Annexure 1**REMUNERATION POLICY****Policy for Directors, Key Managerial Personnel and other employees**

The philosophy for remuneration of Directors, Key Managerial Personnel (“KMP”) and all other employees of Alexander Stamps And Coin Limited (“Company”) is based on the commitment of fostering a culture of leadership with trust.

The remuneration policy is aligned to this philosophy. This remuneration policy has been prepared pursuant to the provisions of Section 178(3) of the Companies Act, 2013 (“Act”) and Regulation 19 read with Part - D of Schedule II of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015. In case of any inconsistency between the provisions of law and this remuneration policy, the provisions of the law shall prevail, and the Company shall abide by the applicable law.

While formulating this policy, the Nomination and Remuneration Committee (“NRC”) has considered the factors laid down under Section 178(4) of the Act, which are as under:

- a. “the level and composition of remuneration is reasonable and sufficient to attract, retain and motivate Directors of the quality required to run the Company successfully.
- b. relationship of remuneration to performance is clear and meets appropriate performance benchmarks; and
- c. remuneration to Directors, Key Managerial Personnel and senior Management involves a balance between fixed and incentive pay reflecting short and long-term performance objectives appropriate to the working of the Company and its goals”

Key principles governing this remuneration policy are as follows:

- Within the parameters prescribed by law, the payment of sitting fees and commission will be recommended by the NRC and approved by the Board.
- Overall remuneration (sitting fees and commission) should be reasonable and enough to attract, retain and motivate Directors aligned to the requirements of the Company (taking into consideration the challenges faced by the Company and its future growth imperatives).
- Overall remuneration should be reflective of size of the Company, complexity of the sector/ industry/ Company's operations and the Company's capacity to pay the remuneration.
- Overall remuneration practices should be consistent with recognized best practices.

- The aggregate commission payable to all the NEDs and IDs will be recommended by the NRC to the Board based on Company performance, profits, return to investors, shareholder value creation and any other significant qualitative parameters as may be decided by the Board.
- The NRC will recommend to the Board the quantum of commission for each Director based upon the outcome of the evaluation process which is driven by various factors including attendance and time spent in the Board and Committee Meetings, individual contributions at the Meetings and contributions made by Directors other than in Meetings.
- In addition to the sitting fees and commission, the Company may pay to any Director such fair and reasonable expenditure, as may have been incurred by the Director while performing his/ her role as a Director of the Company. 2. Remuneration for Managing Director ("MD") / Executive Directors ("ED")/ KMP/ rest of the employees

The extent of overall remuneration should be sufficient to attract and retain talented and qualified individuals suitable for every role. Hence remuneration should be:

- Market competitive (market for every role is defined as companies from which the Company attracts talent or companies to which the Company loses talent),
- Driven by the role played by the individual, Reflective of size of the Company, complexity of the sector/ industry/ Company's operations and the Company's capacity to pay,
- Consistent with recognized best practices and Aligned to any regulatory requirements.

In terms of remuneration mix or composition,

- The remuneration mix for the MD/ EDs is as per the contract approved by the shareholders.
- In case of any change, the same would require the approval of the shareholders.
- Basic/ fixed salary is provided to all employees to ensure that there is a steady income in line with their skills and experience.
- In addition to the basic/ fixed salary, the Company provides employees with certain perquisites, allowances and benefits to enable a certain level of lifestyle and to offer scope for savings and tax optimization, where possible. The Company also provides all employees with a social security net (subject to limits) by covering medical expenses and hospitalization through reimbursements or insurance cover and accidental death and dismemberment through personal accident insurance.
- The Company provides retirement benefits as applicable.
- In addition to the basic/ fixed salary, benefits, perquisites and allowances as provided above, the Company provides MD/ EDs such remuneration by way of commission, calculated with reference to the net profits of the Company in a particular financial year, as may be determined by the Board, subject to the overall ceilings stipulated in the Act.
- The specific amount payable to the MD/ EDs would be based on performance as evaluated by the Board or the NRC and approved by the Board.
- In addition to the basic/ fixed salary, benefits, perquisites and allowances as provided above, the Company provides MD/ EDs such remuneration by way

of an annual incentive remuneration/ performance linked bonus subject to the achievement of certain performance criteria and such other parameters as may be considered appropriate from time to time by the Board. An indicative list of factors that may be considered for determination of the extent of this component are:

- a. Company performance on certain defined qualitative and quantitative parameters as may be decided by the Board from time to time,
 - b. Industry benchmarks of remuneration,
 - c. Performance of the individual.
- The Company provides the rest of the employees a performance linked bonus. The performance linked bonus would be driven by the outcome of the performance appraisal process and the performance of the Company.

- The remuneration payable to the Directors shall be inclusive of any remuneration payable for services rendered by such Director in any other capacity unless:
 - a. The services rendered are of a professional nature; and

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over

We are unable

to ascertain the impact due to deviation in inventory valuation on the Ind AS Financial statements as on 31.03.2024.

ALEXANDER STAMPS AND COIN LIMITED**NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2024****NOTE: 1****1.1 CORPORATE INFORMATION**

Alexander Stamps and Coin Limited is Public Limited Company incorporated in India under the provisions of the Companies Act. The Company's strength lies in the business of philatelic and numismatic activity.

The Board of Directors approved the standalone financial statements for the year ended March 31, 2024 and authorized for issue on 24th May 2024.

Significant Accounting policies followed by the Company.

1.2 BASIS OF PREPARATION**i. Compliance with Ind AS**

The financial statements comply in all material aspects with Indian Accounting Standards ("Ind AS") notified under section 133 of the Companies Act, 2013 ("the Act"), Companies (Indian Accounting Standards) Rules, 2015 as amended by Companies (Indian Accounting Standards) (Amendment) Rules, 2016 and other relevant provisions of the Act as applicable. The accounting policies are applied consistently to all the periods presented in the financial statements.

ii. Historical cost convention

The financial statements have been prepared on a historical cost basis, except the following:

- Certain financial assets and liabilities that are measured at fair value;
- Assets held for sale – measured at lower of carrying amount or fair value less cost to sell;
- Defined benefit plans – plan assets measured at fair value.

iii. Current and non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle (not exceeding twelve months) and other criteria set out in the Schedule III to the Act.

iv. Functional and presentation currency

These financial statements are presented in Indian Rupees, which is the Company's functional currency.

v. Rounding of amounts

vi. All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

1.3 SIGNIFICANT ACCOUNTING POLICIES

A. Property, Plant and Equipment:

i. Recognition and measurement

Freehold land is carried at cost. All other items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the items.

Income and expenses related to the incidental operations, not necessary to bring the item to the location and condition necessary for it to be capable of operating in the manner intended by management, are recognized in the Statement of Profit and Loss.

If significant parts of an item of property, plant and equipment have different useful life, then they are accounted and depreciated for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in the Statement of Profit and Loss.

Capital work in progress is stated at cost and includes the cost of the assets that are not ready for their intended use at the Balance Sheet date.

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognized as at April 1, 2016 measured as per the

Previous GAAP and use that carrying value as the deemed cost (except to the extent of any adjustment permissible under other accounting standard) of the property, plant and equipment.

ii. Subsequent Expenditure

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

iii. Depreciation

Depreciation on tangible fixed assets is provided in accordance with the provisions of Schedule II of the Companies Act 2013. Depreciation on additions / deductions is calculated on pro rata basis from/up to the month of additions/deductions. The estimated useful life, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

B. Intangible Assets:

- i. Intangible assets are recorded at the consideration paid for acquisition of such assets and are carried at cost less accumulated amortization and impairment, if any.

C. Impairment:

i. Non - financial assets

At each balance sheet date, the Company assesses whether there is any indication that any property, plant and equipment and intangible assets with finite life may be impaired. If any such impairment exists, the recoverable amount of an asset is estimated to determine the extent of impairment, if any. Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

D. Inventories:

- i. Finished and Semi-Finished Products produced and purchased by the company are carried at Cost and net realizable value, whichever is lower.
- ii. Work in Progress is carried at lower of cost and net realizable value.
- iii. Raw Material is carried at lower of cost and net realizable value.

- iv. Stores and Spares parts are carried at cost. Necessary provision is made and expensed in case of identified obsolete and nonmoving items.

Cost of Inventory is generally ascertained on the 'Weighted average' basis. Work in progress, Finished and semi-finished products are valued at on full absorption cost basis.

Cost Comprises expenditure incurred in the normal course of business in bringing such inventories to its location and includes, where applicable, appropriate overheads based on normal level of activity. Packing Material is considered as finished goods. Consumable stores are written off in the year of Purchase.

E. Foreign Currency Transactions

Transactions in Foreign Currency and Non-Monetary Assets are accounted for at the Exchange Rate prevailing on the date of the transaction. All monetary items denominated in Foreign Currency are converted at the Year-End Exchange Rate. The Exchange Differences arising on such conversion and on settlement of the transactions are recognized as income or as expenses in the year in which they arise.

F. Investments and Other Financial Assets:

Classification

The Company classifies its financial assets in the following measurement categories:

- Those to be measured subsequently at fair value (either through other comprehensive income, or through Statement of Profit and Loss), and
- Those measured at amortized cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows. For assets measured at fair value, gains and losses will either be recorded in Statement of Profit and Loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The Company reclassifies debt or equity investments when and only when its business model for managing those assets changes.

Measurement

At initial recognition, in case of a financial asset not at fair value through profit and loss, the Company measures a financial asset at its fair value plus, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through Statement of Profit and Loss are expensed in Statement of Profit and Loss.

(a) Amortized cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost.

(b) Fair Value through Other Comprehensive Income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through Other Comprehensive Income (OCI), except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in Statement of Profit and Loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit and loss and recognized in other gains/ losses. Interest income from these financial assets is included in other income using the effective interest rate method.

(c) Fair value through profit and loss: Assets that do not meet the criteria for amortized cost or FVOCI are measured at fair value through Statement of Profit and Loss. Interest income from these financial assets is included in other income.

Equity Instruments

The Company subsequently measures all equity investments at fair value. Where the Company's management has elected to present fair value gains and losses on equity investments in OCI, there is no subsequent reclassification of fair value gains and losses to Statement of Profit and Loss. Dividends from such investments are recognized in Statement of Profit and Loss as other income when the Company's right to receive payment is established.

Changes in the fair value of financial assets at fair value through profit and loss are recognized in other gain/losses in the Statement of Profit and Loss. Impairment losses (and

reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

Derecognition

A financial asset is derecognized only when

- (a) The Company has transferred the rights to receive cash flows from the financial asset or
- (b) Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

G. Cash and Cash Equivalents:

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and highly liquid investments with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

H. Financial Liabilities:**Measurement**

All financial liabilities are recognized initially at fair value and in the case of loans, borrowings and payables recognized net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings and derivative financial instruments.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. Gains and losses are recognized in Statement of Profit and Loss when the liabilities are derecognized as well as through the EIR amortization process.

I. Revenue recognition:

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services.

Revenue from the sale of goods is recognized at the point in time when control of the asset is transferred to the customer, generally on the delivery of the goods. Revenue is recognisable to the extent of the amount that reflects the consideration (i.e. the transaction price) to which the Company is expected to be entitled in exchange for those goods or services excluding any amount received on behalf of third party (such as indirect taxes).

J. Other Income:

Other income is comprised primarily of interest income, dividend income, gain/loss on investments and exchange gain/loss on forward and options contracts and on translation of other assets and liabilities. Interest income is recognized using the effective interest method. Claims for export incentives/ duty drawbacks, duty refunds and insurance are accounted when the right to receive payment is established. Dividend Income is recognized when the right to receive dividend is established.

K. Employee benefits:

A. Short term employee benefits:

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages, performance incentives, etc. are recognized at actual amounts due in the period in which the employee renders the related service.

B. Contribution towards defined benefit contribution Schemes

Gratuity plan

The Company has a defined benefit gratuity plan. Every employee who has completed five years or more of service is eligible for gratuity on post-employment at 15 days salary (last drawn salary) for each completed year of service as per the rules of the Company. The aforesaid liability is provided for on the basis of an actuarial valuation on projected unit credit method made at the end of the financial year. Current service cost, Past-service costs are recognized immediately in Statement of profit or loss.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to equity in other comprehensive income in the period in which they arise. They are included in retained earnings in the statement of changes in equity and in the balance sheet. Re measurements are not reclassified to profit or loss in subsequent periods.

L. Borrowing costs:

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur.

M. Taxes on Income:

Income Tax expense comprises of current and deferred tax. Income Tax expense is recognized in net profit in the Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income.

(i) Current Tax

Current Tax is the amount of income taxes payable (recoverable) in respect of the taxable profit (tax loss) for a period. Current tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rate and tax laws that have been enacted or substantively enacted by the Balance Sheet date

Current tax assets and liabilities are offset if, and only if, the Company:

- a) has a legally enforceable right to set off the recognized amounts; and
- b) intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax assets are recognized for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized; such reductions are reversed when the probability of future taxable profits improves. Unrecognized deferred tax assets are reassessed at each reporting date and recognized to the extent that it has become probable that future taxable profits will be available against which they can be used.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if:

- a) the entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
- b) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

N. Provisions and Contingencies:

- a) Provisions are recognized based on the best estimate of probable outflow of resources which would be required to settle obligations arising out of past events.
- b) Contingent liabilities not provided for as per (a) above are disclosed in notes forming part of the Financial Statements. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.
- c) Contingent Assets are disclosed, where the inflow of economic benefits is probable.

O. Earnings per Share:

- a) Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting preference dividends, if any, and attributable taxes) by the weighted average number of equity shares outstanding during the period.
- b) For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effect of all dilutive potential equity shares.

P. Leases:

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

(A) Lease Liability

At the commencement date, the Company measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments shall be discounted using incremental borrowing rate.

(B) Right-of-use assets

Initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives.

Subsequent measurement

(A) Lease Liability

Company measure the lease liability by (a) increasing the carrying amount to reflect interest on the lease liability; (b) reducing the carrying amount to reflect the lease payments made; and (c) remeasuring the carrying amount to reflect any reassessment or lease modifications.

(B) Right-of-use assets

Subsequently measured at cost less accumulated depreciation and impairment losses. Right-of-use assets are depreciated from the commencement date on a straight line basis over the shorter of the lease term and useful life of the under lying asset.

Impairment

Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

Short term Lease

Short term lease is that, at the commencement date, has a lease term of 12 months or less. A lease that contains a purchase option is not a short-term lease. If the company elected to apply short term lease, the lessee shall recognise the lease payments associated with those leases as an expense on either a straight-line basis over the lease term or another systematic basis. The

lessee shall apply another systematic basis if that basis is more representative of the pattern of the lessee's benefit.

As a lessor

Leases for which the company is a lessor is classified as a finance or operating lease. Whenever, the terms of the lease transfers substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Lease income is recognised in the statement of profit and loss on straight line basis over the lease term.

Q. Exceptional items:

Certain occasions, the size, type or incidence of an item of income or expense, pertaining to the ordinary activities of the Company is such that its disclosure improves the understanding of the performance of the Company, such income or expense is classified as an exceptional item and accordingly, disclosed in the notes accompanying to the financial statements.

1.3 USE OF JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

While preparing financial statements in conformity with Ind AS, the management has made certain estimates and assumptions that require subjective and complex judgments. These judgments affect the application of accounting policies and the reported amount of assets, liabilities, income and expenses, disclosure of contingent liabilities at the statement of financial position date and the reported amount of income and expenses for the reporting period. Financial reporting results rely on the management estimate of the effect of certain matters that are inherently uncertain. Future events rarely develop exactly as forecasted and the best estimates require adjustments, as actual results may differ from these estimates under different assumptions or conditions. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively Judgment, estimates and assumptions are required in particular for:

a) Determination of the estimated useful life of tangible assets

Useful life of tangible assets is based on the life prescribed in Schedule II of the Companies Act, 2013. In cases, where the useful life are different from that prescribed in Schedule II, they are based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of

replacement, anticipated technological changes, manufacturers' warranties and maintenance support.

b) Recognition and measurement of defined benefit obligations

The obligation arising from defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation, actuarial rates and life expectancy. The discount rate is determined by reference to market yields at the end of the reporting period on government bonds. The period to maturity of the underlying bonds correspond to the probable maturity of the post-employment benefit obligations. Due to complexities involved in the valuation and its long-term nature, defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting period.

c) Recognition of deferred tax liabilities

Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases, and unutilized business loss and depreciation carryforwards and tax credits. Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses, depreciation carry-forwards and unused tax credits could be utilized.

d) Discounting of financial assets / liabilities

All financial assets / liabilities are required to be measured at fair value on initial recognition. In case of financial assets / liabilities which are required to be subsequently measured at amortized cost, interest is accrued using the effective interest method.
