Management commentary:

Commenting on the results, Dr. Manoj Kumar Jhawar, Chairman & Managing Director, PTC

India Ltd., said

"Growth has been witnessed across all segments of electricity trading in the third quarter of FY -25. has been observed. The growth has been driven by short-term segments (bilateral & exchange) of electricity trading. The short term constitutes 59% of PTC's total trading volume for 9M indicating increased preference of market participants for the shorter end contracts including bilateral market.

We expect to see hardening of electricity demand in sync with GDP growth rate. The new business drivers for the sector will be renewable energy, storage solutions and consulting offerings. We expect to penetrate deeper into the opportunity space. Identified focus on growth drivers will maintain our leadership position."

About PTC India Limited

PTC India Ltd., a Government of India initiative, is the pioneer in starting a power market in India. The Company has maintained its leadership position in power trading since inception. PTC has also been mandated by the Government of India to trade electricity with Bhutan, Nepal and Bangladesh.

The trading activities undertaken by PTC include long term trading of power generated from large power projects including renewables as well as short term trading arising as a result of supply and demand mismatches, which inevitably occur in various regions of the country.

The Company is credited with a number of products in the electricity trading market to meet the divergent needs of the customers driven by the vision of shaping a vibrant power market, PTC has been providing value-added services to its clients. The leadership position has been built on the foundation of trust and reliable partnering. The electricity traded from cross-border resources is a significant component of the total electricity traded by the Company.

PTC is a unique example of a successful public-private partnership with major PSUs of the Ministry of Power, Government of India as promoters and a widely held ownership interest. The diverse composition of its Board of Directors includes eminent people as Independent Director.
