Pre-monsoon drive: Rescue teams track all vulnerable areas

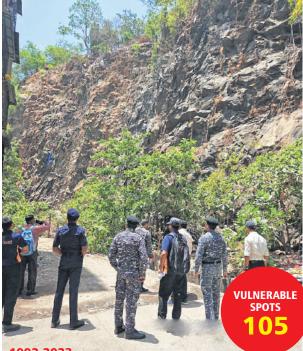

SHEFALI PARAB-PANDIT / MUMBAI

With monsoon just a few days away, the BMC's disaster management team, along with the National Disaster Response Force (NDRF), army, navy and fire brigade (MFB) personnel, have started surveying 105 most vulnerable spots. The recce started on Friday to familiarise the rescue personnel with vulnerable areas so they can access the spots easily in case of any mishap.

As per the civic body's premonsoon survey, there are 74 landslide prone areas and 104 dangerous buildings in the city. Notices are sent to inhabitants and efforts are made to try and shift them to safer locations. However, many a time, people are not ready to leave their homes and need to be counselled and trained for emergen-

After aircraft, stone pelters, drones pose danger to flamingos

RAINA ASSAINAR / NAVI MUMBAI

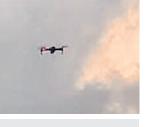

Days after 39 flamingos were blown to smithereens while in the path of an Emirates aircraft, green groups have written to Chief Minister Eknath Shinde about drones posing danger to the birds around the sensitive DPS Lake in Navi Mumbai.

Activists and environmentalists have demanded regulated use of drones in the area frequented by flamingos this time every year. They said that groups of people gather around the lake to shoot pictures and videos. With the increasing trend of 'reels' and 'shorts' on social media, there is rampant use of drone cameras to film the birds.

Save Flamingos and Mangroves Forum activist Rekha Sankhala said youngsters get excited when they see the birds and often use drone cameras to capture the moment. "This disturbs the birds and also poses a risk if they suddenly decide to fly," she said.

NatConnect director BN Kumar said, "After aircraft and stone throwers, drones are posing a major threat to the safety of flamingos. At times, drones are flown just one or two feet above the birds. The sharp, whirring propeller blades badly hurt and even kill the fragile birds that are covered under the

Wildlife Protection Act 1972." Kumar added, "What is even more dangerous for the
