The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding fluctuations in earnings, our ability to manage growth, competition (both domestic and international), economic growth in India and abroad, ability to attract and retain highly skilled professionals, time and cost over runs on contracts, our ability to manage our international operations, government policies and actions regulations, interest and other fiscal costs generally prevailing in the economy. The Company does not undertake to make any announcement in case any of these forward looking statements become materially incorrect in future or update any forward looking statements made from time to time by or on behalf of the Company.

## Q2 & H1 FY25 Update

### **Management Commentary**

#### Commenting on the results and performance for Q2 & H1 FY25, Mr Satyen Patel, Managing Director of Sahyadri Industries Limited, said:

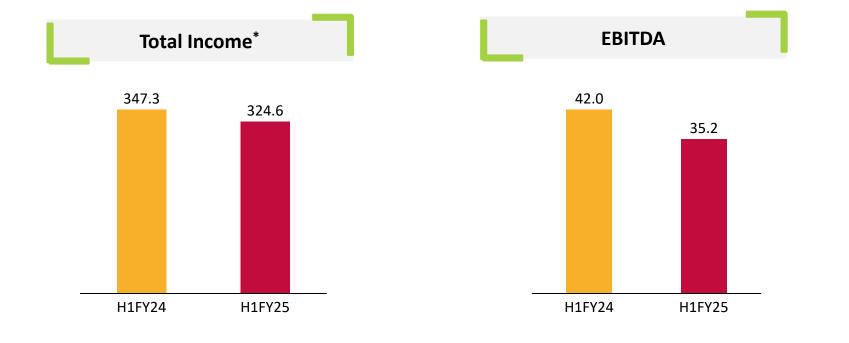

"The total income from the first half of the fiscal year declined by 6.6% to Rs 324.6 crore on a YoY basis. The decline is attributed towards lower offtake in volumes impacted by extended monsoon spanning across different parts of the country. The EBITDA has witnessed a de-growth of 16.3% to Rs 35.2 crore in H1FY25 as compared to corresponding period last year. The decline in EBITDA is primarily due to rise in ocean freight expenditure coupled with lower utilisation levels. The company registered 73% capacity utilisation H1FY25 against 77% in H1FY24. The EBITDA margins stood at 10.8% in H1FY25.

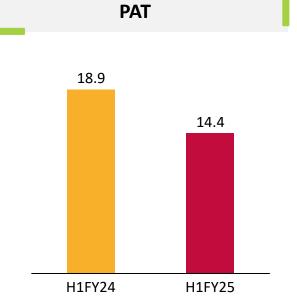

The on-ground challenges such as higher inflation and sluggish demand continues to persist affecting the overall performance of the company. Going ahead, we shall continue to optimise our capacities and focus on better cost control measures. We envisage demand revival in future."
