PVC Pipe Industry

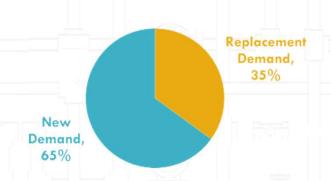

The Indian PVC pipes and fittings market expected to register 15% CAGR during FY24 - FY27

- The domestic plastic pipes industry size at ~ ₹ 350Bn
- Organized players account for ~70% market share
- Key features of plastic pipes against other pipes
 - Lightweight
 - Ease of transportation
 - Longer life span
- Keygrowth drivers:
 - Government's push for cleanliness and sanitation to boost water management sector
 - Increased Building of affordable houses and growing housing demand
 - Requirement for infrastructure for irrigation and water supplies

Demand Segmentation - Domestic Industry

Demand Split- Domestic Industry

At the Forefront of multiple sector trends

Urban Infrastructure & Construction

- Infrastructure push plumbing and distribution requirements
- Water Management, Waste Management, Water Drainage & Sewerage System
- 'Housing for All' scheme and 'Smart Cities' scheme to drive demand
- Gol targeted construction of 20M and 40M houses in urban and rural areas,
 - One unit in the urban area nearly consumes 200 kg of PVC products
 - Rural house consumes ~75kg

Water Management

- Rehabilitation of aging pipelines and installation of new pipes in transportation of liquids offers a significant opportunity
- Government focus on providing clean water, clean cities with well-organized plans for sewage removal and efficient transport facilities
- National Rural Drinking Water Mission (NRDWM) to create a safe drinking water program

Agriculture Focus

- Improving irrigation schemes for farmers
- Water Table Depletion increase in bore well activities leading to higher demand of larger diameter pipes
- Increase in land under irrigation for food production
- Increasing agriculture focus will have better demand for irrigation and thus demand for PVC pipes

Management's Message

Commenting on the Company's performance for Q1FY25, Mr. Sameer Gupta, Chairman cum Managing Director, Apollo Pipes (APL) said,

"The company has demonstrated strong business momentum on the back of strategic acquisition of Kisan Mouldings Limited, which has strengthened its market footprints in the Western India.

With an onset of monsoon, India is witnessing good rainfall from 2nd half of June'24 in most areas which augurs well for our industry. Good traction in demand is seen from agriculture, housing and infrastructure. We remain positive on our sales volume guidance with an improving sales mix for FY25.

The company has a robust pipeline of innovative products. We continue to make strong inroads across cPVC, PVC-O Pipe and other value product segments. We are on track to expand our annual capacity to 286,000 Ton in the next 2 years from current 2,16,000 Ton"
