Leadership Comments

Roshni Nadar Malhotra
Chairperson
HCLTech

“With our future-ready portfolio, we are well placed to tap emerging opportunities led by GenAI. We remain committed to doing business sustainably and responsibly as we continue to supercharge progress for our clients.”

C Vijayakumar
CEO & Managing Director
HCLTech

“We are pleased to report another quarter of industry-leading performance with 5.6 % YoY revenue growth on constant currency basis. Our Q1 Revenue and EBIT performance was slightly better than our expectations. We clocked in \$2B TCV of new business Bookings. We are confident of decent growth in the coming quarters, positioning us well to deliver our revenue guidance for the year as clients continue to spend on GenAI and other emerging technologies.”

Prateek Aggarwal
Chief Financial Officer
HCLTech

“HCLTech delivered an INR revenue growth of 6.7% YoY, healthy given the global environment. EBIT margins came in at 17.1%, steady on YoY basis. We delivered PAT of ₹4,257 Crores for the quarter, which translates to YoY growth of 20.4%. Our cashflow generation remains robust with LTM FCF at ₹21,637 Crores, 133% of PAT and 88% of EBITDA. We remain committed to improving our capital efficiency and are pleased to report Last Twelve Month (LTM) ROIC for the company is up 350 bps YoY at 34.6% and for Services business is up 476 bps YoY at 42.8%.”

- Estimated effective tax rate for HCLSoftware segment has been arrived at by applying the tax on Specific units/entities from where HCLSoftware business operates. Residual tax has been allocated to Services business.
- Common assets and liabilities have been allocated between the businesses in ratio of last twelve months revenues.
- Average invested capital has been computed using average of last 5 quarters.
- Effective April 1, 2024, services related to certain software products, previously under HCL Software, are now managed by IT and Business Services and Engineering and R&D Services segments. Revenues and results have been reported under respective segments, with prior period figures restated. The impact of this change is immaterial for the segments.

HCLSoftware Metrics

HCLSoftware Revenue	Quarter Ended				
	30-Jun-23	30-Sep-23	31-Dec-23	31-Mar-24	30-Jun-24
Perpetual License Upfront & Others	36.0	30.6	47.6	31.6	36.4
Subscription & Support	274.6	264.8	346.6	286.1	281.7
Professional Services	14.8	16.0	17.0	16.7	16.4
Total Revenue*	325.4	311.4	411.3	334.5	334.4

- **Perpetual License upfront and others** revenue includes upfront revenue recognized from perpetual licenses and compliance revenues.
- **Subscription and Support** revenue includes all term subscription revenues, support revenues (including those attributable to perpetual licenses) and Software-as-a-Service (SaaS) revenues.
- Revenue share from **IP Partnerships** is included in respective lines above based on the information provided by the partners.

HCLSoftware ARR	Quarter Ended				
	30-Jun-23	30-Sep-23	31-Dec-23	31-Mar-24	30-Jun-24
ARR*	1028.2	1024.5	1,052.8	1,016.1	1014.4
ARR Growth YoY CC	4.5%	3.9%	2.7%	0.7%	(0.3%)

Annual Recurring Revenue (ARR) is the annualized value of all term subscription licenses, support obligations (including those attributable to perpetual licenses) and Software-as-a-Service (SaaS) contracts that are active on the last day of the quarter. In respect of IP Partnerships, ARR is computed based on annualized value of HCL's revenue share of the revenue reported by the partners for support services and new license sales in the current quarter. ARR excludes upfront revenue recognized on sale of perpetual licenses, professional services and any other non-recurring revenue.

ARR is an operating metric, which should be viewed independently of revenue and is not a forecast of future revenues. Growth in ARR may not always be reflected in Revenue growth.

Effective April 1, 2024, services related to certain software products, previously under HCL Software, are now managed by IT and Business Services and Engineering and R&D Services segments. Revenues and results have been reported under respective segments, with prior period figures restated. The impact of this change is immaterial for the segments.

Key Deal Wins

A leading US-based insurance provider selected HCLTech to design and implement a comprehensive digital transformation program. This is a **full-stack deal** comprising infrastructure, applications and business operations. HCLTech will leverage synergies from its integrated delivery and transformation initiatives, including automation and GenAI, to drive operational efficiencies, optimize cost and improve service quality for the client.

A leading US-based beverage company selected HCLTech as its digital partner to transform its ecommerce platform. Leveraging its capabilities in GenAI, XR/VR and IoT technologies, HCLTech will enable **hyper-personalization, mobility and connected IoT** to deliver seamless omnichannel customer experiences and drive business growth via online channels.

A Europe-based financial services company selected HCLTech to accelerate its digital transformation. HCLTech's solutions will include setting up of a **future-ready private cloud, AI-led automation** and modernized network and security architecture based on a zero-trust framework. HCLTech will also transform workplace experience for the client.

Ahold Delhaize USA, the parent company of five US omnichannel grocery brands, which together comprise the largest grocery retail group on the East Coast, has further strengthened its partnership with HCLTech to modernize, support and transform technology for its network, including over 2,000 retail stores. HCLTech's Managed Network Services, Retail IT Operations and Mainframe Services will enable the grocery retail group to drive transformation, improve operations resiliency and enhance automation, AI-led efficiency and user experience.

A leading Europe-based real estate company selected HCLTech to elevate their productivity and **customer experience**. HCLTech's full suite of Digital Foundation and Digital Business services and next-generation platforms and integrated solutions powered by GenAI will help the client automate and streamline services, systems and processes.

A leading US-based financial services provider expanded its digital transformation partnership with HCLTech to manage and **transform IT infrastructure operations** and workplace experience. HCLTech will provide managed services to significantly enhance the experience for the client's members worldwide.

A Fortune 100 technology company selected HCLTech as its strategic partner to set up Technical Assistance Centers (TAC) in Asia. HCLTech will also help the client transform current operations in these locations with an **automation** and outcome-centric solution that will enhance customer experience and optimize operational efficiency.

A leading US-based energy infrastructure company selected HCLTech to enhance user experience and enable faster time-to-market. The outcome-based engagement model will leveraging HCLTech's **IT and engineering** capabilities as well global delivery network.

Banco do Brasil, a leading bank in Brazil, which is also one of the largest financial institutions in Latin America, selected HCLTech to implement Salesforce's Slack integrated with WhatsApp as part of their ongoing customer experience transformation journey.

State Bank of India selected HCLSoftware to automate its digital marketing program. The bank will deploy HCL Unica martech platform to transform its customer interaction framework and deliver hyper-personalized customer experiences while ensuring data privacy.

A US-based financial services company selected HCL Software's **BigFix** platform as part of its core infrastructure strategy for servers and workstations. The client will also leverage HCL MyCloud to optimize cost and operational efficiency.

A leading US-based financial services company selected HCLSoftware to deploy **Action's DataConnect** data integration platform to reduce vulnerabilities, increase speed of data movement, reduce workload remediation time and boost operational efficiency.

A leading Europe-based food company selected HCLSoftware's **BigFix** platform to enhance security posture and reduce vulnerabilities, while boosting operational efficiency.

GenAI Deal Wins

A global technology major selected HCLTech to implement a GenAI-based solution for gaming review analysis that automated data collection and sentiment analysis, resulting in workload reduction and a 119% increase in game reviews.

A global technology major has selected HCLTech to deploy GenAI to transform its content life cycle management and processes. HCLTech will help the client to automate its content processing with intelligent features such as persona filters.

A Europe-based telecom OEM has partnered with HCLTech to kickstart its GenAI journey by deploying LLMs to design, build and integrate technology solutions.

An APAC-based financial services major selected HCLTech to help accelerate its enterprise-wide data and AI transformation. HCLTech will create a new framework that enables the bank to treat data as a product and reduce the time needed to extract insights by half.

A Europe-based financial services major has partnered with HCLTech to develop and manage its next-gen low latency electronic trading platform and compliance analytics platform by leveraging GenAI.

A leading Indian educational institution is leveraging HCLTech's GenAI capabilities to accelerate primary and adult education in rural India. HCLTech will help the client in creating online education content and animation along with Android App for TV and tablet through a multi-modal GenAI-based platform.

A leading US-based financial services company selected HCLTech to build a GenAI platform with robust AI governance and LLM Ops.

A global mining major selected HCLTech to build an AI-assisted cataloging solution with Azure IoT implementation. This will enable the client to tag different devices in the field, understand the type of data, origin etc. for further model training and development. The client will achieve appx. 50% improvement in edge devices support and appx. 60% improvement in reducing operational cost of managing edge devices.

A US-based hi-tech major has engaged HCLTech to create and maintain a GenAI-as-a-service (GaaS) platform. This includes the implementation of a GenAI operations platform aimed at streamlining AI processes and enhancing operational efficiency.

An US-based automotive major has collaborated with HCLTech to develop AI models and actionable insights for customer segmentation and dynamic price optimization using GenAI.

A US-based insurance provider selected HCLTech to transform its contact center and back office operations for claims management through GenAI. HCLTech AI Force™ DigitalCOLLEAGUE suite of products will help the client to optimize the workflows, boost operational flexibility and enhance efficiency, accuracy and overall service quality in managing healthcare claims.

Client Comments

"At apoBank, we welcome the expansion of our partnership with HCLTech. In addition to world-class capabilities in IT infrastructure and Cloud managed services, HCLTech has extensive Avaloq expertise and deep understanding of apoBank. This makes HCLTech the ideal partner for apoBank."

- **Thomas Runge, COO and Member of Executive Board, apoBank**

"It is with great pleasure and excitement that we announce this agreement with HCLTech, with whom we share a decade-long partnership in core Engineering and R&D services. I am confident that our collaboration will enhance Olympus' engineering capabilities and unlock new innovations that enable quality healthcare through technology."

- **Andre Roggan, Chief Technology Officer, Olympus**

"In a rapidly evolving digital landscape, HCLTech has emerged as a valuable ally for us. Their vast expertise facilitated an efficient transition and a quick ramp-up to steady-state reliability. Since then, our partnership has accelerated digital innovation, notably enhancing our digital services and support. HCLTech stands as a pivotal partner, propelling us toward redefining digital excellence."

- **Carl Brisco, SVP & Chief Technology Officer, The ODP Corporation**

"Being in the QSR industry, Papa Johns' focus is heavily on unit economics, so per store profitability is crucial and that compels our technology team to come up with cost-efficient solutions that can scale across the brand's footprint. Papa Johns and HCLTech are proud of our Commerce platform transformation program which supports our aggregators and digital call center integrations."

- **Sarika Attal, VP - Enterprise Architecture and Technology Services, Papa Johns**

Supercharging progress for our communities and the planet

India-focused initiatives through HCLFoundation

- 23,000+ traditional crop farmers supported with paddy and maize seeds under the Food Security Program
- 16,800+ consultations provided through Mobile Health Clinics

- 3,000 people sensitized on sustainable waste management practices
- 22,500+ kgs of waste managed

- 1,800+ kg of coastal and marine debris retrieved with engagements from community members, forest department, coast guard and NGO partners

- 6,000+ government school students supported by HCLFoundation recorded pass percentage of 82% for class 10 and 88% for class 12
- 700+ PWDs provided with various services, including financial support, health and assistive devices

Power of One

- 3,900+ employee volunteering hours clocked
- 1,990 units of blood donated by HCLTechies across 8 cities

Global Initiatives

Winners of the first edition of the HCLTech Americas Grant for Climate Action were announced in April. Brazil-based Argilando won top honors, while Canada-based No. 9 Contemporary Art and the Environment and US-based The Longleaf Alliance were the runners-up.

- HCLTech's Brazil CSR Council members supported people affected in massive floods in the Rio Grande do Sul state.
- HCLTech volunteers took part in shoreline cleanup activity in Mississauga/Toronto.
- HCLTech France, in partnership with Apprentis d'Auteuil, are supporting upskilling of French youth with coding programs.
