LEADERSHIP INDICATORS

1. Has the entity conducted Life Cycle Perspective / Assessments (LCA) for any of its products (for manufacturing industry) or for its services (for service industry)? If yes, provide details in the following format?

Presently, life cycle assessment (LCA) of products is conducted only as per internal guidelines and database across each life cycle stage right from the sourcing of raw materials to disposal is maintained. But we are aware that conducting LCA through globally accepted software is one of the most important techniques to understand the impact of products and hence we are assessing the possibility of conducting LCA for important products in the future.

2. If there are any significant social or environmental concerns and/or risks arising from production or disposal of your products / services, as identified in the Life Cycle Perspective / Assessments (LCA) or through any other means, briefly describe the same along-with action taken to mitigate the same.

Since Life cycle assessment is not conducted through globally acceptable software, no social and environmental concerns are derived out of the same. However, we are conducting material analysis to restrict the use of banned substance in the production material through IMDS (International Material Data Sheet) Report to limit the risks associated with it.

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

Our Company is committed to regularly improve its waste management initiatives at its facilities. The company has guidelines and SOP for comprehensive waste management (including hazardous and non-hazardous waste) for the identification, segregation, collection, handling, storage and final disposal of waste. The waste is generated from both production process and general operational activity including maintenance and catering. Company engages with TNPCB authorized handlers & waste recyclers after due validation for safe disposal of waste. Hazardous waste such as oil-soaked waste, epoxy powder waste, gel & varnish are co-processed in cement kilns through authorized TNPCB vendor. Other hazardous waste like bio-medical waste, e-waste, waste oil, spent solvent and empty chemical container along with non-hazardous waste like plastic waste are disposed through TNPCB authorized dismantler. Other waste like kitchen waste is used for piggery project and cartoon box & wooden waste are disposed for reuse to vendors.
