Footnotes :

- Analytical ratios have been calculated as per definition given in IRDAI Analytical ratios disclosure.
- The solvency ratios are as certified by the Appointed Actuary.
- a) The persistency ratios are calculated in accordance with IRDA/ACT/CIR/GEN/21/02/2010 dated February 11, 2010 and IRDAI circular no. IRDAI/F&A/CIR/MISC/256/09/2021 dated September 30, 2021 and hence are with a lag of one month.
b) The persistency ratios for the quarter ended December 31, 2024 have been calculated on December 31, 2024 for the policies issued in the September to November period of the relevant years. E.g.: the 13th month persistency for the current quarter is calculated for the policies issued from September 2023 to November 2023. The persistency ratios for quarter ended September 30, 2024 and December 31, 2023 have been calculated in a similar manner.
c) The persistency ratios for year to date as at December 31, 2024 have been calculated on December 31, 2024 for the policies issued in the December to November period of the relevant years. E.g.: the 13th month persistency for the current year is calculated for the policies issued from December 2022 to November 2023. The persistency ratios for year ended December 31, 2023 and March 31, 2024 have been calculated in a similar manner.
d) The 'quarter ended' persistency ratios are not comparable to corresponding 'year to date' ratios on account of different time period available for renewal for policies. For example - In case of 'quarter ended' persistency as at December 31, 2024, which includes policies issued in the September to November period of relevant years, a policy issued in the month of September will have around 3 months available for renewal of policy. While in case of 'year ended' persistency as at December 31, 2024, which includes policies issued in the December to November period of relevant years, a policy issued in the month of December will have around 12 months available for renewal of policy.
e) Persistency ratios include individual business only. Group business policies have been excluded from the persistency calculation.
- Ratios for the previous year's quarter & previous year have been reclassified / regrouped / restated wherever necessary.
