Subject: Commencement of commercial production of 2,5-Dihydroxy-1,4-Dithiane (DHDT) by Clean Fino-Chem Limited, Wholly Owned Subsidiary of the Company.

Dear Sir/Madam,

Pursuant to Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and in addition to our earlier intimation dated 20th October 2023, we wish to inform you that, Clean Fino-Chem Limited (“CFCL”), Wholly Owned Subsidiary of the Company has commenced commercial production of 2,5-Dihydroxy-1,4-Dithiane in a dedicated production block today, 30th December, 2024.

The Company is pleased to achieve following notable distinctions by commercializing DHDT -

- The Company would be key domestic manufacturer of DHDT, leading to import substitution led demand traction.
- With commercialization of DHDT, value proposition of pharma segment strengthens further by creating cross-selling opportunity with Dicyclohexylcarbodiimide (DCC) customers.
- The Company developed DHDT using chlorination chemistry, which is a new addition to existing chemistry capabilities.

Commercialization of DHDT, functionally critical specialty chemical, underscores robust in-house R&D capabilities supported by synergistic in-house project engineering capabilities.

You are requested to take above information on record.

Thanking You.

For Clean Science and Technology Limited

Ruchita Vij
Company Secretary
