"I am glad to announce another quarter of resilient performance. Despite macro slowdown in demand & softened steel prices, our steel volumes grew by 25%, while our non-steel revenue were up 35% in H1. This consistent growth is a testament to Shankara being India's largest marketplace for steel tubes, sanitary ware & fittings, strong distribution tie-ups & consistent endeavor in expanding our steel as well as non-steel portfolio. With strong footprint in South, we are now aggressively expanding in Western & Central region. We are also excited to have inaugurated our experience centre for Fotia in Morbi, Gujarat, offering an extensive collection of innovative tile designs and sizes. This would serve as a strategic hub and aid us in our journey to expanding our footprint pan India. Our plans to demerge our building materials marketplace continues to be on track, with NCLT proceedings underway. This move shall streamline our business structure and facilitate a focused capital allocation strategy."
