Forward-looking Statements

In this Annual Report, we have disclosed forward-looking information to enable investors to comprehend our prospects and take investment decisions. This report and other statements - written and oral - that we periodically make contain forward-looking statements that set out anticipated results based on the management's plans and assumptions. We have tried, wherever possible, to identify such statements by using words such as 'anticipate', 'estimate', 'expects', 'projects', 'intends', 'plans', 'believes', and words of similar substance in connection with any discussion of future performance. We cannot guarantee that these forward-looking statements will be realised, although we believe we have been prudent in our assumptions.

The achievements of results are subject to risks, uncertainties and even inaccurate assumptions. Should known or unknown risks or uncertainties materialise, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. Readers should keep this in mind. We undertake no obligation to publicly update any forward-looking statement, whether as a result of new information, future events or otherwise.

Today, with hectic lifestyles and rising aspirations, customers are increasingly demanding that insurance companies offer them enhanced products and solutions at competitive prices. A long and tedious process of acquiring policies or a complicated policy renewal or claim reimbursement experience is not what fits into the scheme of things.

So, what are the right boxes to tick when it comes to providing positive customer-experiences?

In an ever-changing world, trust and transparency remain the principles of success. Customers are more likely to favour businesses that have a credible history, customer focus and a consistent track record of having delivered on their promises.

While customers want an unprecedented level of product choices, they are also seeking relationships that go beyond the expected. It's no longer the age of insurance companies that push products; customers want to associate with those that provide the right advice and solutions.

Actions speak louder than words. Customers rightfully expect that when they face a challenging experience in their lives, they can rely on their insurance partner to understand their situation and help them cope with it. Further, a proactive risk mitigation approach by their insurer goes a long way in enhancing their experience after all prevention is always better than cure.

Digital technology can solve many problems and improve customer experience. Use of advanced tools facilitates the creation of solution that exceed expectations. Technology has also been considered the panacea for making businesses smarter, faster and more agile.

But that does not mean that the human touch is no longer important. Instead, by leveraging technology, employees can be freed from the routine tasks to give them more time to focus on the special requirements of the customers.

At ICICI Lombard, our customer proposition is the right blend of several factors: **Fundamentals, Approach, Solutions, Culture, Expertise and Technology**. Our strong fundamentals inspire trust; our approach enables us to develop personalised experiences; our products are designed based on customer insights; our culture guides us in our actions, and we continue to push technology for introducing innovative solutions.

Our customers come first for us. Guided by this credo, we will continue ticking all the right boxes for customer-centricity.

Right Fundamentals

Business scenarios might change. Economic upturn may plunge. Natural disasters and accidents can happen. Competition will emerge. Amid these dynamic market realities, it is the Company, which is built on solid foundation and timeless principles that will deepen customer connect and succeed in the marketplace.

From being among India's first few private-sector companies to commence operations in non-life insurance in 2002, ICICI Lombard has traversed an extraordinary journey through various cycles of industry evolution. Since FY2004, we have retained our position as India's largest private-sector non-life insurer based on gross direct premium income. Leveraging the established brand of our Promoter, "ICICI Bank", we have built "ICICI Lombard" into a recognised and trusted brand in its own right. In FY2017, we became the first private-sector non-life insurer in India to reach ₹ 100.00 billion in GDPI.

Our right fundamentals have enabled us to evolve, endure adverse situations and emerge successful.

Holistic risk management: A data-driven risk selection framework, conservative reserving

and quality reinsurance are at the heart of our governing principles.

Customer collaboration: Risks are proactively analysed and mitigated by working in close consultation with our customers, which leads to mutual benefits by reducing losses and the amount of claims.

Robust reserves: We test our reserves regularly based on new loss experience, claim inflation and other factors. Further, we have been disclosing reserving triangles as part of our Annual Reports since FY2016.

Quality reinsurance: Our reinsurance policy defines the product-wise retention limits on per-risk and per-event basis. Risk is spread among a high-quality panel of re-insurers rated A- (S&P or equivalent international rating) or above.

Message from the Chairperson

Chanda Kochhar, Chairperson

IT WAS A PROUD MOMENT FOR US AT THE ICICI GROUP WHEN ICICI LOMBARD BECAME THE FIRST NON-LIFE INSURER TO LIST ON THE INDIAN STOCK EXCHANGES.

Dear Shareholders,

2017 was a positive year for the global economy. Global growth rate witnessed the highest momentum since 2011, growing at an estimated rate of 3.7%. Labour market conditions continued to improve in many countries, and world trade rebounded. Interestingly, the improvement in world trade was primarily driven by rising demand from Asia. Amid this positive scenario, some risks also drew attention during the year. Changes in trade policy and a rising trend of protectionism was witnessed. These have the potential to introduce uncertainty in the economic and trade scenario and impact global growth.

Closer home, India continued with its growth agenda in fiscal 2018. The Government kept to its commitment to take bold measures as it introduced the long-awaited Goods and Services Tax. Policy makers continued with their attempts to support growth in the economy through various enabling measures. On the downside, global risks

emanating from rising oil prices and the possibility of capital outflows amid rising interest rates in developed economies such as the U.S., could impede the pace and breadth of India's economic growth.

The global non-life insurance industry witnessed an increase in premium at an estimated rate of 3% in real terms in 2017. The growth momentum is expected to be sustained in the near future. In India, the industry continued to witness robust growth at 17.5% in fiscal 2018. With the government's push towards insurance, including recent announcements related to a National Health Protection Scheme, the non-life insurance sector should witness continued acceleration in growth and increase in penetration levels.

Fiscal 2018 was a momentous year for the insurance industry, as the sector witnessed multiple companies listing on the stock exchanges. It was a proud moment for us at the ICICI Group when ICICI Lombard became the first non-life insurer to list on the Indian stock exchanges.

Regarding the Company's performance, profit after tax grew at 22.8% over the previous fiscal year, as the Combined Ratio – a measure of profitability from premiums earned versus payouts – improved significantly to 100.2% in FY 2018 from 103.9% in FY 2017. Further, the Company maintained a healthy Return on Average Equity (ROE) of 20.8%. As always, we continued to display prudence in the businesses that we write, as evident from our agility in fine-tuning the business mix according to evolving opportunities and risks.

ICICI Lombard continues to take the lead by embracing the latest technology to deliver superior customer experience and operational efficiency. In the recently ended fiscal year, we joined hands with

leaders in other industries to introduce path-breaking solutions for customers. Tie-ups with leading players in the healthcare space as well as mobility sharing companies signifies our intent to harness synergies and stay ahead of the curve in meeting the risk mitigation needs of customers.

Even as we maintained our focus on delivering superior business performance and customer experience, we continued to fulfil our responsibilities as a responsible corporate citizen. While continuing to participate in the skill development initiative of the ICICI Foundation for Inclusive Growth, we also expanded our CSR programmes in the field of wellness & road safety during the fiscal year. Predominantly focussed on children, our CSR efforts are aimed at involving communities and achieving sustainable long-term impact.

As ICICI Lombard enters a new phase of its journey as a listed entity, we are committed to meet the expectations of our larger group of stakeholders. We have built a robust business model and a solid foundation over the years since our inception way back in 2001. The prospects for the general insurance industry in India remain buoyant, and as a leading player, ICICI Lombard is poised to play a significant role in the industry's long-term growth. We have a talent pool of young and aspiring individuals led by a very capable management team, who are committed to scaling new highs of performance.

We thank you for your support and look forward to enriching our relationship in the years ahead.

With best wishes,

Chanda Kochhar

Dear Shareholders,

I welcome you to the ICICI Lombard family of shareholders. I would like to take this opportunity to thank you for your support that enabled us to become the 1st non-life insurance Company to be listed in India.

At ICICI Lombard, we are excited to be a part of the Indian non-life insurance sector. The industry has been growing at a robust pace. It crossed ₹ 1,50,000 crore in FY2018, in just two years after almost having reached around the ₹ 1,00,000 crore mark in FY2016. With non-life insurance penetration levels continuing to be around 0.8% of GDP and given India's demographic dividend, the sector is poised to touch greater heights in the coming years.

At ICICI Lombard, we registered robust performance in FY2018. Our Gross Domestic Premium Income (GDPI) rose to ₹ 123.57 billion, growing at 15.2% over FY2017. During the year, we became the 4th largest non-life insurance Company and continued to

be the largest private non-Life insurance Company in the industry. Profit after tax increased to ₹ 8.62 billion, registering a growth of 22.8%. Our Combined Ratio improved significantly from 103.9% in FY2017 to 100.2% in FY2018. Return on Average Equity (ROE) increased to 20.8% in FY2018 against 20.3% in FY2017. Solvency ratio remained healthy at 2.05x, much higher than the minimum regulatory requirement of 1.50x.

As a Company, we have always focussed on creating long-term value for our stakeholders. Over the last 10 years, we

have grown at 13.9% CAGR in terms of GDP. Profit after tax has delivered 23.7% CAGR growth in the same period. This has been a result of our relentless focus on balancing growth with profitability.

Complementing our business performance are our efforts to set new standards on the customer service front. In FY2018, we serviced 23.5 million policies, 32.5% higher than in FY2017. On the claims front, we honoured over 1.5 million claims. A key measure of an insurer's efficiency is its claim settlement response time. We continued to excel on this front, having settled 99.9% health claims in FY2018 and 90.8% motor claims within 30 days. As an organisation, we are relentlessly customer-centric and these figures are a testimony to our continued endeavour on this aspect.

One of the key drivers in our pursuit of customer-centric excellence has been our adoption of technology. We continued to embrace the latest technological tools. We harnessed Robotic Process Automation tools to provide better service to our customers that reduced the time taken from quote generation to policy issuance. We made advancements in building our analytics and machine learning capabilities. We developed cognitive programmes for health and motor claims with the aim to set new standards in the claim process. Today, we can granularly interpret consumer behaviour data, enabling us to provide personalised solutions to better meet the expectations of our customers. We enhanced the scope of our chatbot platform 'MyRA'. It now resolves customer queries and allows purchase, renewal of health insurance and four-wheeler policies in addition to two-wheeler, fire and burglary insurance. We also introduced MyRA on social media platforms like Facebook to provide our customers the option to conveniently access it from their preferred social media site. Till date, MyRA has handled

2.5 lakh customer interactions and executed over 4,000 policy transactions without any human intervention. During the year, we tied up with leading players in the e-commerce space including a leading health tech Company for an OPD-based group health insurance solution as also leading cab service providers to offer personal accident and health insurance service to their fleet of drivers and customers.

Our industry-leading endeavours were duly acknowledged through the multiple awards that we won. We were recognised as 'India's Leading General Insurance Company - Private' at D & B BFSI Awards 2018. We were also conferred the SKOCH 'Order of Merit Award' for our chatbot MyRA. Our technology initiatives were lauded internationally - we won two Celent Model Insurer Asia Awards for our agency app and chatbot in the 'Digital and Omnichannel' and 'Legacy and Ecosystem Transformation' categories respectively. Recognising our customer service excellence, we were conferred the 'Best Customer Service Experience Award' for InstaSpect, India's first live video inspection feature for motor insurance claims. The award is the biggest in the customer experience and loyalty category. We also received the distinction of becoming the 1st Company in India to receive ISO 31000:2018 certification by British Standard Institution (BSI) for our Enterprise Risk Management (ERM) framework. This is a testimony of our efforts to introduce best practices on the risk management and mitigation front.

Since many years, we have balanced our business excellence efforts with playing a contributory role in community development. In FY2018, we continued on this path and spent more than 2% of our average profit of last three years, thereby going beyond the statutory requirements. We expanded the scope of our 'Ride to

Safety' initiative to seven cities. Further, we spread the road safety message through workshops directly contacting over 50,000 parents and their children. We also distributed 20,000 ISI marked child-specific helmets as part of this initiative. We were conferred the coveted '2017 Corporate Social Responsibility Award' organised by PR Daily, USA for this unique programme. Our employees continued to voluntarily lead the 'Caring Hands' programme as we screened the vision of more than 36,000 underprivileged children and provided spectacles free of cost to over 5,800 kids diagnosed with poor vision.

With our listing in FY2018, we have entered a new phase of our journey. Right Solutions

In a world that is changing at warp speed, we're working even harder to stay ahead of expectations. Continually refreshing and reinvigorating our offerings, we tick the right box on the solutions side through our comprehensive and customer defined portfolio.

Encompassing the motor, health and personal accident, crop/weather, fire, marine, and engineering insurance segments; our solutions have helped us establish ourselves as a reliable one-stop insurer for diverse customer requirements. The rise of the 'sharing economy', wherein users source assets or services when needed from a common set of providers, has fuelled the demand for new varieties of insurance products. For instance, automotive insurance is witnessing a paradigm shift with ride-sharing being provided by Uber and Ola. At ICICI Lombard, our business agility has led us to design solutions to serve the unique needs arising from the sharing economy. We are also exploring opportunities to extend our coverage for infrastructure projects as well as emerging sectors such as Solar.

The highlights of the year in the area of new solutions:

Tech-enabled app solutions: We joined hands with leading healthcare platform Practo to launch a health insurance app 'IL TakeCare'. The app meets key customer requirements with respect to their primary healthcare needs. This includes hassle-free, real-time claim authentication of expenses such as doctor consultation, medical tests and pharmacy spends.

An added advantage: It also empowers the user to access a cashless network comprising specialised doctors.

Solutions for Taxi Service Aggregators: We introduced a unique insurance proposition for Uber and Ola companies in India. While personal accident and health insurance service was offered to the fleet of Uber drivers, the Company tied-up with Ola to provide similar safety cover for its passengers.

As per latest GI Counselling Report

Review of Claims Reserves

“The provisions for IBNR claims are calculated separately for each year of occurrence and are aggregated to arrive at the total amount to be provided, by line of business.”

Liability of Unpaid Losses and Loss Adjustment Expenses

Insurance Companies are required to establish a liability in their accounts for the unpaid portion of ultimate costs (including loss adjustment expenses) of claims that have been ‘incurred but not reported’ (IBNR) and ‘incurred but not enough reported’ (IBNER) as at the end of each reporting period.

There are several possible methods for the determination of this ultimate

cost. The method most appropriate in a particular case depends on the nature of the business and the claims development pattern. The provisions for IBNR and IBNER are calculated separately for each year of occurrence and are aggregated to arrive at the total amount to be provided, by line of business. The approach taken by ICICI Lombard is consistent with regulatory guidelines, which do not permit discounting of reserves or negative provisions for any particular year of occurrence.

The process of establishing the liability for unpaid losses and loss adjustment expenses is complex, as it takes into consideration many variables that are subject to the outcome of future events. Reserves do not represent an exact calculation of liability. Reserves represent estimates, generally involving actuarial projections at a given time, of what the Company expects the ultimate settlement of claims will cost. Estimates are based on assessments of known facts and circumstances, assumptions related to the ultimate cost to settle such claims, estimates of future trends in claims severity and frequency, changing judicial pronouncements, and other factors. These variables are affected by both internal and external events, including changes in claims handling procedures, economic inflation, unpredictability of court decisions, risks inherent in major litigation and legislative changes. Many of these items may not be directly quantifiable particularly on a prospective basis. As a result, informed subjective estimates and judgments about ultimate exposure to losses are an integral component of loss reserving process. Significant reporting lags may exist between the occurrence of an insured event and the time it is actually reported. Company adjusts reserve estimates regularly as experience develops and further claims are reported and settled.

A significant proportion of the Company’s reserves are for motor third-party liability, which tend to involve longer periods of time for the reporting and settlement of claims. This may increase the inherent risk and uncertainty associated with loss reserve estimates. One of the significant factors involved in estimating future claims liability is the effect of inflation on claims. The anticipated effect of inflation is implicitly considered when estimating

Review of Claims Reserves

liabilities for unpaid losses and loss adjustment expenses. Estimates of the ultimate value of all unpaid losses are based in part on the development of average paid losses, which reflects inflation. Inflation is also reflected in the case estimates established on reported open claims, which, when combined with paid losses, form another basis for the derivation of estimates of reserves for all unpaid losses. Specific factors that may impact losses, such as changing trends in medical costs, minimum wages and other economic indicators, and changes in legislation and social attitudes that may affect the decision to file a claim or the magnitude of court awards are also taken into

consideration. There is no precise method for subsequently evaluating the adequacy of the consideration given to inflation, since claim settlements are affected by many factors.

Development of insurance losses, net of reinsurance

The development of insurance liabilities determines the Company's ability to estimate the ultimate value of claims. The loss development table which follows shows the estimate of ultimate losses, including loss adjustment expenses, at the end of each accident (occurrence) year, and each accident year's provision for losses and loss adjustment expenses in subsequent years. This information

has been provided for 10 years in the table below.

This estimate of losses and their corresponding provision is increased or decreased as more information becomes known about the development of losses for each individual accident year. The increase or decrease is reflected in the operating results during the period in which the estimate is changed. The accident year's outstanding provisions reflect remaining unpaid claims for the Company pertaining to the accident year, but that are yet to be settled. These are a combination of case reserves for reported claims and IBNR provisions.

Organisation Structure

ICICI Lombard caters to its key stakeholders - customers, shareholders, employees, channel partners and other stakeholders - through a well-defined operating matrix. The pillars of this matrix are: Wholesale Insurance Group, Government Business Group, Retail Group and Shared Services.

Integrated solutions are provided to conglomerates, small and medium enterprises. Tailored solutions such as fire, marine, engineering, liability solutions, employee group insurance schemes, cyber insurance and large scale health and personal accident covers enable client requirements to be precisely met.

Insurance solutions are provided to State and Central governments or government-owned enterprises and rural customers. The product category includes cover for weather, cattle, health and personal accident, among others.

Insurance solutions are provided to individuals in the health, home, motor, travel and personal accident space. Agents, brokers, bancassurance, telesales, direct alliances and online platforms are influential to connect with and serve customers.

This unit includes a suite of services that are leveraged across the entire organisation, such as underwriting, customer relationship, technology, operations, reinsurance, broking, finance and accounts, human resources, legal, marketing, business analytics unit, administration and fraud control. Providing support to other functions, Shared Services improve business efficiency.

Wholesale Insurance Group

The Wholesale Insurance Group caters to large corporate firms across industries and provides clients with customised solutions. The focus is on providing strategic value-addition by going beyond risk financing and offering risk management and mitigation solutions. It comprises divisions such as:

- Corporate Solutions Group - provides insurance solutions to large corporate companies in variety of industries.
- Specialised Industry Group - caters to large clients in specialised business segments.
- Small and Medium Enterprises Group - focusses on MSMEs across industries.
- International Business Group - covers international risks of Indian business interests.

KEY ACHIEVEMENTS IN FY2018

Growth in market share across all product lines

Market share increased to 8.5% in FY2018 from 7.8% in FY2017. Increase in market share was led by the Company's strong presence in large risk segment and increasing penetration in mid-risk segment.

Market share rose to 11.2% in FY2018 from 9.8% in FY2017. This was driven by strong relationships with large contractors eager to capitalise on the growing opportunities in the Indian infrastructure space.

Market share increased to 12.7% in FY2018 from 11.7% in FY2017. This was achieved by leveraging innovations such as Risk Management Services, including 'loss control' activities of high frequency accounts using Marine Loss Control Engineering (MLCE).

Market share grew to 14.3% in FY2018 from 12.9% in FY2017. This was attributable to the Company's ability to envisage emerging risks and structure complex solutions.

Multiple strategic initiatives to create market differentiation

The Wholesale Insurance Group focussed on offering customer engagement and customised solutions during the fiscal. New services introduced by the Company under various categories are explained below:

Health Value-Added Services

Wellness

This involved offering primary healthcare and specific disease management programmes to customers and implementing wellness activities across corporate accounts.

Cashless OPD 'IL TakeCare'

The Company continued on its innovative journey with the launch of the Cashless OPD in its new avatar called 'IL TakeCare'. The unique application available through the 'IL TakeCare' app facilitates easy access to doctors, diagnostics labs, pharmacies and provides real-time claim approval making it a truly cashless experience. It also stores health records digitally for future reference. This offering is currently envisaged to serve the metro cities and will be scaled up gradually.

Emergency Services

During the fiscal year, the Company launched emergency services in collaboration with a global partner having presence in 46 countries across six continents. Being the world's largest ambulance service provider with 2500+ ambulances in its fleet, the global partner brings considerable domain expertise to the table. Besides providing assistance in emergency and accident situations and ground medical transportation by an ambulance, the emergency service offered by the Company also takes care of coordination with hospitals and other healthcare centres. The Company ensures that all concerned members remain informed during the emergency situation. The offering was initially launched in 7 cities and is currently available in 26 cities.

Marine Value-Added Services

The Marine segment ranked among the Company's most important business drivers. Loss control consulting and customised solutions form the crux of services offered under the Marine segment. During the year, anti-hijacking (using GPS tracking) cover and loss minimisation measures were extended for corporate clients. Complex cargo claims were resolved promptly and in a smooth manner by specialists. The Company offered tailored solutions that facilitate fast recovery while minimising business disruption, thereby ensuring customer satisfaction.

Extensive experience in logistics planning and execution of Over Dimensional Consignments (ODC) movement for various Indian industries have steered the Company's success in Marine segment. In fact, excellent domain capabilities enable the Company to provide cover for ODC even for complex, long distance journeys anywhere in India. The encompassing suite of value-added offerings includes agile, strategic solutions for project material handling and multi-modal ODC logistics.

During the year, integrated insurance and risk engineering solutions for reducing high-frequency losses resulted in significant risk improvement for clients. Additionally, logistic specialists recruited by the Company continued to carry out detailed studies and share suitable recommendations.

Property Value-Added Services

The Company's fast, friendly and fair approach was appreciated in the property segment as well. Property risk visits, management of risk measures and customised solutions such as anti-fire and anti-theft were provided to lessen risk exposure. Coverage was also extended to multiple corporate clients. Further, risk management solutions such as first notification of loss (FNOL) system and fire mitigation infrastructure were offered & termed to be beneficial to many clients.

IoT (Internet of Things) in Insurance Hydrant Monitoring

This monitoring system is uniquely designed to monitor the health and functionality of the fire hydrant and sprinkler system in manufacturing units; which is the most crucial element in the unfortunate event of a fire. Such systems demand continuous monitoring and maintenance. The monitoring system comes with sensors and a gateway (Simcard-based device) and sends out alerts whenever the parameter goes below the threshold.

Electricity Monitoring

This offering is designed to monitor and avoid overloads/electricity surges that are the primary causes for short circuits and hence fire at a workplace/manufacturing units.

Drone-Based Inspection

The Company contributed to offer advanced drone-based technology for inspecting wind turbines and solar PV modules to identify defects and improve efficiency.

Account Level Planning

The Company continued to invest in training of sales personnel to facilitate transition to solution selling from product selling. The firm focus on solutions has reinforced corporate relationships and established ICICI Lombard as the "Risk Engineering" Company.

Right Approach

Customer-centricity is the North Star of ICICI Lombard's strategy and guides the way we work. Every line of thought, every action and every process starts with our customer. Our 'Fast, Friendly and Fair' approach differentiates our service, brand and Company's ethics.

Our commitment to service is about creating deep personal connections. Business is viewed from the customer's perspective as a single entity. At the customer's hour of need, we are there for them every step of the way. Be it a policyholder who has suffered a car accident or faced a natural disaster; we are steadfast to making the moment of truth a positive one. Further, we focus on offering customised solutions, which include working with our customers to proactively analyse and mitigate their risks.

Our right approach, as reflected in the initiatives mentioned below, has enabled us to deliver a superior and convenient customer experience.

In-house support: Claims management process is handled internally for most of our motor, health and personal accident segments, leading to more efficient and speedy claim settlement. An in-house proprietary customer relationship

team further helps us to have direct control and be in closer contact with our customers.

Reducing processes: Adoption of technology-enabled solutions has eliminated redundant internal processes and empowered customer-facing employees. For example, implementation of real-time policy renewals at branch offices has reduced the time consumed on manual interactions and subsequent closures by cross-functional teams. In FY2018, a platform called "Direct Client Interaction" was started in which a customer or an intermediary can directly co-ordinate with operations team for issuance of policy or endorsement.

Digital options: Online tools are being provided to customers for smooth policy and claim management. For example, policyholders can avail online booking facility for health check-up appointments, thus eliminating the need to visit different departments.

Organisation Structure

Government Business Group

ICICI Lombard's Government Business Group (GBG) primarily caters to rural India and provides solutions in the areas of crop/weather, health and cattle insurance. While the former two are government subsidised, cattle insurance operates both as subsidised and non-subsidised models. FY2018 marked the second year of Pradhan Mantri Fasal Bima Yojna (PMFBY). The Company endeavours to deliver effective risk management solutions through creating awareness, leveraging technology and public-private collaboration.

Crop/Weather Insurance

Introduced in FY2016, Pradhan Mantri Fasal Bima Yojna is the flagship crop/weather insurance scheme of the Government of India. Under the scheme, loanee and non-loanee farmers are eligible for crop/weather insurance for whole crop/weather season, i.e. Kharif and Rabi. While there is a lot of focus on

improving the irrigation system across states, considerable dependency on the monsoons still prevails. In FY2018, India witnessed 5% lower rainfall than average. Farmers in central and northern parts of the country such as Odisha, Madhya Pradesh, and Haryana were affected the most. The Company was one of the key insurers, present in 8 states and 71 districts in FY2018 enrolling around 3.1 million farmers. The Company operated in the states of Andhra Pradesh, Madhya Pradesh, Telangana, Haryana, Tamil Nadu, Assam, Meghalaya and Jammu & Kashmir. Numerous new initiatives were launched, with the crop/weather insurance portal being the major one. Kharif 2017 witnessed the first season of farmer data being uploaded on the portal. The Company also took measures to increase non-loanee enrolment, which included tie-up with Common Service Centres. Non-loanee enrolment contributed to 10% of the total enrolment done in FY2018.

Crop/Weather Cutting Experiment (CCE)

PMFBY envisages conducting CCEs for estimating crop/weather yield and related claims. The Government undertook around one crore such experiments across the country in FY2018. Given the sheer scale of the activity and infrastructure limitations, there were some challenges in conducting these experiments on the ground. The Company focussed its efforts on enhancing the accuracy of yield estimation through CCEs by robust co-observation of such experiments along with the Government. Accordingly, around 42% of the targeted CCEs were co-observed by the Company in FY2018. Furthermore, the Company was one of the pioneers in adopting the usage of Remote Sensing Technology (RST) to complement risk mitigation and yield estimation. In this regard, the Company entered into tie-ups with some of the leading service providers, including start-ups in areas such as cluster selection, yield estimation, sown area estimation, stratified sampling.

Mass Health Insurance

ICICI Lombard continued its contribution in implementing one of the world's largest mass health insurance programme -

Rashtriya Swasthya Bima Yojana. In FY2018, the scheme was extended to the state of Odisha. One of the key differentiating factors for the Company in the segment of Mass Health Insurance includes robust hospital network and speedy claims settlement.

Cattle Insurance

Started as a new business initiative, Cattle Insurance picked up impressively

during FY2018, with almost 400% growth registered in the fiscal year. This product seems to be promising with about 20,000 cattle tagged last year. New technologies like RFID, along with strong vendor partnerships, are growth catalysts in this new emerging business. In FY2018, the Company's exposure was in as many as 14 states, with major states being Rajasthan, Karnataka and Punjab.

Right Expertise

Great consumer experiences cannot be achieved without the right people; a team of quality, engaged and committed employees will always go the extra mile. In fact, the right people enable a business to build the right brand and get it right as an organisation.

At ICICI Lombard, we pride ourselves on being an organisation that has the right blend of experts, know-how and experience. Diversity is encouraged at the workplace, as we believe when people from a wide array of cultures, viewpoints and backgrounds come together, it fosters creativity and stimulates fresh ideas and new perspectives. To help our people realise their professional goals, we are providing them with the right skills and training to increase their knowledge and grow their capabilities. And finally, in the age of digitisation, we ensure that they have the tools they need to facilitate intelligent and independent thinking.

The highlights of our people strength and our efforts during the year towards driving an enabling work culture are as follows:

Experienced management: Our management team has extensive experience and know-how in the Indian insurance industry, spearheading our strong business performance.

Improved recruitment process: Governance around recruitment was further strengthened through standardisation of processes and integration of Vishwas, the internal guiding principle, as inputs into the hiring process.

Building capabilities: Code Blue, an internal certification for building people capability, was rolled out for employees taking up managerial and leadership roles.

Learning & Development initiatives: Supporting the “leaders as teachers” philosophy, over 200 members of the internal DLC (Deeksha Learning Centre) Council actively participated in various learning and development interventions.

Enhancing engagement: Formation of cross-functional teams, cultural committees, implementation of health and wellness initiatives, among others, helped to enhance employee engagement.

Motor Insurance

Motor Insurance contributed to 39.4% of the overall general insurance premium while Motor Own Damage premium contributed to 17.5% of the industry GDPI in FY2018. As such, the segment continued to remain the most critical segment in the non-life insurance sector. ICICI Lombard holds 11.6% market share in the Motor Own Damage segment.

ICICI Lombard continued to invest in distribution with a balanced focus on automobile dealers, agency and direct business in Motor segment. The Company is focussing on building a sustainable motor portfolio driven by Loss cost based micro-segmentations which results in profitable business from market.

There are regulatory and government's policy changes in FY2018 that had an direct impact on the motor

insurance portfolio. Two of such policy changes are:

1. Implementation of GST - The tax policy and rates shifted from Service tax regime of 15% to the Goods & Services Tax regime with 18% tax rate effective from July 1, 2017. The change in the tax slab had a direct impact on the premium paid by customers. ICICI Lombard successfully implemented the GST programme across its business segments within stipulated timelines.
2. Motor Insurance Service Provider (MISP) guidelines – As part of the major revamp of the regulations for motor insurance portfolio, IRDAI introduced Motor Insurance Service Providers (MISP) guidelines effective from November 1, 2017.

The objective of these guidelines is to recognise the role of the automotive

dealer in distributing and servicing motor insurance policies and to regulate them. The regulation also defined the commission structure for MISPs. The regulator mandated and capped the maximum commission rate at 19.5% on the own damage portion for private cars and 22.5% on the own damage portion for two-wheelers.

Travel Insurance

The Travel Insurance portfolio of the Company grew by 40.3%, from ₹ 1.24 billion in FY2017 to ₹ 1.73 billion in FY2018. The Company's market share in Travel Insurance grew from 20.8% in FY2017 to almost 24.9% in FY2018. The Company insured 42.58 million lives in FY2017, which increased to 127.10 million in FY2018, of which 120.23 million lives were insured under Travel Insurance for e-ticket passengers under IRCTC. The growth in travel segment was fuelled by the group domestic segment and the corporate travel

segment. Domestic travel segment growth is in line with the Company's outlook of profitable growth and will continue to be an area of focus in the years to come.

Home Insurance

The Home Insurance segment at the industry level grew as customer awareness and realisation for the need of this type of product increased. The Company's Home Insurance business grew by 35% in FY2018. The same was a result of the efforts made to improve the penetration of the Home Insurance business by increasing distribution and working towards enhancement of product features.

Health Insurance

The Health Insurance business strategy is driven by investments in omni-channel distribution, and launch of innovative products to address varied customer needs.

During the year, the Company continued to build indemnity portfolio through robust agency driven distribution and bancassurance channels. Keeping with the tradition of empowering the agents through modern technology interventions, a mobile app was launched for the agents. A considerable share of the business is now sourced digitally. The number of policies increased from 0.29 million in FY 2017 to 0.32 million in FY2018.

Driven by innovative product management, the Company introduced sachet products with dynamic pricing based on transaction analytics. This is targeted at emerging segments and to offer technology integrated delivery. The number of policies increased from 1.28 million in FY2017 to 3.99 million in FY2018. The Company's new product Group Safeguard is first of its kind in the market and offers both specific as well as wider risk solutions to the customers.

Right Technology

In today's fast-paced world, an organisation's ability to do things better, smarter and differently will depend on its ability to leverage emerging or proven technologies.

Our Company is supported by a robust yet agile technology infrastructure. We also extend the latest technology, in the form of friendly web and mobile applications, to our customers, employees and distributors. Our investments in the right technology facilitate seamless service experience to our customers and distribution partners across all stages of an insurance policy and drive efficiencies in internal operations. The use of advanced technology provides us detailed insights on consumer behaviour, enabling us to accordingly customise products to meet customer preferences.

The initiatives listed below have made ICICI Lombard a leader in harnessing technology in the Indian non-life insurance industry.

Robotics: Various internal processes have been automated by use of robotics: Faster turn-around time, error-free operations and self-help options for internal and external customers have been achieved by embedding this latest technological tool.

Artificial Intelligence & Machine Learning: We are leveraging artificial intelligence and machine learning for speedy processing of claims and effective risk management.

Chatbots: We have launched chatbots that facilitate natural language processing to converse with customers. Our chatbot platform MyRA resolves customer queries and allows purchase, renewal of health insurance and four-wheeler policies in addition to two-wheeler, fire and burglary insurance, without any human intervention. MyRA has also been introduced on social media platforms to provide customers the convenience of accessing it from their preferred social media site.

Drones: Agricultural surveys and assessment of damages are being done through drones to improve efficiency.

Engagement with start-ups: A programme 'NOVA' has been set up to engage with the start-up community, helping us to develop risk mitigation solutions and identify potential business opportunities.

Seamless partner integration: A plug-and-play architecture created by us enables smooth integration with the systems of our distributors. For instance, direct integration of point of sales system of railways with our policy booking and issuance systems has made us one of the three non-life insurance partners of Indian Railway Catering and Tourism Corporation (IRCTC), covering over 300,000 trips per day.

SME

The SME Segment forms one of the key focus areas for the Company. It has seen a robust growth in SME industry over the past decade which continues to offer huge opportunities, further supported with digitisation and emerging new technologies. Even momentum in the government's Make in India initiative and improvement in India's rank on Ease of Doing Business has created new areas for SMEs globally.

Multiple initiatives have been undertaken to fully capture these market opportunities. The Company remained focussed on increasing its market penetration in SME through multiple channels i.e., Agents and Brokers. This led to a growth of 31% in FY2018.

The Company has continuously enhanced its product and service offerings to seize market potential & increase customer satisfaction. It has introduced several new products to meet the varied business and personal needs of its SME customers. Additionally, aligned to customers' preference for a quick turnaround time, the Company has embedded technology across its business functions made available to its partners to ensure efficient and effective response to customer needs. Some of the initiatives taken during this financial year, that helped the Company push ahead in business were as follows:

New Products: The Company added a basket of new products like Mobile insurance, Jewellery Attachment, Loss of Energy & Warranty Insurance, that created new business opportunities and supported its market penetration.

Customisation: Product Customisation for channel partners not only empowered them but also helped the Company lower operational expenses.

Learning initiatives: The Company provided technical training to its channel partners to empower them with knowledge and underwriting skills for its products and enable them to emerge as smart business professionals.

Tech-based Initiatives: Embedded technology for instant issuance of online policy for Agents & business partners. Implemented Chatbot application for automated policy issuance without manual intervention.

“The Company remained focussed on increasing its market penetration in SME through multiple channels i.e., Agents and Brokers.”

Shared Services

“A well-defined retention limit for each product segment that defines – its maximum ‘per risk’ and ‘per event’ exposure has been formulated.”

Reinsurance

During FY2018, ICICI Lombard’s reinsurance programme continued to be a combination of proportional and non-proportional programmes for both conventional and specialty lines of business. The Company endorses the philosophy of buying an adequate cover to protect value at risk at all times. The reinsurance programme has been structured keeping this philosophy in perspective. A well-defined retention limit for each product segment that defines – its maximum ‘per risk’ and ‘per event’ exposure has been formulated. The Company continued to buy appropriate risk and catastrophe reinsurance as a shield against single large losses and natural disasters. It also got its net retained exposures modelled by international agencies to ensure adequacy of limit of catastrophe reinsurance. Association with top global reinsurers

continues to be on a solid footing for the Company’s key reinsurance programme, with General Insurance Corporation (GIC) being the Company’s largest reinsurance partner.

Underwriting

In FY2018, ICICI Lombard introduced new products and covers in its health insurance portfolio in group indemnity and benefit products category aimed at expanding within the current market space as well as gaining entry into untapped & unexplored markets. Benefit product line continued to be a strong segment, supported by the three-pronged underwriting approach, consisting of Financial, Medical and Tele models. In the retail health insurance segment, the Company foresees immense opportunity in Tier II and Tier III cities as the loss ratio in these cities has been considerably lower as compared to

the rest of the portfolio. The Company has continued its centralised approach for underwriting retail health products which ensures operational efficiency and smoother underwriting. Timely revisions in the underwriting guidelines are made considering market trends and analytics. Leveraging technology for consistent and robust underwriting practices continues to be the focus. In the corporate health segment, the pricing pressure remained more or less similar to the previous year in large corporates. The Company continued to calibrate its growth strategy within this space by focussing on mid and small corporate policies showcasing financial viability from a long-term perspective.

The Company has been able to maintain its profitability in the travel insurance portfolio, given its underwriting guidelines to assess anti-selection. In its

Organisation Structure

Shared Services

endeavour to excel in the domestic travel segment, the Company has also opened up to newer risk areas like adventure sports & pilgrimages and tied up with a diverse group of aggregators, like bus & flight providers, hotels, etc. The growth achieved in the Domestic travel segment is in line with the Company's outlook of profitable growth and will continue to be an area of focus in the years to come.

In Motor insurance portfolio, the Company has adopted risk-based pricing along with a selective sourcing model, given the competitive pricing scenario in the market and to contain loss ratios. The Company sets an appropriate target mix of new vis-à-vis renewal portfolios based on the make, model and geographical performance, on a periodic basis. The Company has instituted a regular review mechanism to keep track of the add-ons performance as it tends to increase the frequency of claims.

In Crop Insurance, the analysis of historical pure risk price adjusted for expected yields in the current year acts as a benchmark for arriving at the premium rates. The Company selects the risk by analysing data quality, volatility in yields, rainfall pattern and catastrophic calamities, moral hazard, ease of implementation on ground and concentration in different agro-climatic zones. At ICICI Lombard, selection of portfolio with diversified exposure has been given prime importance. Selection of states is done in a way that ensures the Company's presence in the majority of agro-climatic zones, which results in diversification of risk. Diversification of crops has also been done to mitigate the risk as the systemic risk in insuring different crops is low.

The Company has also spread its risk across geographies, by implementing PMFBY in eight states within this financial year.

For Pure Liability Insurance, the industry growth is well diversified across various segments and every product. This was driven by increasing customer awareness about exposures, contractual obligations and developments in the regulatory environment, both domestic and overseas. In Commercial line of Insurance, ICICI Lombard's market share grew despite de-growth faced by the Industry in the engineering insurance segment. This year, ICICI Lombard has tied up with AIR Worldwide to use their models for Earthquake & Cyclone for India along with the Flood Hazard maps. Using these modelling solutions, ICICI Lombard is now well positioned to address the needs of risk selection, pricing and accumulations from natural catastrophic risk. MyRA (My remote assistant), a robot based virtual assistant has been introduced to improve productivity, response time, business decisions and monitoring risk performance at various levels.

Claims

In FY2018, the Company serviced more than 1,000,000 claims in the motor insurance portfolio, settling more than 90% claims within one month. The introduction of IL TakeCare Cashless servicing model this year, for outpatient services as well usage/claim are all simplified through algorithm-based benefit table, which authenticates claims in real time. Web/app-based resolution of customer needs, in addition to the paper and call model has brought in transparency and efficiency. Innovations in technology was a key focus area, with

the Company launching 'InstaSpect', India's first ever live video streaming feature for servicing of motor claims.

The Company also started processing claims using Artificial Intelligence. Use of ICR/OCR for data extraction from medical documents further helped in increasing efficiency in Health Insurance. This will be one of the prime focus areas in the next year to completely automate approval & processing of cashless claims. Length of stay management, customary and reasonable charges and case management were introduced to drive cost efficiency.

The crop insurance space has seen drones and satellite imagery experiments for estimation of coverage, besides crop yield and losses for crop damage assessment. ICICI Lombard has adopted smart sampling approach for co-observing CCEs, which will help in yield estimation for large field areas, in a timely and effective manner, with substantial reduction in turnaround time and cost. In commercial lines of insurance, Automated-Cashless claims system for

Mobile/Laptop claims has scaled up capability to serve such claims manifold. Multiple automation initiatives in this segment has increased the capacity and improved the turnaround time for claims processing.

Risk Management

ICICI Lombard’s selective underwriting approach by continuous risk measurement has helped avoid adverse selections. Besides, the Company has also adopted risk-based pricing approach for sourcing motor business.

In the health insurance space, the Company continues to focus on various mediums for customers to take informed decisions. Health Assistance Team, Health Adviser and Wellness have been significant tools in providing offline and online medical guidance to policy holders. The introduction of new products in the primary care space allows intervention in the early stages.

Risk management for commercial insurance during FY2018 has been fortified by technological innovations particularly in the Internet of Things (IoT) domain, which has enabled the industry in increasing customer connectivity in the areas of safety and security. This real-time platform has empowered its customers to monitor and maintain electrical and fire safety equipment. These solutions are help to reduce electrical risk and to improve fire preparedness. This will help in sustaining enduring customer relationships.

Crop Insurance has seen technological advancement through initiatives by Government of India this year. Agriculture crop insurance portal launched by GOI will act as the central data repository for farmer data related to enrolment and claims, which can be used by stakeholders to share data electronically. Mandatory requirement for Aadhaar card enrolment will substantially reduce operational

risks. Technological improvements while conducting the Crop Cutting Experiments (CCEs) by the central and state government, shall help in management of data to a large extent. It comprises an introduction of a new app which allows photograph capturing, with details such as location, date and time, etc.

The Company has received a Certificate of Compliance for successfully completing the ISO 31000:2018 compliance process for its Enterprise Risk Management (ERM). It is the first Indian company to be certified by the British Standard Institution (BSI) for acting in accordance with the revised guidelines that were released in February 2018.

During the year, ICICI Lombard has maintained credit rating of “AAA” by ICRA and “Crisil AAA/Stable” by Crisil for subordinate debt raised by the Company. This is the highest rating regarding safety

and timely servicing of financial obligations. Further, the Company maintained its credit rating of “iAAA” awarded by ICRA for claims paying ability by the Company. This indicates that the Company has highest claims paying ability and has a fundamentally strong position.

Cost Management

The Cost Management Team is keenly driven to improve on its past performance and deliver better value to all stakeholders. Cost optimisation is achieved through the methodologies of cost planning, coordination, control and reporting of cost data. Latest and sophisticated cost-effective tools are deployed to improve functionality and to reduce costs, energy usage and environmental impact. Raising awareness of cost control among employees has also helped to lower organisational overheads.

During the year, the Company introduced new technologies at its Corporate Office in Prabhadevi, Mumbai. Rainwater harvesting was initiated to facilitate water conservation while installation of systematic and secured car parking system offers ease and convenience to vehicle owners while being a cost-effective method of monitoring and handling the parking area.

The Company also gained cost savings in communication expenses. Revision in commercials of wireless connections helped to save 7% in voice sim card usage and 18% in data cards.

Investments

As of March 31, 2018, ICICI Lombard had the largest total investment assets among the private-sector non-life insurers in India. As of March 31, 2018, the Company had ₹ 181.93 billion in total investment assets with an investment leverage (net

of borrowings) of 3.90x. The investment policy is designed with the objective of capital preservation and achieving superior total returns within identified risk parameters. The annualised total portfolio return (without unrealised gains) for fiscal 2018 was 9.7%. Listed equities made up 15.6% of the Company's total investment assets, by carrying value, as of March 31, 2018. Since fiscal 2004, the Company's listed equity portfolio has returned an annualized total return of 29.8%, as compared to an annualised return of 17.0% on the benchmark S&P NIFTY index.

Operations

During FY2018, the Company focussed on enhancing the quality of its services, lessening the time to market and improving customer service time. With the increased penetration of real-time policy/quote issuance platform like MyRA, Pratham and I partner, reduction in overall turnaround time (TAT) has been achieved. At the intermediary level, a direct document upload functionality was introduced, which eliminates the handling of the physical document at the intermediary's end. During the previous fiscal, the Company launched the 'Direct Client Interaction' platform in which the customer or intermediary can directly coordinate with the operations team for issuance of policy or endorsement.

Scale and capability were created in operations function to facilitate business growth and serve various business verticals in the organisation.

The increase in low value and high volume products like long-term two-wheelers, health combo products and OTC corporate products introduced the challenge to manage volumes with low operational costs and minimum TAT. Seamless integration with various systems and

processes of distribution partners, brokers and various lending institutions increased backend productivity leading to improved TAT. In the previous fiscal, the Company launched a new product "Health on EMI" under which all ICICI bank customers with savings accounts were offered health insurance with premium collection on a monthly basis from their respective savings account.

A key long-term strategy at ICICI Lombard is to continuously improve agent servicing and widen the distribution scale with compliance requirement to ensure accuracy and faster execution speed. During FY2018, IRDAI introduced different distribution channels like Point of Sale (POS), Insurance Marketing Firm (IMF) and Common Service Centre (CSC) apart from the agent, corporate agent and broker. For widening its distribution scale and customer penetration in

rural areas and remote locations, the Company started empanelling POS, IMF and CSC.

Process Excellence Group (PEG)

There was an accelerated drive in the Company to provide superior customer experience for reinforcing ICICI Lombard's proposition of being a customer-centric and trusted brand. Operational and process excellence approaches such as digitisation, robotic process automation, risk-based design thinking and customer-centric process innovation saw considerable focus, thus bringing about resource optimisation and increased efficiency.

An organisation-wide campaign #MakItEasy was run to simplify complex and tedious processes, thereby making it easier to do business with customers, suppliers and channel partners. The campaign attracted 687 ideas in a span of 45 days with active employee

participation. Employees suggested ideas to eliminate non-value added manual tasks and voiced measures to align customer impacting processes with customer perception. The campaign was an opportunity for employees to lead the change that they wanted to make in the organisation. Top 10 ideas were presented to the Managing Committee, and winners were felicitated at the Company’s Internal Performance Awards ceremony.

Keeping customer convenience at the helm, the Company implemented real-time policy renewals at branch offices, thus reducing the time consumed on manual interaction and subsequent closures by cross-functional teams. To further enhance the customer experience, the Company worked towards online booking of post-policy issuance health check-up appointments. Online appointment booking has eliminated the tedious tasks of multiple hand-shakes between departments and provided

customers with a single window for choosing the preferred diagnostic centre and also track appointments. Break-through ideas aimed at eliminating redundant tasks at the call centre resulted in the reduction in call volumes, thus improving efficiency.

The Company completed the first periodic audit cycle of its quality management system after upgrading to the most recent ISO 9001:2015 standard in FY2017. This demonstrates the continued commitment to conform to internationally established standards for quality systems and assurance.

The Company’s commitment to excellence was recognised and lauded by the World Quality Congress where it won the Global Award for Excellence in Quality Management and Leadership. ICICI Lombard also won the Middle East Quality Leadership and Excellence Award and the Asian Quality Excellence and Leadership Award for Planning, Processes and Systems in the general insurance segment.

“ICICI Lombard launched InstaSpect, a pioneering live video inspection and instant claims approval feature for motor insurance claims.”

Information Technology

At ICICI Lombard, the constant endeavour is to provide the best-in-class experience to customers by using the latest technology solutions. Continuing on the path of building a robust technology infrastructure both at the front-end and back-end, following new initiatives were undertaken during the year:

ICICI Lombard launched InstaSpect, a pioneering live video inspection and instant claims approval feature for motor insurance claims. This is the first time India has seen such innovation in the processing of motor insurance claims. InstaSpect enables customers to initiate the survey themselves, thus allowing on-the-spot vehicle inspection.

The feature also allows customers to directly connect with an ICICI Lombard Claims Manager rather than intimating their claim to the call centre or reporting

the vehicle to a workshop and waiting for an estimate and confirmation of loss covered from the insurer.

The Claims Manager will then intimate the claim, conduct and facilitate the inspection of the vehicle over a live video stream, provide immediate claim approval, assist the customer in finding a suitable workshop and arrange for a vehicle pickup, wherever available. The reduced wait-time from InstaSpect allows the vehicle to be inspected as soon as it is reported. The customer can be present while the survey is being conducted, allowing workshop representatives to provide on-the-spot information to them about the requirement of additional documents, if any. Further, if there are any doubts regarding coverage, the same can be clarified immediately, eliminating any further need for communication or the need to revisit the workshop at a later time.

“ICICI Lombard is also leveraging Artificial Intelligence (AI) for assessing claim admissibility and approval amount. AI technologies eliminate human intervention to some extent.”

The Company has migrated to a new contact centre solution with complete customer engagement capabilities. Calls and tasks are prioritised according to business and customer needs to increase operational efficiency. With rule-based prioritisation, consistency is achieved in service levels, and customer expectations are exceeded. The new contact centre solution has also helped to improve agent handling time, increase sales and reduce customer abandonment.

ICICI Lombard is also leveraging Artificial Intelligence (AI) for assessing claim admissibility and approval amount. AI technologies eliminate human intervention to some extent, saving time to focus on investigations and evaluations, thereby reducing TAT, and bring straight through process in approvals.

With GST implementation, the biggest Tax reform post-Independence, India has

shifted to a destination-based tax system. The comprehensive dual tax replaces the complex multiple indirect tax structure. The impact of GST on ICICI Lombard's 28 applications include major applications like policy administration, claims, REIS, vendor payments, commissions and payout systems. It has also provided for a multiple invoicing facility.

The Company successfully kicked off an initiative to setup a blockchain platform for NCB query, during FY2018.

The year further witnessed the implementation of Chatbot 'MyRA' using natural language processing platform. The Chatbot not only responds to customer queries in real-time, but also enables customers to renew two-wheeler, four-wheeler and health policies over an automated chat without any human intervention. Robotics and Chatbots have helped to achieve

faster TAT, error-free operations and provide self-help options to internal and external customers.

A remote assistant 'Pratham' was launched during the previous year, which provides a single window to Agents / RMs for generating the quote, inwarding the cases, submitting the documents and also issuing the policies to the end customers. Currently, the solution takes care of Fire and Burglary insurance for SME & Wholesale businesses, which shall be extended to other lines of business in future.

Human Resources

“Code Blue, an internal certification for building people capability, was rolled out for employees taking up managerial and leadership roles.”

ICICI Lombard continued its journey towards becoming an employer of choice as part of its overall organisational vision. Attracting the right talent, building their capability, creating an enabling environment and retaining talent continue to be key enablers of enhanced individual and organisation performance.

The governance around recruitment and hiring was further strengthened to ensure consistency across all businesses and functions, standardisation of the processes and integrating Vishvas, the internal guiding principles of the organisation, as inputs into hiring decisions.

The scope of the individual employee capability building initiative launched in FY2017 was broadened to incorporate medium and long-term capability building. This was enabled by incorporating career development goals as a part of employee ICP (Individual Capability

Plans). Discussions and reviews with line managers helped employees craft and implement these customised plans through the year.

During the year, action plans arising from the employee perception survey findings on Vishvas were activated. These action plans addressed the identified priorities through enabling policy, process and practice changes. To further strengthen employee engagement at branches, cross-functional teams were formed to structure and deploy the initiatives. In addition, Cultural Committees were set up to drive specific interventions to promote camaraderie and fun at work. Health and Wellness initiatives were also launched to spread awareness and encourage conversations around wellness.

Over and above the ongoing knowledge learning architecture and interventions,

i.e., Code Orange, Code Maroon and Code Maroon+, during the year “Code Blue” was launched. Code Blue, an internal certification for building people capability, was rolled out for employees taking up managerial and leadership roles. All first-time managers were covered in the first phase of its launch. Over 200 members of the internal DLC (Deeksha Learning Centre) Council actively contributed to various learning and development activities in the organisation, thereby reinforcing the “Leaders as Teachers” philosophy.

In recognition of its talent development initiatives, ICICI Lombard was conferred with the Association for Talent Development (ATD) Global Best Award for the 5th time. In addition, the organisation was also awarded the CLO Global Learning Elite Award in Gold Category for its learning practices.

As part of its broader focus to deliver value to all its stakeholders, ICICI Lombard is committed to being a responsible corporate citizen. Driven by the values of equality and humanity, the Company’s CSR agenda is aimed at bettering the lives of underprivileged children and communities. Multiple steps are regularly taken in the areas of Preventive Healthcare, Road Safety and Disaster Support to realise the CSR goals. Voluntary employee participation in the CSR programmes has helped multiply the impact and reach.

Caring Hands

In its endeavour to improve the health of the underprivileged children, the Company has been carrying out the Caring Hands programme for over seven years. Every aspect of the project – from seeking a school’s permission for holding the eye check-up camps

to bringing in ophthalmologists and conducting the camp – is personally executed by the employees. Distribution of free spectacles to the needy children is also managed by the employees. Painstakingly planned for over two months, the project culminates on Caring Hands Day held in December. Over 176,000 students from over 300 schools across the country have been reached in the last seven years under the Caring Hands initiative carried out by the employees. In fact, the support for the project is so overwhelming that every year more than 50% of the growing employee base is involved, making it a genuinely employee-driven CSR initiative. From 11,000 children in the first year, i.e., 2011, the number of children touched through the programme grew to 36,579 in FY2018. The Company remains committed to enriching the lives of children through its unique endeavour.

Wellness Initiatives

According to an estimate from the World Bank, 21% of communicable diseases in India are linked to unsafe water and lack of hygiene practices. Over 150,000 children die every year from diarrhoea alone due to unsafe water in the country.

ICICI Lombard took up the task to address this problem and thereby address the larger issue of lack of Wellness among children. This focus is in line with the Company's experience in the healthcare domain and expertise in initiating projects towards preventive care especially related to Wellness.

The Company initiated workshops in schools serving underprivileged children to make them aware of problems related to drinking impure water. Further, the Company installed water purifiers in these schools to ensure that children get access to clean drinking water. In FY2018,

the Company conducted workshops in 20 schools in Mumbai and installed water purifiers in their premises. 35,000 students benefited from this exercise and now have access to clean drinking water.

Ride to Safety

In India, more than 5,000 children below the age of 14 lose their lives due to road accidents every year involving two-wheelers, the highest among all vehicles. Lack of awareness and non-adherence to basic road safety rules such as wearing helmets are attributable to these unfortunate yet avoidable mishaps.

ICICI Lombard started a unique CSR initiative 'Ride to Safety' – aimed at making roads safer for children riding as pillion riders on two-wheelers. As part of the initiative, the Company has been promoting road safety habits among children. The young generation has especially been kept in focus as not

only are children most receptive to such initiatives but in the long-run, this will bring about a sustainable change as these children become responsible adults.

Two broad interventions were undertaken as part of the programme: i) creating road safety awareness among parents and children through customised direct contact programmes, and ii) distributing child specific ISI-marked helmets to the participating children. Since the inception of the programme in September 2015, the Company has directly contacted over 50,000 parents and their children. In a significant milestone, ICICI Lombard has distributed 44,000 ISI-marked helmets to children.

Right Culture

Our people interact with customers every day. Defined by our Vishwas Policy – the internal guiding principles of the organisation, our culture inspires us to do the right thing every time. Manifest in our attitude, work ethics, innovation and productivity, our culture lies at the core of our business. The way we work, we firmly believe, will strengthen customer relationships and drive us towards outstanding results.

Fast and nimble

Agility is critical to serving our customers and partners in the best possible manner. Through product innovation, we seek to be responsive to their evolving requirements. We also strive to work proactively and quickly at all times, especially during claim management to ensure that our customers' difficult circumstances become easier to manage.

Taking charge

We are committed to set benchmarks and raise industry standards. To achieve this, each one of us at ICICI Lombard, whatever be our domain, job or skill set, are driven to perform. Our efforts collectively shape our Company's success, motivating us all to scale higher peaks and foray into newer pastures. By taking charge, we build long-term value.

Walking together

Collaborative environment sees results. By sharing ideas and combining resources, we foster teamwork, fuel innovation and kindle the organisation's success. We also work hand-in-hand with our distributors and partners. Our partnerships are founded on transparency, fairness and mutual trust.

Celebrating wins

Out-of-the-box thinking is encouraged, even at the cost of making mistakes. Failures, we believe, play a pivotal role in enabling team members to learn and grow. At the same time, we emphasise on being a meritocratic workplace, inspiring each one of us to bring our best to work. Every milestone, each achievement and all benchmarks are celebrated as a team – after all, each one of us has a part to play in our success!

Directors' Report (Contd.)

of reference as may be decided by the Board and/or specified/provided under the Companies Act, 2013 or the Listing Regulations, or by any other regulatory authority.

Composition

In terms of the provisions of Companies Act, 2013, the Board Nomination and Remuneration Committee (the Committee) comprises of four non-executive Directors, three of whom are independent Directors. The Committee is chaired by Uday Chitale, a non-executive independent Director of the Company.

The composition of the Committee is given below along with the attendance of the members. The Committee met three times in the year under review on April 18, 2017, June 9, 2017 and July 3, 2017.

Attendance record of the Members:

Name of Member	Number of Meetings attended
Uday Chitale, Chairman	3/3
Chanda Kochhar	3/3
Chandran Ratnaswami*	1/2
Lalita D. Gupte	2/3
Ashvin Parekh	3/3

*Ceased to be Member with effect from July 2, 2017.

The Board of Directors at its Meeting held on July 3, 2017 had re-constituted the Board Nomination and Remuneration Committee pursuant to which Chandran Ratnaswami ceased to be member of the Committee.

Performance Evaluation of Board, Committees and Directors:

Pursuant to the provisions of the Companies Act, 2013 and Guidelines for insurance companies issued by IRDAI, the Board shall carry out evaluation of every Director's performance. The Companies Act, 2013 had also prescribed the code of conduct ('the Code') for independent Directors which provided that the independent Directors shall meet atleast once in a year to review the performance of non-independent Directors and the Board as a whole and the Chairperson of the

Company. The Code also mentioned that the performance evaluation of independent Directors shall be done by the entire Board of Directors, excluding the Director being evaluated.

The Company with the approval of its Board Nomination and Remuneration Committee has put in place an evaluation framework for evaluation of the Board, Directors and Chairperson. The Board also carries out an evaluation of the working of its Audit Committee, Board Nomination & Remuneration Committee, Risk Management Committee, Investment Committee, Policyholder Protection Committee, Corporate Social Responsibility Committee, Stakeholders Relationship Committee and Strategy Committee.

The evaluation of the Committees is based on the assessment of the compliance with the terms of reference of the Committees. The evaluations was done through circulation of four questionnaires, one for the Directors, one for the Chairperson, one for the Board and one for the Committees, which assessed the performance of the Board on select parameters related to roles, responsibilities and obligations of the Board and functioning of the Committees including assessing the quality, quantity and timeliness of flow of information between the Company's management and the Board that is necessary for the Board to effectively and reasonably perform their duties. The evaluation criteria for the Directors were based on their participation, contribution and offering guidance to and understanding of the areas which are relevant to them in their capacity as members of the Board.

Familiarisation Programme for Independent Directors

Independent Directors are provided every opportunity to familiarise themselves with the strategy, industry overview, performance, key regulatory developments and on their role, rights and responsibilities as a Director. Induction programmes are organised for every new Director wherein the Director is given an overview of the Company, its vision and mission, the industry in which it operates, its business, strategies, risk management, organisation structure and other areas of relevance. The details of the familiarisation programmes have been

III. POLICY ON DIRECTORS' APPOINTMENT AND REMUNERATION

The Company with the approval of its Board Nomination and Remuneration Committee (Committee) has put in place a policy on Director's appointment and remuneration including criteria for determining qualifications, positive attributes and independence of a Director as well as a policy on Board Diversity.

The Board at its Meeting held on January 14, 2010 had approved adoption of Policy on appointment and compensation of employees (including Whole-time Directors, KMPs and senior management). The sitting fee payable to independent Directors (other than non-executive non-independent Directors) as prescribed under the Companies Act, 2013 for attending Board and Committee Meetings was approved by the Board at its Meeting held on April 18, 2014. Further the Board at the Board Meeting held on March 31, 2015 approved the criteria for appointment of a Director, key managerial personnel and senior management. The Compensation Guidelines forming part of the Policy on appointment and compensation of employees and framework for Remuneration to non-executive Directors was approved by the Board Nomination and Remuneration Committee at its Meeting held on October 18, 2016.

The remuneration payable to independent Directors is governed by the provisions of the Companies Act and related rules to the extent applicable and IRDAI guidelines issued in this regard. The remuneration for the independent directors would be sitting fee for attending each meeting of the Committee/Board as approved by the Board from time to time within the limits as provided under the Companies Act and related rules. IRDAI vide its guidelines dated August 5, 2016 has permitted payment of profit related commission upto ₹ 1,000,000/- per annum for non-executive Directors, effective from October 1, 2016. The Board at its Meeting held on October 18, 2016 approved the payment of profit related commission upto ₹ 750,000/- per annum to non-executive independent directors of

Directors' Report (Contd.)

the Company, which was approved by the shareholders in the Extra-ordinary General Meeting held on November 10, 2016.

All the non-executive/independent Directors would be entitled to reimbursement of expenses for attending Board/Committee Meetings, official visits and participation in various forums on behalf of the Board.

IV. INDEPENDENT DIRECTOR'S MEETING

The code of conduct for independent Directors prescribed vide Schedule IV of the Companies Act, 2013, provides for an evaluation mechanism for the Board/Chairperson/Non-executive Directors/Whole-time Directors which would need to be done at a separate Meeting of independent Directors, without the attendance of Non-independent Directors and members of management.

Independent Directors of the Company met on April 18, 2017 without the presence of wholetime Directors, non-

executive non-independent Directors and management personnel to discuss the framework for evaluation of Directors. They also have a separate Meeting every quarter with the non-executive Chairperson, without any of the wholetime Directors being present, to discuss issues and concerns, if any.

V. DETAILS OF MANAGERIAL REMUNERATION FOR FY2018:

(i) Whole-time Directors:

The Board based on the recommendation of the Board Nomination and Remuneration Committee approved revision in the remuneration, performance bonus and long term performance pay, payable to the wholetime Directors. IRDA/F&A/GDL/LSTD/155/08/2016 dated August 5, 2016 requires the Company to make the following disclosures on remuneration on an annual basis in their Annual Report:

Compensation Policy and Practices

(i) Qualitative Disclosures

a) Information relating to the design and structure of remuneration processes

1. Key features and objectives of remuneration policy

The Company has under the guidance of the Board and the Board Nomination and Remuneration Committee (BNRC), followed compensation practices intended to drive meritocracy and fairness.

The twin pillars of performance management and talent management system are closely intertwined with the compensation, benefits and reward mechanism of the Company. While the Company will strive to ensure internal and external equity that are consistent with emerging market trends, its business model and affordability based on business performance sets the overarching boundary conditions. This approach has been incorporated in the Compensation Policy, the key elements of which are given below:

➤ Effective governance of compensation:

The BNRC has oversight over compensation. The Committee defines Key Performance Indicators (KPIs) for Wholetime Directors and the organisational performance norms for bonus based on the financial and strategic plan approved by the Board. The KPIs include both quantitative and qualitative aspects. The BNRC assesses organisational performance as well as the individual performance for WTDs. Based on its assessment, it makes recommendations to the Board regarding compensation for WTDs and bonus for employees, including senior management and key management personnel.

Directors' Report (Contd.)

- Alignment of compensation philosophy with prudent risk taking:

The Company seeks to achieve a prudent mix of fixed and variable pay, with a higher proportion of variable pay at senior levels and no guaranteed bonuses. Compensation is sought to be aligned to both financial and nonfinancial indicators of performance including aspects like risk management and customer service. In addition, being group company of ICICI Bank, the Company has an employee stock option scheme aimed at aligning compensation to long term performance through stock option grants and deferred cash that vest over a period of time to senior management and WTDs. Compensation to staff in financial and risk control functions is independent of the business areas they oversee and depends on their performance assessment.

2. Whether the Remuneration Committee reviewed the firm's remuneration policy during the past year, and if so, an overview of any changes that were made

The Company's Remuneration Policy was reviewed by the BNRC and the Board on April 18, 2017. The policy was amended to incorporate post retiral benefit, domiciliary medical expense reimbursement and Company provided car facility.

3. Discussion of how the Company ensures that risk and compliance employees are remunerated independently of the businesses they oversee

The compensation of staff engaged in control functions like risk and compliance depends on their performance, which is based on achievement of the key results of their respective functions. Their goal sheets do not include any business targets.

b) Description of the ways in which current and future risks are taken into account in the remuneration processes

1. Overview of the key risks that the Company takes into account when implementing remuneration measures

The Board approves the risk framework for the Company and the business activities of the Company are undertaken within this framework to achieve the financial plan. The risk framework includes the Company's risk appetite, limits framework and

policies and procedures governing various types of risk. KPIs of WTDs, as well as employees, incorporate relevant risk management related aspects. For example, in addition to performance targets in areas such as growth and profits, performance indicators include aspects such as Combined Ratio. The BNRC takes into consideration all the above aspects while assessing organisational and individual performance and making compensation-related recommendations to the Board.

2. Overview of the nature and type of key measures used to take account of these risks, including risk difficult to measure

The annual performance targets and performance evaluation incorporate both qualitative and quantitative aspects including combined ratio, reserving and refinement/improvement of the risk management framework.

3. Discussion of the ways in which these measures affect remuneration

Every year, the financial plan/targets are formulated in conjunction with a risk framework with limit structures for various areas of risk/lines of business, within which the Company operates to achieve the financial plan. To ensure effective alignment of compensation with prudent risk taking, the BNRC takes into account adherence to the risk framework in conjunction with which the financial plan/targets have been formulated. KPIs of WTDs, as well as employees, incorporate relevant risk management related aspects. For example, in addition to performance targets in areas such as growth and profits, performance indicators include aspects such as the combined ratio and reserving. The BNRC takes into consideration all the above aspects while assessing organisational and individual performance and making compensation-related recommendations to the Board.

4. Discussion of how the nature and type of these measures have changed over the past year and reasons for the changes, as well as the impact of changes on remuneration

The nature and type of these measures have not changed over the past year and hence, there is no impact on remuneration.

c) Description of the ways in which the Company seeks to link performance during a performance measurement period with levels of remuneration

1. Overview of main performance metrics for the Company, top level business lines and individuals

The main performance metrics include business growth, market share, profits, strategic goals for future, risk metrics (such as combined ratio), compliance with regulatory norms, refinement of risk management processes and customer service. The specific metrics and weightages for various metrics vary with the role and level of the individual.

2. Discussion of how amounts of individual remuneration are linked to the Company-wide and individual performance

The BNRC takes into consideration all the above aspects while assessing organisational and individual performance and making compensation-related recommendations to the Board regarding the level of performance bonus for employees and the performance assessment of WTDs. The

performance assessment of individual employees is undertaken based on achievements vis-à-vis their goal sheets, which incorporate the various aspects/metrics described earlier.

3. Discussion of the measures the Company will in general implement to adjust remuneration in the event that performance metrics are weak, including the Company's criteria for determining 'weak' performance metrics

The Company's Compensation Policy outlines the measures the Company will implement in the event of a reasonable evidence of deterioration in financial performance. Should such an event occur in the manner outlined in the policy, the BNRC may decide to apply malus/clawback on none, part or all of the unvested deferred variable compensation.

(ii) Quantitative disclosures (WTD, CEO/MD)

Directors' Report (Contd.)

VI. Internal Control

ICICI Lombard has adopted the following frameworks in accordance with the requirements laid down under Corporate Governance Guidelines.

(i) Internal Audit Framework

ICICI Lombard has established an internal audit framework with a risk based approach. The internal audit covers auditing of processes as well as transactions.

ICICI Lombard has designed its internal control framework to provide reasonable assurance to ensure compliance with internal policies and procedures, regulatory matters and to safeguard reliability of the financial reporting and its disclosures. An annual risk-based internal audit plan is drawn up on the basis of risk profiling of the businesses/departments of the Company which is approved by the Audit Committee. The Board/Committee considers that the internal control framework is appropriate to the business.

The Internal Audit Department's key audit findings, recommendations and compliance status of the previous key audit findings are reported to the Audit Committee. The Audit Committee actively monitors the implementation of its recommendations. The Chairman of the Audit Committee briefs the Board on deliberations taken place at the Audit Committee Meeting in relation to the key audit findings.

In accordance with IRDAI directives, the Company carries out a concurrent audit of investment operations through a Chartered Accountant firm and reports the findings to the Audit Committee.

(ii) Internal Controls over Financial Reporting

The Company has in place adequate internal financial controls commensurate with size, scale and complexity of its operations. During the year, such controls were tested and no reportable material weakness in the design or operations were observed. The Company has policies and procedures in place for ensuring proper and efficient conduct of its business, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records and the timely preparation of reliable financial information.

(iii) Risk Management Framework

The objective of the Risk Management Framework (the Framework) of the Company is to ensure that various risks are identified, measured, mitigated and that policies, procedures and standards are established to address these risks for systemic response and adherence.

The Company has identified enterprise wide risks, which are categorised under 5 broad groups namely Credit Risk, Market Risk, Underwriting Risk, Operational Risk and Strategic Risk. The broad structure of the Framework is as follows:

- Risk identification, assessment and mitigation process;
- Risk management and oversight structure; and
- Risk monitoring and reporting mechanism.

As part of the Enterprises Risk Management exercise, critical risks along with the detailed mitigation plan are presented to the Risk Management Committee on a quarterly basis. The risk mitigation plans are monitored regularly by the Company to ensure their timely and appropriate execution. The Company further measures each of its risk items against a set of predefined tolerance levels. These levels and the subsequent tolerance scores are classified as high, medium and low risk respectively. The risks are further monitored on a quarterly basis by using a heat map based on probability and severity. A Risk Register is maintained to capture inventory of risks that the Company is exposed to along with mitigation and corrective action plans. The Risk Management Committee is updated on the progress on a quarterly basis.

The senior management of the Company is responsible for periodic review of the risk management process to ensure that the process initiatives are aligned to the desired objectives. The Internal Audit Department is responsible for review of risk management processes within the Company and for the review of self-assessments of risk management activities. Further, compliance testing is done on a periodic basis and the Risk Management Committee is kept apprised of the outcome of the same.

The Company's Reinsurance Program defines the retention limit for various classes of products. Further,

the Company has in place a risk retention reinsurance philosophy, which defines the product-wise retention limits on a per-risk basis as well as a retention limit on a per-event basis. The Underwriting Policy defines product-wise approval limits for various underwriters. The Investment Policy lays down the asset allocation strategy to ensure financial liquidity, security and diversification. The Company also has in place a Capital Adequacy and Liquidity Management Framework and an Asset Liability Management Policy. These policies ensure maintenance of adequate level of capital at all times to meet diverse risk related to market and operations. The Operational Risk Policy defines the tolerance limits and lays down the framework for monitoring, supervision, reporting and management of operational risks of the Company. The Company has also adopted the Information Security Policy and Cyber Security Policy in line with the Group Information Security Policy and

the Guidelines issued by the regulator on Information & Cyber Security.

Stress testing is conducted to identify and quantify the overall impact of different stress scenarios on the Company's financial position. These tests do not predict what will happen, but are useful for examining what might happen.

The Company has received a Certificate of Compliance for successfully completing the ISO 31000:2018 compliance process for its Enterprise Risk Management (ERM). It is the first Indian company to be certified by the British Standard Institution (BSI) for acting in accordance with the revised guidelines that were released in February 2018.

The Risk Management Framework of the Company is overseen by the Risk Management Committee of the Board. The Company has a Chief Risk Officer who is responsible for the implementation and monitoring of the framework.

The provisions of Section 134(3)(m) of the Companies Act, 2013 read with Rule 8(3) of the Companies (Accounts) Rules, 2014 relating to conservation of energy and technology absorption do not apply to ICICI Lombard. ICICI Lombard has,

however, used information technology extensively in its operations.

During FY2018, expenditures in foreign currencies amounted to ₹ 4.05 billion and earnings in foreign currencies amounted to ₹ 1.98 billion.

XII. Employee Stock Option Scheme

In FY2006, ICICI Lombard had instituted an Employee Stock Option Scheme (ESOS) to enable the employees and Directors of ICICI Lombard to participate in its future growth and financial success. As per ESOS, the maximum number of options granted to any employee/Director in a year shall not, except with the approval of the Board, exceed 0.10% of ICICI Lombard's issued equity shares at the time of grant and the aggregate of all such options (net of forfeited/lapsed) is limited to 5% of ICICI Lombard's issued equity shares on the date of the grant.

The Board at its Meeting held on January 14, 2015 and the Shareholders at the Extra-Ordinary General Meeting held on March 4, 2015 had approved an amendment in the Employee Stock Option Scheme, 2005 to extend the exercise period by three more years in respect of options granted in the years 2005, 2006 and 2007.

Options granted in the years 2005, 2006, 2007, 2008 and 2010 vest in a graded manner over a four-year period, with 20%, 20%, 30% and 30% of the grants vesting each year, commencing not earlier than 12 months from the date of grant. Options granted the year 2009 vest in over a five year period with no vesting in the first year and 20%, 20%, 30% and 30% of the grant vesting each year in the subsequent four years. Options granted for the year 2011 vest over a two-year period, with 40% and 60% of the grants vesting each year, commencing not earlier than 12 months from the date of grant. Options can be exercised within a period of 13 years in respect of options granted in 2005, 2006 and 2007. Option other than those years can be exercised over a period of 10 years from the date of grant or five years from the date of vesting.

Particulars of options granted by ICICI Lombard up to March 31, 2018 are given below:

Management's Discussion and Analysis

I. MACRO ECONOMIC ENVIRONMENT AND NON-LIFE INSURANCE INDUSTRY DEVELOPMENTS

Fiscal 2018 saw few important reforms on economic policy front such as implementation of Goods and Services Tax (GST), The Insolvency & Bankruptcy Code and Real Estate Regulation Act (RERA).

Implementation of GST was a big step towards simplifying indirect tax structure and formal economy. GST is expected to boost India's GDP growth, improve manufacturing outlook and create jobs.

The Insolvency and Bankruptcy Code consolidated existing framework by creating single law for insolvency and bankruptcy dealing with insolvency of corporates, partnerships and individuals and other entities.

India's GDP growth outlook is improving with India's GDP growth projected at 7.4% for 2018 and 7.8% for 2019¹. The increase in GDP growth will be driven by strong private consumption as well as fading transitory effect of demonetisation and implementation of GST.

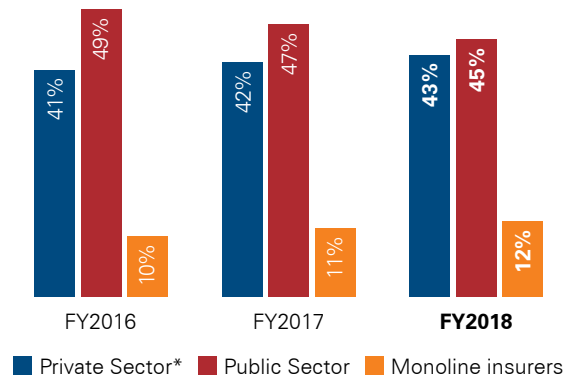

With the better growth outlook for GDP, country's stock market also attracted sizable inflows of foreign capital in addition to increased participation of domestic retail investors. The benchmark indices BSE Sensex and Nifty rose by 11.30% & 10.25% respectively for fiscal 2018².

Non-Life Insurance Industry developments

The non-life insurance industry continued to grow at robust pace for fiscal 2018, registering growth of 17.5%. The industry crossed important milestone of ₹ 1,500³ billion GDPI for fiscal 2018, in just two years after having reached ₹ 964 billion for fiscal 2016. The industry has grown at a CAGR of approximately 17% for the last 16 years. Despite this, non-life insurance penetration continues to be around 0.8% of GDP against world average of 2.8%⁴ and given India's demographic dividend, the sector is poised to reach newer heights in the coming years.

The private multi product players contributed to approximately 43% of the market for fiscal 2018.

*Excluding monoline insurers

The industry growth is driven by growth in Motor Third Party, Retail Health and Crop/Weather insurance segments. Motor Third Party, Retail Health and Crop/Weather grew by approximately 24%, 27% & 19% for fiscal 2018. The product mix for the industry is given below:

II. DISCUSSION ON FINANCIAL PERFORMANCE AND ANALYSIS OF FINANCIAL STATEMENTS

a. Overview of our business

We are the 4th largest⁵ non-life insurer and the largest private-sector non-life insurer in India based on gross direct premium income for fiscal 2018. We offer our customers a comprehensive and well-diversified range of products, including motor, crop/weather, health, fire, personal accident, marine, engineering and liability insurance, through multiple distribution channels.

For fiscal 2018, we issued 23.5 million policies and our gross direct premium income was ₹ 123.57 billion, translating into a market share, on a gross direct premium income basis of 8.2% among all non-life insurers in India and 16.8% among private-sector non-life insurers in India. Our key distribution channels are direct sales, individual agents, bank partners, other corporate agents, brokers and digital, through which we service our individual, corporate and government customers.

As of March 31, 2018, we had the largest total investment assets among the private-sector non-life insurers in India. As of March 31, 2018, we had ₹ 181.93 billion in total investment assets with an investment leverage (net of borrowings) of 3.90x. Our investment policy is designed with the objective of capital preservation and achieving superior total returns within identified risk parameters. Our annualised total portfolio return (without unrealised gains) for fiscal 2018 was 9.7%. Listed equities made up 15.6% of our total investment assets, by carrying value, as of March 31, 2018. Since fiscal 2004, our listed equity portfolio has returned an annualised total return of 29.8%, as compared to an annualised return of 17.0% on the benchmark S&P NIFTY index.

b. Basis of preparation and presentation of our financial statements

The financial statements have been prepared and presented under the historical cost convention, unless otherwise specifically stated, on the accrual basis of accounting, and comply with the applicable accounting standards referred to in section 133 of the Companies Act, 2013 read with Rule 7 of

the Companies (Accounts) Rules, 2014, and in accordance with the provisions of the Insurance Act, 1938, Insurance Laws (Amendment) Act, 2015 (to the extent notified), Insurance Regulatory and Development Authority Act, 1999, the Insurance Regulatory and Development Authority of India (Preparation of Financial Statements and Auditor's Report of Insurance Companies Regulations), 2002 ('the Regulations') and orders/directions prescribed by the IRDAI in this behalf, the provisions of the Companies Act, 2013 (to the extent applicable) in the manner so required and current practices prevailing within the insurance industry in India.

Our financial statements comprise a revenue account (policyholders' account), profit and loss account (shareholders' account), statement of assets and liabilities (balance sheet), and receipts and payments account.

i. Revenue Account and Profit & Loss Account

The revenue account contains income and expenses relating to policyholders, and the surplus or deficit generated in this account is appropriated to the profit and loss account every fiscal.

The table below summarises the Revenue account.

Management's Discussion and Analysis (Contd.)

The table below summaries the Profit & Loss account.

Premium earned (net) (NEP)

	(₹ billion)	
	Fiscal 2017	Fiscal 2018
Premium from direct business written-net of service tax (GDPI)	107.25	123.57
Premium on reinsurance accepted	2.35	2.43
Gross Written Premium (GWP)	109.60	126.00
Less: Premium on reinsurance ceded	43.66	47.55
Net Written Premium (NWP)	65.94	78.45
Less: Adjustment for change in reserve for unexpired risks	4.30	9.33
Premium earned (net) (NEP)	61.64	69.12

Premium from direct business written-net of service tax, which we refer to as GDPI, is the total premium received by us before taking into account reinsurance assumed and ceded. This is calculated net of service tax on such premiums.

Our GDPI increased to ₹ 123.57 billion for fiscal 2018 from ₹ 107.25 billion for fiscal 2017, an increase of 15.2%. The increase was primarily due to growth in the GDPI from health, motor and crop/weather segments.

The increase in our GDPI from health insurance can be attributed to increase in retail and group health business. The increase in motor insurance segment is primarily due to price revision in Motor Third Party business

and partly supported by increase in our long-term two-wheeler insurance business. Our GDPI from crop/weather increased to ₹ 23.71 billion for fiscal 2018 from ₹ 21.51 billion for fiscal 2017, an increase of 10.2%, primarily due to Pradhan Mantri Fasal Bilma Yojna (PMFBY). The GDPI growth for crop/weather insurance for industry for fiscal 2018 was 18.9%. The Company took a cautious approach in underwriting crop/weather insurance given the adverse loss experience exhibited in the Kharif season.

Premium on reinsurance accepted is the premium received by us due to risks that we reinsure, which we also refer to as "reinsurance inward". Premium on reinsurance accepted increased marginally to ₹ 2.43 billion for fiscal 2018 from ₹ 2.35 billion for fiscal 2017.

Hence, our GWP increased to ₹ 126.00 billion for fiscal 2018 from ₹ 109.60 for fiscal 2017, an increase of 15.0%.

Premium on reinsurance ceded is the premium in relation to the risk that we cede to our reinsurers. In the case of non-proportional reinsurance, like risk, excess-of-loss or catastrophic excess-of-loss, this amount is the premium that we pay to our reinsurers. In the case of proportional reinsurance, this amount is calculated based on the premium we receive for insuring a particular risk and the proportion of such risk ceded to our reinsurers.

The premium on reinsurance ceded increased to ₹ 47.55 billion for fiscal 2018 from ₹ 43.66 billion for fiscal 2017 primarily due to increase in GDPI and an increase in crop/weather insurance for which we have had a lower rate of risk retention.

Our NEP increased to ₹ 69.12 billion for fiscal 2018 from ₹ 61.64 billion for fiscal 2017. The increase was primarily due to increase in NEP from motor, crop/weather and personal accident segments.

Our segmental NEP is shown in the table below.

	(₹ billion)	
Segment	Fiscal 2017	Fiscal 2018
Motor:		
Motor- Own Damage	19.73	23.00
Motor- Third Party	15.67	18.42
Motor- Total	35.40	41.42
Health Insurance	11.55	11.15
Crop/Weather Insurance	5.06	5.45
Marine:		

Segment	₹ billion)	
	Fiscal 2017	Fiscal 2018
Marine-Cargo	1.83	1.91
Marine-Others	0.09	0.05
Marine- Total	1.92	1.96
Personal Accident	1.80	2.35
Fire	1.24	1.44
Engineering	0.66	0.74
Aviation	0.45	0.34
Workmen's Compensation	0.42	0.46
Public/Product Liability	0.07	0.12
Credit Insurance	0.02	0.03
Others	3.05	3.66
Total	61.64	69.12

Our NEP from Motor insurance grew to ₹ 41.42 billion for fiscal 2018 from ₹ 35.40 billion for fiscal 2017, an increase of 17.0%.

Our NEP from crop/weather insurance grew to ₹ 5.45 billion for fiscal 2018 from ₹ 5.06 billion for fiscal 2017, an increase of 7.6%.

Our NEP from health insurance reduced marginally to ₹ 11.15 billion for fiscal 2018 from ₹ 11.55 billion for fiscal 2017, a decrease of 3.5%. The decrease was due to our decision to largely exit from the mass health segment during fiscal 2018 which was partially offset by increase in retail and corporate health segments.

Income from investments (revenue account)

Income from investments (revenue account) consists of net profit on sale and redemption of investments and gross interest, dividend and rent received from our investment assets. The table below summaries the Income from investments (Revenue account).

Income from investments (revenue account)	₹ billion)	
	Fiscal 2017	Fiscal 2018
Net profit on sale and redemption of investments	2.98	3.29
Interest, Dividend and Rent – Gross	7.03	7.98
Income from investments (revenue account)	10.01	11.27

Income from investments (revenue account) increased to ₹ 11.27 billion for fiscal 2018 from ₹ 10.01 billion for fiscal 2017, an increase of 12.5%. The increase in gross interest, dividend and rent (revenue account) to ₹ 7.98 billion for fiscal 2018 from ₹ 7.03 billion for fiscal 2017 was primarily due to increase in total investment assets attributable to the revenue account.

Other income (revenue account)

Other income (revenue account) consists of foreign exchange gain or loss, investment income from the terrorism pool and miscellaneous income. The table below summaries the Other income (revenue account).

Other income (revenue account)	₹ billion)	
	Fiscal 2017	Fiscal 2018
Foreign exchange gain/(loss)	(0.07)	(0.02)
Investment income from pool (terrorism)	0.24	0.28
Miscellaneous income	0.27	0.02
Other income (revenue account)	0.44	0.28

Other income (revenue account) decreased to ₹ 0.28 billion for fiscal 2018 from ₹ 0.44 billion for fiscal 2017, a decrease of 37.6%. This is primarily due to decrease in miscellaneous income to ₹ 0.02 billion for fiscal 2018 from ₹ 0.27 billion for fiscal 2017. Miscellaneous income for fiscal 2017 primarily included income booked upon the final determination of area coverages in crop/weather insurance based on actual measurements.

Claims Incurred (net)

Claims incurred (net) are the total claims incurred by us during a given period, both paid and outstanding, net of claims recovered from reinsurance ceded. Under guidance issued by the IRDAI, IBNR and IBNER reserves, which constitute claims outstanding, are not discounted. The table below summaries the Claims Incurred (net).

Net claims paid	32.57	34.69
Increase/(decrease) in claims outstanding	16.97	18.46
Claims incurred (net)	49.54	53.15

Claims incurred (net) increased to ₹ 53.15 billion for fiscal 2018 from ₹ 49.54 billion for fiscal 2017, an increase of 7.3%. This increase was lower than our increase in NEP of 12.1% for the same period. There was also an improvement in our overall Loss ratio to 76.9% for fiscal 2018 from 80.4% for fiscal 2017. The table below summaries the segmental loss ratios.

Commission paid (net)

Commission paid (net) comprises of Commission paid – Direct, Commission paid on reinsurance accepted subtracted by commission received from reinsurance ceded.

Commission on reinsurance ceded refers to the commissions on reinsurance arrangements received by us. This commission is generally computed as a percentage of the premium on reinsurance ceded. In the case of certain proportional reinsurance contracts where the premium rates are defined, the difference between the premium we receive for insuring a particular risk and the premium rate so defined in the reinsurance contract is considered as commission on reinsurance ceded.

	(₹ billion)	
Commission (net)	Fiscal 2017	Fiscal 2018
Commission paid – Direct	4.38	7.11
Commission paid on reinsurance accepted	0.32	0.32
Gross commission paid	4.70	7.43
Less: Commission received from reinsurance ceded	9.04	10.27
Commission paid (net)	(4.34)	(2.84)

Commission paid-Direct increased to ₹ 7.11 for fiscal 2018 from ₹ 4.38 for fiscal 2017, an increase of 62.8%. The increase was primarily due to reflection of distribution fees on motor segment as "Commission Paid" consequent to implementation of Motor Insurance Service Provider (MISP) guidelines issued by IRDAI effective November 1, 2017.

Commission paid on reinsurance accepted remained the same at ₹ 0.32 billion for fiscal 2018 and fiscal 2017.

Commission received from reinsurance ceded increased to ₹ 10.27 billion for fiscal 2018 from ₹ 9.04 billion for fiscal 2017, an increase of 13.7%. The increase was primarily due to increase in premium on reinsurance ceded.

Operating expenses related to insurance business

Operating expenses related to insurance business includes employees' remuneration, rents, rates and taxes, advertisement, sales promotion, business support service and others.

Operating expenses related to insurance business increased to ₹ 21.12 billion for fiscal 2018 from ₹ 19.82 billion for fiscal 2017, an increase of 6.6%. The increase was primarily due to an increase in travel, conveyance and vehicle running expenses, business support expenses in line with increase in business volumes and advertisement and publicity charges.

Operating profit

Based on the above, operating profit increased to ₹ 9.24 billion for fiscal 2018 from ₹ 7.07 billion for fiscal 2017, an increase of 30.6%. Fire insurance contributed 14.4% and 14.1%, marine insurance contributed 5.1% and (1.4)%, and miscellaneous insurance (including motor insurance, health insurance and other lines of insurance) contributed 80.5% and 87.3% of our operating profit for fiscal 2018 and fiscal 2017, respectively. The increase in operating profit is largely driven by significant improvements in our loss ratios across the lines of business except for crop/weather and Motor Third Party segment.

Income from investments (profit and loss account)

Income from investments (profit and loss account) consists of interest, dividend and rent, and net profit on the sale and redemption of investments. The table below summaries the Income from investments (profit & loss account).

	(₹ billion)	
	Fiscal 2017	Fiscal 2018
Income from investments (profit and loss account)		
Net profit on sale and redemption of investments	0.92	1.18
Interest, Dividend and Rent – Gross	2.17	2.88
Income from investments (profit and loss account)	3.09	4.06

Income from investments (profit and loss account) increased to ₹ 4.06 billion for fiscal 2018 from ₹ 3.09 billion for fiscal 2017, an increase of 31.3%. The increase in gross interest, dividend and rent (profit and loss account) to ₹ 2.88 billion for fiscal 2018 from ₹ 2.17 billion for fiscal 2017 was primarily due to an increase in total investment assets attributable to the profit and loss account.

Other income (profit and loss account)

Other income (profit and loss account) consists of interest income on tax refund, profit on sale/discard of fixed assets and recovery of bad debts written off.

Other income (profit and loss account) increased to 0.08 billion for fiscal 2018 from ₹ 0.02 billion for fiscal 2017, an increase of 305.2%. We received interest income on tax refund of ₹ 0.08 billion for fiscal 2018 and ₹ 0.02 billion for fiscal 2017.

Provisions (other than taxation)

Provisions (other than taxation) consists of provisions for diminution in the value of investments, doubtful debts, future recoverable under reinsurance contracts, and other provisions.

Provisions (other than taxation) increased to ₹ 0.68 billion for fiscal 2018 from ₹ 0.09 billion for fiscal 2017, an increase of 618.6%. This was primarily due to an increase in provision for doubtful debts of ₹ 0.55 billion created on erstwhile policies issued under government sponsored mass health insurance scheme (RSBY).

Other expenses

Other expenses consist of expenses other than those related to insurance business, which include certain employees' remuneration and other expenses, managerial remuneration, directors' fees and CSR expenditure, charges on issuance of the Debentures, interest on the Debentures, expense related to investment property and operating expenses borne by shareholders. Other expenses also covers, bad debts written off, loss on sale/discard of fixed assets and penalty.

Other expenses decreased to ₹ 0.74 billion for fiscal 2018 from ₹ 0.99 billion for fiscal 2017, a decrease of 25.6%. Operating expenses for fiscal 2017 included ₹ 427.9 million debited in P&L account being excess of IRDAI prescribed segmental limits pertaining to the

Management's Discussion and Analysis (Contd.)

motor segment and which are required to be borne by shareholders in accordance with the IRDAI (Expenses of Management of Insurers transacting General or Health Insurance Business) Regulations, 2016.

Profit

As a result of the above, profit before tax increased to ₹ 11.96 billion for fiscal 2018 from ₹ 9.10 billion for fiscal 2017, an increase of 31.4%.

Provision for taxation increased to ₹ 3.34 billion for fiscal 2018 from ₹ 2.08 billion for fiscal 2017, an increase of 60.6%, primarily due to an increase in profit before tax and excess tax provision written back of ₹ 0.40 billion for fiscal 2017.

Profit after tax increased to 8.62 billion for fiscal 2018 from ₹ 7.02 billion for fiscal 2017, an increase of 22.8%.

ii. Financial Position: Balance Sheet

The following table sets forth, at the dates indicated, our summary balance sheet, which is based on our financial statements.

Particulars	₹ billion)	
	At March 31, 2017	At March 31, 2018
Share capital	4.51	4.54
Reserves and Surplus	32.74	40.88

Provisions	35.48	44.78
Fair value change account	6.77	7.34
Borrowings	4.85	4.85
Total liabilities	196.24	252.08
Total equity and liabilities	233.50	297.50
Total Investments	149.50	181.93
Fixed assets		
Cost/gross block	7.48	7.91
Net block	3.83	4.06
Deferred tax asset	0.87	2.11
Cash and bank balances	1.94	5.92
Advances and other assets	77.36	103.48
Total Assets	233.50	297.50

Total assets increased to ₹ 297.50 billion at March 31, 2018 from ₹ 233.50 billion at March 31, 2017, an increase of 27.4%. This increase was primarily due to an increase in total investments to 181.93 billion for fiscal 2018 from ₹ 149.50 billion for fiscal 2017. Advances and other assets increased to ₹ 103.48 billion at March 31, 2018 from ₹ 77.36 billion at March 31, 2017, an increase of 33.8%. Dues from other entities carrying on insurance business (net) increased to ₹ 75.89 billion for fiscal 2018 from ₹ 49.99 billion for fiscal 2017 on account of adverse claim experience in crop/weather insurance segment which typically has high proportion of reinsurance.

Total liabilities increased to ₹ 252.08 billion at March 31, 2018 from ₹ 196.24 billion at March 31, 2017, an increase of 28.5%. This increase was primarily due to an increase in claims outstanding (gross) to ₹ 159.16 billion for fiscal 2018 from ₹ 118.05 billion for fiscal 2017, primarily in relation to crop/weather insurance and motor third party insurance.

Fair value change account–Shareholder funds increased to ₹ 1.86 billion at March 31, 2018 from ₹ 1.75 billion at March 31, 2017, an increase of 6.4%. This increase was primarily due to the increase in the market value of our equity portfolio compared to its cost price. Fair value change–Policyholder funds increased to ₹ 5.48 billion at March 31, 2018 from ₹ 5.03 billion at March 31, 2017, an increase of 9.0%. This increase was primarily due to the increase in the market value of our equity portfolio compared to its cost price.

Investments–Shareholders increased to ₹ 47.28 billion at March 31, 2018 from ₹ 39.83 billion at March 31, 2017, an increase of 18.7%. This increase was primarily due to an overall increase in the investment book size. Further, regulatory changes prescribed by IRDAI affecting the notional allocation of investments into Policyholder and Shareholder funds based on the ratio of their respective liabilities and assets also contributed to an increase in the Shareholders fund ratio.

iii. Liquidity and Capital Resources

The following table sets forth, for the periods indicated, a summary of cash flows from our statement of receipts and payments account.

Particulars	(₹ billion)	
	Fiscal 2017	Fiscal 2018
Net cash flow from (used in) operating activities	16.28	23.90
Net cash flow from (used in) investing activities	(19.90)	(18.96)
Net cash flow from (used in) financing activities	3.61	(0.96)

Cash flows from operating activities

Net cash flows from operating activities increased to ₹ 23.90 billion for fiscal 2018 from ₹ 16.28 billion for fiscal 2017. This increase was primarily due to an increase in premiums received from policyholders due to the growth of our business, partially offset by an increase in the payment of operating expenses and commissions.

Cash flows from investing activities

Net cash flows (used in) investing activities decreased to ₹ (18.96) billion for fiscal 2018 from ₹ (19.90) billion for fiscal 2017. This decrease was primarily due to a reduction in net purchase of equity and fixed income and net investment in money market instruments and liquid mutual funds, mainly from funds generated from operating activities.

Cash flows from financing activities

Net cash flows from financing activities decreased to ₹ (0.96) billion for fiscal 2018 from ₹ 3.61 billion for fiscal 2017. This decrease was primarily due to payment of interest in respect of issuance of Debentures of ₹ 4.85 billion for fiscal 2017.

v. Borrowings

As of March 31, 2018, we had long term borrowings of ₹ 4.85 billion, total net worth of ₹ 45.41 billion and a total debt to net worth ratio of 10.7%.

III. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The internal controls of the Company are commensurate with the business requirements, its scale of operation and applicable statutes to ensure orderly and efficient conduct of business. These controls have been designed to provide a reasonable assurance with regard to maintaining proper accounting controls, safeguarding of resources, prevention and detection of frauds and errors, ensuring, operating effectiveness, reliability of financial reporting and compliance with applicable regulations. In addition, internal audits are undertaken to review significant operational areas regularly. The audit reports submitted by internal auditors are reviewed by audit committee and corrective actions are initiated to strengthen the controls and enhance the effectiveness of the existing systems. Statutory and Internal auditors are also invited to the Audit Committee meetings to ascertain their views on the adequacy of internal control systems.

The management believes that strengthening of internal controls is a continuous process and it will therefore continue its efforts to keep pace with changing business needs and environment.

Management Report

In accordance with the provisions of the Insurance Regulatory & Development Authority of India ('IRDAI') (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations, 2002 ('Regulation') the following Management Report for the year ended March 31, 2018 is submitted:

1. The Company obtained Regulatory approval to undertake General Insurance business on August 3, 2001 from the Insurance Regulatory and Development Authority of India ('IRDAI') and holds a valid certificate of registration.
 2. During the year ended March 31, 2018, the Company completed its Initial Public Offering (IPO) by way of an offer for sale of 86,247,187 equity shares of ₹ 10 each at a price of ₹ 661 per equity share, by ICICI Bank Limited, the Promoter Selling Shareholder and FAL Corporation, the Investor Selling Shareholder aggregating to ₹ 57,009.4 million. The equity shares of the Company are listed on BSE Limited and National Stock Exchange from September 27, 2017 onwards. The shareholding pattern is available in Schedule 5A of the financial statements.
 3. We certify that all the dues payable to the statutory authorities have been duly paid.
 4. We confirm that the shareholding pattern and transfer of shares are in accordance with statutory and regulatory requirements.
 5. The management has not invested any funds of holders of policies in India, directly or indirectly as required by IRDAI, outside India.
 6. We confirm that the required solvency margin has been maintained.
 7. We certify that the values of all the assets have been reviewed on the date of the balance sheet and that in our belief the assets set forth in the balance sheet are shown in aggregate at amounts not exceeding their realisable or market value under several headings- investments, agents balances, outstanding premiums, amount due from other entities carrying on insurance business, interest and dividend accrued, cash and several items specified under other accounts except unlisted equity, venture fund, securitised receipts, debt securities which are stated at cost/amortised cost.
 8. The entire gross risk exposure of the portfolio consists of fire, engineering, hull, aviation, motor, casualty, health, travel, energy, personal accident, rural and credit insurance and other lines of business.
- The overall exposure is spread over various sectors including but not limited to power, textiles, heavy and light engineering, paper, services, fast moving consumer goods, auto components, etc. across urban and rural segments as well as across demography.
- The business underwritten pertains to the various products filed by us with IRDAI, as per the file and use procedure: this includes tariff as well as non tariff products.
- While in property lines (Fire) the net retention has not exceeded ₹ 2,500.0 million on a PML basis (Previous year: ₹ 2,500.0 million) in any single risk, this also gets graded down to between ₹ 30.0 million to ₹ 2,500.0 million (Previous year: between ₹ 30.0 million to ₹ 2,500.0 million) on a case-to-case basis, depending on exposure levels and prudent underwriting standards. The excess of loss treaties protect the accumulation of the net retentions.
- Further, before underwriting any major property risk, a risk inspection is carried out, and on being satisfied about the acceptability of risk, the same is accepted. In addition, various loss prevention/risk-mitigating measures are also suggested to the clients to help improve the risks.
9. We confirm that there are no operations of the Company outside India.
 10. a) For ageing analysis of claims outstanding during the preceding five years, Please refer Annexure 1.
b) For average claims settlement time during the preceding five years, please refer Annexure 2.
c) For details of claims intimated, please refer Annexure 3.
 11. We certify that the Investments made in debt securities have been valued at historical cost subject to amortisation of premium/discount. The same is in accordance with the Insurance Regulatory and Development Authority of India ('IRDAI') (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulation, 2002 ('Regulation').
- For the purpose of comparison, the fair value of debt securities has been arrived on a Yield to maturity (YTM) basis by using the appropriate discount rates derived from the yield curve data provided by the Fixed Income and Money Market Dealers Association

(FIMMDA) in respect of Government Securities and Crisil's Security Level Valuation (SLV) in respect of other debt instruments.

Listed equity securities and convertible preference shares as at the balance sheet date are stated at fair value being the last quoted closing price on NSE. However, in case of any stock not being traded on NSE, the Company has valued them based on the last quoted closing price on BSE.

Mutual fund investments are stated at fair value, being the closing net asset value as at balance sheet date.

Investment Properties-Real Estate is stated at historical cost less accumulated depreciation.

Investments other than those mentioned above are valued at cost.

In accordance with the Regulation, unrealised gain/loss arising due to changes in fair value of listed equity shares, convertible preference shares and mutual fund investments are taken to the 'fair value change account'. This balance in the fair value change account is not available for distribution, pending realisation.

The Company assesses at each balance sheet date whether any impairment has occurred in respect of investment in equity and units of mutual fund. The impairment loss, if any, is recognised in the profit and loss account and the carrying value of such investment is reduced to its recoverable value. If on the assessment at balance sheet date a previously impaired loss no longer exists, then such loss is reversed to the profit and loss account and the investment is restated to that extent.

Impairment for Investment properties is assessed at each balance sheet date. The impairment loss, if any is recognised in the profit and loss account and the carrying value of such investment is reduced to its recoverable value.

12. Investments as at March 31, 2018 amount to ₹ 181,926.7 million Refer schedule 8 & 8A (previous year: 149,504.5 million). Income from Investments amounted to ₹ 15,326.4 million (previous period: 13,104.6 million).

Investments other than deposits with the banks, units of mutual fund, units of venture fund and security receipts are only in regularly traded instruments in the secondary markets. The Company's debt investment comprises largely of government securities, AAA and AA/P1+ rated security.

All are performing investments with no arrears of any payments due. Investments are managed in consonance with the investment policy framed from time to time by the Board and are within the investment regulation and guidelines of IRDAI.

13. We also confirm:

- in the preparation of financial statements, the applicable accounting standards, principles and policies have been followed along with proper explanations relating to material departures, if any;
- the management has adopted accounting policies and applied them consistently and made judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the Company for the year ended and of the operating profit and of the profits of the Company for the year ended;
- the management has taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the applicable provisions of the Insurance Act, 1938, Insurance Laws (Amendment) Act, 2015 (to the extent notified), Companies Act, 1956 and Companies Act, 2013 to the extent applicable, for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;
- the management has prepared the financial statements on a going concern basis;
- The management has ensured that an internal audit system commensurate with the size and nature of the business exists and is operating effectively.

14. For payments made to individuals, firms, companies and organisations in which Directors are interested, please refer to Annexure 4.

Independent Auditor's Report

on Financial Statements of ICICI Lombard General Insurance Company Limited

To The Members of ICICI Lombard General Insurance Company Limited Report on the Financial Statements

We have audited the accompanying financial statements of **ICICI LOMBARD GENERAL INSURANCE COMPANY LIMITED** ("the Company"), which comprise the Balance Sheet as at March 31, 2018, the Revenue accounts of fire, marine and miscellaneous insurance (collectively known as the 'Revenue account'), the Profit and Loss account and the Receipts and Payments account for the year then ended, the schedules annexed there to, a summary of the significant accounting policies and other explanatory notes thereon.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, underwriting results, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the applicable Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014, the Insurance Act, 1938, Insurance Laws (Amendment) Act, 2015 (to the extent notified), the Insurance Regulatory and Development Authority Act, 1999, the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies Regulations), 2002 ('the Regulations') and orders/directions prescribed by the Insurance Regulatory and Development Authority of India ('IRDAI') in this behalf and current practices prevailing within the insurance industry in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit.

We have taken into account the provisions of the Act, the Insurance Act, 1938, Insurance Laws (Amendment) Act, 2015 (to the extent notified), the Insurance Regulatory and Development Authority Act, 1999, the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies Regulations), 2002 ('the Regulations') and orders/directions prescribed by the Insurance Regulatory and Development Authority of India ('IRDAI'), the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and Rules made there under. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act, Insurance Act, 1938, Insurance Laws (Amendment) Act, 2015 (to the extent notified), the Insurance Regulatory and Development Authority Act, 1999 in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India as applicable to insurance companies:

- a. in the case of Balance Sheet, of the state affairs of the Company as at March 31, 2018;
- b. in the case of Revenue Accounts, of the operating profit in Fire, Marine and Miscellaneous business for the year ended on that date;
- c. in the case of Profit and Loss Account, of the profit for the year ended on that date; and

- d. in case of Receipts and Payments Account, of the receipts and payments for the year ended on that date.

Other Matters

The actuarial valuation of liabilities in respect of Incurred But Not Reported (the "IBNR"), Incurred But Not Enough Reported (the "IBNER") and Premium Deficiency Reserve (the "PDR") is the responsibility of the Company's Appointed Actuary (the "Appointed Actuary"). The actuarial valuation of these liabilities, that are estimated using statistical methods as at March 31, 2018 has been duly certified by the Appointed Actuary and in his opinion, the assumptions considered by him for such valuation are in accordance with the guidelines and norms issued by the IRDAI and the Institute of Actuaries of India in concurrence with the IRDAI. We have relied upon the Appointed Actuary's certificate in this regard for forming our opinion on the valuation of liabilities for outstanding claims reserves and the PDR contained in the financial statements of the Company.

Report on Other Legal and Regulatory Requirements

1. As required by the IRDA Financial Statements Regulations, we have issued a separate certificate dated April 25, 2018 certifying the matters specified in paragraphs 3 and 4 of Schedule C to the Regulations.
 2. As required by the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies Regulations), 2002, in our opinion and according to the information and explanations give to us, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) As the Company's accounts are centralised and maintained at the corporate office, no returns for the purposes of our audit are prepared at the branches and other offices of the Company.
 - c) Proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - d) The Balance sheet, the Revenue account, the Profit and Loss account and the Receipts and Payments account dealt with by this report are in agreement with the books of account.
 - e) The aforesaid financial statements comply with the applicable Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 and with the accounting principles prescribed by the Regulations and orders/directions prescribed by IRDAI in this regard.
- f) Investments have been valued in accordance with the provisions of the Insurance Act, 1938 and Insurance Laws (Amendment) Act, 2015 (to the extent notified), the Regulations and orders/directions issued by IRDAI in this regard.
 - g) On the basis of the written representations received from the directors as on March 31, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2018 from being appointed as a director in terms of Section 164 (2) of the Act.

Annexure 'A'

to the Independent Auditor's Report of even date on the Financial Statements of ICICI Lombard General Insurance Company Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **ICICI Lombard General Insurance Company Limited** ("the Company") as of March 31, 2018 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the "internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established

and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”.

Other Matter

The actuarial valuation of liabilities in respect of Incurred But Not Reported (the “IBNR”), Incurred But Not Enough Reported (the “IBNER”) and Premium Deficiency Reserve (the “PDR”) is the responsibility of the Company’s

Appointed Actuary (the “Appointed Actuary”). The actuarial valuation of these liabilities, that are estimated using statistical methods as at March 31, 2018 has been duly certified by the Appointed Actuary and in his opinion, the assumptions considered by him for such valuation are in accordance with the guidelines and norms issued by the IRDAI and the Institute of Actuaries of India in concurrence with the IRDAI. The said actuarial valuations of liabilities for outstanding claims reserves and the PDR have been relied upon by us as mentioned in Other Matters paragraph in our Audit Report on the financial statements for the year ended March 31, 2018. Accordingly, our opinion on the internal financial controls over financial reporting does not include reporting on the adequacy and operating effectiveness of the internal controls over the valuation and accuracy of the aforesaid actuarial liabilities.

Independent Auditors' Certificate

To,
**The Board of Directors,
ICICI Lombard General Insurance Company Limited,
ICICI Lombard House, 414, Veer Saavarkar Marg
Near Siddhivinayak Temple, Prabhadevi
Mumbai - 400 025**

Dear Sirs,

(Referred to in paragraph 1 of our Independent Auditors' Report on Other Legal and Regulatory Requirements forming part of the Independent Auditors' Report dated April 25, 2018)

This certificate is issued in accordance with the terms of our engagement letter with ICICI Lombard General Insurance Company Limited (the "Company"), wherein we are requested to issue certificate for compliance with the provisions of paragraphs 3 and 4 of Schedule C of the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations 2002, (the "Regulations") read with regulation 3 of the Regulations.

MANAGEMENT'S RESPONSIBILITY

The Company's Board of Directors is responsible for complying with the provisions of The Insurance Act, 1938 (amended by the Insurance Laws (Amendment) Act 2015) (the "Insurance Act"), the Insurance Regulatory and Development Authority Act, 1999 (the "IRDA Act"), the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002 (the "IRDA Financial Statements Regulations"), orders/directions issued by the Insurance Regulatory and Development Authority of India (the "IRDAI") which includes the preparation of the Management Report. This includes collecting, collating and validating data and designing, implementing and monitoring of internal controls suitable for ensuring compliance as aforesaid.

AUDITORS' RESPONSIBILITY

Pursuant to the requirements, it is our responsibility to obtain reasonable assurance and form an opinion based on our audit and examination of books and records as

to whether the Company has complied with the matters contained in paragraphs 3 and 4 of Schedule C of the Regulations read with regulation 3 of Regulations.

We audited financial statements of the Company as of and financial year ended March 31, 2018 on which we issued an unmodified audit opinion vide our report dated April 25, 2018. Our audit of these financial statements were conducted in accordance with the Standards on Auditing and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India ('ICAI'). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. Our audit was not planned and performed in connection with any transactions to identify matters that may be of potential interest to third parties.

We conducted our examination in accordance with the Guidance Note on Reports or Certificates for Special Purposes (Revised 2016) (the 'Guidance Note') issued by the Institute of Chartered Accountants of India ('ICAI').

The Guidance Note requires that we comply with the independence and other ethical requirements of the Code of ethics issued by the ICAI. We have complied with the relevant applicable requirements of the Standard on Quality Control ('SQC') 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services engagements.

OPINION

In accordance with information and explanations given to us and to the best of our knowledge and belief and based on our examination of the books of account and other records maintained by the Company for the year ended March 31, 2018, we certify that:

1. We have reviewed the Management Report attached to the financial statements for year ended March 31, 2018, and on the basis of our review, there is no apparent mistake or material inconsistencies with the financial statements;

2. Based on management representations and compliance certificates submitted to the Board of Directors by the officers of the Company charged with compliance and the same being noted by the Board, nothing has come to our attention that causes us to believe that the Company has not complied with the terms and conditions of registration as stipulated by the IRDAI;
3. We have verified the cash balances, to the extent considered necessary and securities relating to the Company's loans and investments as at March 31, 2018, by actual inspection or on the basis of certificates/confirmations received from the Custodian and/or Depository Participants appointed by the Company, as the case may be.
4. The Company is not a trustee of any trust; and
5. No part of the assets of the Policyholders' Funds has been directly or indirectly applied in contravention to the provisions of the Insurance Act relating to the application and investments of the Policyholders' Funds.

Restriction to use

This certificate is addressed to and provided to the Board of Directors of the Company, solely for inclusion in the annual accounts of the Company as per the Regulations and should not be used by any other person or for any other purpose. We have no responsibility to update this certificate for events and circumstances occurring after the date of this certificate. Accordingly, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this report is shown or into whose hands it may come without our prior consent in writing.

Significant accounting policies and notes forming part of the financial statements for the year ended March 31, 2018

1 Background

ICICI Lombard General Insurance Company Limited ('the Company') was incorporated on October 30, 2000 as a joint venture between ICICI Bank Limited and Fairfax Financial Holdings Limited. The joint-venture agreement dated October 4, 2000 (as amended/restated from time to time) entered among Fairfax Financial Holdings and ICICI Bank was terminated pursuant to a termination agreement executed on July 3, 2017.

The Company obtained Regulatory approval to undertake General Insurance business on August 3, 2001 from the Insurance Regulatory and Development Authority of India ('IRDAI') and holds a valid certificate of registration.

During the year, the Company completed its Initial Public Offering (IPO) by way of an offer for sale of 86,247,187 equity shares of ₹ 10 each at a price of ₹ 661 per equity share, by ICICI Bank Limited, the Promoter Selling Shareholder and FAL Corporation, the Investor Selling Shareholder aggregating to ₹ 57,009,391 thousand. The equity shares of the Company are listed on BSE Limited and National Stock Exchange from September 27, 2017.

2 Basis of preparation of financial statements

The financial statements have been prepared and presented under the historical cost convention, unless otherwise specifically stated, on the accrual basis of accounting, and comply with the applicable accounting standards referred to in section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014, and in accordance with the provisions of the Insurance Act, 1938, Insurance Laws (Amendment) Act, 2015 (to the extent notified), Insurance Regulatory and Development Authority Act, 1999, the Insurance Regulatory and Development Authority of India (Preparation of Financial Statements and Auditor's Report of Insurance Companies Regulations), 2002 ('the Regulations') and orders/directions prescribed by the IRDAI in this behalf, the provisions of the Companies Act, 2013 (to the extent applicable) in the manner so required and current practices prevailing within the insurance industry in India.

3 Use of estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities as of the balance sheet date, reported amounts of revenues and expenses for the year ended and disclosure of contingent liabilities as of the balance sheet date. The estimates and assumptions used in these financial statements are based upon management's evaluation of the relevant facts and circumstances as on the date of the financial statements. Actual results may differ from those estimates. Any revision to accounting estimates is recognised prospectively in current and future periods.

4 Significant accounting policies

4.1 Revenue recognition

Premium income

Premium including reinsurance accepted is recorded for the policy period at the commencement of risk and for installment cases, it is recorded on installment due dates. Reinstatement premium is recorded as and when such premiums are recovered. Premium earned including reinstatement premium and re-insurance accepted is recognised as income over the period of risk or the contract period based on 1/365 method, whichever is appropriate on a gross basis net of service tax/goods and service tax. Any subsequent revisions to premium as and when they occur are recognised over the remaining period of risk or contract period, as applicable.

Schedules

forming part of the financial statements

Adjustments to premium income arising on cancellation of policies are recognised in the period in which it is cancelled.

Income from reinsurance ceded

Commission on reinsurance ceded is recognised as income in the period of ceding the risk.

Profit commission under reinsurance treaties, wherever applicable, is recognised as income in the year of final determination of profits as confirmed by reinsurers and combined with commission on reinsurance ceded.

Income earned on investments

Interest and rental income on investments are recognised on an accrual basis. Accretion of discount and amortisation of premium relating to debt securities and non-convertible preference shares is recognised over the holding/maturity period on a constant yield basis.

Dividend income is recognised when the right to receive dividend is established. Dividend income in respect of listed equity shares is recognised on ex-dividend date.

Realised gain/loss on securities, which is the difference between the sale consideration and the carrying value in the books of the Company, is recognised on the trade date. In determining the realised gain/loss, cost of securities is arrived at on 'Weighted average cost' basis. Further, in case of listed equity shares and mutual fund units the profit or loss on sale also includes the accumulated changes in the fair value previously recognised in the fair value change account.

Sale consideration for the purpose of realised gain/loss is net of brokerage and taxes, if any, and excludes interest received on sale.

4.2 Premium received in advance

This represents premium received during the period, where the risk commences subsequent to the balance sheet date.

4.3 Reinsurance premium

Insurance premium on ceding of the risk is recognised in the period in which the risk commences in accordance with reinsurance arrangements with the reinsurers. Any subsequent revision to premium ceded is recognised in the period of such revision. Adjustment to reinsurance premium arising on cancellation of policies is recognised in the period in which they are cancelled.

4.4 Reserve for unexpired risk

Reserve for unexpired risk is recognised net of reinsurance ceded and represents premium written that is attributable to, and is to be allocated to succeeding accounting periods. For Fire, Marine Cargo and Miscellaneous business it is calculated on a daily pro-rata basis, except in the case of Marine Hull business it is computed at 100% of net premium written on all unexpired policies on the balance sheet date.

4.5 Claims

Claims incurred comprise claims paid, estimated liability for outstanding claims made following a loss occurrence reported and estimated liability for claims Incurred But Not Reported ('IBNR') and claims Incurred But Not Enough Reported ('IBNER'). Further, claims incurred also include specific claim settlement costs such as survey/legal fees and other directly attributable costs.

Claims (net of amounts receivable from reinsurers/coinsurers) are recognised on the date of intimation based on internal management estimates or on estimates from surveyors/insured in the respective revenue account(s).

Estimated liability for outstanding claims at balance sheet date is recorded net of claims recoverable from/payable to co-insurers/reinsurers and salvage to the extent there is certainty of realisation. Salvaged stock is recognised at estimated net realisable value based on independent valuer's report.

Estimated liability for outstanding claims is determined by the management on the basis of ultimate amounts likely to be paid on each claim based on the past experience and in cases where claim payment period exceeds four years based on actuarial valuation. These estimates are progressively revalidated on availability of further information.

IBNR reserves are provisions for claims that may have been incurred during the accounting period but have not been reported or claimed. The IBNR provision also includes provision, for claims that have been incurred but are not enough reported (IBNER). The provision for IBNR and IBNER is based on actuarial estimate duly certified by the Appointed Actuary of the Company. The actuarial estimate is derived in accordance with relevant IRDAI regulations and Guidance Note GN 21 issued by the Institute of Actuaries of India.

4.6 Acquisition costs

Acquisition costs are those costs that vary with, and are primarily related to the acquisition of new and renewal of insurance contracts viz. commission, policy issue expenses, etc. These costs are expensed in the period in which they are incurred.

4.7 Premium deficiency

Premium deficiency is recognised at segmental revenue account level when the sum of expected claim costs and related expenses and maintenance costs (related to claims handling) exceed the reserve for unexpired risks. In computing the overall Premium deficiency in Miscellaneous revenue account level, the Premium deficiency arising out of reinsurance acceptances from declined risk pool is not considered as per regulatory guidelines. The premium deficiency is calculated and duly certified by the Appointed Actuary.

4.8 Investments

Investments are recorded at cost on trade date and include brokerage, transfer charges, stamps etc., if any, and exclude interest accrued up to the date of purchase.

(A) Classification

Investments maturing within twelve months from balance sheet date and investments made with the specific intention to dispose off within twelve months are classified as 'short term investments'.

Investments other than 'short term investments' are classified as 'long term investments'.

Investments that are earmarked, are allocated separately to policyholder's or shareholder's, as applicable; balance investments are segregated at Shareholder's level and Policyholder's level notionally based on policyholder's funds and shareholder's funds at the end of period on the basis prescribed by IRDAI.

(B) Valuation

Investments are valued as follows:

Schedules

forming part of the financial statements

Debt securities and Non – convertible preference shares

All debt securities including government securities and non-convertible preference shares and additional Tier 1 perpetual bonds are considered as 'held to maturity' and accordingly stated at amortised cost determined after amortisation of premium or accretion of discount on a constant yield basis over the holding period/maturity.

Equity shares and Convertible preference shares

Listed equities and convertible preference shares at the balance sheet date are stated at fair value, being the last quoted closing price on the National Stock Exchange and in case these are not listed on National Stock Exchange, then based on the last quoted closing price on the Bombay Stock Exchange.

Mutual funds (Other than venture capital fund)

Mutual fund investments are stated at fair value, being the closing net asset value at balance sheet date.

Investment Properties – Real Estate

Investment Properties- Real Estate are stated at historical cost less accumulated depreciation.

Investments other than those mentioned above are valued at cost.

(C) Fair Value Change Account

In accordance with the Regulations, unrealised gain/loss arising due to changes in fair value of listed equity shares, convertible preference shares and mutual fund investments are taken to the 'fair value change account'. This balance in the fair value change account is not available for distribution, pending realisation.

(D) Impairment of Investments

The Company assesses at each Balance Sheet date whether any impairment has occurred in respect of investment in equity, units of mutual fund and investment properties. The impairment loss, if any, is recognised in the profit and loss account and the carrying value of such investment is reduced to its recoverable value. If on the assessment at balance sheet date a previously impaired loss no longer exists, then such loss is reversed to the profit & loss account and the investment is restated to that extent.

4.9 Employee Stock Option Scheme ("ESOS")

The Company follows the intrinsic method for computing the compensation cost, for options granted under the scheme(s). The difference if any, between the intrinsic value and the grant price, being the compensation cost is amortised over the vesting period of the options.

4.10 Fixed assets, Intangibles and Impairments

Fixed assets and depreciation

Fixed assets are stated at cost less accumulated depreciation. Cost includes the purchase price and any cost directly attributable to bringing the asset to its working condition for its intended use.

Depreciation on assets purchased/disposed off during the year is provided on pro rata basis with reference to the date of additions/deductions.

Depreciation on fixed assets is provided using the rates based on the economic useful life of assets as estimated by the management/limits specified in Schedule II of the Companies Act, 2013 as below:

Nature of Fixed Assets	Management Estimate of Useful Life in years	Useful life as per the limits prescribed in Schedule II of the Companies Act, 2013 in Years
Building	60.00	60.00
Information Technology equipment – Servers & Networks	3.00	6.00
Information Technology equipment – Others	3.00	3.00
Furniture & Fittings	6.67	10.00
Office Equipment	10.00	5.00
Vehicles	5.00	8.00

In case of Office Equipment, the management estimate of the useful life is higher and for Information Technology equipment (Servers & Networks), Furniture & Fitting and Vehicles, the management estimate of the useful life is lower than that prescribed in Schedule II of the Companies Act, 2013. This is based on the consistent practices followed, past experience and is duly supported by technical advice.

Depreciation on Furniture & Fittings and Office Equipment in leased premises is recognised on a straight-line basis over the primary period of lease or useful life as determined by management, whichever is lower.

All assets including intangibles individually costing up to ₹ 5,000 are fully depreciated/amortised in the period in which they are acquired.

Intangibles Assets

Intangible assets comprising computer software are stated at cost less accumulated amortisation. Computer softwares including improvements are amortised over a period of 4 years, being the management's estimate of the useful life of such intangibles.

Impairment of Assets

The Company assesses at each balance sheet date whether there is any indication that any asset may be impaired. If any such indication exists, the carrying value of such assets is reduced to its recoverable amount and the impairment loss is recognised in the profit and loss account. If at the balance sheet date there is any indication that a previously assessed impairment loss no longer exists, then such loss is reversed and the asset is restated to that extent.

4.11 Operating Lease

Payments made towards assets/premises taken on operating lease are recognised as an expense in the revenue account(s) and profit and loss account over the lease term on straight-line basis.

4.12 Employee benefits

Provident fund

This is a defined contribution scheme and contributions payable to the Regional Provident Fund Authority are provided on the basis of prescribed percentage of salary and are charged to revenue account(s) and profit and loss account.

Schedules

forming part of the financial statements

Gratuity

Gratuity, which is a defined benefit scheme, is provided on the basis of actuarial valuation including actuarial gains/losses at balance sheet date and is recognised in the revenue account(s) and profit and loss account.

Accrued leave

Compensated absences are provided based on actuarial valuation including actuarial gains/losses at balance sheet date and are recognised in the revenue account(s) and profit and loss account.

Long Term Performance Pay

Long Term Performance Pay is provided based on actuarial valuation including actuarial gains/losses at balance sheet date and is recognised in the revenue account(s) and profit and loss account.

4.13 Foreign currency transactions

Transactions denominated in foreign currencies are recorded at the rates prevailing on the date of the transaction. Foreign exchange denominated monetary assets and liabilities, are restated at the rates prevalent at the date of the balance sheet. The gains/losses on account of restatement and settlement are recognised in the revenue account(s) and profit and loss account.

The premium or discount arising at the inception of a forward exchange contract, not intended for trading or speculation purpose, is amortised as expense or income as the case may be over the life of the contract. Exchange difference on account of change in rates of underlying currency at the expiry of the contract period is recognised in the revenue account(s) and profit and loss account. Any profit or loss arising on cancellation or roll-over of such a forward exchange contract is recognised as income or expense for the contract period.

4.14 Borrowings

Borrowing costs are charged to the Profit and Loss account in the period in which they are incurred.

4.15 Grants

The Company recognises grants only when there is reasonable assurance that the conditions attached to them shall be complied with, and the grants will be received.

Grants related to assets are presented in the balance sheet by showing the grant as a deduction from the gross value of the assets concerned in arriving at their book value. Grants related to revenue are recognised over the period necessary to match them with the related costs, for which they are intended to compensate, on a systematic basis. Such grants are deducted in reporting the related expense.

Unspent balances of grants are carried forward to the subsequent years under the head "Current Liabilities" for adjustment against expenses in those years.

A grant that becomes refundable is treated as an extraordinary item. The amount of such refundable grant related to revenue is applied first against any unamortised deferred credit remaining in respect of the grant. To the extent that the amount refundable exceeds any such deferred credit, or where no deferred credit exists, the amount is charged immediately to the profit and loss account.

The amount refundable related to a specific fixed asset is recorded by increasing the book value of the asset. Where the book value of the asset is increased, depreciation on the revised book value is provided.

4.16 Taxation

Current tax

The Company provides for income tax on the basis of taxable income for the current accounting period in accordance with the provisions of the Income Tax Act, 1961.

In accordance with the recommendations contained in guidance note issued by the Institute of Chartered Accountants of India, Minimum Alternate Tax ('MAT') credit is recognised as an asset to the extent there is convincing evidence that the Company will pay normal income tax in future by way of a credit to the profit and loss account and shown as MAT credit entitlement.

Deferred tax

Deferred tax assets and liabilities are recognised for the future tax consequences attributable to timing differences between the accounting income as per the Company's financial statements and the taxable income for the year.

Deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in future, however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognised only if there is virtual certainty of realisation of such assets.

Deferred tax assets are reviewed at each balance sheet date and appropriately adjusted to reflect the amount that is reasonably/virtually certain to be realised.

4.17 Share issue expenses

Share issue expenses are adjusted against share premium account.

4.18 Earnings per share

The basic earnings per share is calculated by dividing the net profit after tax by weighted average number of equity shares outstanding during the reporting period.

Number of equity shares used in computing diluted earnings per share comprises the weighted average number of shares considered for basic earnings per share and also weighted average number equity shares which would have been issued on conversion of all dilutive potential shares. In computing diluted earnings per share only potential equity shares that are dilutive are considered.

4.19 Provisions and Contingencies

A provision is recognised when an enterprise has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Contingent losses arising from claims other than insurance claims, litigation, assessment, fines, penalties, etc. are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated.

A disclosure for a contingent liability other than those under policies is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources.

Schedules

forming part of the financial statements

Show Cause Notices issued by various Government Authorities are not considered as Obligation. When the demand notices are raised against such show cause notices and are disputed by the Company, these are classified as disputed obligations.

When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

4.20 Cash and cash equivalents

Cash & cash equivalent include cash and cheques on hand, bank balances and other investments (fixed deposits) with original maturity of three months or less which are subject to insignificant risk of changes in values.

5.1.8 (A) Investments

Value of contracts in relation to investments for:

- Purchases where deliveries are pending ₹ NIL (previous year: ₹ NIL); and
- Sales where payments are overdue ₹ NIL (previous year: ₹ NIL).

Historical cost of investments that are valued on fair value basis is ₹ 25,063,263 thousand (previous year: ₹ 24,860,129 thousand).

All investments are made in accordance with Insurance Act, 1938 and Insurance Regulatory and Development Authority of India (Investment) Regulations, 2016 and are performing investments.

(B) Allocation of investment income

Investment income which is directly identifiable is allocated on actuals to revenue account(s) and profit and loss account as applicable. Investment income which is not directly identifiable has been allocated on the basis of the ratio of average policyholder's investments to average shareholder's investments, average being the balance at the beginning of the year and at the end of the reporting year.

Further, investment income across segments within the revenue account(s) has also been allocated on the basis of segment-wise policyholders funds.

5.1.9 Allocation of expenses

During the year, the Company has reviewed and revised its Board approved methodology on the allocation and apportionment of expenses as required by IRDAI (Expenses of Management of Insurers transacting General or Health Insurance business) Regulations, 2016 as set out below:

Allocation/apportionment of Operating Expenses is based on the Organisational Structure of the Company comprising off Business, Service and Support Groups. Business comprises of Wholesale Business Group, Retail Business Group (including Sub Groups) and Government Business Group. Expenses incurred by Business Group are direct in nature. Service Group comprises of Customer Service Group which consists of Underwriting and Claims Group, created based on product segments. Support Group consists of Investments, Operations, Legal, Finance and Accounts, Reinsurance, Technology etc. Expenses incurred by Service and Support Groups are indirect in nature.

Operating expenses relating to insurance business are allocated to specific classes of business on the following basis:

- Direct expenses pertaining to Business Group that are directly identifiable to a product segment are allocated on actuals and other direct expenses are apportioned in proportion to the net written premium of the product within the Business Group. However, in case of retail business group, the other expenses of its sub group are apportioned based on the net written premium contributed by the respective sub group;
- Expenses pertaining to Service Group are apportioned directly to the product to which it pertains. In case of multiple products, expenses are apportioned in proportion to the net written premium of the multiple products;
- Expenses pertaining to Support Group and any other expenses, which are not directly allocable, are apportioned on the basis of net written premium in each business class; and

In accordance with the IRDAI (Expenses of Management of Insurers transacting General or Health Insurance Business) Regulations, 2016, operating expenses in excess of segmental limits are to be borne by the shareholder's. During the current financial year expenses of management for all segments are within the prescribed segmental limits (previous year: ₹ 427,891 thousand was in excess for the motor segment and was borne by the shareholders).

Had the Company followed the earlier methodology, Operating expense of ₹ 885,300 thousand would have been in excess of segmental limits pertaining to Motor segment and same would have reduced proportionately from each expenditure head and borne by shareholders.

5.1.17 Employee Stock Option Scheme (ESOS)

The Company instituted the ESOS Scheme pursuant to the resolutions passed by our Board and Shareholders on April 26, 2005 and July 22, 2005, respectively. The Company had granted Stock options to employees in compliance with the Securities and Exchange Board of India (Employee stock option scheme and employee stock purchase scheme) guidelines, 1999. Pursuant to the ESOS Scheme, no eligible employee could, in aggregate be granted in a financial year, options greater than 0.1% of the issued equity share capital of the Company and the aggregate of options granted to the eligible employees under the ESOS Scheme was capped at 5% of the issued capital of our Company as on the date of such grants. ESOS Scheme was further amended pursuant to the resolutions passed by the Board and Shareholders on June 9, 2017 and July 10, 2017, respectively, to approve the amendment in the ESOS Scheme for, inter alia, aligning it with the Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014. Further, the exercise price was finalised by the Board Nomination and Remuneration Committee in concurrence with the Board based on an independent valuer's report. No fresh grant has been made under the ESOS after April 25, 2011.

5.2 Other disclosures

5.2.1 Basis used by the Actuary for determining provision required for IBNR/IBNER

IBNR (including IBNER) liability for all lines of business has been estimated by the Appointed Actuary in compliance with the guidelines issued by IRDAI from time to time and the applicable provisions of the Guidance Note 21 issued by the Institute of Actuaries of India.

Pursuant to IRDAI regulation of Asset, Liabilities, and Solvency margin of General Insurance Business Regulations 2016 (IRDAI/Reg/7/119/2016 dated April 7, 2016); claim reserves are determined as the aggregate amount of Outstanding Claim Reserve and Incurred but Not Reported (IBNR) claim reserve for 28 stipulated lines of business.

Pursuant to Actuarial Practice Standard (APS) 33 issued by Institute of Actuaries of India (IAI) which is mandatory and effective from December 1, 2017, the peer review of statutory valuation of liabilities for March 31, 2018 has been carried out by an independent actuary.

5.2.2 Provision for Free Look period

The provision for Free Look period is duly certified by the Appointed Actuary.

5.2.3 Contribution to Terrorism Pool

The Company in accordance with the requirements of IRDAI has participated in contributing to the Terrorism Pool. This pool is managed by the General Insurance Corporation of India ('GIC'). Amounts collected as terrorism premium are ceded at 100% of the terrorism premium collected to the Terrorism Pool, subject to conditions and an overall limit of ₹ 20 billion.

In accordance with the terms of the agreement, GIC retrocedes, to the Company, terrorism premium to the extent of the Company's share in the risk, which is recorded as reinsurance accepted. Such reinsurance accepted is recorded based on intimation/confirmation received from GIC. Accordingly, reinsurance accepted, on account of the terrorism pool has been recorded only up to December 31, 2017 (previous year: December 31, 2016) as per the last confirmation received.

5.2.4 India Nuclear Insurance Pool

In view of the passage of the Civil Liability for Nuclear Damage Act, 2010, GIC Re as Indian Reinsurer initiated the formation of the India Nuclear Insurance Pool (INIP) along with other domestic non-life insurance companies by pooling the capacity to provide insurance covers for nuclear risks. INIP is an unregistered reinsurance arrangement among its members i.e. capacity providers without any legal entity. GIC Re and 11 other non-life insurance companies are Founder Members with their collective capacity of ₹ 15,000,000 thousand. GIC Re is also appointed as the Pool Manager of the INIP. The business underwritten by the INIP will be retroceded to all the Member Companies including GIC Re in proportion of their capacity collated. Out of the total capacity of ₹ 15,000,000 thousand of the INIP, the capacity provided by the Company is ₹ 1,000,000 thousand. The Company has not received any statement of accounts during the year from INIP Administrator.

5.2.5 Interest, Rent and Dividend income

Interest, Dividend & Rent income is net of interest expense of ₹ 1,755 thousand (previous year: ₹ 24,262 thousand) on account of REPO transactions.

5.2.6 Re-insurance inward

The results of reinsurance inward are accounted as per last available statement of accounts/confirmation from reinsurers.

5.2.7 Contribution to Solatium fund

In accordance with the requirements of the IRDAI circular dated March 18, 2003 and based on recommendations made at General Insurance Council meeting held on February 4, 2005 and as per letter no. HO/MTD/Solatium Fund/2010/482 dated July 26, 2010 from The New India Assurance Co. Ltd. (Scheme administrator), the Company has provided 0.1% of the total Motor TP premium of the Company towards solatium fund.

5.2.8 Environment Relief Fund

An amount of ₹ 1,265 thousand is outstanding (Previous year: ₹ 919 thousand) towards Environment Relief fund (ERF) under Public Liability policies.
