Subject: Rajnish Wellness Limited to open 33 new Dava Discount plus Grocery Supermarkets across India with an estimated investment of Rs. 50 Crore

Scrip Code: 541601

Dear Sir/Madam,

Pursuant to Regulation 30 of the Securities & Exchange Board of India (Listing Obligation and Disclosure Requirements) Regulations, 2015, Rajnish Wellness Limited (RWL), a leading player in the Indian ayurvedic and ethical wellness market, is announcing a significant expansion plan to strengthen its market presence. The company will invest a substantial Rs. 50 Crore to open 33 new Dava Discount + Grocery Super Market stores across India, in addition to its existing network of over 100+ Dava Discount pharmacy franchises.

Our company has ambitious plans to establish 33 shops which align with our vision of providing accessible and affordable healthcare solutions to people across India. These shops will operate on a much larger scale than traditional supermarkets, making them a valuable asset for our company in the years to come, said Rajnish Kumar Singh, Promoter.

The Dava Discount + Grocery Super Market stores will combine medical and grocery services under one roof, providing customers with a one-stop shop for their daily essentials. Rajnish Wellness's expansion is expected to create significant job opportunities in the regions where the new stores are located.

In addition to the new stores, Rajnish Wellness has also secured a historic contract with the Indian Railways to develop 270 Dava Discount stores across West Bengal. This Eastern Railway contract has been divided into three categories based on store size, location, and expected footfall. The platinum category includes the largest stores in high-traffic areas, the gold category for medium-sized stores in areas with significant foot traffic, and the silver category for smaller stores in less crowded areas or smaller railway stations. This categorization helps ensure that the Dava Discount stores are appropriately sized and located to meet the needs of different customer segments and railway stations. These stores will cater to railway passengers and personnel, providing them with easy access to essential medicines and healthcare products.

Our partnership with the Indian Railways can be beneficial for Rajnish Wellness. This partnership is expected to drive significant growth and substantially boost the company's revenue and enhance its market position.

About Rajnish Wellness Limited
