Management Discussion & Analysis Report

STRUCTURE AND DEVELOPMENTS

The Indian sugar industry is one of the largest Argo-based industries in the country, significantly contributing to the rural economy. It supports around 50 million farmers and their families and provides direct employment to over 0.5 million people. The industry comprises approximately 590 operational sugar mills and around 350 attached and standalone distilleries for ethanol production, with a mix of co-operative, private, and public sector ownership. Recent developments include advancements in sugarcane

breeding like new variety development for northern states like CO- 238, CO- 239 and CO-114 have uplifted the sugarcane production above 30% to 40% in the northern region of the state. The mechanization of harvesting also improved 1% to 6% in recent years. and the adoption of modern irrigation techniques like drip irrigation to improve yield and efficiency. Additionally, the government has been promoting ethanol production from sugarcane juice to diversify revenue streams and reduce dependency on sugar alone.

Opportunities and Threats

The Indian sugar industry has several opportunities, including the potential for increased ethanol production, which can help reduce the country's Crude Oil import bill and provide a steady revenue stream for sugar mills. The growing demand for biofuels and the government's push for a 20% ethanol blending target by 2025 present significant growth prospects. The Govt. is targeting the 5.5 billion liters ethanol supply from sugarcane-based feedstock, which will support distillery capacity expansion. Currently, we have capacity of 6 billion liters and further expected 20% growth in capacity expansion with the additional increasing demand. Also, we have 6 million ha of land and further we have scope to increase the area of around 0.5 million ha to 1 million ha in upcoming 2-3 years. Also, one positive factor is to see the new irrigation project of irrigation by govt. With the potential new crushing capacity expansion and better ROI from sugarcane crop positive outlook for potential increase in sucrose production for domestic consumption, ethanol and Sugar export from India.

However, the industry also faces threats such as fluctuating sugar prices, climate change impacting sugarcane yield, and competition from alternative sweeteners. Additionally,

the cyclical nature of the industry, with periods of surplus and deficit, poses a challenge for consistent profitability.

Risk and Concern

The primary risks and concerns for the Indian sugar industry include the volatility of sugar prices in the global market, which can affect domestic prices and profitability. Climate change and unpredictable weather patterns pose a significant risk to sugarcane cultivation, potentially leading to lower yields and higher production costs. Additionally, the industry's heavy reliance on government policies and subsidies makes it vulnerable to policy changes. Financial health of sugar mills, especially in the cooperative sector, is another concern, as many mills struggle with high debt levels and delayed payments to farmers. Poor mechanisation in farming sector; balancing water usage for agriculture and other needs.

Internal Control Systems and their Adequacy

The company has adequate internal control systems in place and also has reasonable assurance on authorizing, recording and reporting transactions of its operations. Proper and adequate internal controls are being adopted by the company commensurate with its size, scale and complexities of operations.

Details of Adequacy of Internal Financial Controls

The Company's internal control system is aimed at proper utilization and safeguarding of the Company's resources and promoting operational efficiency. The internal audit process reviews the in-system checks, covering significant operational areas regularly.

The Company's Audit Committee is responsible for reviewing the Report submitted by the Internal Auditors. Suggestions for improvements are considered and the Audit Committee follows up on the implementation of corrective actions. The Audit Committee also invites the Statutory and Internal Auditors for regular meetings to ascertain their views on the adequacy of internal control systems and keeps the Board of Directors informed of its observations from time to time.

Human Resources and Industrial Relations

The Company employs 2061 permanent employees and the company maintains excellent relationship with its employees during the year under review. No case was filed under Sexual Harassment of women at workplace (Prevention Prohibition and Redressal) Act 2013.

The company has created an excellent relationship with the farmers as well as other stakeholders including bankers.

CSR Activities

Most of the CSR Activities are carried out directly by the company. We are working tirelessly to enrich the lives of people in the rural community by providing them with a host of amenities that not just make their lives a whole lot easier but also ensures agricultural, educational and economic independence. More details are furnished in the Annual Report on CSR Activities.

Outlook

The outlook for the Indian sugar industry is cautiously optimistic. With the government's continued support for ethanol blending and initiatives to improve agricultural practices, the industry is poised for growth. The focus on sustainable practices and diversification into ethanol production can provide a buffer against the cyclical nature of sugar production. However, addressing the challenges of climate change, price volatility, and financial health of sugar mills will be crucial for long-term stability. Rise of EV & Hydrogen Energy may affect the industry growth but on other side global sugar consumption is also increasing with rate of 2% per year, hence India will play crucial role in this vertical, Overall, the industry's future will depend on its ability to adapt to changing market dynamics and leverage opportunities in the biofuel sector and technology adaption of the industry.

27 Overview of the entity's material responsible business conduct issues

Material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications.

Sl. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk /opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1.	Energy Efficiency & Water Management	Risk & Opportunity	Risk - The substantial upfront cost of replacing outdated systems, equipment, or facilities with more energy-efficient models is one of the main dangers connected with energy conservation initiatives. The requirements or sustainability of current efficiency measures may change as a result of changes in energy efficiency laws and policies. Water infrastructure that is getting older may have leaks, inefficient distribution, and higher operating expenses. Regulation violations may lead to penalties, legal ramifications, or operational limitations.	The Company has adopted energy conservation system and Variable frequency drives (VFDs) are installed to reduce energy consumption. The company also makes use of renewable energy resources, as it uses by product of sugarcane bagasse as a fuel for co-generation boiler, which recycles waste into electrical energy. Also, plant effluent water is treated by aerobic digester to maintain zero liquid discharge. There has been no ground water and	Positive - Energy savings provide for a speedy repayment of the original investment in many energy efficiency initiatives, which have a short payback period. Businesses and people benefit from improved cash flow and increased financial stability as a result. Avoiding fines and penalties related to non-compliance with regulations can be achieved by proactive management of water resources.

Sl. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk /opportunity	In case of risk, approach to adapt ormitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
		Opportunity	Opportunity - By consuming less energy and paying less for utilities, increasing energy efficiency can eventually result in significant cost savings. Through these savings, energy-efficient technology investments frequently pay for themselves. Effective water management is essential for the preservation of limited freshwater resources, especially in areas where regulations are tight or water shortage is a concern. Water-saving strategies and technology can result in lower water bills, cheaper wastewater treatment, and lower related operating costs.	surface water pollution made by the company.	Negative : Making a sizable upfront expenditure is frequently necessary to upgrade to energy-efficient technologies or increase energy efficiency in buildings and activities. Initiatives related to water management might, in some areas, receive less financial incentives or regulatory support than those related to energy efficiency.
2.	Raw material sourcing	Risk	Risk - A number of variables, including supply and demand dynamics, geopolitical developments, weather that affects agriculture, and changes in currency exchange rates, can cause raw material costs to fluctuate significantly. Disruptions to the supply chain are more likely when a supplier or geographic area is restricted in the raw material sources.	The sugar unit is sourcing sugarcane from farmers (100%). The distillery is sourcing entire raw material (molasses) from sugar mills (100%).	Negative - Weather patterns, supply-demand dynamics, geopolitical events, and global economic conditions can all cause large fluctuations in raw material costs. Unexpected price rises may have an impact on competitiveness since they may result in increased production costs, smaller profit margins, or the need to pass costs on to customers.
3.	Product Quality & Safety	Risk & Opportunity	Risk - The quality of products can be harmed by subpar manufacturing procedures, broken machinery, or mistakes made by humans. Defects, non-compliance with specifications, or safety accidents can be caused by inadequate maintenance, inadequate process controls, or a lack of training. Product failures, safety risks, or recalls may result from subpar product design or insufficient testing of new products. Opportunities - Customers are more likely to trust and stay loyal when products are delivered that constantly fulfill safety regulations and high-quality standards. Customers that are happy with a product are more likely to promote it to others and make more purchases, which supports long-term business success. It turns into a major selling feature that draws clients who value dependability and safety above everything else when making judgments.	The Company displays as well as reviews the displayed information of all its products for correctness of information and safety guidance on the product label a per as applicable regulations.	Positive - Enhancing the quality and safety of products reduces the expenses related to flaws, rework, returns, and warranty claims. Businesses can increase overall profitability and more effectively manage resources by cutting these costs. Negative - Adopting strict quality control and safety procedures necessitates a large investment in infrastructure, skilled labor, and testing tools. Budgets may be strained by these initial expenses, particularly for startups or companies with narrow profit margins.
4.	Employee Health & Safety	Risk	Risk - Workplace accidents and injuries may arise from inadequate training and the implementation of safety regulations. Long-term health effects, respiratory ailments, musculoskeletal diseases, and other occupational health problems can be caused by exposure to dangerous substances, poor ergonomics, or repeated jobs.	The company conducts trainings for Health, Safety & Personality Development, Health and Safety Awareness Training Programme, and training for sugarcane development. Also, the company is OHSAS -18001:2007 - Occupational Health and Safety Assessment Series (OHSAS) certified and have general safety management systems in the work place. It also has On-Site Emergency plan and major emergency control plant approved by regulatory authorities.	Negative - Workers' compensation claims, which can include medical expenditures, rehabilitation costs, and pay replacement benefits, are the result of diseases or injuries sustained on the job. Regulations pertaining to occupational health and safety may carry fines, penalties, and legal costs for noncompliance. Infractions may result in fines from regulatory bodies, and if injured workers or their families file lawsuits, legal costs may increase.

Sl. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk /opportunity	In case of risk, approach to adapt ormitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
5.	Employee Engagement & Development	Risk & Opportunity	<p>Risk - Employee burnout may result from high levels of engagement and development activities that are not balanced with enough downtime and recuperation. Employee retention, morale, and productivity are all badly impacted by burnout. Employees may be resistant to new projects or organizational changes, especially if they believe the changes would jeopardize their job security or interfere with their daily routines.</p> <p>Opportunity - Workers that are engaged, feel important, and have room to grow are more likely to stick with the company. Lower attrition results in savings on hiring, onboarding, and training new employees. Employee engagement results in increased productivity and better job performance because motivated and dedicated workers are more successful.</p>	Bannari Amman Sugars is QMS, EMS AND FSSC certified.	<p>Positive - Motivated and engaged workers typically produce more in their jobs. Employee dedication and productivity are likely to increase when they experience possibilities for growth and feel appreciated in their work. Increased output per worker directly benefits from increased productivity, which also maximizes operational effectiveness and lowers expenses per unit of output.</p> <p>Negative - When given possibilities for growth, engaged workers may become more desirable to employers. Employee turnover expenses include hiring, onboarding, and lost productivity during transitions when workers depart the company after completing training or development.</p>
6.	Supply Chain Management	Risk	<p>Risk - Businesses that rely on suppliers for components, completed items, or raw materials run the risk of supplier bankruptcy, poor quality, late deliveries, or unforeseen price adjustments. Production schedules can be affected by subpar supplier performance, which can result in inventory shortages and disgruntled customers. Global or regional supply chains can be disrupted by external reasons like trade disputes, natural disasters, geopolitical events, or public health crises like pandemics.</p>	100% of the supplies have been assessed by the audit for health & safety conditions.	<p>Negative - Overstocking and stockouts are examples of ineffective inventory management techniques that can tie up operating capital and raise storage costs. Stockouts can lead to missed sales opportunities and lower revenue, while excess inventory takes up money that could be spent somewhere else.</p>
7.	Business ethics	Risk	<p>Risk - Fraud, corruption, and environmental infractions are examples of ethical wrongdoing that can seriously harm a company's reputation. There may be fines, penalties, and regulatory repercussions for breaking ethical standards. Breaking laws pertaining to consumer rights, environmental protection, bribery, or discrimination can result in expensive legal proceedings and harm to a company's reputation.</p>	Effective policies and mechanisms need to be in place to promote a culture of integrity and conduct as well as address the evolving risks and challenges. The organization is still dedicated to operating all of its operations with the utmost honesty, integrity, governance, ethics, and transparency while strictly adhering to all applicable laws and regulations.	<p>Negative - Legal and regulatory infractions frequently coexist with ethical standards violations. Businesses that are involved in investigations, litigation, or settlements may be subject to fines, penalties, and legal costs. These expenses may add up and have a negative impact on profitability.</p>

Please Note: We have restated data for FY22-23 for scope 1 and scope 2 emissions by reclassifying fuel types between scope 1 and scope 2			
Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.			No

8. Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details.	<ul style="list-style-type: none"> > The waste generated in the form of Cane trash, and molasses are used as fuel within the co-generation plant. > Spent wash is also treated by anaerobic process, in a biogas plant. Biogas is utilised as fuel for boilers. > This helps to reduce use of conventional source of energy. > Falling Film Evaporators are an important improvement in our operational efficiency. We have significantly reduced the amount of steam required, which has resulted in less bagasse being consumed, by utilizing this method. This efficient method helps to reduce greenhouse gas emissions in a noticeable way while also improving our use of resources.

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes	During the sugar and distillery processes, there are so many residues and by-products generated that we productively utilize as fuel and manure. Bagasse and spent wash are used as fuel for co-generation plants and incinerators. Some amount of bagasse is also used in vacuum filters. The industrial trade effluent (spent wash) has been treated by biological processes with anaerobic treatment in the bioreactors. The biogas generated in the bioreactor is utilized in the boiler as fuel, which replaces a major part of fossil fuel (furnace oil) usage in the process of steam generation. The waste generated is within the permissible limits given by CPCB/SPCB.

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required

S. No.	Location of operations/offices	Type of operations	Whether the conditions of environmental approval / clearance are being complied with? (Y/N) If no, the reasons thereof and corrective action taken, if any.
Not Applicable			

12. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year

Name and brief details of project	EIA Notification No.	Date	Whether conducted by independent external agency (Yes / No)	Results communicated in public domain (Yes / No)	Relevant Web link
NA					

13. Is the entity compliant with the applicable environmental law/ regulations/ guidelines in India; such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment protection act and rules thereunder (Y/N). If not, provide details of all such non-compliances, in the following format:

S. No.	Specify the law /regulation / uidelines which was not complied with	Provide details of the non- compliance	Any fines/penalties/action taken by regulatory agencies such as pollution control boards or by courts	Corrective action taken, if any
The company complies with all the applicable environmental laws				

Leadership Indicators

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency			No

3. With respect to the ecologically sensitive areas reported at Question 11 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

NA

4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives

S. No.	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
1	Recycling and reusing of waste water	Waste water recycle plants are implemented at all Sugar & Distillery units	It helps to reduce the consumption of raw water.
2	To keep emissions within the allowed range, an ESP was connected with the boiler.	Electrostatic precipitators (ESP) collect dust in the flue gas produced by boiler	It controls the flue gas and dust within the CPCB norms
3	The power turbine and the mill bearing water are cooled by separate cooling towers.	Cooling towers are installed for cooling of hot condensate and reuse it suitably	Reduction in consumption of raw ground water
4	Distillery concentrated spent wash is used as a fuel for the incineration boiler in all distillery units.	Reuse of distillery effluent to fuel	It saves the coal consumption

5. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.

On-Site Emergency plan and major emergency control plant are approved by the Department of Factories, Boilers, Industrial Safety & Health, Government of Karnataka.

6. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard

Sustainable farming practice and organic manuring is initiated and the process is in progress.

7. Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.

Around 90% of farmers receive assistance from our cane team in using integrated cane management systems to practice sustainable farming.

PRINCIPLE 7 : Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent

Essential Indicators

1	a.	Number of affiliations with trade and industry chambers / associations. The Company through ISMA, SISMA and various other industry associations, participates in advocating matters for advancement of the industry's interest and public good. It supports various initiatives of the Government which include farmers welfare, environment, customer information and education.	
	b.	List the top 10 trade and industry chambers / associations (determined based on the total members of such body) the entity is a member of / affiliated to.	
		S. No.	Reach of trade and industry chambers / associations (State / National / International)
		Name of the trade and industry chambers/ associations	
		1	Indian Sugar Mills Association (ISMA)
		2	South Indian Sugar Mills Association (SISMA)

5	Disaster relief (Item (xii) of Schedule VII)	250 + People are benefitted	

PRINCIPLE 9 : Businesses should engage with and provide value to their consumers in a responsible manner

Essential Indicators

1	Describe the mechanisms in place to receive and respond to consumer complaints and feedback.	<p>A customer’s verbal or written complaint, made by phone, email, or in person if preferred, is forwarded to head office (sales department). The unit head, process head, and QA head shall be notified by the sales department, the party that received the complaint. A complaint that is received is entered into the complaint log. While the complaint was being recorded Analysis is done on the complaint criteria (Critical, Major, Minor). The fundamental cause is examined and any necessary corrective action is started, depending on the type of complaint. Determining if a complaint investigation is necessary and allocating the investigation are the QA head’s responsibilities. It is the assigned complaint investigator’s responsibility to promptly finish and record the investigation. The QA Head oversees the tracking of complaint investigations and remedial measures.</p> <p>Analysis of Customer Feedback: We send out customer feedback forms to our clients once a year. Within the month, the completed customer feedback forms are gathered. The gathered client feedback was examined based on each person’s unique attributes. Customer feedback forms are examined and rated after receipt. One is assigned a rating of 1 for poor, two for fair, three for good, and four for excellence. Determine the area that needs improvement if the rating is 3. For the rating of less than two, corrective action will be started. The senior management receives the studied data with poor ratings so that appropriate adjustment and corrective action can be started.</p> <p>Additionally, a number of Standard Operation Procedures (SOPs) were proactively designed, updated, and enhanced to meet the necessary standards for food safety and quality across all units. Additionally, these acts were communicated.</p>

INDEPENDENT AUDITORS' REPORT

To

The Members of Bannari Amman Sugars Limited
Report on the Audit of the Financial Statements

Opinion

1. We have audited the accompanying financial statements of Bannari Amman Sugars Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2024, and the Statement of Profit and Loss (including Other Comprehensive Income), Statement of Changes in Equity and Statement of Cash Flows for the year then ended on that date and notes to the financial statements, including a summary of material accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, the profit including other comprehensive income, the changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act, and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matter described below to be the key audit matter to be communicated in our report.

Sl. No.	Description of Key Audit Matter	Description of Auditors' Response
4.1	<p>Inventory valuation of sugar as at the year ended March 31, 2024</p> <p>(Refer to the accompanying Note No.9 forming integral part of the Financial Statements)</p> <p>The Company's closing stock of sugar as at March 31, 2024 is Rs. 81,236.33 lakhs. The inventory of sugar is valued at the lower of Weighted Average cost and net realizable value.</p> <p>We considered the valuation of the inventory of sugar as a key audit matter given the relative size of the balance in the financial statements and significant judgement involved in the consideration of factors such as minimum sale price, monthly quota, fluctuation in selling prices and the related notifications of the Government in determination of net realizable value.</p>	<p>We understood and tested the design and operating effectiveness of controls as established by the management in determination of cost of production and net realizable value of inventory of sugar.</p> <p>We have tested the adequacy of the method used for the cost of production and reliability of data and the procedures followed for arriving at the cost of sugar.</p> <p>We reviewed the accounting policy followed for valuation of inventory of sugar and appropriateness thereof with respect to Ind AS 2 Inventories issued by ICAI. We considered various factors including the actual selling price prevailing around and subsequent to the year end, minimum selling price & monthly quota and other notifications of the Government of India, initiatives taken by the Government with respect to sugar industry as a whole.</p> <p>Based on the above procedures performed, the inventory valuation of sugar as at the year-end is considered to be reasonable.</p>

Information other than the Financial Statements and Auditor's Report thereon

5. The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Corporate Governance and Shareholder's Information, but does not include the financial statements and our auditor's report thereon.
6. The other information is expected to be made available to us after the date of this auditor's report. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
7. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on other information, we conclude that there is a material misstatement, if any, of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

8. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.
9. In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
10. Those Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

11. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
12. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - a) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - b) Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - d) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - e) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
13. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
14. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
15. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

16. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
17. As required by Section 143(3) of the Act, we report that:
- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

- c) The Balance Sheet, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
- d) In our opinion, the aforesaid financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standard) Rules, 2015 as amended.
- e) On the basis of the written representations received from the directors as on March 31, 2024 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2024 from being appointed as a director in terms of Section 164(2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- g) With respect to the matter to be included in the Auditors' Report under Section 197(16) of the Act:

In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of Section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i) The Company has disclosed the impact of pending litigations on its financial position in Note No.45 to the financial statements;
 - ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
 - iii) There has been no delay in transferring amounts required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv)
 - a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities ("Intermediaries") with the understanding, whether recorded in writing or otherwise, that the Intermediary shall whether directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Company or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - b) The management has represented, that, to the best of its knowledge and belief, no funds have been received by the Company from any persons or entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall whether directly or indirectly, lend or invest in other persons or entities identified in any

manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Funding Party or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

- c) Based on such audit procedures as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under subclause (i) and (ii) of Rule 11 contain any material mis-statement.
- v) The dividend declared and paid during the year by the Company relating to financial year 2022-23 is in compliance with Section 123 of the Act.
- vi) The proviso to rule 3(1) of the Companies (Accounts) Rules, 2014 for maintaining books of account using accounting software which has a feature of recording audit trail (edit log) facility is applicable to the company with effect from April 1, 2023.

Based on our examination which included test checks, the company has used accounting software for maintaining its books of accounts which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software.

Further during the course of our audit, we did not come across any instance of audit trail feature being tampered with.

As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable only from April 1, 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirements for record retention is not applicable for the financial year ended March 31, 2024.

Annexure - A to the Independent Auditors' Report

Referred to in paragraph 16 of the Independent Auditor's Report of even date to the members of Bannari Amman Sugars Limited on the financial statements for the year ended March 31, 2024

- i.
 - a)
 - A) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment.
 - B) The Company does not hold any intangible assets and hence reporting under this clause is not applicable.
 - b) The Company has physically verified property, plant and equipment in regular intervals during the year and no material discrepancies were noticed on such verification. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its property, plant and equipment.
 - c) In our opinion and according to the information and explanations given to us and on the basis of examination of the records of the company, the title deeds of immovable properties are held in the name of the company. In respect of immovable properties taken on lease and disclosed as right-of-use assets in the financial statements, the lease agreements are in the name of the company.
 - d) The Company has not revalued its property, plant and equipment (including right of use assets) during the year.
 - e) According to the information and explanations given to us, no proceedings have been initiated or are pending against the company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made there under.
- ii.
 - a) The inventory has been physically verified by the management at reasonable intervals during the year. In our opinion, the coverage and procedure of such verification by management is appropriate. No discrepancies of 10% or more in the aggregate for each class of inventory were noticed as compared to book records.
 - b) The Company has been sanctioned working capital limit in excess of Rupees Five Crores in aggregate during the year from banks on the basis of security of current assets. The Quarterly statements filed by the company with the banks are not in agreement with the books of accounts of the company and the details of the same are given in Note no.62 to the Financial Statements.
- iii. In our opinion and according to the information and explanations given to us and on the basis of our examination of the books of account, during the year, the Company has not made any investments in, provided any guarantee or security, granted any loans secured or unsecured to companies, firms, limited liability partnerships or other parties. Accordingly, the reporting under paragraph 3(iii) of the Order is not applicable to the Company.
- iv. In our opinion and according to the information and the explanations given to us, the Company has not granted any loans or provided any guarantees or securities to the parties covered under the section 185 of the Act. The Company has complied with the provisions of section 186 of the Act in respect of investments made or loans or guarantee or security provided.

- v. According to the information and explanations given to us, the Company has not accepted any deposits or amounts which are deemed to be deposits within the meaning of provisions of sections 73 to 76 or any other relevant provisions of the Act and the Rules framed there under. Accordingly, reporting under paragraph 3(v) is not applicable to the Company.
- vi. As per the information and explanations given by the management, maintenance of cost records has been prescribed by the Central Government and we are of the opinion that the prescribed accounts and records have been made and maintained under section 148(1) of the Act, by the company..
- vii. a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the undisputed statutory dues including Provident Fund, Employee's State Insurance, Income tax, Goods and Service Tax, duty of customs, duty of excise, cess and any other material statutory dues, as applicable, have been regularly deposited during the year by the Company with the appropriate authorities. Consequently, there were no undisputed dues outstanding as at March 31, 2024 for a period of more than six months from the date they became payable.
- b) According to the information and explanations given to us, the details of statutory dues referred to in sub-clause (a) which have not been deposited as on March 31, 2024 on account of disputed dues are given below:

Annexure - B to the Independent Auditors' Report

Referred to in paragraph 17(f) of the Independent Auditor's Report of even date to the members of Bannari Amman Sugars Limited on the financial statements for the year ended March 31, 2024

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

1. We have audited the internal financial controls over financial reporting of Bannari Amman Sugars Limited ("the Company") as of March 31, 2024 in conjunction with our audit of the financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls.

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:
- a) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
 - b) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorization of management and directors of the company; and
 - c) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

a) Basis of Preparation**i) Compliance with IND AS**

The financial statements of the Company have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') notified under Section 133 of the Companies Act 2013 (the Act) read with the Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act.

The accounting policies are applied consistently to all the periods presented in the financial statements

ii) Historical Cost Convention

The financial statements have been prepared on a historical cost basis, except for certain financial assets and liabilities that are measured at fair value at the end of the each reporting period.

Historical cost is generally based on the value of consideration given in exchange of goods and services. Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. The fair value of an asset or liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest.

Fair value for measurement and/or disclosure purposes in these financial statement is determined on such a basis except for leasing transactions that are within the scope of Ind AS 116 and measurements that have similarities to fair value but are not fair value, such as net realizable value in Ind AS 2 (Inventories) or value in use in Ind AS 36 (Impairment of Assets).

iii) Current and Non - Current Classification

All assets and liabilities have been classified as current or non current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act 2013.

Deferred Tax assets and liabilities are classified as Non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their

realisation in cash and cash equivalents. The company has identified Twelve months as its operating cycle.

iv) **Rounding of amounts**

All amounts disclosed in the financial statements and notes have been rounded to the nearest lakhs and two decimal thereof as per the requirement of Schedule III, unless otherwise stated.

b) **Use of Estimates and Judgements**

The estimates and judgements used in the preparation of the financial statements are continuously evaluated by the Company and are based on historical experience and various other assumptions and factors (including expectations of future events) that the company believes to be reasonable under the existing circumstances. Differences between actual results and estimates are recognised in the period in which the results are known/materialised.

The said estimates are based on the facts and events, that existed as at the reporting date, or that occurred after the date but provide additional evidence about conditions existing as at the reporting date.

c) **Property, Plant and Equipment**

Property, Plant and Equipment that qualifies for recognition as an asset is measured at cost net of tax / duty credit availed less accumulated depreciation and accumulated impairment losses, if any. The Cost includes deemed cost as on the date of transition. Freehold land is not depreciated.

Cost includes related taxes, duties, freight, insurance etc., attributable to acquisition and installation of assets and borrowing cost incurred up to the date of commencing operations, but excludes duties and taxes that are recoverable from taxing authorities.

Subsequent cost are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future

economic benefit associated with the item will flow to the company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. Cost in the nature of repairs and maintenance are recognised in the Statement of Profit and Loss during the reporting period in which they are incurred.

Assets which are not ready for their intended use and other capital work in progress are carried at cost, comprising direct cost, related incidental expenses and attributable interest. Advances given towards acquisition of Property, Plant and Equipment outstanding at each balance sheet date are disclosed as Capital Advances under Other Non-Current Assets.

Depreciation

Straight line method has been adopted for providing depreciation on fixed assets other than Co-Generation Division and Wind Mill Division. For the assets of Co-Generation Division and Wind Mill Division, depreciation has been provided under written down value method. The assets are depreciated over the useful life as prescribed in Schedule II of the Companies Act, 2013. Depreciation on additions / deletions on Property, Plant and Equipment is computed on pro-rata basis from the date of purchase of such addition or upto the date of such deletion as the case may be. The residual values are not more than 5% of the original cost of the asset. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of changes in estimate accounted for on a prospective basis.

Derecognition

The carrying amount of an item of Property, Plant and Equipment shall be derecognised on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the derecognition of an item of property, plant and

equipment shall be determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item. The same is recognised in the statement of profit and loss.

d) Biological Assets

Livestock are measured at fair value less cost to sell. Costs to sell include the transportation charges for transporting the cattle to the market but excludes finance costs and income taxes. Changes in fair value of livestock are recognised in the statement of profit and loss. Costs such as vaccination, fodder and other expenses are expensed as incurred.

Biological assets other than live stock are measured at fair value less cost to sell or at cost whichever is applicable. Changes in fair value of biological assets is recognised in the statement of profit and loss.

e) Impairment of Non financial Assets

Non financial assets are tested for impairment at the end of each reporting period as to whether events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the assets' carrying amount exceeds its recoverable amount. The recoverable amount is higher of an assets' fair value less costs of disposal and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (cash generating units). Non financial assets that suffered an impairment in prior periods are reviewed for possible reversal of the impairment at the end of the each reporting period.

f) Derivative financial Instruments

Derivative financial instruments such as forward contracts, to hedge its foreign currency risks are initially recognised at fair value on the date, a derivative contract is entered into. The same is subsequently remeasured at their fair value with changes in fair value recognised in the statement of

profit and loss in the period when they arise.

g) Financial Instruments

A Financial Instrument is any contract that give rise to a financial asset of one entity and Financial Liability or equity instrument of another entity. Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial Assets

Financial assets, except trade receivables, are initially measured at fair value. Trade receivables are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition of financial assets (other than financial assets at fair value through profit or loss) are added to or deducted from the fair value of the financial assets, on initial recognition.

Investment in Equity instruments at Fair Value Through Other Comprehensive Income (FVTOCI)

Initial Recognition

The Company measures investments in equity instruments at FVTOCI. These equity instruments are neither held for trading nor are contingent consideration recognised under a business combination. These elected investments are initially measured at fair value plus transaction costs.

Subsequent measurement

Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income.

Dividend

Dividend on investments in equity instruments are recognised in profit or loss unless the dividend does not represent a recovery of part of cost of the investment. Dividend is recognised only when the company's right to receive the dividend is established, it is probable that the economic benefits

associated with the dividend will flow to the entity and the amount of dividend can be measured reliably. The Company has recognised dividend in Statement of profit and loss under 'Other Income'.

Derecognition

A financial asset is derecognised when the contractual rights to the cash flows from the financial asset expires or the Company transfers the financial asset and substantially all the risks and rewards of ownership of the asset.

If the Company neither transfers nor retains substantially all the risks and rewards of ownership of the financial asset, but retains control of the financial asset, the Company continues to recognise the transferred asset to the extent of its continuing involvement. The extent of the Company's continuing involvement in the financial asset is the extent to which it is exposed to changes in the value of the transferred asset. In such cases, the Company also recognises an associated liability. The financial asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

On derecognition of such financial assets, the cumulative gain / loss previously recognised in Other Comprehensive Income is not reclassified from the equity to the Statement of Profit and Loss.

However, the company may transfer such cumulative gain / loss into the retained earnings within equity.

Impairment of Financial Asset

The Company applies expected credit loss model for recognising impairment loss on financial assets measured at fair value through other comprehensive income (FVTOCI), trade receivables and other financial assets measured at amortised cost.

The Company follows a simplified approach wherein an amount equal to lifetime expected credit losses is measured and recognised as loss allowance in the case of trade receivables and lease receivables.

In case of other financial assets measured at fair value through other comprehensive income or at amortised cost, the Company determines if there has been a significant increase in credit risk of the financial asset since initial recognition. If the credit risk has not increased significantly, an amount equal to 12-month expected credit losses is measured as loss allowance and when the credit risk has increased significantly, an amount equal to lifetime expected credit losses is measured and recognised as loss allowance.

Financial Liabilities

Initial Recognition

Financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the issue of financial liabilities (other than financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial liabilities, on initial recognition.

Subsequent measurement

Financial Liabilities are subsequently carried at amortised cost using the effective interest method, which is subsequently measured at fair value through profit or loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value to the short maturity of these instruments.

Derecognition

A financial liability is derecognised when the obligation specified in the contract is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing financial liability is substantially modified, such an exchange or modification is treated as the extinguishment of the original liability and the recognition of a new financial liability. The difference between the carrying amount of a financial liability extinguished and the consideration paid is recognised in the Statement of Profit and Loss.

 - iii) Due allowance is estimated and made for defective and obsolete items wherever necessary.

i) Fair value measurement

The Company measures financial instruments, such as, investments at fair value at each balance sheet date. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy that categorises into three levels, described as follows, the inputs to valuation techniques used to measure value.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly or indirectly

Level 3: inputs that are unobservable for the asset or liability.

For Assets and liabilities that are recognised in the financial statement on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by

reassessing the categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

j) Revenue Recognition

Revenue from contracts with customers is recognised on transfer of control of promised goods or service to a customer at an amount that reflects the consideration to which the company is expected to be entitled to in exchange for those goods or services. The company recognises the revenue at the amount of transaction price allocated to the performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various discounts and schemes offered by the Company as part of the contract.

Revenue is recognised only to the extent that is highly probable that the amount will not be subject to significant reversal when uncertainty relating to its recognition is resolved.

Sale of Goods :

Revenue is recognised when the performance obligations are satisfied and the control of the product is transferred, being when the goods are delivered as per the relevant terms of the contract at

which point in time the Company has a right to payment for the asset, customer has legal title of the asset, customer bears significant risk and rewards of ownership and the customer has accepted the asset or the Company has objective evidence that all criteria for acceptance have been satisfied. Payment for the sale is made as per the credit terms in the agreements with the customers. The credit period is generally short term, thus there is no significant financing component.

Revenue is measured based on the transaction price, which is the consideration, net of customer incentives, discounts, variable considerations, payments made to customers, other similar charges, as specified in the contract with the customer. Additionally, revenue excludes taxes collected from customers, which are subsequently remitted to Government authorities.

Export incentives under various schemes are accounted in the year of export at the estimated realisable value.

Sale of Services

The Company recognises its revenue from sale of services based on the recognition criteria that the outcome of a transaction involving the rendering of services can be estimated reliably.

Stage of completion of transactions is measured by determining the services performed till balance sheet date as a percentage of total services to be performed as per the contract. The credit period is generally short term, thus there is no significant financing component.

Dividend and Interest Income

Dividend income from investments is recognised when the shareholder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably).

Interest income from financial asset is recognised when it is probable that the economic benefits will flow to the entity and the amount of income can be

measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial assets' net carrying amount on initial recognition.

Rental Income

Rental Income arising from operating leases are accounted over the lease terms and is recognised in the statement of profit and loss.

k) Foreign Currency Transactions

The financial statements are presented in Indian Rupee which is company's functional and presentation currency. Foreign currency transactions are recorded at the exchange rate prevailing on the date of the transaction. Exchange differences arising on foreign exchange transaction settled during the year are recognised in the statement of profit and loss. Foreign currency monetary items as at the balance sheet date are translated using the closing rate. The gain or loss arising out of these translations are recognized in the statement of profit and loss.

l) Provisions and Contingencies

Provision is recognised only when there is a present obligation as a result of past event and it is probable that there will be an outflow of resources embodying economic benefits to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Contingent liabilities are disclosed when there is a possible obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of obligation cannot be measured reliably. When the possible obligation in respect of which the outflow of resources embodying economic benefits is remote, it is not been disclosed as Contingent Liability.

m) Income Tax

Tax expense is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

Current Tax

Current tax is the amount of income tax payable in respect of taxable profit for the year. The taxable profit differs from profit before tax as reported in Statement of Profit and Loss because of items of income or expenses that are taxable or deductible in other years and items that are never taxable or deductible under the Income Tax Act, 1961. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period for the amount expected to be paid to / recovered from the taxation authorities.

Minimum Alternate Tax (MAT) credit is recognised as deferred tax asset only when and to the extent there is convincing evidence that the sufficient taxable profit will be available against which the MAT credit can be utilised.

Deferred Tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statement and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised on all temporary differences. Deferred tax assets are recognised for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised. Deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition of an asset or liability in a transaction (other than a business combination) affects neither accounting profit nor taxable profit (tax loss).

Deferred tax assets are recognised for the carry forward of unused tax losses and unused tax credits to the extent that it is probable that future taxable profit will be available against which the unused tax losses and unused tax credits can be utilised based on the review at the end of each reporting period by the company considering the likely timing and the level of

future taxable profits together with future tax planning strategies.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of reporting period, to recover or settle the carrying amount of its assets and liabilities.

As per the company's assessment on uncertainty over tax treatment on recognising Income tax with respect to Appendix C amendment, there are no material uncertainties over tax treatments.

Presentation of Current and Deferred Tax

Current and deferred tax is recognised in the statement of profit and loss except to the extent it relates to items recognised in other comprehensive income or directly in equity. In such cases, the tax is also recognised in other comprehensive income.

The company offsets current tax assets and current tax liabilities, where it is legally enforceable right to set off the recognised amount and where it intends either to settle on a net basis or to realize the assets and settle the liabilities simultaneously.

In case of deferred tax assets and deferred tax liabilities, the company offsets only when they relate to income taxes levied by the same taxation authorities and it has legally enforceable right to set off current tax assets against current tax liabilities..

n) Employee Benefits

Short Term Employee Benefits

All employee benefits payable within twelve months of rendering service are classified as short term employee benefits and are recognised in the period

in which the employee renders the related service. The Company recognises the undiscounted amount of short term employee benefits expected to be paid as a liability after deducting the amount already paid.

Post-employment Benefits

The Company operates the following post-employment schemes:

- a) defined contribution plans such as provident fund; and
- b) defined benefit plans such as gratuity

Defined Contribution Plans

Defined Contribution Plans are Provident Fund, Employee State Insurance scheme and Government administered Pension Fund scheme for all applicable employees.

The company recognises contribution payable to a defined contribution plan as expenses in the statement of profit and loss when the employee renders services to the company during the reporting period. If the contribution payable for services received from employee before the reporting date exceeds the contribution already paid, the deficit payable is recognised as a liability after deducting the contribution already paid.

Defined Benefit Plans

Gratuity obligations

Defined Contribution Plans are Provident Fund, Employee State Insurance scheme and Government administered Pension Fund scheme for all applicable employees. The company recognises contribution payable to a defined contribution plan as expenses in the statement of profit and loss when the employee renders services to the company during the reporting period. If the contribution payable for services received from employee before the reporting date exceeds the contribution already paid, the deficit payable is recognised as a liability after deducting the contribution already paid..

The Company operates a defined benefit plan for employees. The Company contributes to a separate entity (a fund), towards meeting the gratuity obligation. The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by Independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows at a predetermined rate of interest based on the market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income.

Other long-term employee benefit obligations

The liabilities for earned leave which is not expected to be settled wholly within 12 months are measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted at a predetermined rate of interest based on yields on Government Bonds that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in the Statement of Profit and Loss.

o) Operating Segments

Operating segments are identified in accordance with the criteria set out in paragraphs 5 to 10 of Ind AS 108 viz. a component of an entity that engages in business activities from which the company earns revenues and incur expenses and the operating results are regularly reviewed by the entity's Chief

Operating Decision Maker (CODM) to make decisions about resources to be allocated to the segment and assess the performance for which discrete financial information is available.

The operating segments are reported after taken into consideration of aggregation criteria and quantitative threshold as mentioned in Para 12 and 13 of Ind AS 108.

Operating segments are reported in a manner consistent with the internal reporting provided to the CODM of the company. The CODM is responsible for allocating the resources and assessing the performance of the operating segments of the company.

p) Leases

The Company's significant leasing arrangements are operating leases and cancelable in nature.

Company as Lessor

The lease rental income under agreements are recognised in the statement of profit and loss as per the terms of the lease. The rental income from operating lease is generally recognised on a straight line basis over the term of relevant lease. When the rentals are structured solely to increase in line with expected general inflation to compensate for the Company's expected inflationary cost increases, such increases are recognised in the year in which such benefits accrue. Contingent rental income arising under operating leases are recognised as income in the period in which they accrue.

Company as Lessee

The Company's lease asset classes primarily consists of leases for land and building. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified assets, the Company assesses whether: (i) the right to obtain substantially all of the economic

benefits from use of the identified asset through the period of the lease and (ii) the right to direct the use of the asset.

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received

The Right-of-Use-Asset is subsequently measured at cost less any accumulated depreciation thereon. The right-of-use asset is depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rate. Lease liabilities are remeasured with a corresponding adjustment to the related Right-of-Use asset if the Company changes its assessment of whether it will exercise an extension or a termination option.

Lease liability and Right-of-Use asset have been presented in the Balance Sheet and lease payments have been classified as cash flows from financing activities. The Interest expense and depreciation relating to Right-of- Use Asset have also been disclosed in the statement of profit and loss.

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases and leases of low-value assets. The Company recognises such lease payments relating to these leases as an expense on a straight-line basis over the lease term.

q) Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit or loss is adjusted for the effects of transactions of non cash nature, any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the company are segregated based on the available information.

For the purpose of presentation of cash flow statement, cash and cash equivalents includes cash on hand, cheques on hand, bank balances, demand deposit with banks where the original maturity is three months or less and other short term highly liquid investments.

r) Borrowings

Borrowings are initially recognised at net of transaction costs incurred and are subsequently measured at amortised cost.

s) Borrowing Costs

Borrowing costs that are directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale are added to the cost of those assets. Borrowing costs capitalisation be commenced by the company when (i) incurs expenditure for the asset (ii) incurs borrowing cost (iii) incurs activities that are necessary to prepare the asset for its intended use or sale. All other borrowing costs are recognised as an expense in the statement of profit and loss in the period in which they are incurred.

t) Events occurring after balance sheet date

Where events occurring after the Balance Sheet date

provide evidence of conditions that existed at the end of thereporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after theBalance Sheet date of material size or nature are only disclosed.

u) Recent Accounting Pronouncements and Application:

Ministry of Corporate Affairs ("MCA") vide notification dated March 31, 2023 has amended the Companies (Indian Accounting Standards) Rules, 2015 by issuing the Companies (Indian Accounting Standards) Amendment Rules, 2023 and the amendments are applicable with effect from April 1, 2023. The amendments are as follows :

Ind AS 1 - Presentation of Financial Statements

This amendment prescribes "Disclosure of accounting policy information", which requires the entity to disclose material accounting policies instead of significant accounting policies in the financial statements. The Company has assessed that this amendment has no significant impact on the financial statements.

Ind AS 8 - Accounting policies, Changes in Accounting estimates and errors

This amendment replaces the definition of a change in accounting estimates with the new definition of accounting estimates to clarify the entity on the accounting estimates, treatment of change in accounting estimates and accounting policies. The Company has assessed that this amendment has no significant impact on the financial statements.

Ind AS 12 - Income Tax

This amendment has narrowed the exceptions on initial recognition that the exception is not applicable to the transactions which give rise to equal taxable and deductible temporary differences on initial recognition. The Company has assessed that this amendment has no impact on the financial statements.

NOTE 48. DISCLOSURE UNDER IND AS 19 Contd.... :

ii) DEFINED BENEFIT PLAN :

GRATUITY

The company provides the Gratuity benefit through annual contributions to the fund managed by Life Insurance Corporation of India (LIC).

The defined benefit plans expose to the actuarial risks such as:

a) Interest Rate Risk:

The present value of the defined benefit plan obligation is calculated using a discount rate determined by reference to government bond yields. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of the obligation.

b) Salary Risk:

The present value of the defined benefit plan is calculated based on the salary of plan participants in the future. Accordingly, an increase in salary of the plan participants will increase the defined benefit obligation and will have an exponential effect.

c) Investment Risk:

The present value of the defined benefit plan obligation is calculated using a discount rate determined by reference to government bond yields. If there are significant changes in the discount rate during the inter valuation period, it can result in wide fluctuations in the net liability or plan assets.

d) Variability in mortality rates:

The present value of the defined benefit plan obligation is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. If actual mortality rates are higher than the assumed mortality rate assumption, there is a risk of payment of gratuity benefits earlier than expected.

The following table sets out the details of the defined benefits obligations and amount recognised in the financial statements.

F SENSITIVITY ANALYSIS

The significant actuarial assumptions for the determination of the defined benefit obligations are discount rate and expected salary increase. The sensitivity analysis below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant. The defined benefit obligation increases / (decrease) as follows :

(₹ in Lakhs)

PARTICULARS	31.03.2024	31.03.2023
Discount Rate		
+100 basis points	(406.13)	(365.40)
-100 basis points	474.00	424.91
Salary Growth		
+100 basis points	452.14	404.46
-100 basis points	(396.92)	(357.29)

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligations as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumption may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligations has been calculated using the Projected Unit Credit Method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet.

The expected contribution to the plan for the next Annual reporting period is ₹ 247.99 Lakhs (₹ 208.40 lakhs)

b) Fair Value Hierarchy
Fair Value Measurement Hierarchy of Financial Instruments :

The Company uses the following Fair Value Hierarchy for determining and disclosing the fair value of the financial instruments.

Level 1 : quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 : inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 : inputs that are unobservable for the asset or liability.

(₹ in Lakhs)

PARTICULARS	Note No.	Level 1	Level 2	Level 3	Total fair Value
Financial Assets at FVTOCI - 31.03.2024	5	307.21	--	--	307.21
Financial Assets at FVTOCI - 31.03.2023	5	168.88	--	--	168.88

Fair Value Measured at amortised Cost:

The carrying amount of financial assets and liabilities measured at amortised cost in the financial statements are a reasonable approximation of their fair values since the company does not anticipate that the carrying amount would be significantly different from the values that would eventually be received or settled.

NOTE 59. FINANCIAL RISK MANAGEMENT - OBJECTIVES & POLICIES

The Company's principal financial liabilities includes borrowings, trade payable and other financial liabilities. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include investments, trade receivables, cash and cash equivalents, Bank Balance other than cash and cash equivalent, loans and other financial assets that derive directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management under the supervision of Risk management committee / Board of Directors oversees the management of these risks and the appropriate financial risk governance framework for the Company. The senior management provides assurance that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives.

a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market price. Market risk comprises three types of risk: interest rate risk, currency risk and other risks, such as regulatory risk and commodity price risk. Financial Instruments affected by market risk includes investment, borrowings, trade receivable, trade payable and loans.

i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rate. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's borrowings obligations with floating interest rate. Interest rate risk is managed by maintaining a combination of fixed and floating rate debt and cash management policies.

The carrying amount of Company's borrowings at the end of the reporting period is as under:

(₹ in Lakhs)

PARTICULARS	As at 31.03.2024	As at 31.03.2023
Borrowings with fixed rate of Interest	5581.42	7943.40
Borrowings with floating rate of Interest	42976.51	50113.23
Total Borrowings	48557.93	58056.63

The company determines the sensitivity of 25 basis points increase (or) decrease on borrowings with floating rate of interest. The impact on the Profit after tax at the reporting date, assuming outstanding balance and other factors remain constant for the whole year, except the rate of interest, would be ₹ 107.44 Lakhs (₹ 125.28 Lakhs).

ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rate. The Company's exposure to the risk of changes in foreign exchange rate relates primarily to the Company's foreign currency denominated financial assets and financial liabilities.

The carrying amounts of the Company's foreign currency denominated monetary assets and liabilities at the end of the reporting period is as under.

(₹ in Lakhs)

Foreign Currency	Liabilities		Assets	
	31.03.2024	31.03.2023	31.03.2024	31.03.2023
US Dollar	112.74	39.63	28.81	--
Euro	2.13	1.42	275.58	85.64
TOTAL	114.87	41.05	304.39	85.64

The above table represents total exposure of the Company towards foreign exchange denominated assets and liabilities. The details of unhedged exposures are given as part of Note No.53.

The company determines the sensitivity of 10% increase or decrease in the foreign currency rate. The impact on the profit after tax and total equity at the reporting date, assuming other factors constant except the exchange difference will be ₹ 18.95 Lakhs (₹ 4.46 Lakhs)

iii) Other price risk

Other price risk is the risk that the fair value of a financial instrument will fluctuate due to changes in market traded price. The Company is exposed to price risk arising mainly from investments in equity instruments recognised at FVTOCI. As at 31st March, 2024, the carrying value of such equity instruments recognised at FVTOCI amounts to ₹ 307.21 Lakhs (₹ 168.88 Lakhs). The details of such investments in equity instruments are given in Note No 5.

b) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument leading to a financial loss. Credit risk arising from trade receivables is managed in accordance with the Company's established policy, procedures and control relating to customer credit risk management. The Company had managed the credit risk with respect to trade receivables by selling majority of sugar sales covering minimal portion on credit basis.

The Company's exposure and credit ratings of its counterparties are continuously monitored and the aggregate value of transactions is reasonably spread amongst the counterparties. The company manages the risk by credit

approval. Credit quality of a customer is assessed based on a detailed study of credit worthiness and accordingly individual credit limits are defined/modified.

The impairment for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each balance sheet date. The company has recognised provision for Expected Credit Loss on the financial assets in the statement of Profit & Loss.

Financial assets are written off when there is no reasonable expectation of recovery. However, the Company continues to attempt to recover the receivables and are recognised in the Statement of Profit and Loss when recovered.

c) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in raising funds to meet commitments associated with financial instruments that are settled by delivering cash or another financial asset. Liquidity risk may result for an inability to sell a financial asset quickly close to its fair value.

The Company has an established liquidity risk management framework for managing its short term, medium term and long term funding. The Company also has adequate credit facilities agreed with banks to ensure that there is sufficient cash to meet all its normal operating commitments in a timely and cost-effective manner.
