Visakhapatnam Port Logistics Park Limited (VPLPL)

Visakhapatnam Port Logistics Park Limited (hereinafter referred to 'the JVC') was incorporated on 24th July 2014, under the Companies Act, 2013, with equity contribution in the ratio of 60:40 between the two joint venture partners, namely Balmer Lawrie & Co. Ltd. and Visakhapatnam Port Authority.

The JVC runs and operates a Multimodal Logistics Hub (MMLH) facility in Visakhapatnam. The MMLH comprises of an open yard storage facility, mechanised warehouse and a temperature-controlled storage solution facility for mechanised materials handling and intermodal transfer between container terminals and break-bulk cargo terminals. The MMLH provides option for handling both bonded as well as non-bonded cargo coupled with offering of value-added services such as customs clearance, sorting, grading, aggregation, disaggregation and freight handling. It has a rail connectivity of 1.30 K.M. where 4 rakes can be handled in a day. The MMLH upon receipt of CFS license, has commenced its CFS operations from 2nd March, 2023.

The mechanised warehouse facility of the JVC covering around 1,06,650 sq. ft. had witnessed an average capacity utilization of 92% during the Financial Year 2022-23, as against utilization of 97% during the previous Financial Year 2021-22. In the anticipation of receiving CFS license, the EXIM portion of the warehouse had to be vacated in November, 2022, which resulted in reduction of capacity utilization, which otherwise had witnessed 100% utilisation till November, 2022.

The JVC's temperature-controlled warehouse facility is equipped with frozen & chilled chambers with

a capacity of handling 3,780 pallets. During the Financial Year 2022-23, this business had reached its maximum capacity utilization of 100% as against utilization of 95% during the previous Financial Year 2021-22.

The JVC during the year under review experienced challenges in achieving growth in the area of Open Yard and Rail Siding business due to imposition of export duty on steel products which was effective from second quarter of the Financial Year 2022-23, ban on export of agricultural commodities and non-availability of rakes for the customers dealing in Aluminium products. These significant factors had adversely affected the capacity utilization of its Open Yard business, which had dropped from 40% (Financial Year 2021-22) to 24% in the Financial Year 2022-23. The number of rakes handled also had reduced from 123 Rakes (Financial Year 2021-22) to 60 rakes in the Financial Year 2022-23.

During the Financial Year 2022-23, the JVC was able to generate a total revenue of Rs. 12.56 crores as against Rs. 14.05 crores earned during the previous Financial Year 2021-22. However, due to depreciation and interest on borrowings, the JVC ended up with a loss of Rs. 10.54 crores during the Financial Year 2022-23.

The significant achievement of the JVC during the year 2022-23, was the receipt of Container Freight Station (CFS) license on 27th January, 2023 and commencement of CFS operations on 2nd March, 2023. With this license in place, the facility is now aligned with the Prime Minister's Gati Shakti initiative, since, the JVC is well equipped to offer an end-to-end Logistics Services with best-in-class infrastructure.

The JVC had already handled 74 TEUs of Export containers in the month of March 2023 and generated a revenue of Rs. 12 lakh. The JVC is expected to perform better in the current Financial Year 2023-24, since, commercial agreements have been signed off with some of the major shipping lines.

INDEPENDENT AUDITORS' REPORT
To The Members of Balmer Lawrie Investments Limited

Report On The Audit Of The Standalone Financial Statements

Opinion

We have audited the accompanying Standalone Financial Statements of **BALMER LAWRIE INVESTMENTS Limited** ('the Company'), which comprise the Standalone Balance Sheet as at 31st March 2023, the Standalone Statement of Profit and Loss(including Other Comprehensive Income), and the Statement of Changes in Equity and the Standalone Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information(hereinafter referred to as "Standalone financial Statements")

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act,2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards)Rules 2015, as amended,("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2023, the profit and total comprehensive Income, and changes in equity and its cash flows for the year ended on that date.

Basis for opinion

We conducted our audit of the Standalone Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Standalone financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. We have determined that there are no key audit matters to be communicated in our report.

Information other than the Standalone Financial Statements and Auditors' Report Thereon

The Company's Board of Directors is responsible for other information. The other information comprises the information included in the Company's Annual Return but does not include the Financial Statements and our Auditor's report thereon.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position and financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with relevant rules issued there under.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Evaluate the appropriateness and reasonableness of disclosures made by the board of directors in terms of the requirements specified under regulation 33 of the listing regulations.
- Conclude on the appropriateness of management's use of the going concern basis of accounting

and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our Auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure, and content of the Financial Statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the Standalone Financial Results of the Company to express an opinion on the Standalone Financial Results.

Materiality is the magnitude of misstatements in the Standalone Financial Results that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Financial Results may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Standalone Financial Results.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government Of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the '**Annexure A**', a Statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143 (3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanation which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

Annexure - B to the Independent Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **BALMER LAWRIE INVESTMENTS LIMITED (The Company)** as of 31st March 2023 in conjunction with our Audit of the Standalone Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing, issued by ICAI and prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

2. Basis of Preparation

These Standalone Financial Statements have been prepared on going concern basis following accrual system of accounting and are in accordance with Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended), applicable provisions of the Companies Act, 2013 and other applicable regulatory norms/ guidelines.

The Standalone Financial Statements are presented in INR, which is also the Company's functional currency and all values are rounded to the nearest Lakhs, except when otherwise indicated.

3. Summary of Significant Accounting Policies

The significant Accounting Policies applied in preparation of the standalone financial statements are as given below:

3.1 Basis of Preparation and Measurement

The Standalone Financial Statements have been prepared on historical cost basis except for certain Financial Assets and Financial Liabilities which are measured at fair values as explained in relevant Accounting Policies. These policies have been applied consistently for all the periods presented in the Standalone Financial Statements.

3.2 Revenue Recognition

The Company is not engaged in any other business activity, except to hold the Equity Shares of Balmer Lawrie & Co. Ltd. Revenue arises mainly from the interest income and dividend income which are recognized in compliance with the applicable Ind AS.

Interest Income

Interest Income is recognized on time proportion basis taking into account the amount outstanding and rate applicable.

For all financial assets measured at amortized cost, interest income is recorded using the effective interest rate, i.e. the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial assets.

Dividend Income

Income from dividend on investment in subsidiaries is considered on accrual basis when company's right to receive payment is established.

Other Income

Other income, if any, is recognized in accordance with the relevant Ind AS.

3.3 Financial Instruments*Recognition, initial measurement and derecognition.*

Financial Assets and Financial Liabilities are recognized when the Company becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted by transaction costs, except for those carried at fair value through profit or loss (FVTPL) which are measured initially at fair value. **However, trade receivables that do not contain a significant financing component are measured at transaction price.** Subsequent measurement of financial assets and financial liabilities are described below.

Financial Assets are derecognized when the contractual rights to the cash flows from the Financial Asset expire, or when the financial asset and all substantial risks and rewards are transferred. A Financial Liability is derecognized when it is extinguished, discharged, cancelled or expires.

Classification and subsequent measurement of financial assets

Notes forming part of Standalone Financial Statements for the year ended March 31, 2023

For the purpose of subsequent measurement, Financial Assets are classified into the following categories upon initial recognition:

- Amortized cost
- Financial Assets at fair value through profit or loss (FVTPL)
- Financial Assets at fair value through other comprehensive income (FVOCI), if required
- Investments in Equity Shares of subsidiaries (carried at cost in accordance with Ind AS 27 read with Ind AS 101)

All financial assets except for those at FVTPL are subject to review for impairment.

Amortized cost

A Financial Asset is measured at amortized cost using Effective Interest Rate (EIR) if both of the following conditions are met:

- a) the Financial Asset is held within a business model whose objective is to hold Financial Assets to collect contractual cash flows; and
- b) the contractual terms of the Financial Asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A loss allowance for expected credit losses is recognized on Financial Assets carried at amortized cost.

Since, the company is not allowed to carry on any business activity, except to hold equity shares of M/s Balmer Lawrie & Co. Ltd., there is no Financial Asset classified under FVTPL & FVOCI.

3.4 Impairment of Financial Assets

In respect of impairment of its Financial Assets, the Company assesses if the credit risk on those financial assets has increased significantly since initial recognition.

To make that assessment, the Company compares the risk of a default occurring on the Financial Asset as at the Balance Sheet date with the risk of a default occurring on the financial asset as at the date of initial recognition. The Company also considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition. The Company assumes that the credit risk on a Financial Asset has not increased significantly since initial recognition if the financial asset is determined to have low credit risk at the balance sheet date.

Write-offs

Financial assets are written off either partially or in their entirety only when the Company has stopped pursuing the recovery.

3.5 Cash and Cash Equivalents

Cash and Cash Equivalents comprise cash on hand, balance lying with the banks under current account and demand deposits, together with other short-term, highly liquid investments (original maturity less than three months) that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value. Cash flow statement is reported using indirect method as per Ind AS 7.

3.6 Employee Benefits Expenses

Employee Benefits comprise of salaries and wages of staff deployed by service provider and it includes contribution to provident fund and superannuation fund which was reimbursed to the service provider, who maintains and makes provisions for the aforesaid amounts.

3.7 Segment Reporting

The Company's only business is investment in its subsidiary M/s Balmer Lawrie & Co. Ltd., and hence segment reporting as envisaged by Ind AS 108 notified by the Ministry of Corporate Affairs is not applicable to the Company for Standalone Financial Statements.

3.8 Material Prior Period Errors

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest period presented, the opening balances of assets, liabilities and equity for the earliest period presented, are restated.

Notes forming part of Standalone Financial Statements for the year ended March 31, 2023

Prior period errors are corrected by retrospective restatement except to the extent that it is impracticable to determine either the period-specific effects or the cumulative effect of the error.

3.9 Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognized when the Company has a present legal or constructive obligation as a result of a past event; it is probable that an outflow of economic resources will be required from the Company and amounts can be estimated reliably. Timing or amount of the outflow may still be uncertain. Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the reporting date, including the risks and uncertainties associated with the present obligation. Provisions are discounted to their present values, where the time value of money is material.

A Contingent Liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the Company or
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

In those cases, where the outflow of economic resources as a result of present obligations is considered improbable or remote, no liability is recognized or disclosure is made.

Any reimbursement that the Company can be virtually certain to collect from a third party concerning the obligation (such as from insurance) is recognized as a separate asset. However, this asset may not exceed the amount of the related provision.

Contingent Assets are not recognized. However, when the inflow of economic benefits is probable, the related asset is disclosed.

3.10 Taxes on Income

Current tax is the amount of tax payable as determined in accordance with the provisions of the Income Tax Act, 1961 on the taxable income for the year and any adjustment to the tax payable or receivable in respect of previous years.

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax base used in the computation of taxable income. Deferred tax assets and liabilities are calculated, without discounting, at tax rates that are expected to apply to their respective period of realization, provided those rates are enacted or substantively enacted by the end of the reporting period.

Deferred tax liability is recognized for all taxable temporary differences. A deferred tax asset is recognized for all deductible temporary differences to the extent that it is probable that future taxable profits will be available against which the deductible temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized. Under the current scenario, the company does not have any deferred tax asset or liability.

3.11 Earnings per share

Basic earnings per share is calculated by dividing the net Profit or Loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period.

To calculate diluted earnings per share, the net profit or loss (interest and other finance cost associated) for the period attributable to equity shareholders (after deducting attributable taxes) and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares, except in case where results are anti-dilutive.

4. Significant management judgment in applying Accounting Policies and estimation of uncertainty

The preparation of the Company's standalone financial statements requires management to make judgments, estimates, and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the related disclosures. Actual results may differ from these estimates.

Significant management judgments

Evaluation of indicators for Impairment of Assets – The evaluation of the applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

Recoverability of Receivables and Investments

INDEPENDENT AUDITORS' REPORT

To The Members of Balmer Lawrie Investments Limited

Report on the Audit of the Consolidated Financial Statements**Opinion**

We have audited the accompanying consolidated financial statements of **BALMER LAWRIE INVESTMENTS LIMITED** (the "Holding Company") and its subsidiary (the Holding Company and its subsidiary together referred to as the "Group"), its associates and joint ventures, which comprise the Consolidated Balance Sheet as at March 31, 2023, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as the "Consolidated Financial Statements").

In our opinion, and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements, give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ("Ind AS") prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group, its associates and joint ventures, as at March 31, 2023, the consolidated profit, consolidated total comprehensive income, consolidated changes in equity and its consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group and its associates and joint ventures in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in India in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Companies Act, 2013, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report:

Sl.No	Key Audit Matter	Auditor's Response
	<p>Evaluation of uncertain tax positions</p> <p>The Subsidiary Company has tax matters under dispute which involves judgment to determine the possible outcome of these disputes. [Refer Note No.44(ii)(b) to the consolidated financial statements]</p>	<p>We obtained the details of assessment orders to the extent available, regarding those assessments for which disputes are continuing and being disclosed as contingent liability by the management. We involved our expertise to estimate the possible outcome of the disputes. Our experts considered the assessment orders and other rulings in evaluating management's position on these uncertain tax positions to evaluate whether any change was required to management's position on these uncertain tax matters.</p>

SI.No	Key Audit Matter	Auditor's Response
	<p>Debtors Due for More than Three years and Credit Balance in Sundry Debtors Accounts (Unallocated Receipts)</p> <p>The Subsidiary Company has credit balance in some customer accounts across all Strategic Business Unit (SBU's). The credit balance in these customers accounts are due to either of the following reasons:</p> <ul style="list-style-type: none"> • Amount lying in the nature of advance in the customer's account; • Amount credited to customers account but the same could not be tracked / linked with any sales invoice. • Non-reconciliation of these balances in the absence of customer's confirmation resulting in the credit balances lying for long periods 	<p>We have checked the debtor's ageing schedule of the SBU's. The Company is regularly following up on the realisation of the same. As is evident from the ageing schedule dues do exist for more than three years against which provision has been made in the accounts.</p> <p>We, during the course of our examination have also checked the unadjusted advances from customers lying for more than three years and also the credit balances lying in customers' accounts on account of unmatched invoices (unallocated receipts). Some of the advances lying unadjusted for more than three years have been written back during the course of audit. In some cases, the management is in the process of reconciliation with the respective parties and hence the write back if any, has been kept in abeyance.</p> <p>It is observed that though the letters seeking confirmations are sent by the Company, the response has been poor. Steps should be taken to get the confirmations from customers. In addition to practice of seeking confirmation annually, the Group Company should also get confirmation through the sales team on a periodical basis other than annually</p> <p>The management has to strengthen the internal control process of reconciling the balances of the debtors and to adjust the unallocated receipts on a periodical basis.</p>

Emphasis of Matter

We draw attention to the following matters in the Notes to the consolidated financial statements which describe the uncertainty related to the outcome.

- Note No. 44(ii)(g) which states that trade receivables, loans and advances and deposits for which confirmations are not received from the parties are subject to reconciliation and consequential adjustments on determination / receipt of such confirmation.
- Note No. 27: "Other Trade Payable" includes the sundry creditor for expenses amounting to Rs.322.62 Lakhs (P.Y. Rs.322.57 Lakhs) of E&P Division (Kolkata) of Subsidiary Company, which are lying unpaid since long, as the matters are under litigation.
- Note no.49 which states that as per the order of Hon'ble National Company Law Tribunal (NCLT), the demat account service provider has unilaterally reduced the investment of the company in the shares (both equity and preference) of M/s Transafe Services Limited (TSL). However, the Company continues to display these quantities of shares under its Investment.
- Notes No.49 regarding non-accrual of interest on loan and non-impairment of its investments in M/s Transafe Services Limited by a Joint Venture Company, M/s Balmer Lawrie - Van Leer Limited in the financial year 2020-21, which have no further impact on the group.
- Note No. 49 regarding qualified opinion in one of the Joint venture company, M/s. Balmer Lawrie (UAE) LLC for i) provision for expected losses on raw material inventory which are done in departure to applicable Standards and ii) absence of sufficient appropriate audit evidence pertaining to provision of discounts to trade receivables payable to customers.

Our opinion is not modified in respect of the above matters.

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates and joint ventures to cease to continue as a going concern.

For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Annexure - B to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ("The Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2023, we have audited the internal financial controls over financial reporting of **Balmer Lawrie Investments Limited** (hereinafter referred to as the "Holding Company") and its subsidiary, joint venture and associate companies, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The Boards of Directors of the Holding Company and its subsidiary, joint venture and associate companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Holding Company and its subsidiary, joint venture and associate companies, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Holding Company and its subsidiary, joint venture and associate companies, which are companies incorporated in India.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial

Balmer Lawrie Investments Limited

CIN: L65999WB2001GOI093759

statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statement

Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Holding Company and its subsidiary, joint venture and associate companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting. Though certain areas require further strengthening, it does not have any material effect on the internal financial controls. The internal financial controls over financial reporting were operating effectively as at March 31, 2023 based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

2. Basis of Preparation and Significant Accounting Policies

Basis of Preparation

The Consolidated Financial Statements relates to the Company along with its Subsidiary and Subsidiary's interest in Joint Ventures and Associates (collectively referred to as the ‘Group’) have been prepared in accordance with the Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended), applicable provisions of the Companies Act, 2013 and other applicable regulatory norms/ guidelines.

The Consolidated Financial Statements for the year ended 31st March 2023 were authorized and approved for issue by the Board of Directors on 30th May,2023.

These Consolidated Financial Statements have been prepared on going concern basis following accrual system of accounting. Further, these financial statements have been prepared on historical cost basis except for certain financial assets and financial liabilities which are measured at fair values as explained in relevant accounting policies.

Significant Accounting Policies

The significant accounting policies applied in preparation of the financial statements are as given below:

2.1 Basis of consolidation

Subsidiary

Subsidiary is the entity controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiary are included in the consolidated financial statements from the date on which control commences until the date on which control ceases. The Group combines the financial statements of the holding Group and its subsidiary line by line adding together like items of assets, liabilities, equity, income and expenses.

Equity Accounted Investees

The Group's interests in equity accounted investees comprise of the interests in associates and joint venture. Interests in associates are accounted for using the equity method. They are initially recognised at cost, which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of Profit and Loss and Other Comprehensive Income (OCI) of equity-accounted investees until the date on which significant influence ceases.

A joint venture is an arrangement in which the Group has joint control and has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

Interests in joint venture are accounted for using the equity method. They are initially recognised at cost which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of Profit and Loss and Other Comprehensive Income (OCI) of equity-accounted investees until the date on which significant influence or joint control ceases.

Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated. Unrealised gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

Notes forming part of Consolidated Financial Statements for the year ended March 31, 2023

2.2 Revenue recognition

Revenue arises mainly from the sale of services and goods and interest income. To determine whether to recognise revenue, the Group follows a 5-step process:

- (i) Identifying the contract with a customer
- (ii) Identifying the performance obligations
- (iii) Determining the transaction price
- (iv) Allocating the transaction price to the performance obligations
- (v) Recognising revenue when/as performance obligation(s) are satisfied.

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

The Group considers the terms of the contract and its customary business practices to determine the transaction price. The transaction price is the amount of consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties (for example, indirect taxes). The consideration promised in a contract with a customer may include fixed consideration, variable consideration (if reversal is less likely in future), or both. **Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation.**

The Group recognises contract liabilities for consideration received in respect of unsatisfied performance obligations and reports these amounts as other liabilities in the statement of financial position. Similarly, if the Group satisfies a performance obligation before it receives the consideration, the Group recognises either a contract asset or a receivable in its statement of financial position, depending on whether something other than the passage of time is required before the consideration is due.

Revenue from services is recognised in the period in which services are rendered, as per the terms of the service contract.

In case of project activities: As per the percentage of completion method after progress of work to a reasonable extent for which control can be transferred to the buyer.

In cases where the Company collects consideration on account of another party, it recognises revenue as the net amount retained on its own account.

Other Income

- (i) Interest income is recognized on time proportion basis taking into account the amount outstanding and rate applicable. For all financial assets measured at amortized cost, interest income is recorded using the effective interest rate (EIR), i.e. the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial assets.
- (ii) Dividend from investments in shares on establishment of the Company's right to receive.
- (iii) Royalties are recognised on accrual basis in accordance with the substance of the relevant agreement
- (iv) Export incentives are recognised as income only at the time when there is no significant uncertainty as to its measurability and ultimate realisation.

For determining the transaction price, the Company measures the revenue in respect of each performance obligation of a contract at its relative standalone selling price.

The company accounts for volume discounts and pricing incentives to a buyer as a reduction of revenue based on the ratable allocation of the discounts/incentives to each of the underlying performance obligation that corresponds to the progress by the buyer towards earning the discount/ incentive.

Term of returns, refunds etc. are agreed with the buyers on a case to case basis upon mutually accepted terms and conditions. The impact of returns and refunds is negligible on the turnover of the company.

As a practical expedient, as given in Ind AS 115, the Company has not disclosed the remaining performance obligation related disclosures for contracts where the revenue recognized from the satisfaction of the performance obligation

Notes forming part of Consolidated Financial Statements for the year ended March 31, 2023

corresponds directly with the value to the customer of the entity's performance completed to date especially in relation to those contracts where invoicing is on time and material basis.

Significant payment terms:

Payment is generally received either in cash or based on credit terms. Credit terms are agreed to with the buyers and is generally in line with the respective industry standards.

2.3 Property, Plant and Equipment

Recognition and initial measurement

Land

Land held for use is initially recognized at cost. For land, as no finite useful life can be determined, related carrying amounts are not depreciated. Land also includes land held under finance lease, which is depreciated over the lease term.

Other Tangible assets

PPE other than land is initially recognized at acquisition cost or construction cost, including any costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by the Group's management.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group beyond one year. Maintenance or servicing costs of PPE are recognized in the Statement of Profit and Loss as incurred.

Property, plant and equipment manufactured /constructed in house are valued at actual cost of raw materials, conversion cost and other related costs.

Expenditure incurred during construction of capital projects including related pre-production expenses is treated as Capital Work-in- Progress and in case of transfer of the project to another body, the accounting is done on the basis of terms of transfer.

Machine Spares whose use is irregular is classified as Capital Spares. Such capital spares are capitalised as per Property, plant & equipment.

Subsequent measurement (depreciation method, useful lives, residual value, and impairment)

PPE are subsequently measured at Cost less accumulated depreciation and impairment loss. Depreciation on Plant & Machinery other than continuous process plant is provided on pro-rata basis following straight line method considering estimated useful life at 25 years, based on technical review by a Chartered Engineer. Depreciation on continuous process plant is as per Schedule II of the Companies Act, 2013.

Depreciation on certain Property, plant & equipment, which have been refurbished/ upgraded and put to further use are being depreciated on a pro rata basis considering their reassessed residual useful life which is not more than the life specified in Schedule II of the Companies Act, 2013.

Depreciation on tangible assets other than Plant & Machinery is provided on pro-rata basis following straight line method over the estimated useful lives of the asset or over the lives of the assets prescribed under Schedule II of the Companies Act, 2013, whichever is lower. Based on internal review, the lower estimated useful lives of the following assets are found justifiable compared to the lives mentioned in Schedule II of the Companies Act 2013:

Asset category	Estimated useful life (in years)
Mobile Phones and Portable Personal Computers	2 years
Assets given to employees under furniture equipment scheme	5 years
Electrical items like air conditioners, fans, refrigerators etc.	7 years
Sofa, Photocopier, Fax machines, Motor Cars & Machine Spares	5 years

The residual values of all assets are taken as NIL.

The residual values, useful lives, and method of depreciation are reviewed at the end of each financial year. PPE other than land is tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

Notes forming part of Consolidated Financial Statements for the year ended March 31, 2023**De-recognition**

An item of PPE and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of an item of PPE is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognized in the Statement of Profit and Loss.

Capital Work-in-Progress

The cost of PPE under construction at the reporting date is disclosed as 'Capital work-in-progress.' The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Advances paid for the acquisition/ construction of PPE which are outstanding at the balance sheet date are classified under 'Capital Advances.'

2.4 Intangible Assets**Recognition and initial measurement**

Intangible assets mainly comprise of computer software which is initially measured at cost. Such assets are recognized where it is probable that the future economic benefits attributable to the assets will flow to the Group.

Subsequent measurement (amortization method, useful lives and residual value)

All intangible assets with finite useful life are amortized on a straight-line basis over the estimated useful lives, and a possible impairment is assessed if there is an indication that the intangible asset may be impaired. Residual values and useful lives for all intangible assets are reviewed at each reporting date. Changes, if any, are accounted for as changes in accounting estimates.

- a) Expenditure incurred for acquiring intangible assets like software costing ₹ 500,000 and above and license to use software per item of ₹ 25,000 and above, from which economic benefits will flow over a period of time, is amortised over the estimated useful life of the asset or five years, whichever is earlier, from the time the intangible asset starts providing the economic benefit.
- b) Brand value arising on acquisition are recognised as an asset and are amortised on a straight-line basis over 10 years.
- c) Goodwill on acquisition is not amortised but tested for impairment annually.
- d) In other cases, the expenditure is charged to revenue in the year in which the expenditure is incurred.

Intangible Assets under Development

Expenditure incurred which are eligible for capitalization under intangible assets is carried as 'Intangible assets under development' till they are ready for their intended use.

De-recognition of Intangible Assets

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognized in the Statement of Profit and Loss when the asset is derecognized.

2.5 Accounting for Research & Development

- a) Revenue Expenditure is shown under Primary Head of Accounts with the total of such expenditure being disclosed in the Notes.
- b) Capital expenditure relating to research & development is treated in the same way as other fixed assets.

2.6 Impairment of Non - Financial Assets

An assessment is made at each Balance Sheet date to determine whether there is an indication of impairment of the carrying amount of the fixed assets. If any indication exists, an asset's recoverable amount is estimated. An impairment loss is recognised whenever the carrying amount of the asset exceeds the recoverable amount.

The recoverable amount of an asset or a cash-generating unit is the higher of its fair value less costs to sell and its value in use.

Value in use is the present value of the future cash flows expected to be derived from an asset or cash-generating unit using an appropriate discount factor.

Notes forming part of Consolidated Financial Statements for the year ended March 31, 2023

2.7 Investment Property

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the group, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable, borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the group and the cost of the item can be measured reliably.

When part of an investment property is replaced, the carrying amount of the replaced part is derecognised. Additionally, when a property given on rent is vacated and the managements intention is to use the vacated portion for the purpose of its own business needs, Investment Properties are reclassified as Buildings.

Investment properties are depreciated using the straight-line method over their estimated useful lives which is consistent with the useful lives followed for depreciating Property, Plant and Equipment.

2.8 Leases

The Group as a lessee

The Group considers whether a contract is, or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'. To apply this definition, the Group assesses whether the contract meets three key evaluations which are whether:

- the contract contains an identified asset, which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to the Group
- the Group has the right to obtain substantially all of the economic benefits from use of the identified asset throughout the period of use, considering its rights within the defined scope of the contract
- The Group has the right to direct the use of the identified asset throughout the period of use.

Measurement and recognition of Leases as a Lessee

At lease commencement date, the Group recognizes a right-of-use asset and a lease liability on the balance sheet. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Group, an estimate of any costs to dismantle and remove the asset at the end of the lease, and any lease payments made in advance of the lease commencement date (net of any incentives received).

The Group depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Group also assesses the right-of-use asset for impairment when any indicators exist.

At the commencement date, the Group measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Group's incremental borrowing rate. Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed), variable payments based on an index or rate, amounts expected to be payable under a residual value guarantee and payments arising from options reasonably certain to be exercised.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments. When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

The Group has elected to account for short-term leases and leases of low-value assets i.e. value of leased asset which is less than ₹ 350000 using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognised as an expense in profit or loss on a straight-line basis over the lease term. On the statement of financial position, right-of-use assets have been included in property, plant and equipment and lease liabilities have been included in trade and other payables.

The Group as a Lessor

As a lessor the Group classifies its leases as either operating or finance leases. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of the underlying asset, and classified as an operating lease if it does not.

2.9 Financial Instruments

A Financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Notes forming part of Consolidated Financial Statements for the year ended March 31, 2023

Initial recognition and measurement

Financial assets and financial liabilities are recognized when the Group becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted by transactions costs, except for those carried at fair value through profit or loss which are measured initially at fair value. **However, trade receivables that do not contain a significant financing component are measured at transaction price**. Subsequent measurement of financial assets and financial liabilities is described below.

Classification and subsequent measurement of financial assets

For the purpose of subsequent measurement, financial assets are classified into the following categories upon initial recognition:

- Amortized cost
- Financial assets at fair value through profit or loss (FVTPL)
- Financial assets at fair value through other comprehensive income (FVOCI), if required
- Investments in equity shares of subsidiaries (carried at cost in accordance with Ind AS 27 read with Ind AS 101).

All financial assets except for those at FVTPL are subject to review for impairment at least at each reporting date to identify whether there is any objective evidence that a financial asset or a group of financial assets is impaired. Different criteria to determine impairment are applied to each category of financial assets, which are described below.

Amortized cost

A financial asset is measured at amortized cost using Effective Interest Rate (EIR) if both of the following conditions are met:

- a) the financial asset is held within a business model whose objective is to hold financial assets to collect contractual cash flows; and
- b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A loss allowance for expected credit losses is recognised on financial assets carried at amortised cost. Expected loss on individually significant receivables are considered for impairment when they are past due and based on Company's historical counterparty default rates and forecast of macro-economic factors. Receivables that are not considered to be individually significant are segmented by reference to the industry and region of the counterparty and other shared credit risk characteristics to evaluate the expected credit loss. The expected credit loss estimate is then based on recent historical counterparty default rates for each identified segment. The Company has a diversified portfolio of trade receivables from its different segments. Every business segment of the Company has calculated provision using a single loss rate for its receivables using its own historical trends and the nature of its receivables. There are no universal expected loss percentages for the Company as a whole. The Company generally considers its receivables as impaired when they are 3 years past due. Considering the historical trends and market information, the Company estimates that the provision computed on its trade receivables is not materially different from the amount computed using expected credit loss method prescribed under Ind AS 109. Since the amount of provision is not material for the Company as a whole, no disclosures have been given in respect of expected credit losses.

Derivative financial instruments are carried at FVTPL.

Modification of cash flows

When the contractual cash flows of a financial asset are renegotiated or otherwise modified, and the renegotiation or modification does not result in derecognition of that financial asset, the Group recalculates the gross carrying amount of the financial asset and recognizes a modification gain or loss in profit or loss. The gross carrying amount of the financial asset shall be recalculated as the present value of the renegotiated or modified contractual cash flows that are discounted at the financial asset's original effective interest rate. Any costs or fees incurred adjust the carrying amount of the modified financial asset and are amortized over the remaining term of the modified financial asset.

Financial assets at FVTPL

Financial assets at FVTPL include financial assets that either do not meet the criteria for amortized cost classification or are equity instruments held for trading or that meet certain conditions and are designated at FVTPL upon initial recognition. All derivative financial instruments also fall into this category, except for those designated and effective as hedging instruments, for which the hedge accounting requirements may apply. Assets in this category are measured at fair value with gains or losses recognized in profit or loss. The fair values of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

Notes forming part of Consolidated Financial Statements for the year ended March 31, 2023

De-recognition of financial assets

De-recognition of financial assets due to a substantial modification of terms and conditions

The Group derecognizes a financial asset, such as a loan to a customer, when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new loan, with the difference recognized as a derecognition gain or loss, to the extent that an impairment loss has not already been recorded.

De-recognition of financial assets other than due to substantial modification

Financial assets (or where applicable, a part of financial asset or part of a group of similar financial assets) are derecognized (i.e. removed from the Group's balance sheet) when the contractual rights to receive the cash flows from the financial asset have expired, or when the financial asset and substantially all the risks and rewards are transferred. The Group also derecognizes the financial asset if it has both transferred the financial asset and the transfer qualifies for derecognition.

Classification and subsequent measurement of financial liabilities

Financial liabilities are measured subsequently at amortized cost using the effective interest method, except for financial liabilities held for trading or designated at FVTPL, that are carried subsequently at fair value with gains or losses recognized in profit or loss.

Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or canceled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

2.10 Impairment of Financial Assets

In respect of impairment of its financial assets, the Group assesses if the credit risk on those financial assets has increased significantly since initial recognition.

To make that assessment, the Group compares the risk of a default occurring on the financial asset as at the balance sheet date with the risk of a default occurring on the financial asset as at the date of initial recognition. The Group also considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition. The Group assumes that the credit risk on a financial asset has not increased significantly since initial recognition if the financial asset is determined to have low credit risk at the balance sheet date.

Write-offs

Financial assets are written off either partially or in their entirety only when the Group has stopped pursuing the recovery.

2.11 Inventories

Inventories are valued at lower of cost or net realisable value. For this purpose, the basis of ascertainment of cost of the different types of inventories is as under –

- a) Raw materials & trading goods, stores & spare parts and materials for turnkey projects on the basis of weighted average cost.
- b) Work-in-progress on the basis of weighted average cost of raw materials and conversion cost up to the relative stage of completion where it can be reliably estimated.
- c) Finished goods on the basis of weighted average cost of raw materials, conversion cost and other related costs.
- d) Loose Tools are written-off over the economic life except items costing upto ₹ 10000 which are charged off in the year of issue.

2.12 Cash and Cash Equivalents

Cash and cash equivalents comprise cash on hand, balance lying with the banks under current account and demand deposits, together with other short-term, highly liquid investments (original maturity less than three months) that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value. Cash flow statement is reported using indirect method as per Ind AS 7.

Notes forming part of Consolidated Financial Statements for the year ended March 31, 2023

2.13 Borrowing costs

Borrowing costs consist of interest and other costs that the Group incurred in connection with the borrowing of funds. Borrowing costs that are directly attributable to the acquisition and/ or construction of a qualifying asset, till the time such a qualifying asset becomes ready for its intended use sale, are capitalized. A qualifying asset is one that necessarily takes a substantial period to get ready for its intended use.

All other borrowing costs are charged to the Statement of Profit and Loss on an accrual basis as per the effective interest rate method.

2.14 Employee Benefit

Short-term employee benefits

Short-term employee benefits including salaries, short term compensated absences (such as a paid annual leave) where the absences are expected to occur within twelve months after the end of the period in which the employees render the related service, profit sharing and bonuses payable within twelve months after the end of the period in which the employees render the related services and non-monetary benefits for current employees are estimated and measured on an undiscounted basis.

Post-employment benefit plans are classified into defined benefits plans and defined contribution plans as under:

Defined contribution plan

A defined contribution plan is a plan under which the Group pays fixed contributions in respect of the employees into a separate fund. The Group has no legal or constructive obligations to pay further contributions after its payment of the fixed contribution. The contributions made by the Group towards defined contribution plans are charged to the profit or loss in the period to which the contributions relate.

Defined benefit plan

The Group has an obligation towards gratuity, Post-Retirement Medical Facility (PRMF) and Other Defined Retirement Benefit (ODRB) which are being considered as defined benefit plans covering eligible employees. Under the defined benefit plans, the amount that an employee will receive on retirement is defined by reference to the employee's length of service, final salary, and other defined parameters. The legal obligation for any benefits remains with the Group, even if plan assets for funding the defined benefit plan have been set aside.

The Group's obligation towards defined benefit plans is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. The liability recognized in the statement of financial position for defined benefit plans is the present value of the Defined Benefit Obligation (DBO) at the reporting date less the fair value of plan assets. Management estimates the DBO annually with the assistance of independent actuaries.

Actuarial gains/losses resulting from re-measurements of the liability/asset are included in Other Comprehensive Income. Changes in present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in profit or loss as past service cost.

Other long-term employee benefits

Liability in respect of compensated absences becoming due or expected to be availed more than one-year after the balance sheet date is estimated on the basis of actuarial valuation performed by an independent actuary using the projected unit credit method.

Actuarial gains and losses arising from past experience and changes in actuarial assumptions are charged to statement of profit and loss in the period in which such gains or losses are determined.

Loan to employees at concessional rate

Loans given to employees at concessional rate are initially recognized at fair value and subsequently measured at amortised cost. The difference between the initial fair value of such loans and transaction value is recognised as deferred employee cost, which is amortised on a straight-line basis over the expected remaining period of the Loan. In case of change in expected remaining period of the Loan, the unamortised deferred employee cost on the date of change is amortised over the updated expected remaining period of the loan on a prospective basis.

Notes forming part of Consolidated Financial Statements for the year ended March 31, 2023

2.15 Foreign currency translation

Foreign currency transactions and balances

Foreign currency transactions are translated into the functional currency of the Group using the exchange rates prevailing on the date of the transaction. The consolidated financial statements are presented in Indian rupee (INR), which is Group's functional and presentation currency.

Foreign exchange gains and losses resulting from the settlement of such transactions and the re-measurement of monetary items denominated in foreign currency at period-end exchange rates are recognized in the Statement of Profit or Loss. However, for the long-term monetary items recognized in the Consolidated Financial Statements before April 01, 2018, such gains and losses are accumulated in a "Foreign Currency Monetary Item Translation Difference Account" and amortized over the balance period of such long-term monetary item, by recognition as income or expense in each of such periods.

Non-monetary items are not retranslated at period-end and are measured at historical cost (translated using the exchange rates at the transaction date).

Group companies

The results and financial position of foreign operations that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- Assets and liabilities are translated at the closing rate at the date of that balance sheet
- Income and expenses are translated at average exchange rates, and
- All resulting exchange differences are recognised in other comprehensive income.

2.16 Government grants

- a) Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the group will comply with all attached conditions.
- b) Government grants relating to income are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.
- c) Government grants relating to the purchase of property, plant and equipment (other than specified Assets) are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented within other income.

Treatment of Grant / Subsidy

- a) Revenue grant/subsidy in respect of research & development expenditure is set off against respective expenditure.
- b) Capital grant/subsidy against specific fixed assets is set off against the cost of those fixed assets.
- c) When grant/ subsidy is received as compensation for extra cost associated with the establishment of manufacturing units or cannot be related otherwise to any particular fixed assets the grant/subsidy so received is credited to capital reserve. On expiry of the stipulated period set out in the scheme of grant/subsidy the same is transferred from capital reserve to general reserve.
- d) Revenue grant in respect of organisation of certain events is shown under Sundry Income and the related expenses there against under normal heads of expenditure.

2.17 Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

The board of directors assesses the financial performance and position of the group, and makes strategic decisions and have identified business segment as its primary segment.

2.18 Material Prior Period Items

Material prior period items which arise in the current period as a result of error or omission in the preparation of prior period's financial statement are corrected retrospectively in the first set of financial statements approved for issue after their detection by:

- a) restating the comparative amounts for the prior period(s) presented in which the error occurred; or
- b) if the error occurred before the earliest prior period presented, restating the opening balances of assets, liabilities and equity for the earliest prior period presented.

Notes forming part of Consolidated Financial Statements for the year ended March 31, 2023

- c) Any items exceeding rupees twenty-five lacs (₹ 25 Lacs) shall be considered as material prior period item.
- d) Retrospective restatement shall be done except to the extent that it is impracticable to determine either the period specific effects or the cumulative effect of the error. When it is impracticable to determine the period specific effects of an error on comparative information for one or more prior periods presented, the group shall restate the opening balances of assets, liabilities and equity for the earliest prior for which retrospective restatement is practicable (which may be the current period).

2.19 Provisions, Contingent Liabilities, and Contingent Assets

Provisions are recognized when the Group has a present legal or constructive obligation as a result of a past event; it is probable that an outflow of economic resources will be required from the Group and amounts can be estimated reliably. Timing or amount of the outflow may still be uncertain. Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the reporting date, including the risks and uncertainties associated with the present obligation. Provisions are discounted to their present values, where the time value of money is material.

A contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the Group or
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

In those cases, where the outflow of economic resources as a result of present obligations is considered improbable or remote, no liability is recognized or disclosure is made.

Any reimbursement that the Group can be virtually certain to collect from a third party concerning the obligation (such as from insurance) is recognized as a separate asset. However, this asset may not exceed the amount of the related provision.

Contingent assets are not recognized. However, when the inflow of economic benefits is probable, the related asset is disclosed.

2.20 Taxation

Tax expense recognized in profit or loss comprises the sum of deferred tax and current tax. It is recognized in Statement of Profit and Loss, except when it relates to an item that is recognised in OCI or directly in equity, in which case, the tax is also recognised in OCI or directly in equity.

Current tax is determined as the tax payable in respect of taxable income for the year, using tax rates enacted or substantively enacted and as applicable at the reporting date, and any adjustments to tax payable in respect of previous years. Current tax and liabilities are off set to the extent it is legally enforceable.

Deferred taxes are calculated using the liability method on temporary differences between the carrying amounts of assets and liabilities and their tax bases. However, deferred tax is not provided on the initial recognition of an asset or liability unless the related transaction is a business combination or affects tax or accounting profit. Deferred tax assets and liabilities are calculated, without discounting, at tax rates that are expected to apply to their respective period of realization, provided those rates are enacted or substantively enacted by the end of the reporting period. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by same tax authority.

Deferred tax asset ('DTA') is recognized for all deductible temporary differences, carry forward of unused tax credit and unused tax losses, to the extent that it is probable that taxable profit will be available against which deductible temporary difference, and the carry forward of unused tax credits and unused tax losses can be utilized or to the extent of taxable temporary differences except:

- Where the DTA relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination; and at the time of the transaction, affects neither accounting profit nor taxable profit or loss.
- In respect of deductible temporary differences arising from investments in subsidiaries, branches and associates, and interests in joint arrangements, to the extent that, and only to the extent that, it is probable that the temporary difference will reverse in the foreseeable future; and taxable profit will be available against which the temporary difference can be utilized.

This is assessed based on the Group's forecast of future operating results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss or credit.

Notes forming part of Consolidated Financial Statements for the year ended March 31, 2023

Changes in deferred tax assets or liabilities are recognised as a component of tax income or expense in profit or loss, except where they relate to items that are recognized in other comprehensive income or directly in equity, in which case the related deferred tax is also recognized in other comprehensive income or equity, respectively.

Deferred tax liabilities are not recognised for temporary differences between the carrying amount and tax bases of investments in subsidiaries, branches and associates and interest in joint arrangements where the group is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

2.21 Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equities shares outstanding during the period.

To calculate diluted earnings per share, the net profit or loss (interest and other finance cost associated) for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares, except in case where results are anti-dilutive.

3. Significant management judgment in applying accounting policies and estimation of uncertainty

The preparation of the Group's financial statements requires management to make judgments, estimates, and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the related disclosures. Actual results may differ from these estimates.

Significant Judgements

Evaluation of indicators for impairment of assets – The evaluation of the applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

Significant estimates

Fair value measurements – Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument. In estimating the fair value of an asset or a liability, the Group uses market-observable data to the extent it is available. In case of non-availability of market-observable data, Level 2 & Level 3 hierarchy is used for fair valuation.

Income Taxes – Significant estimates are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions and also in respect of expected future profitability to assess deferred tax asset.

Recoverability of Advances/Receivables/Investments

At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit loss on outstanding receivables, advances and investments.

47 Financial Risk Management

i) Risk Management

The Group's activities expose it to Market risk, Liquidity risk and Credit risk. This note explains the sources of risk which the group is exposed to and how the group manages the risk and the related impact in the Financial Statements.

Risk	Exposure arising from	Measurement	Management
Credit risk	Trade Receivables, Cash and cash equivalents, derivative financial instruments, financial assets measured at amortised cost	Ageing analysis	Keeping surplus cash only in the form of bank deposits, diversification of asset base, monitoring of credit limits and getting collaterals, wherever feasible. Periodic review/ monitoring of trade receivables
Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	Periodic review of cash flow forecasts
Market risk - foreign exchange	Recognised financial assets and liabilities not denominated in Indian rupee (INR)	Cash flow forecasting and monitoring of forex rates on regular basis	Review of cash flow forecasts and hedging through forward contracts

The group's risk management other than in respect of Trade Receivables is carried out by a corporate department under policies approved in-principle by the board of directors. The policies include principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk and investment of surplus funds. Group's risk in respect of trade receivables is managed by the Chief Operating Officer of the respective Strategic Business Units of Balmer Lawrie.

A) Credit Risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to credit risk is primarily from trade receivables and other receivables. Receivables which are typically unsecured and are derived from revenue earned from customers which is predominantly outstanding from sales to Government departments and public sector entities whose risk of default has been very low in the past. In case of other trade receivables, the credit risk has been managed based on continuous monitoring of credit worthiness of customers, ability to repay and their past track record.

Similarly all Group companies closely monitor their Trade Receivables which includes tracking the credit worthiness of the customers, ability to pay, default rates, past history etc. Accordingly expected credit loss has also been computed and accounted for by them.

Provisions

For Receivables

There are no universal expected loss percentages for the Group as a whole. The Group generally considers its receivables as impaired when they are 3 years past due. Considering the historical trends and market information, the Group estimates that the provision computed on its trade receivables is not materially different from the amount computed using expected credit loss method prescribed under Ind AS 109. Since the amount of provision is not material for the Group as a whole, no disclosures have been given in respect of expected credit losses.

For other Financial Assets

Deposits - represent amounts lying with customers mainly government and public sector undertakings on account of security deposits, earnest money deposits and retention money given as per contractual terms. Based on past records the risk of default is minimal.

Cash & Cash Equivalents - represent cash in hand and balances lying in current accounts with various consortium banks who have high credit ratings

Other Bank balances - mainly represent fixed deposits having maturities up to one year and includes accrued interest on such deposits. These deposits have been taken with various public and private sector banks having the high credit rating.

B) Liquidity Risk

Liquidity Risk arises from borrowings and other Liabilities.

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. Due to the nature of the business, the group maintains flexibility in funding by maintaining availability under committed facilities. Management monitors rolling forecasts of the Group's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Group takes into account the liquidity of the market in which the entities operate. In addition, the Group's liquidity management policy involves considering the level of liquid assets necessary to meet these, monitoring Balance Sheet liquidity ratios against internal and external regulatory requirements and maintaining short term debt financing plans.

Notes forming part of Consolidated Financial Statements for the year ended March 31, 2023

(All amounts in rupee lakhs, unless stated otherwise)

The Group does not foresee any problems in discharging their Liabilities towards Trade Payables and other Current Liabilities as and when they fall due.

C) Market Risk

Market risk arises due to change in foreign exchange rates or interest rates.

1) Interest Rate Risk

The Group is exposed to interest rate risk to the extent of its investments in fixed deposits with banks. The Group including one of the JV's has invested in Preference Share Capital of another joint venture company, Transafe Services Limited which has been entirely provided for in the books of the Group company on account of total erosion of Net Worth of the JV and hence no further income is being accrued on this account. The Group as a whole has a very insignificant borrowing on which interest is payable and it does not foresee any risk in its repayment.

2) Foreign currency risk

The Group is exposed to foreign exchange risk arising from net foreign currency payables, primarily with respect to the US Dollar, GBP and Euro. Foreign exchange risk arises from recognised assets and liabilities denominated in a currency that is not the Group's functional currency. The group as per its overall strategy uses forward contracts to mitigate its risks associated with fluctuations in foreign currency and interest rates on borrowings and such contracts are not designated as hedges under Ind AS 109. The Group does not use forward contracts for speculative purposes. The group is also exposed to foreign exchange risk arising from net foreign currency receivables on account of dividend and other fees from its foreign Subsidiaries and Associates, primarily with respect to the US Dollar and AED.

Some group companies like Avi-oil significantly import raw materials and is exposed to foreign exchange risk primarily with USD & Euro which is not hedged. Similarly BLVL has business transactions involving several currencies exposing it to foreign currency risk arising from foreign currency receivables and payables which it manages by entering into forward contracts.

48 Capital Management

The Group's capital management objectives are

- to ensure the Group's ability to continue as a Going Concern
- to provide an adequate return to shareholders

The Group monitors Capital on the basis of the carrying amount of Equity less Cash and Cash Equivalents as presented on the face of Balance Sheet.

Management assesses the Group's capital requirements in order to maintain an efficient overall financing structure while avoiding excessive leverage. This takes into account the subordination levels of the Group's various classes of debt. The Group manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

However, since the investments have been impaired and loan balance written back by BLVL in its book during the previous year 21-22, the impact is Nil for the Group and no further actions are required by the Group.

The share of the impact in consolidated financial statements is Rs 33.65 crores. (vi) Extension and termination options

The Group has several lease contracts that include extension and termination options which are used for regular operations of its business. These options are negotiated by management to provide flexibility in managing the Group's business needs. Management exercises significant judgement in determining whether these extension and termination options are reasonably certain to be exercised.

In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated). The assessment is reviewed if a significant event or a significant change in circumstances occurs which affects this assessment and that is within the control of the lessee.
