adopted by the group.

The carrying amount of equity accounted investments are tested for impairment in accordance with the impairment policy.

#### iv) Changes in Ownership Interest

The group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised within equity.

When the group ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is re measured to its fair value with the change in carrying amount recognised in profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

If the ownership interest in a joint venture or an associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to profit or loss where appropriate.

#### 2.3 Measurement of fair values

The Company's accounting policies and disclosures require financial instruments to be measured at fair values. The Company has an established control framework with respect to the measurement of fair values.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

#### 2.4 Use of estimates and judgements

The preparation of the financial statements in conformity with Ind AS requires the management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements. The areas involving critical estimates or judgements are;

- Estimation of defined benefit obligation, refer note 38
- Useful life of property, plant and equipment refer note 2.4 (o)
- Fair value of biological asset refer note 2.4 (k)

#### 2.5 Material accounting policies

#### a. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

The Chairman and Managing Director (CMD) of the Holding company has been identified as the chief operating decision maker. Refer Note 37 for the segment information presented.

#### b. Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of the Group are measured using the currency of its primary economic environment in which the company operates ('the functional currency'). The consolidated financial statements are presented in Indian rupees (₹), which is the Group's functional and presentation currency.

#### (ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss. Foreign exchange difference regarded as an adjustment to borrowing costs are presented in the Statement of Profit and Loss, within finance costs. All other foreign exchange gains and losses are presented in the Statement of Profit and Loss on a net basis within other gains/(losses).

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

#### c. Revenue recognition

The Company earns revenue primarily from sale of Shrimp Feed and Shrimp Exports Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services. To recognize revenues, we apply the following five step approach:

- (1) identify the contract with a customer,
- (2) identify the performance obligations in the contract,
- (3) determine the transaction price,
- (4) allocate the transaction price to the performance obligations in the contract, and
- (5) recognize revenues when a performance obligation is satisfied.

At contract inception, the Company assesses its promise to transfer products or services to a customer to identify separate performance obligations. The Company applies judgement to determine whether each product or services promised to a customer are capable of being distinct, and are distinct in the context of the contract, if not, the promised product or services are combined and accounted as a single performance obligation. The Company allocates the arrangement consideration to separately identifiable performance obligation based on their relative stand-alone selling price or residual method. Stand-alone selling prices are determined based on sale prices for the components when it is regularly sold separately, in cases where the Company is unable to determine the stand-alone selling price the Company uses third-party prices for similar deliverables or the company uses expected cost plus margin approach in estimating the stand-alone selling price.

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold is net of variable consideration on account of various discounts and schemes offered by the company as part of the contract.

#### d. Government grant

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

Government grants relating to income are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented within other income.

Loans received from government in the nature of interest free deferred taxes are treated in the nature of government grant. The difference between the fair value of the loan and the amount of loan received is accounted as government grant. The government grant is recognised in the statement profit and loss over the period of loan.

#### e. Income Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Group operates and generates taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions, where appropriate, on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying

amounts in the financial statements. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

#### f. Ind AS 116 Leases:

As a lessee

The Company's lease asset classes primarily consist of leases for land and buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use (ROU) asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of 12 months or less (short-term leases) and low value leases. For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised. The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Effective April 01, 2019 the Company adopted IND AS 116, Leases and applied the standard to all lease contracts existing on 01st April, 2019 using the modified retrospective method and has taken the cumulative adjustment to retained earnings, on the date of initial application. Consequently, the Company recorded the lease liability at the present value of the lease payments discounted at the incremental

borrowing rate and the ROU asset as its carrying amount as if the standard had been applied since the commencement date of the lease, but discounted at the Company's incremental borrowing rate at the Company's incremental borrowing rate at the date of initial application. Comparatives as at and for the year ended 31st March, 2019 have not been retrospectively adjusted and therefore will continue to be reported under the accounting polices included as part of our Annual Report for the year 31st March, 2019

#### g. Impairment of assets

Intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less costs of disposal and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash flows from other assets or group of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

#### h. Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

#### i. Inventories

Inventories are valued at lower of cost and net realizable value. Cost of raw materials, components and stores and spares is determined on a weighted average basis.

Cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. Cost is determined on a weighted average basis. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

#### j. Biological assets

The group recognises biological assets of only when, the group controls the assets as a result of past events, it is probable that future economic benefits associated with such assets will flow to the group. Biological assets of the Group are in the nature of Consumable Biological Assets. It is bifurcated into Live Shrimp, Brood Stock, (the Parents) and harvested species which undergo biological transformation under different stages as Nauplius, Zoea, Mysis and Post Larvae. The Group sells the biological assets harvested from brood stock at Nauplius and Post Larvae Stages. The Brood Stock has a maximum useful life of 6 months for laying eggs. and thereafter these are destroyed.

The valuation of the Brood stock biological assets are determined on the following basis:

Brood stock are used for captive consumption or to support farmers, it can not be sold before the end of its useful life and as such, there is no active market. Other references to market prices such as market prices for similar assets are also not available due to the uniqueness of the breed. Valuation based on a discounted cash flow method is considered to be unreliable given the uncertainty with respect to mortality rates and production. Consequently, brood stock and Shrimp seed (Different stages) are measured at cost, less depreciation and impairment losses.

The transmission phase from Nauplius to Zoea and Mysis are not considered as significant transformation of biological asset and hence Zoea and Mysis are not valued as per Ind AS - 41.

The fair value of biological assets is based on its market condition as on the reporting date. The quoted price in the market is the appropriate basis for determining the fair value of these biological assets.

In the event that market determined prices or values are not available for biological assets in its present condition we use the present value of the expected net cash flows from the asset discounted at a current market determined rate in determining fair value.

Fair Value Inputs are summarised as follows:

Level 1 Price Inputs – are quoted prices (unadjusted) in active markets for identical assets or liabilities that can be accessed at the measurement date.

Level 2 Price Inputs – are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 Price Inputs – are inputs for the asset or liability that are not based on observable market data (unobservable inputs)."

The valuation of the live Shrimp consumable biological assets are determined on the following basis:

The group recognises of Live Shrimp at cost of the assets or the fair value which can be measured reliably. Expenditure incurred on biological assets (live Shrimp) are measured on initial recognition and at the end of each reporting period at its fair value less costs to sell. The gain or loss arising from a change in fair value less costs to sell of biological assets are included in Statement of Profit and Loss for the period in which it arises.

Management estimates the fair value less costs to sell of biological assets, taking into account the most reliable evidence available at each reporting date. The future realization of these biological assets may be affected by their survival rate, age and / or other market-driven changes that may reduce the future economic benefits associated with such assets. The fair value is arrived at based on the observable market prices of biological assets adjusted for cost to sells, as applicable.

#### k. Investments and other financial assets

(i) Classification

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit

or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

#### (ii) Measurement

At initial recognition, the Group measures a financial asset at its fair value, plus in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss. However, trade receivables that do not contain a significant financing component are measured at transaction price.

#### **Debt instruments**

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group classifies its debt instruments:

- Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.
- Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/(losses). Interest income from these financial assets is included in other income using the effective interest rate method.
- Fair value through profit or loss: Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the Statement of Profit and Loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

#### **Equity instruments**

The Group subsequently measures all equity investments at fair value. Where the Group elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments are recognised in profit or loss as other income when the group's right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in other gain/(losses) in the Statement of Profit and Loss. Impairment

losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

#### (iii) Impairment of financial assets

The Group assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 40 details how the Group determines whether there has been a significant increase in credit risk.

For trade receivables only, the Group applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected life time losses to be recognised from initial recognition of the receivables.

#### (iv) De recognition of financial assets

A financial asset is derecognised only when

- the Group has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Group evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Group has not retained control of the financial asset. Where the Group retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

#### (v) Income recognition

#### Interest income:

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

#### Dividends:

Dividends are recognised in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Group, and the amount of the dividend can be measured reliably.

#### I. Derivatives

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period and are included in other gains/(losses).

#### m. Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

#### n. Property, plant and equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

#### Depreciation methods, estimated useful lives and residual value

Depreciation / amortisation on tangible assets is calculated on a straight-line basis as per the useful life prescribed and in the manner laid down under Schedule II to the Companies Act, 2013. The useful lives have been determined based on technical evaluation done by the management's expert which are higher than those specified by Schedule II to the Companies Act; 2013, in order to reflect the actual usage of the assets. Assets costing individually rupee equivalent of  $\ref{totaleq}$  5,000 or less are fully charged off on purchase. Depreciation for assets purchased / sold during the period is proportionately charged.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Gains or losses arising from disposal of fixed assets which are carried at cost are recognised in the Statement of Profit and Loss.

#### o. Intangible assets

Intangible assets that are acquired are recognized at cost initially and carried at cost less accumulated amortization and accumulated impairment loss, if any.

#### (i) Computer software

Computer software are stated at cost, less accumulated amortisation and impairment losses, if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any.

#### (ii) Amortisation methods and periods

Intangible assets are amortized over their respective individual estimated useful lives of 6 years on a straight line basis.

#### p. Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the year end which are unpaid. The amounts are unsecured and are usually paid as per mutually agreed terms. Trade and other payables are presented as current

liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

#### q. Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/(losses).

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

#### r. Borrowing Cost

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

Other borrowing costs are expensed in the period in which they are incurred.

#### s. Provisions, Contingent liabilities & Contingent assets

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provisions is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provisions due to the passage of time is recognized as interest expense.

#### Contingent liabilities

Contingent liabilities are disclosed, unless the possibility of outflow of resources is remote, when there is

- A possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or
- A present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or reliable estimate of the amount cannot be made

The Company has disclosed the same as per the requirements of Ind AS 37.

#### Contingent assets

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by- the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. The Company does not recognize the contingent asset in its standalone financial statements since this may result in the recognition of income that may never be realised. Where an inflow of economic benefits are probable, the Company disclose a brief description of the nature of contingent assets at the end of the reporting period. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and the Company recognize such assets.

#### t. Employee benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Other long-term employee benefit obligations

The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Re measurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

#### (iii) Post- employment obligations

The Group operates the following post-employment schemes:

- (a) defined benefit plans such as gratuity; and
- (b) defined contribution plans such as provident fund, Employee State Insurance and superannuation fund

#### **Gratuity obligations**

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated in INR is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit and Loss.

Re measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

#### **Defined contribution plans**

The Group pays provident fund contributions to publicly administered provident funds and Employee State Insurance funds as per local regulations. The Group has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available. Superannuation Scheme (administered through a 'Superannuation Trust' formed by the Group) is a defined contribution plans, where the Group has no further obligations under the plan beyond its monthly/ quarterly contributions.

#### (iv) Bonus plans

The Group recognises a liability and an expense for bonuses. The Group recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

#### u. Contributed Equity

Equity shares are classified as equity.

Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

#### v. Dividends

Provision is made for the amount of any dividend declared, being appropriately authorized and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

#### w. Earnings per share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Group;
- by the weighted average number of equity shares outstanding during the financial year.
- (ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

#### x. Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

#### Statement of profit and loss:

 Additional disclosures relating to Corporate Social Responsibility (CSR), undisclosed income and Crypto or virtual currency specified under the head 'additional information' in the notes forming part of the standalone financial statements.

#### 2.6. Recent accounting pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. - i) The Company purchased soya bean in the year 2004-05, converted the same in to DOC in 2005-06 and used some part for own consumption in manufacturing of shrimp feed and some part was exported. The resultant soya oil was sold locally. The Sales Tax Act pertaining to soya bean processing and soya oil sale was amended with effect from 13.12.2004 and Commercial Tax department took the view that the soya bean purchased prior to 13.12.2004 will attract tax at old rates and a demand to ₹ 29.22 lakhs was raised. This is being contested by the Company in the High Court of Madhya Pradesh.
- ii) Company is importing Squid Liver Powder (SLP) which is one of the raw materials for manufacturing of shrimp feed. SLP is imported by the Company under raw material classification. However, Customs has disputed our claim and demanding duty applicable for import of complete feed. Company appealed against the order of CESTAT, Chennai, before Madras High Court.
  - The Company is contesting the demands and the management, including its tax advisors, believe that its position will likely be upheld in the appellate process. No tax expense has been accrued in the financial statements for the tax demand raised. The management believes that the ultimate outcome of this proceeding will not have a material adverse effect on the company's financial position and results of operations.
- iii) The Income Tax Department has completed the assessment for the asst. year 2013-14 and has raised an additional demand of ₹ 12.23 Lakhs which the Company has contested and filed an appeal with the Commissioner of Appeals, Income Tax.
- iv) The Company has purchased spares like pellet dies etc. in the year 2017-2018 & 2018-2019 under stores & spares classification and paid IGST @12%. In the year 2022-23 customs has reclassified these items and charged IGST @18% and asked the Company to pay differential tax along with Interest. The Company has paid the differential amount of GST along with interest and asked waiver for fine and penalty. But the customs department has raised a fine

(All amounts in lakhs in Indian Rupees, unless otherwise stated)

₹ 7,00,000/- and penalty ₹ 4,44,140/-. Aggrieved by the demand the Company has filed an appeal with the Commissioner of Customs (Appeals), Maharashtra.

The Company is contesting these demands and believes that its position will likely be upheld in the appellate process. Accordingly, the Company has not accounted the fine and penalty raised by the GST authorities. The management believes that the ultimate outcome of this proceeding will not have a material adverse effect on the Company's financial position and results of operations.

- iv) The department of commercial taxes has conducted GST audit for the financial year 2017-18 and issued a show cause notice for non-reversal of input tax credit under rule 42, for MEIS scrips sales. The Company has filed a response that ITC on common inputs were reversed during the investigation by Anti Evasion, Central Tax, Kakinada and submitted evidence of payment to the department. However, the department has calculated reversal of ITC on total inputs instead of common inputs and passed an order u/s 73 on 28/12/2023, with a demand of ₹ 56.57 lakhs, including interest. The Company has filed an appeal against department's order, before the Appellate Additional Commissioner of State Tax, Vijayawada on 26th March, 2024.
  - The management believes that the ultimate outcome of this proceeding will not have a material adverse effect on the Company's financial position and results of operations
- v) The Company disputed the demand raised by the Income Tax department for the financial year 2014-15 and approached Commissioner appeal for resolution. In this regard paid an amount of ₹ 8.00 Lakhs.
- vi) The Company disputed the demands raised by GAIL (India) Limited with respect to retrospective revision in prices of gas supplied during July, 2005 to March, 2010. The Company paid the amount of ₹ 296 lakhs under protest. The matter is pending with Hon'ble Supreme Court of India.
- vii) The Company disputed the demand raised by Oil and Natural Gas Corporation Limited (ONGC) with respect to increase in price of gas supplied during June, 2014 to July, 2014 for an amount of ₹ 30 lakhs. The matter is submitted to arbitrator as per the order of Hon'ble Districts and Sessions Court, East Godavari district, Rajahmundry.

# 38 Employee Benefits

### (i) Leave obligations

The leave obligations cover the group's liability towards earned leave.

Based on past experience, the Group does not expect all employees to take the full amount of accrued leave or require payment within the next 12 months. The following amounts reflect leave that is expected to be taken or paid within the next 12 months:

Particulars	31st March, 2024	31st March, 2023
Current leave obligations expected to be settled within the next 12 months	130.51	93.02

### (ii) Defined Contribution Plans

The Group also has certain defined contribution plans. Contributions are made to provident fund (at the rate of 12% of basic salary), Employee State Insurance and Super Annuation fund in India for employees as per regulations. The contributions are made to registered funds administered by the government. The obligation of the Group is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the period towards defined contribution plan is ₹ 818.73 lakhs (31st March, 2023 ₹ 679.81 lakhs)

### (iii) Defined benefits Plan

**Gratuity:** The Group provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement / termination is the employee's last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. The gratuity plan is a funded plan. The Group does not fully fund the liability and maintains a target level of funding to be maintained over a period of time based on estimations of expected gratuity payments.

### **Balance sheet amounts- Gratuity**

Deficit of gratuity plan	249.86	168.59

# (ii) Significant estimates: actuarial assumptions

The significant actuarial assumptions for defined benefit obligation are as follows:

Particulars	31st March, 2024	31st March, 2023
Discount rate	7.15%	7.50%
Salary escalation rate	10.00%	10.00%
Employee attrition rate	10.00%	10.00%

actuarial advice in accordance with published statistics.	Ult.	Ult.
Normal retirement age	60 years	60 years

(All amounts in lakhs in Indian Rupees, unless otherwise stated)

# (iii) Sensitivity analysis

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

	Change in assumption		Increase in assumption			Decrease in assumption		
Particulars	31st March 2024 (₹ in lakhs)	31st March 2023 (₹ in lakhs)		31st March 2024 (₹ in lakhs)	31st March 2023 (₹ in lakhs)		31st March 2024 (₹ in lakhs)	31 <sup>st</sup> March 2023 (₹ in lakhs)
Discount rate	1.00%	1.00%	Decrease by	215.24	174.33	Increase by	251.87	203.76
Attrition rate	50.00%	50.00%	Decrease by	104.33	75.47	Increase by	152.48	110.08
Salary escalation rate	1.00%	1.00%	Increase by	181.53	147.19	Decrease by	156.89	128.02

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

### (iv) The major categories of plan assets are as follows

Particulars	31st March, 2024	31st March, 2023
Funds managed by Life Insurance Corporation of India	2,741.43	2,273.79
Total	2,741.43	2,273.79

### (v) Risk exposure

Through its defined benefit plan, the Group is exposed to a number of risks, the most significant of which are detailed below:

**Asset volatility:** The plan liabilities are calculated using a discount rate set with reference to bond yields; if plan assets under perform this yield, this will create a deficit. The Group's plan assets are insurer managed funds and are subject to less material risk.

**Changes in bond yields:** A decrease in bond yields will increase plan liabilities and the Group ensures that it has enough reserves to fund the liability.

### (vi) Defined benefit liability and employer contributions

Expected contributions to post-employment benefit plans for the year ending 31st March, 2025 is ₹ 502.07 lakhs.

### (i) Fair value hierarchy

The carrying amount of the current financial assets and current financial liabilities are considered to be same as their fair values, due to their short term nature. In absence of specified maturity period, the carrying amount of the non-current financial assets and non-current financial liabilities such as security deposits given, are considered to be same as their fair values.

The fair value of quoted equity investments, has been classified as Level 1 in the fair value hierarchy as the fair value has been determined on the basis of market value. The fair value of unquoted equity instruments has been classified as Level 2 in the fair value hierarchy as the fair value has been determined on the basis of discounted cash flows. The fair value of mutual funds is classified as Level 2 in the fair value hierarchy as the fair value has been determined on the basis of Net Assets Value (NAV) declared by the mutual fund. The fair value of Financial

(All amounts in lakhs in Indian Rupees, unless otherwise stated)

derivative contracts has been classified as Level 2 in the fair value hierarchy as the fair value has been determined on the basis of mark-to-market provided by the Bank from which the contract has been entered. The corresponding changes in fair value of investment is disclosed as 'Other Income'.

# 40. Financial Risk Management

The Group's activities expose it to market risk, liquidity risk and credit risk. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk.

Risk	<b>Exposure arising from</b>	Measurement	Management
Credit Risk	Cash and cash equivalents, trade receivables, security deposits, other bank deposits and loans	Ageing analysis Credit ratings of customers and fellow subsidiaries	Credit monitoring for customers. Diversification of bank deposits.
Liquidity Risk	Borrowings	Cash flow forecasts managed by Joint Managing Director (JMD).	Working capital management by General Manager in under the guidance of Joint Managing Director. The excess liquidity is channelised through mutual funds and bank deposits.
Market Risk - interest rate	Long term borrowings at variable rate	Sensitivity analysis	Capital is managed by Managing Director. The capital requirements are managed by analyzing the funds requirement and budgets in conjunction with the strategic plan.
Market Risk - Price risk	From investment in equity shares	Market and price sensitivity analysis.	The portfolio is not large and the risk is not significant.
Market Risk - foreign exchange rate	Future commercial transactions (receivable/payables)	Cash flow forecasting Sensitivity analysis	Forward foreign exchange contracts

The Group's risk management is carried out by the JMD under policies approved by the Risk Management Committee a sub-committee of the Board of Directors. The Committee provides guiding principles for overall risk management, as well as policies covering specific areas such as interest rate risk, credit risk and investment of excess liquidity.

### **Credit Risk**

Credit risk arises from cash and cash equivalents, loans to related parties, security deposits and deposits with banks and financial institutions, as well as credit exposures to customers including outstanding receivables.

Credit risk is managed by the Marketing General Manager of AFL. The Group has few customer with most of them being foreign customers. The Group provides a credit period of 60-90 days which is in line with the normal industry practice.

The Marketing GM undertakes the credit analysis of each customer before transacting. The finance team under the guidance of Marketing GM also periodically review the credit rating of the customers and follow up on long outstanding invoices.

The Group considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an on going basis through out each reporting

(All amounts in lakhs in Indian Rupees, unless otherwise stated)

period. To assess whether there is a significant increase in credit risk the Group compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forwarding-looking information. The below factors are considered:

- external credit rating (as far as available)
- actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the borrower's ability to meet its obligations.
- actual or expected significant changes in the operating results of the borrower.
- significant increase in credit risk on other financial instruments of the same borrower.
- Significant changes in the expected performance and behaviour of the borrower, including changes in the payment status of the borrower in the Company and changes in operating results of the borrower.

Macro economic information (such as regulatory changes, market interest rate or growth rates) is incorporated as part of the internal rating model. In general, it is presumed that credit risk has significantly increased since initial recognition if the payments are more than 180 days past due.

A default on a financial asset is when the counterparty fails to make contractual payments within 365 days of when they fall due. This definition of default is determined by considering the business environment in which the entity operates and other macro-economic factors.

#### (ii) Provision for expected credit losses

The Group provides for expected credit loss based on the following:

		Basis for re	Basis for recognition of expected credit loss provision			
Category	Description of category	Investments	Deposits and other financial assets	Trade receivables		
High quality assets, low credit risk	Assets where there is low risk of default and where the counter party has sufficient capacity to meet the obligations and where there has been low frequency of defaults in the past	12-month expected credit losses	12-month expected credit losses	Life time expected credit losses		
Medium risk, moderate credit risk	Assets where the probability of default is considered moderate, counter party where the capacity to meet the obligation is not strong	12-month expected credit losses	12-month expected credit losses	Life time expected credit losses		
Doubtful assets, credit impaired	Assets are written off when there is no reasonable expectation of recovery, such as a debt or declaring bankruptcy or failing to engage in are payment plan with the Group. Where loans or receivables have been written off, the Group continues to engage in enforcement activity to attempt to recover the receivable due. #### **Liquidity Risk**

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The finance team monitors rolling forecasts of the Group's liquidity position and cash and cash equivalents on the basis of expected cash flows and any excess/short liquidity is managed in the form of current borrowings, bank deposits and investment in mutual funds.

#### (i) Maturities of financial liabilities

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and include estimated interest payments and exclude the impact of netting agreements.

#### 41. Capital management

#### (a) Risk Management

The Group's objectives when managing capital are to

- > safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and
- > Maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt. The Group has been maintaining a steady dividend.

The Group's capital structure is largely equity based. It monitors capital on the basis of the following gearing ratio: Net debt divided by Total 'equity' (as shown in the balance sheet).

(All amounts in lakhs in Indian Rupees, unless otherwise stated)

#### The gearing ratios were as follows:

#### **III. Other information:**

#### 1. Reasons of loss or inadequate profits:

The Shrimp culture industry is mainly dependent on processing and export of Shrimp which will have a significant influence on the success and profitability of the Shrimp culture activity. The Shrimp culture success depends on many factors such as climatic conditions, availability of good quality seed, free from attack of any disease, good culture practices etc. Moreover, the international export price of the shrimp also influences shrimp culture to a great extent. India has seen in earlier years drastic fall in shrimp culture activity due to wide spread deceases, steep fall in international prices of shrimp etc., due to which the profitability of feed declined significantly leading to loss or inadequacy of profits. In the event of loss suffered by the Company for the remuneration beyond the control of ED, the Board considered that a minimum remuneration shall be fixed and paid to the Directors in the event of loss or in adequacy of profit.

#### 2. Steps taken or proposed to be taken for improvement:

In order to mitigate the hardships caused by the reasons mentioned above, the Company initiates the following steps:

- a) Adoption of technical advancement in Shrimp culture ensure avoidance/ prevention of un foreseen events, making the shrimp culture activity difficult.
- b) Educate the farmers to follow good culture practices to prevent any spread of diseases.
- c) Extend technical support to the farmers during culture period rendering timely advice to enable the farmer to reap good harvest.
- d) Assist the farmer in selection of good quality seed.

- e) To take such initiatives to maintain sustainability of the Shrimp culture for a longer time.
- f) To explore the alternative activity related to aquaculture such as production and marketing of fish feed by way of diversification.

#### 3. Expected increase in productivity and profits in measurable terms:

With sustained growth of sea food consumption globally year after year, the demand for shrimp is estimated to grow by 3%-5%. India being one of the major source of Shrimp culture and supply of processed shrimp, the growth Year-on-Year is estimated at 5%-7% with an estimated sustainable margin of about 8%-10%.
