## Southwest Monsoon onset over Kerala by Thursday, says IMD

Bengaluru: The Southwest Monsoon will likely hit the Kerala coast Thursday, the India Meteorological Department has said. "Conditions continue to be-come favourable for the onset of the Southwest Monsoon over Kerald during the next Jakeurs." Great Southwest Monsoon over Kerala during the next 24 hours," the IMD said.

the IMD said.
A week ago, the IMD had fore-cast the Monsoon onset over Keralaon May 31. The normal date for this is June 1, with a standard deviation of a week. Heavy rain-fall has continued across Kerala for fortainth parts. Partused March fall has continued across Kerala for a fortuight now. Between March and May, the state received 39 per cent (465 mm) surplus rainfall, of which over 90 per cent was in May. This year, the Bay of Bengal branch of the Monsoon is sufficiently strong and could facilitate its early advancement into Northeastern states. The normal date of the Monsoon on seet over the Northeastern states is June 5. If

an early advance happens over, the fallout from the floods, land-slides and overflowing river banks triggered by Cyclone Remal after-math will worsen.
