Rate cut to spur residential demand, lower home loan rates: Industry

New Delhi, Feb 7 (IANS) The real estate industry on Friday welcomed the much-awaited benchmark rate cut of 25bps by the Reserve Bank of India (RBI), saying lowered interest rates will further nudge homebuyers to buy an ownership home with an upgraded lifestyle. The Central Bank's Monetary Policy Committee (MPC) cut the repo rate by 25 basis points to 6.25 per cent. RBI Governor Sanjay Malhotra said the MPC has also unanimously decided to continue with a neutral stance and will focus on inflation while sporting growth. According to Boman Irani, President, CREDAI National, the decision supplements recent announcements in the Union Budget aimed at boosting spending and spur economic growth. This supportive monetary policy was imperative, especially after the recent 50-basis-point reduction in the Cash Reserve Ratio (CRR), which has already injected significant liquidity into the banking system, he mentioned.

Indian ConsumerTech market projected to reach \$300 billion by 2027

Bengaluru, Feb 7 (IANS) The Indian ConsumerTech market is projected to reach \$300 billion by 2027, growing at a compound annual growth rate (CAGR) of 25 per cent, according to a report on Friday. This report highlighted high-potential categories in the domestic market, such as health foods, pet care and "athleisure" (a hybrid style of athletic clothing typically worn as

everyday wear). Health foods, with a CAGR of 20 per cent, and pet care, with a 17 per cent CAGR, have been observed as fast-growth segments in the emerging brand's segment, according to the report by Chiratae Ventures, in collaboration with Google and 1Lattice. "Athleisure" can potentially reach \$7 billion by 2028 - opening exciting opportunities for new startups to build.

The report also highlighted categories such as lab-grown diamonds, millet-based foods and Ayurveda. For these, there is a large export market seen, right-to-win emerges from technology innovation and R&D, as well as brand building and communication to appeal to the global markets. "India has seen close to 5-6 years of the recent wave of new-age brands, and we have created a clear framework of right-to-win in specific categories," said Anoop Menon, ConsumerTech lead for Chiratae Ventures.

In ConsumerTech, the report sees significant opportunities to create impactful brands that address unmet consumer needs while leveraging innovative business models. Supply chain and distribution in India have been considered for years, as a well-oiled machine, sourcing, manufacturing and distributing products to the remote corners of the country. However, with the onset of insurgent brands innovating in an agile and proactive manner to capture early signals before they become dominant trends - a deeper understanding of the margins that exist at each stage of the value would help the entrepreneurs building in the space understand the value they can capture and scale profitably, the report observed.
