JTL Industries Secures 3,000 Metric Tonnes GI Pipe Order from PHE Department, Jammu under Jal Jeevan Mission

Chandigarh, 5th February 2025: JTL Industries Limited (“JTL” or “The Company”), is a fast-growing dynamic steel tube manufacturing company which specializes in producing ERW Black Pipes, Pre-Galvanized and Galvanized Steel Pipes, large diameter tubes and pipes, and hollow structure.

JTL Industries is pleased to announce the receipt of a significant order to supply 3,000 metric tonnes of Galvanized Iron (GI) pipes of assorted sizes. The order, valued at ₹24 crores, has been placed by the Public Health Engineering (PHE) Department, Jammu, as part of the Jal Jeevan Mission (JJM). The delivery is scheduled to be completed within the next 30 days.

Launched by Prime Minister Narendra Modi on August 15, 2019, JJM has transformed rural water access, increasing tap water coverage from 3.23 crore (17%) households at launch to 15.44 crore (79.74%) as of February 1, 2025. The government has now extended JJM until 2028 with an enhanced outlay, as the final 20% coverage requires significant infrastructure investments, advanced execution strategies, and greater last-mile connectivity efforts. The Jal Shakti Ministry estimates an additional ₹4 lakh crore will be required to complete the mission, with ₹67,000 crore allocated for FY 2025-26 alone.

Given these developments, JTL Industries, as a key supplier in JJM, stands to benefit significantly. The company has a strong track record in delivering high-quality GI pipes for water infrastructure projects and is well-positioned to capture additional opportunities arising from the government’s renewed focus on quality, sustainability, and long-term water security.

Commenting on the above development, the management of the Company said:

“ We are pleased to announce this significant order from the PHE Department, Jammu, under the Jal Jeevan Mission. The extension of JJM presents significant opportunities, and with our established track record as a trusted supplier to the government, JTL is well-positioned to support its next phase. Our proven ability to meet diverse requirements with high-quality GI pipes, backed by our added manufacturing capacity, and our successful history in government projects, ensures we are ready to contribute to large-scale infrastructure initiatives moving forward. As investments in water infrastructure rise, we see significant opportunities to create long-term stakeholder value, enhancing our visibility in the sector and further solidifying our commitment to India’s water security and rural development.”

About JTL Industries Limited

JTL Industries Limited is amongst the fastest growing steel tube manufacturers, with a Registered office located in Chandigarh. The company has manufacturing facilities in Punjab, Maharashtra, and Chhattisgarh. The cumulative capacity of the company is ~6,86,000 MTPA for pipe manufacturing and ~3,00,000 MTPA is backward integration. The company is a recognized Star Export House, and its product offering includes GI Pipes, MS Black Pipes, Hollow-sections, and Solar Structures amongst others which cater to diverse industrial and infrastructural applications. All the products are available in hot dip galvanized, pre-galvanized and without coated (MS black) grades.
