Commenting on the performance for Q3 & 9M FY25, Mr. Sumit Shah – Chairman and Global CEO, Renaissance Global Limited said:

"We are pleased to report a healthy performance during the quarter, with revenues and adjusted EBITDA growing over by 18.3% and 32.8%, respectively in Q3 FY25, from continuing operations. Our efforts towards improving margins have led to our adjusted EBITDA margin reaching 9.5% in Q3 FY25.

During the quarter, we launched WithClarity.in in partnership with With Clarity USA, bringing customizable lab-grown diamond jewellery to the Indian market. This strategic move taps into growing demand for sustainable fine jewellery, expanding our footprint while enhancing our premium offerings. The overwhelming response to With Clarity's shop-in-shop experience at IRASVA gives us confidence in the potential of this segment, paving the way for future expansion and value creation.

I am pleased to share that the test phase of the Enchanted Star collection, our lab-grown diamond jewellery collection, was highly successful, confirming strong consumer demand for our marquee jewellery pieces. Given the exceptional response, we are now moving forward with a full-scale rollout in partnership with our major US retailer. This expansion will allow us to capture significant growth opportunities in the fast-growing lab-grown diamond segment and further strengthen our Licensed Brands business in the coming quarters.

Additionally, we made a strategic minority investment in Jean Dousset Jewelry LLC, a distinguished U.S.-based jeweler renowned for its bespoke craftsmanship and pioneering work in lab-grown diamond jewellery. This partnership aligns with our commitment to sustainable luxury and enhances our presence in the premium jewellery segment. By leveraging our extensive B2B distribution network and established retail relationships, we aim to support Jean Dousset's expansion and capitalize on the growing demand for ethically crafted fine jewellery.

Looking ahead, we remain committed to strengthening our brand portfolio, expanding our presence in high-growth jewellery segments, and leveraging strategic investments to drive sustainable long-term growth"

Substantial Cost Savings Program

- We have launched an extensive cost optimization initiative towards the end of Q2, extending into Q3, expected to deliver **annual savings of ₹40-50 crore**.
- This program includes:
 - **Process Re-engineering** to drive greater operational efficiency and streamline our workflows.
 - **Capacity Rationalization** to align resources precisely with demand, improving our cost structure.
 - **Interest Expense Reduction** as we anticipate a meaningful decline in interest costs, leveraging proceeds from the sale of our plain gold business and an expected favorable interest rate environment with announced rate cuts from the FED.
- **One-Time Restructuring Costs:** These initiatives include a one-time restructuring expense in Q2 and Q3 FY25, laying the groundwork for sustainable, long-term savings and enhanced profitability.
- **Importantly, these savings exclude the impact of the acquisition,** ensuring that the benefits derived are purely from internal cost-optimization efforts.
