Commenting on the financial performance, Mr. Karbari Dathrak Chairman & Managing Director, Banganga Paper Industries Limited said, “We are pleased with our good performance in Q3 FY25, driven by our advanced manufacturing capabilities and the continued growth of our wholly owned subsidiary, Banganga Paper Mills. With a state-of-the-art facility producing over 100 metric tonnes of kraft paper daily, we are well-positioned to meet the increasing demand for sustainable and high-quality paper products. Our commitment to eco-friendly manufacturing, including the use of recycled materials and efficient resource management, remains a key differentiator in the industry. Looking ahead, we are confident in maintaining our growth momentum, leveraging our operational strengths and market opportunities to deliver continued growth in the upcoming quarters.”

About Banganga Paper Industries Limited

Banganga Paper Industries Limited (Formerly known as Inertia steel Limited) is one of the leading manufacturers and suppliers of a diverse range of Kraft paper. The company’s wholly owned subsidiary, Banganga Paper Mills, located in Dindori, Nasik, and operates a state-of-the-art facility spread across more than 10,000 square meters. With an installed production capacity of over 100 metric tonnes per day, the facility produces various types of corrugated papers with different GSM ranges, which are further used in the manufacturing of paper bags, paper cones, boards, and corrugated boxes. Additionally, it manufactures a wide range of craft paper, also available in various GSM ranges.

Committed to sustainability, the company manufactures its products using recycled paper, ensuring an eco-friendly approach to production. The company's products are food-grade, making them ideal for packaging fruits, vegetables, and other food items.

Additionally, Banganga Paper Industries Limited adopts an environmentally conscious manufacturing process, reusing 100% of water and chemicals to significantly reduce fresh water consumption. Operating round-the-clock on a six-day working cycle, the company maintains uninterrupted production while upholding high standards of safety, quality, and environmental responsibility.
