CHAIRMAN'S MESSAGE

Another year of market-leading performance! Through a dedicated and forward-looking strategy, we have successfully established a strong groundwork for the promising success that lies ahead.

The hospitality industry has witnessed a year of remarkable and exponential growth, and Praveg has once again positioned itself as a frontrunner in terms of performance. Throughout this year, our company has orchestrated a series of remarkable events and exhibitions, solidifying our standing as an industry leader. Moreover, our expansion efforts within the hospitality sector have been particularly noteworthy, marked by the development of exceptional resorts such as Tent City Varanasi, Praveg Beach Resort at Lighthouse Beach, and Jampore Beach, Daman, as well as Praveg Beach Resort at Chakratirth Beach and Ghoghla Beach, Diu.

At the core of our endeavours has been a steadfast commitment to offering a diverse array of distinctive stay and budget options. This approach has not only fortified our market position but has also distinctly set us apart from our contemporaries. Our dedication to catering to a wide spectrum of preferences aligns seamlessly with our ongoing efforts to establish ourselves as a standout choice in the industry.

As a responsible corporate entity, we hold our commitment to operating with integrity and an unwavering sense of purpose. This commitment is demonstrated through our close collaborations with stakeholders. Our aim is to foster an environment where our company's operations resonate with a profound sense of purpose, one that positively impacts the communities we are privileged to serve. By doing so, we play our part in contributing to the overall development of the nation.

In this endeavor, we invite all stakeholders to join hands and work collectively to bring forth tangible and meaningful benefits to the communities we touch. Together, we can make a lasting difference, enhancing the lives of those we engage with while paving the way for a brighter and more promising future.

I take this opportunity to thank the Board of Directors, Valued Shareholders, Bankers, Financial Institutions, Business Partners and other Stakeholders for their continued guidance and support.

With best wishes,

Sincerely,

Vishnukumar Patel
Chairman

MANAGING DIRECTOR'S MESSAGE

It gives me great pleasure to introduce to you our 2022-23 Annual Report. This year has been truly exceptional for all of us. We have demonstrated increased resilience and enthusiasm, and our confidence in our abilities is evident not only through our impressive figures but also through the unwavering trust our stakeholders have bestowed upon us. I express my heartfelt gratitude to our Valued Partners, dedicated Team Members, and all other Stakeholders whose relentless collaboration made all of this possible.

We have grown at an incredible pace during this year. From ₹ 45 crore turnover last year to a remarkable ₹ 84 crore this year, from profit worth ₹ 10 crore last year to ₹ 28 crore this year, what a year! We are bolstering our hospitality portfolio. By March 2024, the Company envisions to have over 12 operational resorts and 700+ rooms throughout India under its brand name.

It is a pleasure to share with you all that the Company is marching forward in the direction of achieving its Vision 2028. Nonetheless, we recognize that there is still a significant path to tread in securing a better and more promising future. We are excited to embark on this journey together with our employees, families, and the communities we are dedicated to serving.

With best wishes,

Sincerely,

Paraskumar Patel

ANNEXURE II

**SECRETARIAL AUDIT REPORT
FOR THE FINANCIAL YEAR ENDED ON MARCH 31, 2023**

FORM NO. MR-3

[Pursuant to section 204(1) of the Companies Act, 2013 and
Rule 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
PRAVEG LIMITED
(formerly known as Praveg Communications (India) Limited)

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by Praveg Limited (formerly known as Praveg Communications (India) Limited) (hereinafter called 'the Company'). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion read with Annexure - I forming part of this report, the Company has, during the audit period covering the financial year ended on March 31, 2023, complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter.

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on March 31, 2023 according to the provisions of:

- i. The Companies Act, 2013 ("the Act") and the rules made there under as applicable;

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

OVERVIEW

This Management's Discussion and Analysis Report discusses our financial and operating performance, business indicators and outlook from management's point of view. This should be read in conjunction with the Company's financial statements, the schedules and notes thereto and other information included elsewhere in the Integrated Report.

INDIAN ECONOMIC OVERVIEW

The Indian economy showed rapid growth in 2022, the second consecutive year of strong recovery following deep economic contraction in 2020 due to the COVID-19 pandemic. According to India's National Statistical Office, the First Advance Estimate for real GDP growth for FY2022-23 is 7.0% year-on-year (y/y).¹

According to estimates from the International Monetary Fund (IMF), India's economy surpassed that of the United Kingdom in terms of size in 2022 and rose to become the fifth largest in the world.

The Indian economy has remained resilient despite the ongoing global headwinds caused by external factors like post-pandemic spillovers, supply chain disruptions due to the ongoing Russia-Ukraine conflict, and potential recessionary pressures facing developed economies.²

INDUSTRY STRUCTURE AND DEVELOPMENTS

Tourism & Hospitality

India's rich and exquisite history, culture, and diversity are showcased through tourism while also providing significant economic benefits. The consistent efforts of the central and the state governments have helped the tourism industry to recover from the covid-19 pandemic shock and operate at the pre-pandemic level. The country's rising middle class and increasing disposable income has supported the growth of domestic and outbound tourism.

The travel market in India is projected to reach US\$ 125 billion by FY27 from an estimated US\$ 75 billion in FY20. The Indian airline travel market was estimated at ~US\$ 20 billion and is projected to double in size by FY27 due to improving airport infrastructure and growing access to passports. The Indian hotel market including domestic, inbound and outbound was estimated at ~US\$ 32 billion in FY20 and is expected to reach ~US\$ 52 billion by FY27, driven by the surging demand from travelers and sustained efforts of travel agents to boost the market.³

Events & Exhibitions

Exhibitions and events are some of the critical enablers and triggers of the economy. With India being one of the fastest-growing economies, the government initiatives to help enterprises in different industries are expected to improve the need for events and exhibitions in the country.

The Indian event and exhibition market was valued at USD 3,674.95 million in 2022, and it is expected to reach USD 7,550.05 million by 2027, registering a CAGR of 12.43% during the forecast period of 2022-2027.⁴

OPPORTUNITIES AND THREATS

The Company's businesses have ample opportunities. Our more than 20 years of experience in providing end-to-end services have made us a strong and well-recognized brand. Capabilities to attract and retain quality manpower, financial strength to meet the evolving demands by investing in infrastructure and personnel development and our ethical and professional business practices have made us the most preferred and trusted business associate/partner for our stakeholders and the

industry we operate in. Our philosophy of constantly broadening our horizons by venturing into key areas has ensured upward growth for the Company. At this moment, the Company has successfully proven its capabilities in Hospitality, Tourism apart from the Events and Exhibitions.

Our business deals with prime challenges like intensified competition and evolving marketplace. However, the Company's proven work records, capabilities and ability to adapt persuade our clients to collaborate with us.

SEGMENT-WISE OR PRODUCT WISE PERFORMANCE

Praveg Limited is the leading Tourism & Hospitality and Event & Exhibition Company with more than 20 years of proven experience.

Tourism & Hospitality

In the realm of tourism, our company, Praveg, has been dedicated to promoting the joys of travel through a series of diverse tourism events ever since its inception. Our widely acclaimed publication, 'Praveg's Tourism One,' a monthly tourism trade magazine, has gained widespread circulation across India, further strengthening our commitment to the tourism industry.

Taking a bold stride into hospitality, we embarked on a journey that began with the management and operation of the White Rann Resort in Dhordo, Kutch, during the Rann Utsav in 2015, in collaboration with the Tourism Corporation of Gujarat Limited. This endeavor saw the resort being bestowed with the esteemed 'Deluxe' status by the Ministry of Tourism, a testament to the high-quality experience we offer.

The journey continued with the inauguration of Tent City Narmada, adjacent to the Statue of Unity at Ekta Nagar, in partnership with the Tourism Corporation of Gujarat Limited. Since its commencement in 2018, this resort has rapidly gained a reputation as a preferred conference destination, boasting state-of-the-art conference amenities and an impressive array of 200 all-weather tents. Over the course of four years, the resort has played host to numerous grand government events, graced by the presence of distinguished VVIP dignitaries such as the Hon'ble Prime Minister Shri Narendra Modi, Hon'ble President, State Heads, and other high-ranking government officials.

In the current year, our company has proudly introduced two new resorts. The first, Tent City Varanasi, located on the banks of the revered River Ganga, was inaugurated in January 2023 by none other than the Hon'ble Prime Minister Shri Narendra Modi and the Hon'ble Chief Minister of Uttar Pradesh, Shri Yogi Aadiyanath. This new addition has garnered immense appreciation for its luxurious accommodations, top-tier amenities, and an unparalleled exclusive setting.

The second, Praveg Beach Resort, nestled on the picturesque Lighthouse Beach in Daman, is another jewel in our crown. With its beach-facing location and an array of exclusive features, it has quickly become a magnet for tourists from all corners of India.

Looking ahead, our company is poised for even greater expansion in the hospitality sector. Our forthcoming projects include the Praveg Beach Resort at Jampore Beach, Daman, and the Praveg Beach Resort at Chakratirth Beach and Ghoghla Beach, Diu, in partnership with the Department of Tourism, DNH & DD. Collaborating with the Tourism Corporation of Gujarat Limited, we are also set to establish a Resort and Theme Destination at Adalaj, Gujarat.

Our sights are set on a wider horizon as we prepare to enrich our hospitality portfolio by creating our own world-class resorts in Udaipur, Ranthambore, Jawai Dam, and Velavdar in the foreseeable future.

In conclusion, our journey has been one of growth, innovation, and unwavering commitment to enhancing the tourism and hospitality landscape. With each step forward, we strive to create unforgettable experiences, and we invite you to join us on this remarkable voyage.

Events & Exhibitions

Praveg has been organizing and managing exhibitions, events and campaigns in India and abroad. The Company has designed, executed and managed more than 1000 major events and 2000 exhibitions all over the world.

Marching ahead with time, Praveg will carry forward its legacy of success by creating its niche in the news genre. The Channel, which will soon be commencing its journey as a Gujarati News Channel, is anticipated to transform into a national news channel.

OUTLOOK

We believe the Company has a great deal of opportunities for future growth. There is enormous untapped potential across our established brand equity and diversified product portfolio and we continue to take several steps towards capitalizing on these growth drivers. The Company also continues to converge on improving business capabilities and enhancing growth levers.

The forthcoming period is set to witness robust growth primarily driven by domestic demand, and this momentum is projected to remain strong throughout FY 2023-24. While international travel is in the process of recovery, there remains ample room for further demand escalation. A particularly noteworthy aspect is India's G20 Presidency, coupled with the hosting of international events like the ICC Men's World Cup, which is set to create an additional surge in demand for accommodations in the cities playing host.

The growth trajectory of India's service sector, paralleled by an upswing in disposable incomes, is expected to translate into heightened demand for both corporate travel and leisure getaways. As we peer into the near future, a plethora of opportunities is on the horizon for distinct segments within the hospitality industry in India. These encompass leisure travel, weddings, conferences, events, airline crew layovers, and corporate travel, each poised to experience further expansion.

In light of these dynamics, our company is perfectly poised to seize these opportunities and propel substantial growth. By harnessing our inherent strengths, refining our services, and aligning with the evolving needs of our customers, we have the capacity to not only optimize our market share but also drive profitability in the burgeoning Indian hospitality arena. Our strategic positioning, combined with a steadfast commitment to excellence, will undoubtedly catalyze our journey towards realizing untapped potential and realizing significant success.

RISKS AND CONCERNS

As the Company is constantly evolving and expanding, much of our risk mitigation focus during the year has been on the risk areas like Future-fit Portfolio Transformation, Adaption to the Changing Market Trends and Technology, etc.

Risk management is integral to our Company's strategy and to the achievement of Praveg's long-term goals. Our success as an organisation depends on our ability to identify and exploit the opportunities generated by our business and the markets we operate in. In doing this, we take an embedded approach to risk management, which puts risk and opportunity assessment at the core of the Board's agenda.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Internal Audit reports are regularly reviewed by the management. The Company has a proper and adequate internal control system commensurate with the size of the business operations geared towards achieving efficiency in its various business operations, safeguarding assets, optimum utilization of resources and compliance with statutory regulations. Efforts for continued improvement of the internal control system are being consistently made in this regard.

INDEPENDENT AUDITOR'S REPORT

To,
The Members,
Praveg Limited
(Formerly known as Praveg Communications (India) Limited)
Ahmedabad

REPORT ON THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

OPINION

We have audited the accompanying standalone financial statements of Praveg Limited (Formerly known as Praveg Communications (India) Limited) ("the Company"), which comprise the Balance Sheet as at March 31, 2023, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter collectively referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

BASIS FOR OPINION

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Companies Act, 2013 (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report.

We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report. For each matter below, our description of how our audit addressed the matter is provided in that context described hereunder.

We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the standalone financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the standalone financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying standalone financial statements;

- 1) Accuracy of recognition, measurement, presentation and disclosures of revenues and other related balances in view of Ind AS 115 "Revenue from Contracts with Customers":-

Key Audit Matter	How our audit addressed this matter: -
<p>The revenue recognition involves certain key judgements such as identification of distinct performance obligations, determination of transaction price of the identified performance obligations, the appropriateness of the basis used to measure revenue recognized over a period as per Ind AS 115 and its presentation in financial statements.</p>	<ul style="list-style-type: none"> • We assess the company's process to identify distinct performance obligations, transaction price and appropriateness of the basis used to measure revenue recognized. Our audit approach consisted testing of the design and operating effectiveness of the internal controls and substantive testing as follows: • We evaluated the design of internal controls relating to revenue recognition. In the process, we selected samples of continuing and new contracts, and tested the operating effectiveness of the internal control, relating to identification of the distinct performance obligations and determination of transaction price & basis of measurement. We carried out a combination of procedures involving enquiry and observation, re-performance, assessment of basis of judgement and inspection of evidence in respect of operation of these controls. • Selected a sample of continuing and new contracts and performed the following procedures: <ul style="list-style-type: none"> - Identification and assessment of the distinct performance obligations in various contracts with customers. - Compared these performance obligations with that assessed and recorded by the Company in books of accounts. - We tested the samples selected depending upon the risk parameters, type and nature of revenue and compared with the performance obligations specified in the underlying contracts. - Evaluated the contracts on the basis of whether the contract is Fixed Price or Variable price contract, terms of obligation fulfilment, duration of contract and accrual points of revenue from such contracts. - We verified the proof of performance vis-a-vis obligation of performance as per the contracts and have compared the revenue recognized in accordance with that.

INFORMATION OTHER THAN THE STANDALONE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

The other information is expected to be made available to us after the date of this auditor's report. When we read the other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

MANAGEMENT'S RESPONSIBILITY FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS

and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by the Companies (Auditor's Report) Order, 2020 (the "Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

ANNEXURE 'B' TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Praveg Limited (Formerly known as Praveg Communications (India) Limited) of even date)

REPORT ON THE INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 ("THE ACT")

We have audited the internal financial controls over financial reporting of Praveg Limited (Formerly known as Praveg Communications (India) Limited) ("the Company") as of March 31, 2023 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING WITH REFERENCE TO THESE STANDALONE FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected.

Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2023

A Overview and Significant Accounting Policies

1 Corporate Information

These statements comprise the Standalone Financial Information of Praveg Limited (Formerly Known as Praveg Communications (India) Limited) (the Company). The Company is domiciled in India, incorporated on February 28, 1995 under the provisions of the Companies Act applicable in India and listed on Bombay Stock Exchange. The registered office of the company is located at 214, Athena Avenue, Behind Jaguar Showroom, S.G. Highway, Gota, Ahmedabad GJ 382481, India.

The Company is principally engaged in business of providing services of Advertising, Hospitality, Management and organization of Events and Exhibitions.

Statement of compliance

Standalone Financial Statements have been prepared in accordance with the accounting principles generally accepted in India including Indian Accounting Standards (Ind AS) prescribed under the Section 133 of the Companies Act, 2013 read with rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 as amended and relevant provisions of the Companies Act, 2013.

2 Significant Accounting Policies

2.1 Basis of preparation of financial statements

The separate financial statements of the company are prepared in accordance with Indian Accounting Standards (Ind AS), under the historical cost convention on the accrual basis as per the provisions of the Companies Act, 2013 ("the Act"), except for

- Financial instruments – measured at fair value;
- Assets held for sale – measured at fair value less cost of sale;
- Plan assets under defined benefit plans – measured at fair value
- Employee share-based payments – measured at fair value
- In addition, the carrying values of recognised assets and liabilities, designated as hedged items in fair value hedges that would otherwise be carried at cost, are adjusted to record changes in the fair values attributable to the risks that are being hedged in effective hedge relationship.

The Standalone Financial Statements have been presented in Indian Rupees (INR), which is the Company's functional currency. All financial information presented in INR has been rounded off to the nearest two decimals of Lakh, unless otherwise stated.

Current and non-current classification

An asset is classified as current when it satisfies any of the following criteria:

- It is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle or
- It is expected to be realised within 12 months after the reporting date; or
- It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.
- All other assets are classified as non-current.

A liability is classified as current when it satisfies any of the following criteria:

- It is expected to be settled in the Company's normal operating cycle;
- It is held primarily for the purpose of being traded
- It is due to be settled within 12 months after the reporting date; or the Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.
- All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current only

The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter. Accounting policies have been

consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

For the purpose of current/non-current classification of assets and liabilities, the Company has ascertained its normal operating cycle as twelve months.

2.2 Use of estimates and judgments

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the accompanying disclosure, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Actual results could differ from those estimates. The management believes that the estimates used in preparation of the financial statements are prudent and reasonable.

This note provides an overview of the areas where there is a higher degree of judgment or complexity. Detailed information about each of these estimates and judgments is included in relevant notes together with information about the basis of calculation.

The areas involving critical estimates or judgments are:

Areas	Note No.
• Useful life of intangible asset	2.3-B
• Impairment of financial assets	2.3-G
• Defined benefit obligation	2.3-Q
• Recognition of revenue and allocation of transaction price	2.3-J
• Current tax expense and current tax payable	2.3-N
• Deferred tax assets for carried forward tax losses	2.3-N

Estimates and judgments are regularly revisited. Estimates are based on historical experience and other factors, including futuristic reasonable information that may have a financial impact on the company.

2.3 Summary of Significant accounting policies

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all the periods presented in the financial statements.

A Property, plant and equipment

Recognition and measurement

The cost of property, plant and equipment comprises its purchase price net of any trade discounts and rebates, any import duties and other taxes (other than those subsequently recoverable from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use, including relevant borrowing costs for qualifying assets and any expected costs of decommissioning. Expenditure incurred after the property, plant and equipment have been put into operation, such as repairs and maintenance, are charged to the Statement of Profit and Loss in the year in which the costs are incurred. Major shutdown and overhaul expenditure is capitalised as the activities undertaken improves the economic benefits expected to arise from the asset.

It includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy based on Ind AS 23 – Borrowing costs. Such properties are classified to the appropriate categories of PPE when completed and ready for intended use.

Assets in the course of construction are capitalised in the assets under construction account. At the point when an asset is operating at management's intended use, the cost of construction is transferred to the appropriate category of property, plant and equipment and depreciation commences. Costs associated with the commissioning of an asset and any obligatory decommissioning costs are capitalised where the asset is available for use but incapable of operating at normal levels until a year of commissioning has been completed.

Property, plant and equipment except freehold land held for use in the production, supply or administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses, if any.

The Company has elected to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements on transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition.

Subsequent expenditure and componentization

Subsequent costs related to an item of Property, Plant and Equipment are included in its carrying amount or recognised as a separate asset, as appropriate, only when it is probable that the future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. Subsequent costs are depreciated over the residual life of the respective assets. All other expenses on existing Property, Plant and Equipments, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the Statement of Profit and Loss for the period during which such expenses are incurred.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Decommissioning costs

Decommissioning cost includes cost of restoration. Provision for decommissioning costs is recognized when the Company has a legal or constructive obligation to plug and abandon a well, dismantle and remove a facility or an item of Property, Plant and Equipment and to restore the site on which it is located. The full eventual estimated provision towards costs relating to dismantling, abandoning and restoring sites and other facilities are recognized in respective assets when the site is complete / facilities or Property, Plant and Equipment are installed.

Depreciation and useful life

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using written down value method as per the useful life prescribed in Schedule II to the Companies Act, 2013 except in respect of following categories of assets, in whose case the life of the assets has been assessed as under based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.

The management estimates the useful lives for the Property, Plant and Equipment as follows:

Assets	Useful life (Years)
Office Equipment	5
Furniture and Fixtures	10
Vehicles	8 to 10
Computer and Peripheral	3 to 6
Leasehold Improvements	Lower of useful life of the asset or lease term

The property, plant and equipment acquired under finance leases is depreciated over the asset's useful life or over the shorter of the asset's useful life and the lease term if there is no reasonable certainty that the Company will obtain ownership at the end of the lease term.

Major overhaul costs are depreciated over the estimated life of the economic benefit derived from the overhaul. The carrying amount of the remaining previous overhaul cost is charged to the Statement of Profit and Loss if the next overhaul is undertaken earlier than the previously estimated life of the economic benefit.

The Company reviews the residual value, useful lives and depreciation method annually and, if expectations differ from previous estimates, the change is accounted for as a change in accounting estimate on a prospective basis.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Leasehold Improvements assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and impairment losses. Amortisation is recognised on a straight-line basis over the lower of useful life of the assets or lease term.

Derecognition

An item of PPE is de-recognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in Statement of Profit and Loss.

**B Intangible assets**

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting year, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

Where intangible asset is acquired in a business combination, it is measured at its acquisition date fair value.

Internally generated intangible asset is recognised as an asset in the books only and only when the company develops an identifiable intangible asset and the following criteria are satisfied:

- It is technically feasible to complete the software so that it will be available for use
- Management intends to complete the software and use or sell it
- There is an ability to use or sell the software
- It can be demonstrated how the software will generate probable future economic benefits
- Adequate technical, financial and other resources to complete the development and to use or sell the software are available, and
- The expenditure attributable to the software during its development can be reliably measured.

Directly attributable costs that are capitalised as part of the intangible asset include employee costs and an appropriate portion of relevant overheads. Capitalised development costs are recorded as intangible assets and amortised from the point at which the asset is available for use.

Useful life and amortisation

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and impairment losses. Amortisation is recognised on a straight-line basis over the useful lives of the asset from the date of capitalisation as below:

Brands or Trademarks ---> 10 Years

The estimated useful life is reviewed at the end of each reporting period and the effect of any changes in estimate is accounted for prospectively.

Intangible assets acquired in a business combination viz. Goodwill, Patents, Copyrights and Brands do not have definite useful life and thus, are not amortised. However, these assets are tested for impairment on an annual basis. These are further tested for impairment upon any indication of impairment subsequent to annual testing.

Derecognition

Intangible assets are derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount.

The Company has elected to continue with carrying value of all its intangible assets recognised as on transition date, measured as per the previous GAAP and use that carrying value as its deemed cost as of transition date.

C Capital Work in Progress

Capital work in progress (CWIP) comprises of Property, Plant and Equipment that are not ready for their intended use at the end of reporting period and are carried at cost. Cost of CWIP comprises direct cost, related incidental expenses, borrowing cost and other directly attributable costs.

D Investments in subsidiaries, associates and joint ventures

The investments in subsidiaries, associates and joint ventures are carried in these financial statements at historical 'cost', except when the investment, or a portion thereof, is classified as held for sale, in which case it is accounted for as Non-current assets held for sale and discontinued operations. Where the carrying amount of an investment is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount and the difference is transferred to the Statement of Profit and Loss. On disposal of investment the difference between the net disposal proceeds and the carrying amount is charged or credited to the Statement of Profit and Loss.

E Investment in joint operation

A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets, and obligations for the liabilities, relating to the arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

When the Company undertakes its activities under joint operations, the Company as a joint operator recognises in relation to its interest in a joint operation:

- Its assets, including its share of any assets held jointly;
- Its liabilities, including its share of any liabilities incurred jointly;
- Its revenue from the sale of its share of the output arising from the joint operation;
- Its share of the revenue from the sale of the output by the joint operation; and
- Its expenses, including its share of any expenses incurred jointly.

The Company accounts for the assets, liabilities, revenues and expenses relating to its interest in a joint operation in accordance with the standards applicable to the particular assets, liabilities, revenues and expenses.

F Investment property

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Company, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised.

Investment properties are subsequently measured at cost less depreciation. Investment properties are depreciated using the straight-line method over their estimated useful lives. Investment properties generally have a useful life of 25-40 years. The useful life has been determined based on technical evaluation performed by the management's expert.

G Impairment

At the end of each reporting year, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the Statement of Profit and Loss.

Goodwill and intangible assets that do not have definite useful life are not amortised and are tested at least annually for impairment. If events or changes in circumstances indicate that they might be impaired, they are tested for impairment once again.

H Non-current assets or disposal held for sale and discontinued operations**Non-current assets or disposal held for sale**

Non-current assets or disposal groups are classified as held for sale if their carrying amounts will be recovered principally through a sale transaction rather than through continuing use. Such assets or disposal groups are classified only when both the conditions are satisfied –

1. The sale is highly probable, and
2. The asset or disposal group is available for immediate sale in its present condition subject only to terms that are usual and customary for sale of such assets.

Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification as held for sale, and actions required to complete the plan of sale should indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn. Non Current assets or disposal group are presented separately from the other assets in the balance sheet. The liabilities of a disposal group classified as held for sale are presented separately from other liabilities in the balance sheet.

Upon classification, non-current assets or disposal group held for sale are measured at the lower of carrying amount and fair value less costs to sell. Non-current assets which are subject to depreciation are not depreciated or amortized once those classified as held for sale.

Discontinued operation

A discontinued operation is a component of the entity that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately in the statement of profit and loss.

I Government grants

Government grants are not recognised until there is reasonable assurance that the Company will comply with the conditions attached to them and that the grants will be received.

Government grants are recognised in the Statement of Profit and Loss on a systematic basis over the years in which the Company recognises as expenses the related costs for which the grants are intended to compensate or when performance obligations are met.

Government grants, whose primary condition is that the Company should purchase, construct or otherwise acquire non-current assets and non monetary grants are recognised and disclosed as 'deferred income' under non-current liability in the Balance Sheet and transferred to the Statement of Profit and Loss on a systematic and rational basis over the useful lives of the related assets.

The benefit of a government loan at a below-market rate of interest and effect of this favourable interest is treated as a government grant. The loan or assistance is initially recognised at fair value and the government grant is measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates and recognised to the income statement immediately on fulfilment of the performance obligations. The loan is subsequently measured as per the accounting policy applicable to financial liabilities.

J Revenue recognition

Revenue is recognised at an amount that reflects the consideration to which the Company expects to be entitled in exchange for transferring the promised goods or services to a customer i.e. on transfer of control of the goods or service to the customer. Revenue from sales of goods or rendering of services is net of Indirect taxes, returns and variable consideration on account of discounts and schemes offered by the Company as part of the contract.

Income From Operations

Revenue is recognised at the transaction price that is allocated to the performance obligation. Revenue includes room revenue, food and beverage sale and use of Conference Hall and meeting room services which is recognised once the rooms are occupied, food and beverages are sold and Conference Hall and meeting room used have been provided as per the contract with the customer.

Revenue from Event & Exhibition services are recognised when the services are rendered and the same becomes chargeable or when collectability is certain. This includes Tent City Room revenue and food and beverage revenue. These contracts for event service are generally of short-term in nature. Revenue is recognised in the period in which services are being rendered.

Sale of goods

Revenue is measured at the fair value of the consideration received or receivable. The Company recognises revenues on sale of products, net of discounts, sales incentives, rebates granted, returns, sales taxes/GST and duties when the products are delivered to customer, which is when title and risk and rewards of ownership pass to the customer.

Revenue from sales is recognised when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and

price to sell / consume the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products.

Dividend Income

Dividend income from investments is recognised when the shareholder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably).

Interest Income

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

K Estimation of value for inventories

Inventory is stated at the lower of cost and net realizable value (NRV). NRV for completed inventory is assessed by reference to market conditions and prices existing at the reporting date and is determined by the Company, based on comparable transactions identified. Cost of inventories comprises of cost of purchase, cost of conversion and other costs net of recoverable taxes incurred in bringing them to their respective present location and condition. Trade discounts and rebates are deducted in determining the cost of purchase.

L Leases

The Company recognizes a right-of-use asset (ROU) and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease. Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives.

They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the useful life of the asset or the balance lease term of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of the leases. Lease liabilities are re-measured with a corresponding adjustment to the related right of use asset if the company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset shall be separately presented in the Balance Sheet and lease payments shall be classified as financing cash flows.

M Foreign exchange translation

The functional currency of the Company is Indian Rupees which represents the currency of the primary economic environment in which it operates.

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions are generally recognised in profit or loss. Monetary balances arising from the transactions denominated in foreign currency are translated to functional currency using the exchange rate as on the reporting date. Any gains or loss on such translation, are generally recognised in profit or loss. Foreign exchange differences are deferred in equity if they relate to qualifying cash flow hedges and qualifying net investment hedges or are attributable to part of the net investment in a foreign operation. A monetary item for which settlement is neither planned nor likely to occur in the foreseeable future is considered as a part of the entity's net investment in that foreign operation.

Exchange differences on monetary items are recognised in Statement of Profit and Loss in the year in which they arise.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

N Income taxes

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred tax are recognised in the Statement of Profit and Loss, except when they relate to items that are recognised in Other Comprehensive Income or directly in equity, in which case, the current and deferred tax are also recognised in Other Comprehensive Income or directly in equity, respectively.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates and laws that have been enacted or substantively enacted by the end of the reporting period.

Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle the asset and the liability on a net basis.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the Financial Statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill. Deferred income tax is recognised using the balance sheet approach.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in Other Comprehensive Income or directly in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

O Borrowing costs

Borrowing costs, general or specific, that are directly attributable to the acquisition or construction of qualifying assets is capitalized as part of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. All other borrowing costs are charged to the Statement of Profit and Loss.

The Company determines the amount of borrowing costs eligible for capitalisation as the actual borrowing costs incurred on that borrowing during the year less any interest income earned on temporary investment of specific borrowings pending their expenditure on qualifying assets, to the extent that an entity borrows funds specifically for the purpose of obtaining a qualifying asset. In case if the Company borrows generally and uses the funds for obtaining a qualifying asset, borrowing costs eligible for capitalisation are determined by applying a capitalisation rate to the expenditures on that asset.

Borrowing cost includes exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the finance cost.

P Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

Provisions are measured at the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

A present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.

Claims against the Company where the possibility of any outflow of resources in settlement is remote, are not disclosed as contingent liabilities.

Contingent assets are not recognised in financial statements since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and is recognised.

Provisions, contingent assets and contingent liabilities are reviewed at each balance sheet date.

Q Employee benefits

Employee benefits include salaries, wages, contribution to provident fund, gratuity, leave encashment towards un-availed leave, compensated absences, post-retirement medical benefits and other terminal benefits.

Short-term employee benefits

Wages and salaries, including non-monetary benefits that are expected to be settled within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Post-employment benefits

Defined contribution plan

Employee Benefit under defined contribution plans comprises of Contributory provident fund, Post Retirement benefit scheme, Employee pension scheme, composite social security scheme etc. is recognized based on the undiscounted amount of obligations of the Company to contribute to the plan.

Defined benefit plan

Defined benefit plans comprising of gratuity, post-retirement medical benefits and other terminal benefits, are recognized based on the present value of defined benefit obligations which is computed using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. These are accounted either as current employee cost or included in cost of assets as permitted.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Provision for Gratuity and its classifications between current and non-current liabilities are based on independent actuarial valuation.

Short term employee benefits

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service. Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date.

Voluntary retirement scheme – Termination benefits

Termination benefits are payable when employment is terminated by the Company before the normal retirement date, or when an employee accepts voluntary retirement scheme in exchange for these benefits. Expenditure on Voluntary Retirement Scheme (VRS) is charged to the Statement of Profit and Loss when incurred.

R Financial instruments

Financial assets and financial liabilities are recognised when an entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through Statement of Profit and Loss (FVTPL)) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit and loss are recognised immediately in Statement of Profit and Loss.

Financial assets

Initial recognition and measurement

The Company initially recognises loans and advances, deposits and debt securities purchased on the date on which they originate. Purchases and sale of financial assets are recognised on the trade date, which is the date on which the Company becomes a party to the contractual provisions of the instrument.

All financial assets are recognised initially at fair value. In the case of financial assets not recorded at FVTPL, transaction costs that are directly attributable to its acquisition of financial assets are included therein.

Subsequent Measurement

For purposes of subsequent measurement, financial assets are classified as below :

- Amortised cost; or
- Fair Value through Other Comprehensive Income (FVTOCI) – debt investment; or
- Fair Value through Other Comprehensive Income (FVTOCI) – equity investment; or
- Fair Value through Profit or Loss (FVTPL)

A financial asset is measured at amortised cost if it meets both of the following conditions:

- The asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These include trade receivables, cash and cash equivalent and other bank balances, shortterm deposits with banks, other financial assets. Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and which are not classified as financial assets at fair value through profit and loss.

Subsequently, these are measured at amortized cost using the effective interest method (EIR) less any impairment losses. Amortised cost is calculated by taking into account fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss.

A debt instrument is classified as FVTOCI only if it meets both of the following conditions and is not recognised at FVTPL:

- The asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in the Other Comprehensive Income (OCI). However, the Company recognises interest income, impairment losses & reversals and foreign exchange gain or loss in the Statement of Profit and Loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to Statement of Profit and Loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

All equity investments in scope of IND AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which IND AS 103 applies are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to Statement of Profit and Loss, even on sale of investment. However, on sale/disposal the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the Statement of Profit and Loss.

All other financial assets are classified as measured at FVTPL.

In addition, on initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVTOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains and losses arising on remeasurement recognised in statement of profit or loss. The net gain or loss recognised in statement of profit or loss incorporates any dividend or interest earned on the financial asset and is included in the 'other income' line item.

Dividend on financial assets at FVTPL is recognised when:

- The Company's right to receive the dividends is established
- It is probable that the economic benefits associated with the dividends will flow to the entity,
- The dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, debt instruments at FVTOCI, lease receivables, trade receivables, other contractual rights to receive cash or other financial asset, and financial guarantees not designated as at FVTPL.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights. Credit loss is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets). The Company estimates cash flows by considering all contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) through the expected life of that financial instrument.

The Company measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. If the credit risk on a financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses. 12-month expected credit losses are portion of the life-time expected credit losses and represent the lifetime cash shortfalls

that will result if default occurs within the 12 months after the reporting date and thus, are not cash shortfalls that are predicted over the next 12 months.

If the Company measured loss allowance for a financial instrument at lifetime expected credit loss model in the previous year, but determines at the end of a reporting year that the credit risk has not increased significantly since initial recognition due to improvement in credit quality as compared to the previous year, the Company again measures the loss allowance based on 12-month expected credit losses.

When making the assessment of whether there has been a significant increase in credit risk since initial recognition, the Company uses the change in the risk of a default occurring over the expected life of the financial instrument instead of the change in the amount of expected credit losses. To make that assessment, the Company compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition.

For trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS, the Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivables, the Company has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

The impairment requirements for the recognition and measurement of a loss allowance are equally applied to debt instruments at FVTOCI except that the loss allowance is recognised in other comprehensive income and is not reduced from the carrying amount in the balance sheet.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL and Interest income is recognised in profit or loss.

Reclassification of financial assets

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by a company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of directly attributable transaction costs.

Financial liabilities

Initial recognition and measurement

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent measurement

For purposes of subsequent measurement, financial liabilities are classified in two categories:

- Financial liabilities at fair value through profit or loss ('FVTPL')
- Financial liabilities at amortised cost

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognised in OCI. These gains/ losses are not subsequently transferred to Profit & Loss.

Financial liabilities at amortised cost, This is the category most relevant to the Company. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Other financial liabilities

Other financial liabilities (including borrowings and trade and other payables) are subsequently measured at amortised cost using the effective interest method.

Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. An exchange with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Cash and cash equivalents

Cash and cash equivalent in the Balance Sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to insignificant risk of changes in value.

Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of new ordinary shares and share options and buyback of ordinary shares are recognized as a deduction from equity, net of any tax effects.

Offsetting financial instrument

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle financial asset and liability on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

S Statement of Cash Flows

Cash Flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the company are segregated.

T Segments reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM). The board of directors assesses the financial performance and position of the Company and makes strategic decisions. Only those business activities are identified as operating segment for which the operating results are regularly reviewed by the CODM to make decisions about resource allocation and performance measurement.

U Earnings per share

Basic earnings per share

Basic earnings per share is computed by dividing the net profit after tax by weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the year is adjusted for treasury shares, bonus issue, bonus element in a rights issue to existing shareholders, share split and reverse share split (consolidation of shares).

Diluted earnings per share

Diluted earnings per share is computed by dividing the profit after tax after considering the effect of interest and other financing costs or income (net of attributable taxes) associated with dilutive potential equity shares by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares including the treasury shares held by the Company to satisfy the exercise of the share options by the employees.

- a) The sensitivity analysis have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.
- b) The sensitivity analysis presented above may not be representative of the actual change in the projected benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.
- c) Furthermore, in presenting the above sensitivity analysis, the present value of the projected benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same method as applied in calculating the projected benefit obligation as recognised in the Balance Sheet.
- d) There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.
- xv** The entity has a defined benefit gratuity plan in India (unfunded). The entity's defined benefit gratuity plan is a final salary plan for employees.
- xvi** Gratuity is paid from entity as and when it becomes due and is paid as per entity scheme for Gratuity.
- xvii** This plan in defined benefit plan and entity is exposed to the Following Risks:
- a) Interest rate risk: A fall in the discount rate which is linked to the G.Sec. Rate will increase the present value of the liability requiring higher provision.
- b) Salary Risk: The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability.
- c) Asset Liability Matching Risk: The plan faces the ALM risk as to the matching cash flow. Entity has to manage pay-out based on pay as you go basis from own funds.
- d) Mortality risk: Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk.
- xviii** During the year, there were no plan amendments, curtailments and settlements and Gratuity plan is unfunded.

41.2 Capital Management

- i For the purpose of the Company's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders of the Company. The Company strives to safeguard its ability to continue as a going concern so that they can maximise returns for the shareholders and benefits for other stake holders. The Company aims to maintain an optimal capital structure through combination of debt and equity in a manner so as to minimise the cost of capital.
- ii Consistent with others in the industry, the Company monitors its capital using Gearing Ratio, Net Debt (Short Term and Long Term Borrowings including Current maturities less Cash & Cash Equivalents) divided by Total Capital (Total Equity plus Borrowings).

All Amounts are ₹ in Lakhs unless otherwise stated

PARTICULARS	As at 31/03/2023	As at 31/03/2022

Total Capital	11,323.22	3,098.40
Gearing Ratio (%)	(3.55)	10.31

- iii In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the borrowings that define the capital structure requirements.

41.3 Fair Value Hierarchy

The Company has classified its financial instruments into three levels prescribed under the accounting standard. An explanation of each level follows below.

Level-1 : Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level-2 : Inputs are other than quoted prices included within Level-1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level-3 : Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on the assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

42 Financial Risk Management Objectives and Policies

The Company's principal financial liabilities comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance and support the Company's operations. The Company's financial assets include trade and other receivables, and cash & cash equivalents that derive directly from its operations.

The Company is exposed to market risk, and liquidity risk. The Company's senior management oversees the management of these risks. The Company's senior management is supported by a Current Corporate Affairs Committee that advises on financial risks and the appropriate financial risk governance framework for the Company. This committee provides assurance to the Company's senior management that the Company's financial risk activities are governed by appropriate policies and procedure and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each risk, which are summarised as below :

- **The Company has exposure to the following risks arising from financial instruments:**

- a) Market Risk
- b) Liquidity Risk
- c) Credit Risk

a) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of interest rate risk, and foreign currency risk.

1.1 Interest Rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's working capital obligations with floating interest rates. The Company is carrying its working capital borrowings primarily at variable rate.

The sensitivity analysis have been carried out based on the exposure to interest rates for loans carried at variable rate. A 50 Basis point increase or decrease represents management assessable of the reasonably possible change in interest rates.

INDEPENDENT AUDITOR'S REPORT

To,
The Members,
Praveg Limited
[Formerly known as Praveg Communications (India) Limited]

REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

OPINION

We have audited the accompanying consolidated financial statements of Praveg Limited [Formerly known as Praveg Communications (India) Limited] ("Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") and joint venture entity, which comprise the consolidated Balance Sheet as at March 31, 2023, the consolidated statement of Profit and Loss, the consolidated Statement of Changes in Equity, the consolidated Statement of Cash Flows for the year then ended and notes to the consolidated financial statements, including a summary of significant accounting policies (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements, give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2023 and their consolidated profit, their consolidated total comprehensive income, their consolidated changes in equity and their consolidated cash flows for the year ended on that date.

BASIS FOR OPINION

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report. For each matter below, our description of how our audit addressed the matter is provided in that context described hereunder.

We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements;

1) Accuracy of recognition, measurement, presentation and disclosures of revenues and other related balances in view of Ind AS 115 "Revenue from Contracts with Customers":-

Key Audit Matter	How our audit addressed this matter: -
<p>The revenue recognition involves certain key judgements such as identification of distinct performance obligations, determination of transaction price of the identified performance obligations, the appropriateness of the basis used to measure revenue recognized over a period as per Ind AS 115 and its presentation in financial statements.</p>	<ul style="list-style-type: none"> ■ We assess the company's process to identify distinct performance obligations, transaction price and appropriateness of the basis used to measure revenue recognized. Our audit approach consisted testing of the design and operating effectiveness of the internal controls and substantive testing as follows: ■ We evaluated the design of internal controls relating to revenue recognition. In the process, we selected samples of continuing and new contracts, and tested the operating effectiveness of the internal control, relating to identification of the distinct performance obligations and determination of transaction price & basis of measurement. We carried out a combination of procedures involving enquiry and observation, re-performance, assessment of basis of judgement and inspection of evidence in respect of operation of these controls. ■ Selected a sample of continuing and new contracts and performed the following procedures: <ul style="list-style-type: none"> – Identification and assessment of the distinct performance obligations in various contracts with customers. – Compared these performance obligations with that assessed and recorded by the Company in books of accounts. – We tested the samples selected depending upon the risk parameters, type and nature of revenue and compared with the performance obligations specified in the underlying contracts. – Evaluated the contracts on the basis of whether the contract is Fixed Price or Variable price contract, terms of obligation fulfilment, duration of contract and accrual points of revenue from such contracts. – We verified the proof of performance vis-a-vis obligation of performance as per the contracts and have compared the revenue recognized in accordance with that.

INFORMATION OTHER THAN THE FINANCIAL STATEMENTS AND AUDITORS' REPORT THEREON

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

The other information is expected to be made available to us after the date of this auditor's report. When we read the other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance. We have nothing to report in this regard.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Companies Act, 2013 that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group including its Subsidiaries and Jointly controlled entity in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group and of its subsidiaries and joint venture entity are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its subsidiaries and joint venture entity are responsible for assessing the ability of the Group and of its subsidiaries and joint venture entity to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and joint venture entity are also responsible for overseeing the financial reporting process of the Group and joint venture entity.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its subsidiaries and joint venture entity to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its subsidiaries and joint venture entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient and appropriate audit evidence regarding the financial information of the entity or business activities within the Group and its subsidiaries and joint venture entity to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provided those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

OTHER MATTERS

- (a) The accompanying Consolidated Financial Statements include the financial statements and other financial information of 4 subsidiaries and 1 joint venture, which reflect total assets of Rs.80.66 Lakhs as at March 31, 2023, total revenues of Rs.9.84 Lakhs for the year ended on that date, and net profit of Rs.5.28 Lakhs for the year ended March 31, 2023. ANNEXURE-“A” TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph (f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Praveg Communications (India) Limited of even date.

REPORT ON THE INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING UNDER CLAUSE (i) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 (“THE ACT”)

In conjunction with our audit of the Consolidated Financial Statements of Praveg Limited [Formerly known as Praveg Communications (India) Limited] (hereinafter referred to as the “Holding Company”) as of and for the year ended March 31, 2023, we have audited the internal financial controls over with reference to consolidated financial statements of the Holding Company, its subsidiaries (the Holding Company and its subsidiaries together referred to as “the Group”) and its joint venture, which are companies incorporated in India, as of that date.

MANAGEMENT’S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The respective Board of Directors of the Holding Company, its subsidiaries and joint venture entity which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITORS’ RESPONSIBILITY

Our responsibility is to express an opinion on the Holding Company, its subsidiaries and joint venture entity, which are companies incorporated in India, internal financial controls over financial reporting with reference to these Consolidated Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, both, issued by Institute of Chartered Accountants of India, and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these Consolidated Financial Statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting with reference to these Consolidated Financial Statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these Consolidated Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting with reference to these Consolidated Financial Statements.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING WITH REFERENCE TO THESE CONSOLIDATED FINANCIAL STATEMENTS

A company's internal financial control over financial reporting with reference to these Consolidated Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to these Consolidated Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING WITH REFERENCE TO THESE CONSOLIDATED FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls over financial reporting with reference to these Consolidated Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these Consolidated Financial Statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these Consolidated Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, to the best of our information and according to the explanations given to us and based on the consideration of our reports of, as referred to in Other Matters paragraph below, the Holding Company, its subsidiary, which are companies incorporated in India, have, maintained in all material respects, adequate internal financial controls over financial reporting with reference to these Consolidated Financial Statements and such internal financial controls over financial reporting with reference to these Consolidated Financial Statements were operating effectively as at March 31,2023, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

OTHER MATTERS

Our report under section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to the consolidated financial statements of the Holding Company, in so far it relates to four subsidiaries and one joint venture, which are the Companies incorporated in India, is based on the corresponding report of the auditors of such subsidiaries and joint venture.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2023

A Overview and Significant Accounting Policies

1 Corporate Information

The consolidated financial statements comprise financial statements of Praveg Limited (Formerly Known as Praveg Communications (India) Limited) (the Company), its subsidiaries (collectively referred as the "Group"). The Company is domiciled in India, incorporated on February 28, 1995 under the provisions of the Companies Act applicable in India and listed on Bombay Stock Exchange. The registered office of the company is located at 214, Athena Avenue, Behind Jaguar Showroom, S.G. Highway, Gota, Ahmedabad GJ 382481, India.

The Company is principally engaged in business of providing services of Advertising, Hospitality, Management and organization of Events and Exhibitions.

Statement of compliance

consolidated Financial Statements have been prepared in accordance with the accounting principles generally accepted in India including Indian Accounting Standards (Ind AS) prescribed under the Section 133 of the Companies Act, 2013 read with rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 as amended and relevant provisions of the Companies Act, 2013.

2 Significant Accounting Policies

2.1 Basis of preparation of financial statements

The separate financial statements of the Group are prepared in accordance with Indian Accounting Standards (Ind AS), under the historical cost convention on the accrual basis as per the provisions of the Companies Act, 2013 ("the Act"), except for

- Financial instruments – measured at fair value;
- Assets held for sale – measured at fair value less cost of sale;
- Plan assets under defined benefit plans – measured at fair value
- Employee share-based payments – measured at fair value
- In addition, the carrying values of recognised assets and liabilities, designated as hedged items in fair value hedges that would otherwise be carried at cost, are adjusted to record changes in the fair values attributable to the risks that are being hedged in effective hedge relationship.

The consolidated Financial Statements have been presented in Indian Rupees (INR), which is the Group's functional currency. All financial information presented in INR has been rounded off to the nearest two decimals of Lakh, unless otherwise stated.

Principles of Consolidation

The Consolidated Financial Statement comprise the financial statements of the Company, its subsidiaries and its share of profit and loss of Joint ventures as at 31st March, 2023.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

The financial statements of all the entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company. When the end of the reporting period of the subsidiaries or jointly controlled entities is different from that of the parent, for consolidation purposes the respective entity prepares additional financial information as of the same date as the financial statements of the parent to enable the parent to consolidate the financial information of the said entity, unless it is impracticable to do so.

Subsidiaries:

Subsidiaries are all entities over which the group has control. The group controls an entity when the group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group until the date, the Group ceases to control the Subsidiary.

The Group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intra-Group transactions, balances and

unrealised gains on transactions between entities within the Group are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed, where necessary, to ensure consistency with the policies adopted by the Group. Non-controlling interests in the results and equity of subsidiaries are shown separately in the Consolidated Statement of Profit and Loss, Consolidated Statement of Changes in Equity and the Consolidated Balance Sheet respectively.

Joint Ventures, Associates and Equity Method Accounting

Joint ventures are joint arrangements, whereby the parties that have joint control of the arrangements have rights to the net assets and obligations for the liabilities, relating to the arrangement. Interests in joint ventures are accounted for using the equity method, after initially being recognised at cost in the Consolidated Balance sheet.

Associates are entities over which the Group has significant influence but not control or joint control. Investments in associates are accounted for using the equity method of accounting, after initially being recognised at cost.

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses of the investee in the Consolidated Statement of Profit and Loss, and the Group's share of Other Comprehensive Income of the investee in Other Comprehensive Income. When the Group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity. Unrealised gains on transactions between the Group and its Associates and its Joint Ventures are eliminated to the extent of the Group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Group. The carrying amounts of equity accounted investments are tested for impairment.

Current and non-current classification

An asset is classified as current when it satisfies any of the following criteria:

- it is expected to be realised in, or is intended for sale or consumption in, the Group's normal operating cycle or
- It is expected to be realised within 12 months after the reporting date; or
- It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.
- All other assets are classified as non-current.

A liability is classified as current when it satisfies any of the following criteria:

- It is expected to be settled in the Group's normal operating cycle;
- It is held primarily for the purpose of being traded
- It is due to be settled within 12 months after the reporting date; or the Group does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.
- All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current only

The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

For the purpose of current/non-current classification of assets and liabilities, the Group has ascertained its normal operating cycle as twelve months.

2.2 Use of estimates and judgments

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the acGrouping disclosure, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Actual results could differ from those estimates. The management believes that the estimates used in preparation of the financial statements are prudent and reasonable.

This note provides an overview of the areas where there is a higher degree of judgment or complexity.

Detailed information about each of these estimates and judgments is included in relevant notes together with information about the basis of calculation.

The areas involving critical estimates or judgments are:

Areas	Note No.
• Useful life of intangible asset	2.3-B
• Impairment of financial assets	2.3-G
• Defined benefit obligation	2.3-Q
• Recognition of revenue and allocation of transaction price	2.3-J
• Current tax expense and current tax payable	2.3-N
• Deferred tax assets for carried forward tax losses	2.3-N

Estimates and judgments are regularly revisited. Estimates are based on historical experience and other factors, including futuristic reasonable information that may have a financial impact on the Group.

2.3 Summary of Significant accounting policies

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all the periods presented in the financial statements.

A Property, plant and equipment

Recognition and measurement

The cost of property, plant and equipment comprises its purchase price net of any trade discounts and rebates, any import duties and other taxes (other than those subsequently recoverable from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use, including relevant borrowing costs for qualifying assets and any expected costs of decommissioning. Expenditure incurred after the property, plant and equipment have been put into operation, such as repairs and maintenance, are charged to the Statement of Profit and Loss in the year in which the costs are incurred. Major shutdown and overhaul expenditure is capitalised as the activities undertaken improves the economic benefits expected to arise from the asset.

It includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy based on Ind AS 23 – Borrowing costs. Such properties are classified to the appropriate categories of PPE when completed and ready for intended use.

Assets in the course of construction are capitalised in the assets under construction account. At the point when an asset is operating at management's intended use, the cost of construction is transferred to the appropriate category of property, plant and equipment and depreciation commences. Costs associated with the commissioning of an asset and any obligatory decommissioning costs are capitalised where the asset is available for use but incapable of operating at normal levels until a year of commissioning has been completed.

Property, plant and equipment except freehold land held for use in the production, supply or administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses, if any.

The Group has elected to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements on transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition.

Subsequent expenditure and componentization

Subsequent costs related to an item of Property, Plant and Equipment are included in its carrying amount or recognised as a separate asset, as appropriate, only when it is probable that the future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. Subsequent costs are depreciated over the residual life of the respective assets. All other expenses on existing Property, Plant and Equipments, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the Statement of Profit and Loss for the period during which such expenses are incurred.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Decommissioning costs

Decommissioning cost includes cost of restoration. Provision for decommissioning costs is recognized when the Group has a legal or constructive obligation to plug and abandon a well, dismantle and

remove a facility or an item of Property, Plant and Equipment and to restore the site on which it is located. The full eventual estimated provision towards costs relating to dismantling, abandoning and restoring sites and other facilities are recognized in respective assets when the site is complete / facilities or Property, Plant and Equipment are installed.

Depreciation and useful life

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using written down value method as per the useful life prescribed in Schedule II to the Companies Act, 2013 except in respect of following categories of assets, in whose case the life of the assets has been assessed as under based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.

The management estimates the useful lives for the Property, Plant and Equipment as follows:

Assets	Useful life (Years)
Office Equipment	5
Furniture and Fixtures	10
Vehicles	8 to 10
Computer and Peripheral	3 to 6
Leasehold Improvements	Lower of useful life of the asset or lease term

The property, plant and equipment acquired under finance leases is depreciated over the asset's useful life or over the shorter of the asset's useful life and the lease term if there is no reasonable certainty that the Group will obtain ownership at the end of the lease term.

Major overhaul costs are depreciated over the estimated life of the economic benefit derived from the overhaul. The carrying amount of the remaining previous overhaul cost is charged to the Statement of Profit and Loss if the next overhaul is undertaken earlier than the previously estimated life of the economic benefit.

The Group reviews the residual value, useful lives and depreciation method annually and, if expectations differ from previous estimates, the change is accounted for as a change in accounting estimate on a prospective basis.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Leasehold Improvements assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and impairment losses. Amortisation is recognised on a straight-line basis over the lower of useful life of the assets or lease term.

Derecognition

An item of PPE is de-recognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in Statement of Profit and Loss.

B Intangible assets

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting year, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

Where intangible asset is acquired in a business combination, it is measured at its acquisition date fair value.

Internally generated intangible asset is recognised as an asset in the books only and only when the Group develops an identifiable intangible asset and the following criteria are satisfied:

- It is technically feasible to complete the software so that it will be available for use
- Management intends to complete the software and use or sell it
- There is an ability to use or sell the software

- It can be demonstrated how the software will generate probable future economic benefits
- Adequate technical, financial and other resources to complete the development and to use or sell the software are available, and
- The expenditure attributable to the software during its development can be reliably measured.

Directly attributable costs that are capitalised as part of the intangible asset include employee costs and an appropriate portion of relevant overheads. Capitalised development costs are recorded as intangible assets and amortised from the point at which the asset is available for use.

Useful life and amortisation

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and impairment losses. Amortisation is recognised on a straight-line basis over the useful lives of the asset from the date of capitalisation as below:

Brands or Trademarks ---> 10 Years

The estimated useful life is reviewed at the end of each reporting period and the effect of any changes in estimate is accounted for prospectively.

Intangible assets acquired in a business combination viz. Goodwill, Patents, Copyrights and Brands do not have definite useful life and thus, are not amortised. However, these assets are tested for impairment on an annual basis. These are further tested for impairment upon any indication of impairment subsequent to annual testing.

Derecognition

Intangible assets are derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount.

The Group has elected to continue with carrying value of all its intangible assets recognised as on transition date, measured as per the previous GAAP and use that carrying value as its deemed cost as of transition date.

C Capital Work in Progress

Capital work in progress (CWIP) comprises of Property, Plant and Equipment that are not ready for their intended use at the end of reporting period and are carried at cost. Cost of CWIP comprises direct cost, related incidental expenses, borrowing cost and other directly attributable costs.

D Investments in subsidiaries, associates and joint ventures

The investments in subsidiaries, associates and joint ventures are carried in these financial statements at historical 'cost', except when the investment, or a portion thereof, is classified as held for sale, in which case it is accounted for as Non-current assets held for sale and discontinued operations. Where the carrying amount of an investment is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount and the difference is transferred to the Statement of Profit and Loss. On disposal of investment the difference between the net disposal proceeds and the carrying amount is charged or credited to the Statement of Profit and Loss.

E Investment in joint operation

A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets, and obligations for the liabilities, relating to the arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

When the Group undertakes its activities under joint operations, the Group as a joint operator recognises in relation to its interest in a joint operation:

- Its assets, including its share of any assets held jointly;
- Its liabilities, including its share of any liabilities incurred jointly;
- Its revenue from the sale of its share of the output arising from the joint operation;
- Its share of the revenue from the sale of the output by the joint operation; and
- Its expenses, including its share of any expenses incurred jointly.

The Group accounts for the assets, liabilities, revenues and expenses relating to its interest in a joint operation in accordance with the standards applicable to the particular assets, liabilities, revenues and expenses.

F Investment property

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Group, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised.

Investment properties are subsequently measured at cost less depreciation. Investment properties are depreciated using the straight-line method over their estimated useful lives. Investment properties generally have a useful life of 25-40 years. The useful life has been determined based on technical evaluation performed by the management's expert.

G Impairment

At the end of each reporting year, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the Statement of Profit and Loss.

Goodwill and intangible assets that do not have definite useful life are not amortised and are tested at least annually for impairment. If events or changes in circumstances indicate that they might be impaired, they are tested for impairment once again.

H Non-current assets or disposal held for sale and discontinued operations**Non-current assets or disposal held for sale**

"Non-current assets or disposal groups are classified as held for sale if their carrying amounts will be recovered principally through a sale transaction rather than through continuing use. Such assets or disposal groups are classified only when both the conditions are satisfied –

1. The sale is highly probable, and
2. The asset or disposal group is available for immediate sale in its present condition subject only to terms that are usual and customary for sale of such assets."

Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification as held for sale, and actions required to complete the plan of sale should indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn. Non Current assets or disposal group are presented separately from the other assets in the balance sheet. The liabilities of a disposal group classified as held for sale are presented separately from other liabilities in the balance sheet.

Upon classification, non-current assets or disposal group held for sale are measured at the lower of carrying amount and fair value less costs to sell. Non-current assets which are subject to depreciation are not depreciated or amortized once those classified as held for sale.

Discontinued operation

A discontinued operation is a component of the entity that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately in the statement of profit and loss.

I Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attached to them and that the grants will be received.

Government grants are recognised in the Statement of Profit and Loss on a systematic basis over the years in which the Group recognises as expenses the related costs for which the grants are intended to compensate or when performance obligations are met.

Government grants, whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets and non-monetary grants are recognised and disclosed as 'deferred income' under non-current liability in the Balance Sheet and transferred to the Statement of Profit and Loss on a systematic and rational basis over the useful lives of the related assets.

The benefit of a government loan at a below-market rate of interest and effect of this favourable interest is treated as a government grant. The loan or assistance is initially recognised at fair value and the government grant is measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates and recognised to the income statement immediately on fulfilment of the performance obligations. The loan is subsequently measured as per the accounting policy applicable to financial liabilities.

J Revenue recognition

Revenue is recognised at an amount that reflects the consideration to which the Group expects to be entitled in exchange for transferring the promised goods or services to a customer i.e. on transfer of control of the goods or service to the customer. Revenue from sales of goods or rendering of services is net of Indirect taxes, returns and variable consideration on account of discounts and schemes offered by the Group as part of the contract.

Income From Operations

Revenue is recognised at the transaction price that is allocated to the performance obligation. Revenue includes room revenue, food and beverage sale and use of Conference Hall and meeting room services which is recognised once the rooms are occupied, food and beverages are sold and Conference Hall and meeting room used have been provided as per the contract with the customer.

Revenue from Event & Exhibition services are recognised when the services are rendered and the same becomes chargeable or when collectability is certain. This includes Tent City Room revenue and food and beverage revenue. These contracts for event service are generally of short-term in nature. Revenue is recognised in the period in which services are being rendered.

Sale of goods

Revenue is measured at the fair value of the consideration received or receivable. The Group recognises revenues on sale of products, net of discounts, sales incentives, rebates granted, returns, sales taxes/GST and duties when the products are delivered to customer, which is when title and risk and rewards of ownership pass to the customer.

Revenue from sales is recognised when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell / consume the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products.

Dividend Income

Dividend income from investments is recognised when the shareholder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably).

Interest Income

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

K Estimation of value for inventories

Inventory is stated at the lower of cost and net realizable value (NRV). NRV for completed inventory is assessed by reference to market conditions and prices existing at the reporting date and is determined by the Group, based on comparable transactions identified. Cost of inventories comprises of cost of purchase, cost of conversion and other costs net of recoverable taxes incurred in bringing them to their respective present location and condition. Trade discounts and rebates are deducted in determining the cost of purchase.

L Leases

The Group recognizes a right-of-use asset (ROU) and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Group recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease. Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives.

They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the useful life of the asset or the balance lease term of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of the leases. Lease liabilities are re-measured with a corresponding adjustment to the related right of use asset if the Group changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset shall be separately presented in the Balance Sheet and lease payments shall be classified as financing cash flows.

M Foreign exchange translation

The functional currency of the Group is Indian Rupees which represents the currency of the primary economic environment in which it operates.

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions are generally recognised in profit or loss. Monetary balances arising from the transactions denominated in foreign currency are translated to functional currency using the exchange rate as on the reporting date. Any gains or loss on such translation, are generally recognised in profit or loss. Foreign exchange differences are deferred in equity if they relate to qualifying cash flow hedges and qualifying net investment hedges or are attributable to part of the net investment in a foreign operation. A monetary item for which settlement is neither planned nor likely to occur in the foreseeable future is considered as a part of the entity's net investment in that foreign operation.

Exchange differences on monetary items are recognised in Statement of Profit and Loss in the year in which they arise.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

N Income taxes

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred tax are recognised in the Statement of Profit and Loss, except when they relate to items that are recognised in Other Comprehensive Income or directly in equity, in which case, the current and deferred tax are also recognised in Other Comprehensive Income or directly in equity, respectively.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's current tax is calculated using tax rates and laws that have been enacted or substantively enacted by the end of the reporting period.

Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle the asset and the liability on a net basis.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the Financial Statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences.

Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill. Deferred income tax is recognised using the balance sheet approach.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in Other Comprehensive Income or directly in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

O Borrowing costs

Borrowing costs, general or specific, that are directly attributable to the acquisition or construction of qualifying assets is capitalized as part of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. All other borrowing costs are charged to the Statement of Profit and Loss.

The Group determines the amount of borrowing costs eligible for capitalisation as the actual borrowing costs incurred on that borrowing during the year less any interest income earned on temporary investment of specific borrowings pending their expenditure on qualifying assets, to the extent that an entity borrows funds specifically for the purpose of obtaining a qualifying asset. In case if the Group borrows generally and uses the funds for obtaining a qualifying asset, borrowing costs eligible for capitalisation are determined by applying a capitalisation rate to the expenditures on that asset.

Borrowing cost includes exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the finance cost.

P Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

Provisions are measured at the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, it's carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

A present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non -occurrence of one or more uncertain future events not wholly within the control of the Group.

Claims against the Group where the possibility of any outflow of resources in settlement is remote, are not disclosed as contingent liabilities.

Contingent assets are not recognised in financial statements since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and is recognised.

Provisions, contingent assets and contingent liabilities are reviewed at each balance sheet date.

Q Employee benefits

Employee benefits include salaries, wages, contribution to provident fund, gratuity, leave encashment towards un-availed leave, compensated absences, post-retirement medical benefits and other terminal benefits.

Short-term employee benefits

Wages and salaries, including non-monetary benefits that are expected to be settled within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Post-employment benefits**Defined contribution plan**

Employee Benefit under defined contribution plans comprises of Contributory provident fund, Post Retirement benefit scheme, Employee pension scheme, composite social security scheme etc. is recognized based on the undiscounted amount of obligations of the Group to contribute to the plan.

Defined benefit plan

Defined benefit plans comprising of gratuity, post-retirement medical benefits and other terminal benefits, are recognized based on the present value of defined benefit obligations which is computed using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. These are accounted either as current employee cost or included in cost of assets as permitted.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Provision for Gratuity and its classifications between current and non-current liabilities are based on independent actuarial valuation.

Short term employee benefits

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service. Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Group in respect of services provided by employees up to the reporting date.

Voluntary retirement scheme – Termination benefits

Termination benefits are payable when employment is terminated by the Group before the normal retirement date, or when an employee accepts voluntary retirement scheme in exchange for these benefits. Expenditure on Voluntary Retirement Scheme (VRS) is charged to the Statement of Profit and Loss when incurred.

R Financial instruments

Financial assets and financial liabilities are recognised when an entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through Statement of Profit and Loss (FVTPL)) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit and loss are recognised immediately in Statement of Profit and Loss.

Financial assets**Initial recognition and measurement**

The Group initially recognises loans and advances, deposits and debt securities purchased on the date on which they originate. Purchases and sale of financial assets are recognised on the trade date, which is the date on which the Group becomes a party to the contractual provisions of the instrument.

All financial assets are recognised initially at fair value. In the case of financial assets not recorded at FVTPL, transaction costs that are directly attributable to its acquisition of financial assets are included therein.

Subsequent Measurement

For purposes of subsequent measurement, financial assets are classified as below :

- Amortised cost; or
- Fair Value through Other Comprehensive Income (FVTOCI) – debt investment; or
- Fair Value through Other Comprehensive Income (FVTOCI) – equity investment; or
- Fair Value through Profit or Loss (FVTPL)

A financial asset is measured at amortised cost if it meets both of the following conditions:

- The asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These include trade receivables, cash and cash equivalent and other bank balances, short-term deposits with banks, other financial assets. Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and which are not classified as financial assets at fair value through profit and loss.

Subsequently, these are measured at amortized cost using the effective interest method (EIR) less any impairment losses. Amortised cost is calculated by taking into account fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss.

A debt instrument is classified as FVTOCI only if it meets both of the following conditions and is not recognised at FVTPL:

- The asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in the Other Comprehensive Income (OCI). However, the Group recognises interest income, impairment losses & reversals and foreign exchange gain or loss in the Statement of Profit and Loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to Statement of Profit and Loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

All equity investments in scope of IND AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which IND AS 103 applies are classified as at FVTPL. For all other equity instruments, the Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to Statement of Profit and Loss, even on sale of investment. However, on sale/disposal the Group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the Statement of Profit and Loss.

All other financial assets are classified as measured at FVTPL.

In addition, on initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVTOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains and losses arising on remeasurement recognised in statement of profit or loss. The net gain or loss recognised in statement of profit or loss incorporates any dividend or interest earned on the financial asset and is included in the 'other income' line item.

Dividend on financial assets at FVTPL is recognised when:

- The Group's right to receive the dividends is established
- It is probable that the economic benefits associated with the dividends will flow to the entity,
- The dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

Derecognition of financial assets

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

Impairment of financial assets

The Group applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, debt instruments at FVTOCI, lease receivables, trade receivables, other contractual rights to receive cash or other financial asset, and financial guarantees not designated as at FVTPL.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights. Credit loss is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets). The Group estimates cash flows by considering all contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) through the expected life of that financial instrument.

The Group measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. If the credit risk on a financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses. 12-month expected credit losses are portion of the life-time expected credit losses and represent the lifetime cash shortfalls that will result if default occurs within the 12 months after the reporting date and thus, are not cash shortfalls that are predicted over the next 12 months.

If the Group measured loss allowance for a financial instrument at lifetime expected credit loss model in the previous year, but determines at the end of a reporting year that the credit risk has not increased significantly since initial recognition due to improvement in credit quality as compared to the previous year, the Group again measures the loss allowance based on 12-month expected credit losses.

When making the assessment of whether there has been a significant increase in credit risk since initial recognition, the Group uses the change in the risk of a default occurring over the expected life of the financial instrument instead of the change in the amount of expected credit losses. To make that assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition.

For trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS, the Group always measures the loss allowance at an amount equal to lifetime expected credit losses.

Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivables, the Group has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

The impairment requirements for the recognition and measurement of a loss allowance are equally applied to debt instruments at FVTOCI except that the loss allowance is recognised in other comprehensive income and is not reduced from the carrying amount in the balance sheet.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL and Interest income is recognised in profit or loss.

Reclassification of financial assets

The Group determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Group's senior management determines change in the business model as a result of external or internal changes which are significant to the Group's operations. Such changes are evident to external parties. A change in the business model occurs when the Group either begins or ceases to perform an activity that is significant to its operations. If the Group reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Group does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by a Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of directly attributable transaction costs.

Financial liabilities

Initial recognition and measurement

The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent measurement

For purposes of subsequent measurement, financial liabilities are classified in two categories:

- Financial liabilities at fair value through profit or loss (FVTPL)
- Financial liabilities at amortised cost

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognised in OCI. These gains/ losses are not subsequently transferred to Profit & Loss.

Financial liabilities at amortized cost, This is the category most relevant to the Group. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Other financial liabilities

Other financial liabilities (including borrowings and trade and other payables) are subsequently measured at amortised cost using the effective interest method.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. An exchange with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Cash and cash equivalents

Cash and cash equivalent in the Balance Sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to insignificant risk of changes in value.

Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of new ordinary shares and share options and buyback of ordinary shares are recognized as a deduction from equity, net of any tax effects.

Offsetting financial instrument

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle financial asset and liability on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

S Statement of Cash Flows

Cash Flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Group are segregated.

T Segments reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM). The board of directors assesses the financial performance and position of the Group and makes strategic decisions. Only those business activities are identified as operating segment for which the operating results are regularly reviewed by the CODM to make decisions about resource allocation and performance measurement.

U Earnings per share

Basic earnings per share

Basic earnings per share is computed by dividing the net profit after tax by weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the year is adjusted for treasury shares, bonus issue, bonus element in a rights issue to existing shareholders, share split and reverse share split (consolidation of shares).

Diluted earnings per share

Diluted earnings per share is computed by dividing the profit after tax after considering the effect of interest and other financing costs or income (net of attributable taxes) associated with dilutive potential equity shares by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares including the treasury shares held by the Group to satisfy the exercise of the share options by the employees.

- b) The sensitivity analysis presented above may not be representative of the actual change in the projected benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.
- c) Furthermore, in presenting the above sensitivity analysis, the present value of the projected benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same method as applied in calculating the projected benefit obligation as recognised in the Balance Sheet.
- d) There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

- xv The entity has a defined benefit gratuity plan in India (unfunded). The entity's defined benefit gratuity plan is a final salary plan for employees.
- xvi Gratuity is paid from entity as and when it becomes due and is paid as per entity scheme for Gratuity.
- xvii: This plan in defined benefit plan and entity is exposed to the Following Risks:
 - a) Interest rate risk: A fall in the discount rate which is linked to the G.Sec. Rate will increase the present value of the liability requiring higher provision.
 - b) Salary Risk: The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability.
 - c) Asset Liability Matching Risk: The plan faces the ALM risk as to the matching cash flow. Entity has to manage pay-out based on pay as you go basis from own funds.
 - d) Mortality risk: Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk.
- xviii During the year, there were no plan amendments, curtailments and settlements and Gratuity plan is unfunded.

41.2 Capital Management

- i For the purpose of the Group's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders of the Group. The Group strives to safeguard its ability to continue as a going concern so that they can maximise returns for the shareholders and benefits for other stake holders. The Group aims to maintain an optimal capital structure through combination of debt and equity in a manner so as to minimise the cost of capital.
- ii Consistent with others in the industry, the Company monitors its capital using Gearing Ratio, Net Debt (Short Term and Long Term Borrowings including Current maturities less Cash & Cash Equivalents) divided by Total Capital (Total Equity plus Borrowings).

PARTICULARS	As at 31/03/2023	As at 31/03/2022

Total Capital	11,323.31	3,092.46
Gearing Ratio (%)	(3.65)	9.47

- iii In order to achieve this overall objective, the Group's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the borrowings that define the capital structure requirements.

41.3 Fair Value Hierarchy

The Group has classified its financial instruments into three levels prescribed under the accounting standard. An explanation of each level follows below.

Level-1 : Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level-2 : Inputs are other than quoted prices included within Level-1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level-3 : Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on the assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

All Amounts are ₹ in Lakhs unless otherwise stated

42 Financial Risk Management Objectives and Policies

The Group's principal financial liabilities comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance and support the Group's operations. The Group's financial assets include trade and other receivables, and cash & cash equivalents that derive directly from its operations.

The Group is exposed to market risk, and liquidity risk. The Group's senior management oversees the management of these risks. The Group's senior management is supported by a Current Corporate Affairs Committee that advises on financial risks and the appropriate financial risk governance framework for the Group. This committee provides assurance to the Group's senior management that the Group's financial risk activities are governed by appropriate policies and procedure and that financial risks are identified, measured and managed in accordance with the Group's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each risk, which are summarised as below :

- The Company has exposure to the following risks arising from financial instruments:
 - a) Market Risk
 - b) Liquidity Risk
 - c) Credit Risk

a) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of interest rate risk, and foreign currency risk.

1.1 Interest Rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's working capital obligations with floating interest rates. The Group is carrying its working capital borrowings primarily at variable rate.

The sensitivity analysis have been carried out based on the exposure to interest rates for loans carried at variable rate. A 50 Basis point increase or decrease represents management assessable of the reasonably possible change in interest rates.

DIVIDEND RELATED INFORMATION:

26. If the final dividend, as recommended by the Board of Directors, is approved at the AGM, payment of such dividend subject to deduction of tax at source will be made on or after Monday, September 25, 2023 to all Beneficial Owners in respect of equity shares as per the data as may be made available by the National Securities Depository Limited ("NSDL") and the Central Depository Services (India) Limited ("CDSL"), collectively "Depositories", as of end of day on Friday, September 15, 2023;
27. Members holding shares in demat form are hereby informed that bank particulars registered with their respective Depository Participants, with whom they maintain their demat accounts; will be used by the Company for the payment of dividend. The Company or its Registrar cannot act on any request received directly from the Members holding shares in demat form for any change of bank particulars. Such changes are to be intimated only to the Depository Participant(s) of the Members. Members holding shares in demat form are requested to intimate any change in their address and/or bank mandate immediately to their Depository Participants.
28. In case, the Company is unable to pay the dividend to any shareholder by the electronic mode, due to non-availability of the details of the bank account, the Company shall dispatch the dividend warrant / demand draft to such shareholder by post.
29. Shareholders may note that the Income Tax Act, 1961, as amended by the Finance Act, 2020, mandates that dividends paid or distributed by a Company after April 1, 2020 shall be taxable in the hands of the Shareholders. The Company shall therefore be required to deduct Tax at Source (TDS) at the time of making the final dividend. In order to enable us to determine the appropriate TDS rate as applicable, Members are requested to submit the documents in accordance with the provisions of the Income Tax Act, 1961.

- a) For Resident Shareholders, TDS shall be made under Section 194 of the Income Tax Act, 1961 at 10% on the amount of Dividend declared and paid by the Company during financial year 2022-23 provided PAN is registered by the Shareholder. If PAN is not registered, TDS would be deducted @ 20% as per Section 206AA of the Income Tax Act, 1961.

However, no tax shall be deducted on the Dividend payable to a resident Individual if the total dividend to be received by them during financial year 2022-23 does not exceed ` 5,000. Please note that this includes the future dividends if any which may be declared by the Board in the financial year 2022-23.

Separately, in cases where the shareholder provides Form 15G (applicable to any person other than a Company or a Firm or HUF)/Form 15H (applicable to an Individual above the age of 60 years), provided that the eligibility conditions are being met, no TDS shall be deducted.

- b) For Non-resident Shareholders, taxes are required to be withheld in accordance with the provisions of Section 195 of the Income Tax Act, 1961 at the rates in force. As per the relevant provisions of the Income Tax Act, 1961, the withholding tax shall be at the rate of 20% (plus applicable surcharge and cess) on the amount of Dividend payable to them. However, as per Section 90 of the Income Tax Act, 1961, the non-resident shareholder has the option to be governed by the provisions of the Double Tax Avoidance Agreement (DTAA) between India and the country of tax residence of the shareholder, if they are more beneficial to them. For this purpose, i.e. to avail the Tax Treaty benefits, the non-resident shareholder will have to provide the following:
 - Self-attested copy of Tax Residency Certificate (TRC) obtained from the tax authorities of the country of which the shareholder is resident.
 - Self declaration in Form 10F if all the details required in this form are not mentioned in the TRC.
 - Self-attested copy of the Permanent Account Number (PAN Card) allotted by the Indian Income Tax authorities.
 - Self-Declaration certifying the following points:
 - i.) Member is and will continue to remain a tax resident of the country of its residence during the financial year 2022-23;
 - ii.) Member is eligible to claim the beneficial DTAA rate for the purposes of tax withholding on dividend declared by the Company;
 - iii.) Member has no reason to believe that its claim for the benefits of the DTAA is impaired in any manner;

- iv.) Member is the ultimate beneficial owner of its shareholding in the Company and Dividend receivable from the Company; and
 - v.) Member does not have a taxable presence or a permanent establishment in India during the financial year 2022-23.
30. Please note that the Company is not obligated to apply the beneficial DTAA rates at the time of tax deduction/withholding on dividend amounts. Application of beneficial DTAA Rate shall depend upon the completeness and satisfactory review by the Company, of the documents submitted by Non- Resident shareholder.
 31. Accordingly, in order to enable us to determine the appropriate TDS/withholding tax rate applicable, we request you to provide these details and documents as mentioned above before Friday, September 15, 2023.

Past Remuneration: Not Applicable

Recognition or Awards: NIL

Job Profile and her suitability: Ms. Bijal Parikh (DIN: 07027983) is responsible for implementing policies and programs to improve business operations in line with management. She will look after the Finance, Accounts and HR divisions of the company.

Terms and Conditions of Remuneration: Up to Rupees 36.00 Lakh per annum subject to ceiling on maximum remuneration in terms of provisions of Section II of Part II of Schedule V to the Companies Act, 2013.

Comparative remuneration profile with respect to industry, size of the company, profile of the position and person: Taking into consideration the size of the Company, the profile of Ms. Bijal Parikh and the responsibilities shouldered on her and the industry bench marks, the proposed remuneration well below in compared to the comparable Companies.

Pecuniary relationship directly or indirectly with the company, or relationship with the managerial personnel, if any:

Nil except for the remuneration that she draws in her position of Executive Director of the Company.

In compliance with the provisions of Sections 196, 197, 198, 203 and other applicable provisions of the Act, read with Schedule V to the Act and SEBI (Listing Obligations and Disclosure Requirement) Regulations, 2015, as amended, the terms of appointment and remuneration specified above are now being submitted to the Members for their approval. Further, remuneration proposed above shall be valid for a period of three years w.e.f. August 14, 2023 until revised further.

The Board of Directors is of the view that the appointment of Ms. Bijal Parikh (DIN: 07027983) as Executive - Finance Director will be beneficial to the operations of the Company and accordingly recommends the Special Resolutions at Item No. 5 of the accompanying Notice for approval by the Members of the Company.

Except Ms. Bijal Parikh herself and their relatives to the extent of their shareholding in the Company, none of the Directors or Key Managerial Personnel of the Company including their relatives is interested or concerned in the Resolution.

Item No. 06

Pursuant to Section 161 of the Companies Act, 2013, the Board at its meeting held on May 30, 2023, appointed Ms. Pooja Khakhi (DIN: 07522176) as an Additional Director in the capacity of Independent Director of the Company for a term of five (5) years with effect from May 30, 2023 to May 29, 2028 (both days inclusive) subject to the approval of the shareholders. The approval of the Members was sought through postal ballot notice dated June 28, 2023. The Members of the Company through Postal Ballot on July 31, 2023 approved the proposal of appointment of Ms. Pooja Khakhi (DIN: 07522176) as an Independent Director. Total 12,932,283 votes were tendered in favor of the said resolution where as mere 59 votes were tendered against the resolution. Accordingly, all the conditions required for Special Resolutions were met for approval by the Members for the appointment of Ms. Pooja Khakhi (DIN: 07522176) as an Independent Director. However, due to some typographical errors, the Notice mentioned that the Resolutions required for her appointment is Ordinary Resolutions, although Board had proposed the Special Resolutions.

Due to above typographical errors, it may deem that the Company has not obtained the approval of the Members through Special Resolutions, though votes tendered by the Members are more than enough for meeting the requirement of Special Resolutions. To avoid any future complications, the Board has decided to obtain the approval of the Shareholders again for the appointment Ms. Pooja Khakhi (DIN: 07522176) as an Independent Director.

The Company has received a declaration from Ms. Pooja Khakhi to the effect that she meets the criteria of independence as provided in Section 149(6) of the Act and Rules framed thereunder and Regulation 16(1)(b) of Listing Regulations. Further, she has also confirmed that she is not aware of any circumstance or situation which exists or may be reasonably anticipated that could impair or impact her ability to discharge her duties. Further the Company has also received (i) consent in writing to act as director in Form DIR 2 pursuant to Rule 8 of Companies (Appointment & Qualification of Directors) Rules 2014 and (ii) intimation in Form DIR 8 in terms of Companies (Appointment & Qualification of Directors) Rules, 2014, to the effect that she is not disqualified under Sub-section (2) of Section 164 of the Companies Act, 2013.

The Nomination and Remuneration Committee ("NRC") had previously finalized the desired attributes for the selection of the Independent Director(s). Basis those attributes, the NRC recommended the candidature of Ms. Pooja Khakhi. Further, in the opinion of the Board, Ms. Pooja Khakhi fulfils the conditions for appointment as an Independent Director as specified in the Act and the Listing Regulations. Ms. Pooja Khakhi is independent of the management and possesses appropriate skills, experience and knowledge.

Details of Ms. Pooja Khakhi are provided in the "Annexure" to the Notice, pursuant to the provisions of (i) Listing Regulations

and (ii) Secretarial Standard on General Meetings (“SS2”), issued by the Institute of Company Secretaries of India. She shall be paid fees for attending meetings of the Board or Committees thereof or for any other purpose as may be decided by the Board, reimbursement of expenses for participating in the Board and other meetings and profit related commission within the limits stipulated under Section 197 of the Act.

All the material documents referred to in the Notice and Explanatory Statement such as the appointment letter, statutory forms etc. are available for inspection without any fee by the members at the Company’s registered office during normal business hours on working days from the date of dispatch of the notice up to the last date of voting, i.e. Friday, September 22, 2023.

All the material documents and information mentioned in the postal ballot notice dated June 28, 2023 shall remain unchanged and is reiterated hereunder for the information of the Members only.

In compliance with the provisions of Section 149 read with Schedule IV to the Act and Regulation 17 of the LODR Regulations, the approval of the Members is sought for the appointment of Ms. Pooja Khakhi as an Independent Director of the Company, as a Special Resolution as set out above.

Ms. Pooja Khakhi is interested in the resolution set out at Item No. 6 of the Notice with regard to her appointment. Relatives of Ms. Pooja Khakhi may be deemed to be interested in the resolution to the extent of their shareholding interest, if any, in the Company.

Save and except the above, none of the other Directors / Key Managerial Personnel of the Company / their relatives are, in any way, concerned or interested, financially or otherwise, in the resolution.

This statement may also be regarded as an appropriate disclosure under the Act and the Listing Regulations. The Board recommends the Special Resolution set out at Item no. 6 of the Notice for approval of the Members.

Item No. 07

The Company is basically engaged in the business of Hospitality, Events and Exhibitions Services. As per Section 186 of the Act read with the Rules framed there under, the Company is required to obtain the prior approval of the Members by way of a Special Resolution to give loan, to provide Guarantee and for acquisition by way of subscription, purchase or otherwise, the securities of any other body corporate exceeding 60% of its paid-up share capital, free reserves and securities premium account or 100% of its free reserves and securities premium account, whichever is more.

The Business of the Company is improving day by day and with that there would be surplus fund which would be idle for short term periods and require investment in various securities/debt funds, to avail the opportunity cost lost for such funds remaining idle.

Looking at the new Act, the approval of the Members is being sought by way of a Special Resolution under Section 186 of the Act read with the Rules made there under, to enable the Company to acquire the securities of any Body Corporate by way of subscription, purchase or otherwise, exceeding 60% of its paid-up share capital, free reserves and securities premium account or 100% of its free reserves and securities premium account, whichever is more.

The Board of Directors have proposed the limit not exceeding Rs. 200 crores with regard to make investment, provide loan, give guarantee(s) and/or provide security(ies), and accordingly, consent is hereby sought for overall limit not exceeding to Rs. 200 crores (Rupees Two Hundred Crores only).

None of the Directors and Key Managerial Personnel of the Company or their respective relatives is, in anyway, concerned or interested (financially or otherwise) in the said resolution. The Board recommends the Special Resolution set out at Item no. 07 of the Notice for approval of the Members.

Documents referred to in the notice/ explanatory statement will be available for inspection by the Members of the Company as per applicable law.
