UNCONDITIONAL EU NOD KKR's \$24-bn Telecom Italia deal approved

REUTERS
Brussels, May 30

US INVESTMENT FIRM KKR secured unconditional EU antitrust approval on Thursday for its 22-billion-euro (\$24 billion) acquisition of Telecom Italia's (TIM) fixed-line network.

The deal is significant as it marks the first time that a big telecoms operator in a major European country is divesting its landline grid, potentially paving the way for others to follow suit.

The European Commission's announcement confirmed a Reuters' story last week. "The Commission investigated the impact of the transaction on the market for wholesale broadband access services in Italy and concluded that it would not significantly reduce the level of competition," the EU executive, which also acts as the EU antitrust watchdog, said.

KKR has sought to address concerns of Telecom Italia's rivals about those rivals' existing contracts put in place after the creation of FiberCop, Telecom Italia's last-mile grid unit, and has offered a pledge to keep them on the same terms and prices, people with direct knowledge of the matter have

told Reuters. This informal remedy has also allayed EU worries, they said.

The Commission said a master services agreement (MSA) that will govern the relationship between NetCo (the grid acquired by KKR) and TIM post-transaction is not an integral part of the transaction, as it is not an agreement through which KKR acquires control over NetCo.

Some rivals including Vodafone had voiced concerns about the master services agreement.

TIM's headline network covers nearly 89% of households in Italy and its fibre and copper cables stretch over 2.3 million kms (1.43 million miles). The grid sale is part of a government-backed plan to cut Telecom Italia debt.

Musk to testify in SEC probe over Twitter stock disclosures

ELON MUSK HAS settled his latest legal fight with the U.S. Securities and Exchange Commission by agreeing to testify for the regulator's probe into his 2022 acquisition of social media site Twitter, according to a Thursday court filing.

Musk and the SEC have agreed on an undisclosed date when the Tesla CEO will undergo questioning, they said in court papers. Musk also agreed not to appeal the court decision that ordered him to comply with the agency's subpoena.

The SEC sued Musk in October to compel him to testify after he refused to attend a September interview for the investigation. The billionaire said the SEC was trying to "harass" him through unwarranted investigations.

The probe concerns whether Musk broke federal securities laws in 2022 when he bought stock in Twitter, which he later renamed X. It is also reviewing statements and SEC filings he made in relation to the deal, the agency has previously said.

US GDP growth was slower for Q1 on soft consumer spending

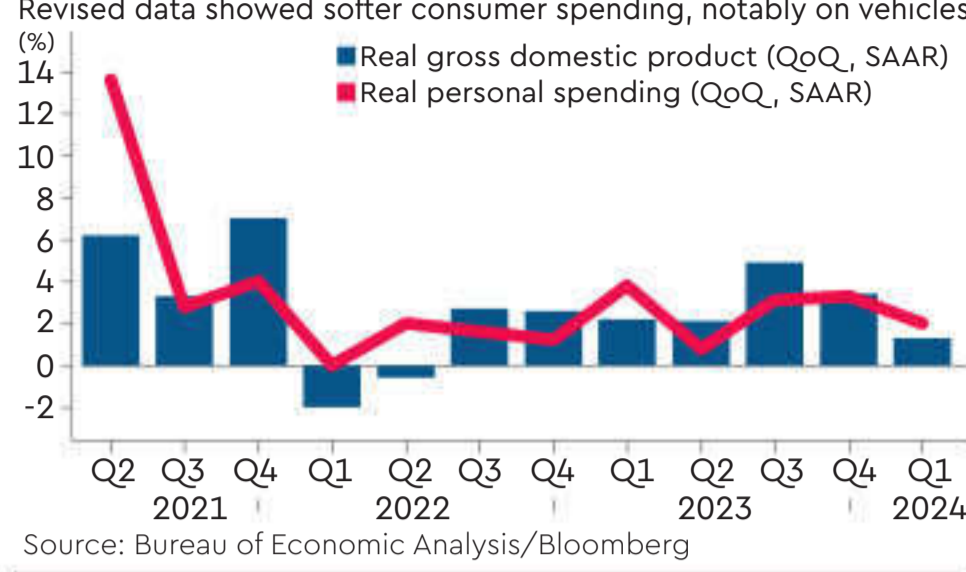

MATTHEW BOESLER
May 30

THE US ECONOMY grew at a slower pace in the first quarter than initially reported, primarily reflecting softer consumer spending on goods.

Gross domestic product rose 1.3% annualized in the first three months of the year, below the previous estimate of 1.6%, Bureau of Economic Analysis figures published Thursday showed. The economy's main growth engine — personal spending — advanced 2.0%, versus the previous estimate of 2.5%.

The numbers underscore a loss of momentum to start 2024 after continual upside surprises in 2023. High interest rates, waning pandemic-era savings and slower income growth are some of the key factors weighing on American households and businesses.

US ECONOMY COOLED IN FIRST QUARTER

Consumer spending was marked down as outlays for goods — particularly autos — were much softer.

Federal government spending slowed, while imports picked up compared to the first estimate. Net exports subtracted from growth for the first time in two years.

The downward revision to

consumer spending was partially offset by stronger business and residential investment. A key measure of underlying domestic demand known as final sales to private domestic purchasers rose 2.8%, versus the initially reported 3.1% increase. Economists have pointed to the strength in this metric as

reason to believe that demand is still strong, even if the headline GDP figure looks weak by comparison.

Alongside its second estimate of GDP, the BEA also publishes data on gross domestic income, its other main measure of economic activity. GDI rose 1.5% in the first quarter, according to the report.

GDP measures spending on goods and services, whereas GDI measures income generated and costs incurred from producing those same goods and services. The GDI data include figures on corporate profits. In the first quarter, adjusted pre-tax profits fell 0.6%, the first decline in a year.

After-tax profits as a share of gross value added for non-financial corporations, a measure of aggregate profit margins, were little changed at 15.2%. —BLOMBERG

WeWork cleared to exit bankruptcy, slash debt

DIETRICH KNAUTH
New York, May 30

A US BANKRUPTCY judge on Thursday approved WeWork's Chapter 11 bankruptcy plan, allowing the shared office space provider to eliminate \$4 billion in debt and hand the company's equity over to a group of lenders and real estate technology company Yardi Systems.

Flexible workspace provider WeWork expanded at breakneck speed but racked up steep losses on its over-extended real estate portfolio before filing for bankruptcy protection in November 2023.

US Bankruptcy Judge John Sherwood approved WeWork's restructuring at a court hearing in Newark, New Jersey. With that approval secured, WeWork will be ready to exit from bankruptcy with no debt "in a matter of days," WeWork attorney Steven Serajeddini said at the hearing.

WeWork used its bankruptcy to negotiate a significant reduction in future rent costs from its landlords and cancel leases at about one-third of its locations, ultimately reducing its future rent costs by more than \$1.2 billion. WeWork expects to operate 337 shared office spaces after its bankruptcy, with more than 170 locations in the US and Canada.

WeWork's restructuring will cancel existing equity shares, but top shareholder SoftBank will retain a minority equity stake on account of loans it provided to WeWork.

Israel lifts ban on food sale in Gaza as Rafah raid chokes aid

REUTERS
Ramallah, May 30

THE ISRAELI MILITARY has lifted a ban on the sale of food to Gaza from Israel and the occupied West Bank as its battlefield offensive chokes international aid, according to Palestinian officials, businessmen and international aid workers.

Army authorities gave Gazan traders the green light to

resume their purchases from Israeli and Palestinian suppliers of food such as fresh fruit, vegetables and dairy goods this month, days after Israeli forces launched an assault on the enclave's southernmost city of Rafah, the people said.

The offensive against Rafah has effectively halted the flow of UN aid to the devastated Palestinian territory. Israel is coming under mounting global pressure

to ease the crisis as humanitarian agencies warn of looming famine. "Israel phoned Gazan distributors who had been purchasing goods from the West Bank and Israel before the war," said Ayed Abu Ramadan, chair of the Gaza Chamber of Commerce. "It told them it was ready to coordinate the pick-up of goods."

The shift marks the first time any goods produced inside Israel

or the West Bank have been allowed into Gaza since war erupted in October last year, according to the Palestinian officials, traders and residents.

Asked by Reuters about the resumption of deliveries, COGAT, the branch of the Israeli military responsible for aid transfers, said it was looking at ways to boost humanitarian aid and raise the amount of food for sale in Gaza.
