Dear Sir / Madam,

Sub: Investor Presentation

Pursuant to regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we enclose herewith Investor Presentation on the unaudited financial results of the Company for the quarter ended 31st December, 2024.

The aforesaid presentation has been uploaded on the Company's website viz., www.grpweb.com

You are requested to take the above information on your records.

Thanking you,

Yours faithfully,
For **GRP Limited**

Jyoti Sancheti
Company Secretary & Compliance Officer

INVESTOR PRESENTATION

January 2025

This presentation and the accompanying slides (the “Presentation”), which have been prepared by **GRP Limited** (the “Company”), have been prepared solely for information purposes and do not constitute any offer, recommendation or invitation to purchase or subscribe for any securities, and shall not form the basis or be relied on in connection with any contract or binding commitment whatsoever. No offering of securities of the Company will be made except by means of a statutory offering document containing detailed information about the Company.

This Presentation has been prepared by the Company based on information and data which the Company considers reliable, but the Company makes no representation or warranty, express or implied, whatsoever, and no reliance shall be placed on, the truth, accuracy, completeness, fairness and reasonableness of the contents of this Presentation. This Presentation may not be all inclusive and may not contain all of the information that you may consider material. Any liability in respect of the contents of, or any omission from, this Presentation is expressly excluded.

Certain matters discussed in this Presentation may contain statements regarding the Company’s market opportunity and business prospects that are individually and collectively forward-looking statements. Such forward-looking statements are not guarantees of future performance and are subject to known and unknown risks, uncertainties and assumptions that are difficult to predict. These risks and uncertainties include, but are not limited to, the performance of the Indian economy and of the economies of various international markets, the performance of the industry in India and world-wide, competition, the company’s ability to successfully implement its strategy, the Company’s future levels of growth and expansion, technological implementation, changes and advancements, changes in revenue, income or cash flows, the Company’s market preferences and its exposure to market risks, as well as other risks. The Company’s actual results, levels of activity, performance or achievements could differ materially and adversely from results expressed in or implied by this Presentation. The Company assumes no obligation to update any forward-looking information contained in this Presentation. Any forward-looking statements and projections made by third parties included in this Presentation are not adopted by the Company and the Company is not responsible for such third-party statements and projections.

PERFORMANCE HIGHLIGHTS Q3 & 9M FY25

Commenting on the Q3FY25 and 9MFY25 performance of the company Mr. Harsh Gandhi, Managing Director for GRP Limited Said,

"We are pleased to report that our revenue for 9M FY25 stood at Rs 3,912 million, reflecting a 20% growth driven by a 12% increase in volumes. EBITDA margins remained stable at 9.3%, translating to Rs 363 million. The gross margins for the year-to-date and the quarter were impacted by increased raw material prices and product mix, but we expect stabilization in the coming quarters as we optimize the product mix and pass on incremental costs to customers

On the macroeconomic front, India's reclaim rubber (RR) consumption grew by 10% YoY in H1 FY25, compared to a 3% growth in overall rubber consumption during the same period. Globally, the PC/LT tire segment witnessed a 2% decline in OE demand for CY24 but a 4% rise in RT demand. For T&B segments, global OE demand declined by 7%, while RT demand (excluding China) grew by 3%

While Non-RR revenue witnessed overall growth, export volumes were temporarily affected by the festive season. The losses of our subsidiaries are steadily reducing, and with incremental approvals and expected regulatory changes, we are optimistic about their potential to achieve a turnaround and contribute positively to the company's overall EBITDA margins in the near future

Additionally, we are pleased to report a total sale of Rs 121 million towards EPR credit for YTD FY25. As of Dec 2024, the stock of EPR credits, calculated at the minimum support price as prescribed by the CPCB and adjusted for transaction cost, is valued at approximately Rs 180mn. The company will execute sales transaction for these at an appropriate time

As part of our announced strategic capex of Rs 250 crore, the documentation for the line of credit from the French DFI, Proparco, has been completed, and the proceeds are expected in Q4 FY25. Additionally, shareholders have approved raising up to Rs 150 crore through the issuance of equity shares or other eligible securities via Qualified Institutional Placement (QIP). To date, we have incurred a capex of approximately Rs 33 crore for the new project, and we remain on track to commence operations for the first line of crumb rubber and the continuous pyrolysis line by Q4 FY25."

Q3 Performance Highlights - Consolidated

(in Rs. Mn)

(in Rs. Mn)

RR Revenue

Non-RR Revenue

Total Revenue

Revenue Split (%)

RR Business Non-RR Revenue

Domestic Revenue

Exports Revenue

Geographical Split (%)

Exports Domestic

Despite steady improvement in the international market demand and heightened freight costs over previous year, the Reclaim Rubber business has achieved 10% growth in volume during the quarter (YoY)

The gross margins for the year under review have dropped due to an increase in raw material prices for certain grades of rubber and a change in the product mix. However, the same is expected to normalize in the coming quarters

Employee costs as a percentage of income for the quarter have decreased from 12.5% to 11.2%, driven by our initiatives to enhance automation within the plant

Our energy investments are delivering positive benefits, with savings of Rs. 3.50 crore from renewable power and a cumulative Rs. 2.40 crore from biofuel project sources during the 9M period. Both these initiatives are helping company to significantly reduce GHG emissions

Repurposed Polyolefins business is gaining incremental approvals from major brands with steady improvement in orders, with this momentum continuing we expect the business to gradually contribute to the overall improvement in margins

Strategic CAPEX Announcement : Investing in Future Growth and Operational Excellence

KEY TAKEAWAYS

- The total funding requirement for these projects will be met through a combination of internal accruals and debt, as deemed appropriate
- The planned expansion for the proposed projects shall be done at the company's existing sites
- Phase 1 of this investment will entail a capital expenditure of up to Rs. 150 crores, to be deployed until December 2025

Capex upto Rs 250 Crores - This investment will be executed in two phases over a period of three years

Phase 1 - Rs 150 Crores to be deployed until December 2025

Phase 2 – Remaining amount to be utilized

Capex will focus on the following projects...

- Deployment of new technology to produce reclaim rubber with lower CO₂ emissions
- Expansion of our capabilities in crumb rubber and other categories identified under Tyre EPR
- Expansion of the plastic recycling business

Company has so far incurred Rs. 33 crore towards project to manufacture Crumb rubber, Tyre Pyrolysis Oil and Recovered Carbon Black, which is likely to commence from Q4 FY25

CAPEX Funding Plans

- Company will be availing term loan by way of External Commercial Borrowings (ECB) upto Euros 15 million from Société de Promotion et de Participation pour la Coopération Economique S.A. France (PROPARCO) for partial funding of projects.
- Projects will be partly funded by raising of funds by way of issuance of equity shares or other eligible securities for an aggregate amount not exceeding Rs. 150 crore (Rupees One hundred and Fifty crore) by way of qualified institutions placement ("QIP") or other permissible mode in accordance with applicable laws, subject to the receipt of the necessary approvals as may be required.

Profit & Loss Statement - Consolidated

COMPANY OVERVIEW

GRP Is A Marquee Scalable Integrated Polymer Recycling Company

GRP AT A GLANCE

*Includes capacity of 3600MTA which was added in Reclaim Rubber

Company

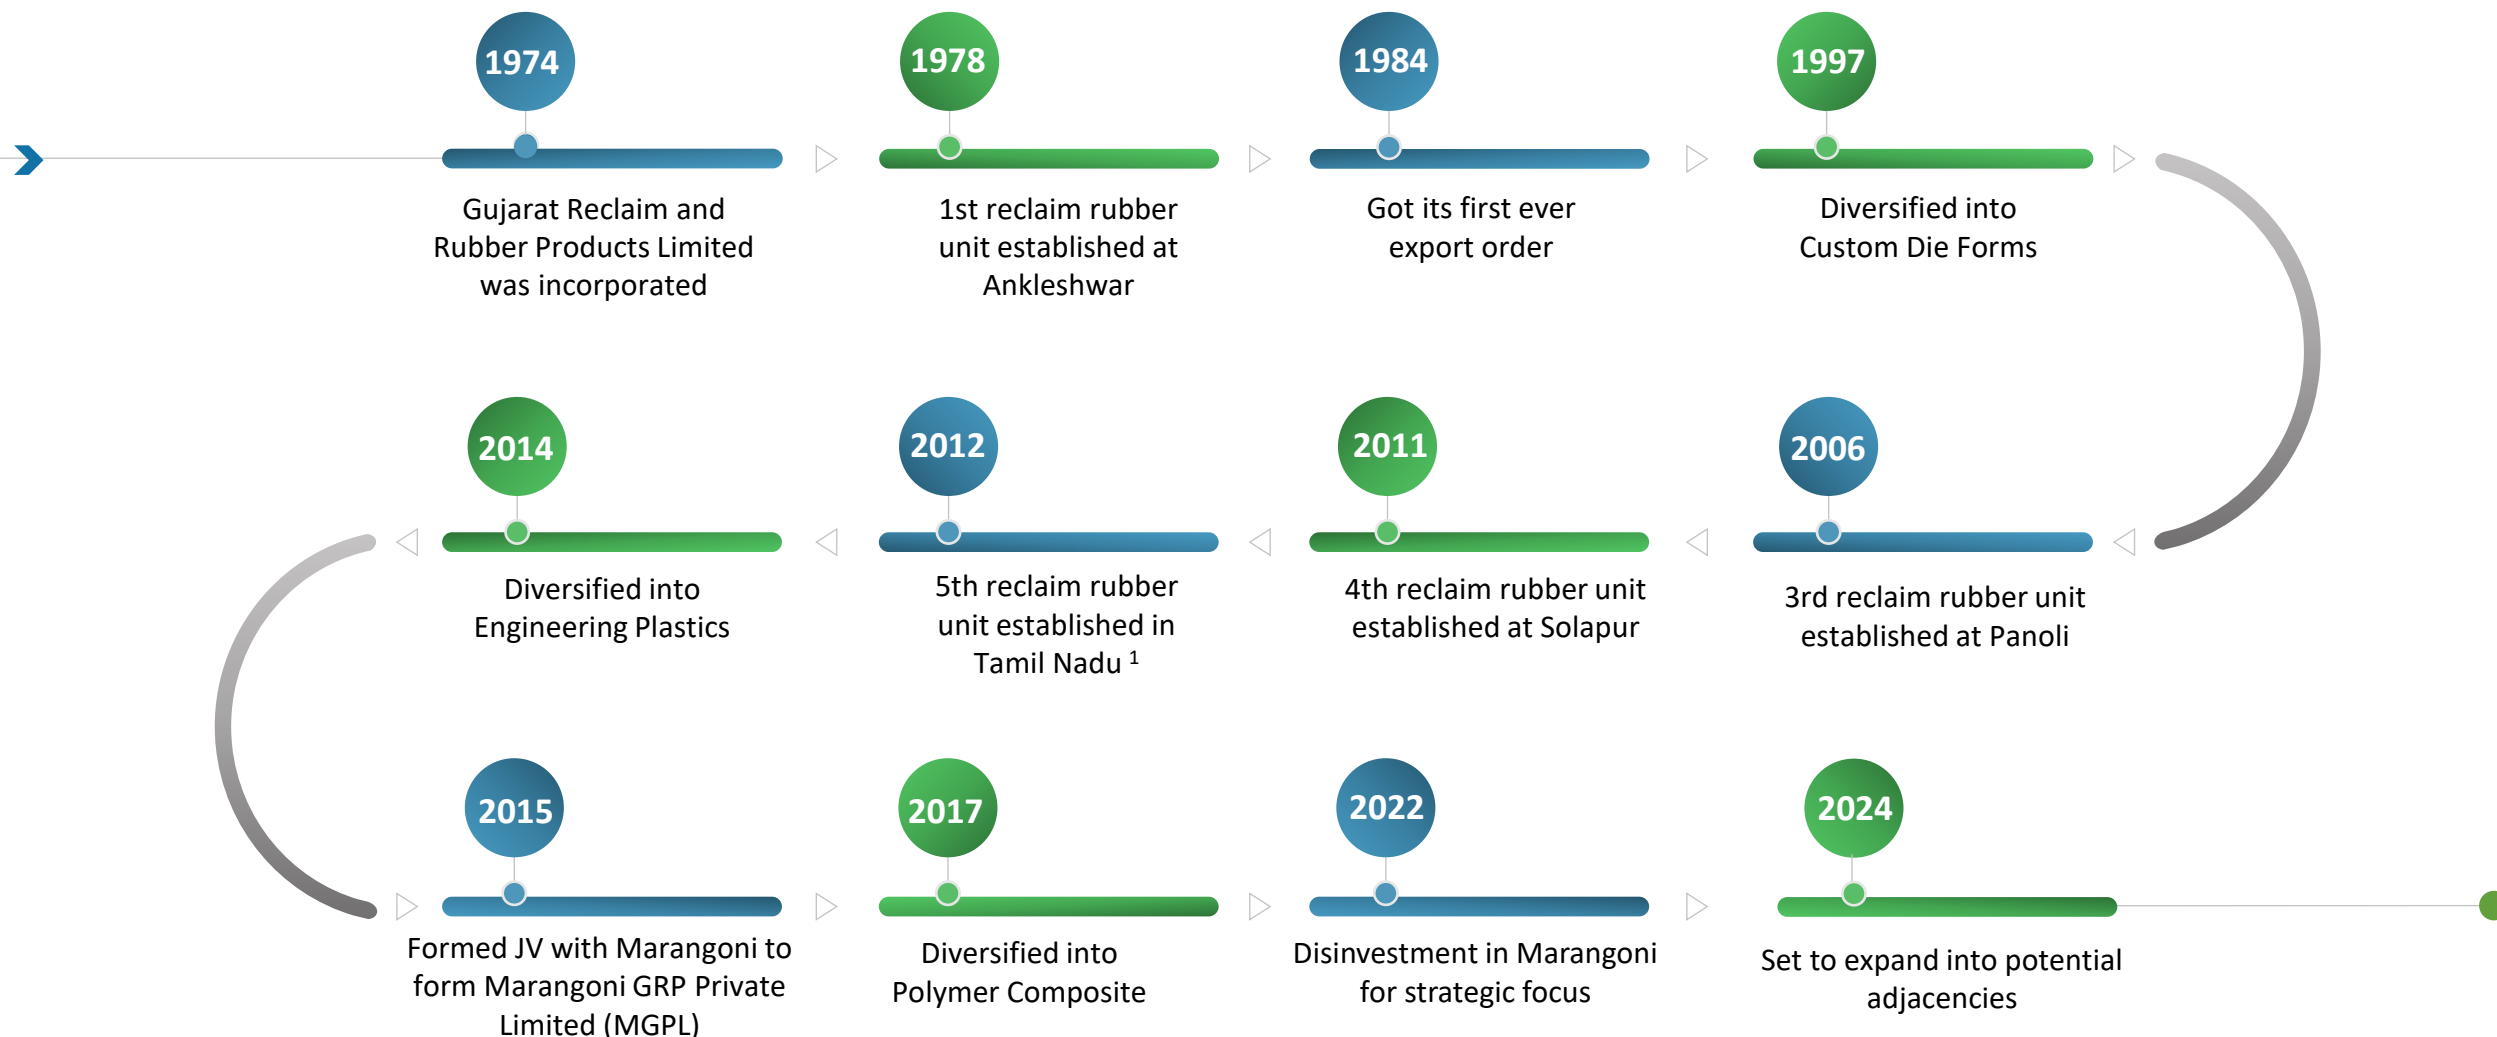

GRP is a sustainable materials producer that helps brand owners fulfil obligations for responsible use of end-of-life waste

Our Vision

The trusted global partner offering innovative sustainability solutions, committed to responsible value creation for all stakeholders

5 Decades Of Journey Towards An Integrated Recycling Platform

1. Operations at the Tamil Nadu unit have now been discontinued

Pioneering The Value Chain With 5 Business Verticals And Diverse Customer Segments...

Business Verticals

GRP RECLAIM RUBBER

GRP transforms end-of-life tyres and rubber waste into premium quality reclaim rubber and moulded products, offering technical advantages and cost savings for various applications in both tyre and non-tyre rubber products

GRP ENGINEERING PLASTICS

GRP provides sustainable solutions for demanding engineering needs, offering unfilled and glass-reinforced Polyamide 6 (PA 6), Polyamide 66 (PA 66), and Polybutylene terephthalate (PBT)

GRP REPURPOSED POLYOLEFINS

GRP offers sustainable and circular packaging solutions, upcycles end-of-life polyolefin rigid packaging into raw materials with performance matching virgin materials. Applications include paint pails, lubricant pails, automotive battery covers, and pallets.

GRP POLYMER COMPOSITE

GRP's composite materials, made from 100% recycled rubber and plastic, are eco-friendly, stronger, and more durable than wood. Well suited for logistics, construction, oil & gas, aviation, marine, industrial, and agricultural sectors.

GRP CUSTOM DIE FORMS

GRP creates custom die forms from end-of-life truck and bus bias tyres, ideal for cost-effective solutions like door mats, impact-resistant products, and conveyor chain assemblies for agricultural equipment

Key Customer segments

Automotive tyres

Automotive Products

Conveyor Belts

Electrical

Furniture

Transportation (Shipping & Trucking)

Agricultural Equipment

Polymer/Rubber Compounding

Maximizing the Use of End-of-Life Tyres Across Verticals

- 1 Growth**
Emerging verticals with significant potential for market growth
- 2 Core**
Established brand with high market share

¹ Sold to local steel rolling mills

Made In India For The World With Well-diversified Procurement Network

7 Strategically located manufacturing facilities across 5 locations with a capacity of 90,500 MTPA²

Solapur

- Repurposed Polyolefins : 6,000 MTA
- Polymer Composite : 1,500 MTA
- Custom Die Forms : 1,400 MTA

MANUFACTURING LOCATIONS

SALES AND DISTRIBUTION PRESENCE

1. Includes area of all the plants within Solapur including newly acquired plot for expansion 2. *Includes capacity of 3600MTA which was added in Reclaim Rubber. Additionally, Dahej plot is spread across land area of 31,020 sqm

Wide Range of Applications for Reclaim Rubber

RECLAIM RUBBER IN TYRE APPLICATIONS

NATURAL RUBBER RECLAIM

- Whole Tyre Reclaim
- High Tensile Reclaim
- High Performance Material

SPECIALITY RUBBER RECLAIM

- Butyl Reclaim
- Chlorobutyl Reclaim

RECLAIM RUBBER IN NON-TYRE APPLICATIONS

VALUE PROPOSITION

ECONOMIC

- Cost-saving by replacing virgin rubber & Carbon Black
- Reduced processing costs

PROCESSING

- Faster mixing cycle & Improved extrusion rate
- Reduced splicing defects
- Controlled die swell

ENVIRONMENTAL

- Provides alternative to hazardous, landfills
- Substitutes natural rubber & crude based synthetic rubbers saving scarce natural resources
- Reduces carbon emissions by 3-5MT per ton

ENGINEERING PLASTICS

POLYAMIDE 6

- High quality engineering plastic, used in applications requiring superior mechanical properties
- Appropriate for customers seeking weight savings, function integration and design freedom

Engine Cover

MCB Cover

Chair Star Base

PBT

- Used primarily in electrical/electronics applications
- Highly heat-resistant up to 150 degree C (or 200 degree C, if reinforced)
- Has low moisture absorption and high dimensional stability

Connectors

Bulb Housing

Consumer Appliances

POLYAMIDE 66

- Offers higher toughness with high hydrolytic stability
- PA66 is well-known for flowability and quick crystallization
- Used in highly stressed technical parts and electrically insulating parts

Automotive Fasteners

Wiper Motor Cover

Cable Ties

REPURPOSED POLYOLEFINS

ICPP

- Used across various applications in the automotive and industrial sectors

Paint Pail

Lubricant Pail

Automotive Battery Cover

TPE - PP BASED ELASTOMERS

- Blend of EOL PP and EPDM reclaim rubber from EoL tires
- Improved flexibility, impact resistance and low temperature performance

Basket

Gear Knob

Castor Wheels

PP GLASS FILLED AND TALC FILLED COMPOUNDS

- Used across various applications in the household, automotive and electrical sectors

Consumer Appliances

Chair

Dashboard Components

Polymer Composite and Custom Die Forms For Diverse Industries

POLYMER COMPOSITE

BOARDS

- Highly customizable boards include tongue and groove, lug boards, planks etc.
- Trailer decking application as an alternative to steel and wood leads to a 25% - 28% reduction in carbon footprint coupled with a reduction of 1 MT of solid waste generated

WHEEL CHOCKS

- Used by commercial vehicles and planes to prevent accidental movement

DUNNAGES

- Largely used to secure and support the cargo
- Used for storage and distribution of steel as coil rest
- Used to protect corner cracks in glass applications

PALLETS

- Combat offload pallets are used in military for Container Delivery Systems, and Aerial Drop Training, as it sustains heavy weight and heavy impact.
- Rigid material used to load and secure in transportation and warehousing

BUMPERS

- Used by commercial vehicles to withstand impacts and protect the front and rear from damage during collisions

CUSTOM DIE FORMS

LINK MATS

- Installed for workplace safety to provide impact absorption and grip at industrial sites

VIBRATION PADS

- Assisting in noise reduction, employee safety, and machinery & equipment protection

DOCK FENDERS

- Installed to provide protection to trailers, vehicles, loading dock equipment, etc.

HARVESTOR BLADES

- Used in agriculture harvesting machines

SNOW MOVING BLADES

- Rubber pads used to plow snow in snow moving equipment

GRP has developed an in-house R&D for Product, Process and Application Research

Department of Scientific & Industrial Research Recognized

Key Principles

- **Product:**
 - The R&D team develops new grades in response to market demand
 - These grades enable customers to substitute virgin compounds more effectively
- **Process:**
 - Focused efforts on reducing CO₂ emissions through process innovations that minimize the use of coal, oil, and natural gas in manufacturing
 - Developed proprietary mechanical devulcanization processes, replacing the previously used thermal methods
- **Application:**
 - Joint R&D to help customers utilize higher content of recycled materials as substitutes
 - Concentrated efforts on reclaiming materials from non-tyre sources for broader use in the rubber industry

Limitless Possibilities In Waste To Wealth With Growing Market Globally

Key Growth Drivers

Rising focus on sustainability by governments across the globe as the need for circular economy and environment friendly products / process gain steam

Focused efforts by leading tire manufacturers globally who have set sustainability targets to achieve c. 40% sustainable sourcing by 2030 and c. 100% carbon neutrality / sustainable sourcing by 2050

Introduction of EPR guidelines shall further lead to increased usage of sustainable materials by tire manufacturers and add a new revenue stream for recyclers without additional capital expenditure

India is one of the fastest growing automotive markets globally across both passenger and commercial vehicles, and has emerged as the 3rd largest market by volume in 2022

Plastic waste generation

Globally, around **400mn** MTA of plastic waste is generated, **10%** of this is recycled

Rest is either incinerated or dumped into landfills or leaked into the environment.

Key Growth Drivers and Synergies

Nylon

Access to in-house raw material:

- Nylon extracted from end-of-life tyres provides raw material for the plastics vertical, thus increased tyre processing enhances access to secondary Nylon

Growing end-use applications:

- Significant growth driven by rising demand across various end-use applications like automotive, electrical, building and construction, etc.

Sustainability focus:

- Increased focus on use of sustainable materials across the value chain by leading manufacturers globally

Polypropylene

Rising demand for recycled polypropylene:

- Robust growth in demand due to rapid increase in usage of recycled polypropylene in packaging and allied sectors

Demand supply gap of Virgin Polypropylene:

- Shortfall in supply against growing demand is increasing imports and reducing exports of Virgin polypropylene

Introduction of sustainability guidelines:

- Introduction of EPR coupled with increasing sustainability targets of brand owners, has further accelerated the demand for recycled material

Well Entrenched Customer Relationships With Reputed Tyre And Non-tyre Customers

40+ percent

Customers have been associated with GRP for >10 years in reclaim rubber

MEMBERSHIPS

Distinguished Board of Directors

Rajendra Gandhi
Executive Chairman

Founder promoter, with 40+ years of industry experience. Graduate engineer from IIT, Mumbai. Recipient of the K.M. Phillip medal in 2013 from AIRIA for his contribution to the growth of the rubber industry. Served as the Chairman of IRMRA, committee member of AIRIA and associate panel member of IRSG

Harsh Gandhi
Managing Director

Associated with GRP since 2001 with 23+ years of experience including consulting in FMCG, Telecom, etc. OPM program from Harvard Business School, USA & holds a Bachelor of Science in Management Purdue University, USA. Chairman of MRAI tire division, member of FICCI circular economy committee

Hemal Gandhi
Executive Director

10+ years in Branding and Corporate Communications. Pursued her studies at SVT college, Mumbai & completed the women entrepreneurship programme at IIM Ahmedabad and Science of well being online course from Yale University. Responsible for CSR, branding and media strategy including social media for GRP

Saurabh Shah
Independent Director

20+ years of experience as advisor in the fields of public equity investments, private equity, capital markets and Merger & Acquisition in India. Pursued MBA from the Stern School of Business at New York University. Also, Director at Citicorp Finance (India) Ltd. and Partner at AUM Fund Advisors LLP and AUM Asset Advisors LLP

Anshul Mittal
Independent Director

20+ years of experience in currency manufacturing. Graduate from Purdue University, USA, with a Bachelor of Science in Industrial Engineering, and completed training with OTIS Elevators, USA. Executive Director at Mittal Appliances Ltd., Also served as Chairman of the CII MP State Council

Vivek Asrani
Independent Director

More than 37 years in the business of industrial stapling, nailing and fastening systems. He is a Science Graduate from St. Xavier's College and has also done LLB. Managing Director of Kaymo Industries and Kaymo Fastener Company. He is on the Board of Initiatives of Change India, Initiatives of Change Switzerland

COMMITTED TO **GROWTH** IN A **GREENER** WORLD
 5 decades of expertise in recycling

Voluntarily published Business Responsibility and Sustainability Report (BRSR) in 2024

20% women participation in workforce by 2025

HIGHLIGHTS

- Zero Liquid Discharge** Operations
- Green Tech Investments** Products with LCA results
- 10%** Reduction in Scope 1 & Scope 2 emissions per MT produced in FY24 YoY
- 20%** Energy needs harnessed using wind & solar sources

Sustainable Development Goals (Adopted By GRP)

GRP believes in ‘giving back to the society and the planet’, it has shown a high level of engagement across following six out of the seventeen SDGs adopted by all UN member states to build a better world for people and planet

Wellness initiatives

Health checkups, Stress management, Holistic wellness, Yoga, Dance sessions, Power nap at HO, Birthday celebrations

Healthcare support

Outdoor workforce safety, Fire safety

Substance abuse awareness

Community contribution

Educational donations at Orphanage homes, Visually impaired and special needs children school

Mobile Education Vans

Internship opportunities for students

Encouraging employees in pursuit of higher education

Signatory of the UN WEP

Support for women entrepreneurs

Creating appropriate infrastructure and environment for women workers

POSH awareness sessions

Celebration of men’s and women’s day

Drinking water stations and toilets for girls

Water coolers at plants

Zero Liquid Discharge Operations

Installation of Effluent Treatment Plants and Multiple Effect Evaporator systems to enhance wastewater treatment

Target to harness 50% of energy needs through renewables by 2025

Way ahead with solar energy as a sustainable solution

Investments in wind solutions

Greener technologies and energy sources such as Biofuel systems to reduce carbon emissions

Recycling, reusing and reducing EoL tyres, plastics and converting into sustainable materials through multiple verticals

Responsible packaging - Reduction in Wooden pallet consumption

Replaced diesel forklifts with electric forklifts

At GRP, CSR contributes in shaping the 'How' and the 'Why' of almost every activity we undertake. Over the years, we are happy to have played a role in giving back to the community through our products as well as our CSR activities. We are grateful to have witnessed the positive impact of our efforts; in making a long-lasting difference to the people of India and the world at large

EDUCATION

- Mobile vans for elementary education
- Vocational training for adult education
- Merit based scholarship to support University Education
- Strengthen / support existing institutes engaged in providing primary, secondary and higher level education

SUSTAINABLE LIVELIHOOD

- Vocational training aimed at employability
- Supporting initiatives around Yoga, meditation and self-help
- Awareness programs for clean living/housing facilities
- Awareness programs on hygiene, safe water
- Encouraging plantation of trees through self help groups of women

HEALTHCARE

- Primary healthcare centres
- Mobile healthcare projects
- Healthcare through awareness programs
- Blood donation camps
- Sponsorship for Dialysis center

WOMEN EMPOWERMENT

- Girl child education upto University
- Supporting groups for women empowerment
- Building toilets for better women hygiene
- Rewards to women leaders who created positive change in villages

GROWTH OPPORTUNITIES

Key Rights to Win: Strategic Advantages for Market Leadership

GRP has built a reputable recycling brand which is trusted by leading brand owners globally

Trusted Global Recycling Brand in Reclaim Rubber

Partnerships with leading brand-owners

Developed long-standing relationships with leading brand-owners in India and globally

Superior Product Capabilities

Superior product portfolio combined with enhanced capabilities and wider applications

Expansive Vendor Base

Experience of building an expansive vendor base from scratch over the past 5 decades

Execution-focused Management

Industry pioneers with a track record to execute complex greenfield projects successfully

Process Knowhow and Technology

Eco-friendly manufacturing practices developed in-house supported by global technologies

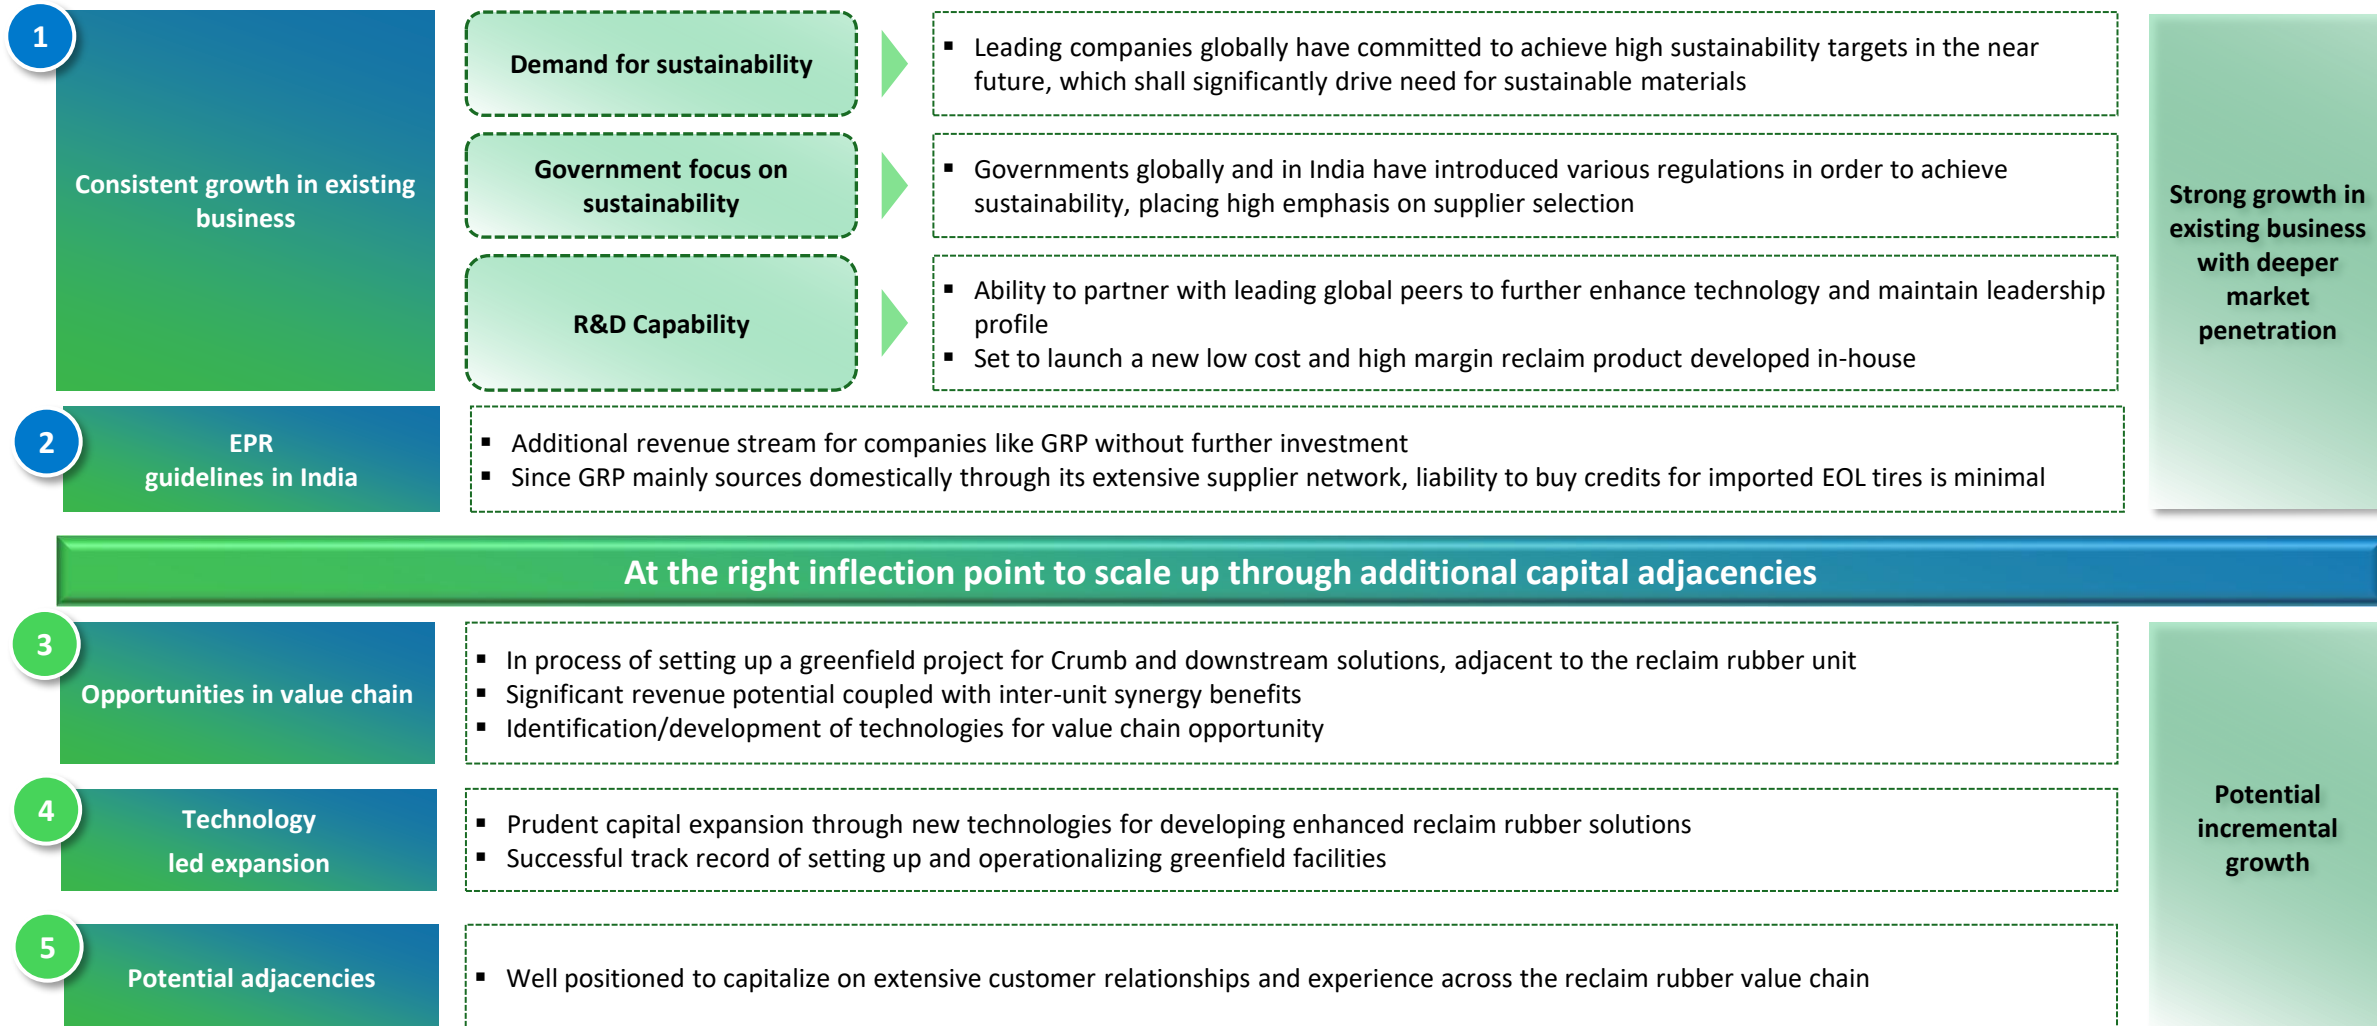

Establish an integrated recycling platform

Future Growth Pillars For The Business Across The Value Chain To Drive Profitability

GRP has established a reputable and scalable platform which can be leveraged to achieve the next level of growth

Capitalizing on EPR Guidelines: Opportunities for Leading Tire Recycling Companies like GRP

Recent government guidelines for implementation of EPR in the domestic market shall further boost the need for rubber recycling in India and open up a new revenue stream for players like GRP

- Tire manufacturers and importers are required to recycle 100% of the quantity of new manufactured or imported tires after 2025
- Alternatively, they need to acquire EPR certificates of equivalent quantity of tires manufactured or imported
- These certificates shall be generated on portal set-up by the CPCB
- EPR certificates shall be earned by recyclers based on the quantity recycled

	Weightage Allocated (W_p)	Conversion Factor (C_f)
Reclaim Rubber	1.30	1.30
Recovered Carbon Black	1.25	3.68
Crumb Rubber Modified Bitumen	1.10	0.20
Crumb Rubber	1.00	1.33
Pyrolysis Oil ¹ and Char: <i>Continuous Method</i>	0.80	1.49
Pyrolysis Oil and Char: <i>Batch Method</i>	0.50	1.49

Quantity eligible for generation of EPR certificate

$$Q_{EPR} = Q_p * W_p * C_f$$

EPR In Plastic Packaging Overview: Producer (Category - 1 Only)

The Government guidelines which mandate rigid plastic packaging producers to recycle and incorporate recycled content in their products shall drive the demand for recycled polypropylene

Producer

	FY22	FY23	FY24	FY25	FY26	FY27	FY28	FY29 onwards	
EPR Target	25% 	70% 	100% 	<ul style="list-style-type: none"> Quantity eligible for EPR target is calculated as $Q1 = A + B - C$ <p><i>(detailed computation below)</i></p>					
Minimum Recycling Obligation	<ul style="list-style-type: none"> Calculated as a % of EPR target Producers shall ensure minimum level of recycling (excl. EOL disposal) of plastic packaging waste collected under EPR 			50% 	60% 	70% 	80% 		
Recycled Plastic Usage	<ul style="list-style-type: none"> Calculated as a % of plastic manufactured for the year Producers shall ensure use of recycled plastic content in their products If producers are unable do so, CPCB will grant them an exemption to purchase certificates from other producers, brand-owners and importers 					30% 	40% 	50% 	60%
