Mirchi – Going beyond the Dial!

In line with our commitment to deliver multiplatform entertainment, Mirchi continues to be an integral part of millions of consumers' lives, extending beyond traditional Radio offerings such as Digital Content and LIVE experiences. Our robust digital presence has played a pivotal role in reshaping Mirchi as India's leading city-centric multiplatform entertainment company. This transformation marks the beginning of a new chapter as we embark on a path to achieve significant digital milestones.

Last year, we took a momentous stride towards digital transformation with the launch of our proprietary digital platform, Mirchi Plus. Available as an App (on Android & iOS), a Progressive Web App (PWA), and a Desktop site, Mirchi Plus has seamlessly connected with audiences both within India and across international markets. This significant leap has not only made Mirchi accessible with a simple click, anytime, anywhere, but has also forged a fresh digital identity in the hearts and minds of our global consumers.

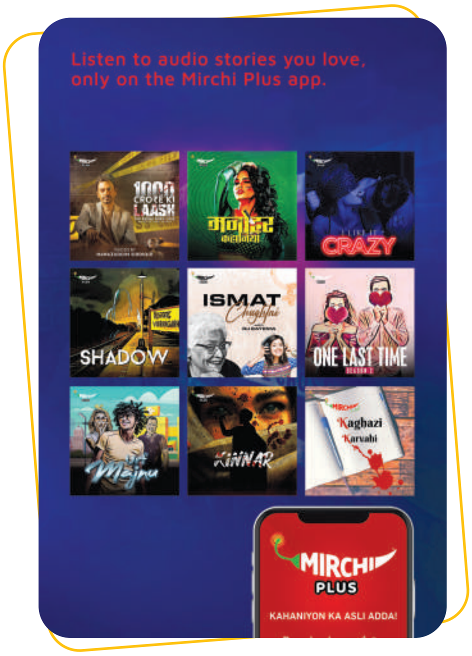
But this is just the beginning! Our presence in the digital space will intensify with each passing year, in sync with the evolving preferences of our consumers and the rapid adoption of digital avenues for entertainment. At Mirchi, we aspire to be at the forefront of the digital media and entertainment industry, delivering captivating content across diverse linear and non-linear platforms. To achieve this, we leverage data-driven insights and cutting-edge technology, striving to foster a robust Indian community while leading the way in audio entertainment.

We remain committed to creating significant shareholder value through both direct and indirect audience monetization, staying committed to enriching the lives of our consumers and elevating the entertainment experience to unparalleled heights.

Mirchi's journey towards digital transformation is a testament to our dedication to innovation and our unwavering pursuit of excellence. With the ever-changing landscape of media and entertainment, we embrace the challenges and opportunities ahead, confident in our ability to shape a promising future for Mirchi and all our stakeholders.

Mirchi Digital's Remarkable Journey in FY23: Exponential Growth and Achievements

FY23 has been a remarkable year for Mirchi Digital, witnessing unprecedented growth and remarkable achievements. The launch of our flagship platform, Mirchi Plus, in July'22 marked a turning point.



Living up to its promise of being the "Kahaniyon Ka Asli Adda" (The True Hub of Stories), Mirchi Plus platform offers a vast library of content with hundreds of hours of captivating stories. A diverse pool of creators and producers have crafted marquee audio content across a myriad of genres, including romance, thriller, horror, mystery, comedy and more catering to audiences in multiple languages such as Hindi, Tamil, Telugu, Malayalam, Marathi, Gujarati, Bengali, Kannada and beyond. The platform is centered around audio content while also providing Bollywood video content and text stories, offering an immersive storytelling experience.

Marking our foray into the Indian Audio OTT space, Mirchi Plus has made an impressive impact in just 9 months since its launch. We have successfully scaled our Owned and Operated (O&O) platform, attracting a substantial user base of approximately 4.6 million by the year-end. The most striking aspect of this achievement is that nearly 80% of this traction was generated organically, reflecting the profound resonance and acclaim Mirchi Plus has garnered among our cherished audience.

During these 9 months, Mirchi Plus has set new industry benchmarks, boasting one of the best stickiness ratios (DAU/MAU - Daily Active Users to Monthly Active Users) and exceptionally high open rates on its platforms, surpassing all competition. Our dedication to delivering engaging and compelling content has resonated with users, resulting in a thriving and loyal user base.

Moreover, we took a strategic decision to aggregate and consolidate all our Social Media Assets, including Filmy Mirchi and Mirchi Play, under the Mirchi Plus umbrella. This integration proved to be a game-changer, as Mirchi Plus set new standards for interactions and virality on social media platforms. Notably, on Facebook alone, interactions on Mirchi Plus content reached approximately 8 million in a month, surpassing competitors by a significant margin. The reshares on Mirchi Plus content were an astounding 5 times more than the runner-up, exemplifying the virality of our content. This success opened up an entirely new social programmatic revenue line for Mirchi Plus from Facebook.

Furthermore, the impact of this integration extended to YouTube, where **the average monthly revenue surged by an impressive 74%, and views witnessed a remarkable growth of 133% compared to H1 FY22.**

As we reflect on the achievements of FY23, we remain dedicated to raising the bar even higher, striving to provide our users with unparalleled digital experiences and further solidifying Mirchi Digital's position as a leading player in the digital media and entertainment landscape. With an unwavering commitment to innovation and audience engagement, we are poised to build upon these achievements and unlock new avenues of growth in the exciting journey ahead.

The most striking aspect of this achievement is that nearly 80% of this traction was generated organically.

Embracing tomorrow with AI enablement

At the core of our endeavors lies a deep belief in the revolutionary potential of AI. In the pursuit of continuous innovation, this year we explored the transformative capabilities of AI, seeking to uplift the productivity and quality of our content creation processes across all aspects of our operations.

For Mirchi Plus, we employed AI to create more than 100+ stunning thumbnails for audio stories, elevating the visual appeal of our platform. Additionally, AI-based video and display creatives played a vital role in several performance marketing campaigns targeted at Hindi, Tamil and Bangla audiences. The results were remarkable, with AI-generated creatives outperforming creatives done by humans, leading to improved click-through rates (CTRs).

To optimize text-based content generation, we integrated Chat GPT, an AI-powered language model, which assisted in generating approximately 15-20% of our textual content.

In the future, the seamless integration of advanced AI technologies into our processes will not only lead to remarkable cost and time savings but also eliminate our reliance on external vendors, revolutionizing the content creation process and eradicating bottlenecks.

As we continue to explore and embrace the boundless potential of AI, we remain dedicated to driving innovation and leveraging technologies to deliver exceptional content experiences and elevate the overall impact of Mirchi in the dynamic digital landscape.

Introducing Mirchi ShAI: AI powered digital influencer

In an ever-evolving digital landscape, the need to stay relevant and resonate with audiences is paramount. As the media and entertainment industry navigates the intricacies of modern-day engagement, harnessing the potential of AI-powered digital influencers emerges as a crucial strategic imperative.

The rise of AI technology has ushered in a new era of content creation and audience interaction. We launched Mirchi ShAI, an AI-powered digital influencer. Mirchi ShAI embodies the perfect blend of human-like persona and AI capabilities, offering an unparalleled opportunity to captivate audiences and establish genuine connections.

Meet Mirchi ShAI, a vivacious and ambitious 24-year-old Indian woman, born into a middle-class family, but with a strong connection to her Indian roots and progressive values. ShAI is passionate about everything Bollywood – from gossip to movies and music. **Not only does she share her thoughts on the industry, but she's also a talented singer, showcasing her renditions of popular Bollywood songs on social media.** In her free time, she indulges in classic Bollywood films and explores the city's vibrant culture and food scene with her friends. Her dream is to grow her online presence and host her own Bollywood talk show, inspiring young Indian women to pursue their passions, embrace their individuality, and find success on their terms. You can find her interacting with Mirchi RJs and viewers on her Insta handle. In the last 90 days SHAI reached more than 150K Instagram users and engaged with 12K plus of them. Major traction has been garnered with reels. Users have also started interacting with ShAI in the DMs which is a great sign from a fanbase perspective.

By introducing an AI-powered digital influencer like Mirchi ShAI, brands can unlock a world of possibilities. The demand for relatable, authentic and entertaining content is at an all-time high. A digital influencer like ShAI can effortlessly cater to these requirements, delivering personalized content that resonates with diverse demographics. Through AI-driven insights, ShAI can adapt and tailor her approach to cater to the ever-changing preferences of her audience, fostering a stronger bond and ensuring sustained engagement.

Moreover, the scalability and cost-effectiveness of AI-powered influencers present a significant advantage. With the ability to reach a vast audience across multiple platforms simultaneously, Mirchi ShAI opens doors to broader markets and enhances brand exposure.

In the last 90 days SHAI reached more than 150K Instagram users

The launch of an AI-powered digital influencer is a forward-looking investment that positions Mirchi at the forefront of technological innovation. It represents a strategic shift towards embracing progressive technology to elevate brand visibility, customer engagement, and brand loyalty.

Mirchi expands its digital portfolio with the launch of – M-Ping

Digital audio consumption in India has witnessed substantial growth, both during and post the pandemic. As advertisers recognize the potential of digital mediums to engage with their target groups through data-driven and ROI-oriented ad spends, the demand for effective audio marketing solutions has surged.

In response to this evolving landscape, and leveraging our expertise in audio monetization of FM Radio, we introduced a comprehensive solution for advertisers - M-Ping. This one-stop solution enables advertisers to reach relevant audiences across all audio OTT platforms, delivering end-to-end audio campaigns encompassing ideation, creation, and execution.

M-Ping adopts an audience-centric and platform-agnostic approach, empowering brands to connect with their audiences regardless of the audio platform they are tuned into. Its advanced affinity-based targeting ensures precise customer segmentation based on parameters such as cities, pin codes, gender, age, affinity, category, language, devices, OS, and more, maximizing ROI for advertisers.

With the ability to target approximately 100 million unique users via renowned ad exchanges like AdsWizz, Magnite, Triton, DV360, and others across 200+ publishers, M-Ping excels in granular targeting. This level of precision enables advertisers to engage with their specific customer segments effectively, capitalizing on Mirchi's extensive audio expertise.

The launch of M-Ping further bolsters Mirchi's diverse multi-media solution approach, enabling advertisers to communicate with their target audience more effectively across various online advertising mediums, formats, and platforms.

In FY23, the introduction of M-Ping marked a significant milestone, positioning it as a pivotal destination for advertisers seeking comprehensive digital audio marketing solutions. The platform's audience-centric and platform-agnostic approach ensures seamless connections between advertisers and their target audiences, empowering brands to navigate the digital audio ecosystem with unparalleled efficacy.

With the ability to target approximately 100 million unique users via renowned ad exchanges like AdsWizz, Magnite, Triton, DV360, and others across 200+ publishers, M-Ping excels in granular targeting.

Empowering Brands with Customized Solutions: Mirchi's FY23 Success Stories

Mirchi's core strength lies in its ability to craft tailored "solutions" for advertisers, offering a wide array of creative strategies to achieve impactful brand engagement. With a diverse radio network, a robust digital content creation engine, and a thriving Live business unit, Mirchi has evolved into a comprehensive media powerhouse.

At the heart of our offerings is Mirchi Brewery, a dynamic ideation, planning, and execution unit, dedicated to delivering ingenious solutions for brands. Recognizing that consumers prioritize their experiences over platforms, we center our approach on developing compelling content that resonates with present-day audiences. **Our content dissemination spans multiple platforms, encompassing FM, digital, social media, television channels and more ensuring maximum reach and impact.**

Moreover, Mirchi Impact Properties offer brands the opportunity to connect with audiences in a more immersive manner. In FY23, we achieved remarkable success with the production and execution of major digital impact properties. Notable highlights include "What Women Want with Kareena Kapoor Khan" Season 4, "Shape of You with Shilpa Shetty," and "Dream Homes with Gauri Khan," alongside innovative solution-led regional IPs like "Mirchi Rock n Dhol" and "Green Yodha." These events, reimagined with strong digital components, garnered widespread acclaim, leading to an impressive haul of 37 awards across various advertising forums, including Best Digital, On-ground, Interactive, CSR and Radio campaigns.

The Solutions business not only earned us strong client retention but also secured the coveted 'Station of the Year' accolade at the Golden Mike Awards for the second consecutive year. Additionally, our impactful work on the WHO campaign was acknowledged at the G-20 Youth Summit, where it was showcased as a successful case study, affirming the promising potential for substantial growth in the Solutions business.

As we look ahead, we are committed to continuously innovating and collaborating with brands to create meaningful and memorable experiences for audiences. Mirchi's dedication to customized solutions, backed by our relentless pursuit of excellence, positions us at the forefront of the media and entertainment industry, propelling us towards a future marked by unprecedented success and growth.

Mirchi's International Ventures: Navigating Diverse Markets and Embracing Opportunities

North America

In 2019, Mirchi launched its inaugural US station in the tri-state area comprising New York, New Jersey, and Connecticut. Expanding rapidly we reached cities such as Raleigh-Durham, Philadelphia, Baltimore, Cleveland, Columbus, Atlanta, and St. Louis. This expansion was facilitated through a brand licensing arrangement with a local partner, utilizing HD radio technology.

At present, Mirchi is accessible through two terrestrial stations in the US, namely in New Jersey and Dallas. These two stations are among the three largest radio markets for South Asian radio in the US, both in terms of revenue potential and listener base.

While New Jersey has been in existence since January 2019, the Dallas station was launched in April'2022. Besides these terrestrial stations, Mirchi is also available online on www.radiomirchiusa.com, Amazon Alexa, and the Mirchi Plus App, which was launched in mid-February 2022.

In New Jersey, we are the undisputed leader in revenue with an estimated 50% revenue share in a 3-player market, which also indicates our listenership leadership status. In Dallas where we have a brand and content licensing agreement with FA (Fun Asia) Radio International LLC, the product has been well received and is getting good feedback, the call-ins to the station being a clear indicator of the love for the station.

We exited the San Francisco market in January 2023 and are now scouting for another partner/opportunity to re-enter this market.

The Mirchi App was launched in Canada in April'2022, with the lead station being "Yo Punjabi", a station targeted at the large Punjabi diaspora in Canada.

UAE

With a strong brand name and high-quality content, we enjoyed a successful presence in the UAE for over 8 years through a Brand & Content License agreement with the Abu Dhabi Media Company. After re-entering the market in March 2021, we partnered with Dolphin Recording Studio to transform their brand Suno FM into the new and vibrant Mirchi 102.4FM. Within two years of its launch, Mirchi 102.4 FM has garnered a unique listening experience for discerning audiences in the UAE. Our RJs and official Mirchi handle have become the 2nd largest on social media, standing out in a competitive market with 10 other vernacular stations.

Bahrain

In 2019, we participated in the bidding process for the station license in Bahrain. The results of the bidding were announced in June 2020, during the midst of the pandemic and was launched on May 9, 2021. Bahrain faced a “red alert” status for almost 9 months of FY21 and more than 4-5 months of FY22 due to the pandemic’s impact.

Additionally, a considerable portion of our target audience (South Asians) had returned to their home countries, resulting in a substantial reduction in advertising expenditures from businesses targeting this demographic.

We remain committed to the market as we make our operations more efficient and profitable in Bahrain.

As a consequence of the pandemic and its implications on the local economy, the estimated market potential in Bahrain significantly contracted, declining by nearly 50%. This contraction was primarily attributed to Bahrain being a relatively small market, with many businesses closing down during the pandemic.

Qatar

In partnership with a local partner, we launched MirchiOne in Qatar in March 2021. MirchiOne has firmly established itself as the radio station of choice, both for listeners and advertisers in Qatar. In the 2 years we have been in the market, we have also established a robust activation business, being the only non-paying brand to be given a Fan Zone during the football World Cup in Qatar by the Government, a validation of the reputation of the brand in Qatar.

Future Expansion

Mirchi envisions expanding to several more countries through Brand and Content licensing routes, while aggressively promoting the Mirchi Plus app for future subscription revenue. We recognize the potential in international markets with sizable Indian and South Asian populations, offering opportunities for Brand Mirchi to thrive not only as a radio station but also in events, concerts, and digital content. The possibilities for Brand Mirchi in international markets are vast and promising.

Content – Our North Star!

With each year that goes by, our commitment to a platform-agnostic, content-first strategy grows stronger. As mentioned earlier, FY23 marked a significant milestone in our content creation journey with the launch of Mirchi Plus. This platform has enabled us to expand our offerings beyond hyper-local FM Radio content, providing our audience with a diverse range of high-quality entertainment content in audio, video and text formats.

The dedicated team at Mirchi Plus has been nothing short of exceptional in their creativity and productivity. From celebrity shows that create a buzz to thrilling audio stories and impactful videos, we have consistently delivered captivating and engaging content across all verticals.

Our focus on content remains unwavering as we continue to cater to the evolving preferences of our audience. By placing content at the heart of our endeavours, we strive to offer experiences that resonate with our listeners and viewers, strengthening our position as a leading entertainment platform.

As mentioned earlier, FY23 marked a significant milestone in our content creation journey with the launch of Mirchi Plus.

Marquee Audio Stories led the way for Mirchi Plus

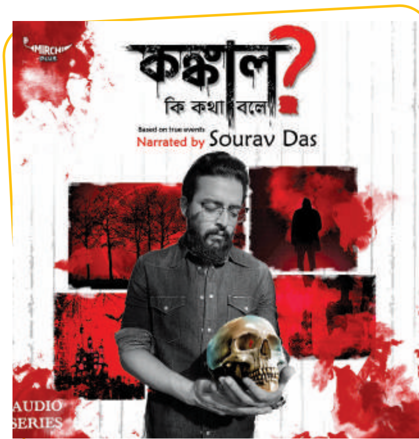
In the realm of Digital Audio Stories, Mirchi Plus has truly excelled, creating an impressive library of over 3000+ hours of original audio content across various content categories, including romance, thriller, horror, mystery, comedy, and more. Our dedicated team of domain experts has consistently engaged, inspired, and entertained audiences in multiple languages, including Hindi, Punjabi, Marathi, Gujarati, Bangla, Telugu, Kannada, and others.

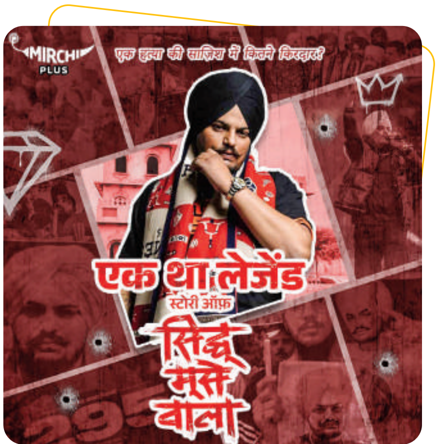
Throughout the year, Mirchi Plus has proudly stood as the 'Kahaniyon Ka Asli Adda' - the true destination for entertainment in the Indian audio OTT space. **We have witnessed the launch of several marquee shows that not only generated significant buzz but also earned prestigious accolades, including the Golden Mikes and ACEF awards.**

Our marquee shows have been nothing short of extraordinary, featuring renowned narrators and hosts who brought these captivating stories to life. The lineup includes "1000 Crore ki Laash" narrated by Nawazuddin Siddiqui, "Aakhri Rishta" by Neena Gupta, "196 Phere" voiced by Gopal Dutt, and intriguing true crime stories by Suhaib Illiasi, Purane Khat by Rhea Chakraborty, and a legend's story – Siddhu Moose Wala. These shows have not only garnered critical acclaim but also resonated deeply with our audience, solidifying Mirchi Plus as a preferred platform for premium audio content.

Furthermore, our ventures into producing marquee shows in regional languages have been met with resounding success. For instance, in Bengali, the captivating "Konkal Ki Kotha bole," narrated by Saurav Das, was inspired by the real-life Robinson Street House Murder in Kolkata, reimagined as a gripping 10-episode series. In Tamil, the groundbreaking "Antharangam Unlimited," the first-ever podcast about sex, sexual health, relationships, and taboos, hosted by actress Reshma Pasupuleti, has received acclaim and recognition, winning the Best Podcast (Health & Fitness) awards at Golden Mikes and ACEF.

The success and impact of our marquee audio stories have reaffirmed Mirchi Plus's position as a leading player in the digital audio entertainment industry. As we continue to innovate and elevate our content offerings, we look forward to even greater achievements and recognition in the year ahead.





Digital Video Content: A Year of Marvelous Creations

Mirchi's digital video content initiative had an exceptional year, producing a multitude of marquee shows across various video platforms. Our focus on captivating content that resonated with both audiences and brands led to resounding success. Notable highlights include the fourth season of 'What Women Want - with Kareena Kapoor Khan' and the launch of two new IP shows.

'What Women Want' promises honest, insightful, fun and candid conversations between the unabashed Kareena Kapoor Khan and prominent personalities. This show has been a favorite among audiences, delivering engaging and thought-provoking discussions.

'Dream Homes with Gauri Khan' marked the digital debut of film producer and interior designer Gauri Khan as a host. In its first season with six episodes, the show took viewers on a captivating makeover journey of some of Bollywood's most popular celebrities' homes. Gauri Khan's

expertise transformed spaces for well-known personalities like Manish Malhotra, Jacqueline Fernandez, Farah Khan, Katrina Kaif, Kabir Khan and Malaika Arora. **The show's success was evident, with millions of fans tuning in on Mirchi Plus platform, YouTube channel, Colors Infinity HD and SD.**

Continuing our commitment to diverse content, we also launched new episodes of 'Shape of You with Shilpa Shetty' - a wellness-themed chat show. Shilpa engaged Indian celebrities in discussions about physical and mental wellbeing, resonating with viewers seeking health-related insights.

Adding to the array of captivating content, Mirchi presented 'Hot Seat: Celebrating Unapologetic Individuals,' a riveting 40-minute show that honored remarkable individuals who triumphed over societal challenges. The five-episode series featured eminent personalities from diverse backgrounds, including Uorfi Javed, Poonam Pandey, Paras Tomar, Renee Dhyani, and Sridevi Londhe. In each episode, RJ Shardul engaged in enlightening conversations with the guests, delving into their extraordinary life journeys and success stories. The show fearlessly explored themes like taboo, controversy, and their relentless pursuit of unconventional paths, leaving a profound impact on viewers. From Uorfi Javed and Poonam Pandey's struggles as women in the showbiz industry to Sridevi Londhe's courageous fight against prejudice as Mumbai's first transgender graduate, 'Hot Seat' showcased inspiring tales of resilience and determination. By celebrating these unapologetic individuals, we aimed to ignite conversations and challenge societal norms. The show's empowering narratives served as a testament to the strength of human spirit and the limitless possibilities of breaking barriers.

In addition to these marquee shows, our video team delighted audiences with side-splitting sketches and vox pop videos on trending topics. We catered to both short-form and long-form content, ensuring a wide range of entertainment options for our viewers.

As we move forward, Mirchi remains committed to delivering exceptional digital video content that captivates, entertains, and sparks conversations. With a focus on innovation and creativity, **we look forward to exceeding expectations and achieving even greater heights in the year ahead.**

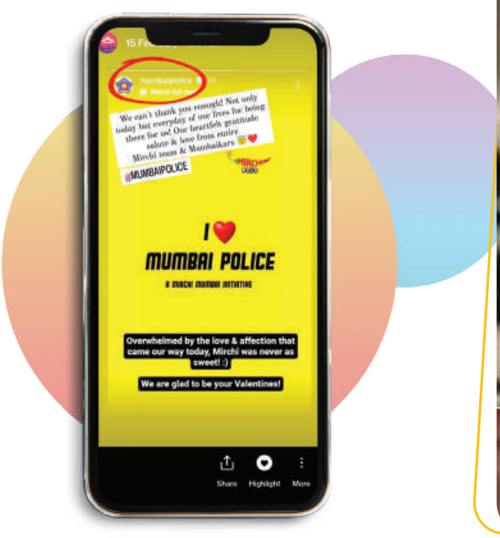
Mirchi
remains committed to delivering exceptional digital video content that captivates, entertains and sparks conversations.

Staying committed: Crafting city-centric content on FM that connects

As our digital ventures flourish, FM radio remains firmly entrenched as the heart of our business. In the past year, we crafted an exceptional array of radio content that resonated deeply with our cherished listeners and earned accolades from esteemed industry bodies. Here are just a few glimpses of our remarkable achievements:

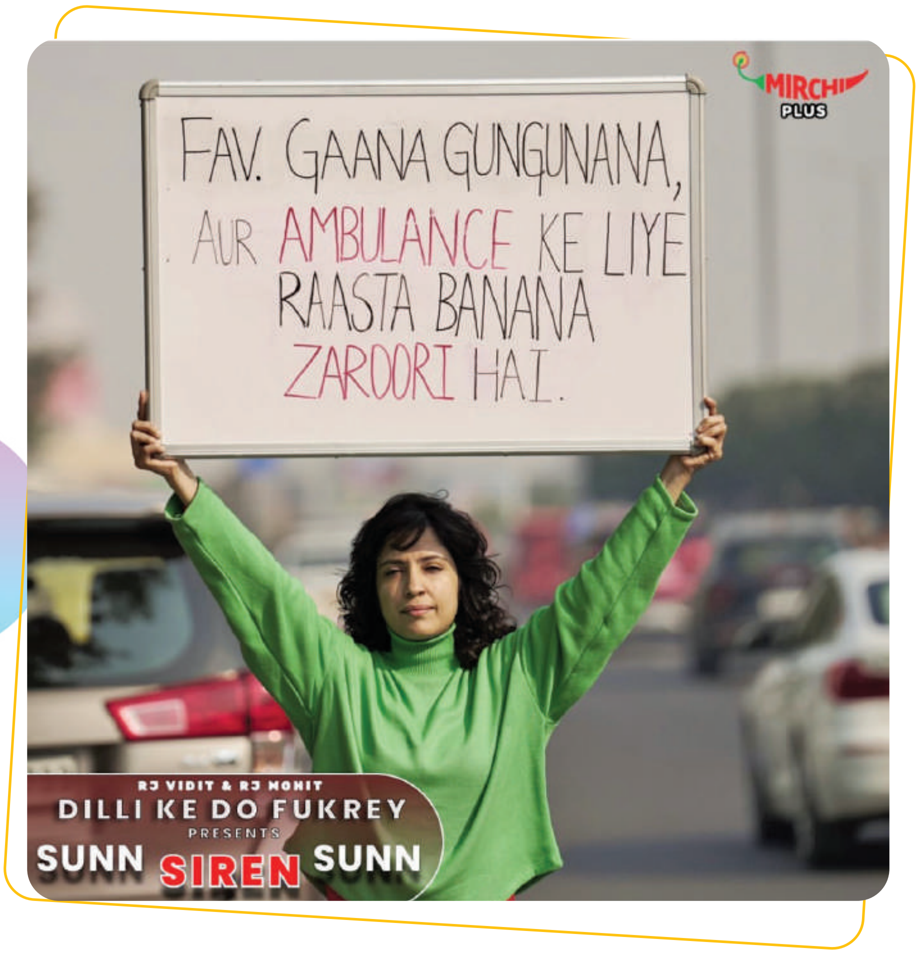
Mirchi Mumbai celebrated Valentine's Day with Mumbai Police

We celebrated Valentine's Day with Mumbai Police, by going to different locations of Mumbai; holding banners & gifting roses to Mumbai Police and telling them 'We Love You'! Perfect blend of on-air & on-ground execution where emotional stories around them were shared by Mumbaikars. It culminated with an exclusive interview with the commissioner, Shri Vivek Phansalkar. Till date this is his only radio interview. Cherry on the cake being – the official Instagram handle of Mumbai Police shared our Insta reel saying: 'Overwhelmed by the love & affection that came our way today, Mirchi was never as sweet☺ We are glad to be your Valentines!'



Sun Siren Sun campaign made ways for ambulances in Delhi

Using the power of radio, through this initiative, we successfully created green corridors for patients. We helped them reach the hospital before time, by announcing the LIVE locations of the patients shared by the ambulance pilot. While the initiative was able to help spread awareness on many critical fronts, the highlight that won us over was saving the life of a three-month-old kid. Through a collaborative effort run solely through radio and calls we were able to help the ambulance reach the hospital before time. The initiative was applauded by government officials and film stars who took the oath to make way for ambulances. **The initiative also won us a Golden Mike Award 2023 for Best Public Service Initiative by a Broadcaster.**



Mirchi Jaipur's Uperman literally spreads love in the air

Celebrating love, too cliched, flying in love, the best feeling in the world, right? Well Mirchi Jaipur made that happen for a lucky couple. During the Valentine's week, Mirchi's Uperman found out the most unconventional love story of the town and the couple were taken on a hot air balloon ride, and their flight of love started. This was marked as one of the biggest and first of its kind activity in Rajasthan.

Jaam Pe Jam: Chandigarh learns traffic rules with some dance & music

From Radio to Road, Mirchi Chandigarh Jocks got on the major traffic lights of Chandigarh to perform & dance on parody songs which carried a message of having better sense about new traffic rules. Also, our entire content team, with a bunch of volunteers were carrying meme placards which were covered by many digital portals and newspapers. **We collaborated with Chandigarh traffic police, our team was in constant touch with DSP Traffic, who also became a co-jock in our morning show with our morning show host - Mirchi Vishal.** More than 250 people reached out to us through calls and our team answered their queries keeping Chandigarh Police in loop, regarding the new traffic rules.

This monsoon Mirchi Jaipur wishes - Happy Gaddhe to You!

One of the most talked about campaigns of Mirchi Love Jaipur was launched in the monsoon month. The euphoria of the first showers soon turns to the blues as potholes emerge on our roads. Mirchi came forward to address this issue, wherein we went on roads with cake and balloons to celebrate the birth of potholes, talked about the places where people are facing problems related to the potholes. This was a Radio + On Ground activity, which was a success, as a result of which some of the potholes were repaired by the authorities.

Mirchi Khushir Pujo: The most awaited Durga Puja celebration of Kolkata

Mirchi Khushir Pujo was back with a bang post Covid in 2022! The celebration of the underdog pujo communities was the peak of our talking point! Our promotions included multiple touch points like various promos, a series of fun sparkler called Doibobaani, which are conversations between Durga with her family members and children including Mahishashur! An anthem made inhouse played during that period. Along with radio mentions that spoke about the fun, humour and emotions associated with para pujos, Mirchi Jocks also visited around 50 odd paras, all around the city. **The finale was in one of the biggest malls of the city with various musical entertainment acts and gaming rounds and the champion was decided in presence of Tolly town celebs!**

In November 2022, Team Telugu launched **"Mirchi Men-O-Pause,"** a thought-provoking campaign dedicated to raising awareness about men's mental health.

#SheVaccine #RespectWomen #GenderEquality

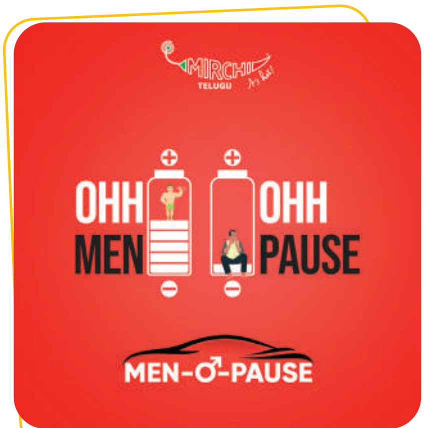
A powerful movement aimed at fostering respect for women and promoting gender equality was initiated by our Telegu team. The campaign's message resonated strongly, encouraging men with progressive views to champion the cause, and it garnered widespread appreciation on-air and across social media platforms. Esteemed hyper-local media outlets such as DailyHunt, 123telugu.com and Sakshi applauded the campaign's impact, further solidifying its success.

Dorikithene Donga – 1 artist 23 characters, a must listen audio book

A crowning achievement followed with the release of the New York Radio Award Festival Nominated audio book, "Dorikithene Donga" (Innocent until Proven Guilty). This thrilling adaptation of a popular novel from the 1960s, written by Kovvali Lakshmi Narasimha Rao, kept audiences on the edge of their seats. **The audio book, published on the Mirchi Plus App in August 2022, quickly became a crowd favorite,** thanks to its immersive storytelling and masterful use of Telugu colloquial preferences and background scores. Remarkably, a single VO artist brought all 23 characters to life, while the producer skillfully coordinated resources across two different states in Southern India (Andhra Pradesh & Telengana), showcasing the team's passion for delivering exceptional content

Mirchi says MEN-O-PAUSE! And reconsider your mental health

In November 2022, Team Telugu launched "Mirchi Men-O-Pause," a thought-provoking campaign dedicated to raising awareness about men's mental health. The campaign urged progressive-minded men in society to break free from stereotypes and embrace vulnerability and honesty. Dramatic monologues by RJ Saran on Mirchi's social media handles, along with satirical and humorous on-air promos, conveyed the message with impact. The campaign struck a chord with the public, prompting an outpouring of support through calls and messages to the jocks and stations. **It was even nominated in the prestigious #E4MGoldenMikes2022 Best Radio Campaign for Self-Promotion, underscoring its effectiveness.**



Mirchi Music Awards Bangla 2023: Celebrating the finest in Bangla Music

Once again, Mirchi Music Awards Bangla set a new standard in the realm of musical excellence. The grand celebration of Bangla music unfolded with excitement and revelry, showcasing the industry's finest talents. As the biggest and only platform to honor Bangla music, the award function gathered stars from the music, film, and television fraternity for a night of unforgettable performances and recognition.

Letter from the CEO

Charting our course towards a digital future

Warm greetings to each of you! As I write to you for the first time as the CEO of Mirchi, I am filled with a sense of excitement at what lies ahead. Your Company has been a mainstay of the radio industry for years but I believe we are at the cusp of something even bigger.

Everyone today is complaining about the deluge of media hitting them from everywhere – social media on their phones to hundreds of channels, OTT platforms, Podcasts... the list is getting longer. In the midst of all this, we want your Company to retain its core – a traditional advertising business on the back of great content while continuing to develop its muscle in the digital space. I believe that there is immense untapped potential - both in the traditional and digital spaces that we want to capitalize on.

Over the years, Mirchi has made a successful transition from being a single-medium entity to a vibrant, city-centric entertainment Company, offering services across multiple platforms. This transformation, expedited by the digital disruption during the pandemic, places us in the midst of an exciting era in the media industry. Our consumers' choices are constantly evolving, and the digital revolution has unlocked new avenues for captivating content. While our traditional advertising business remains integral to our legacy, we are keenly focused on exploring and expanding our digital footprint.

Over the years, Mirchi has made a successful transition from being a single-medium entity to a vibrant, city-centric entertainment Company, offering services across multiple platforms.

With our versatile radio network, strong digital content creation infrastructure, and a thriving Live business unit, Mirchi has matured into a comprehensive media conglomerate.

The challenges posed by the pandemic have been significant, but they also brought about a sense of urgency to reassess the cost models and to streamline operations. This experience has helped your Company emerge as a leaner, more efficient organization with the healthiest operating numbers in the industry. The radio business has shown incredible resilience during these trying times. Record volumes and an increased number of billers have demonstrated that when it comes to hyper-local engagement, radio and Radio Mirchi remain unparalleled.

Mirchi's core competence lies in its unique ability to create tailored "solutions" for advertisers. By offering a broad spectrum of creative strategies, we facilitate impactful brand engagement. With our versatile radio network, strong digital content creation infrastructure, and a thriving Live business unit, Mirchi has matured into a comprehensive media conglomerate. At the heart of our strategy is Mirchi Brewery, a vibrant unit dedicated to ideation, planning, and execution. Understanding that today's consumers value experiences over platforms, we've centered our approach on developing engaging content that resonates with current audiences. Our content distribution spans across multiple channels – FM, digital, social media, television and more, ensuring maximum reach and impact. Our solutions-based model has not only helped retain a strong client base but also bagged the 'Station of the Year' award at the Golden Mike Awards for the second consecutive year. Additionally, our significant contribution to the WHO campaign was recognized at the G-20 Youth Summit, indicating a promising trajectory for substantial growth in our Solutions business.

Last year, we marked a pivotal milestone towards digital transformation with the unveiling of our exclusive digital platform, Mirchi Plus. Accessible as an App (on Android & iOS), a Progressive Web App (PWA), and a desktop site, Mirchi Plus has seamlessly connected with audiences both in India and internationally. This significant leap has not only brought Mirchi to everyone's fingertips, anytime, anywhere, but has also carved a new digital identity in the hearts and minds of our global consumers. Within just 9 months of its launch, Mirchi Plus has successfully attracted a user base of approximately 4.6 million users. We are using the power of AI to help us innovate. This year, AI revolutionized content creation: in Mirchi Plus, AI designed more than 100 engaging audio story thumbnails. AI also drove impactful video and display campaigns, outperforming human-made content and elevating click-through rates (CTRs). We have also integrated ChatGPT for text-based content, making a substantial contribution.

Our dedication to innovation and leveraging technology to create outstanding content experiences remains steadfast, as we explore AI's boundless potential in the dynamic digital landscape

Adapting to this evolving landscape and leveraging our sales expertise in audio monetization of FM Radio, we introduced M-Ping, a comprehensive solution for advertisers. This platform allows advertisers to reach relevant audiences across all audio OTT platforms, delivering complete audio campaigns from ideation to execution.

The examples above illustrate our clear understanding of the advertiser and more importantly, the consumer of our content, and we are looking to leverage both these strengths in a big way to continue improving your Company's performance, efficiency and profitability.

We remain committed to enhancing shareholder value, enriching the lives of our consumers, and elevating the entertainment experience to unmatched levels.

So, stay tuned as we embark on a journey into a bright, digital future.

Yatish Mehrishi
Chief Executive Officer

Board of Directors

Mr. Vineet Jain

(Chairman & Non-Executive Director)

Mr. Vineet Jain is the Managing Director of India's oldest, largest, and most respected media group, the 184-year-old Bennett, Coleman & Co. Limited ('BCCL'), also known as Times Group. He has been driving all operations of BCCL, as well as the content & editorial architecture for the entire Group. Mr. Vineet Jain has been the driving force behind the diversification and expansion of what began as a traditional publishing business under the flagship The Times of India. Today, the Times Group is No. 1 across the media spectrum - be it internet, radio, music, news television, OTT, or out-of-home - thanks to his vision and leadership, and hands-on approach.

A combination of business acumen, strategic insight, and creative energy - and a deep understanding of both content and marketing - has helped keep the Times Group future-focused. Underpinning all this is Mr. Jain's obsession with keeping the consumer at the centre of everything the Group does and his abiding belief in the transformative power of positive change. He built the largest omni-channel news network in the country with leadership across print, digital, and TV mediums, with a keen eye on the product and a constant focus on innovation across the different formats.

The brands - which straddle platforms and audiences - speak to his success. He revolutionized the content behind The Times of India and The Economic Times, making them more contemporary and appealing to even younger audiences today. He played a pivotal role in transforming BCCL into a multimedia company with a powerhouse of brands across Radio (Mirchi), TV (Times Network), OOH (Times OOH), Music (Times Music), Movies (Junglee), and Marquee IPs (Filmfare, Femina, as well as ET Awards and Global Business Summit to name a few).

Mr. Jain spotted the digital trend early on and was instrumental in putting together the building blocks for the internet businesses within the Group. He was actively involved in all aspects of the internet business, leading Times Internet to become the largest news publisher online. He was also instrumental in launching Magicbricks, which is today India's largest real estate marketplace.

His belief that the future of India lies with an educated and engaged youth led to the establishment of Bennett University, and its growing recognition as a respected institution and brand. Under his leadership, Times Pro - the Edtech arm of the Group - has taken the Group's focus on education to the next level with its strong focus on higher education, upskilling, and executive education.

Mr. Jain has won several accolades including The Rajiv Gandhi Award for Corporate Excellence, and Indian Telly Award for his contribution to Indian TV Broadcasting Industry, in 2009; IMPACT Person of the Year, 2013; Entrepreneur of the Year Award 2013 from the Bombay Management Association; Media Person of the Year Award from the International Advertising Association (IAA) in 2015; the Indian Television Academy's 'Sterling Icon of Indian Entertainment – Media'; Art Karat Award for Excellence in Media; and AsiaOne Global Indian of the Year 2018; Lifetime Achievement Award at exchange4media News Broadcasting Awards (enba) 2018; Bharatiya Mahanatam Vikas Puraskar 2018-19; Impact Digital Power 100, 2020: Business Leaders; ITA Hall of Fame, 2020.

Notice

Procedure for remote e-voting and voting at the AGM ('e-voting')

10. Pursuant to Section 108 of the Act, read with Rule 20 of the Companies (Management and Administration) Rules, 2014, as amended and all other relevant rules made under the Act and Regulation 44 of the Listing Regulations, the Company is pleased to provide the facility to the Members to exercise their right to vote on the resolutions proposed to be considered at AGM by electronic means (**'e-voting'**) and the business may be transacted through such voting. The Members may cast their votes remotely, using an electronic voting system prior to the AGM (**'remote e-voting'**). Further, the facility for voting through an electronic voting system will also be made available at the AGM (**'Insta Poll'**) and Members attending the AGM who have not cast their vote(s) by remote e-voting will be able to vote at the AGM through Insta Poll. **The cut-off date for the purpose of remote e-voting and voting at the 24th AGM is Friday, September 15, 2023. Members, whose names appear in the Register of Members/ list of Beneficial Owners as of the cut-off date are entitled to vote on the Resolutions set forth in this Notice. A person who is not a Member as of the cut-off date should treat this Notice for information purposes only.** The Company has appointed KFin Technologies Limited ('KFinTech' / 'Service Provider'/ 'R&TA') for facilitating remote e-voting and also for facilitating participation and voting at the AGM.

11. In terms of the SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020 on 'e-Voting Facility Provided by Listed Entities', Individual shareholders holding securities in demat mode are allowed to vote by way of single login credential, through their demat accounts/websites of Depositories/ Depository Participant(s). Individual demat account holders would be able to cast their vote without having to register again with the e-voting service provider (ESP) thereby not only facilitating seamless authentication but also ease and convenience of participating in the e-voting process. Shareholders are required to update their mobile number and e-mail ID correctly in their demat account in order to access the e-voting facility.

12. Subject to the applicable provisions of the Act read with the rules made thereunder (as amended), the voting rights of the Members shall be in proportion to their shares of the paid-up equity share capital of the Company as of the cut-off date. Members are eligible to cast a vote only if they are holding shares as of the cut-off date.

13. **The remote e-voting period will commence at 9.00 a.m. (IST) on Sunday, September 17, 2023, and will end at 5.00 p.m. (IST) on Thursday, September 21, 2023.** During this period, the Members of the Company (as of the cut-off date) holding shares in physical form or in dematerialized form may cast their vote through remote e-voting. At the end of the remote e-voting period, the facility of remote e-voting shall forthwith be blocked/ disabled.

14. Once the vote on a resolution is cast by the Member, whether partially or otherwise, the Member shall not be allowed to change it subsequently or cast the vote again. Members who have cast their vote by remote e-voting, whether partially or otherwise, prior to the AGM may also attend the AGM but shall not be entitled to cast their vote again.

15. The facility for voting shall also be made available at the AGM and the Members attending the AGM who have not already cast their vote by remote e-voting shall be able to exercise their right at the AGM.

16. It is not mandatory for the Member to vote using the remote e-voting facility and the Member can exercise his vote at the AGM.

17. A member can opt for only a single mode of voting per EVEN, i.e., through remote e-voting or voting at the AGM (Insta Poll). If a member casts vote(s) by both modes, then voting done through remote e-voting shall prevail and vote(s) cast at the AGM shall be treated as 'INVALID'.

18. Members are requested to refer to the detailed procedure on e-voting furnished separately and the same shall be available on the Company's website: www.enil.co.in. - Email Address;
- Bank account details; and
- Address (including country).

47. Members may note that the Income Tax Act, 1961 mandates that dividend paid or distributed by a Company after April 1, 2020 shall be taxable in the hands of the Shareholders. Your Company shall therefore be required to deduct Tax at Source (TDS) at the time of making the payment of dividend. In order to enable us to determine the appropriate TDS rate as applicable, Members are requested to submit the documents in accordance with the provisions of the Income Tax Act, 1961.

    (a) **For Resident Shareholders**, TDS shall be deducted under Section 194 of the Income Tax Act, 1961 @ 10% or as notified by the Government of India on the amount of dividend declared and paid by the Company during the financial year 2023-24 provided PAN is registered by the Shareholder. However, no TDS shall be deducted on the dividend payable to a resident individual if the total dividend to be received by them during the financial year 2023-24 does not exceed ₹ 5,000. Please note that this includes the future dividend, if any, which may be declared by the Board in the financial year 2023-24.

    Separately, in cases where the shareholder provides Form 15G (applicable to any person other than a Company or a Firm) / Form 15H (applicable to an individual above the age of 60 years), provided that the eligibility conditions are being met, no TDS shall be deducted. Resident shareholders may also submit any other document as prescribed under the Income Tax Act, 1961 to claim a lower / Nil withholding tax.

    If PAN is not registered, TDS shall be deducted @ 20% or as notified by the Government of India as per Section 206AA of the Income Tax Act, 1961.

    No TDS will be deducted in case of resident individual shareholders who furnish their PAN details and whose dividend does not exceed ₹ 5,000. However, where the PAN is not updated in in the records of the Company/ KFinTech/ Depository Participants or in case of an invalid PAN, the Company will deduct TDS under Section 194 read with Section 206AA and 206AB of the Income Tax Act, 1961 without considering the exemption limit of ₹ 5,000.

    All the shareholders are requested to update their PAN with their Depository Participants (if shares are held in electronic form) and Company/ KFinTech (if shares are held in physical form). Please quote all the folio numbers under which you hold your shares while updating the records.

    Members who are required to link Aadhaar number with PAN as required under Section 139AA(2) of the Income Tax Act, 1961, read with Rule 114AAA thereto, should compulsorily link the same within the stipulated date. If, as required under the applicable law, any PAN is found to have not been linked with Aadhaar within the prescribed due date, then such PAN will be deemed invalid and TDS would be deducted at higher rates under Section 206AA of the Income Tax Act, 1961. The Company reserves its right to recover from the Member any demand raised subsequently on the Company for not informing the Company or providing wrong information about applicability of Section 206AA of the Income Tax Act, 1961.

    (b) **For Non-resident Shareholders,** TDS is required to be deducted in accordance with, the provisions of Section 195 of the Income Tax Act, 1961 at the rates in force. As per the relevant provisions of the Income Tax Act, 1961, the tax shall be deducted @ 20% (plus applicable surcharge and cess) or as notified by the Government of India on the amount of dividend payable to them. However, as per Section 90 of the Income Tax Act, 1961, the non-resident shareholder has the option to be governed by the provisions of the Double Tax Avoidance Agreement including, wherever applicable, any modifications by the Multilateral Instrument (DTAA) between India and the country of tax residence of the shareholder, if they are more beneficial to them. For this purpose, i.e., to avail the Tax Treaty benefits, the non-resident shareholder will have to provide the following:

    - Self-attested copy of Tax Residency Certificate (TRC) obtained from the tax authorities of the country of which the shareholder is resident.
    - Self-declaration in Form 10F, if all the details required in this form are not mentioned in the TRC.
    - Self-attested copy of the Permanent Account Number (PAN Card) allotted by the Indian Income Tax authorities.
    - Self-declaration, certifying the following points:

        (i) Member is and will continue to remain a tax resident of the country of its residence during the financial year 2023-24;

Notice

(ii) Member is eligible to claim the beneficial DTAA rate for the purposes of tax withholding on dividend declared by the Company;

(iii) Member has no reason to believe that its claim for the benefits of the DTAA is impaired in any manner;

(iv) Member is the ultimate beneficial owner of its shareholding in the Company and dividend receivable from the Company; and

(v) Member does not have a taxable presence or a permanent establishment in India during the financial year 2023-24.

Please note that your Company is not obligated to apply the beneficial DTAA rates at the time of tax deduction on dividend amounts. Application of the beneficial DTAA rate shall depend upon the completeness and satisfactory review by the Company, of the documents submitted by Non- Resident shareholders.

48. Accordingly, in order to enable your Company to determine the appropriate TDS rate applicable, we request you to provide these details and documents as mentioned above or any other documents you may want to rely for lower/ nil rate of tax deduction on or before Friday, September 8, 2023.

49. Kindly note that the aforementioned documents are required to be submitted at enil.tax@timesgroup.com on or before Friday, September 8, 2023 in order to enable your Company to determine and deduct appropriate TDS rate. No communication on the tax determination / deduction shall be entertained post Friday, September 8, 2023. It may be further noted that in case the tax on said dividend is deducted at a higher rate in the absence of receipt of the aforementioned details/ documents from you, there would still be an option available with you to file the return of income and claim an appropriate refund, if eligible.

50. We shall arrange to e-mail the soft copy of TDS certificate to you at your registered e-mail ID in due course, as per the relevant provisions of the Income Tax Act, 1961. In order to enable your Company to e-mail the aforesaid TDS certificate, we request you to get your e-mail id registered on or before Friday, September 8, 2023.

51. **Section 206AB of the Income Tax Act, 1961:**

Where Sections 206AA and 206AB of the Income Tax Act, 1961 are applicable i.e., the specified person has not submitted the PAN as well as not filed the return; the tax shall be deducted at the higher of the two rates prescribed in these two sections. The applicability of 206AB & section 206AA shall be obtained from Income Tax department on the basis of PAN provided by shareholders.

The term 'specified person' is defined in sub Section (3) of Section 206AB who satisfies the following conditions:

- A person who has not filed the income tax return for two previous years immediately prior to the previous year in which tax is required to be deducted, for which the time limit of filing of return of income under Section 139(1) of the Income Tax Act, 1961 has expired; and
- The aggregate of TDS and TCS in his case is ₹ 50,000 or more in each of these two previous years.

The non-resident who does not have a permanent establishment is excluded from the scope of a specified person.

The Company reserves its right to recover any demand raised subsequently on the Company for not informing the Company or providing wrong information about applicability of Section 206AB in your case.

Annexure - B:

Resume of the director relevant for Item No. 3 of the Notice (Covering nature of expertise in specific functional areas/ Experience)

Mr. Vineet Jain (Chairman & Non- Executive Director)

Mr. Vineet Jain is the Managing Director of India's oldest, largest, and most respected media group, the 184-year-old Bennett, Coleman & Co. Limited ('BCCL'), also known as Times Group. He has been driving all operations of BCCL, as well as the content & editorial architecture for the entire Group. Mr. Vineet Jain has been the driving force behind the diversification and expansion of what began as a traditional publishing business under the flagship *The Times of India*. Today, the Times Group is No. 1 across the media spectrum - be it internet, radio, music, news television, OTT, or out-of-home - thanks to his vision and leadership, and hands-on approach.

A combination of business acumen, strategic insight, and creative energy - and a deep understanding of both content and marketing - has helped keep the Times Group future-focused. Underpinning all this is Mr. Jain's obsession with keeping the consumer at the centre of everything the Group does and his abiding belief in the transformative power of positive change. He built the largest omni-channel news network in the country with leadership across print, digital, and TV mediums, with a keen eye on the product and a constant focus on innovation across the different formats.

The brands - which straddle platforms and audiences - speak to his success. He revolutionized the content behind *The Times of India* and *The Economic Times*, making them more contemporary and appealing to even younger audiences today. He played a pivotal role in transforming BCCL into a multimedia company with a powerhouse of brands across Radio (Mirchi), TV (Times Network), OOH (Times OOH), Music (Times Music), Movies (Junglee), and Marquee IPs (Filmfare, Femina, as well as ET Awards and Global Business Summit to name a few).

Mr. Jain spotted the digital trend early on and was instrumental in putting together the building blocks for the internet businesses within the Group. He was actively involved in all aspects of the internet business, leading Times Internet to become the largest news publisher online. He was also instrumental in launching Magicbricks, which is today India's largest real estate marketplace.

His belief that the future of India lies with an educated and engaged youth led to the establishment of Bennett University, and its growing recognition as a respected institution and brand. Under his leadership, Times Pro - the Edtech arm of the Group - has taken the Group's focus on education to the next level with its strong focus on higher education, upskilling, and executive education.

Mr. Jain has won several accolades including The Rajiv Gandhi Award for Corporate Excellence, and Indian Telly Award for his contribution to Indian TV Broadcasting Industry, in 2009; IMPACT Person of the Year, 2013; Entrepreneur of the Year Award 2013 from the Bombay Management Association; Media Person of the Year Award from the International Advertising Association (IAA) in 2015; the Indian Television Academy's 'Sterling Icon of Indian Entertainment – Media'; Art Karat Award for Excellence in Media; and AsiaOne Global Indian of the Year 2018; Lifetime Achievement Award at exchange4media News Broadcasting Awards (enba) 2018; Bharatiya Mahanatam Vikas Puraskar 2018-19; Impact Digital Power 100, 2020: Business Leaders; ITA Hall of Fame, 2020.

2. Financial Performance, Operations and the state of the Company's affairs

Total income of the Company increased from ₹ 32,190.19 lakhs during the previous year to ₹ 43,840.60 lakhs during the year under review. Loss after tax declined from ₹ (2,748.06) lakhs during the previous year to loss of ₹ (1,948.07) lakhs during the year under review.

On a consolidated basis, for continued operations, total income of the Company increased from ₹ 33,584.75 lakhs during the previous year to ₹ 46,222.19 lakhs during the year under review. Loss declined from ₹ (3,310.34) lakhs during the previous year to loss of ₹ (670.08) lakhs during the year under review. For discontinued operations loss increased from ₹ (310.69) Lakhs during the previous year to loss of ₹ (382.15) Lakhs during the year under review.

During the financial year ended March 31, 2023, based on the business environment and relevant economic and market indicators, the Company identified indicators of impairment of its investment related to its operations in San Francisco. Further, considering the adverse impact of Covid 19 since the launch of operations in the Kingdom of Bahrain and huge quantum of license fees payable to the Ministry of Information Affairs (MOIA), the said operations had

Board of Directors' Report

become unsustainable in the financial year under review. As a result, the Company identified and recorded impairment of its investment related to the operations in the Kingdom of Bahrain. Kindly refer to Note 46 to the standalone financial statements and Note 49 to the consolidated financial statements for a detailed explanation.

In October 2022, the Company entered into a Share Subscription and Shareholders' Agreement ('SSHA') with Spardha Learnings Private Limited ('Spardha') and others. As a part of SSHA, the Company subscribed to 5 equity shares and 12,932 Pre-Series A2 Compulsorily Convertible Preference Shares ('CCPS'). Total investment constitutes 11.5% of the share capital of Spardha on a fully diluted basis. Spardha is a private limited company engaged, *inter-alia*, in the business of providing education, training, personalised guidance, and conducting workshops in academics, music, dance, fine-arts and sports through an online platform.

The Company, through its wholly owned subsidiary- Mirchi Bahrain W.L.L., launched radio broadcasting operations in the Kingdom of Bahrain in May 2021. However, considering the adverse impact of Covid 19 since the launch of operations and huge quantum of license fees payables to the Ministry of Information Affairs - Bahrain (MOIA), the operations of the Company had become unsustainable in the current year ended March 31, 2023. Considering this, a notice of termination has been served to MOIA expressing our inability to continue services in the region due to continued losses and high license fees.

In May 2021, the Company's US subsidiary, Viz. Entertainment Network, LLC (EN. LLC.) had entered into a Time Brokerage arrangement with a US based broadcaster to broadcast radio programmes and content, targeting the South Asian community in the Bay Area - USA. Due to the non-fulfilment of material contractual obligations by the counterparty, business operations of EN. LLC. became unviable. Therefore EN. LLC. issued a termination notice to the counterparty, terminating the Time Brokerage arrangement effective from November 30, 2022.

In April 2023, Hon'ble Madras High Court pronounced its order in the matter of appeals filed by Phonographic Performance Limited ('PPL') i.e., PPL vs the Company ('ENIL') and others. The Order was in respect of the appeal filed by PPL in year 2010, challenging the 2% Net Advertisement Revenue ('NAR') rate fixed by the then Copyright Board ('CRB') for a period of ten years ending September 2020 ('CRB Order'). As per the said Order, the appeal filed by PPL has been partly allowed and CRB Order is upheld and further modified by fixing a minimum floor rate of ₹ 660 per needle hour (effectively 2% of Net Advertisement Revenue ('NAR') or ₹ 660 per needle hour, whichever is higher) for the period from 2010-2020. The Company will file a special leave petition before the Hon'ble Supreme Court of India for a stay of the said order.

There were no material changes and commitments affecting the financial position of the Company which have occurred between the end of the financial year of the Company to which these financial statements relate and the date of this Report. There has been no change in the nature of the business of the Company.

There is no proceeding pending under the Insolvency and Bankruptcy Code, 2016. There was no instance of one-time settlement with any bank or financial institution.

19. Conservation of Energy, Technology absorption and Foreign exchange earnings and Outgo

The Company is in the business of Private FM Radio Broadcasting. Hence, most of the information required to be provided relating to the Conservation of energy and Technology absorption is not applicable.

However, the information, as applicable, is given

Board of Directors' Report

hereunder:

(a) Conservation of energy:

(i) Steps taken or impact on conservation of energy and the steps taken by the Company for utilising alternate sources of energy:

- Energy Conservation: We increased the efforts already executed in the preceding years by regulating the electrical consumption at the transmitters, studios and offices, which has resulted in substantial savings in energy cost in the financial year under review.
- Optimization of office spaces: As a part of our continuous efforts in office space restructuring, we rationalised office space at more locations with an efficient office design using LED lights and energy efficient electronic devices that has contributed to reduction of about 40% in the energy consumption.
- We have maximized energy savings in AC units. Air conditioner (AC) usage patterns are monitored regularly to reduce electricity consumption without any extra capital investment. AC units are set at optimum temperatures based on ambient conditions, e.g., Studio ACs are set at not less than 25 degrees temperature. This has helped achieve substantial savings. Transmitter power is optimally reduced in the night band when listenership is low, and the ambient temperature is lower. We continue to replace old conventional fixed speed ACs with Inverter/ VRV ACs for better energy savings.
- We have successfully implemented a pilot project by installing a Smart Room Cooling (SRC) at a transmission site for energy savings in air-conditioning. Existing comfort ACs were replaced with a highly efficient industry grade product. Due to its longer life, capex will be avoided for around 10-12 years which otherwise would be incurred on replacing regular ACs periodically. The product has higher airflow with lower energy consumption resulting in a short payback period.
- UPS upgrades and load reassessment helped us reduce our connected load across stations over the years by more than 300 KW.

(ii) Capital investment on energy conservation equipments: ₹ 6.30 lakhs

(b) Technology absorption:

(i) The efforts made towards technology absorption and benefits derived like product improvement, cost reduction, product development or import substitution: Your Company has consistently taken initiatives to improve productivity and increase efficiencies in processes.

- A Contest and Merchandise management tool was developed in SharePoint and hosted on Azure Cloud. The workflow increased efficiency and improved inventory management in the Contest management process. The tool also simplifies the process of monitoring contest entries and managing winners, making it easier to track and measure the success of contests.
- A Creative brief approval workflow was developed and deployed on SharePoint and hosted on the MS Azure Cloud. We automated the process of filing a creative brief to Programming or Brewery teams for their review and approval. The workflow is currently used by teams in 55 stations, substantially improved productivity, saved time and helps archive creatives for future reference.
- HR onboarding process was automated with SAP and integrated with satellite system. This has resulted in reducing the turn-around-time of the HR team for hiring and data synchronization, increased efficiency and reduced operating costs.
- An API solution was developed for automating customer payment transactions made through HDFC Bank. The inbound interface developed between HDFC Bank and SAP ERP enabled us to reduce manual effort and errors, provide daily receipts reconciliation and track new customers, thus increasing team productivity.
- Hub Station Optimization: Successfully replicated Hub station optimization for remote networked stations in Maharashtra. The centralized solution resulted in optimal use of manpower

Board of Directors' Report

and resources and savings in both capex and operating expenses.

- RCS ZettaCloud on Triton: Implemented RCS ZettaCloud for playout of 39 deferred streams of 13 FM stations in 3 different time zones (PST, EST, GST) on the Triton audio streaming platform for Mirchi App.
- Infrastructure enhancement: With the focus on Digital businesses, we expanded the infrastructure of our existing private cloud. This not only augmented our goal of space and energy savings, but also gave us the complete control of setting up new playout systems instantly by using the scalability and flexibility parameters of the private cloud.
- We continue to replace older analog consoles with IP consoles due to their ease of installation, maintenance and flexibility.
- Benefits derived: Improvement in processes, higher productivity, cost effectiveness, time-savings, energy conservation are some of the major benefits derived.

(ii) Imported technology (imported during last three years reckoned from the beginning of the financial year): The Company has not imported any new technology in this financial year. Nevertheless, the Company has continued to use the latest equipment and software for its business activities.

(iii) The expenditure incurred on Research & Development *(R & D):*

The Company has not spent any amount towards research and development activities. The Company has been active in harnessing the latest technology available in the industry.

(c) Foreign exchange earnings and outgo:

The Foreign Exchange earned in terms of actual inflows during the year and the Foreign Exchange outgo during the year in terms of actual outflows.

(₹ in lakhs)

	Financial Year 2022-23	Financial Year 2021-22
Foreign exchange earnings	1,249.11	643.91
Foreign exchange outgo	816.79	1,212.05

20. Particulars of Employees

Board of Directors' Report

Annexure B to the Board of Directors' Report

Corporate Social Responsibility (CSR) policy statement:

1. Philosophy and Commitment

Even long before the Indian Parliament decided to enact Corporate Social Responsibility (**CSR**) as a mandatory obligation through the Companies Act, 2013 ('the Act') in the manner provided in the Companies (Corporate Social Responsibility Policy) Rules, 2014 ('CSR Rules') as amended from time to time, on companies meeting certain threshold criteria, the philosophy and commitment to CSR has historically been ingrained in the DNA of Entertainment Network (India) Limited (**ENIL/ Company**) throughout. The Times Group and ENIL have always been in the forefront of undertaking and supporting social causes on an entirely voluntary basis, be it education, social upliftment, or relief and rehabilitation in the aftermath of natural calamities, or the like. The Times Group, and ENIL consider CSR as their commitment to its stakeholders, including the society at large, to conduct business in an economically, socially and environmentally sustainable manner that is transparent and ethical. ENIL is committed to undertake CSR activities in accordance with the provisions of Section 135 and all other applicable provisions of the Companies Act, 2013 read with all the rules thereto, as amended from time to time ('the Act').

2. Objective

ENIL's CSR Policy aims to develop and implement a long-term vision and strategy for ENIL's CSR initiatives including formulating, relevant potential CSR activities, their timely and expeditious implementation and establishing an overview mechanism of the activities undertaken / to be undertaken, in synchronization with the various eligible activities prescribed under Schedule VII of the Act.

3. Guiding Principles and Approach

The Times Group and the Company strongly believe that CSR is the process by which an organization thinks about and evolves its relationships with its various stakeholders for the common good of all and demonstrates its commitment in this regard by adoption of appropriate business processes and strategies. Thus, in the Company's view, CSR is not charity or mere donations.

On the other hand, the Company acknowledges that CSR to be a way of conducting business, by which corporate entities visibly contribute to the social good. Socially responsible companies do not limit themselves to using resources to engage in activities that increase only their profits. They use CSR to integrate economic, environmental and social objectives with the company's operations and growth. Through this Policy, the Company expresses its deep faith in this philosophy.

As part of its CSR Program, the Company intends to promote initiatives, briefly stated, which:

- are sustainable and create a long term impact/ change;
- have specific and measurable goals in alignment with ENIL's philosophy; and
- address the most deserving causes and beneficiaries.
- are dynamic and responsive to the social environment and the company's business objectives.

4. Composition of the CSR Committee

Board of Directors' Report

Annexure G to the Board of Directors' Report

Dividend Distribution Policy

1. **Background & Intent:**

   The Securities Exchange Board of India ("SEBI") on July 8, 2016 inserted Regulation 43A in SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Listing Regulations'), which requires the top five hundred listed companies (based on market capitalization of every financial year) to formulate and adopt a Dividend Distribution Policy, which shall be disclosed in its Annual Report and on its website. The regulation also encourages other listed companies to disclose their dividend distribution policies on a voluntary basis in their annual reports and on their websites.

   The Company being one of the top five hundred listed companies as per the market capitalization as on the last day of the immediately preceding financial year, has framed this Policy to comply with the requirements of the SEBI (Listing Obligations and Disclosure Requirements) Regulations 2015. This Policy was approved and adopted by the Company's Board of Directors at its meeting held on May 23, 2017.

   The intent of the Policy is to broadly specify the philosophy, external and internal factors including financial parameters that shall be considered while declaring dividend and the circumstances under which the shareholders of the Company may or may not expect dividend and how the retained earnings shall be utilized.

2. **Dividend Philosophy:**

   The Company believes that driving growth creates maximum shareholder value. Accordingly, the Company will first utilize its profits to secure the long term growth objectives of the Company and retire debt. Since the business is sensitive to economic conditions and has a high operating leverage, the Company will continue to maintain a conservative stance on liquidity and financial leverage. Within this overarching context, the Company's Dividend Distribution Policy shall ensure that it returns cash from operations that is in excess of its current and foreseeable requirements back to the shareholders over the long term. The Company shall endeavour to declare a steady and sustainable stream of dividends to the shareholders.

3. **Scope and applicable laws:**

   - While the Policy set out herein generally relates to final Dividend, certain principles also apply to Interim Dividend declared by the Board.
   - The Policy set out herein is in respect of Dividend as it relates to a going concern.
   - Presently, the issued and paid up share capital of the Company comprises only equity shares. Accordingly, the Policy set out herein relate to Equity Shares only. However, the Board of Directors of the Company (hereinafter referred to as the 'Board' which shall include duly authorized committee thereof), reserves the right to modify this Policy as and when the Company issues preference or other classes of shares.
   - The declaration and payment of dividend is governed by various applicable provisions of the Companies Act, 2013 and rules thereto read with the Listing Regulations requirements and compliances related to dividend, Secretarial Standards, Security Contract Regulation Act, 1956, Income Tax Act, 1961, RBI guidelines, circulars, notifications to the extent applicable, FEMA, 1999, SEBI Guidelines Circulars etc.
   - Title to dividends: It shall be governed by the provisions of Section 27 of Securities Contracts (Regulation) Act, 1956 and other applicable laws, rules and regulation as amended and enforced from time to time.
   - This Policy is intended to comply with the Companies Act, 2013 and the Listing Regulations. Notwithstanding anything herein to the contrary, this Policy will be interpreted only in such manner so as to comply with the Companies Act, 2013 and the Listing Regulations. Any word not defined in this Policy shall have the same meaning as defined under the Companies Act, 2013 and the Listing Regulations, including any amendments thereto. In case any word or provision as appearing in this Policy is contrary to the meaning or provision as provided under the Companies Act, 2013 or the Listing Regulations, then the meaning or provision as provided under the Companies Act, 2013 / the Listing Regulations shall prevail, and any amendments thereto shall be deemed to form part of this Policy.

4. **Parameters and factors for declaration of dividend:**

   Based on the philosophy outlined in item (2) above, the Board shall consider the following parameters and

Board of Directors' Report

factors before declaring or recommending dividend:

Financial parameters and internal factors:

- Business operations
- Operating cash flow of the Company
- Profit earned during the year
- Accumulated reserves
- Earnings Per Share (EPS)
- Earning stability
- Working capital requirements
- Capital expenditure requirements
- Business expansion and growth
- Likelihood of crystallization of contingent liabilities, if any
- Contractual restrictions
- Additional investment in subsidiaries and associates of the company
- Upgradation of technology and physical infrastructure
- Creation of contingency fund
- Acquisition of brands and business
- Past dividend pay-out ratio

External Factors:

- Economic environment
- Capital markets
- Global conditions
- Statutory provisions and guidelines
- Legal and regulatory framework
- Applicable taxes (including tax on dividend)
- Cost of borrowing and raising funds
- Dividend pay-out ratio of competitors / peer groups
- Investors' expectations
- Reinvestment opportunities

The Board may additionally recommend special dividend in special circumstances.

5. **Circumstances under which shareholders of the Company may or may not expect dividend:**

The shareholders of the Company may not expect dividend under the following circumstances,

- The Company has adequate avenues to generate significantly higher returns on such surplus than what a common shareholder can reasonably expect to generate himself
- The Company needs funds for M&As joint ventures, new product launch, business expansion, investment opportunities, deleveraging etc.
- The Company proposes to utilize surplus cash entirely for alternate forms of shareholder distribution such as share buybacks etc.
- In the event of loss or inadequacy of profit

6. **Utilization of the retained earnings:**

The retained earnings of the Company may be used in any of the following ways:

- Organic and inorganic growth
- Investment in new businesses
- Declaration of Dividend
- Buyback of shares
- Capitalisation of shares
- Correcting the capital structure
- General corporate purposes, including contingencies
- Any other permitted usage as per the Companies Act, 2013.

7. **Manner of dividend payout:**

In case of final dividend:

- Recommendation, if any, shall be made by the Board, usually in the Board meeting that considers and approves the annual financial statements.
- The dividend as recommended by the Board shall be approved/ declared at the annual general meeting of the Company.
- The payment of dividends shall be made within the statutorily prescribed period from the date of declaration to those shareholders who are entitled to receive the dividend on the record date/book closure period, as per the applicable law.

In case of interim dividend:

- Interim dividend, if any, shall be declared by the Board.
- Before declaring interim dividend, the Board shall consider whether the financial position of the Company permits the payment of such dividend.
- The payment of dividends shall be made within the statutorily prescribed period from the date

Board of Directors' Report

of declaration to those shareholders who are entitled to receive the dividend on the record date, as per the applicable laws.

- In case no final dividend is declared, interim dividend paid during the year, if any, will be regarded as final dividend in the annual general meeting.

8. Parameters to be adopted with regard to various classes of shares:

Since the Company has issued only one class of equity shares with equal voting rights, all the members of the Company are entitled to receive the same amount of dividend per share. The Policy shall be suitably revisited at the time of issue of any new class of shares depending upon the nature and guidelines thereof.

(j) **Share Transfer System:**

Pursuant to the Listing Regulations, the Board of Directors of the Company, in order to expedite the process, has delegated the power of approving transfer, transmission, dematerialisation etc. of the securities of the Company to the R&TA. The Company obtains an annual certificate from the Practicing Company Secretary as per the requirement of Regulation 40(9) of Listing Regulations and the same is filed with the Stock Exchanges and available on the website of the Company. In terms of amended Regulation 40 of the Listing Regulations, requests for effecting transfer of securities shall not be processed unless the securities are held in the dematerialised form with a depository. Further, SEBI has made it mandatory for listed companies to issue securities in dematerialised form only while processing any investor service requests viz. issue of duplicate share certificates, exchange/ sub-division/ splitting/ consolidation of securities, transmission/ transposition of securities. SEBI has clarified that listed entities/ RTAs shall now issue a Letter of Confirmation in lieu of the share certificate while processing any of the aforesaid investor service request. In view of the above and to avail various benefits of dematerialisation, Members holding shares in physical form are advised to convert physical shares in dematerialise form.

Management Discussion & Analysis

A. MEDIA INDUSTRY STRUCTURE AND DEVELOPMENTS

Macroeconomic Scenario

Global Economy

Post the devastating effects of the pandemic and the Russia-Ukraine war, the global economy appears to be all set for a slow comeback. Supply chain issues and war-related disruptions to the energy and food markets have been fading. Parallel to this, the widespread and coordinated tightening of monetary policy by most central banks should begin to show results, with inflation returning back to its desired levels.

Global growth is anticipated to bottom out at 2.8% in 2023 before edging slightly higher to 3% in 2024. Growth in emerging markets and developing nations is expected to drop slightly from 4.0% in 2022 to 3.9% in 2023 before going slightly higher to 4.2% in 2024. However, the slowdown in growth will be concentrated in advanced economies like Euro area and United Kingdom, where growth is projected to significantly decelerate this year to 0.8% and -0.3%, respectively, before picking up in 2024 to reach 1.4% and 1%, respectively.

The global inflation stood at 8.7% in 2022 and will drop slower than expectations to 7% in 2023 and 4.9% in 2024. This is because inflation rates have been stickier than anticipated. There has been a decline in the global inflation, this is primarily due to the substantial fall in the cost of food and energy. But in many nations, core inflation, which excludes the erratic energy and food components, has not yet peaked.

Indian Economy

While the global growth was severely impacted by inflation and restrained by monetary tightening, India ended up reporting an impressive growth driven by a pick-up in domestic demand. As per the Economic Review for FY2023, strong performance in the fourth quarter further pushed the Indian GDP growth to 7.2% and surpass the growth expectations by 0.2%. This growth momentum is expected to continue in the coming financial year.

Globally, the two main approaches to control inflation have been supply-side easing by governments and monetary tightening by central banks. What helped India, nevertheless, was that its inflation rate exceeded the target to a smaller extent when compared to most advanced economies and emerging market economies. India's average inflation rate in FY2023 was lower than these economies due to stronger supply easing in the country. Moreover, falling global commodity prices also led to a sharp reduction in India's wholesale price inflation. Before the year's end, India's headline inflation rate reached the target range after taking some time to filter down to the retail level. However, core inflation stayed stable but began to fall in March 2023.

In FY2023, while the overall unemployment rate reached a three-year low of 7.5%, urban unemployment rate fell to a five-year low of 8.3%, as per data released by CMIE. This was a result of a number of policy changes that have been made over the past few years, especially post pandemic. This increased the ease of doing business, bolstered the corporate sector, assisted small businesses, and attracted foreign investment ultimately boosting the economy's capacity to create jobs and revive domestic consumption. Government of India's belief that growth reforms will be key in India's economic recovery now stands validated.

Moreover, RBI's repo rate hikes to control inflation turned out to be a success for India's financial services sector and allowed for a 40–45% transmission in lending and deposit rates by the end of FY2023. This, along with government fiscal and administrative measures, have been sufficient to bring down inflation to the target range without impacting the domestic demand.

Global Advertisement Industry

The global ad spends industry grew by 7.9% and stood at US$ 705 billion in CY2022. CY2022 started out strong with the momentum from CY2021 continuing, but from Q2CY2022 onwards growth slowed in the industry due to economic instability.

In an effort to keep the economy afloat during the pandemic, the government provided large amounts of fiscal stimulus to businesses. The increased money supply coupled with supply chain disruptions and rise in commodity prices, triggered by Russia-Ukraine war led to a spike in inflation. Government responded by increasing interest rates to curb inflation which led to businesses cutting their ad budgets. This was evident in lower-than-expected results reported by global media giants like Meta, Alphabet, Spotify, and Snap. However, the trend has not been the same everywhere, some platforms, like TikTok, are growing in response to ongoing user growth, and the relatively new category retail media, which includes ads on ecommerce platforms like Amazon, is also expanding.

There is also an increasing preference for digital media among advertisers, wherein they have been purchasing

Management Discussion & Analysis

many digital extensions of traditional media, like connected TV, print online, digital audio, and digital out-of-home. This has been primarily because of the flexibility and the various options within digital that allow advertisers to carry out campaigns which are simpler to plan, carry out, and automate. The global spending on digital media platforms is substantially lower, however, it is expanding more quickly in comparison to other mediums, by 14.5% in CY2022. Within this, connected TV spending increased by a significant 24% in CY2022, compared to linear TV's flat ~0% growth.

All regions are anticipated to end the year on a good note, with the Americas area experiencing the strongest growth at 12.7%, followed by APAC at 4.2% and EMEA at 3.7%.

Outlook

The global economy is about to undergo a downturn and the advertising sector, being a leading indicator of the economy, has already started to slowdown. The industry is expected to grow by 3.3% and 4.7% in CY2023 and CY2024 respectively. The growth in 2023 will be driven by high media price inflation, as opposed to volume growth.

By media, all the ad market growth drivers are within Digital. Overall, the amount spent on digital continues to rise, reaching US$ 394 billion or 56% of all global ad spends in CY2022. In CY2023, it is expected to reach US$ 424 billion, making up 58% of all advertising spend. Emerging digital categories like retail media and connected TV are expected to experience high growth in CY2023, growing by 18% and 15% respectively.

Historically, there have been various trends which would be key in determining how the future might look like. The first is that economic turbulence spurs enormous innovation, particularly in the media. Radio, TV, and social media have all been widely adopted more quickly during previous downturns, and this is likely to continue. Second, companies that continue to advertise during economic downturns tend to fare better than less risk-averse competitors in terms of market share growth. Last but not least, less competition for media inventory may result in lower rates and enable smart companies to obtain excellent value from their media partners.

Brands are expected to switch to less inflationary channels and embrace digital in a broader sense, including the digital extensions of traditional media, to decrease the effects of inflation. However, it's crucial to use caution and consider each media source's overall impact rather than reacting hastily. To decide what is best for them, brands are starting to consult their media agencies. For brands, this could mean increasing their spends to battle inflation, maintain an advantage over competitors, and keep up good investment levels to support media owners that are facing challenges.

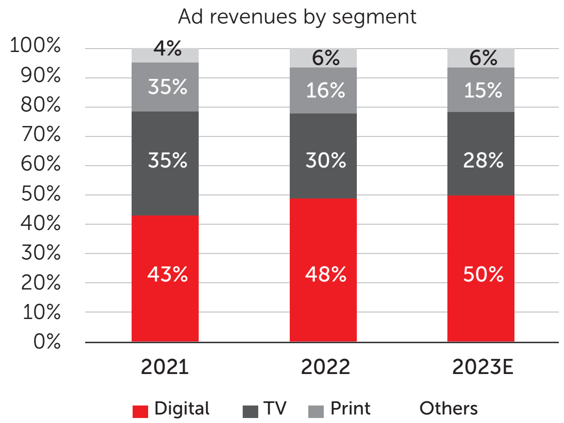
Indian Advertisement Industry

The Indian advertising industry comprises of digital and traditional mediums like television, print, radio, cinema and out of home (OOH). The industry grew by 19% touching at ₹ 1,049 billion in CY2022 surpassing the benchmark of ₹ 1 trillion for the first time and making up 0.4% of India's GDP. As per GroupM's TYNY report 2023, India has been ranked 8th in terms of global ad spend and will continue to be the fastest-growing market among the top 10 ad markets in CY2023.

TV + digital + print = 94% of ad spends



EY estimates | Excludes event segment revenues

The growth has been led by digital media, contributing 48% of all ad expenditures, up from 32% prior to the pandemic. TV made for 30% of advertising income, down from 36% in CY2019. This surge in digital media is mainly driven by increased penetration of smart devices and internet connectivity. Digital is touching new heights due to robust e-commerce activities, especially performance outcome-based media that includes search, social and video. On the other hand, growth in the TV segment, will be mainly driven by ad spends by ecommerce brands. While local media (print, OOH, radio, and cinema) made about 22% of all advertising expenditures, national media (television + digital) contributed 78% in CY2022.

Segmental developments

There has been a significant recovery across all mediums compared to the pre-pandemic levels.

Management Discussion & Analysis

Digital Media

In CY2022, digital advertising increased by 30% to reach ₹ 499 billion, accounting for nearly half of all ad expenditures. Out of this, ₹ 180 billion was spent by 600k to 800k Small and Medium Enterprises (SME) and long tail advertisers towards performance marketing on Google, Facebook, and e-commerce platforms.

There has been a surge in the digital consumption among Indians as they spent 4.9 hours per day and rank 8th in the world on the basis of the most amount of time spent on mobile apps in CY2022, which is 32% higher from CY2019 levels. Media and entertainment companies are leveraging on the growing digital consumption in India and are introducing content in various formats to meet this consumption demand.

Digital advertising is expected to grow at 15% CAGR; its share will increase from 48% of total advertising in CY2022 to 50% by CY2023, and further to 54% by CY2025. Some of the key trends that will drive this growth are mentioned below.

- Increase in spends by SMEs, e-commerce, and entertainment OTT platforms.
- If present price is maintained, paid video subscriptions will rise to 114 million over 52 million households; but if the cost is reduced to about ₹ 1,000 per year for 3–4 services, they may surpass 100 million households.
- As regional OTTs grow and scale as a result of dubbing and subtitling, the proportion of vernacular content will rise to over 62% of all content produced.
- Custom recommendation-based connected TV products for high-end audiences will emerge, both ad-supported and subscription-based, across many niches.
- By CY2025, there will be a demand for more than 4,000 hours of original content, up from 3,000 hours in CY2021.
- Use of AI tools like ChatGPT, Bard, etc. are expected to be paramount in building textual content. They will further end up impacting news publishers' revenues if it scales up significantly.

Television

In CY2022, television advertising increased by 2%, nearly returning to pre-COVID-19 levels. Ad growth was mostly driven by volume, which increased by 2% while rates, on average, stayed the same. There were 45 million free TV homes and 120 million pay TV homes in use. In CY2022, less time was spent watching linear television as a result of a decline in Hindi and regional language viewers. Even though only 8 to 10 million linked to the internet every day, the number of smart TVs has climbed to 25 million.

By CY2025, total television screens are expected to increase from 180 million in CY2022 to 206 million, driven by increase in number of connected TVs and free television. We anticipate pricing increases to be roughly half the rate of inflation for subscriptions and inflationary for advertising, subject to the application of ad caps and regulatory restrictions on pricing. As a result, we anticipate that overall television revenues will continue to increase to ₹ 796 billion by CY2025.

Print

We anticipate print will expand to ₹ 279 billion by CY2025 at a 4% CAGR since print is a medium that is necessary for successful brand building and to reach educated and elusive affluent people. Market giants are expected to keep growing, while lesser-known firms will lose customers. Publishers will continue to prioritize the fundamental physical newspaper and enhance its utility through hyper-local content and community initiatives given the physical product generates more than 90% of all revenues. While earnings from digital news will increase gradually, first-party data strategy development will be essential to compete with major digital ad platforms.

B. RADIO INDUSTRY (FUTURE OUTLOOK, OPPORTUNITIES AND THREATS)

Indian Radio Industry

Radio is one of the oldest and most trusted mediums of communication. With 1,333 operational radio stations, including 366 community stations, radio has a massive reach in India and happens to be the most affordable medium to disseminate real-time information to especially less affluent areas, where people can't afford televisions, let alone have access to internet. Hence, Radio continues to stand the test of time and its importance cannot be undermined.

(1) Radio industry continues to strengthen its position; driven by ad volumes

As per the data published by TRAI, the radio industry recorded revenues of ₹ 1,158 crore in the first three quarters of FY2023. This was up 34% compared to the same three quarters in FY2022 but was 23% lower than the first three quarters of the pre-pandemic year, FY2020.

FY23 turned out to be the first year with no direct impact of the pandemic. However, the revenue levels of the industry remained below pre-pandemic levels due to continued fall in industry pricing. Post the lifting of the lockdown, two years ago, advertisers were willing to purchase higher ad volumes only if it was provided at low prices. Radio companies had to co-operate to sustain

Management Discussion & Analysis

in the market and gain market share. However, ever since, the industry pricing has continued to be in a downward trend. Based on revenue data available from TRAI, and ad volumes data available from independent source Aircheck, we observed that industry pricing was flat in FY2023 over FY2022 and lower by approx. 40% as compared to FY2020 respectively. However, the price seems to have bottomed out as Q4FY23 saw a marginal recovery in pricing. Further, pricing is expected to pick up in upcoming festive season in FY24.

On the other hand, year-on-year growth in FY2023 was driven by increase in ad volumes and significant demand recovery. As per Aircheck, ad volumes grew by 25% in FY2023 compared to both FY2022 and FY2020. Being the industry leader, this is well evident in our numbers as well, as we reported higher volumes throughout the year, across all our stations in FY2023 over pre-pandemic year FY2020. In FY2023, our capacity utilization for 35 stations was 80%, 87%, 97% and 88% in Q1, Q2, Q3, Q4 respectively compared to 72%, 58%, 71% and 66% in the corresponding quarters of FY2020.

(2) Number of billers surpassed pre-pandemic

The significant growth in industry ad volumes was complemented by increase in client count, which was up 34% in FY2023 compared to FY2022 and up 3% compared to FY2020. The industry saw more retail advertisers than corporates. Due to the existing geopolitical uncertainties, corporates have been unwilling to make large ticket size spends towards advertisement. On the other hand, as radio is more affordable and a preferred medium among local retailers given its ability to reach retailers' local target audience, the industry saw increased demand from several smaller retailers.

(3) Important Legal Developments in FM Radio Industry in FY2023

As the radio industry was navigating the aftermath of Covid crisis in FY22, there were several significant legal developments during the year:

Statutory Licensing (SL) for Music and connected Litigations:

In December 2020, private FM broadcasters had secured a reasonable rate for music royalty via the provisions of Section 31D (SL – Statutory Licensing) of the Copyright Act. This helped the industry in putting a check on the monopolistic practices of music labels. This also helped to reduce the royalty pay-out burden. The initial Intellectual Properties Appellate Board (IPAB) order was valid for one year, until September 30th, 2021. In the month of September 2021, broadcasters filed an application for extension of these rates in the Hon'ble Delhi High Court. The broadcasters were successful in securing continuation of the old rates till such time as the Hon'ble High Court was able to fix new SL Rates. These proceedings are pending hearing before the Hon'ble Delhi High Court and are expected to be taken up during the year.

The labels, being upset with the SL rates have used all their might to deny FM broadcasters the benefit of the SL rates. Several labels have filed appeals challenging the reasonability of the SL rates. However, they have not been able to get any relief. Labels have also filed infringement claims against broadcasters by harping on technicalities of Rule 29(4) under the Copyright Rules 2013. The labels have claimed that the broadcasters were not following the procedures given under the said rule, which, they very well know are extremely onerous and, in some respects, impractical to comply with if interpreted strictly. However, the FM industry has been successful in ensuring that the music playouts have unhindered. To get over these legal challenges, FM Broadcasters had filed Writ Petitions before Hon'ble Madras and Hon'ble Bombay High Courts, challenging the constitutionality as well as interpretation of the said Copyright Rules. Hon'ble Madras High Court has held the Rule 29(4) as constitutional and made some contradictory observations. The industry, determined to pursue these all the way up to the Hon'ble Supreme Court, has filed a Special Leave Petition against this decision which has been admitted by the Hon'ble Supreme Court and the same is expected to be heard at length in coming months. These proceedings are expected to bring in the necessary clarifications and for avoiding any further roadblocks in the smooth exercise of their Statutory Licensing rights.

161st Parliamentary Standing Committee Report – (Dated 20th July 2021)

The Committee submitted its report on the topic of 'Review of the Intellectual Property Rights Regime in India' and *inter-alia* recommended that DPIIT should amend Section 31D of Copyrights Act for including 'internet or digital broadcasters' under the purview of Statutory License. DPIIT subsequently invited suggestions from stakeholders on the above recommendation. The FM Broadcasters have submitted their respective written submissions to the DPIIT on 28th September 2021 supporting the same.

Management Discussion & Analysis

(4) Important regulatory matters concerning the radio industry

During the year, the radio industry's representative body Association of Radio Operators of India (AROI) took up matters of concern with the Government:

15% national cap

No Broadcaster is currently allowed to hold more than 15% of total radio stations operating in the country. AROI had recommended to the Ministry of Information and Broadcasting (MIB) that the cap should be removed. MIB after giving due consideration to the concerns raised by the industry amended certain provisions of the FM Phase III policy, vide its order dated October 04, 2022. Accordingly, the national cap of 15% now stands deleted from the Phase III policy.

Digital Radio (DRM or HD-Radio):

There is currently no policy issued by MIB on Digital Radio. DRM & HD Radio both completed their trial runs in Delhi & Jaipur last year on the FM band. All India Radio (AIR) has submitted its report mentioning that DRM & HD Radio are similar on FM band. AIR is continuing with DRM on MW & SW. Due to COVID, no further development happened on this front.

GST:

Currently Radio is subject to 18% GST whereas Print is at 5%. To remove the anomaly in the media sector, MIB has recommended a rate of 5% for radio but it is still to be taken up by the GST Council.

COVID Package:

AROI has proposed that the Annual License Fees (ALF) payable by broadcasters during the COVID period be calculated only basis 4% of Gross Revenue and not be subjected to the flooring of 2.5% of the OTEF (One Time Entry Fee). MIB has still not taken any decision on this.

Extension of License Period by 3 years due to COVID Impact:

AROI has requested MIB to extend the current 15-year license period by 3 years on account of the serious impact of Covid on the radio business. MIB has forwarded this to TRAI. TRAI is in the process of issuing a Consultation paper and after taking feedback of stakeholders, it will issue its recommendations to MIB.

Change in Ownership:

Clause 9.4 of Grand of Permission Agreement ('GOPA') is a clause that was very restrictive for M&A activities. AROI had requested MIB to modify it. MIB has vide its order dated October 04, 2022, relaxed the conditions stated in the said clause. Thus, now any restructuring of the company/ reorganization of FM Radio between different holding companies/subsidiaries/inter-connected undertakings/companies with the same management may be done with prior approval of MIB at any time during the permission period.

Revision of Rates for Government Advertising released by DAVP:

AROI has requested MIB to increase ad prices annually, basis inflation. Also, many stations under Phase-3 policy were initially given adhoc rates, which were extremely low. These should be increased and regularized. MIB is still to take a call on these points.

Enabling FM tuners on mobile phones:

AROI has urged MIB to enact regulations so that no mobile handset manufacturer could disable the FM receiver option. The National Disaster Management Authority and MEITY have also supported this proposition in the interest of public from disaster management perspective, pursuant to representations sent by AROI and individual broadcasters including the Company. MIB is still to take a call on this.

(5) Radio broadcasters adapt to the digital explosion

Most radio broadcasters have started adding digital products to their portfolio of revenue products. Most broadcasters have RJs who are local personalities in their own cities, and who often have a large following on social media. Radio stations have their own pages as well on social media. As advertisers have moved spending to digital, radio broadcasters have adapted and are now adding their RJs' social media pages to their radio advertising proposals. In this limited way, all radio broadcasters have dabbled with digital products.

Top radio broadcasters Mirchi, Red FM and Radio City have approximately 4 million "likes" on their Facebook pages while others like Big FM, Fever FM and My FM have 1.7 million, 960K and 625K likes respectively. Similarly, on Instagram, Mirchi leads with 610K followers followed by Red FM at 543K followers and Radio City at 363K followers. On YouTube, Filmy Mirchi has 6.6 million subscribers followed by Red FM with 4.6 million and Radio City with 1.3 million. Each company would have more subscribers on other channels also that they operate.

Management Discussion & Analysis

(6) Music royalties – old order temporarily extended

As mentioned earlier, Hon'ble Delhi HC has given an extension to the order of the IPAB passed in December 2020. This order was valid until September 30th, 2021. The music industry has demanded lower rates because of the devastating impact that Covid has had on their business.

C. OPERATING PERFORMANCE

(1) Thriving Amidst Adversity: FY23, A Year of Resilient Performance

FY23 presented a mixed landscape for several sectors, including the media industry. The year began on a promising note, with a strong start in Q1 and part of Q2. However, the economic environment soon encountered headwinds, as the funding winter made its presence felt, resulting in job losses and dampening consumer activity. Consequently, the festive season failed to meet the anticipated performance for many consumer brands, leading to a cautious approach and tightened ad spends by various entities.

In the radio industry, the growth trajectory experienced fluctuations throughout the year. During Q1, there was a remarkable volume growth of 150%, primarily attributed to the low base effect of the previous year's performance. However, in Q2, the growth rate tapered down to 20.0%, signifying the beginning of a challenging phase. As the year's most critical festive quarter approached, the growth further declined to a mere 1%, reflecting the impact of the tightening market conditions and the cautious spending behaviour of advertisers. Although there was a moderate recovery in Q4, reaching 11%, the overall environment remained constrained from Q3'FY23 onwards.

Amidst these challenges, advertisers exercised prudence and exercised caution in their advertising budgets, contributing to a tight market scenario from Q3'FY23 onwards.

Despite the challenges prevalent in the economic environment, Mirchi demonstrated remarkable resilience. Advertisers remained confident in the strength of our brand, and as a result, our overall revenues soared by an impressive 37.3%.

The radio segment, a significant part of our business, exhibited outstanding growth with a revenue increase of 35.7% during FY23. This commendable performance can be attributed to our client-facing solutions approach, which enabled us to secure a substantial market share gain of 310 BPS in volume share. Moreover, the growth in demand for radio services, coupled with the rise in volumes, led to a favourable stabilization of pricing. In high-demand markets, we even delivered price hikes, further strengthening our financial position.

Expanding beyond radio, our non-radio solutions business also witnessed robust growth, achieving a remarkable revenue increase of 33.5% compared to the previous year. A key factor contributing to this success is the strategic integration of digital offerings in our solutions portfolio, catering to the evolving needs of our clients. As a result, our gross margins in this business have remained healthy and sustainable at 49.2%.

(2) Cost Management: Embracing Efficiency and Adaptability

Throughout FY23, our studios and offices operated at full capacity, but we remained steadfast in exercising prudent control over all operating costs. The lessons learned during the challenging times of the pandemic highlighted the value of conducting business efficiently and minimizing unnecessary expenses, such as travel. Even as we gradually returned to the office, we maintained a vigilant approach towards discretionary costs. For instance, during the two years of Covid, we successfully achieved a 27.5% reduction in rental costs. Remarkably, despite resuming full office operations, we retained the benefits gained during the pandemic, underscoring our commitment to cost optimization.

Additionally, our emphasis on maintaining healthy margins in the non-radio solutions business led to only a proportionate increase in DVC (Direct Variable Costs).

Operational excellence shone brightly in our collections processes, as evidenced by a 22% reduction in debtor days during the year. This achievement reflects our dedication to efficient financial management and our ability to ensure timely and effective collections.

We take great pride in our approach to cost management, embracing efficiency and adaptability to navigate challenges and secure a sustainable future. As we move forward, we remain focused on sustaining these practices to create long-term value for the Company ('ENIL') and its stakeholders.

(3) EBITDA Expansion and turning PAT Positive

In FY23, our relentless pursuit of growth and cost efficiency yielded remarkable results as our revenue outpaced expenses. Consequently, our

Management Discussion & Analysis

EBITDA surged from ₹ 44.3 crore in FY22 to an impressive ₹ 93.3 crore in FY23. As a testimony to the inherent characteristics of our high operating leverage business model, the growth in revenue resulted in a significantly accelerated expansion of EBITDA margins. However, it's essential to acknowledge that our EBITDA of ₹ 93.3 crore still remains lower than the outstanding performance of ₹ 123.5 crore achieved in FY20.

There were two exceptional developments during FY23. One was the impairment of Investment in Foreign Subsidiary amounting to ₹ 15.12 crore and another was Provision for Onerous Contract amounting to ₹ 2.63 crore.

Notably, we turned back PBT (Profit Before Tax) and PAT (Profit After Tax) into positive territory, reporting encouraging figures of ₹ 1.84 crore and ₹ 1.48 crore, respectively. These achievements are reflective of our commitment to recalibrate and emerge stronger amidst the recovery phase.

While the journey to regain our pre-pandemic EBITDA levels remains ongoing, we are steadfast in our pursuit of continued growth, enhanced efficiency, and sustained profitability. With a strategic focus on optimizing operational performance, we are confident in our ability to navigate challenges and drive the organization towards even greater success in the coming years.

(4) Radio:

Key encouraging development during the year was the growth in ad volumes in Radio segment which has reached pre-pandemic levels. In FY23, volumes grew by 42%, which was higher than the industry growth of 25%, thus allowing us to improve our utilization by 17%. We have further headroom available which gives us visibility for future growth as well. During FY23, we were able to improve our market share by 320 bps and as on 31st March'23, enjoying a market share of 24.9%.

On the other hand, pricing has seen a marginal uptick during the year however, we believe that pricing has largely bottomed out during the year, and we can expect further marginal increase in 2HFY24 at the time of festivals.

(5) Digital First: Reinvention, Growth, AI & Monetisation

FY 23 was a year of reinventing Mirchi's digital footprint. While we did a fine job in the past of growing our multiple digital assets across social media, YT and other external platforms, however FY 23 saw a new jump both in terms of numbers and also in terms of monetisation on all external platforms. On our Youtube multi-channel network we reached a subscriber base of 18 million users increasing the overall subscriber base by almost 29%. We uploaded more than 1800 videos during the year. Total views generated in FY22 were upwards of 1431 million which is almost 2X compared to last year.

On social media we reached new pinnacles of engagement and success. An all-new FB programmatic monetisation revenue line was opened which helped us earn ₹ ~50 Lacs in H2 itself. While the revenue number might seem small, but it's a start to a greater goal of leveraging the programmatic monetisation capabilities of multiple 3rd party platforms by making Mirchi content reach everywhere. In terms of engagement the Mirchi Plus FB channel peaked at ~8M plus interactions in a month ahead of some of the best digital natives. Across our influencer and organisational channels on social media our followers grew to 40 million. We have reached more than 700 million users with an overall engagement of 55 million.

FY 23 also saw the launch of our O&O (Owned and Operated) platform Mirchi Plus. In a span of 9 months the platform scaled from zero to 4.6 million users powered principally through organic means of growth. Mirchi plus platform is a one stop lifestyle and entertainment destination which provided content in all 3 platforms. – audio, video and text. The digital audio story space which spearheaded the Mirchi Plus foray provided around 3000 hours of all new freshly produced audio story content, whereas digital first shows like "What Women Want with Kareena Kapoor" and "Dream Homes with Gauri Khan" set new benchmarks for Mirchi in the video space. AI & ML were at the center of all these initiatives right from creating content across different formats to powering portions of platforms.

Monetisation: M-Ping, the Digital Audio Ad Network was launched by Mirchi. It was one of major digital monetisation initiatives launched in FY 23 which was welcomed by the likes of Spotify, Jio Saavn and others. In a span of 5 months, it has established its foot hold in the market with great traction coming from both advertisers and publishers.

Total revenues from our digital business was around ₹ 33.6 crore in FY 23 which is 30% higher than ₹ 25.1 crore that we clocked last year. In spite of the aggressive push on digital expansion, the business objective has been to be ROI sensitive

Management Discussion & Analysis

such that growth and revenue walk hand in hand. In the coming years we plan to increase both revenue and digital footprint aggressively.

(6) Mirchi's international business

North America

Mirchi launched its first station in the US on India's Republic Day, Jan 26th, 2019, in the tri-state area of New York, New Jersey, and Connecticut. By the end of May 2019, Mirchi had also expanded to Raleigh-Durham, Philadelphia, Baltimore, Cleveland, Columbus, Atlanta, and St. Louis via a brand licensing arrangement with a local partner, using HD radio technology. However, our brand licensing agreement covering HD radio stations across several cities in the US under-performed as HD technology was unable to attract advertisers. In FY21, we decided to call off this arrangement. Also, the AM frequency which we had leased in New York was sold by its owner, with Mirchi being paid "compensation" for the same. Our revenue spinner really was the New Jersey frequency and we were happy to give the New York frequency away.

In July 2021, we launched our station in San Francisco, followed by the launch of the Dallas station in April 2022. In January 2023, we took a conscious call to exit San Francisco. This was due to revenues not picking up which was a direct result of continuous transmission issues that the partner was not willing to sort out.

As of March 2023, we have 2 terrestrial stations in the US – New Jersey and Dallas. These are 2 of the 3 biggest radio markets for South Asian radio in the US in terms of revenue potential and listenership.

Mirchi launched a brand new Mirchi Plus app in mid-February 2022, through which listeners could not only listen to Mirchi's US stations but also to 3 online stations created specifically for the US – Mirchi New York, Mirchi San Fransisco, and Mirchi Telugu, besides 12 local stations from back home in India, time-shifted to US time. The Mirchi app is available for download on both the Apple and Android app stores in both USA and Canada (Where the lead station is an online station created specifically for Canada called "Yo Punjabi". US Mirchi is also available on Amazon Alexa.

We will be looking for expansion in more markets subject to they being financially viable.. The markets we are interested in are San Francisco, Houston, Austin, and Chicago, amongst other cities in the US, as well as cities like Vancouver and Toronto in Canada, which have a considerable population of South Asians.

UAE

We launched Radio Mirchi in the UAE with a brand licensing agreement with Abu Dhabi Media Corporation (ADMC) in Jan 2012. Since then, we were voted UAE's most loved Hindi Station repeatedly in the Masala Awards. In listenership, we ranked as the No.1 brand across the UAE, across languages – Arabic, Hindi, English, Malayalam, and others. With the efflux of time, our brand licensing and content agreements with ADMC was terminated in June 2020. In March 2021, we re-entered the market, this time in partnership with Dolphin Recording Studio, overhauling their old brand Suno FM to a brand new Mirchi 102.4 FM.

Two years after entering the market, the response to the Mirchi product has been very encouraging. We are sure that with our continued high-quality programming, we will regain our leadership position soon. Besides core radio, Mirchi has also been more active in events and activations in FY23 (Which was subdued in FY22 due to the pandemic) with IPs like Mirchi Terminal and Mirchi Jam (A talent hunt for College and Schools) which we believe will give our listenership a further boost.

The Mirchi Plus app was launched in the UAE in mid-February 2022 and has received a good response so far. On the app, one can listen to the UAE station, 12 local stations from back home in India plus a whole lot of audio stories, videos, and written content. Mirchi UAE is also available on www.mirchi.ae

Bahrain

Mirchi was present in Bahrain under a brand licensing arrangement with a local partner (Adline Media Network) till September 2019, after which our partner decided to surrender the license. After making a bid on our own in November 2019, ENIL won the bid in June 2020. We then relaunched Brand Mirchi in Bahrain on May 9th, 2021, through a 100% owned subsidiary called Mirchi Bahrain WLL.

After more than 2 years in the market, both the audience and client feedback has been very good. However, considering the adverse impact of Covid 19 since the launch of operations and huge quantum of license fees payables to the Ministry of Information Affairs - Bahrain (MOIA), the operations of the Company had become unsustainable in the current year ended March 31,

Management Discussion & Analysis

2023. Considering this, a notice of termination has been served to MOIA expressing our inability to continue services in the region due to continued losses and high license fees.

Qatar

A shareholder agreement was signed between ENIL, Global Entertainment Network Limited (GENL), Marhaba FM, and Mr. Salem Fahad S E Al-Naemi to operate a radio station in Doha, Qatar. In March 2021 ENIL made an equity investment in GENL that gives us a 49% stake in it. Basis this investment, ENIL is entitled to 75% of distributable profits.

GENL has been conducting business in Doha in accordance with the terms and conditions set out in the Agreement. As part of the business, GENL shall provide services to Marhaba FM in connection with operating the Station under the brand name "MirchiOne" as per the terms and conditions agreed between GENL and Marhaba FM. Despite multiple obstacles faced, including travel restrictions, MirchiOne was launched in Qatar in March 2021 to a rousing welcome by listeners and advertisers.

In the last 2 years, MirchiOne has established itself as the radio station of choice, both for listeners and advertisers in Qatar and the business has grown rapidly. We are not only revenue leaders in radio, but we have also established a strong activation business with multiple IPs established in the market.

The Mirchi Plus app was launched in Qatar in mid-February 2022 and has been well received. Mirchi Qatar is also available on www.mirchi.in/radio/qatar.

Future expansion into other countries

Besides the above 4 Countries, we have plans to expand in any country that has a sizable Indian and South Asian population led by the Mirchi Plus app. As consumers are rapidly shifting to the consumption of audio products on digital platforms, this will be a strategic shift in the way Mirchi expands in International markets. It is therefore clear that the potential for Brand Mirchi (In advertising and subscriptions) in International markets is vast and huge.

Management Discussion & Analysis

(8) HR Initiatives

Investment in People Development: People are our asset, and our emphasis has always been to invest in their training and development. We restarted our in-person training which helped build the skills of people. We also kept the emphasis on online learning via our learning app 'Mirchi classroom' - be it online induction programs or webinars, facilitated by in-house subject matter experts. We encouraged both, group learning for specific team cohorts and self-paced individual learning. Around 50% of our people were trained via in-person and online training.

To improve personal effectiveness, we have a yearly feedback mechanism that helps managers reflect on their work styles and ways to improve working relationships with teams. The feedback results are followed by workshops where improvement areas and action points are decided.

We have an AI-enabled BOT called 'Amber', which reaches out to our people at regular intervals. These conversations with Amber give us a complete view on matters such as organization, culture, career progression, learning, and job satisfaction. These conversations help us reflect and design better people practices and processes. For the year FY23, our NPS scores were in the range of 87%, while our engagement scores hovered around 84%.

Our People and their Growth: As a philosophy, we have always looked at internal talent first for any career and job opportunities that come up. We have a defined regular promotion & fast track promotion policy & in combination with our robust performance management practices, we promote around 15% of our workforce every year. Regular career conversations & structured 3rd party led assessment centers along with various other data points of experience, and past performance are collated to plan for succession into key roles & also for grooming promising junior and middle managers for bigger roles in the Company.

Revenue sharing with creative teams: We have also launched a first-in-radio-industry HR practice of sharing Solutions revenues with our top creative talent. This unique practice makes our creators financial partners with us helping build a stronger bond with the Company.

D. RISKS, CONCERNS AND CHALLENGES FACING THE COMPANY

Market Risk

Within the media and entertainment industry, radio has a high operating leverage given the high fixed costs. Costs can be reduced, but the same involves a lot of time and effort. During an economic slowdown, radio companies are the first ones to bear the brunt as their revenues crash instantly but costs reduce gradually. In contrast, newspaper companies can quickly rundown their costs by reducing the number of pages, the quality of paper and the number of copies printed. TV companies reduce their costs as show production reduces. However, on the flip side, as soon as there is a recovery, the profits of radio companies rise faster than all the other mediums. To immune themselves from such market risks, ENIL employed various cost cutting initiatives during the pandemic and was able to quickly improve its EBITDA levels.

Slowdown in Radio industry

Due to the digital disruption, all traditional mediums are facing challenges. In the developed world, the newspaper industry has taken a big hit, but radio and TV have been far more resilient. In India, while the TV industry has been resilient, it has been losing its viewers to digital OTT platforms every year. We are seeing a similar trend in radio as well. Many mobile phones, especially the high-end ones, are being launched without FM tuners. Therefore, mobile users have no other option, but to use OTT apps to consume music which has made it difficult for radio companies to target the youth. On the other hand, due to increased car penetration and traffic jams, the consumption of radio within cars has been increasing. While digital products have entered the car segment, their penetration has been low. On the other hand, FM radio has a natural advantage as it provides infotainment, companionship through RJs and simply because of its ease of use.

Poor Listenership

Radio broadcasters are forced to play more ads, to offset the reduction in effective rates, the listener experience has deteriorated. If this is not corrected quickly, it could become another reason for listeners to move to digital platforms.

Operational and Financial Risk

The Risk Management Framework of the Company is regularly reviewed by the Board. Risks are reviewed

Management Discussion & Analysis

and new risks are added to the framework as required. The management of the Company recognized the pandemic as a black swan event which disrupted our business. As a conscious strategy to better handle similar black swan events in the future, the Company has decided to transform even faster towards a digital-first avatar. Despite that, the Company does remain vulnerable to other unknown black swan events.

E. SEGMENT- WISE FINANCIAL PERFORMANCE

Management Discussion and Analysis of the Company's operations together with the discussion on financial performance with respect to operational performance should be read in conjunction with the financial statements and the related notes.

(1) ENIL

In FY23, there were promising signs of recovery from the impacts of the pandemic; however, the progress towards realizing the full potential of this recovery was hindered by various other disruptions such as geopolitical tensions and high inflation, which affected economies worldwide. Although revenues experienced a rebound during the year, primarily driven by increased volumes that surpassed the pre-pandemic levels, pricing remained subdued. The combination of geopolitical tensions and inflationary pressures has put constraints on pricing, making it difficult for businesses to fully regain their pre-Covid revenue levels. Despite these obstacles, the overall economic recovery showed positive signs, and it was considered the first full year of recovery after the Covid downturn.

Radio Mirchi

The overall business was largely driven by radio ad volumes and contribution from the digital segment. the Solutions business started the year on strong footing however 2HFY23 was muted due to a lack of sponsorships in the later part of the year. Revenues grew by 37.3% in FY2023 to ₹ 419.5 crore and EBITDA grew 59.9% to ₹ 67.5 crore. PBT improved with a loss of ₹ 6.4 crore in FY2023 compared to a loss of ₹ 36.4 crore excluding exceptional items in the previous year. Including the impact of exceptional items, the PBT for FY2023 was a loss of ₹ 24.2 crore. PAT also improved to a loss of ₹ 19.5 crore from a loss of ₹ 27.5 crore in FY2022.

Mirchi Digital

Total revenues from the digital business stood at ₹ 33.6 crore in FY2023, up 34% YoY from ₹ 25.1 crore in FY2022.

(2) Subsidiary Companies

The Company has the following subsidiaries:

- Alternate Brand Solutions (India) Limited (ABSL), a 100% subsidiary based in India.
- Entertainment Network, INC (EN, INC) and a step-down subsidiary, Entertainment Network, LLC (EN, LLC) based in the United States of America. EN, INC is a 100% subsidiary of the Company. EN, LLC is a 100% subsidiary of EN, INC.
- Global Entertainment Network Limited (GENL) (A company incorporated under the laws of the State of Qatar having its registered office in Doha, Qatar). In March 2021, the Company acquired 49% equity of GENL. The remaining 51% of equity stake is owned by another company (Marhaba FM). Basis the shareholding agreement executed by the Company with Marhaba FM, the Company has controlling interest over GENL. As a result, the investment made in GENL is treated as an investment in subsidiary as per Ind AS 110-Consolidated Financial Statements.
- Mirchi Bahrain WLL based in the Kingdom of Bahrain, a 100% subsidiary of the Company. Mirchi Bahrain WLL became a wholly owned subsidiary of the Company in April 2021.

Information regarding the financial performance of the Subsidiary Companies has been presented in Paragraph 34 of the Directors' Report.

GENERAL

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY:

The Company has a system of internal controls to ensure that all its assets are properly safeguarded and not exposed to risks arising out of unauthorized use or disposal. The Internal Control system is supplemented by programs of internal audit to ensure that the assets are properly accounted for, and the business operations are conducted in adherence to laid down policies and procedures. The internal control system also focuses on processes to ensure integrity of the Company's financial accounting and reporting processes and compliance with the Company's legal obligations. DETAILS OF SIGNIFICANT CHANGES (I.E., CHANGE OF 25% OR MORE AS COMPARED TO THE IMMEDIATELY PREVIOUS FINANCIAL YEAR) IN KEY FINANCIAL RATIOS, ALONG WITH DETAILED EXPLANATIONS:

Ratio	FY2023	FY2022
Debtors Turnover	3.8	3.0
Inventory Turnover	NA	NA
Interest Coverage Ratio	NA	NA
Current Ratio	2.8	3.2
Debt Equity Ratio	NA	NA
Operating Profit Margin (%)	16.1%	13.8%
Net Profit Margin (%)	(4.4)%	(8.5)%
Return on Net Worth (%)	(2.6)%	(3.5)%

Debtors Turnover ratio: Higher Debtor Turnover Ratio is indicative of increased revenue and collection efficiency.

Current Ratio: The reduction in Current Ratio is attributable to increased trade payables, partly offset by increased cash & cash equivalents.

Operating Profit Margin: Higher Operating Profit Margin is due to an increase in the total revenue and our consistent cost-saving efforts.

Net profit Margin: Negative Net Profit Margin in FY23 can be attributed to the recognition of impairment charges related to the international business and creation of provisions for onerous contract.

Return on Net Worth: Negative Return on Net Worth in FY23 is attributed to impairment associated with the international business and provision created for onerous contract.

Management Discussion & Analysis

INTEGRATED REPORTING:

Integrated reporting refers to the representation of the financial and non-financial performance of a company in a single report. This helps in providing a greater context to the non-financial data such as how the company performs on environmental, social and governance (ESG) parameters, how sustainability is embedded in the core business strategy etc.

This Integrated Report of the Company for the financial year ended March 31, 2023 forms part of the Management Discussion & Analysis report. This report primarily captures the business model of the Company and how does the Company create, sustain and enhance the value.

About the purpose of the business and business model:

(1) Purpose of the business:

ENIL is a city-centric music and entertainment company, which conducts business via its brands- Radio Mirchi, Mirchi Plus, Mirchi 95, Mirchi Love and Kool FM. It produces content in the music and entertainment space and distributes this content via different means – FM radio/own digital app/ web/external digital apps like Facebook/ Instagram/ YouTube/ MX Player/ Gaana/ Spotify and others/ On-ground activities/TV shows and others. Its digital content is available across various geographies and in many cases, globally.

(2) Business model:

The core of our business model involves monetizing our listenership, viewership, readership and footfalls via advertising/licensing/direct selling to its users. We accept audio ads on our FM network. We accept brand sponsorships for our video content that we release on TV or YouTube or social media like Facebook, Instagram or Twitter. We also get licensing revenues by giving limited rights to our video content (web series/similar content) to OTT platforms. About 2/3rd of our revenues come from core FM radio and the rest from all the other sources mentioned above.

(3) Resources needed to carry out the business:

There are several resources that are needed to run a company like ENIL. First and foremost are financial resources. The Company has won FM radio frequencies through auctions held by the Government of India over several years. As per government policy, the Company has had to pay the entire auction value (called "One Time Entry Fee") as an advance. Financial resources are also needed to build and operate studios and transmission facilities and offices in various cities in which we operate. Apart from financial resources, the most important resource that is at the heart of a media and entertainment business is human resources. There are creative people who create content and build a community of listeners and viewers. There are sales and marketing people who monetize this listenership and viewership. There are many other support people who ensure the Company's operations run smoothly.

(4) Along the way – in doing business how does it impact the 6 capitals

Financial capital is required first to take part in auctions conducted by the Government and in setting up studios and transmission facilities. There are huge advances to be paid to the Government once the frequency is won in the auctions. Financial capital is also needed to fund working capital, advances to be paid, and other requirements. Then there is Human Capital, one of the most important part of any creative organization. We have a workforce of 1005 individuals, spread across creative, digital, sales, marketing, HR, finance, legal and other functions. It is on the back of these people that Mirchi has become the leader in its line of business. Then there is Intellectual capital in the form of various Intellectual Properties that the Company owns. Brand Mirchi is one of the most powerful brands in the Country. Then there are other IPs that belong to the Company including iconic properties like Mirchi Music Awards, Mirchi Cover Star, Mirchi Rock & Dhol, Mirchi Neon Run, Mirchi Top 20 and so many more. Our IPs help build strength for the Company in operations in all countries. To a limited extent, we also use manufactured capital when we produce events and concerts on-ground. Social and relationship capital is very important in our business because sustained business growth requires us to maintain a strong bond with our listeners, viewers, event attendees and our advertisers.

(5) Inputs: most material for the organization:

As covered above, financial capital, human capital, social and relationship capital and intellectual capital are the most important "materials" for the organization.

Kind of capital we depend upon and how we delivered value:

(1) Financial capital and Manufactured capital:

Financial capital refers to the pool of funds available to an organization for use in the production of goods or provision of services, which is obtained through financing, such as equity, debt or generated through operations or investments. Manufactured capital refers to the manufactured physical objects that are available to an organization for use in the production

STANDALONE FINANCIAL STATEMENTS

Independent Auditor's Report

To the Members of Entertainment Network (India) Limited

Report on the Audit of the Standalone Financial Statements

Opinion

1. We have audited the accompanying standalone financial statements of **Entertainment Network (India) Limited** ('the Company'), which comprise the Balance Sheet as at **31 March 2023**, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flow and the Statement of Changes in Equity for the year then ended, and notes to the standalone financial statements, including a summary of the significant accounting policies and other explanatory information.

2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ('Ind AS') specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2023, and its loss including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

5. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matters	How our audit addressed the key audit matter
Impairment of investment in subsidiaries The Company has investments of ₹ 884.23 lakhs (net of impairment amount ₹ 1,515.35 lakhs) in Entertainment Network Inc. and Mirchi Bahrain W.L.L, its wholly owned subsidiaries being carried at cost in accordance with Ind AS 27, Separate Financial Statements as mentioned in note 8 to the accompanying financial statements. Refer note 2(xvi) for the accounting policy on impairment of such investments adopted by the Company. The subsidiaries have incurred losses in the current year and the carrying value of such investments exceed the net worth of the respective subsidiaries, Considering the existence of aforesaid impairment indicators in the current year, the Company has assessed the recoverable amounts of each investment by comparing the fair value (less costs of disposal) and carrying amount of the investment as on the reporting date in accordance with Ind AS 36, Impairment of assets.	Our audit procedures included, but were not limited to, the following: a) Obtained an understanding of the management's process for identification of impairment indicators and evaluated the design and tested the operating effectiveness of internal controls over such identification and impairment measurement through fair valuation of identified investments. b) Involved auditor's experts to assess the appropriateness of the valuation methodologies used by the management and reviewed the appropriateness of key valuation assumptions including the estimates around business and cash flow projections, growth rates, discount rates estimated future operating and capital expenditure amongst others used within the discounted cash flow model.

Independent Auditor's Report

Key audit matters	How our audit addressed the key audit matter
The management estimate of the recoverable amounts of the identified investments has been determined through discounted cash flow model with the help of a management expert. Such valuation method involves significant judgment in carrying out the impairment assessment and the key assumptions included estimates around business and cash flow projections, growth rates, discount rates, estimated future operating and capital expenditure amongst others. Changes to these assumptions could lead to material changes in estimated recoverable amounts, resulting in impairment. Based on the aforesaid assessment the Company has recorded impairment charge, as mentioned in Note 46 (a) and (b) to the standalone financial statements, during the year ended 31 March 2023 as the recoverable amount is higher than the carrying value. Considering the materiality of the carrying amounts, the inherent subjectivity, complexity and significance of judgment involved, impairment assessment of aforesaid investments, we have considered it to be a key audit matter for the current year's audit.	c) Evaluated and challenged management's assumptions such as implied growth rates during explicit period and discount rate for their reasonableness based on our understanding of the business of the respective subsidiary companies, past results and external factors such as industry trends and forecasts. d) Obtained and evaluated sensitivity analysis performed by the management on key assumptions of implied growth rates during explicit period and discount rates. e) Tested the mathematical accuracy of the management computations with regard to cash flows and sensitivity analysis. f) Reconciled the cash flow projections used in aforesaid valuations to the business plans approved by the Board of Directors of the Company g) Performed independent sensitivity analysis of aforesaid key assumptions to assess the effect of reasonably possible variations on the current estimated recoverable amount for each of the identified investments to evaluate sufficiency of headroom between recoverable value and carrying amount. h) Obtained and evaluated the appropriateness of onerous contract provisions under Ind AS 37, Provisions, Contingent Liabilities and Contingent Assets for the year ended 31 March 2023. i) Evaluated the appropriateness and adequacy of the disclosures made in the standalone financial statements, in respect of impairment assessment of specified non-current financial assets as required by applicable financial reporting framework.
Impairment Assessment of Property, plant and equipment, Right-to-use of assets and Intangible assets The Company has non-financial assets in the form of Property, Plant and Equipment, Right- to-use of assets and Intangible assets ('specified non-financial assets') which are carried at cost less accumulated depreciation/ amortization and impairment (if any) amounting to ₹ 5,172.20 lakhs, ₹ 13,423.71 lakhs and ₹ 34,933.68 lakhs respectively as at 31 March 2023.	Our audit procedures included, but were not limited to, the following: ▪ Obtained an understanding of and evaluated the process and controls designed and implemented by the management to assess the potential impairment of non-financial assets. Further, tested the operating effectiveness of such controls during the year. ▪ Evaluated the Company's accounting policy in respect of impairment assessment, and the methods and models used to determine the recoverable amounts of property, plant and equipment, right-to-use of assets and intangible assets, in accordance with the requirements of Ind AS 36.

Independent Auditor's Report

Key audit matters	How our audit addressed the key audit matter
As at 31 March 2023, in view of recent business losses which was determined to be an impairment indicator under the requirements of Ind AS 36, Impairment of Assets ('Ind AS 36'), the Company has performed an impairment assessment of all the specified non-financial assets using discounted cash flow method to assess the value-in-use of such assets, which requires judgement in respect of certain key inputs such as future cash flows, determining an appropriate discount rate, etc. Based on the aforesaid assessment the Company has not recorded further impairment charge against the non-financial assets during the year ended 31 March 2023 including for the assets related to 'Mirchi Love' and 'Kool FM', as the recoverable amount is higher than the carrying value. We considered impairment assessment of property, plant and equipment, right-to-use of assets and intangible assets as a key audit matter in the current year audit because of the significant judgement and management estimates involved around impairment assessment.	▪ Reviewed the process of determination of the level at which the impairment assessment was performed by the Company and assessed that the same is in line with the requirements of Ind AS 36 considering the nature of the Company's operations. ▪ Involved our internal valuation experts and reviewed the appropriateness of the key valuation assumptions including the discount rates used within the discounted cash flow model. ▪ Evaluated the reasonableness of the key inputs and assumptions such as growth rates, etc. used by the management in cash flow projections basis our understanding of the business and by comparing it with readily available market information and underlying macro-economic factors. ▪ Performed sensitivity analysis on the assumptions used in projections to ensure significant headroom. ▪ Compared the carrying value of the net assets with the estimated discounted future cash flows determined by the management and ensured arithmetical accuracy of management impairment assessment workings as above. Evaluated the adequacy of the disclosures made in the standalone financial statements, in respect of impairment assessment of specified non-financial assets as required by applicable financial reporting framework.
Recognition of revenue and related contract costs for branded and managed solutions business The Company earns revenue from providing branded and managed solutions business that involves providing various services which includes managing and organising Concerts, Award shows, on air properties, brand licensing, multimedia and digital services and managing intellectual properties and activities or events of clients. Revenue from these contracts is recognized over a period of time in accordance with the requirements of Ind AS 115, Revenue from Contracts with Customers ('Ind AS 115'). Refer Note 26 A II for the revenue recorded for the year pertaining to aforesaid business and Note 2(ii) for the related accounting policy adopted by the management in this respect. These services involve multiple performance obligations and transaction price is allocated to such identified separate performance obligations as per standalone selling prices determined by the management for such performance obligations.	Our audit procedures included, but were not limited to, the following: ▪ Obtained Company's accounting policies pertaining to revenue recognition and assessed compliance with the requirements of Ind AS 115. ▪ Obtained an understanding of the management's process, and evaluated the design and tested the operating effectiveness of controls around revenue recognition from branded and managed solutions business including for identification of performance obligations and allocation of transaction price towards such performance obligations. ▪ On a sample basis, read the contracts and inspected other supporting documents/evidence to evaluate appropriateness of management's evaluation of identification of contractual obligations/ deliverables to the customers, determination of progress of completion of these deliverables and recording of related revenues and costs incurred along with the estimation of balance performance obligations and related revenues and costs to complete the remaining contractual obligations, pertaining to such contracts.

Independent Auditor's Report

Key audit matters	How our audit addressed the key audit matter
Further, given the nature of these contracts, revenue recognition involves estimation to determine the extent of performance obligations satisfied and the proportion of contract costs incurred to date and costs that are to be recognized as 'contract assets' under the requirements of Ind AS 115, which involves significant management judgments. Given the significant estimation involved for branded and solutions business, we have identified this as a key audit.	Evaluated the adequacy for disclosure made by the management in the accompanying standalone financial statements in respect of revenue recognition from the specified business in accordance with the requirements of applicable financial reporting framework.
Recoverability assessment of deferred tax assets As detailed in note 10 A to the standalone financial statements, the Company has deferred tax assets ('DTA') (net) amounting to ₹ 3,585.72 lakhs outstanding as at 31 March 2023 which includes ₹ 5,475.39 lakhs of DTA recognized on Minimum Alternate Tax ('MAT') credit and ₹ 2,086.46 lakhs DTA recognised on brought forward business losses. Refer Note 2(xiv) for the related accounting policy adopted by the Company on deferred tax. The Company's ability to utilise the deferred tax assets is assessed by the management at the close of each reporting period and it depends upon the forecasts of future results that the Company expects to achieve within the period by which such MAT credit and brought forward business losses may be adjusted as governed by the provisions of the Income Tax Act, 1961. As per the management's assessment, the financial projections show a significant increase in profitability over the coming years, which will result in increase in income tax liability against which the available MAT credit and brought forward business losses can be utilised as mentioned above. Such financial projections about the growth in business operations and activities involves significant management judgement and estimates. We have identified recoverability assessment of deferred tax assets based on expected utilisation of MAT credit and brought forward business losses, as a key audit matter in the current year audit considering the materiality of the amounts and significant judgment involved in estimation of future taxable profits and the probability of utilising the MAT credit and tax losses.	Our audit procedures included, but were not limited to, the following: ▪ Obtained understanding and evaluation of the process and controls designed and implemented by the management over recognition and recoverability assessment of DTA based on the evaluation of Company's ability to generate sufficient taxable profits in foreseeable future allowing the use of deferred tax assets on MAT credit and Business losses within the time prescribed by income tax laws. Further, tested the operating effectiveness of such controls. ▪ Obtained the financial projections prepared by the management and verified the cash flow forecasts used in the recoverability assessment of DTA to the approved business plans. ▪ Reviewed the historical accuracy of the cash flow projections prepared by the management in prior periods. Obtained understanding from the management about the predicted business growth and viability of achieving those projections. ▪ Evaluated management's assessment of time period available for adjustment of such deferred tax assets on MAT credit and Business losses as per provisions of the Income Tax Act, 1961 and appropriateness of the accounting treatment with respect to the recognition of deferred tax assets on MAT credit and business losses as per the requirements of Ind AS 12, Income Taxes. Assessed the adequacy of the disclosures made in the standalone financial statements in respect of aforesaid DTA balances in accordance with the requirements of applicable financial reporting framework.

Independent Auditor's Report

Key audit matters	How our audit addressed the key audit matter
Expected credit losses ('ECL') on trade receivables The Company assesses impairment provision for doubtful receivables, based on Expected Credit Loss (ECL) model, as per Ind AS 109, Financial Instruments to state the entity's trade receivables to their carrying amount, which approximates their fair value. Management evaluates and calculates the expected credit losses using a provision matrix based on historical credit loss experience, specific reviews of customer accounts, experience with such customers, current economic and business conditions and industry assessment. In calculating expected credit loss, the Company has considered related credit information for its customers to estimate the probability of default in future. The Company has trade receivables (net of provision) of ₹ 12,978.56 lakhs and provision of ₹ 2,936.24 lakhs as on balance sheet date. The appropriateness of the provision for expected credit loss is subjective due to the high degree of judgment applied by management in determining the provisioning matrix. Due to the significance of trade receivables and the related estimation uncertainty this is considered as a key audit matter in the current year.	Our audit procedures included, but were not limited to, the following: ▪ Obtained understanding of management's process over credit origination, credit monitoring and credit remediation by evaluating the Company's impairment policy and methodology; ▪ Evaluated management's continuous assessment of the assumptions used in the impairment provision matrix. These considerations include whether there are regular receipts from the customers, the Company's past collection history as well as an assessment of the customers' credit ability to make payments. ▪ Obtained the ageing analysis of trade receivables and tested on a sample basis, the ageing of trade receivables at year end and discussed with management the reasons of any long outstanding amounts where no provisions were recorded and also evaluated management's assumptions used in determining the impairment provision, through detailed analyses of ageing of receivables, assessment of material overdue individual trade receivables and past trends of bad debts charged to the statement of profit and loss. ▪ Verified mathematical accuracy of provision computation based on model considered by the management. Assessed the adequacy for disclosure made by the management in the accompanying standalone financial statements in respect of ECL in accordance with the requirements of applicable financial reporting framework.

Information other than the Standalone Financial Statements and Auditor's Report thereon

6. The Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the standalone financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

   Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

   In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

   When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Independent Auditor's Report

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

7. The accompanying standalone financial statements have been approved by the Company's Board of Directors. The Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS specified under section 133 of the Act and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

8. In preparing the standalone financial statements, the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

9. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

10. Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

11. As part of an audit in accordance with Standards on Auditing, specified under section 143(10) of the Act we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

    - Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
    - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls;
    - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
    - Conclude on the appropriateness of Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern; and

Independent Auditor's Report

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation;

12. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

13. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

14. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

15. As required by section 197(16) of the Act based on our audit, we report that the Company has paid remuneration to its directors during the year in accordance with the provisions of and limits laid down under section 197 read with Schedule V to the Act.

16. As required by the Companies (Auditor's Report) Order, 2020 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act we give in the **Annexure I** a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

17. Further to our comments in **Annexure I**, as required by section 143(3) of the Act based on our audit, we report, to the extent applicable, that:

    a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the accompanying standalone financial statements;

    b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;

    c) The standalone financial statements dealt with by this report are in agreement with the books of account;

    d) In our opinion, the aforesaid standalone financial statements comply with Ind AS specified under section 133 of the Act;

    e) On the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2023 from being appointed as a director in terms of section 164(2) of the Act;

    f) With respect to the adequacy of the internal financial controls with reference to standalone financial statements of the Company as on 31 March 2023 and the operating effectiveness of such controls, refer to our separate Report in Annexure II wherein we have expressed an unmodified opinion; and

    g) With respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:

        i. the Company, as detailed in note 42 to the standalone financial statements, has disclosed the impact of pending litigation on its financial position as at 31 March 2023;

        ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2023;

Independent Auditor's Report

iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended 31 March 2023;

iv. a. The management has represented that, to the best of its knowledge and belief, as disclosed in note 49 to the standalone financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or securities premium or any other sources or kind of funds) by the Company to or in any person or entity, including foreign entities ('the intermediaries'), with the understanding, whether recorded in writing or otherwise, that the intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ('the Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf the Ultimate Beneficiaries;

b. The management has represented that, to the best of its knowledge and belief, as disclosed in note 49 to the standalone financial statements, no funds have been received by the Company from any person or entity, including foreign entities ('the Funding Parties'), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ('Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

c. Based on such audit procedures performed as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the management representations under sub-clauses (a) and (b) above contain any material misstatement.

v. The final dividend paid by the Company during the year ended 31 March 2023 in respect of such dividend declared for the previous year is in accordance with section 123 of the Act to the extent it applies to payment of dividend and as stated in note 36 to the accompanying standalone financial statements, the Board of Directors of the Company have proposed final dividend for the year ended 31 March 2023 which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend declared is in accordance with section 123 of the Act to the extent it applies to declaration of dividend.

vi. Proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 requires all companies which use accounting software for maintaining their books of account, to use such an accounting software which has a feature of audit trail, with effect from the financial year beginning on 1 April 2023 and accordingly, reporting under Rule 11(g) of Companies (Audit and Auditors) Rules, 2014 (as amended) is not applicable for the current financial year.

Annexure
to the Independent Auditor's Report

Annexure I referred to in Paragraph 16 of the Independent Auditor's Report of even date to the members of Entertainment Network (India) Limited on the standalone financial statements for the year ended 31 March 2023

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

(i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment, right of use assets and investment property.

(B) The Company has maintained proper records showing full particulars of intangible assets.

(b) The Company has a regular programme of physical verification of its property, plant and equipment, right of use assets and investment property under which the assets are physically verified in a phased manner over a period of 3 years, which in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this programme, certain property, plant and equipment, right of use assets and investment property were verified during the year and no material discrepancies were noticed on such verification

(c) The title deeds of all the immovable properties (including investment properties) held by the Company (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee) disclosed in note 6 to the standalone financial statements are held in the name of the Company.

(d) The Company has not revalued its Property, Plant and Equipment including Right of Use assets or intangible assets during the year.

(e) No proceedings have been initiated or are pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 (as amended) and rules made thereunder.

(ii) (a) The Company does not hold any inventory. Accordingly, reporting under clause 3(ii)(a) of the Order is not applicable to the Company.

(b) The Company has not been sanctioned working capital limits by banks or financial institutions on the basis of security of current assets at any point of time during the year. Accordingly, reporting under clause 3(ii)(b) of the Order is not applicable to the Company.

(iii) (a) The Company has provided loan to a Subsidiary and during the year as per details given below:

Particulars	Loans
Aggregate amount provided/granted during the year: - Subsidiary	₹ 150 lakhs
Balance outstanding as at balance sheet date in respect of above cases: - Subsidiary	Nil

(b) The Company has not provided any guarantee or given any security or advances in the nature of loans during the year. However, the Company has made investment in two entities amounting to ₹ 980.23 lakhs as at 31 March 2023 (year-end balance ₹ 1,529.90 lakhs) and in our opinion, and according to the information and explanations given to us, such investments made are, prima facie, not prejudicial to the interest of the Company.

(c) The Company does not have any outstanding advances in the nature of loans at the beginning of the current year nor has granted any advances in the nature of loans during the year. In respect of loans granted by the Company, the schedule of repayment of principal and payment of interest has been stipulated and the repayments/receipts of principal and interest are regular.

Annexure
to the Independent Auditor's Report

(d) There is no overdue amount in respect of loans granted to such companies, firms, LLPs or other parties.

(e) The Company has not granted any loan or advance in the nature of loan which has fallen due during the year. Further, no fresh loans were granted to any party to settle the overdue loans/advances in nature of loan that existed as at the beginning of the year.

(f) The Company has not granted any loan or advance in the nature of loan, which is repayable on demand or without specifying any terms or period of repayment.

(iv) In our opinion, and according to the information and explanations given to us, the Company has complied with the provisions of section 186 of the Act in respect of investments made and loan granted, as applicable. Further, the Company has not entered into any transaction covered under section 185 and section 186 of the Act in respect of guarantees and security provided by it.

(v) In our opinion, and according to the information and explanations given to us, the Company has not accepted any deposits or there are no amounts which have been deemed to be deposits within the meaning of sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, reporting under clause 3(v) of the Order is not applicable to the Company.

(vi) The Central Government has specified maintenance of cost records under sub-section (1) of section 148 of the Act only in respect of radio broadcasting services provided by the Company. We have broadly reviewed the books of account maintained by the Company pursuant to the Rules made by the Central Government for the maintenance of cost records under the aforesaid section, and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.

(vii) (a) In our opinion, and according to the information and explanations given to us, the Company is regular in depositing undisputed statutory dues including goods and services tax, provident fund, employees' state insurance, income-tax, cess and other material statutory dues, as applicable, with the appropriate authorities. Further, no undisputed amounts payable in respect thereof were outstanding at the year-end for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us, there are no statutory dues referred in sub-clause (a) which have not been deposited with the appropriate authorities on account of any dispute except for the following:

Name of the statute	Nature of dues	Amount paid under Protest (₹)	Period to which the amount relates	Forum where dispute is pending
Income Tax Act, 1961	Income Tax	203,535,281	Assessment Year 2013-14	Commissioner of Income Tax (Appeals)

(viii) According to the information and explanations given to us, no transactions were surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961) which have not been previously recorded in the books of account.

(ix) (a) According to the information and explanations given to us, the Company does not have any loans or other borrowings from any lender. Accordingly, reporting under clause 3(ix)(a) of the Order is not applicable to the Company.

(b) According to the information and explanations given to us including representation received from the management of the Company, and on the basis of our audit procedures, we report that the Company has not been declared a willful defaulter by any bank or financial institution or government or any government authority.

(c) In our opinion and according to the information and explanations given to us, the Company has not raised any money by way of term loans during the year and did not have any term loans outstanding at the beginning of the current year. Accordingly, reporting under clause 3(ix)(c) of the Order is not applicable to the Company.

Annexure
to the Independent Auditor's Report

(d) In our opinion and according to the information and explanations given to us, the Company has not raised any funds on short term basis during the year or in any previous year. Accordingly, reporting under clause 3(ix)(d) of the Order is not applicable to the Company.

(e) According to the information and explanations given to us and on an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries.

(f) According to the information and explanations given to us, the Company has not raised any loans during the year on the pledge of securities held in its subsidiaries.

(x) (a) The Company has not raised any money by way of initial public offer or further public offer (including debt instruments), during the year. Accordingly, reporting under clause 3(x)(a) of the Order is not applicable to the Company.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or (fully, partially or optionally) convertible debentures during the year. Accordingly, reporting under clause 3(x)(b) of the Order is not applicable to the Company.

(xi) (a) To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company or on the Company has been noticed or reported during the period covered by our audit.

(b) According to the information and explanations given to us including the representation made to us by the management of the Company, no report under sub-section 12 of section 143 of the Act has been filed by the auditors in Form ADT-4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014, with the Central Government for the period covered by our audit.

(c) According to the information and explanations given to us including the representation made to us by the management of the Company, there are no whistle-blower complaints received by the Company during the year

(xii) The Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it. Accordingly, reporting under clause 3(xii) of the Order is not applicable to the Company.

(xiii) In our opinion and according to the information and explanations given to us, all transactions entered into by the Company with the related parties are in compliance with sections 177 and 188 of the Act, where applicable. Further, the details of such related party transactions have been disclosed in the financial statements, as required under Indian Accounting Standard (Ind AS) 24, Related Party Disclosures specified in Companies (Indian Accounting Standards) Rules 2015 as prescribed under section 133 of the Act.

(xiv) (a) In our opinion and according to the information and explanations given to us, the Company has an internal audit system as per the provisions of section 138 of the Act which is commensurate with the size and nature of its business.

(b) We have considered the reports issued by the Internal Auditors of the Company till date for the period under audit.

(xv) According to the information and explanation given to us, the Company has not entered into any non-cash transactions with its directors or persons connected with its directors and accordingly, reporting under clause 3(xv) of the Order with respect to compliance with the provisions of section 192 of the Act are not applicable to the Company.

(xvi) (a) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, reporting under clauses 3(xvi)(a), (b) and (c) of the Order are not applicable to the Company.

(d) Based on the information and explanations given to us and as represented by the management of the Company, the Group (as defined in Core Investment Companies (Reserve Bank) Directions, 2016) does not have any CIC.

Annexure
to the Independent Auditor's Report

(xvii) The Company has not incurred any cash losses in the current financial year as well as the immediately preceding financial year.

(xviii) There has been no resignation of the statutory auditors during the year. Accordingly, reporting under clause 3(xviii) of the Order is not applicable to the Company.

(xix) According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the standalone financial statements, our knowledge of the plans of the Board of Directors and management and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the company as and when they fall due.

(xx) According to the information and explanations given to us, the Company has met the criteria as specified under sub-section (1) of section 135 of the Act read with the Companies (Corporate Social Responsibility Policy) Rules, 2014, however, in the absence of average net profits in the immediately three preceding years, there is no requirement for the Company to spend any amount under sub-section (5) of section 135 of the Act. Accordingly, reporting under clause 3(xx) of the Order is not applicable to the Company.

(xxi) The reporting under clause 3(xxi) of the Order is not applicable in respect of audit of standalone financial statements of the Company. Accordingly, no comment has been included in respect of said clause under this report.

Annexure
to the Independent Auditor's Report

Annexure II to the Independent Auditor's Report of even date to the members of Entertainment Network (India) Limited on the standalone financial statements for the year ended 31 March 2023

Independent Auditor's Report on the internal financial controls with reference to the standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the standalone financial statements of **Entertainment Network (India) Limited** ('the Company') as at and for the year ended 31 March 2023, we have audited the internal financial controls with reference to financial statements of the Company as at that date.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Financial Statements

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by ICAI prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with Reference to Financial Statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Annexure

to the Independent Auditor's Report

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such controls were operating effectively as at 31 March 2023, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Significant accounting policies and other explanatory information to the standalone financial statements

1. CORPORATE INFORMATION

Entertainment Network (India) Limited (the 'Company') is a public limited company domiciled in India and is listed on the Bombay Stock Exchange ('BSE') and the National Stock Exchange ('NSE'). The Company was incorporated on June 24, 1999 and has its registered office at 4th Floor, A-Wing, Matulya Centre, Senapati Bapat Marg, Lower Parel (West), Mumbai- 400 013, Maharashtra, India. The Company operates FM radio broadcasting stations in 63 Indian cities under the brand names 'Mirchi', 'Mirchi Love', and 'Kool FM'.

The Company's principal revenue stream is advertising. Advertising revenues are generated through the sale of airtime in the Company's FM radio broadcasting stations, activations, concerts and monetization of Company's digital and other media properties.

These standalone financial statements were approved by the Company's Board of Directors on May 4, 2023.

2. SIGNIFICANT ACCOUNTING POLICIES

i. Basis of preparation

a. Statement of compliance

These standalone financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendments issued thereafter. The standalone financial statements have been prepared on an accrual and going concern basis. The accounting policies are applied consistently to all the periods presented in the standalone financial statements except where a newly issued accounting standard has been adopted or a revision to an existing accounting standard requires a consequent change in the accounting policy hitherto in use.

b. Current versus non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle.

An asset is treated as current when it is:

a) Expected to be realised or intended to be sold or consumed in the normal operating cycle.

b) Held primarily for the purpose of trading.

c) Expected to be realised within twelve months after the reporting period, or

d) A cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

a) It is expected to be settled in the normal operating cycle.

b) It is held primarily for the purpose of trading.

c) It is due to be settled within twelve months after the reporting period, or

d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Based on the nature of services and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities. The standalone financial statements have been prepared on a historical cost basis, except for certain financial assets and liabilities which are measured at fair value (refer note ix below)

c. Functional currency

The functional currency of the Company is the Indian Rupee (₹). These standalone financial statements are presented in Indian Rupees rounded off to lakhs.

Significant accounting policies and other explanatory information to the standalone financial statements

d. Critical estimates and judgements

The preparation of standalone financial statements requires the use of accounting estimates, which will seldom equal the actual results. Management also needs to exercise judgement in applying the Company's accounting policies. This note provides an overview of the areas that involved more judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the standalone financial statements.

The areas involving critical estimates or judgements are:

a. Useful life of Property, plant and equipment, investment properties and intangible assets - Refer Note 3, Note 6, Note 7, Note 2(iv), Note 2 (v) and Note 2(vi)

b. Impairment of trade receivables - Refer Note 12 and Note 2(ix)(d)

c. Recognition and recoverability of deferred tax assets - Refer Note 10A, Note 32 and Note 2(xiv)

d. Recognition of Revenue from contracts with customers - Refer Note 26 and Note 2(ii)

e. Current tax expense and payable - Refer Note 32, Note 42 (b) and Note 2(xiv)

f. Measurement of lease liabilities and Right-of-use assets - Refer Note 4, Note 34 and Note 2(xi)

g. Measurement of defined benefit obligation - Refer Note 37 and Note 2(x)

h. Provisions and contingencies, including Royalty - Refer Note 42 (a) and Note 2(xvii)

Estimates and judgements are continuously evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company. The estimates and judgments made by the management are believed to be reasonable under the prevailing circumstances.

ii. Revenue from operations

The core principle of Ind AS 115 - Revenue from Contracts with Customers is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further the standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contract with customers.

Revenue from contracts with customers is recognised when control of services is transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those services. Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of services rendered is net of variable consideration on account of discounts, volume rebate and any taxes or duties collected on behalf of the government which are levied on revenue such as Goods and Services tax (GST).

The Company provides radio advertising services and Media Solutions to clients. The Company classifies its media solutions as under:

i. Branded Solutions: The Company provides various branded services which include Concerts, Award Shows, On-Air properties, Brand Licensing, Multimedia and Digital services.

ii. Managed Solutions: The Company provides services to manage the intellectual properties, activities or events of Clients.

Revenue from Radio Broadcasting and other services

a. Revenue from radio broadcasting is recognised on an accrual basis on the airing of client's commercials at a point in time.

b. Revenue from solutions business is recognised, in the period in which the performance obligations are satisfied.

Contract balances

Contract assets

A contract asset is the right to consideration in exchange for services transferred to the customer. Contract assets

Significant accounting policies and other explanatory information to the standalone financial statements

are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled revenues (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Trade receivables

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due or payments are already due but yet to be realized).

Contract Liability

A contract liability is the obligation to transfer services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. Contract liabilities are recognised as revenue when the Company satisfies its performance obligation under the contract. Unearned and deferred revenue is recognised when there are billings in excess of revenues.

The Company disaggregates revenue from contracts with customers by the nature of services it provides to the customers.

The billing schedules agreed with customers include periodic performance based payments. Invoices are payable within contractually agreed credit period.

Use of significant judgements in revenue recognition

a. The Company's contracts with customers could include promises to transfer multiple services to a customer. The Company assesses the services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligation involves judgement to determine the deliverables and the ability of the customer to benefit independently from such deliverables.

b. Judgement is also required to determine the transaction price for the contract. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume rebates and discount. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the end of each reporting period. The Company allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations.

c. The Company uses judgement to determine an appropriate standalone selling price for a performance obligation. The Company allocates the transaction price to each performance obligation on the basis of the relative stand-alone selling price of each distinct service promised in the contract.

d. The Company exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Company considers indicators such as how customer consumes benefits as services are rendered or existence of enforceable right to payment for performance to date and alternate use of such service, transfer of significant risks and rewards to the customer, acceptance of delivery by the customer, etc.

iii. Other income

a. Dividends, if any are recognised in statement of profit and loss only when:

   i) the right to receive payment is established;

   ii) it is probable that the economic benefits associated with the dividend will flow to the Company; and

   iii) the amount of the dividend can be measured reliably.

b. Interest income from financial assets is recognised using the effective interest rate method. The effective interest rate is the rate that discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses.

Significant accounting policies and other explanatory information to the standalone financial statements

iv. Property, plant and equipment

Property, plant and equipment are stated at acquisition cost less accumulated depreciation and impairment losses, if any. Cost of Property, plant and equipment comprises purchase price, duties, levies (excluding input tax credit), and any directly attributable cost of bringing the asset to its working condition and location for the intended use.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to statement of profit and loss during the reporting period in which they are incurred. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. The present value of the expected cost for the decommissioning of an asset (after its use) is included in the cost of the respective asset if the recognition criteria for a provision are met.

Cost incurred on Property, plant and equipment not ready for their intended use is disclosed as Capital Work-in-Progress. Advances paid towards the acquisition of Property, Plant and Equipment outstanding at each balance sheet date are classified as capital advances under other non-current assets. Unpaid amounts towards acquisition of Property, Plant and Equipment outstanding at each balance sheet date are classified under other current financial liabilities if due within one year from the date of these standalone financial statements and under other non-current financial liabilities if due after a year from the date of these standalone financial statements.

Depreciation on Property, plant and equipment other than leasehold improvements, is provided on written down value (WDV) method as per the useful life and in the manner specified in Schedule II to the Act. Leasehold improvements are depreciated on straight line basis, over the lease period.

The estimated useful lives used by the Company to compute depreciation is as under:

Asset class	Depreciation Method	Useful lives estimated by the management (in years)
Building (including compensation paid for use of land)	WDV	60
Plant and equipments - Studio	WDV	15
Plant and equipments - Transmission	WDV	13
Furniture and fixtures	WDV	10
Office equipment	WDV	5
Motor vehicles	WDV	8
Computers	WDV	3
Computers - Servers	WDV	6
Leasehold improvements	Straight Line	Lease period

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end.

An item of Property, Plant & Equipment is derecognised upon disposal and any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is derecognised. Assets to be disposed off are reported at the lower of the carrying value or the fair value less cost to sell.

v. Intangible assets

a. Frequency Module (FM) Radio Licenses

Non-Refundable One Time Migration Fee paid by the Company for existing FM Radio licenses upon migration to Phase III of the Licensing policy and Non-Refundable One Time Entry Fee paid by the Company for acquiring new FM radio licenses have been capitalised as an intangible asset. These assets are stated at cost less accumulated amortisation and impairment losses, if applicable.

Significant accounting policies and other explanatory information to the standalone financial statements

A summary of amortisation policies applied to the licenses is tabulated below:

Asset class	Amortization Method	Useful lives estimated by the management (in years)
Non-Refundable One Time Migration Fee	Straight Line	15 years with effect from April 1, 2015
Non-Refundable One Time Entry Fee	Straight Line	15 years from the date of operationalisation of the respective stations

The amortisation period and the amortisation method for finite-life intangible assets is reviewed at each financial year end and adjusted prospectively, if appropriate.

b. Software

a. Software acquired initially together with hardware is capitalised along with the cost of hardware and depreciated in the same manner as the hardware. All subsequent purchases of software licenses are treated as revenue expenditure and charged to the statement of profit and loss account in the year of purchase.

b. Expenditure on Enterprise Software such as SAP, Sales CRM and Performance Appraisal Software etc. where the economic benefit is expected to be more than a year is recognised as an "Intangible Asset" and are amortised over a period of 45 to 60 months.

vi. Investment properties

Investment in buildings that is not intended to be occupied substantially for use by, or in the operations of the Company, have been classified as investment property. Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any. All repairs and maintenance costs incurred for the investment properties are charged to statement of profit and loss account when incurred.

Investment properties are depreciated using the written down value method over their estimated useful lives. Investment properties generally have a useful life of 60 years.

Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes (Refer note 6). Fair values are determined based on an annual evaluation performed by a registered valuer. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciated historical carrying value.

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

vii. Borrowing cost

Borrowing cost directly attributable to qualifying assets, which take substantial period to get ready for its intended use, are capitalized to the extent they relate to the period until such assets are ready to be put to use. Other borrowing costs are recognised as an expense in the period in which they are incurred.

viii. Foreign currency transactions

Foreign currency transactions are recorded at the exchange rates prevailing on the date of the transaction. Gains and losses arising out of subsequent fluctuations are accounted for on actual payment or realisation. Monetary items denominated in foreign currency as at the balance sheet date are converted at the exchange rates prevailing on that day. Exchange differences are recognised in the statement of profit and loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

Significant accounting policies and other explanatory information to the standalone financial statements

ix. Financial instruments

a. Recognition and initial measurement

The Company recognizes trade receivables and trade payables when they are originated at transaction price. All other financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognised at fair value. In case of financial assets and liabilities that are not measured at fair value through profit or loss, directly attributable transaction costs are added to the fair value on initial recognition.

b. Classification and subsequent measurement

i. Financial assets

The Company classifies its financial assets in the following measurement categories:

- those to be measured at fair value through profit or loss; and
- those measured at amortised cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

Investments that are intended to be held for not more than a year from the date of investment are classified as current investments. All other investments are termed as long term investments. The portion of long term investments which is expected to be realized within twelve months from the balance sheet date are classified as current investments.

Realised and unrealised gains/ losses arising from changes in the fair value of the "financial assets at fair value through profit or loss" investment category are included in the statement of profit and loss in the period in which they arise.

ii. Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest rate method. For trade and other payables, the carrying amounts represents the fair value due to the short maturity of these instruments.

Realised and unrealised gains/ losses arising from changes in the fair value of the "financial liabilities at fair value through profit or loss" are included in the statement of profit and loss in the period in which they arise.

iii. Investment in subsidiaries

Investment in subsidiaries are carried at cost less impairment, if any.

c. Derecognition of financial instruments

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109- 'Financial Instruments'. A financial liability (or part of a financial liability) is derecognised from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

d. Impairment of financial assets

The Company assesses on a forward-looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in the credit risk.

For trade receivables, the Company applies the simplified approach permitted by Ind AS 109- 'Financial Instruments', which requires expected lifetime losses to be recognised from initial recognition of the receivables. Lifetime losses are the expected credit losses resulting from all possible default events over the expected life of a trade receivables.

The Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. Every year, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

Significant accounting policies and other explanatory information to the standalone financial statements

x. Employee benefits

a. Defined Contribution Plans:

The Company has defined contribution plans for post-employment benefits such as Provident Fund, National Pension Scheme, Employee's State Insurance and Employee's Pension Scheme, 1995. The Company contributes to a government administered Provident Fund, state plan namely Employee's Pension Scheme, 1995, Employee's State Insurance Scheme and National Pension Scheme on behalf of its employees and has no further obligation beyond making its contribution.

The Company's contributions to the above funds are recognised in the statement of profit and loss every year.

b. Defined Benefit Plans:

The Company provides for gratuity benefit, which is a defined benefit plan, covering all its eligible employees. Liability for defined benefit plans is provided based on valuations, as at the balance sheet date, carried out by an independent actuary. The actuarial valuation method used by the independent actuary for measuring the liability is the projected unit credit method.

Actuarial losses and gains are recognised in other comprehensive income and shall not be reclassified to the statement of profit and loss in a subsequent period.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in the statement of profit and loss as past service costs.

The Code on Social Security, 2020 ("the Code") relating to employee benefits during employment and post-employment benefits received Presidential assent in September 2020. The Code has been published in the Gazette of India. However, the date on which the Code will come into effect has not been notified and the final rules/ interpretation have not yet been issued. The Company will assess the impact of the Code when it comes into effect and will record any related impact in the period the Code becomes effective.

c. Other long term benefits

The Company has other long term benefits namely compensated absences for all its employees. The liabilities in respect of compensated absences which are expected to be encashed / utilised within twelve months from the balance sheet date are current. Other such liabilities are considered non-current.

d. Termination benefits are recognised as an expense as and when incurred.

xi. Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for a consideration.

Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities in respect of future lease payments and Right of Use assets representing the right to use the underlying assets.

i) Right of Use assets

The Company recognises Right of Use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right of Use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of Right of Use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right of Use assets are depreciated on a straight-line basis over the lease term.

ii) Lease liabilities

The Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments less any lease incentives receivable

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date or April 1, 2019 whichever is later. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification or a change in the lease term or a change in the lease payments.

Significant accounting policies and other explanatory information to the standalone financial statements

iii) Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its leases that have a lease term of 12 months or less and leases of low value assets. The Company recognises the lease payments associated with these leases as an expense in the statement of Profit and loss.

iv) Termination/Modification of lease

The gain or loss arising from termination shall be determined as the difference between the carrying value of lease liability, and the carrying amount of right to use asset. It shall be recognised in statement of profit and loss when the asset is derecognised.

For a lease modification that is not accounted for as a separate lease, the Company accounts for the remeasurement of the lease liability by:

(a) decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease. The Company recognises in profit or loss any gain or loss relating to the partial or full termination of the lease.

(b) making a corresponding adjustment to the right-of-use asset for all other lease modifications.

xii. Cash and cash equivalents

Cash and cash equivalents include cash in hand, demand deposits with banks and other short-term highly liquid investments with original maturities of three months or less. Bank overdrafts, if any are shown as borrowings under current financial liabilities in the balance sheet.

xiii. Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events (such as bonus shares), if any, other than the conversion of potential equity shares that have changed the number of equity shares outstanding without a corresponding change in resources. For calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

xiv. Taxes

Tax expense comprises current and deferred tax. Current income tax and deferred tax are measured based on the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961.

Current Tax

Current tax in the Statement of Profit and Loss is provided as the amount of tax payable in respect of taxable income for the period using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date.

Minimum Alternate Tax (MAT)

MAT paid in accordance with tax laws which give rise to future economic benefits in the form of adjustment to future income tax liability is considered as an asset, if there is convincing evidence that the Company will pay normal tax in future. Accordingly, MAT is recognised as a deferred tax asset in the balance sheet when it is probable that the future economic benefit associated with it will flow to the Company and the asset can be measured reliably. The Company reviews the 'Minimum Alternate Tax (MAT) Credit Entitlement' asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period i.e. the period for which MAT credit is allowed to be carried forward.

Deferred tax assets and liabilities

Deferred tax assets and liabilities are recognised for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the standalone financial statements. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. Deferred tax assets and liabilities are measured using the tax rates that have been enacted or substantively enacted by the balance sheet date.

Tax assets and liabilities are offset when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle the asset and the liability on a net basis.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it

Significant accounting policies and other explanatory information to the standalone financial statements

is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets, if any are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Current and deferred tax is recognised in the statement of profit and loss, except to the extent that it relates to the items recognised in other comprehensive income or directly in equity. In such situations, the tax is also recognised in other comprehensive income or directly in equity, as the case may be.

xv. GST paid on acquisition of assets or on incurring expenses

Expenses and assets are recognised net of the amount of GST, except

a. When the tax incurred on purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable.

b. The net amount of tax receivable/ payable is included as part of receivables/payables, as the case may be, in the balance sheet.

xvi. Impairment of non-financial assets

The Company assesses at each balance sheet date whether there is any indication that a non-financial asset, other than goodwill, may be impaired. If any such indication exists, the Company estimates the recoverable amount of such asset. If recoverable amount of such asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the statement of profit and loss. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciated historical carrying value.

Goodwill if any, is not subject to amortisation and is tested for impairment at each reporting date. An impairment loss recognised for goodwill shall not be reversed in a subsequent period.

xvii. Provisions and contingent liabilities

The Company recognises a provision when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. Provisions are determined based on best estimates of the amount required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. If the effect of time value of money is material, provisions are discounted. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources embodying economic benefit. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made.

xviii. Dividends

Final dividend on shares is recorded as a liability on the date of approval by the shareholders and interim dividend is recorded as a liability on the date of approval by the Company's Board of Directors.

xix. License Fees

As per the applicable Frequency Module (FM) broadcasting policy, license fees is recognised in statement of profit and loss at the rate of 4% of gross revenue or minimum fixed fee for the concerned city, whichever is higher. Minimum fixed fee is 2.5% of the Non-Refundable One Time Entry Fee (NOTEF).

However, for the first three years of operations in the States of North East (i.e. Assam and Meghalaya) and Jammu & Kashmir the rate of License fee was 2% of Gross Revenue or 1.25% of NOTEF, whichever was higher.

Gross Revenue for this purpose shall mean revenue on the basis of billing rates inclusive of any taxes. Barter advertising contracts are also included in the gross revenue on the basis of relevant billing rates. NOTEF means the successful bid amount arrived at through an ascending e-auction process for private FM Radio Phase-III Channels conducted by the Ministry of Information & Broadcasting ('MIB').

While disclosing the aggregate amount of transaction price yet to be recognised as revenue towards unsatisfied (or partially satisfied) performance obligations, along with the broad time band for the expected time to recognise those revenues, the Company has applied the practical expedient in Ind AS 115 as unsatisfied (or partially satisfied) performance obligation are parts of contracts that have an original expected duration of one year or less. Accordingly, the Company has not disclosed the aggregate transaction price allocated to unsatisfied (or partially satisfied) performance obligations which pertain to contracts where revenue recognised corresponds to the value transferred to customer typically involving time and material outcome based and event based contracts.

34. DISCLOSURE AS PER IND AS 116

The Company, at the inception of a contract, assesses the contract as, or containing, a lease if the contract conveys the right to control the use of an identified asset for a period in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset:

- the Company assesses whether the contract involves the use of an identified asset,
- the Company has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- the Company has the right to direct the use of the asset.

The Company has lease contracts for offices premises and transmission facilities used in its operations. Leases of transmission facilities generally have a lease term of 15 years, while offices generally have lease terms ranging from 5 to 10 years.

The Company has also applied the available practical expedients wherein it:

1. Used a single discounting rate to a portfolio of leases with reasonably same characteristics.
2. Applied short term leases exemptions to leases with lease term that ends within 12 months at the date on initial application.
3. Excluded the initial direct cost from the measurement of the Right of use of asset at the date of initial application.

Lease Liabilities

The Company recognises a lease liability measured at the present value of all the remaining lease payments, discounted using the Company's incremental borrowing rate.

The Company's non-current lease liabilities are included in Non-current financial liabilities (Refer note 19) and current lease liabilities are included in current financial liabilities (Refer note 21). The maturity analysis of lease liabilities is disclosed in note 45 – Financial Risk Management

Right of Use Asset

For new lease contracts, the Company recognises a Right of Use asset and a corresponding lease liability with respect to all lease agreements in which it is the lessee. The lease liability and the Right of Use assets is initially measured at the present value of remaining lease payments, discounted using the incremental borrowing rate at the date of recognition. Depreciation is computed using straight-line method over the lease term. The Company's Right of Use assets were recognised and shown separately in the Balance Sheet (Refer Note 4).

Short-term leases and leases of low-value assets

The Company has elected not to recognise Right of Use assets and lease liabilities for short term leases that have a lease term of 12 months or less and leases of low value assets. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

For the year:

a. Depreciation expense increased by ₹ 1,897.92 lakhs (previous year: ₹ 1,982.91 lakhs) on account of depreciation on Right of Use assets recognised.

II) **Defined Benefit Plans**

Post-employment obligations

Plan is governed by the Payment of Gratuity Act, 1972. Under the Gratuity Act. Employees who are in continuous service for a period of 5 years or death while in employment are eligible for gratuity. The amount of gratuity payable on retirement/ termination is the employees last drawn basic salary per month computed proportionately for 15 days' salary multiplied for the number of years of service. The liability in respect of gratuity is uncapped and is not restricted to ₹ 20 lakhs.

These plans typically expose the Company to actuarial risks such as interest risk and salary inflation risk.

a) **Interest risk** – A decrease in the discount rate will increase the plan liability.

b) **Salary inflation risk** – The present value of the defined plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

In accordance with Ind AS 19, actuarial valuation was done in respect of the aforesaid Defined Benefit Plan of gratuity (unfunded) based on the following assumptions:-

Particulars	As at March 31, 2023	As at March 31, 2022
Discount Rate (per annum)	7.31%	6.09%

Nature of activities include promotion of education including special education and employment enhancing vocational skills.

42. PENDING LITIGATIONS, CLAIMS AND CONTINGENT LIABILITY:

a. Pending litigations and claims

The Company is involved in various litigations, the outcome of which are considered probable and in respect of which the Company has aggregate provisions of ₹ 2,058.08 lakhs as at March 31, 2023 (March 31, 2022 - ₹ 1,970.04 lakhs).

b. Contingent liability - taxation

The Company is contesting certain disallowances to the taxable income and demands raised by the Income tax authorities, the estimated tax liability of which is ₹ 19.00 lakhs as at March 31, 2023 (March 31, 2022 - ₹ 19.00 lakhs). The management does not expect the liability from these claims to crystallize and accordingly, no provision has been recognised in the financial statements for the same.

c. Other Litigation

Subsequent to the year ended March 31, 2023, in the matter of the Company vs Phonographic Performance Limited ('PPL'), the Hon'ble Madras High Court partly allowed the appeal of PPL. The management is in the process of filing a special leave petition before the Hon'ble Supreme Court of India for an immediate stay of the said order. The management, based on legal advice, believes that the chances of a cash outflow on account of the aforesaid matter is remote.

43. CAPITAL MANAGEMENT

For the purpose of the Company's capital management, capital includes issued equity capital and other equity reserves attributable to the equity holders of the Company. The Company's objective is to maintain a strong capital base to ensure a sustainable future growth, maintain a strong credit rating, and to provide adequate returns to the shareholders. The funding requirements of the Company are not large and are generally met through internal accruals.

The net debt of the Company as at March 31, 2023 is Nil (March 31, 2022 - Nil).

Refer Note 48 for information on ratios.

44. FAIR VALUE

The fair values of financial assets and liabilities are included at the amount at which the instrument can be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

a. Fair value of cash and cash equivalents, other bank balances, trade and other current financial assets, trade and other payables approximate their carrying amounts due to the short maturities of these instruments. The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

b. The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities – Investment in Mutual funds

Level 2: Other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: Techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

45. FINANCIAL RISK MANAGEMENT

The Company's principal financial liabilities comprise lease liabilities, trade and other payables. The main purpose of these financial liabilities is to finance and support the Company's operations. The Company's principal financial assets include security deposits, investment in mutual funds, trade and other receivables, and cash and cash equivalents that derive directly from its operations.

The Company's senior management oversees the management of these risks through appropriate policies and procedures in accordance with Company's policies and risk objectives. The Company's activities expose it to a variety of credit risks, market risks and liquidity risks. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk in the financial statements.

a. Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including investments in debt mutual funds, investment in Corporate fixed deposits, balances with banks and foreign exchange transactions.

Trade Receivables

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. The Company undertakes a detailed review of the credit worthiness of clients before extending credit. Outstanding customer receivables are regularly monitored.

Trade receivables consists of a large number of customers. The Company has a credit evaluation policy for each customer and based on the evaluation, credit limit of each customer is defined.

Total Trade receivables (net of provisions) as on March 31, 2023, is ₹ 12,978.56 lakhs (March 31, 2022: ₹ 12,679.44 lakhs). The Company believes the concentration of risk with respect to trade receivables is low, as its customers are located in several jurisdictions and industries and operate in largely independent markets.

The Company uses the expected credit loss model as per Ind AS 109 – 'Financial Instruments' to assess the impairment loss. The Company uses a provision matrix to compute the expected credit loss allowance for trade receivables. The provision matrix considers available external and internal credit risk factors and the Company's historical experience in respect of customers. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 12.

Investments in debt mutual funds, Corporate fixed deposit, and balances with banks

Credit risk from balances with banks and investments in debt mutual funds is managed by the Company's treasury department in accordance with the Company's policy. The Company believes the concentration of risk with respect to Investment in debt mutual funds, balances with banks and investment in Corporate fixed deposits is low, as the investments of surplus funds are made only with approved counterparties.

b. Liquidity Risk

Liquidity risk is defined as a risk that the Company will not be able to settle or meet its obligations on time. The Company's treasury department is responsible for liquidity, funding as well as settlement management. Management monitors the Company's net liquidity position through rolling forecasts based on expected cash flows. In addition, processes and policies related to such risks are overseen by the Senior Management.

The Company's principal sources of liquidity are cash and cash equivalents, Investments in mutual funds and the cash flow generated from operations. The Company believes that the working capital is sufficient to meet its current requirements. Accordingly, no liquidity risk is perceived.

At the end of the reporting period, the Company held Mutual fund investments of ₹ 17,180.42 lakhs (March 31,2022 ₹ 17,558.36 lakhs) that are expected to readily generate cash inflows for managing liquidity risk.

Increase by 1%	171.80	175.58
Decrease by 1%	(171.80)	(175.58)

46. Exceptional items consist of the following:

a. **Impairment of investment in EN Inc amounting to ₹ 1,011.02 lakhs.**

EN Inc, a wholly owned subsidiary of the Company, operated FM radio broadcasting and media solutions business through EN LLC (step down subsidiary of the Company) in certain areas of The United States of America, namely, New Jersey, San Francisco and Dallas.

During the year ended March 31, 2023, Considering the business environment and other relevant economic and market indicators, the Company identified indicators of impairment related to the operations in San Francisco. The Company's evaluation involved comparing the carrying value of its investment with the recoverable amount which was determined basis the cash flows expected to be generated by the operations in New Jersey and Dallas.

The future cash flows considered key assumptions such as volume growth, margins, etc. with due consideration for potential risks given the current economic environment. The discount rates used were pre tax rates based on Weighted average cost of capital and reflects markets assessment of the risk specific to the asset as well as time value of money. The recoverable amount estimates were based on judgements, estimates, assumptions and market data as on the reporting date and ignore subsequent changes in the economic and market conditions.

The future cash flows were discounted using the post-tax nominal discount rate of 15.15% derived from the post-tax weighted average cost of capital. Accordingly, the Company determined the recoverable amounts for its investment to be ₹ 829.62 lakhs and recorded a provision for impairment of ₹ 1,011.03 lakhs for the year ended March 31, 2023.

b. **Impairment of investment in Mirchi Bahrain W.L.L amounting to ₹ 504.33 lakhs.**

The Company through its wholly owned subsidiary, Mirchi Bahrain W.L.L launched radio broadcasting operations in the Kingdom of Bahrain on May 21, 2021. However, considering the adverse impact of COVID 19 since the launch of

Significant accounting policies and other explanatory information to the standalone financial statements

operations and huge quantum of license fees payables to the Ministry of Information Affairs (MOIA), the operations of the Company had become unsustainable in the current year ended March 31, 2023.

Considering the above, the Company served a notice of termination to the Ministry of Information Affairs (MOIA), Government of Bahrain expressing its inability to continue services in the region due to continued losses and high license fees. This resulted in an impairment trigger for the investment of the Company in the subsidiary.

The accumulated losses of Mirchi Bahrain W.L.L were compared with the investment value and accordingly, the Company made a provision of impairment amounting to ₹ 504.33 lakhs for the year ended March 31, 2023.

c. **Provision for onerous contract amounting to ₹ 263.13 lakhs**

As a part of the above, the Company had made a provision of ₹ 263.13 lakhs for onerous contracts.

CONSOLIDATED FINANCIAL STATEMENTS

Independent Auditor's Report

To the Members of Entertainment Network (India) Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

1. We have audited the accompanying consolidated financial statements of **Entertainment Network (India) Limited** ('the Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group'), as listed in Annexure I, which comprise the Consolidated Balance Sheet as at **31 March 2023**, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended, and notes to the consolidated financial statements, including a summary of the significant accounting policies and other explanatory information.

2. In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on separate financial statements and on the other financial information of the subsidiaries, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ('Ind AS') specified under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, and other accounting principles generally accepted in India of the consolidated state of affairs of the Group as at 31 March 2023, and their consolidated loss including other comprehensive income, consolidated cash flows and the consolidated changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group, in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained together with the audit evidence obtained by the other auditors in terms of their reports referred to in paragraph 15 of the Other Matters section below, is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

5. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matters	How our audit addressed the key audit matter
Impairment Assessment of Property, plant and equipment, Right-to-use of assets and Intangible assets Impairment Assessment of Property, plant and equipment, Right-to-use of assets and Intangible assets The Group has non-financial assets in the form of Property, Plant and Equipment, Right-to-use of assets and Intangible assets ('specified non- financial assets') which are carried at cost less accumulated depreciation/amortization and impairment (if any) amounting to ₹ 5,272.31 lakhs, ₹ 14,016.08 lakhs and ₹ 35,195.44 lakhs respectively as at 31 March 2023.	Our audit procedures included, but were not limited to, the following: ▪ Obtained an understanding of and evaluated the process and controls designed and implemented by the management to assess the potential impairment of non-financial assets. Further, tested the operating effectiveness of such controls during the year. ▪ Evaluated the Group accounting policy in respect of impairment assessment, and the methods and models used to determine the recoverable amounts of property, plant and equipment, right-to-use of assets and intangible assets, in accordance with the requirements of Ind AS 36.

Independent Auditor's Report

Key audit matters	How our audit addressed the key audit matter
As at 31 March 2023, in view of recent business losses which was determined to be an impairment indicator under the requirements of Ind AS 36, Impairment of Assets ('Ind AS 36'), the Group has performed an impairment assessment of all the specified non-financial assets using discounted cash flow method to assess the value-in-use of such assets, which requires judgement in respect of certain key inputs such as future cash flows, determining an appropriate discount rate, etc. Based on the aforesaid assessment the Group has not recorded further impairment charge against the non-financial assets during the year ended 31 March 2023 including for the assets related to 'Mirchi Love' and 'Kool FM', as the recoverable amount is higher than the carrying value. We considered impairment assessment of property, plant and equipment, right-to-use of assets and intangible assets as a key audit matter in the current year audit because of the significant judgement and management estimates involved around impairment assessment.	▪ Reviewed the process of determination of the level at which the impairment assessment was performed by the Group and assessed that the same is in line with the requirements of Ind AS 36 considering the nature of the Group operations. ▪ Involved our internal valuation experts and reviewed the appropriateness of the key valuation assumptions including the discount rates used within the discounted cash flow model. ▪ Evaluated the reasonableness of the key inputs and assumptions such as growth rates, etc. used by the management in cash flow projections basis our understanding of the business and by comparing it with readily available market information and underlying macro-economic factors. ▪ Performed sensitivity analysis on the assumptions used in projections to ensure significant headroom. ▪ Compared the carrying value of the net assets with the estimated discounted future cash flows determined by the management and ensured arithmetical accuracy of management impairment assessment workings as above. Evaluated the adequacy of the disclosures made in the consolidated financial statements, in respect of impairment assessment of specified non-financial assets as required by applicable financial reporting framework.
Recognition of revenue and related contract costs for branded and managed solutions business The Group earns revenue from providing branded and managed solutions business that involves providing various services which includes managing and organising Concerts, Award shows, on air properties, brand licensing, multimedia and digital services and managing intellectual properties and activities or events of clients. Revenue from these contracts is recognized over a period of time in accordance with the requirements of Ind AS 115, Revenue from Contracts with Customers ('Ind AS 115'). Refer Note 26 A II for the revenue recorded for the year pertaining to aforesaid business and Note 2(ii) for the related accounting policy adopted by the management in this respect. These services involve multiple performance obligations and transaction price is allocated to such identified separate performance obligations as per standalone selling prices determined by the management for such performance obligations.	Our audit procedures included, but were not limited to, the following: ▪ Obtained Group's accounting policies pertaining to revenue recognition and assessed compliance with the requirements of Ind AS 115. ▪ Obtained an understanding of the management's process and evaluated the design and tested the operating effectiveness of controls around revenue recognition from branded and managed solutions business including for identification of performance obligations and allocation of transaction price towards such performance obligations. ▪ On a sample basis, read the contracts and inspected other supporting documents/evidence to evaluate appropriateness of management's evaluation of identification of contractual obligations/ deliverables to the customers, determination of progress of completion of these deliverables and recording of related revenues and costs incurred along with the estimation of balance performance obligations and related revenues and costs to complete the remaining contractual obligations, pertaining to such contracts.

Independent Auditor's Report

Key audit matters	How our audit addressed the key audit matter
Further, given the nature of these contracts, revenue recognition involves estimation to determine the extent of performance obligations satisfied and the proportion of contract costs incurred to date and costs that are to be recognized as 'contract assets' under the requirements of Ind AS 115, which involves significant management judgments. Given the significant estimation involved for branded and solutions business, we have identified this as a key audit matter.	▪ Evaluated the adequacy for disclosure made by the management in the accompanying consolidated financial statements in respect of revenue recognition from the specified business in accordance with the requirements of applicable financial reporting framework.
Recoverability assessment of deferred tax assets As detailed in note 10A to the consolidated financial statements, the Group has deferred tax assets ('DTA') (net) amounting to ₹ 3,650.64 lakhs outstanding as at 31 March 2023 which includes ₹ 5,540.25 lakhs of DTA recognised on Minimum Alternate Tax ('MAT') credit and ₹ 2,086.46 lakhs DTA recognised on brought forward business losses. Refer Note 2(xv) for the related accounting policy adopted by the Group on deferred tax. The Group's ability to utilise the deferred tax assets is assessed by the management at the close of each reporting period and it depends upon the forecasts of future results that the Group expects to achieve within the period by which such MAT credit and brought forward business losses may be adjusted as governed by the provisions of the Income Tax Act, 1961. As per the management's assessment, the financial projections show a significant increase in profitability over the coming years, which will result in increase in income tax liability against which the available MAT credit and brought forward business losses can be utilised as mentioned above. Such financial projections about the growth in business operations and activities involves significant management judgement and estimates. We have identified recoverability assessment of deferred tax assets based on expected utilisation of MAT credit and brought forward business losses, as a key audit matter in the current year audit considering the materiality of the amounts and significant judgment involved in estimation of future taxable profits and the probability of utilising the MAT credit and tax losses.	Our audit procedures included, but were not limited to, the following: ▪ Obtained understanding and evaluation of the process and controls designed and implemented by the management over recognition and recoverability assessment of DTA based on the evaluation of Group's ability to generate sufficient taxable profits in foreseeable future allowing the use of deferred tax assets on MAT credit and Business losses within the time prescribed by income tax laws. Further, tested the operating effectiveness of such controls. ▪ Obtained the financial projections prepared by the management and verified the cash flow forecasts used in the recoverability assessment of DTA to the approved business plans. ▪ Reviewed the historical accuracy of the cash flow projections prepared by the management in prior periods. Obtained understanding from the management about the predicted business growth and viability of achieving those projections. ▪ Evaluated management's assessment of time period available for adjustment of such deferred tax assets on MAT credit and Business losses as per provisions of the Income Tax Act, 1961 and appropriateness of the accounting treatment with respect to the recognition of deferred tax assets on MAT credit and business losses as per the requirements of Ind AS 12, Income Taxes. ▪ Assessed the adequacy of the disclosures made in the consolidated financial statements in respect of aforesaid DTA balances in accordance with the requirements of applicable financial reporting framework.

Independent Auditor's Report

Key audit matters	How our audit addressed the key audit matter
Expected credit losses ('ECL') on trade receivables The Group assesses impairment provision for doubtful receivables, based on Expected Credit Loss (ECL) model, as per Ind AS 109, Financial Instruments to state the entity's trade receivables to their carrying amount, which approximates their fair value. Management evaluates and calculates the expected credit losses using a provision matrix based on historical credit loss experience, specific reviews of customer accounts, experience with such customers, current economic and business conditions and industry assessment. In calculating expected credit loss, the Group has considered related credit information for its customers to estimate the probability of default in future. The Group has trade receivables (net of provision) of ₹ 13,265.07 lakhs and provision of ₹ 3,006.76 lakhs as on balance sheet date. The appropriateness of the provision for expected credit loss is subjective due to the high degree of judgment applied by management in determining the provisioning matrix. Due to the significance of trade receivables and the related estimation uncertainty this is considered as a key audit matter in the current year.	Our audit procedures included, but were not limited to, the following: ▪ Obtained understanding of management's process over credit origination, credit monitoring and credit remediation by evaluating the Group's impairment policy and methodology; ▪ Evaluated management's continuous assessment of the assumptions used in the impairment provision matrix. These considerations include whether there are regular receipts from the customers, the Group's past collection history as well as an assessment of the customers' credit ability to make payments. ▪ Obtained the ageing analysis of trade receivables and tested on a sample basis, the ageing of trade receivables at year end and discussed with management the reasons of any long outstanding amounts where no provisions were recorded and also evaluated management's assumptions used in determining the impairment provision, through detailed analyses of ageing of receivables, assessment of material overdue individual trade receivables and past trends of bad debts charged to the statement of profit and loss. ▪ Verified mathematical accuracy of provision computation based on model considered by the management. ▪ Assessed the adequacy for disclosure made by the management in the accompanying consolidated financial statements in respect of ECL in accordance with the requirements of applicable financial reporting framework.

Information other than the Consolidated Financial Statements and Auditor's Report thereon

6. The Holding Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the consolidated financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

   Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

   In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

   When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Independent Auditor's Report

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

7. The accompanying consolidated financial statements have been approved by the Holding Company's Board of Directors. The Holding Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the Ind AS specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, and other accounting principles generally accepted in India. The Holding Company's Board of Directors are also responsible for ensuring accuracy of records including financial information considered necessary for the preparation of consolidated Ind AS financial statements. Further, in terms of the provisions of the Act the respective Board of Directors of the companies included in the Group, covered under the Act are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error. These financial statements have been used for the purpose of preparation of the consolidated financial statements by the Board of Directors of the Holding Company, as aforesaid.

8. In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

9. Those respective Board of Directors are also responsible for overseeing the financial reporting process of the companies included in the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

10. Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

11. As part of an audit in accordance with Standards on Auditing specified under section 143(10) of the Act we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

    - Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
    - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls;
    - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;

Independent Auditor's Report

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern;
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation; and
- Obtain sufficient appropriate audit evidence regarding the financial statements of the entities or business activities within the Group, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of financial statements of such entities included in the financial statements, of which we are the independent auditors. For the other entities included in the financial statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

12. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

13. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

14. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

15. We did not audit the financial statements of two subsidiaries, whose financial statements reflect total assets of ₹ 913.82 lakhs and net assets of ₹ 437.98 lakhs as at 31 March 2023, total revenues of ₹ 1,385.19 lakhs and net cash inflows amounting to ₹ 3.65 lakhs for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose report has been furnished to us by the management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-section (3) of section 143 of the Act in so far as it relates to the aforesaid subsidiaries, are based solely on the reports of the other auditors.

    Further, the above two mentioned subsidiaries, are located outside India whose financial statements and other financial information have been prepared in accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditors under generally accepted auditing standards applicable in their respective countries. The Holding Company's management has converted the financial statements of such subsidiaries located outside India from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. The other auditors have audited these conversion adjustments made by the Holding Company's management. Our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of such subsidiaries located outside India, is based on the report of other auditors and the conversion adjustments prepared by the management of the Holding Company and audited by the other auditors.

Independent Auditor's Report

Our opinion above on the consolidated financial statements, and our report on other legal and regulatory requirements below, are not modified in respect of the above matters with respect to our reliance on the work done by and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

16. As required by section 197(16) of the Act based on our audit, we report that the Holding Company incorporated in India whose financial statements have been audited under the Act have paid remuneration to their respective directors during the year in accordance with the provisions of and limits laid down under section 197 read with Schedule V to the Act. Further, we report that one subsidiary company, incorporated in India whose financial statements have been audited under the Act has not paid or provided for any managerial remuneration during the year. Accordingly, reporting under section 197(16) of the Act is not applicable in respect of such subsidiary company.

17. As required by clause (xxi) of paragraph 3 of Companies (Auditor's Report) Order, 2020 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act based on the consideration of the Order reports issued by us, of companies included in the consolidated financial statements and covered under the Act we report that there are no qualifications or adverse remarks reported in the respective Order reports of such companies.

18. As required by section 143(3) of the Act, based on our audit and we report, to the extent applicable, that:

    a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated financial statements;

    b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors;

    c) The consolidated financial statements dealt with by this report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements;

    d) In our opinion, the aforesaid consolidated financial statements comply with Ind AS specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015;

    e) On the basis of the written representations received from the directors of the Holding Company and its subsidiary companies and taken on record by the Board of Directors of the Holding Company and its subsidiary companies, covered under the Act, none of the directors of the Group companies, are disqualified as on 31 March 2023 from being appointed as a director in terms of section 164(2) of the Act.

    f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Holding Company, and its subsidiary companies, covered under the Act, and the operating effectiveness of such controls, refer to our separate report in 'Annexure II' wherein we have expressed an unmodified opinion; and

    g) With respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:

        i. The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group as detailed in Note 42 to the consolidated financial statements;

        ii. The Group did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2023;

        iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company during the year ended 31 March 2023. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by its subsidiary companies covered under the act, during the year ended 31 March 2023;

        iv. a. The respective managements of the Holding Company and its subsidiary companies, incorporated in India whose financial statements have been audited under the Act have represented to us that, to the best of their knowledge and belief as disclosed in note 49 to the consolidated financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or securities premium or

Independent Auditor's Report

any other sources or kind of funds) by the Holding Company or its subsidiary companies, to or in any person(s) or entity(ies), including foreign entities ('the intermediaries'), with the understanding, whether recorded in writing or otherwise, that the intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company, or any such subsidiary companies, ('the Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf the Ultimate Beneficiaries;

b. The respective managements of the Holding Company and its subsidiary companies, incorporated in India whose financial statements have been audited under the Act have represented to us that, to the best of their knowledge and belief, as disclosed in the note 49 to the accompanying consolidated financial statements, no funds have been received by the Holding Company or its subsidiary companies, or its from any person(s) or entity(ies), including foreign entities ('the Funding Parties'), with the understanding, whether recorded in writing or otherwise, that the Holding Company, or any such subsidiary companies, shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ('Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

c. Based on such audit procedures performed by us, as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the management representations under sub-clauses (a) and (b) above contain any material misstatement.

v. The final dividend paid by the Holding Company during the year ended 31 March 2023 in respect of such dividend declared for the previous year is in accordance with section 123 of the Act to the extent it applies to payment of dividend and as stated in note 36 to the accompanying consolidated financial statements, the Board of Directors of the Holding Company have proposed final dividend for the year ended 31 March 2023 which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend declared is in accordance with section 123 of the Act to the extent it applies to declaration of dividend.

vi. Proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 requires all companies which use accounting software for maintaining their books of account, to use such an accounting software which has a feature of audit trail, with effect from the financial year beginning on 1 April 2023 and accordingly, reporting under Rule 11(g) of Companies (Audit and Auditors) Rules, 2014 (as amended) is not applicable for the current financial year.

Independent Auditor's Report on the internal financial controls with reference to financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the consolidated financial statements of Entertainment Network (India) Limited ('the Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group'), as at and for the year ended 31 March 2023, we have audited the internal financial controls with reference to financial statements of the Holding Company and its subsidiary companies which are companies covered under the Act, as at that date.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

2. The respective Board of Directors of the Holding Company and its subsidiary companies which are companies covered under the Act, are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Consolidated Financial Statements

3. Our responsibility is to express an opinion on the internal financial controls with reference to financial statements of the Holding Company and its subsidiary companies, as aforesaid, based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the ICAI prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to financial statements of the Holding Company and its subsidiary companies as aforesaid.

Meaning of Internal Financial Controls with Reference to Consolidated Financial Statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the

Annexure
to the Independent Auditor's Report

company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Consolidated Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Holding Company and its subsidiary companies, which are companies covered under the Act, have in all material respects, adequate internal financial controls with reference to financial statements and such controls were operating effectively as at 31 March 2023, based on the internal financial controls with reference to financial statements criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

CONSOLIDATED
Statement of Changes in Equity

Nature and purpose of reserves

a) Securities premium

Securities premium is used to record the premium on issue of shares. The reserve will be utilised in accordance with the provisions of section 52 of the Companies Act, 2013.

b) Foreign curreny translation reserve

Exchange differences arising on translation of the foreign operations are recognised in other comprehensive income as described in accounting policy and accumulated in a separate reserve within equity. The cumulative amount will be reclassified to profit or loss when the net investment is disposed-off.

c) Retained earnings

Retained earnings are the profits of the Group earned till date, less any dividend paid to shareholders.

d) Legal Reserve

In accordance with the provisions of Qatar Commercial Companies Law No. 11 of 2015, 10% of the net profit for the year is required to be transferred to the legal reserve until the balance in the reserve equals to 50% of the paid up capital. This reserve is not normally available for distribution except in circumstances specified in the said law.

Significant accounting policies and other explanatory information to the consolidated financial statements

1. CORPORATE INFORMATION

Entertainment Network (India) Limited (the 'Company') is a public limited company domiciled in India and is listed on the Bombay Stock Exchange ('BSE') and the National Stock Exchange ('NSE'). The Company was incorporated on June 24, 1999 and has its registered office at 4th Floor, A-Wing, Matulya Centre, Senapati Bapat Marg, Lower Parel (West), Mumbai – 400 013, Maharashtra, India. The Company operates FM radio broadcasting stations in 63 Indian cities under the brand names 'Mirchi', 'Mirchi Love', and 'Kool FM'.

The Company's principal revenue stream is advertising. Advertising revenues are generated through the sale of airtime in the Company's FM radio broadcasting stations, activations, concerts and monetization of Company's digital and other media properties.

The Company has the following subsidiaries:

a. Alternate Brand Solutions (India) Limited (ABSIL), a wholly owned subsidiary based in India. ABSIL was incorporated on October 31, 2007.

b. Entertainment Network, Inc (EN, Inc) and a step-down subsidiary, Entertainment Network, LLC. (EN, LLC) based in the United States of America. EN, INC is a wholly owned subsidiary of the Company. EN, LLC is the wholly owned subsidiary of EN, Inc. EN, Inc. and EN, LLC were incorporated on January 9, 2019, in the State of Delaware in United States.

c. Global Entertainment Network Limited W.L.L (GENL) (A company incorporated under the laws of the State of Qatar having its registered office in Doha, Qatar). On March 21, 2021, the Company acquired 49% equity of GENL. The remaining 51% of equity stake is owned by another Company (Marhaba FM). Basis the shareholding agreement executed by the Company with Marhaba FM, the Company has management and operational control over GENL and is entitled to 75% of the distributable profits. Since the Company has control over GENL, investment made in GENL is treated as an investment in subsidiary as per Ind AS 110- Consolidated Financial Statements.

d. Mirchi Bahrain W.L.L (MBW) (A limited liability Company registered in the Kingdom of Bahrain). MBW was incorporated on November 26, 2020. MBW became a wholly owned subsidiary of the Company with effect from April 14, 2021.

The Company, ABSIL, EN, Inc, EN, LLC, GENL and MBW are collectively referred to as 'the Group'.

These consolidated financial statements were approved by the Company's Board of Directors on May 4, 2023.

2. SIGNIFICANT ACCOUNTING POLICIES

i. Basis of preparation

a. Statement of Compliance

These consolidated financial statements of the Group have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendments issued thereafter. The consolidated financial statements have been prepared on an accrual and going concern basis. The accounting policies are applied consistently to all the periods presented in the consolidated financial statements except where a newly issued accounting standard has been adopted or a revision to an existing accounting standard requires a consequent change in the accounting policy hitherto in use.

b. Current versus non-current classification

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle.

An asset is treated as current when it is:

a) Expected to be realised or intended to be sold or consumed in the normal operating cycle

b) Held primarily for the purpose of trading

c) Expected to be realised within twelve months after the reporting period, or

d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

a) It is expected to be settled in the normal operating cycle

b) It is held primarily for the purpose of trading

c) It is due to be settled within twelve months after the reporting period, or

d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

Significant accounting policies and other explanatory information to the consolidated financial statements

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Based on the nature of services and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Group has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities. The consolidated financial statements have been prepared on a historical cost basis, except for certain financial assets and liabilities which are measured at fair value (refer note x below)

c. Functional currency

The Functional Currency of the Group is the Indian Rupee (₹). These consolidated financial statements are presented in Indian Rupees rounded off to lakhs.

d. Critical estimates and / or judgements

The preparation of consolidated financial statements requires the use of accounting estimates, which will seldom equal the actual results. Management also needs to exercise judgement in applying the Group's accounting policies. This note provides an overview of the areas that involved more judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the consolidated financial statements.

The areas involving critical estimates or judgements are:

a) Useful life of Property, plant and equipment, investment properties and intangible assets - Refer Note 3, Note 6, Note 7, Note 2(v), Note 2(vi) and Note 2(vii)

b) Impairment of trade receivables - Refer Note 12 and Note 2(x)(d)

c) Recognition and recoverability of deferred tax assets - Refer Note 10, Note 32 and Note 2(xv)

d) Recognition of revenue from contracts with customers - Refer Note 26 and Note 2(ii)

e) Current tax expense and payable - Refer Note 32, Note 42 (b) and Note 2(xv)

f) Measurement of lease liabilities and Right-of-use asset - Refer Note 4, Note 34 and Note 2(xii)

g) Measurement defined benefit obligation - Refer Note 37 and Note 2(xi)

h) Provisions and contingencies, including Royalty - Refer Note 42 (a) and Note 2(xviii)

Estimates and judgements are continuously evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Group. The estimates and judgments made by the management are believed to be reasonable under the prevailing circumstances.

ii. Revenue from operations

The core principle of Ind AS 115 - Revenue from Contracts with Customers is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further the standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contract with customers.

Revenue from contracts with customers is recognised when control of services is transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those services Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of services rendered is net of variable consideration on account of discounts, volume rebate and any taxes or duties collected on behalf of the government which are levied on revenue such as Goods and Services tax (GST).

The Group provides radio advertising services and Media Solutions to the clients.

The Group classifies its media solutions as under:

i. Branded Solutions: The Group provides various branded services which include Concerts, Award Shows, On-Air properties, Brand Licensing, Multimedia and Digital services.

ii. Managed Solutions: The Group provides services to manage the intellectual properties, activities or events of Clients.

Revenue from Radio Broadcasting and other services

a. Revenue from radio broadcasting is recognised on an accrual basis on the airing of client's commercials at a point in time.

b. Revenue from solutions business is recognised, in the period in which the performance obligations are satisfied.

Significant accounting policies and other explanatory information to the consolidated financial statements

Contract balances

Contract assets

A contract asset is the right to consideration in exchange for services transferred to the customer. Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled revenues (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Trade receivables

A receivable represents the Groups's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due or payments are already due but yet to be realized).

Contract Liability

A contract liability is the obligation to transfer services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. Contract liabilities are recognised as revenue when the Group satisfies its performance obligation under the contract. Unearned and deferred revenue is recognised when there are billings in excess of revenues.

The Group disaggregates revenue from contracts with customers by the nature of services it provides to the customer.

The billing schedules agreed with customers include periodic performance based payments. Invoices are payable within contractually agreed credit period.

Use of significant judgements in revenue recognition

a. The Group's contracts with customers could include promises to transfer multiple services to a customer. The Group assesses the services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligation involves judgement to determine the deliverables and the ability of the customer to benefit independently from such deliverables.

b. Judgement is also required to determine the transaction price for the contract. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume rebates and discount. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the end of each reporting period. The Group allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations.

c. The Group uses judgement to determine an appropriate standalone selling price for a performance obligation. The Group allocates the transaction price to each performance obligation on the basis of the relative stand-alone selling price of each distinct product or service promised in the contract.

d. The Group exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Group considers indicators such as how customer consumes benefits as services are rendered or existence of enforceable right to payment for performance to date and alternate use of such service, transfer of significant risks and rewards to the customer, acceptance of delivery by the customer, etc.

iii. Other Income

a. Dividends, if any are recognised in statement of profit and loss only when:

   a. the right to receive payment is established;

   b. it is probable that the economic benefits associated with the dividend will flow to the Group; and

   c. the amount of the dividend can be measured reliably.

b. Interest income from financial assets is recognised using the effective interest rate method. The effective interest rate is the rate that discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses.

iv. Principles of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at March 31, 2023. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

Significant accounting policies and other explanatory information to the consolidated financial statements

a. Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee).

b. Exposure, or rights, to variable returns from its involvement with the investee, and

c. The ability to use its power over the investee to affect its returns.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

The consolidated financial statements have been prepared on the following basis:

- The financial statements of the Company and its subsidiaries have been combined on a line-by-line basis by adding together the reported values of like items of assets, liabilities, revenues and expenses.
- Intra-group balances and intra-group transactions and resulting profits are eliminated in full.

The consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented to the extent possible in the same manner as the Company's separate financial statements.

v. Property, plant and equipment

Property, plant and equipment are stated at acquisition cost less accumulated depreciation and impairment losses, if any. Cost of Property, plant and equipment comprises purchase price, duties, levies (excluding input tax credit) and any directly attributable cost of bringing the asset to its working condition and location for the intended use.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to statement of profit and loss during the reporting period in which they are incurred. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. The present value of the expected cost for the decommissioning of an asset (after its use) is included in the cost of the respective asset if the recognition criteria for a provision are met.

Cost incurred on Property, plant and equipment not ready for their intended use is disclosed as Capital Work-in-Progress. Advances paid towards the acquisition of Property, Plant and Equipment outstanding at each balance sheet date are classified as capital advances under other non-current assets. Unpaid amounts towards acquisition of Property, Plant and Equipment outstanding at each balance sheet date are classified under other current financial liabilities if due within one year from the date of these consolidated financial statements and under other non-current financial liabilities if due after a year from the date of these consolidated financial statements.

Depreciation on Property, Plant and Equipment other than leasehold improvements, is provided on written down value (WDV) method as per the useful life and in the manner specified in schedule II to the Act. Leasehold improvements are depreciated on straight line basis, over the lease period.

The estimated useful lives used by the Group to compute depreciation is as under:

Asset class	Depreciation Method	Useful lives estimated by the management (in years)
Building (including compensation paid for use of land)	WDV	60
Plant and equipments - Studio	WDV	15
Plant and equipments - Transmission	WDV	13
Furniture and fixtures	WDV	10
Office equipment	WDV	5
Motor vehicles	WDV	8
Computers	WDV	3
Computers - Servers	WDV	6
Leasehold improvements	Straight Line	Lease period

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end.

An item of Property, Plant & Equipment is derecognised upon disposal and any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is derecognised. Assets to be disposed off are reported at the lower of the carrying value or the fair value less cost to sell.

vi. Intangible assets

a. Frequency Module (FM) Radio Licenses

Non-Refundable One Time Migration Fee paid by the Group for existing FM Radio licenses upon migration to Phase III of the Licensing policy and Non-Refundable One Time Entry Fee paid by the Group for acquiring new FM radio licenses have been capitalised as an intangible asset. These assets are stated at cost less accumulated amortisation and impairment losses, if applicable.

A summary of amortisation policies applied to the licenses is tabulated below:

Asset class	Amortization Method	Useful lives estimated by the management (in years)
Non-Refundable One Time Migration Fee	Straight Line	15 years with effect from April 1, 2015
Non-Refundable One Time Entry Fee	Straight Line	15 years from the date of operationalisation of the respective stations

The amortisation period and the amortisation method for finite-life intangible assets is reviewed at each financial year end and adjusted prospectively, if appropriate.

b. Software

a. Software acquired initially together with hardware is capitalised along with the cost of hardware and depreciated in the same manner as the hardware. All subsequent purchases of software licenses are treated as revenue expenditure and charged to the statement of profit and loss account in the year of purchase.

b. Expenditure on Enterprise Software such as SAP, Sales CRM and Performance Appraisal Software etc. where the economic benefit is expected to be more than a year is recognised as an "Intangible Asset" and are amortised over a period of 45 to 60 months.

vii. Investment properties

Investment in buildings that is not intended to be occupied substantially for use by, or in the operations of the Group, have been classified as investment property. Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any. All repairs and maintenance costs incurred for the investment properties are charged to statement of profit and loss account when incurred.

Investment properties are depreciated using the written down value method over their estimated useful lives. Investment properties generally have a useful life of 60 years.

Though the Group measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes (Refer note 6). Fair values are determined based on an annual evaluation performed by a registered valuer. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciated historical carrying value.

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

viii. Borrowing cost

Borrowing cost directly attributable to qualifying assets, which take substantial period to get ready for its intended use, are capitalized to the extent they relate to the period until such assets are ready to be put to use. Other borrowing costs are recognised as an expense in the period in which they are incurred.

ix. Foreign currency transactions

Foreign currency transactions are recorded at the exchange rates prevailing on the date of the transaction. Gains and losses arising out of subsequent fluctuations are accounted for on actual payment or realisation. Monetary items denominated in foreign currency as at the balance sheet date are converted at the exchange rates prevailing on that day. Exchange differences are recognised in the statement of profit and loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

Significant accounting policies and other explanatory information to the consolidated financial statements

Assets and liabilities of entities with functional currency other than the functional currency of the Company have been translated using exchange rates prevailing on the balance sheet date. Statement of profit and loss of such entities has been translated using weighted average exchange rates. Translation adjustments have been recognised in Other Comprehensive Income in the statement of Profit and Loss and reported as foreign currency translation reserve in the statement of changes in equity.

x. **Financial instruments**

a. Recognition and initial measurement

The Group recognizes trade receivables and trade payables when they are originated at transaction price. All other financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognised at fair value. In case of financial assets and liabilities that are not measured at fair value through profit or loss, directly attributable transaction costs are added to the fair value on initial recognition.

b. Classification and subsequent measurement

i. Financial assets

The Group classifies its financial assets in the following measurement categories:

- those to be measured at fair value through profit or loss; and
- those measured at amortised cost.

The classification depends on the Group's business model for managing the financial assets and the contractual terms of the cash flows.

Investments that are intended to be held for not more than a year from the date of investment are classified as current investments. All other investments are termed as non-current investments. The portion of non-current investments which is expected to be realized within twelve months from the balance sheet date are classified as current investments.

Realised and unrealised gains/ losses arising from changes in the fair value of the "financial assets at fair value through profit or loss" investment category are included in the statement of profit and loss in the period in which they arise.

ii. Financial liabilities

Financial liabilities are subsequently carried at amortised cost using the effective interest rates method. For trade and other payables, the carrying amounts represents the fair value due to the short maturity of these instruments.

Realised and unrealised gains/ losses arising from changes in the fair value of the "financial liabilities at fair value through profit or loss" are included in the statement of profit and loss in the period in which they arise.

c. Derecognition of financial instruments

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109- 'Financial Instruments'. A financial liability (or part of a financial liability) is derecognised from the Group's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

d. Impairment of financial assets

The Group assesses on a forward-looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in the credit risk.

For trade receivables, the Group applies the simplified approach permitted by Ind AS 109- 'Financial Instruments', which requires expected lifetime losses to be recognised from initial recognition of the receivables. Lifetime losses are the expected credit losses resulting from all possible default events over the expected life of a trade receivables.

The Group uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. Every year, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

xi. Employee benefits

a. Defined Contribution Plans:

The Group has defined contribution plans for post-employment benefits such as Provident Fund, National Pension Scheme, Employee's State Insurance and Employee's Pension Scheme, 1995. The Group contributes to a government administered Provident Fund, state plan namely Employee's Pension Scheme, 1995, Employee State Insurance Scheme and National Pension Scheme on behalf of its employees and has no further obligation beyond making its contribution.

The Group's contributions to the above funds are recognised in the statement of profit and loss every year.

b. Defined Benefit Plans:

The Group provides for gratuity benefit, which is a defined benefit plan, covering all its eligible employees. Liability for defined benefit plans is provided based on valuations, as at the balance sheet date, carried out by an independent actuary. The actuarial valuation method used by the independent actuary for measuring the liability is the projected unit credit method.

Actuarial losses and gains are recognised in other comprehensive income and shall not be reclassified to the statement of profit and loss in a subsequent period.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in the statement of profit and loss as past service costs.

The Code on Social Security, 2020 ("the Code") relating to employee benefits during employment and post-employment benefits received Presidential assent in September 2020. The Code has been published in the Gazette of India. However, the date on which the Code will come into effect has not been notified and the final rules/ interpretation have not yet been issued. The Group will assess the impact of the Code when it comes into effect and will record any related impact in the period the Code becomes effective.

c. Other long term benefits

The Group has other long term benefits namely compensated absences for all its employees. The liabilities in respect of compensated absences which are expected to be encashed / utilised within twelve months from the balance sheet date are current. Other such liabilities are considered non-current.

d. Termination benefits are recognised as an expense as and when incurred.

xii. Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for a consideration.

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities in respect of future lease payments and Right of Use assets representing the right to use the underlying assets.

i) Right of Use assets

The Group recognises Right of Use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right of Use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of Right of Use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right of Use assets are depreciated on a straight-line basis over the lease term.

ii) Lease liabilities

The Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments less any lease incentives receivable.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date or April 1, 2019 whichever is later. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification or a change in the lease term or a change in the lease payments.

Significant accounting policies and other explanatory information to the consolidated financial statements

iii) Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its leases that have a lease term of 12 months or less and leases of low value assets. The Group recognises the lease payments associated with these leases as an expense in the statement of Profit and loss.

iv) Termination/Modification of lease

The gain or loss arising from termination shall be determined as the difference between the carrying value of lease liability, and the carrying amount of right of use asset. It shall be recognised in statement of profit and loss when the asset is derecognised.

For a lease modification that is not accounted for as a separate lease, the Group accounts for the remeasurement of the lease liability by:

(a) decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease. The Group recognises in profit or loss any gain or loss relating to the partial or full termination of the lease.

(b) making a corresponding adjustment to the right-of-use asset for all other lease modifications.

xiii. Cash and cash equivalents

Cash and cash equivalents include cash in hand, demand deposits with banks and other short-term highly liquid investments with original maturities of three months or less. Bank overdrafts, if any are shown as borrowings under current financial liabilities in the balance sheet.

xiv. Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events (such as bonus shares),if any, other than the conversion of potential equity shares that have changed the number of equity shares outstanding without a corresponding change in resources. For calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

xv. Taxes

Tax expense comprises current and deferred tax. Current income tax and deferred tax are measured based on the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961.

Current Tax

Current tax in the Statement of Profit and Loss is provided as the amount of tax payable in respect of taxable income for the period using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date.

Minimum Alternate Tax (MAT)

MAT paid in accordance with tax laws which give rise to future economic benefits in the form of adjustment to future income tax liability is considered as an asset, if there is convincing evidence that the Group will pay normal tax in future. Accordingly, MAT is recognised as a deferred tax asset in the balance sheet when it is probable that the future economic benefit associated with it will flow to the Group and the asset can be measured reliably. The Group reviews the 'Minimum Alternate Tax (MAT) Credit Entitlement' asset at each reporting date and writes down the asset to the extent the Group does not have convincing evidence that it will pay normal tax during the specified period i.e. the period for which MAT credit is allowed to be carried forward.

Deferred tax assets and liabilities

Deferred tax assets and liabilities are recognised for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. Deferred tax assets and liabilities are measured using the tax rates that have been enacted or substantively enacted by the balance sheet date.

Tax assets and liabilities are offset when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle the asset and the liability on a net basis.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets, if any are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Significant accounting policies and other explanatory information to the consolidated financial statements

Current and deferred tax is recognised in the statement of profit and loss, except to the extent that it relates to the items recognised in other comprehensive income or directly in equity. In such situations, the tax is also recognised in other comprehensive income or directly in equity, as the case may be.

xvi. GST paid on acquisition of assets or on incurring expenses

Expenses and assets are recognised net of the amount of GST, except

a. When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable.

b. The net amount of tax receivable/ payable is included as part of receivables/payables, as the case may be, in the balance sheet.

xvii. Impairment of non-financial assets

The Group assesses at each balance sheet date whether there is any indication that a non-financial asset, other than goodwill, may be impaired. If any such indication exists, the Group estimates the recoverable amount of such asset. If recoverable amount of such asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the statement of profit and loss. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciated historical carrying value.

Goodwill if any, is not subject to amortisation and is tested for impairment at each reporting date. An impairment loss recognised for goodwill shall not be reversed in a subsequent period.

xviii. Provisions and contingent liabilities

The Group recognises a provision when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. Provisions are determined based on best estimates of the amount required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. If the effect of time value of money is material, provisions are discounted. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources embodying economic benefit. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made.

xix. Dividends

Final dividend on shares is recorded as a liability on the date of approval by the shareholders and interim dividend is recorded as a liability on the date of approval by the Group's Board of Directors.

xx. License Fees

As per the applicable Frequency Module (FM) broadcasting policy, license fees is recognised in statement of profit and loss at the rate of 4% of gross revenue or minimum fixed fee for the concerned city, whichever is higher. Minimum fixed fee is 2.5% of the Non-Refundable One Time Entry Fee (NOTEF).

However, for the first three years of operations in the states of North East (i.e. Assam and Meghalaya) and Jammu & Kashmir the rate of License fee was 2% of Gross Revenue or 1.25% of NOTEF, whichever is higher.

Gross Revenue for this purpose shall mean revenue on the basis of billing rates inclusive of any taxes. Barter advertising contracts are also included in the gross revenue on the basis of relevant billing rates. NOTEF means the successful bid amount arrived at through an ascending e-auction process for private FM Radio Phase-III Channels conducted by the Ministry of Information & Broadcasting ('MIB').

Notes:

A) Additions in Other intangible assets ₹ 49.56 lakhs includes assets acquired separately (March 31, 2022: ₹ 108.91 lakhs).

B) As per the modified policy for expansion of FM Radio Broadcasting Services through Private Agencies (Phase III) , effective April 1, 2015 the Company was given the option to migrate all its existing licenses from Phase II regime to Phase III regime on payment of Non Refundable One Time Migration Fee ('NOTMF'). NOTMF for each station was determined based on the prescribed formula by the MIB vide its order dated January 21, 2015. The Company had exercised the option to migrate 35 out of its 36 stations from Phase II to Phase III for which the gross migration fee was ₹ 36,558.51 lakhs and the net migration fee after taking into account the residual value of the Phase II licenses was ₹ 34,082.48 lakhs . NOTMF has a remaining amortisation period of seven years.

C) In the financial year 2015-16, the Company had won 17 new licenses in the Phase III auctions. The Company paid ₹ 33,924.23 lakhs Non Refundable One Time Entry Fees ('NOTEF') for these stations. The NOTEF was partially funded through borrowings. During the year 2016-17 the Company had won 21 new licenses in the Batch 2 of Phase III auctions. The Company paid Non-refundable One Time Entry Fee ("NOTEF") of ₹ 5,140.43 lakhs for these licenses. The NOTEF was funded through borrowings. All the Phase III licenses have a tenure of 15 years from the date of operationalization of such licenses.

While disclosing the aggregate amount of transaction price yet to be recognised as revenue towards unsatisfied (or partially satisfied) performance obligations, along with the broad time band for the expected time to recognise those revenues, the Group has applied the practical expedient in Ind AS 115 as unsatisfied (or partially satisfied) performance obligation are parts of contracts that have an original expected duration of one year or less. Accordingly, the Group has not disclosed the aggregate transaction price allocated to unsatisfied (or partially satisfied) performance obligations which pertain to contracts where revenue recognised corresponds to the value transferred to customer typically involving time and material, outcome based and event based contracts.

34. DISCLOSURE AS PER IND AS 116

The Group, at the inception of a contract, assesses the contract as, or containing, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset:

- the Group assesses whether the contract involves the use of an identified asset,
- the Group has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- the Group has the right to direct the use of the asset.

The Group has lease contracts for offices premises and transmission facilities used in its operations. Leases of transmission facilities generally have a lease term ranging from 2 to 15 years, while office premises generally have lease terms ranging from 2 to 10 years.

The Group has also applied the available practical expedients wherein it:

1. Used a single discounting rate to a portfolio of leases with reasonably same characteristics.
2. Applied short term leases exemptions to leases with lease term that ends within 12 months at the date on initial application.
3. Excluded the initial direct cost from the measurement of the Right of use of asset at the date of initial application.

Lease Liabilities

The Group recognised a lease liability measured at the present value of all the remaining lease payments, discounted using the Group's incremental borrowing rate.

The Group's non-current lease liabilities are included in Non-current financial liabilities (Refer note 19) and current lease liabilities are included in Other current financial liabilities (Refer note 21). The maturity analysis of lease liabilities is disclosed in note 45 – Financial Risk Management

Movement in lease liability during the year are follows:

Right of Use Assets

For new lease contracts, the Group recognises a Right of Use asset and a corresponding lease liability with respect to all lease agreements in which it is the lessee. The lease liability and the Right of Use assets is initially measured at the present value of remaining lease payments, discounted using the incremental borrowing rate at the date of recognition. Depreciation is computed using straight-line method over the lease term. The Group's Right of Use assets were recognised and shown separately in the Balance Sheet (Refer Note 4).

Short-term leases and leases of low-value assets

The Group has elected not to recognise Right of Use assets and lease liabilities for short term leases that have a lease term of 12 months or less and leases of low value assets. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

For the year:

a. Depreciation expense increased by ₹ 3,064.33 lakhs (previous year: ₹ 3,129.06 lakhs) on account of depreciation on Right of Use assets recognised.

b. Rent expense included in 'Operating and other expenses', decreased by ₹ 4,257.08 lakhs (previous year: ₹ 4,009.09 lakhs) on account of operating leases recognised previously.

c. Finance costs increased by ₹ 1,735.54 lakhs (previous year: ₹ 1,815.98 lakhs) on account of interest expense on lease liabilities recognised.

d. Cash outflow from operating activities decreased by ₹ 4,257.08 lakhs (previous year: ₹ 4,009.09 lakhs) on account of decrease in operating lease payments.

e. Cash outflow from financing activities increased by ₹ 3,822.73 lakhs (previous year: ₹ 4,321.47 lakhs) on account of increase in principal and interest payments of lease liabilities.

35. TRADE PAYABLES

37. THE GROUP HAS CLASSIFIED THE VARIOUS EMPLOYEE BENEFITS PROVIDED TO EMPLOYEES AS UNDER:

I) Defined contribution plans

a) Provident Fund

b) Employee's Pension Scheme

c) Employee State Insurance Scheme

d) National Pension Scheme

During the year, the Group has recognised the following amounts in the consolidated statement of profit and loss:

(₹ in lakhs)

Particulars	For the year ended March 31, 2023	For the year ended March 31, 2022
– Employers' Contribution to Provident Fund*	300.28	237.86

– Employers' Contribution to National Pension Scheme*	20.05	19.21
– Employers' Contribution to Labour welfare fund*	0.47	0.41

* Included in Contributions to Provident and Other Funds (Refer Note 28)

II) Defined Benefit Plans

Post-employment obligations

Employees who are in continuous service for a period of 5 years or death while in employment are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for 15 days' salary multiplied for the number of years of service. The liability in respect of gratuity is uncapped and is not restricted to ₹ 20 lakhs.

These plans typically expose the Group to actuarial risks such as interest risk and salary inflation risk.

a) **Interest risk** - A decrease in the discount rate will increase the plan liability.

b) **Salary inflation risk** - The present value of the defined plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

In accordance with Ind AS 19, actuarial valuation was done in respect of the aforesaid Defined Benefit Plan of gratuity (unfunded) based on the following assumptions:-

Particulars	As at March 31, 2023	As at March 31, 2022

(ii) On purposes other than (i) above	–	40.00

Nature of activities include promotion of education including special education and employment enhancing vocational skills.

42. PENDING LITIGATIONS, CLAIMS AND CONTINGENT LIABILITY:

a. Pending litigations and claims

The Group is involved in various litigations, the outcome of which are considered probable and in respect of which the Group has aggregate provisions of ₹ 2,058.08 lakhs as at March 31, 2023 (March 31, 2022 - ₹ 1,970.04 lakhs).

b. Contingent liability - taxation

The Group is contesting certain disallowances to the taxable income and demands raised by the Income tax authorities, the estimated tax liability of which is ₹ 19.00 lakhs as at March 31, 2023 (March 31, 2022 - ₹ 19.00 lakhs). The management does not expect the liability from these claims to crystallize and accordingly, no provision has been recognised in the financial statements for the same.

c. Other Litigation

Subsequent to the year ended March 31, 2023, in the matter of the Company vs Phonographic Performance Limited ('PPL'), the Hon'ble Madras High Court partly allowed the appeal of PPL. The management is in the process of filing a special leave petition before the Hon'ble Supreme Court of India for an immediate stay of the said order. The management, based on legal advice, believes that the chances of a cash outflow on account of the aforesaid matter is remote.

43. CAPITAL MANAGEMENT

Capital includes issued equity capital and other equity reserves attributable to the equity holders of the parent Company.The Group's objective is to maintain a strong capital base to ensure a sustainable future growth, maintain a strong credit rating, and to provide adequate returns to the shareholders. The funding requirements of the Group are not large and are generally met through internal accruals.

The net debt of the Group as at March 31, 2023 is Nil (March 31, 2022- Nil).

44. FAIR VALUE

The fair values of financial assets and liabilities are included at the amount at which the instrument can be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

a. Fair value of cash and cash equivalents, other bank balances, trade and other current financial assets, trade and other payables approximate their carrying amounts due to the short maturities of these instruments. The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

b. The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities – Investment in Mutual funds

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

45. FINANCIAL RISK MANAGEMENT

The Group's principal financial liabilities comprise lease liabilities, trade and other payables. The main purpose of these financial liabilities is to finance and support the Group's operations. The Group's principal financial assets include security deposits, investment in mutual funds, trade and other receivables, and cash and cash equivalents that derive directly from its operations.

The Group's senior management oversees the management of these risks. The Group's activities expose it to a variety of credit risks, market risks, and liquidity risks. This note explains the sources of risk which the entity is exposed to and how the entity manages the risks in the financial statements.

a. Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including investments in debt mutual funds, investment in Corporate fixed deposits, balances with banks and foreign exchange transactions.

Trade Receivables

Customer credit risk is managed by each business unit subject to the Group's established policy, procedures and control relating to customer credit risk management. The Group undertakes a detailed review of the credit worthiness of clients before extending credit. Outstanding customer receivables are regularly monitored.

Trade receivables consists of a large number of customers. The Group has a credit evaluation policy for each customer and based on the evaluation, credit limit of each customer is defined. Total Trade receivables (net of provisions) as on March 31, 2023 is ₹ 13,247.00 lakhs (March 31, 2022: ₹ 13,114.28 lakhs). The Group believes the concentration of risk with respect to trade receivables is low, as its customers are located in several jurisdictions and industries and operate in largely independent markets.

The Group uses the expected credit loss model as per Ind AS 109 – 'Financial Instruments' to assess the impairment loss. The Group uses a provision matrix to compute the expected credit loss allowance for trade receivables. The provision matrix considers available external and internal credit risk factors and the Group's historical experience in respect of customers. The maximum exposure, to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 12.
