Sunny days may be ahead for ICICI Bank

Likely to give 19% returns in a year; brokerages retain 'buy' rating

NIKITA VASHISHT

New Delhi, 29 July

Driven by a steady show during the June quarter of the financial year 2024-25 (Q1 FY25), analysts expect ICICI Bank stock to rerate in the months ahead with up to 19 per cent returns likely over the next 12 months.

On Saturday, ICICI Bank reported a standalone net profit of ₹11,059 crore in the June quarter, clocking a gain of 14.6 per cent yearon-year (Y-o-Y).

"ICICI Bank continues to deliver consistent performance even in seasonally weak quarters even as earnings volatility of its peers is rising.

Given the increasing quarterly earnings volatility and high loan-todeposit ratio (LDR) of most peer banks, ICICI Bank's premium to peers should expand further and the stock should rerate," said analysts at Nuvama Institutional Equities.

The brokerage retained its 'buy' rating on the stock with a target price of ₹1,450 — up 19.4 per cent from Monday's closing price on the BSE.

ICICI Bank, the brokerage said, turned in strong earnings and outperformed on three key concerns plaguing its peers in Q1 FY25 asset quality, LDR and net interest

The bank's net interest income (NII) rose by 7.3 per cent Y-o-Y to higher at 81,356. ₹19.553 crore with NIM down 4 basis

points (bps) quarter-on-quarter (Qo-Q) at 4.36 per cent in Q1.

On asset quality, ICICI Bank reported gross non-performing asset (gross NPA) ratio of 2.15 per cent in Q1 FY25 compared to 2.16 per cent in Q4 FY24. It reported a steady net NPA ratio of 0.43 per cent.

While slippages increased 11 per cent Y-o-Y and 14 per cent Q-o-Q, these were slower than peers.

While core credit cost inched higher to 60 bps, operating expenses (opex) growth remained in check at 11 per cent Y-o-Y (vs 19 per cent Y-o-Y growth in FY24).

"ICICI Bank increased its LDR in Q1FY25 to 86 per cent from 84 per cent in Q4 but this remains among the lowest for large private banks. We lower FY25-26 earnings per share (EPS) estimate by 3 per cent but expect ICICI Bank to deliver sectorleading 2.2 per cent return on asset (RoA) and 17-18 per cent return on equity (RoE) over FY25-26," said ose at Nomura.

The Japan-based brokerage reiterated its 'buy' rating on ICICI Bank stock with an upwardly revised target price of ₹1,420 (from ₹1,335).

On the bourses, shares of ICICI Bank rose 2.8 per cent to an intraday high of ₹1,242.45 per share before closing at ₹1,214 per share (up 0.5 per cent) on the BSE

By comparison, the benchmark BSE Sensex settled 23 points

Equities.

Unsecured loans in focus

While stock markets hovered near all-time highs and inflows into equity-oriented funds remained strong at ₹40,608.19 crore in June 2024, Equity Linked Savings Schemes (ELSS) or tax-saving schemes witnessed an outflow of ₹445 crore. These funds have seen outflows totalling ₹839.2 crore from April to June.

According to monthly data released by the Association of Mutual Funds in India (Amfi), 42 ELSS have ₹2.39 trillion in assets under management.

ELSS are equity mutual funds that invest in shares of companies across market

"ELSS primarily invest in equities, offering the potential for higher returns over the long term compared to traditional tax-saving instruments like Public Provident Fund (PPF) and Fixed Deposits (FDs)," says S Sridharan, founder and chief executive officer (CEO), Wallet Wealth.

Why the lukewarm response?

Being equity-linked, ELSS promises inflation-beating returns in the long run. Over three and five years ended July 26, 2024, ELSS on average gave returns of 20 per cent and 21.2 per cent, respectively, comparable to flexi-cap funds (19.8 and 20.9 per cent). Hence, performance does not account for the recent outflows.

Market experts say the new tax regime is the primary reason for investors' lack of interest. "The upfront tax savings are not so relevant as the new income tax regime doesn't offer deductions. The lack of tax appeal may be the primary reason for investor apathy," says Fatema Pacha, senior equity fund manager, Mahindra Manulife Mutual Fund.

"Many investors have shifted to the new tax regime under which no deductions are available under Section 80C. Hence there is no compulsion to invest," echoes Parul Maheshwari, certified financial planner.

Benefits and downsides

Contributions up to ₹1.5 lakh in a financial year in an ELSS qualify for a deduction under Section 80C of the Income-Tax Act under the old tax regime. ELSS has the shortest lock-in among all tax-saving instruments. "ELSS has the lowest lock-in period of three years," savs Maheshwari.

But these schemes also expose investors to the vagaries

■1-year

of the stock markets. "ELSS funds are equity-oriented and hence are exposed to market risks like volatility and downturns," says Sridharan,

The Budget proposed that long-term capital gains on selling equity funds, including ELSS, should be taxed at 12.5 per cent, compared to 10 per cent earlier. (The impact of this tax rate hike will, to some extent, be softened by the hike in exemption on long-term capital gains from ₹1 lakh to ₹1.25 lakh in a financial year.)

Who should opt?

ELSS remains attractive for those looking to achieve the twin objectives of tax saving and wealth creation. "Those in the old tax regime looking to save tax under Section 80C and comfortable with equity as an asset class can invest in ELSS," says Maheshwari.

Investors with a long-term horizon and high-risk appetite seeking capital appreciation can consider ELSS. "Equity investments provide better inflation-adjusted returns," says Sridharan.

Stagger your investments

Always use a systematic investment plan (SIP) or a systematica transfer plan (STP) to invest in ELSS. "Use the SIP route to invest in equity mutual funds over the entire year as it enables you to participate in the markets and benefit from them." says Pacha.

Those who prefer index investing may opt for passive ELSS. Two of those available track the Nifty 50 Total Return Index (TRI) while one tracks the Nifty Large-Midcap 250 TRI.

Note: Returns are of growth, regular funds. Above one-year returns are compound

Budget 2024 has created a new investment avenue: NPS Vatsalya scheme

The Union Budget 2024 has announced a new investment avenue in the form of the NPS Vatsalya, designed to support long-term savings for minors. It enables parents and guardians to invest on behalf of minors, encouraging early financial planning.

Kev features:

Early start: Parents can save for their child's retirement as early as infancy.

■ Long-term benefits: Power of compounding can significantly enhance returns over a long investment horizon. ■ Account conversion: On

reaching adulthood, the child's account will automatically transition into a regular NPS account.

■ Minimum investment: Parents can start with a modest monthly contribution of ₹500 or an annual contribution of ₹6.000.

Is it ideal for higher education?

NPS is designed for long-term wealth creation and retirement planning, not short-term goals like higher education. The current NPS structure, including Vatsalya, primarily focuses on retirement savings.
