Dear Sir/Madam,

Sub : Presentation on the Unaudited Financial Results of the Company for the quarter and half year ended September 30, 2024
Ref : Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015

With reference to subject matter and pursuant to Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulation 2015, we are enclosing herewith presentation on the Unaudited Financial Results of the Company for the quarter and half year ended September 30, 2024.

The aforesaid presentation would also be available on the website of the Company viz; www.harshaengineers.com in accordance with Regulation 46 of SEBI (Listing Obligations and Disclosure Requirements) Regulation 2015

Kindly take the same on your records.

Thanking you,

Yours faithfully,

FOR HARSHA ENGINEERS INTERNATIONAL LIMITED

Kiran Mohanty
Company Secretary and Chief Compliance Officer

Revenue - Engineering CONSOLIDATED

EBITDA - Engineering CONSOLIDATED

PAT - Engineering CONSOLIDATED

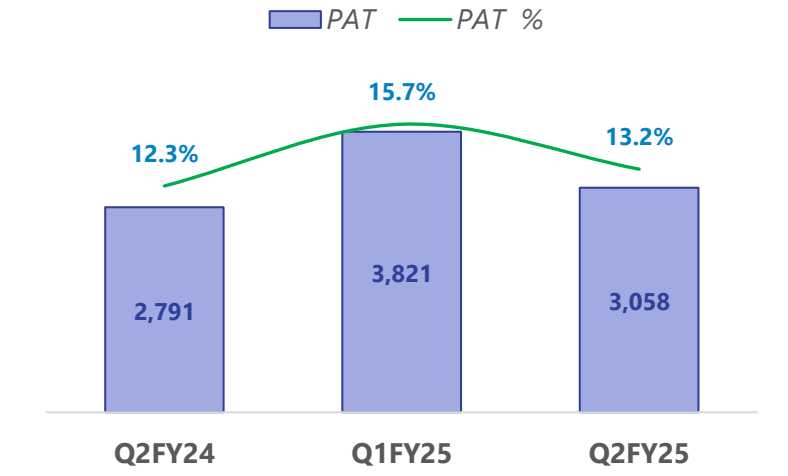

Revenue - Engineering INDIA

EBITDA - Engineering INDIA

PAT - Engineering INDIA

- On a consolidated basis, the performance of the Company in Q2 FY 25, though slightly lower than the management expectations, is still broadly in line, considering the past historical trend of Q2 performance being generally subdued.
- In Q2 FY 25, at a consolidated level, revenue from operations shows a modest growth of 3.9% over the corresponding Q2 of FY 24 and also a modest growth of 2.7% over Q1 FY 25. However, there is a slight compression in Q2 FY 25 margins as compared to Q1 FY 25, primarily driven by a reduction in the operating margins in the Engineering business. Similarly, H1 FY 25 topline is almost flat, as compared to H1 FY 24 top line, whereas the H1 FY 25 PAT is showing around 45% growth over H1 FY 24 PAT.
- The Q2 FY 25 top line of Harsha India Engineering business has remained more or less flat as compared to Q2 of FY 24 and shows a slight degrowth as compared to Q1 FY 25. While YOY margin has grown significantly in Q2/H1 FY 25, there is a reduction in the margin on QOQ basis in Q2 FY 25 primarily attributable to the impact of price pass through and continued slowdown in key markets of Europe and Americas.
- The Bronze Bushing business reported a continued strong growth in Q2/H1 FY 25. However, the business from Japan based customers, Stampings and in the large size Bearing Cage segments remained subdued.

- Performance of China in Q2 FY 25 continues to be satisfactory in line with the expectations showing positive trend. While Romania continues to reel under pressure owing to continued softness in demand from Wind and Industrial Sector, resulting into a degrowth in top line in Q2 FY 25 and continued operating losses. Thus, in Q2 FY 25, there is a combined net loss of around Rs. 4 crores in the overseas subsidiaries.
 - New product development at India level continues to be strongly positive. Further, the positive impact of “China + 1” factor in India is expected to be more prominent in Q4 FY 25.
 - The Greenfield project implementation is on track and is targeted to be commissioned by Q4 FY 25.
 - In Q2 FY25, Solar has continued giving positive results and it included revenue of O&M services for past period after receiving necessary qualification and approval.
-

Company Overview

Largest manufacturer of precision bearing cages in India*

6.5% of the market share in the global organized bearing brass, steel and polyamide cages market^

4 strategically located manufacturing facilities with various warehouses at different locations worldwide – supplying products to over 25 countries across 5 continents

Supplies products to each of the top 6 global bearing manufacturers^^

Capability to manufacture bearing cages with diameters between 20mm to 2,000mm with >7,500 products manufactured since incorporation

Diversifying into complex and specialized precision stamped components

50-60% of domestic market share

India

China

Romania

TIMKEN

Bearing cages | ~US\$5.2bn market expected to grow at ~6.4%

Bearing cages form an important component within Bearings

Bearing Cages are critical components requiring highest lead time, technical & tooling expertise

Separate rolling elements, reduce friction & heat generated in bearing

Keep the rolling elements evenly spaced optimizing load distribution on the bearing

Cages offer high rigidity, strength

High heat resistant operating conditions

Small portion of total cost of bearing - The global bearing cages is estimated at about 5% of the global bearings market

Bearing cages have increasing usage across key fast-growing end user industries

Breakup of Bearing Market based on Application (USD bn)

Segment / Market Size	2022 F	2029 F	% share 2021	CAGR %
Automotive	24.8	37.0	22.5%	5.8%
Aviation & Aero	21.9	34.0	19.7%	6.5%

Construction	15.2	24.2	13.6%	6.8%
Mining	12.3	19.3	11.1%	6.6%
Electronics	10.0	15.5	9.0%	6.5%
Agriculture	6.2	9.5	5.6%	6.3%

High growth bearing cages market

Global Bearing Cages Market (USD mn)

India market is expected to grow at a **CAGR of 8.3% during 2021 to 2029.**

Supplies to each of the top 6 global bearing manufactures

Global bearing companies have **steadily increased outsourcing** manufacture of bearing cages

Given the **complexity of bearing cages production**, customers prefer continuing with **reliable vendors** for a long period for **consistency of quality**

Different designs of bearing cages with diverse applications

Full-service capabilities under one roof

Tooling Design

- Expertise to design and develop **advance tooling** inhouse which enables HEIL to manufacture **precision products**
- Engaged with customers to in product development process from **design stage**

Tool Manufacturing

- Comprehensive tooling, testing and measurement infrastructure
- **Dedicated tool production facilities** at Changodar have strengthened HEILs ability to meet customer demands

Process Design & automation

- **Decades of experience** – technologically driven manufacturing process enables HEIL to provide solutions in a **cost-effective manner**
- In-house automation has helped to **optimize O&M expenses, reduce production cycle time** and **minimize capex**
- *Indigenously designed vision camera system detects defects that are not possible to detect with naked eye*

Product Development

- Expertise in product development - product development cell and innovation centre

Key Strategies going forward

-  **Enhance market leadership in bearing cages and customer base expansion**
-  **Growing bronze bushings and specialised component segment**
-  **Increased focus on developing products suited to capture market opportunity in the growing EV segment**
-  **Retain and strengthen technological leadership through continued focus on development and automation**
-  **Focus on growth by partnerships with customers and opportunistic inorganic acquisitions**
-  **Focus on increasing operational efficiencies to improve returns**

THANK YOU
