Cracker ban SOP issued in Delhi Fine up to ₹1 lakh or a month in prison for violators

MM BUREAU
New Delhi/November 10
The Delhi government on Monday released guidelines for enforcement agencies to implement the blanket ban on all kinds of firecrackers this Diwali.

The guideline document directs the agencies to spread enforcement teams across Delhi, penalise violators and prepare a daily reporting system with focus on those who were granted licences for the sale of green crackers before the ban was imposed - with an objective to identify discrepancies and illegal sales, if any.

The guidelines were issued by environment minister Gopal Rai, who on Monday convened a meeting with officials of the environment department, revenue department and police. These agencies, along with the municipal

corporations, will be involved in the enforcement of the ban in different roles, government officials said.

Rai said after the meeting, "If anyone violates the ban on firecracker bursting, they will be penalised under the Air Act. I urge every resident of Delhi to follow the ban on firecrackers... Earlier the Delhi government had allowed green crackers but looking at the increasing number of Covid-19 cases and the pollution levels, the Delhi government decided to ban all kinds of firecrackers."

Green crackers are said to contain fewer polluting substances as compared to traditional ones. Last year, under the Supreme Court's directions, the Delhi government had allowed the sale of only green crackers and set a window of 8 pm to 10 pm for burning them during Diwali.

This year's ban on the sale, purchase, transport and burning of all kinds of firecrackers, will be in effect till November 30 midnight. Violation can lead to a penalty of up to Rs 1 lakh or a jail term that can extend up to 1 month.

The guideline document, which HT has seen, said: "The city of Delhi is reeling under a third peak of outbreak of Covid-19 and large-scale celebrations by bursting of firecrackers will result not only in agglomeration of

people, in violation of social distancing norms, but also would result in high level of air pollution, leading to serious health issues in Delhi... It is a matter of fact that bursting of firecrackers would cause extensive air

pollution and releases metal particles and toxic gases which would form one of the main sources of air pollution particularly when AQI is already reeling under 'severe' category."

On Monday, the air quality in Delhi remained in the "severe" category for the fifth consecutive day, with an AQI of 477 on a scale of 500.

Rai mentioned the National Green Tribunal's (NGT) total ban on the sale and use of firecrackers in Delhi-NCR from the midnight of November 9 to November 30 midnight. The NGT order

said the ban will be applicable in cities and towns where the air quality is in the "poor" category.

Under the standard operating procedure (SOP) in the guideline document, the Delhi revenue department and police have been directed to send patrol teams across Delhi to enforce the ban, involve resident welfare associations (RWA) and non-government organisations (NGO) and use police vans for announcements against burning of firecrackers in all localities. "Delhi Police (directed) to lodge FIR against violators," said the document.

The joint commissioner of Delhi Police's Licensing department has been directed to check on the inventory of traders who were granted licences to sell green firecrackers before the ban was imposed, to ensure no illegal stocking, possession and sale take place.

"We have already been enforcing the complete ban on sale and use of firecrackers in Delhi. So far, we have recovered more than 792 kilograms of crackers and arrested 12 persons in as many cases. Apart from that eight cases have been registered for illegal bursting.

Delhi court orders FIR against gurdwara committee head : Allegations 'serious in Nature'

MM BUREAU
New Delhi/November 10
A Delhi court on November 7 directed the registration of an FIR against Delhi Sikh Gurdwara Management Committee (DSGMC) president Manjinder Singh Sirsa and other unknown persons in the agency for the misappropriation of funds while Sirsa was the general secretary. The court said that the allegations levelled against Sirsa and other members of the DSGMC are "serious in nature".

Additional chief metropolitan magistrate Dhirendra Rana said that the bills submitted to the court do not bear the signatures of anyone from the DSGMC. The judge also said that the role of the then president also requires investigation to check why he had claimed payment on such bills.

It is a matter of investigation as to who

approved these bills and how, the court said, adding the bills "are looking fictitious prima facie", while directing the Deputy Commissioner of Police (DCP), Economics Offences Wing (EOW), to look into the matter and give the court a copy of the FIR on the next date of hearing, i.e. November 21.

The court's order came after a Sikh devotee, who is also a stakeholder in the funds

of DSGMC. While addressing a press conference on Monday, AAP leader Jarnail Singh said, "It hurts to see the insult of the treasury of the Gurdwara because whenever a devotee puts money in the Gurdwara treasury, they expect that the money will be used for a noble cause such as langars or schools or hospitals under DSGMC. But the court order from November 7 is a living example of the misuse of the money that has been happening for the last few years."

When contacted, Sirsa said, "There are no allegations against me." The court has said that payments should be investigated to ascertain whether there are proper bills available or not. The bills were approved by the then president, Manjinder Singh Sirsa and not by me," said Manjinder Singh GK, former

DSGMC president, denied his role and said that Sirsa was trying to mislead everyone. "The court has named Sirsa and asked for an FIR to be registered in his name. I have evidence that he had got the payments made under his signatures for creating trusts at the houses of top Akali leaders. As per the DSGMC Act 1971, that governs the working of Gurdwara committee, the general secretary is the administrative head as he is in charge of accounts, purchase and personal matters."

"Everyone wants to take political advantage of the situation, especially when the DSGMC is heading for the polls. The law will take its course." AAP MLA (Jarnail Singh) should not be too keen to comment as matter is in the jurisdiction of the court," said SAD spokesperson Daljit Singh Cheema.

Delhi chokes on season's most polluted air

Our Correspondent/New Delhi/November 10

Delhi breathed season's worst polluted air on Monday with a heavy layer of pollutants hanging over the city as a thick haze to envelop the city with experts sounding a health emergency for the vulnerable population including the elderly, children and those with comorbidities.

The average air quality index in Delhi was recorded at 477 on a scale of 500, the highest since November 3 last year, in the severe zone. This was the fifth consecutive day when Delhi's air was in the severe category. The last time that Delhi had such a long spell of polluted air in November was in 2016 and 2017, when the air remained in the severe category for six days. However, by late evening, the AQI deteriorated to 500 at five places - Mundka, Najafgarh, Rohini, Drawka See 8, Punjabi Bagh, according to CB's Scanner app. The overall AQI in the evening stood at 491. Doctors warned that exposure to such high levels of air pollution continuously over days is linked to higher hospital admissions and people reporting with respiratory and cardiovascular complications. Weather scientists and pollution monitoring agencies have warned that an immediate relief was unlikely as meteorological conditions are not ideal for dispersal of pollutants and farm fires are raging in the neighbouring states of Punjab and Haryana. It is, however, unclear if strict measures under the Graded Response Action Plan (Grap) such as stopping all construction activities, introducing the odd-even road space rationing scheme, and stopping the entry of trucks into the city completely, will be implemented or not. At 4.16, the AQI was in the lower-end of the severe category on Sunday. Scientists on Monday said the farm fires from the neighbouring states of Punjab and Haryana are choking the national capital because of calm winds. Kuldeep Shrivastava, head of regional.
