Customs duty reductions to make smartphones, gold cheaper, but other taxes to bite

JATIN GROVER

**T**HE GOVERNMENT SEEMS to have been inspired by "the Lord gives and the Lord takes away" in announcing measures having a direct impact on consumers. With a cut in customs duty on several items — mobile phones, precious metals gold, silver and platinum, chargers, cancer medicines, leather goods, critical minerals, among others — are set to be cheaper.

However, a 1% tax collected at source (TCS) on goods valued above ₹10 lakh will make products such as jewellery, cars, houses, etc, expensive, even though the list of products attracting this tax has not been notified. And while smartphones may get cheaper, an increase in customs duty on telecom equipment will increase costs for telcos, which if passed on to the consumer, will make the use of phones costlier.

"The Budget proposals for customs duties intend to support domestic manufacturing, deepen local value addition, promote export competitiveness, and simplify taxation, while keeping the interest of the general public and consumers surmount," said finance minister Nirmala Sitharaman in her speech.

For smartphones, the basic customs duty (BCD) on mobile phones, mobile printed circuit boards (PCBA) and mobile chargers has been reduced to 15% from 20%. Analysts said the move is positive for companies like Apple, which still imports many iPhone variants into the country. Neil Shah of Counterpoint Research said almost 10-12% iPhones are imported each year and a 5% reduction in tax

will result in a \$35-50 million annual benefit to Apple. However, passing of the benefits to the customers will be decided by the company. Tarun Pathak, research director at Counterpoint India, seconded this opinion. "Reduction of BCD on smartphones, chargers and PCBA will not have any major impact on the prices of smartphones. We may expect a price cut of 1-2% on an average for this move, but it depends on OEMs if they want to pass this to the consumer," he said.

However, Pankaj Mohindroo, chairman of India Cellular and Electronics Association, was elated. "We had recommended reducing BCD on mobiles, PCBA and charger/adaptor to 15%, which has been accepted. The industry is elated and this will go along

way to enhance manufacturing, exports and our competitiveness," he said. Experts said the move to reduce customs duties on gold and silver to 6% from 15% and that on platinum from 15.4% to 6.4% will reduce prices of gold by over ₹5,000 per 10 gram for consumers. Similar impact will be seen on silver and platinum.

Three cancer medicines — Trastuzumab Deruxtecan, Osimertinib and Durvalumab — have been exempted from customs duty. In more relief for the medical sector, BCD on X-ray tubes and flat panel detectors for use in X-ray machines has also been cut. Similar exemption in customs duty was also announced for various leather raw materials to enhance exports in the leather and textile sec-

tors. In a bid to curb imports for PCBA telecom equipment and push domestic production, the customs duty has been increased to 15% from 10%. "This will increase cost of providing services as telcos are continuously upgrading their networks with the advent of the new technology," said SP Kochhar, director general of Cellular Operators' Association of India (COAI).

Over the past years, the customs duty on telecom equipment has increased to 20%, posing substantial financial burden and impacting the rollout of 5G services in India. Kochhar added. Peeyush Vaish, partner and TMT industry leader, Deloitte South Asia, said, "Rationalisation of duties on mobiles is clearly focused on both consumer growth and digitisation."
