Vice Chairman and Managing Director of the Company, Mr Anil Jain said:

In the third quarter of FY25, the Company reported a flattish performance with improvement in EBITDA margin. In the past nine months the Company generated substantial cash from operations to deleverage and provide for future growth.

The Company anticipate recovery in consumption, increased government capital expenditure, supported by strong agricultural production and a robust services sector going forward. We continue to focus on the trajectory of retail sales with better cash flow and consistent improvement in operating margin.

We expect strong performance in the next few quarters in most of our key areas including revenue from piping, solar systems solutions and international sales. Despite the challenges in the broader economic environment, the Company is well-positioned for continued growth with focus on improving margins and cash flow.
