Jayaswal Neco Industries Limited

48th Annual Report
2020-2021

Chairman's Message

Dear Valued Shareholders,

It is my honour and privilege to interact with you as the Chairman of the Board of Directors of your Company. I am pleased to present you the Annual Report for the financial year ended 31st March, 2021.

FY 2021 witnessed the emergence and widespread of COVID-19 globally. To curb the spread of the highly contagious virus, many countries imposed lockdown on non-essential industries and border restrictions, which led to supply disruption and lower demand for certain goods and services. The spread of COVID-19 pandemic brought economic activity to a near stand still in the first half of FY 21. Despite outbreak of the pandemic which hindered growth of the economy, we remain optimistic that this is the decade of opportunities.

While most of the sectors including constructions and automotive were negatively affected, some sectors such as pharmaceuticals and healthcare saw some growth. The Company through its prudent decisions remained resilient and sustainable in the challenging operating environment in FY 2021 and had achieved a relatively commendable performance in second half of FY 2021. At the same time, we are leveraging our relationships with existing customers to increase our product range and are also engaging with new customers to strengthen our presence and market share.

Moreover, the Company has entered into a Restructuring Support Agreement dated 23rd August, 2021 with various trusts declared and managed by Asset Care & Reconstruction Enterprise Limited, in its capacity as a trustee of such trusts ("Lenders") in relation to restructuring of its outstanding debt owed to the Lenders. The debt restructuring would become effective upon completion of certain condition precedents under the Restructuring Support Agreement. It is expected that the implementation of the proposed debt restructuring would improve the cash flow position of the Company, result in reduction of financial stress and will lead to realignment of debt to a sustainable level and prompt servicing of debt dues by the Company.

I take this opportunity to express my sincere gratitude to our Management team, other Employees, Workers, Bankers, Customers, Business Associates and all other Stakeholders for their unwavering trust and support and for their contribution towards the Company.

With warm regards,

BRISANT LALL SHAW
CHAIRMAN

(Rs. in Crores)

Your Company has not carried any amount to reserves and the amount of Loss after tax of Rs.558.27 Crores has been carried to Balance Sheet and adjusted against retained earnings.

2. DIVIDEND:

Due to absence of profits, your Directors regret their inability to recommend declaration of Dividend for the year to the Members of the Company.

3. MANAGEMENT DISCUSSION AND ANALYSIS:

Management Discussion and Analysis Report for the year under review giving detailed analysis of the Company's operations, segment-wise performance etc., as stipulated under Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, is given herein below and forms part of this report.

A] Financial Performance:

Your Directors wish to inform that the year under review continued to be a challenging one with multiple challenges being faced by the Company including Covid-19 pandemic which caused significant disruptions.

The performance during the year under review was depressed in the first two quarters of FY 20-21. However thereafter the company witnessed robust demand for its Iron and Steel products and increased prices in Q3 and Q4 of FY 20-21.

In the beginning of FY 20-21, the outbreak of Covid-19 virus across the globe including India forced the Governmental authorities to commence nationwide lockdown. Accordingly, with effect from 24th March, 2020 to 14th May, 2020 the Company had to shut down its Integrated Steel Plant at Siltara, Raipur, Captive Iron Ore Mine at Metabodeli and Foundry Unit at Anjora in the state of Chhattisgarh. The foundry units of the Company situated at Hingna, Nagpur and Butibori Industrial Areas, had been shut down from 21st March, 2020 and they reopened in the month of May, 2020.

Thereafter, the operations commenced with reduced capacity. It did significantly affect the business, financial performance and liquidity of the Company.

The first half of FY 20-21 was a challenging year for the Steel and the automobile industry where the Company's Alloy Steel Rolled Products are predominantly sold.

As stated above, Q1 of FY 20-21 witnessed Covid-19 induced lockdowns. The restriction on movement of people created labor shortages and closure of factories led to manufacturing levels dropping to significantly low levels. Hence, the spread of Covid-19 added to the woes of the industry that was already grappling under the slowdown effects faced by the Indian economy since FY 18-19.

Q2 of FY 20-21 witnessed easing of government restrictions, production gained pace and supply chains were gradually restored. During the quarter, the demand for vehicles remained on the lower side due to closure of schools and colleges, reopening of limited number of offices and reduced infrastructural and mining activities. The same impacted domestic sales of two and three wheelers, passenger vehicles and commercial vehicles.

Q3 of FY 20-21 witnessed a significant turnaround in the Steel and Auto sector as the wholesale as well as retail auto volumes started gaining momentum principally due to the pent-up demand, festive and wedding season. The same coupled with lower coking coal prices, increased sales volumes, selling prices and margins led to strong rebound in the Steel Sector performance.

The economy started recovering strongly since August 2020 which was much sharper than expected aided by the resumption of government projects and pent-up consumption demand.

Q4 of FY 20-21, saw an unprecedented surge in the domestic steel prices. Rolled Products Sales Volumes and Margins also improved quite significantly.

During the said year, the Company tried to optimize production and improve its plant yields through efficient use of its resources. The Company's Net Sales from operations for the year stood at Rs.3,705.05 Crores and the same has increased marginally by 2.01% than the previous year's Net Sales from operations of Rs.3,632.18 Crores despite the Covid-19 impact.

The Company focused on selling high-end value-added products (Rolled Products) with applications mainly in Auto components segment. The Company was able to record spectacular recovery and record earnings (EBIDTA). The Company's Earnings before Interest Depreciation and Tax (EBIDTA) level during the year was at Rs.616.46 Crores as against Rs. 207.98 Crores for the previous year. The Net Loss before Tax for the year stood at Rs.558.93 Crores and Net loss after Tax for the year stood at Rs.558.27 Crores.

During the year, the Net Worth of the Company remained negative to Rs. (1,362.60) Crores from Rs. (806.38) Crores in the previous year on account of the losses recorded principally due to lesser than expected contribution margin to cover the fixed costs (interest and depreciation) on the capitalized projects, for want of getting benefits of debt restructuring implemented by addressing overdue interest. On the expected implementation of debt restructuring in FY 21-22, the Net worth and financial position is expected to improve substantially.

Key Financial Ratios:

FY 2020-21 Vs FY 2019-20 – Variance over 25% with Reasoning:

Interest Coverage Ratio: The Interest Coverage Ratio has improved from 0.24 in FY20 to 0.68 in FY21 with 182.94% variance. The Ratio has improved on account of significant rise in YOY EBIDTA due to better sales realization in the sale of Rolled Products, Pig Iron, Pellet and DRI during FY21. Further, in FY21 there was increase in sale of Alloy Steel as against Metallic Sales as compared to the last year due to improved Steel Sector scenario post lifting of Covid induced lockdowns. Further rise in the selling prices of Rolled Products was also supported by lower coal and coke prices which has resulted in increased margins in Rolled Products.

Debt Equity Ratio: The Debt Equity Ratio has deteriorated and cannot be calculated due to negative Net Worth in FY20 as well as in FY21. The negative Net Worth of the Company has further deteriorated as compared to previous year on account of continued net losses principally due to overdue interest on existing loan contracts.

Operating Profit Margin (%): The Operating Profit Margin has improved from 5.49% in FY20 to 16.47% in FY21 with 199.85% variance. The improvement in Operating Profit Margin is mainly due to better sales realisation in the sale of Rolled Products, Pig Iron, Pellet and DRI during the FY21. Further, there was increase in sale of Alloy Steel as against Metallic Sales as compared to the last year due to improved Steel Sector scenario post lifting of covid induced lockdowns. Further rise in the selling prices of Rolled Products was also supported by lower coal and coke prices which has resulted in increased margins in Rolled Products.

Net Profit (Loss) Margin (%): The ratio although negative has improved significantly from (41.42%) in FY20 to (15.07%) in FY21 with 63.62% variance on account of decrease in Net Loss during the period. The Net Loss has decreased on account of better sales realisation in the sale of Rolled Products, Pig Iron, Pellet and DRI during the FY21. Further, there was increase in the sale of Alloy Steel as against Metallic Sales as compared to the last year due to improved Steel Sector scenario post lifting of Covid induced lockdowns. Further rise in the selling prices of Rolled Products was also supported by lower coal and coke prices which has resulted in increased margins in Rolled Products. Further, in FY 19-20, a one-time exceptional item of Impairment provisioning of non-operational Flat Product Division (FPD) and Bilha Fixed Assets/Capital Work in Progress was also booked for Rs.568.17 Crores as compared to Nil in FY 20-21.

Return on Net Worth: The Return on Net Worth Ratio though negative has improved significantly but cannot be calculated due to negative Net Worth in FY 19-20 as well as in FY 20-21. The Net Worth of the Company has deteriorated as compared to previous year on account of continued net losses principally due to overdue interest on existing loan contracts. However, Net Losses in FY 20-21 have decreased as compared to FY 19-20 on account of better sales realization, increase in sale of Alloy Steel as against Metallic Sales as compared to the last year. Further in FY 19-20, a one-time exceptional item of Impairment provisioning of non-operational Flat Product Division FPD and Bilha Fixed Assets/Capital Work in Progress was booked for Rs.568.17 Crores as compared to Nil in FY 20-21.

B] Share Capital:

During the year under review, the Company has not issued any shares including shares with differential voting rights as to dividend, voting or otherwise nor granted stock option or sweat equity. However, subsequent to the year under review, in accordance with the resolutions passed by the Shareholders of the Company at their meeting held on 23rd September, 2021, the Company has allotted 33,23,65,181 Equity Shares on 28th October, 2021.

C] Segment wise performance for the year under review is as under:

i) Steel Plant Division:

The Net Sales from operations during the year has increased to Rs.3,315.36 Crores as compared to Rs.3,218.31 Crores of the previous year.

The production levels of the Steel Melt Shop during 2020-21 was around 108% and the production levels of the Rolling Mills was around 113% of the previous year. The Hot Metal production level was around 77%, Pellet production level was around 101% and the Sponge Iron production level was around 95% of the previous year.

The Net Sales has increased mainly due to better sales realization in the sale of Rolled Products, Pig Iron, Pellet and DRI during the FY 20-21 and robust demand of Alloy Steel (Rolled Products).

The share of metallic sales value i.e. Pig Iron, Sponge Iron and Pellets to total Steel Plant Division sales was around 33.67% in FY 20-21 which is lower by 10.55% than that of the previous year which stood at 44.22%.

ii) Castings Division:

The Net Sales from the Foundry Division has decreased to Rs. 389.69 Crores during the year from Rs.413.87 Crores of the previous year.

Of the total Foundry Division Net Sales, the Automotive Castings Subdivision accounted for around 50%, the Centrifugal Castings Sub Division for around 29%, Engineering Castings Sub Division for around 13% and the Construction Casting Sub Division for around 8%.

**D] Restructuring of Term Loans and Debt Assignment:**

The Company underwent significant financial stress in the last six years due to cancellation of its three captive coal mines, payment of additional levy on mined coal as per the Hon'ble Supreme Court order, Covid-19 related lockdown of business units and its consequent adverse impact on the Company and various other reasons which have resulted in financial constraints to the Company, losses in the operations, wipe out of net worth and calling back of loans by few of the secured lenders.

Further, an appropriate debt restructuring scheme was approved by the super majority of the secured lenders and the Company had complied with the conditions of debt restructuring scheme and got its Master Restructuring Agreement signed by the Lenders.

However, on the directions of Reserve Bank of India (RBI), which had not agreed to the approved Debt Restructuring Scheme being fully implemented within the stipulated timeline of 13th December, 2017, State Bank of India (SBI), the erstwhile lead secured lender, had filed an application under Section 7 of the Insolvency and Bankruptcy Code, 2016, against the Company, claiming an amount of Rs. 513.83 Crores as default as on 30th November, 2017.

In view of the Status Quo order issued by the Hon'ble Supreme Court on April 16, 2018, the case had been adjourned sine die by the National Company Law Tribunal (NCLT), Mumbai in its hearing dated November 14, 2019. The matter is at pre-admission stage in NCLT and would be listed only after the Special Leave Petition (SLP) filed by the Company is disposed of by the Hon'ble Supreme Court.

As at March 31, 2021, ten out of twelve bankers of the Company have assigned their fund-based debt along with underlying financial documents together with their rights, benefits and obligations in favour of Assets Care & Reconstruction Enterprise Ltd (ACRE) acting in its capacity as trustee of various trusts. Accordingly, as on March 31, 2021, total debt assignment from ten bankers' amounts to Rs. 3563.25 Crores constituting 97.91% of the total Principal Fund Based Outstanding.

Subsequent to year end, out of the two remaining bankers (as above), one banker has assigned their fund based debt of Rs. 61.87 Crores constituting 1.70 % to ACRE and the other banker with Rs. 14.32 Crores constituting 0.39% of the total Principal Fund Based Outstanding did One Time Settlement (OTS) of its debt dues with the Company. Hence 100% of the fund-based debt of the twelve bankers amounting to Rs. 3639.44 Crores has been settled either by way of debt assignment to ACRE or OTS with the Company.

ACRE continues to support the operations of the Company. The Company has entered into a restructuring support agreement dated 23rd August, 2021 with various trusts declared and managed by Asset Care & Reconstruction Enterprise Limited, in its capacity as a trustee of such trusts ("**Lenders**") in relation to restructuring of its outstanding debt owed to the Lenders, in accordance with Section 9 of the Securitization and Reconstruction of Financial Assets and Enforcement of Securities Interest Act, 2002 ("**SARFAESI Act**"), as amended and restated from time to time ("**Restructuring Support Agreement**").

It is expected that the implementation of the proposed debt restructuring would improve the cash flow position of the Company, result in reduction of financial stress and will lead to realignment of debt to a sustainable level and prompt servicing of debt dues by the Company.

Post receipt of necessary approvals including by the equity shareholders of the Company, as part of the debt restructuring, equity shares have been issued by the Company to the Lenders and the promoters/ promoter Group at Rs. 28.80 per share (Issue Price).

Around 15.27% of the total debt exposure of the Lenders in the Company has been converted into equity shares of the Company, which have been issued and allotted to the Lenders, aggregating to 31.44% of the expanded equity share capital of the Company on a fully diluted basis.

Simultaneously, the promoters/ promoter group have been issued and allotted equity shares in the Company against their contribution of Rs.78 Crores in the Company in the following manner: (i) fresh infusion of Rs.58 Crores in cash by the promoters/ promoter group in the Company; and (ii) unsecured loan of Rs.20 crores, already extended to the Company, converted against the issue of equity shares.

The pre issue and post issue equity shareholding of the Company on a fully diluted basis is as follows: –

Category of Equity shareholders	Pre-issue equity shareholding on a fully diluted basis	Post-issue equity shareholding on a fully diluted basis
Promoter and Promoter Group	68.79%	48.03%
Public	31.21%	51.97%
-Lenders (Out of Public)	Nil	31.44%

The existing promoter and promoter group of the Company continues to retain management control of the Company post the aforesaid issuance of equity shares.

The debt restructuring would become effective upon completion of certain condition precedents under the Restructuring Support Agreement. It is yet to achieve effectiveness.

To comply with the conditions of the “Restructuring Support Agreement”, which is the principal agreement, as part of the transaction documents, the Company has also entered into a Shareholders’ Agreement (SHA) on 23rd August, 2021 along with the Promoters and Promoter Group of the Company with various trusts declared and managed by Asset Care & Reconstruction Enterprise Limited, in its capacity as a trustee of such trusts.

Apart from as stated above the other significant terms of the SHA are as follows: –

- i) Until such time as the Investor Shareholders, together with their respective Affiliates, hold, in the aggregate, at least 10% (Ten per cent) of the Equity Capital of the Company, the Investor Shareholders and their respective Affiliates shall, collectively, have the right to appoint 2 (Two) Directors on the Board (the “Nominee Directors”) of the Company.
- ii) To align the Articles of Association of the Company with the conditions stipulated in the Restructuring Support Agreement and Shareholders’ Agreement and to insert new clauses with the approval of shareholders:
 - To provide affirmative voting rights to the ACRE Trusts;
 - To provide rights of the ACRE Trusts in relation to nominee directors i.e. Until such time as the Investor Shareholders, together with their respective Affiliates, hold, in the aggregate, at least 10% (ten per cent) of the equity share capital, the ACRE Trusts and their respective affiliates shall, collectively, have the right to appoint 2 (Two) Nominee Directors on the Board;
 - The consent of the ACRE Trusts will be prerequisite for any change in the clauses of the Articles of the Company which impacts the rights of the ACRE Trusts.
 - Right of first offer in favor of the Promoters of the Company with respect to the converted equity held by the Investors

Further, the Company has taken active steps for effective and efficient operations including cost reduction. Accordingly, the Company continues to prepare its books of account on going concern basis.

E] Projects and Impairment of Non-Operational Assets:

The Company, with a view to set up end use projects for its captive coal mines (which were although subsequently deallocated), optimize costs and increase the extent of value addition in the long product alloy steel segment, had commenced implementation of various facilities in the State of Chhattisgarh.

All the under-implementation projects of the company had been completed in the past except the 3.0 Lacs TPA DRI Plant (Sponge Iron Plant) & its Associated Captive Power Plant at Bilaspur district in Chhattisgarh.

The said project had been put under abeyance and was decided to be put as Non-Core Asset by the erstwhile Joint Lenders' Forum (JLF) due to its commercial unviability on account of cancellation of the captive coal mines of the Company by the Honorable Supreme Court.

In the earlier years, the Directorate of Enforcement by way of two attachments had provisionally attached the Plant and Machinery under installation at Dagori Integrated Steel Plant situated at Bilha, Bilaspur (Chhattisgarh) and certain property, plant and equipment at Steel Plant Division, Siltara, Raipur to the extent of Rs.307.58 Crores for alleged misuse of coal raised from Gare Palma IV/4 coal block in Chhattisgarh.

The Adjudicating Authority had confirmed the above provisional attachments. Subsequently, the Appellate Authority stayed both the attachments on an appeal filed by the Company where the matter has been put up for hearing on January 11, 2022. The Company has a good case on merits, is likely to succeed in refuting the allegations and does not expect any material liability on the Company on this account.

As per the impairment policy, the Company has carried out an impairment test in the financial year 2019-20 of its property, plant and equipment of Flat Production Division (FPD) at Raipur and Capital Work in Progress presently being suspended at its Dagori Integrated steel plant at Bilha – Bilaspur in accordance with the Indian Accounting Standards (Ind AS) 36 – 'Impairment of Assets' and found that the carrying cost of these assets exceeds its recoverable value; therefore, an impairment loss of Rs.568.17 Crores had been recognized for the year ended 31st March, 2020 and had been recognized as Exceptional Item (appearing in the previous year figures).

F] Industry Outlook, Developments, Covid-19 Pandemic Concerns and Mitigation Efforts:

India's economic recovery strengthened in the last quarter of 2020-21 before the onset of the second wave of Covid pandemic. The country's GDP grew by 1.6% in the fourth quarter of FY 20-21 as compared to a year ago period, an improvement over the 0.5% growth in the third quarter and the negative growth of 24.4% and 7.4% in the first two quarters of FY21. The higher economic growth during Q4 FY 20-21 can be linked to the unlocking of the economy that was underway during the period.

The unlocking of the economy which was underway in the last two quarters of FY 20-21 (Oct'20-Mar'21) boosted consumption and activity across sectors. The higher economic activity in the last quarter of FY 20-21 was broad-based across sectors. Consumption (private and government) and investments too witnessed an improvement in the last quarter of FY 20-21.

However, the more widespread and intense second wave of the Covid pandemic since the end of Q4 of FY 20-21 and start of FY 21-22 has been a setback to the country's nascent economic recovery.

Domestic economic growth prospects hinges on the effective control of the pandemic and relaxation of the restrictions that were put in place across the various parts of the country. At the same time there is optimism that with higher proportion of the population getting vaccinated, there could be a turnaround in the economic activity as has been witnessed in the other parts of the world.

Indian Steel industry and its associated mining and metallurgy sectors have seen a number of major investments and developments in the recent past. The India's National Steel Policy (2017), which projected crude steel production capacity to increase to 300 MT per year by 2030-31 seeks to create a globally competitive steel industry in India and to domestically meet entire demand of high-grade automotive steel, electrical steel, special steels and alloys for strategic applications.

The growth in the Indian steel sector over the years has been driven by domestic availability of raw materials such as iron ore, fines, non-coking coal, strong domestic demand and cost-effective labor.

The Country had witnessed nationwide lockdown since last week of March, 2020 due to COVID-19 pandemic outbreak.

To deal effectively with the Covid-19 pandemic, periodic instructions were issued by the Company to its workers, contractors and employees aligned with the periodic instructions issued by the Governmental authorities. Constant awareness campaign and the need and importance to adhere to them has been continuously spread amongst the workers, contractors and the employees.

By keeping in mind the health and safety of its employees, customers and the vendors, the Company strives hard to come out of the Covid-19 crisis with positive approach, patience, committed teamwork, enhancement of efficiencies, cost reduction, Governmental and stakeholders support, clearly defined objectives and meticulous roadmap for its execution.

In FY 20-21, India's production of crude steel and finished steel fell by 5.9% to 103 million tonnes and 7.3% to 95.1 million tonnes, impacted by the Covid-19 pandemic which hampered production mainly in Q1 of FY 20-21. However, the domestic steel industry made a quick recovery in the second half of FY 20-21 riding on the back of higher international steel demand and revival in domestic demand.

By Q2 of FY 20-21 the domestic crude steel production reached 96% of pre-covid levels and by Q3 of FY 20-21 the production was 7.5% higher on YOY basis. In Q4 of FY 20-21, the crude steel production increased by 7.4% on YOY basis as manufacturers ramped up output in a seasonally strong quarter.

During FY 20-21, the export of finished steel from the country was higher at 10.8 million tonnes, being higher YOY by 29.1%. The Import of finished steel at 4.8 mt was lower by 29.8% YOY making India Net exporter of finished steel during the FY 20-21.

The domestic steel consumption in FY20-21 stood at 87.96 MT, down by only 6.3% YOY despite the COVID-19 pandemic, reflecting significantly improved end-use demand in the second half of the year. The end-use demand is likely to remain strong in FY 21-22 unless impacted further by COVID-19 led further surges.

The Steel demand is expected to be supported by economic recovery, government spending and enhanced liquidity. The Union Budget for FY 21-22 has a sharp 34.5% YOY increase in allocation for Capex at 5.54 lakh crore. The budget's thrust is on infrastructure creation and manufacturing to propel the economy. Therefore, enhanced outlays for key sectors like defence services, railways, and roads, transport and highways would provide impetus to steel consumption which is expected to grow by 10-12% in FY 21-22.

An up-cycle in steel prices is expected to continue in FY 21-22. Stimulus package unveiled by various countries is expected to keep demand for steel high. Continued higher demand from China on the back of stimulus package and the country's desire to bring down production levels to reduce Co2 levels are expected to be an important factor that is expected to strengthen steel prices. Cost push from iron ore prices would remain. Demand-supply imbalance in the global market is expected to continue to present export opportunities to the domestic players.

Domestic iron ore prices are expected to gradually correct in FY 21-22, as iron ore supply improves, although expected to remain elevated till the domestic iron ore output increases to FY 20-21 levels. Additionally, once the Odisha iron ore mines ramp-up, given high premiums bid by the lessees, they are expected to pass them to the customers, thus providing a further fillip to the ore prices.

FY 21-22 coking coal prices are likely to be higher than FY 20-21 levels but unlikely to be at pre-COVID19 levels. However, the prices could remain volatile for certain months, because of the concentrated nature of the coking coal mining sector and the risks arising from natural calamity in Australia.

FY 20-21 was a year of transition for the Indian auto components industry. The announcement of an incentive-based vehicle scrappage policy, though voluntary, is expected to lead to rise in automobile sales in the country going forward, which would directly benefit the auto components industry.

G] Internal Control Systems:

The Board of Directors of the Company is responsible for ensuring that the Internal Financial Controls have been laid down properly in the Company and that such controls are adequate and operating effectively.

The Company has an Internal Control System commensurate with the size, scale and nature of its business. It's a risk focused system, analyzing and reporting to the management on the day-to-day operations of the Company.

The Internal Audit Department across locations monitors and evaluates the efficacy and adequacy of the internal control system in the Company, its compliance with the operating systems, accounting procedures, policies and rules & regulations.

On the basis of the report of the Internal Audit department, the respective department and functional head undertakes corrective action in their respective areas and thereby strengthens the controls. The Internal Audit Department presents audit observations and corrective actions thereon to the Audit Committee of the Board.

H] Industrial Relations:

Industrial Relations in all the Divisions of the Company remained cordial and harmonious. During the year, average number of persons working in the Company was around 5280.

I] Material Development in Human Resources, Programs Designed and Undertaken for Development of Human Resource:

The following measures were taken to develop Human Resources in the organization:

1. Initiatives taken by HR during Covid-19 Pandemic:

- a) The Company had arranged Vaccination camp for the employees and their families in the SPD plant premises at Raipur to protect the employees from Covid – 19.

The Annual Report on CSR activities is attached as “**Annexure A**” and forms part of this report.

4. AUDITORS' REPORT:

The Auditors Report on the financial statements of the Company for the year ended 31st March, 2021 is self - explanatory except a qualification which have been specified herein below along with Boards explanations thereto:

AUDITORS' QUALIFICATION (if any)

As mentioned in Note no. 18.10 to the Financial Statements, Non Current Borrowings include an amount of Rs.183111.16 Lakhs due to an Asset Reconstruction Company. Banks holding 97.91% (by value) of the total principal debt, equivalent to Rs. 356,324.74 Lakhs, assigned all their rights, title and interests in financial assistances granted by them to the Company in favour of Assets Care & Reconstruction Enterprise Limited, acting in its capacity as Trustee of ten different Trust (ACRE). Until the revised terms and condition will be agreed between the Company and ACRE, the arrangement with those banks are valid and as per the arrangements with those banks, the Company is required to comply with certain covenants as referred in the said note and non-compliance with these covenants may give rights to the banks/ACRE to demand repayment of the loans. As at March 31, 2021, the Company has not complied with certain covenants and they have not been provided with any confirmation from those lenders for extension of time to comply with these covenants. The Company has not classified these liabilities as current liabilities as required by Indian Accounting Standards (Ind AS) – 1 – “Presentation of Financial Statements”.

EXPLANATION TO AUDITORS' QUALIFICATION (if any)

Your Directors submit the following explanation to the above qualification of the Auditors:

The Management is of the view that the non-compliance of the loan covenants will not affect the continuity of the Company's operations and it continues to prepare its books of accounts on going concern basis. ACRE continues to support the operations of the Company. The Company has entered into a restructuring support agreement dated 23rd August, 2021 with various trusts declared and managed by Asset Care & Reconstruction Enterprise Limited, in its capacity as a trustee of such trusts (“Lenders”) in relation to restructuring of its outstanding debt owed to the Lenders, in accordance with Section 9 of the Securitization and Reconstruction of Financial Assets and Enforcement of Securities Interest Act, 2002 (“SARFAESI Act”), as amended and restated from time to time (“Restructuring Support Agreement”).

The debt restructuring would become effective upon completion of certain condition precedents under the Restructuring Support Agreement.

It is expected that the implementation of the proposed debt restructuring would improve the cash flow position of the Company, result in reduction of financial stress and will lead to realignment of debt to a sustainable level and prompt servicing of debt dues by the Company.

Hence the Company continues to classify these borrowings as non-current.

ANNEXURE – A
ANNUAL REPORT ON CORPORATE SOCIAL RESPONSIBILITY (CSR) ACTIVITIES
1. Brief outline on CSR Policy of the Company –

Corporate Social Responsibility (CSR) lies within the functioning of the Corporate operations itself, which caters to the needs of the community and the regions in which it operates. It has now been realized and accepted that the government alone would not be able to ameliorate the dilapidated condition of the weaker sections of the society. A combined endeavour is needed from all who dwell in the society including the corporates.

CSR has become a global concern. But, Jayaswal Neco Industries Limited (JNIL) has always been aware of its Corporate Social Responsibility and has been fulfilling the aspirations of the society since long. It has adopted CSR as a strategic tool for the sustainable development of the society. For JNIL, CSR is not simply investment of funds for the social cause but linking of the business activity with the social activity.

Objective and Philosophy – The key objective of the CSR policy is to frame guidelines for JNIL to adopt CSR as a part of its business process for the sustainable growth of the society, work towards elimination of all hurdles for the social inclusion of the disadvantaged group such as the poor and the disabled, work for the economic and socio-cultural growth of the communities around which the Company operates. The objective will be to build a self-sustainable habitat that surrounds the units of the Company and to provide utmost attention to the children as in their hands lies the country's future and it is for their sake that the health, education and environment get the topmost priority in our CSR policy. Our ultimate aim is to serve the community in true sense.

With the aforesaid mission, the Corporate Social Responsibility Policy of the JNIL has been meticulously framed taking into account inter-alia the following main features:

- i. To take welfare measures for the community at large so that the poorer section of the society derives the utmost benefit;
- ii. To promote education, including special education and employment enhancing vocational skills among children, women, elderly and disabled persons to widen their livelihood prospects;
- iii. To set up old age home, to participate in the drive to eradicate poverty and malnutrition, to promote preventive and curative healthcare and sanitation;
- iv. To protect and safeguard environment and maintain ecological balance.

ANNEXURE B

Particulars of Energy Conservation, Technology Absorption and Foreign Exchange Earnings and Outgo as per Section 134 (3) (m) of the Companies Act, 2013 and Rule 8 of the Companies (Accounts) Rules, 2014.

A) Conservation of Energy-

i) The steps taken or impact on conservation of energy;

1. SMS I LRF electrode Diameter reduce from 350 mm to 300 mm
 - i) In the past we used to use 350 MM Electrode. The monthly average consumption was 1.45 KG MT
 - ii) After replacing the 350 MM with 300 the monthly average consumption is 1.15 Kg/MT
 - iii) Saving is $1.45 - 1.15 = 30$ grams per MT
 - iv) Monthly average production 20,000 Mt
 - v) Monthly Electrode saving is $0.03 \times 20000 = 600$ KG
 - vi) The cost of MT of Graphite = Rs.2,25,000/-
 - vii) Saving = Rs.1,35,000/-
 - viii) Other parameters related to power consumption are under monitoring
2. Compressed air used by the Blast furnace sinter plant and power plant 01 flow measuring equipment (orifice plate and flow meter) are installed in shut down, Blast furnace area compressor efficiency and flow consumption for all different unit is being measured and under monitoring, vice versa arrangement is work under progress for the compressor house of plant

ii) the steps taken by the Company for utilizing alternate sources of energy/ optimizing the use of energy;

- In Sinter Plant Pneumatic dust conveying system installed in place of conveyor system – C 10.4 & 15.6. Closed conveying system eliminates the fugitive emission and reduced operating cost.

iii) The capital investment on energy conservation equipments;

- Orifice plate and flow meter Rs. 3.5 Lacs in Iron zone area.

B) Technology Absorption-

i) The efforts made on technology absorption and advantages achieved;

SINTER PLANT:

- In Sinter machine Suction increased from pellet car side wall due to wear and replacement of pellet car were increased. Hence a liner plate designed and fixed in all pellet car after machining all pellet cars. This improves suction in the machine.

RMHS :

- Improve availability of charging system by converting motorized actuator system in QG – 6,7,13,14 to hydraulic actuator system.

COKE OVEN:

- Coke hopper gate design has been modified & installed. Now it can be operated by a single person.

STEEL MELT SHOP-1 :(2020-21)

- LRF1 electrode diameter reduced from 350 mm to 300 mm with selection of voltage & current setting changed to save LRF power consumption & electrode consumption.
- LRF 2, New 2 alloys feeding hopper has been made to avoid manual addition which in terms save power & avoid chance of accident .
- Imported lime has been used for improvement in slag making which is helpful in secondary refining.
- 90% MgO tundish spray mass has been introduced for critical application grades to improve quality of steel.
- EAF water cooled delta fourth hole size increased & also water-cooled chute dia increased for elimination of delta leakages & chute jamming.
- EAF roof cooling inlet & outlet header rerouting for its life enhancement.

STEEL MELT SHOP – 2:(2020-21)

- Internal EMS trail taken and implemented for section size 160x160 mm² for quality improvement to avoid off corner cracks in casted product mainly for MC CHQ grades.
- Tundish turbo stopper trail taken & implemented in CCM tundish to promote inclusion floatation in tundish.
- Flying tundish trial taken & implemented for higher section size 250x250 & 340x400mm² to increase productivity by reducing seq change over time .
- EAF lining pattern has been modified to avoid Cu tiles & oxy-jet lance leakages.
- Oxy-jet no. 3 position in EAF has been changed from panel no.4 to 3 towards slag door side to avoid breakdown due to hose damaging as it was just below smoke elbow so chances of jam fall down was more.
- Hybrid porous plug has been introduced replacing random porous plug to minimize purging fail during operation.
- Ladle slide gate system has been changed from 7310 to new CS60 to minimize slide gate failure .
- 90% MgO tundish spray mass has been introduced for critical application grades to improve quality of steel .
- High Seq SEN(Sub entry nozzle) /MBS(Mono block stopper) has been implemented to increase productivity as well as for quality improvement.
- EAF hot metal launder jam cleaning area suction duct line has been made for fume exhaust for environment protection.

BAR MILL:

- Double rollers in cooling bed for avoiding scratch in smaller flats.

WIRE ROD MILL:

- Descaler nozzle modification for improving descaling
- Roll pass design modification.

BAR & STRUCTURAL MILL:

- Shifting and stabilization of rolling from BD Mill to Continuous Mill with own pass design.
- Development of new sizes of Rounds and RCS as per market requirement.
- Shifting and stabilization of Rolling of 60 to 85 Round from BM to BSM by JNIL mill operation team.
- Use of BF gas in RHF along with process oil.
- Trials of Hot Charging of billets from SMS 2 to BSM.
- In Bright Bar, 04 peeling, 02 reeling and 06 Center less Grinding machines installed with inhouse resources.

QUALITY ASSURANCE:

Technology – Auto Ultrasonic Testing (Auto UST) Machine for Internal Quality check and Magnetic Flux Leakage Test (MFLT) for Automatic Surface Quality Inspection of Bars.

Import – Auto UST from Olympus, Canada (thru Blue Star) and MFLT – Pruftechnik, Germany (thru NDTT).

Status – Auto UST is fully Operational. MFLT installation is completed and its commissioning is under process.

Benefits – Fully Automatic Inspection. Small defects unable to detect by normal Inspection can be detected. Helpful to demonstrate and obtain Customer approval. Approx. cost 9 crores for Auto UST and 3 crores for MFLT.

ii) Technology imported during the last three years reckoned from beginning of the financial year –

Details of Technology Imported	Technology Imported from	Year of Import
Auto Ultrasonic Testing (Auto UST) Machine	Olympus, Canada	2020-21
Magnetic Flux Leakage Test (MFLT)	Pruftechnik, Germany	2020-21

iii) The above technology has been fully absorbed.

iv) Expenditure incurred on Research and Development: Nil

C) Foreign Exchange Earnings and Outgo –	2020-21
	(Rs. in Lacs)
Foreign Exchange earned in terms of Actual Inflows –	2315.97

6. **Commodity Price Risk and Hedging Activities**

Fluctuation in commodity prices

Impact: The overall growth momentum and sentiments in the Indian steel industry turned quite favorable in the second half of the last financial year after recovering from the Covid-19 impact and it is expected that fluctuation in the finished rolled products prices would be within tolerance limits and the Company would be able to pass on the impact of hike in the corresponding material costs change although with a lag effect. The Company's finished rolled products are in Alloy Steel-Long Products segment which has a structured market.

The Company imports coking coal and sources iron ore and fines and non-coking coal domestically.

During the last financial year, the imported coking coal prices declined.

The Iron ore and ore fines prices had witnessed significant increase domestically.

The Indian Steel Industry expects to consolidate its momentum due to favorable international environment, revival in Auto sector demand, government reforms and policies with its announcement of large-scale public infrastructure projects, domestic sourcing of steel for government tenders, smart cities, metro rail projects etc.

The domestic steel demand and the Finished Steel prices have shown significant increase in the last financial year.

Further global factors including environmental norms, policy issues of different governments, flooding etc. play a major role in sharp volatility in coking coal prices.

Mitigation/ Hedging: The Company has augmented its facilities couple of years back by creating large value addition steelmaking capacity as well as various cost reduction projects/ schemes which are expected to enable the Company to remain competitive by producing quality finished steel at low cost.

The Company's policy is to sell its products as per the prevailing market rates and it does not enter into any price hedging arrangements with its customers. The Company keeps a close watch on the steel prices to gauge its impact on its earnings.

The Company actively participates in price negotiation for its Alloy Steel products with its customers on periodic basis.

The Company constantly tries to scout for cheaper sources of quality iron ore and fines domestically, coking coal internationally and negotiates hard while procuring them.

For non-coking coal procurement, the Company has secured coal linkages at good prices to ensure sustained supply of quality non-coking coal.

The Risk Management Committee of the Company reviews the commodity related risks and suggests ways to reduce the risks or mitigate the effects of the risks. The Company's key focus is on cost optimization in procurement and production, improvement of yields, reduction of wastages, delivering quality product to the customer in timely manner and customer satisfaction.

7. Foreign Exchange Risk and Hedging Activities

Currency exchange rate fluctuations

Impact: The majority of the earnings of the Company is in Indian Currency as its products are mainly sold in the domestic market. The Company's exports are marginal.

On the import front, the Company imports mainly coking coal as raw material from various countries where the exchange fluctuation may have a negative / positive impact on the Company's earnings.

Mitigation/ Hedging: The Company has a robust Foreign Exchange Management Policy and it has developed various controls in its forex management framework to hedge its forex exposures by booking for forward covers to avoid unexpected forex losses, whenever required. The Company is not engaged in any forex speculation or buying derivate products.

The Risk Management Committee of the Company reviews the forex exposure and its hedging policy issues periodically and suggests various ways to the Company's business divisions for improvements and changes, if any.

8. The Company has received a Certificate from M/s. R.A Daga & Co., Practising Company Secretaries that none of the Directors on the Board of the Company have been debarred or disqualified from being appointed or continuing as Directors of Companies by the Board/Ministry of Corporate Affairs or any such statutory authority. The said certificate is attached to the Corporate Governance report.
9. There was no instance of non-acceptance of any recommendation of any committee of the Board which is mandatorily required by law or any regulations.

INDEPENDENT AUDITORS' REPORT

TO
THE MEMBERS OF JAYASWAL NECO INDUSTRIES LIMITED
Report on the Audit of the Financial Statements

Qualified Opinion

We have audited the accompanying Financial Statements of **JAYASWAL NECO INDUSTRIES LIMITED** ("the Company"), which comprise the Balance Sheet as at March 31, 2021, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and statement of Cash Flows for the year then ended and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, except for the possible effects of the matter described in the 'Basis for Qualified Opinion' para below, the aforesaid Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021 and its loss including other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Qualified Opinion

As mentioned in Note no. 18.10 to the Financial Statements, Non Current Borrowings include an amount of Rs. 183111.16 Lakhs due to an Asset Reconstruction Company. Banks holding 97.91% (by value) of the total principal debt, equivalent to Rs. 356,324.74 Lakhs, assigned all their rights, title and interests in financial assistances granted by them to the Company in favour of Assets Care & Reconstruction Enterprise Limited, acting in its capacity as Trustee of ten different Trust (ACRE). Until the revised terms and condition will be agreed between the Company and ACRE, the arrangement with those banks are valid and as per the arrangements with those banks, the Company is required to comply with certain covenants as referred in the said note and non-compliance with these covenants may give rights to the banks/ACRE to demand repayment of the loans. As at March 31, 2021, the Company has not complied with certain covenants and they have not been provided with any confirmation from those lenders for extension of time to comply with these covenants. The Company has not classified these liabilities as current liabilities as required by Indian Accounting Standards (Ind AS) – 1 – "Presentation of Financial Statements".

We conducted our audit in accordance with Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Act and the rules thereunder and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note no. 36 to the Financial Statements regarding preparation of Financial Statements of the Company on going concern basis, notwithstanding the fact that the Company continue to incurred cash losses, its net worth has been fully eroded, loans had been called back by few of the secured lenders, application has been made to National Company Law Tribunal (NCLT), Mumbai, under section 7 of the Insolvency and Bankruptcy Code, 2016 (IBC) by State Bank of India, the erstwhile lead secured lender, which has been contested by the Company, for the reasons stated in the said note. These conditions indicate the existence of a material uncertainty that may cast significant doubt on the Company's ability to continue as going concern. Banks holding 97.91% (by value) of the total principal debt, equivalent to Rs. 356,324.74 Lakhs, assigned all their rights, title and interests in financial assistances granted by them to the Company in favor of Assets Care & Reconstruction Enterprise Limited acting in its capacity as Trustee of ten different Trust (ACRE) and for the other reasons mentioned in Note no. 36 to the Financial Statements. The appropriateness of assumption of going concern is critically dependent upon the Company's ability to raise requisite finance and generate cash flows in future to meet its obligations and to restructure its borrowing with the lenders.

Our opinion is not modified in respect of this matter.

Emphasis of Matter

We draw your attention to the Note no. 2.06 to the Financial Statements, regarding the attachment of the properties of the Company to the extent of Rs. 30,758.39 Lakhs by the Directorate of Enforcement, which has been contested by the Company and presently stayed.

Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Financial Statements of the current period. These matters were addressed in the context of our audit of the Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Accordingly, it has been considered as a key matter.</p>	<p>Our audit procedure included the following :</p> <ul style="list-style-type: none"> • Assessing the procedures implemented by the Company to identify and gather the risks it is exposed to. • Obtaining an understanding of the risk analyses performed by the Company, with relating supporting documentation, and studying written statements from internal and external legal experts, where applicable. • Discussion with the management on the development in these litigations during the year. • Enquiring from the company's legal counsel (internal/external) and study the responses as received from them. • Verification that the accounting and / or disclosure as the case may be in the financial statements made by the Company is in accordance with the assessment of legal counsel / management, based on the information currently available to the Company. • Obtaining representation letter from the management on the assessment of these matters as per SA 580 (revised) – Written representations.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the management discussion & analysis and director's report included in the annual report but does not include the Financial Statements and our auditor's report thereon. The above information is expected to be made available to us after the date of this auditor's report.

Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the above other information, if we conclude that there is material misstatement therein, we are required to communicate the matter to those charged with governance.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Financial Statements that give a true and fair view of the state of affairs (financial position), loss (financial performance including other comprehensive income), cash flows and the statement of changes in equity of the Company in accordance with the accounting principles generally accepted in India, including Indian Accounting Standards ('Ind AS') prescribed under Section 133 of the Act read with relevant rules issued thereunder.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibility for the audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143 (3) of the Act, we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c. The Balance Sheet, the Statement of Profit and Loss (Including other comprehensive income), the Cash Flow Statement and the Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
 - d. In our opinion, except the matter described in the “Basis for Qualified Opinion” paragraph above, the aforesaid Financial Statements comply with the Indian Accounting Standards prescribed under Section 133 of the Act read with relevant rules thereunder;
 - e. The going concern matter described in “Material Uncertainty Related to Going Concern” paragraph above, in our opinion, may have an adverse effect on the functioning of the Company.
 - f. On the basis of the written representations received from the directors as on March 31, 2021, except from one of the ex-director who expired and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2021 from being appointed as a director in terms of Section 164 (2) of the Act.
 - g. With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in “**Annexure A**”.
 - h. With respect to the other matters to be included in the Auditor’s Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
 - i. With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its Financial Statements as referred to in Note No. 2.06, 2.07, 3.03, 3.04, 22.06, 26.01, 35 and 36 to the Financial Statements;
 - ii. The Company has made provisions, as required under the applicable law or Ind AS, for material foreseeable losses, if any, on long term contracts including derivative contracts;
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
2. As required by the Companies (Auditor’s Report) Order, 2016 (the Order) issued by the Central Government of India, in terms of Section 143(11) of the Act, we give in “**Annexure B**” hereto, a statement on the matters specified in paragraphs 3 and 4 of the Order.

“ANNEXURE A” TO THE INDEPENDENT AUDITORS’ REPORT

(Referred to in paragraph 1 (g) under ‘Report on Other Legal and Regulatory Requirements’ of our report of even date to the members of Jayaswal Neco Industries Limited on the financial statements for the year ended March 31, 2021)

Report on the Internal Financial Controls with reference to Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls with reference to financial statements of **JAYASWAL NECO INDUSTRIES LIMITED** (‘the Company’) as of March 31, 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls with reference to financial statements (‘the Guidance Note’) issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note issued by the ICAI and the Standards of Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to Financial Statements

A company’s internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

**Inherent Limitations of Internal Financial Controls with reference to Financial Statements**

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2021, based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

ANNEXURE “B” TO INDEPENDENT AUDITORS’ REPORT

(Referred to in paragraph 2 under the heading “Report on Other Legal and Regulatory Requirements” of our report of even date to the members of Jayaswal Neco Industries Limited on the Financial Statements for the year ended March 31, 2021)

- i. In respect of its fixed assets:
- a. The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets on the basis of available information.
 - b. As explained to us, the Company has physically verified certain assets, in accordance with a phased program of verification, which in our opinion is reasonable, having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such physical verification as compared with the available records.
 - c. According to the information and explanations given to us, the title deeds of immovable properties are generally in the name of the Company except in respect of 5 immovable properties at Raipur having the aggregate value of Rs. 31 lakhs in respect of which the documents are not registered in the name of the company with the concerned Government Authority and also in case of properties acquired by the entities or unit that have since been amalgamated/merged with the Company in pursuance to the scheme of amalgamation / demerger / arrangement approved by Hon’ble High Court and details of which are as under.:

(Rs. in Lakhs)

Sr. No.	Particulars of the Land and Building	Leasehold/ Freehold Land / Building	Net Block as at March 31, 2021	Remarks (give reasons for the exception)
1	4 immovable properties land at Raipur (1 agreement equitable mortgage with the lender)	Leasehold Land	1777.04	2 title deeds are in the name of Corporate Ispat Alloys Limited, from where one unit was demerged and acquired by the Company and 2 title deeds are in the name of Nagpur Alloy Castings Limited, an erstwhile Company that was amalgamated with the Company under the Companies Act, 1956.
2	7 immovable properties (land / building) at Raipur / Nagpur / Kolkata (4 agreements equitable mortgage with the lenders)	Free hold land /building	62.47	The title deeds are in the name of Jayaswal Neco Limited (earlier known as Jayaswal Chemical Private limited) erstwhile Company that was amalgamated with the Company under the Companies Act, 1956.

As informed to us, in respect of 59 immovable properties having the aggregate value of Rs. 676.45 Lakhs, the original title deeds have been deposited with the lenders as security, we have been produced photocopies of documents for those immovable properties and based on such documents, the title deeds are held in the name of the Company except 5 immovable properties as disclosed above.

- ii. In respect of its inventories:
- As explained to us, inventories have been physically verified during the year by the management, except for inventories in transit / with job worker for which management confirmation has been received. In our opinion the frequency of verification is reasonable. Discrepancies noticed on physical verification of the inventories between the physical inventories and book records were not material, having regard to the size of the operations of the Company, and the same have been properly dealt with.

- iii. In respect of loans, secured or unsecured, granted by the Company to companies, firms, Limited liability partnerships or other parties covered in the register maintained under section 189 of the Act:
- In the earlier years the Company had granted unsecured loan to one such Company and the terms and conditions on which the loan had been granted were not, prima facie, prejudicial to the interest of the Company.
 - The terms of repayment of principal and payment of interest have been stipulated and during the previous year, the principal and interest were due for payment but due to the financial crisis the party has not paid the same.
 - The amount is overdue and the Company has considered the said loan and interest receivables as doubtful and has been fully provided for.
- iv. In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of section 185 and 186 of the Act, as applicable, in respect of grant of loans, making investments and providing securities.
- v. According to the information and explanations given to us, the Company has not accepted any deposits from the public. Therefore, the provisions of clause (v) of paragraph 3 of the Order are not applicable to the Company.
- vi. We have broadly reviewed the cost records maintained by the Company pursuant to the Companies (Cost Records and Audit) Rules, 2014 prescribed by the Central Government under Section 148(1) (d) of the Act, as applicable and are of the opinion that, prima facie, the prescribed accounts and records have been maintained. We have, however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- vii. According to the information and explanations given to us in respect of statutory dues:
- The Company has generally been regular in depositing undisputed statutory dues, including Provident Fund, Employees' State Insurance, Income tax, Customs Duty, Excise Duty, Cess, Goods and Service Tax and any other statutory dues with the appropriate authorities during the year except in certain cases. According to the information and explanations given to us, no undisputed amounts payable in respect of such statutory dues were outstanding as at March 31, 2021 for a period of more than six months from the date they became payable.
 - Details of dues of Duty of Custom, Duty of Excise, Service Tax, Sales Tax and Value Added Tax aggregating to Rs. 1,400.94 Lakhs that have not been deposited on account of disputed matters pending before appropriate authorities are as under:

Nature of Dues	Statute	Period Involved	Amount	Forum where dispute is pending

Nagpur, 30th June, 2021

Notes to the Financial Statements for the year ended 31st March, 2021

NOTE: 1

A CORPORATE INFORMATION:

Jayaswal Neco Industries Limited (“the Company”) is domiciled and incorporated in India under the provisions of the Companies Act, 1956 and its shares are listed on the Bombay Stock Exchange (‘BSE’) and National Stock Exchange of India (‘NSE’). The registered office of the Company is situated at F-8, MIDC Industrial Area, Hingna Road, Nagpur - 440016, Maharashtra, India and manufacturing facilities are located in the states of Chhattisgarh and Maharashtra, in India.

The Company is engaged in manufacture and supply of pig iron, sponge iron, pellet, steel and Iron & steel castings.

The financial statements of the Company for the year ended 31st March, 2021 were approved and adopted by Board of Directors in their meeting dated 30th June, 2021.

B BASIS OF PREPARATION AND PRESENTATION OF FINANCIAL STATEMENTS:

The financial statements of the Company have been prepared on a going concern basis and to comply with the Indian Accounting Standards (Ind AS), including the rules under the relevant provisions of the Companies Act, 2013.

The financial statements have been prepared on a historical cost basis except certain financial assets and liabilities, assets held for sale and defined benefit plans measured at fair value:

Financial Statements are presented in Indian Rupees (Rs.), which is the Company’s functional and presentation currency. All amounts are rounded to the nearest lakhs and two decimals thereof, except as stated otherwise.

C SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

(I) PROPERTY, PLANT AND EQUIPMENT (PPE):

PPE are stated at cost net of recoverable taxes, less accumulated depreciation and impairment loss, if any. Such cost includes purchase price, borrowing cost and any other cost directly attributable to bringing the asset to its working condition for its intended use, the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located. Subsequent costs are included in the asset’s carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

In case of Property, Plant and Equipment, the Company has availed the carrying value as deemed cost on the date of transition i.e. 1st April, 2015.

PPE not ready for the intended use on the date of Balance Sheet are disclosed as “Capital Work-in-Progress” and expenses incurred relating to it, net of income earned during the project development stage, are disclosed as pre-operative expenses under “Capital Work-in-Progress”.

Gains or losses arising from derecognition of a PPE are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss when the asset is derecognized.

Depreciation on PPE

a) Depreciation on the PPE is provided to the extent of depreciable amount on the Straight Line Method over the useful life of the assets as prescribed in Schedule II to the Companies Act, 2013 except in respect of following assets where the useful life is different than those prescribed in Schedule II as per technical evaluation:

Particulars	Useful life considered for depreciation
Various plants at its Integrated Steel Complex and Flat product making facilities at Raipur	Over 40 years
Certain Plant and equipments including Furnace Sand Plants, Moulding Machines etc. at Automotive Casting Division (II) Nagpur.	Over 30 years

The Management believes that the useful lives as given above represent the period over which management expects to use these assets.

- b) PPE acquired under finance lease is depreciated on a straight line basis over the lease term.
- c) The leasehold land is amortized over the lease period.
- d) Depreciation on PPE which are added / disposed off during the year is provided on pro-rata basis with reference to the date of addition / deletion. Freehold land is not depreciated.
- e) The residual values, useful lives and method of depreciation of PPE are reviewed at each reporting date and adjusted prospectively, if appropriate.

(II) INTANGIBLE ASSETS:

Intangible Assets are stated at cost of acquisition net of recoverable taxes less accumulated amortization and accumulated impairment losses, if any. Such cost includes purchase price, borrowing cost and any cost directly attributable to bringing the asset to its working condition for its intended use.

In case of Intangible Assets the Company has availed the carrying value as deemed cost on the date of transition i.e. 1st April, 2015.

The Company does not have any intangible assets having indefinite life. Intangible assets are amortized on a straight line method based on useful lives estimated by the management. Technical Know-how is amortized over the useful life of the underlying plant. Softwares are amortized over a period of three years and Indefeasible Right to Use has been amortized over the period of the agreement.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

(III) MINING RIGHTS / MINE DEVELOPMENT EXPENDITURE:

Mining rights / mine development expenditure includes leases, costs incurred for acquiring / developing properties / rights up to the stage of commercial production. If the exploration activities are found to be not fruitful, the expenditure on such exploratory work included in mine development expenditure is written off in the year in which it is decided to abandon the project.

Mining rights / Mine development expenditure are depreciated over the useful life of the mine or lease period whichever is shorter.

(IV) LEASES:

The Company assesses whether a contract contains a lease, at the inception of the contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether (i) the contract involves the use of identified asset; (ii) the Company has substantially all of the economic benefits from the use of the asset through the period of lease and (iii) the Company has right to direct the use of the asset.

Company as a Lessee

The Company will recognize a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the site on which it is located, less any lease incentives received.

Certain lease arrangements include the option to extend or terminate the lease before the end of the lease term. The right-of-use assets and lease liabilities include these options when it is reasonably certain that the option will be exercised.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

The lease liability is subsequently measured at amortized cost using the effective interest method. It is re-measured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if Company changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is re-measured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Company has operating leases of premises. These lease arrangements range for a period between 11 months to 5 years and which are all cancellable leases. Most of the leases are renewable for further period on mutually agreeable terms. As at 31st March, 2021, the Company does not have any lease agreement with lock in period more than 12 months. The Company has elected not to recognize right-of-use assets and lease liabilities for short term leases that have a lease term of less than or equal to 12 months with no purchase option and assets with low value leases. The Company recognizes the lease payments associated with these leases as an expense in statement of profit and loss over the lease term on a straight-line basis. The related cash flows are classified as operating activities.

(V) IMPAIRMENT OF NON FINANCIAL ASSETS – PPE AND INTANGIBLE ASSETS:

The Company assesses at each reporting date as to whether there is any indication that any PPE and intangible assets or group of assets, called cash generating units (CGU) may be impaired. If any such indication exists the recoverable amount of an asset or CGU is estimated to determine the extent of impairment, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the CGU to which the asset belongs.

An impairment loss is recognized in the Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

The impairment loss recognized in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

(VI) INVENTORIES:

The inventories i.e. Raw Materials, Stores and Spares, Finished Goods etc. are measured at lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale. The cost of inventories comprise of all costs of purchase, costs of conversion and other costs incurred in bringing them to their respective present location and condition.

The cost of Raw Materials and Stores & Spares are determined at first-in-first-out method and weighted average method respectively. By-products are measured at net realisable value. The cost of Work-In-Progress and Finished Goods is determined on absorption costing method.

(VII) CASH AND CASH EQUIVALENTS:

Cash and cash equivalents in the balance sheet comprise cash at banks, on hand, cheques in hand, and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

(VIII) NON CURRENT ASSETS HELD FOR SALE:

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when a sale is highly probable from the date of classification, management are committed to the sale and the asset is available for immediate sale in its present condition. Non-current assets are classified as held for sale from the date these conditions are met and are measured at the lower of carrying amount and fair value less cost to sell. Any resulting impairment loss is recognized in the statement of profit and loss as a separate line item. On classification as "held for sale" the assets are no longer depreciated. Assets and liabilities classified as "held for sale" are presented separately as current items in the Balance Sheet.

(IX) FINANCIAL INSTRUMENTS:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(i) Financial Assets -Initial recognition and measurement

All financial assets are initially recognized at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets, which are not at fair value through profit or loss, are adjusted to the fair value on initial recognition. Financial assets are classified, at initial recognition, as financial assets measured at fair value or as financial assets measured at amortized cost. Purchase and sale of financial assets are recognized using trade date accounting.

(ii) Financial Assets -Subsequent measurement**a) Financial Assets carried at amortized cost (AC)**

Financial assets are measured at amortized cost if it is held within a business model whose objective is to hold asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

b) Financial Assets measured at fair value through other comprehensive income (FVTOCI)

Financial assets are measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling of financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

c) Financial Assets measured at fair value through profit and loss (FVTPL)

A financial asset which is not classified in any of the above categories is measured at FVTPL.

(iii) Financial Assets - Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e. removed from the Company's Balance Sheet) when:

- a) The rights to receive cash flows from the asset have expired, or
- b) The Company has transferred its rights to receive cash flow from the asset.

(iv) Impairment of Financial Assets

In accordance with Ind AS 109, the Company uses 'Expected Credit Loss' (ECL) model, for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL).

Expected credit losses are measured through a loss allowance at an amount equal to:

- The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or
- Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument)

For trade receivables Company applies 'simplified approach' which requires expected lifetime losses to be recognized from initial recognition of the receivables. The Company uses historical default rates to determine impairment loss on the portfolio of trade receivables. At every reporting date these historical default rates are reviewed and changes in the forward looking estimates are analysed.

For other assets, the Company uses 12 month ECL to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk full lifetime ECL is used.

(v) Financial Liabilities - Initial recognition and measurement

All financial liabilities are recognized initially at fair value, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

(vi) Financial Liabilities - Subsequent measurement

Financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

(vii) Financial Liabilities – Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another, from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit and loss.

(viii) Reclassification of Financial Assets

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognized gains, losses (including impairment gains or losses) or interest.

(ix) Offsetting of Financial Instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, to realise the asset and settle the liability simultaneously. The legally enforceable rights must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or counterparty.

(X) FAIR VALUE MEASUREMENT:

The Company measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- a) In the principal market for the asset or liability, or
- b) In the absence of a principal market, in the most advantageous market for the asset or liability.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy.

(XI) PROVISION, CONTINGENT LIABILITIES AND CONTINGENT ASSETS AND COMMITMENTS:

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event. It is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using equivalent period government securities interest rate. Unwinding of the discount is recognized in the statement of profit and loss as a finance cost. Provisions are reviewed at each balance sheet date and are adjusted to reflect the current best estimate.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Information on contingent liability is disclosed in the Notes to the Financial Statements. Contingent assets are not recognized. However, when the realisation of income is virtually certain, then the related asset is no longer a contingent asset, but it is recognized as an asset.

Decommissioning Liability

The Company records a provision for decommissioning costs towards site restoration activity related to leasehold land. The decommissioning costs are provided at the present value of future expenditure using a current pre tax rate expected to be incurred to fulfill decommissioning obligations and are recognized as part of the cost of the underlying assets. Any change in the present value of the expenditure, other than unwinding of discount on the provision, is reflected as adjustment to the provision and the corresponding assets. The change in the provision due to the unwinding of discount is recognized in the statement of Profit and Loss.

(XII) CURRENT AND NON-CURRENT CLASSIFICATION:

The Company presents assets and liabilities in statement of financial position based on current/non-current classification.

The Company has presented non-current assets and current assets, non-current liabilities and current liabilities in accordance with Schedule III, Division II of Companies Act, 2013 notified by Ministry of Corporate Affairs (MCA).

An asset is current when it is:

- a) Expected to be realised or intended to be sold or consumed in normal operating cycle.
- b) Held primarily for the purpose of trading
- c) Expected to be realised within twelve months after the reporting period, or
- d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date

All other assets are classified as non-current.

A liability is current when it is:

- a) Expected to be settled in normal operating cycle
- b) Held primarily for the purpose of trading
- c) Due to be settled within twelve months after the reporting period, or
- d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are treated as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. Deferred tax assets and liabilities are classified as non-current assets and liabilities. The Company has identified twelve months as its normal operating cycle.

(XIII) FOREIGN CURRENCY TRANSACTIONS AND TRANSLATION:

Transactions in foreign currencies are recorded at the exchange rate prevailing on the date of transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency closing rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognized in Statement of Profit and Loss except to the extent of exchange differences which are regarded as an adjustment to interest costs on foreign currency borrowings that are directly attributable to the acquisition or construction of qualifying assets, are capitalized as cost of assets.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the date of the transaction. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the exchange rates prevailing at the date when the fair value was determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognized in OCI or profit or loss are also recognized in OCI or profit or loss, respectively).

(XIV) FINANCIAL DERIVATIVES:

The Company uses derivative financial instruments such as forward currency contracts to hedge its foreign currency risks. Derivative financial instrument are initially recognized at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value at the end of each period. Any gain or loss arising from changes in the fair value of derivative is taken directly to statement of profit and loss.

(XV) REVENUE RECOGNITION:**Sale of Goods and Services**

The Company derives revenues primarily from sale of products comprising of pig iron, sponge iron, pellet, steel and Iron & steel casting.

Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration entitled in exchange for those goods or services. Generally, control is transfer upon shipment of goods to the customer or when the goods is made available to the customer, provided transfer of title to the customer occurs and the Company has not retained any significant risks of ownership or future obligations with respect to the goods shipped.

Revenue is measured at the amount of consideration which the company expects to be entitled to in exchange for transferring distinct goods or services to a customer as specified in the contract, excluding amounts collected on behalf of third parties (for example taxes and duties collected on behalf of the government). Consideration is generally due upon satisfaction of performance obligations and a receivable is recognized when it becomes unconditional.

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, it does not adjust any of the transaction prices for the time value of money.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Revenue from rendering of services is recognized over time by measuring the progress towards complete satisfaction of performance obligations at the reporting period.

Contract balances**Trade receivables**

A receivable represents the Company's right to an amount of consideration that is unconditional.

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognized when the payment is made by the customer. Contract liabilities are recognized as revenue when the Company performs under the contract.

Other Income:

Incentives on exports and other Government incentives related to operations are recognized in the statement of profit and loss after due consideration of certainty of utilization/receipt of such incentives.

Interest Income:

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Dividend

Dividend income is recognized when the right to receive dividend is established.

(XVI) EMPLOYEE BENEFITS EXPENSE:**Short Term Employee Benefits**

Short-term employee benefits are recognized as an expense in the Statement of Profit and Loss / Pre-operative expenditure of the year in which the related service is rendered.

Leave encashment being a short term benefit is accounted for using the projected unit credit method, on the basis of actuarial valuations carried out by third party actuaries at each Balance Sheet date. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to other comprehensive income in the year in which they arise.

Post-Employment Benefits**Defined Contribution Plans**

Contribution to Provident Fund, a defined contribution plan, is made in accordance with the statute, and is recognized as an expense in the year in which employees have rendered services.

Defined Benefit Plans

The cost of providing gratuity, a defined benefit plan, is determined using the Projected Unit Credit Method, on the basis of actuarial valuations carried out by third party actuaries at each Balance Sheet date. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to other comprehensive income in the period in which they arise. Other costs are accounted in statement of profit and loss.

Re-measurements of defined benefit plan in respect of post employment and other long term benefits are charged to the other comprehensive income in the year in which they occur. Re-measurements are not reclassified to statement of profit and loss in subsequent periods.

(XVII) BORROWING COSTS:

Borrowing costs specifically relating to the acquisition or construction of qualifying assets that necessarily takes a substantial period of time to get ready for its intended use are capitalized (net of income on temporary deployment of funds) as part of the cost of such assets. Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds. For general borrowing used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization is determined by applying a capitalization rate to the expenditures on that asset. The capitalization rate is the weighted average of the borrowing costs applicable to the borrowings of the Company that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs capitalized during a period does not exceed the amount of borrowing cost incurred during that period. All other borrowing costs are expensed in the period in which they occur.

(XVIII) CUSTOMS:

Liability on account of Customs Duty on Imported materials in transit or in bonded warehouse is accounted in the year in which the goods are cleared from customs.

(XIX) EARNING PER SHARE:

Basic earnings per share is computed using the net profit for the year attributable to the shareholders and weighted average number of shares outstanding during the year.

Diluted earnings per share is computed using the net profit for the year attributable to the shareholders and weighted average number of equity and potential equity shares outstanding during the year including share options, convertible preference shares and debentures, except where the result would be anti-dilutive. Potential equity shares that are converted during the year are included in the calculation of diluted earnings per share, from the beginning of the year or date of issuance of such potential equity shares, to the date of conversion.

(XX) PRELIMINARY AND ISSUE EXPENSES:

Preliminary and Issue Expenses are adjusted against the Securities Premium Account.

(XXI) TAXES ON INCOME:

Tax expense represents the sum of current tax (including income tax for earlier years) and deferred tax. Tax is recognized in the statement of profit and loss, except to the extent that it relates to items recognized directly in equity or other comprehensive income, in such cases the tax is also recognized directly in equity or in other comprehensive income. Any subsequent change in direct tax on items initially recognized in equity or other comprehensive income is also recognized in equity or other comprehensive income.

Current tax provision is computed for income calculated after considering allowances and exemptions under the provisions of the applicable Income Tax Laws. Current tax assets and current tax liabilities are off set, and presented as net.

Deferred tax is recognized on differences between the carrying amounts of assets and liabilities in the Balance sheet and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences, and deferred tax assets are generally recognized for all deductible temporary differences, carry forward tax losses and allowances to the extent that it is probable that future taxable profits will be available against which those deductible temporary differences, carry forward tax losses and allowances can be utilised. Deferred tax assets and liabilities are measured at the applicable tax rates. The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available against which the temporary differences can be utilised.

D SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS:

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

i. Depreciation / Amortization and useful lives of Property Plant and Equipment (PPE) / Intangible Assets:

PPE / intangible assets are depreciated / amortized over their estimated useful lives, after taking into account estimated residual value. Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation to be recorded during any reporting period. The useful lives and residual values are based on the Company's historical experience with similar assets and take into account anticipated technological changes. The depreciation /amortization for future periods are revised if there are significant changes from previous estimates.

ii. Revenue:

The Company's contracts with customers could include promises to transfer products and services to a customer. The Company assesses the products / services promised in a contract and identify distinct performance obligations in the contract. Identification of distinct performance obligation involves judgement to determine the deliverables and the ability of the customer to benefit independently from such deliverables.

Judgement is also required to determine the transaction price for the contract. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, price concessions and incentives. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur and is reassessed at the end of each reporting period.

iii. Decommissioning Liabilities:

The Liability for decommissioning costs is recognized when the Company has obligation to perform site restoration activity. In determining the fair value of such provision, assumptions and estimates are made in relation to discount rates, the expected cost to dismantle and remove the plant from the site and the expected timing of those costs. The expected cost to be incurred at the end of the lease term is based on the estimates provided by the internal technical experts.

iv. Tax:

The Company reviews at each balance sheet date the carrying amount of deferred tax assets. The factors used in estimates may differ from actual outcome which could lead to an adjustment to the amounts reported in the financial statements.

v. Contingencies:

Management has estimated the possible outflow of resources at the end of each annual financial year, if any, in respect of contingencies / claim / litigations against the Company as it is not possible to predict the outcome of pending matters with accuracy.

vi. Impairment of Financial Assets:

The impairment provisions for financial assets are based on assumptions about risk of default and expected cash loss. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

vii. Impairment of non-Financial Assets:

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Unit's (CGU) fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent to those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less cost of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples or other available fair value indicators.

viii. Defined Benefits Plans:

The Cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

ix. Recoverability of Trade Receivable:

Judgements are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. Factors considered include the credit rating of the counterparty, the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payment.

x. Provisions:

Provisions and liabilities are recognized in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events and the amount of cash outflow can be reliably estimated. The timing of recognition and quantification of the liability requires the application of judgement to existing facts and circumstances, which can be subject to change. Since the cash outflows can take place many years in the future, the carrying amounts of provisions and liabilities are reviewed regularly and adjusted to take account of changing facts and circumstances.

xi. Fair value measurement of Financial Instruments :

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

xii. Determination of lease term & discount rate:

Ind AS 116- "Leases" requires lessee to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes assessment on the expected lease term on lease by lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of lease and the importance of the underlying asset to the Company's operations taking into account the location of the underlying asset and the availability of the suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

2.06 In the earlier years, the Directorate of Enforcement by way of two attachments had provisionally attached the Plant and Machinery under installation at Dagori Integrated Steel Plant situated at Bilha, Bilaspur (Chhattisgarh) and certain property, plant and equipment at Steel Plant Division, Siltara, Raipur to the extent of Rs. 30758.39 Lakhs for alleged misuse of coal raised from Gare Palma IV/4 coal block in Chhattisgarh.

The Adjudicating Authority had confirmed the above provisional attachments. Subsequently, the Appellate Authority stayed both the attachments on an appeal filed by the Company where the matter has been put up for hearing on 20th July, 2021. The Company has a good case on merits, is likely to succeed in refuting the allegations and does not expect any material liability on the Company on this account.

2.07 During the previous year, after completion of investigation CBI had filed Charge-Sheet against the Company and Mr. Ramesh Jayaswal, Jt. Managing Director (JMD) alleging misrepresentation and violation of the terms and conditions of the Gare IV/4 Coal Block Allotment Letter and the executed Mining Lease.

The aforesaid action was in connection with FIR of Central Bureau of Investigation (CBI), Economic Offence Wing, New Delhi registered on 22nd May, 2014 against the Company and unknown Public Servants in connection with the allotment of Gare IV/4 Coal Block situated in the State of Chhattisgarh.

On 30th May, 2019, the Special CBI Court, New Delhi, took cognizance of the matter and issued summons against the Company and Mr. Ramesh Jayaswal – JMD. The summons were received by the Company on 11th June, 2019. The Company had been summoned for offence under section 120-B/420/406 of the Indian Penal Code (IPC), whereas Mr. Ramesh Jayaswal had been summoned for offence under section 120-B/406 of the IPC.

The Company strongly refutes all the allegations. The Company believes it has a good case on merits, is exploring all possible legal remedies and is confident that the Company and Mr Ramesh Jayaswal –JMD would be able to defend themselves before the authorities during the course of trial.

2.08 During the year active development of project of DRI and Captive Power Plant at Bilaspur, Chhattisgarh remained suspended and accordingly the Company has not capitalised Borrowing Costs as per Ind AS - 23.

2.09 In accordance with the Indian Accounting Standard (Ind AS 36) on “ Impairment of Assets”, during the year, the management carried out an exercise of identifying the assets that may have been impaired in accordance with the said Ind AS. On the basis of a review carried out by the management, there was no impairment loss on property, plant and equipment and Capital Work in Progress during the year ended 31st March, 2021.

In the Previous year, the impairment loss of Property, Plant and Equipment of Rs. 13469.59 Lakhs and Capital Work In Progress of Rs. 43347.09 Lakhs were recognised and disclosed as exceptional items.

2.10 During the previous year, the Deputy Collector Land Acquisition (General) Nagpur has compulsorily acquired the Company's land under the National Highway Act, 1956. Cost of the land is Rs. 5.68 Lakhs .

Presently, the matter is transferred to the Hon'ble Supreme Court where the interim order of the Hon'ble High Court continues to be alive.

In case of Ramdongri Mines, the State Government of Maharashtra had granted Mining Lease in favor of the Company on 17th August, 2004. The said order was challenged by an aggrieved party before the Mines Tribunal which after hearing both the parties on 5th October, 2007 was pleased to uphold the order dated 17th August, 2004 of the State Government. Subsequently, the order of Mines Tribunal was challenged before the Hon'ble Bombay High Court, Nagpur Bench, Nagpur which on 6th January, 2017 was pleased to pass interim order in favor of the company. The matter continues with the Hon'ble High Court.

On 28th March, 2021, a Proviso has been inserted in Section 10A (2) (b) of the Mines and Minerals (Development and Regulation) Act (the "Mining Act") stating that "for the cases covered under this clause including the pending cases, the right to obtain a prospecting license followed by a mining lease or a mining lease, as the case may be, shall lapse on that date.

The Company is of the view that the Company's above cases are already pending under Section 10A (2) (c) of the Mining Act and the matters are subjudice, therefore the above amendment in Section 10A (2) (b) will not have any impact on the status of the Mines.

Further, with regards to Sonadehi Mines, the Company is in the process of challenging the provisions of the amended Mining Act.

Further the amendment under the Mining Act in the second Proviso of Section 10A (2) (b) provides that "the holder of a reconnaissance permit or prospecting license whose rights lapsed under the first proviso, shall be reimbursed the expenditure incurred towards reconnaissance or prospecting operations in such a manner as may be prescribed by the Central Government"; accordingly the Company does not envisage any losses on account of the above amendment.

3.04 The Company had filed Mining Lease applications for Rowghat Iron Ore Deposit, Bastar, Chhattisgarh. The Chhattisgarh State Government (SG) had rejected the same by a common order which was challenged by the Company. The SG had filed a complaint before the Ministry of Mines which had referred the matter to the Chief Vigilance Officer (CVO), which couldn't make out any case against the Company. The revision petition of the Company was allowed and subsequently the Hon'ble Delhi High Court also confirmed the order. The Hon'ble Delhi High Court had specifically observed that the Company had successfully undertaken prospecting operations in the area.

Subsequently in 2012, SG filed a fresh complaint containing the same allegations before the Chief Vigilance Commission (CVC). The Central Bureau of Investigation (CBI) on the directions of the CVC had registered an FIR against the Company alleging certain irregularities. Post completion of the investigations by CBI, the case is subjudice. The Company doesn't expect any financial effect of the above matter under litigation.

3.05 In accordance with the Indian Accounting Standard (Ind AS)- 36 on "Impairment of Assets", the Management during the year carried out an exercise of identifying the assets that may have been impaired in respect of each cash generating unit in accordance with the said Ind AS. On the basis of this review carried out by the management, there was no impairment loss on Intangible Assets during the year ended 31st March, 2021.

* Includes provision for disputed Entry Tax and Cess on Metallurgical Coke.

26.01 During the year 2005, the Government of Chhattisgarh published the Chhattisgarh Upkar (Sansodhan) Adhinyam, 2004, according to which the Company is liable to pay energy development cess @ 10 paise per unit generated from its captive power plants. The levy of energy development cess has been disputed by the Company and the matter is pending before the Hon'ble Supreme Court of India.

The Office of the Chief Electrical Inspector, Government of Chhattisgarh, had sent demands for the energy development cess since the Hon'ble Supreme Court of India vide its interim order dated 2nd November, 2007 permitted the department to raise the bill, however it directed that no coercive steps shall be taken by the state to recover the dues till further orders.

The legislative competence of the Government of Chhattisgarh is not under challenge. The Company had been legally advised in the past that it is highly unlikely that the provision by which the State Government has imposed energy development cess will be struck down by the Hon'ble Supreme Court of India. In view of the above and as a matter of prudence, the Company has made a provision of energy development cess aggregating to Rs. 5121.84 Lakhs till 31st March, 2021.

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. In presenting the above sensitivity analysis, the present value of Defined Benefit Obligation has been calculated using the Projected Unit Credit method at the end of reporting period, which is the same as that applied in calculating the defined obligation liability recognised in the Balance Sheet.

30.04 Risk Exposures

These plans typically expose the company to Actuarial risks as Investment Risk, Interest Rate risk, Longevity risk and Salary risk.

Investment Risk	The present value of the defined benefit plan obligation is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds.
Interest Rate Risk	A decrease in the bond interest rate will increase the plan obligation; however, this will be partially offset by an increase in the return on the plan debt investments.
Longevity Risk	The present value of the defined benefit plan Obligation is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's obligation.
Salary Risk	The present value of the defined plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's obligation.

Third Party claims include :

The Company had entered into a Contract for setting up 70 TPD Oxygen Plant and its operations and maintenance with M/S Goyal MG Gases Pvt Ltd in the year 2002-03. Subsequently in the year 2015-16 dispute arose between both the parties on couple of issues and the matter was referred to the Sole Arbitrator for adjudication of dispute.

On 4th August, 2017 and corrected vide its order dated on 15th September, 2017, the Sole Arbitrator passed an Arbitral Award against the company. As per the Arbitral Award, the claims of the company were not entertained and the counter claims were allowed. The Company had challenged the Arbitral Award before the Hon'ble Delhi High Court under the Arbitration and Conciliation Act 1996. The Hon'ble High Court dismissed the appeals filed by the company vide its judgment dated 21st December, 2017 and judgement dated 5th April, 2018.

The Company believes that the entire award is contrary to public policy, is without any evidence and reasoning. Counter claims to the tune of Rs 940.88 Lakhs have been allowed. The Learned Arbitrator has allowed the payment of lease rentals and at the same time has also directed the company to hand over possession of the plant which is contrary in nature.

Considering the above described factual aspects, the company believes that it has good case on merits. Hence the Company filed Special Leave Petition (SLP) in the Hon'ble Supreme Court which granted stay on any action on the request of the Company.

As on 31st March, 2021, the Company has estimated the total amount of Arbitral award is to be around Rs. 3943.00 lakhs, out of which Rs. 800.00 Lakhs have been deposited by the Company with the Supreme Court Registry on the instructions of the Hon'ble Supreme Court and disclosed in Note No. 6. The pleadings have been completed and now the matter is expected to be listed for final hearing. No fixed listing date has been determined yet. The management is of the view that at this stage no provisioning is required against the said award.

- B** The Ministry of Coal (MOC) had invoked Bank Guarantee (BG) of Rs. 1000.00 Lakhs for delay in start of production of Moitra Coal Block, Jharkhand. The Company had challenged the BG invocation before the Hon'ble Delhi High Court, wherein vide order dated 24th August, 2015 it granted interim relief to the Company, that no coercive steps will be taken subject to Company keeping the BG alive. The matter is now listed for hearing on 24th August, 2021. The Company is confident that its case is on merits and doesn't envisage any financial impact of the above matter. In identical matters MOC has not invoked BG of other companies.
- C** Management is of the view that above litigations will not impact significantly the financial position of the Company.
- D** The Company has received Show Cause notices from the Excise department which mainly relate to demand of duty for sale of exempted goods and denial of credit on structural steel, new plants, railway receipt, bank expenses and outward freight etc. The Company has also received a Show Cause notice from the Additional Director General, DGGI, which relates to demand of service tax on amount received against the cancellation of three coal mines/block. The Company does not foresee any losses on this account.

NOTE :36 The Company underwent significant financial stress in the last six years due to cancellation of its three captive coal mines, payment of additional levy on mined coal as per the Hon'ble Supreme Court order, COVID 19 related lockdown of business units, its consequent adverse impact on the Company and various other reasons which have resulted in financial constraints to the Company, losses in the operations, wipe out of the net worth and calling back of loans by few of the secured lenders. Further, an appropriate debt restructuring scheme was approved by the super majority of the secured lenders and the Company had complied with the conditions of debt restructuring scheme and got its Master Restructuring Agreement signed by the Lenders.

However on the directions of Reserve Bank of India (RBI), which had not agreed to the approved debt restructuring scheme being fully implemented within the stipulated time line of 13th December, 2017, State Bank of India (SBI), the erstwhile lead secured lender, had filed an application under Section 7 of the Insolvency and Bankruptcy Code, 2016, against the Company claiming an amount of Rs. 51383.41 Lakhs as default as on 30th November, 2017.

In view of the Status Quo order issued by the Hon'ble Supreme Court on 16th April, 2018, the case had been adjourned sine die by the National Company Law Tribunal (NCLT), Mumbai in its hearing dated 14th November, 2019. The matter is at pre admission stage in NCLT and would be listed only after the Special Leave Petition (SLP) filed by the Company is disposed of by the Hon'ble Supreme Court.

ACRE continues to support the operations of the Company. The Company is in final stages of restructuring of its outstanding debt with its Lenders. Further the Company has taken active steps for effective and efficient operations including cost reduction. Accordingly the Company continues to prepare its books of account on going concern basis.

42.02 Fair Valuation techniques used to determine Fair Value

The Company maintains procedures to value its financial assets or financial liabilities using the best and most relevant data available. The Fair Values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The following methods and assumptions were used to estimate the Fair Values:

- i) Fair Value of Cash and Cash Equivalents, Other Bank Balances, Trade Receivable, Trade Payables, Current Loans, Current Borrowings, Deposits and other Current Financial Assets and Liabilities are approximate at their carrying amounts largely due to the short-term maturities of these instruments.
- ii) The Fair Values of Unsecured Non-current Borrowings is calculated based on discounted cash flows using a lending rate. They are classified as level 2 fair values in the fair value hierarchy due to the inclusion of observable inputs. The Fair Values of Secured Non-current Borrowings and Security Deposits are approximate at their carrying amount due to interest bearing features of these instruments.
- iii) Fair values of Investment in equity are derived from quoted market prices in active markets.

- iv) The Fair Value of the remaining financial instruments is determined using discounted cash flow analysis.
- v) The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

42.03 Fair Value Hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation techniques:-

- i) **Level 1 :-** Quoted prices / published Net Assets Value (unadjusted) in active markets for identical assets or liabilities. It includes fair value of financial instruments traded in active markets and are based on quoted market prices at the Balance Sheet date and financial instruments like mutual funds for which Net Assets Value is published by mutual fund operators at the Balance Sheet date.
- ii) **Level 2 :-** Inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices). It includes fair value of the financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on the Company specific estimates. If all significant inputs required to fair value an instrument are observable then instrument is included in level 2.
- iii) **Level 3 :-** Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs). If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

The following table provides hierarchy of the fair value measurement of Company's asset and liabilities, grouped into Level 1 (Quoted prices in active markets), Level 2 (Significant observable inputs) and Level 3 (Significant unobservable inputs) as described below:

Particulars	(Rs. in lakhs)

since the Investments under level 3 category are not material and its fair value is zero, so the disclosure for the same is not given.

NOTE: 43 Financial Risk Management - Objective and Policies

The Company is exposed to Market Risk, Credit Risk and Liquidity Risk. Risk management is carried out by the company under the policy and plan as approved by the Board of Directors. This Risk management plan defines how risks associated with the Company will be identified, analysed, and managed. It outlines how risk management activities will be performed, recorded, and monitored by the Company. The basic objective of risk management plan is to implement an integrated risk management approach to ensure all significant areas of risks are identified, understood and effectively managed, to promote a shared vision of risk management and encourage discussions on risks at all levels of the organization to provide a clear understanding of risk / benefit trade-offs, to deploy appropriate risk management methodologies and tools for use in identifying, assessing, managing and reporting on risks and to

determine the appropriate balance between cost and control of risk and deploy appropriate resources to manage / optimise key risks. The activities are developed to provide feedback to management and other interested parties (e.g. Audit committee, Board etc.) by way of action taken report. The results of these activities ensure that risk management plan is effective in the long term.

43.01 Market Risk and Sensitivity :

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprise three types of risk : Foreign Currency Rate risk, Interest Rate risk and other Price risks, such as Equity Price risk and Commodity Price risk. Financial instruments affected by market risk include Loans and Borrowings, Deposits and Investments.

The sensitivity analysis relate to the position as at 31st March 2021 and 31st March 2020.

The sensitivity analysis excludes the impact of movements in market variables on the carrying value of post-employment benefit obligations, provisions and on the non-financial assets and liabilities. The sensitivity of the relevant Statement of Profit and Loss item is the effect of the assumed changes in the respective market risks. This is based on the financial assets and financial liabilities held as at 31st March, 2021 and 31st March, 2020.

(a) Foreign Currency Exchange Risk and Sensitivity :

Foreign Currency Exchange risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in Foreign Currency Exchange rates. The Company's exposure to the risk of changes in foreign currency exchange rates relates primarily to the Company's operating activities. The Company transacts forex business primarily in USD, SEK and Euro. The Company has foreign currency trade payables, supplier Credit and trade receivables and is therefore, exposed to foreign currency exchange risk. The Company regularly reviews and evaluates exchange rate exposure arising from foreign currency transactions and follows established risk management policies and plan including use of derivatives like Foreign exchange forward contract to hedge exposure to Foreign currency exchange risk.

The following table demonstrates the sensitivity in the USD, SEK, CAD and Euro to the Indian Rupee with all other variables held constant. The impact on the Company's Loss Before Tax (LBT) due to changes in the fair values of monetary assets and liabilities is given below:

b) Interest Rate Risk and Sensitivity :

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is having non current borrowings in the form of Term Loan and Inter-corporate Deposits. Further, the Company is having current borrowings in the form of Working Capital, Inter Corporate Deposit and Suppliers Credit. There is a fixed rate of interest in case of Supplier Credit, Vehicle Loan and Inter-corporate Deposits and hence, there is no interest rate risk associated with these borrowings.

The table below illustrates the impact of a 2% increase / decrease in interest rates on interest on financial liabilities assuming that the changes occur at the reporting date and has been calculated based on risk exposure outstanding as of date. The year end balances are not necessarily representative of the average debt outstanding during the year.

Particulars	2020-21		2019-20	
	2% Increase	2% Decrease	2% Increase	2% Decrease
	- Increase in LBT	- Decrease in LBT	- Increase in LBT	- Decrease in LBT
Working Capital Facility	(1261.06)	1261.06	(1208.11)	1208.11
Term Loan from Banks and Others	(6017.82)	6017.82	(6017.92)	6017.92
(Increase) / Decrease in Loss Before Tax	(7278.88)	7278.88	(7226.03)	7226.03

The assumed movement in basis points for interest rate sensitivity analysis is based on the currently observable market environment.

c) Commodity Price Risk :

The Company's revenue is exposed to the market risk of price fluctuations related to the sale of its iron, steel and castings products. Market forces generally determine prices for the products sold by the Company. These prices may be influenced by factors such as supply and demand, production costs (including the costs of raw material inputs) and global and regional economic conditions and growth. Adverse changes in any of these factors may reduce the revenue that the Company earns from the sale of its products.

The Company prices its Iron and Steel products as per the accepted market practices.

The Company primarily purchases its raw materials in the open market from third parties. The Company is therefore subject to fluctuations in prices for the purchase of iron ore, fines, non coking and coking coal and other raw material inputs. The Company purchased substantially large part of its iron ore, fines and coal requirement from third parties in the open market during the year ended 31st March, 2021.

The Company aims to sell its products at prevailing market prices. Similarly the Company procures key raw materials like iron ore, fines and coal based at prevailing market rates , predominantly the selling prices of steel and castings and that of input raw materials move in the same direction although with a lag effect.

The following table details the Company's sensitivity to a 5% movement in the input price of Iron Ore and Coking Coal.

(Rs. in lakhs)

Particulars	2020-21		2019-20	
	5% Increase - Increase in LBT	5% Decrease - Decrease in LBT	5% Increase - Increase in LBT	5% Decrease - Decrease in LBT

Coal / Coke	(3918.79)	3918.79	(5697.50)	5697.50
(Increase) / Decrease in Loss Before Tax	(7179.01)	7179.01	(8826.66)	8826.66

43.02 Credit Risk

Credit risk is the risk that a counter party will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and other financial instruments.

a) Trade Receivables :

The Company measures the expected credit loss of trade receivables, which are subject to credit risk, based on historical trend, industry practices and the business environment in which the entity operates and adjusted for forward looking information (including COVID 19 outbreak). Loss rates are based on actual credit loss experience and past trends.

The Company has used practical expedient by computing the expected credit loss allowance for trade receivables based on provision matrix . The provision matrix has taken into account historical credit loss experience and adjusted for forward looking information. The expected credit loss allowance is based on ageing of the days the receivables are due. The impact due to Covid 19 outbreak on recoveries has started to reduce since the customers have recommenced their operations and process of recoveries has been expedited.

The following table summarizes the Gross carrying amount of the trade receivable and provision made:

(Rs. in lakhs)

Particulars	31 st March 2021		31 st March 2020	
	Gross Carrying Amount	Loss Allowance	Gross Carrying Amount	Loss Allowance
Trade Receivables	37126.97	4376.55	39297.95	4166.10
Total	37126.97	4376.55	39297.95	4166.10

The following table summarizes the changes in the Provisions made for the receivables:

(Rs. in lakhs)

Particulars	31 st March 2021	31 st March 2020
Opening Balance	4166.10	3403.56
Add : Provided during the year	869.13	762.54
Less : Reverse during the year	(658.68)	-
Closing Balance	4376.55	4166.10

No significant changes in estimation techniques or assumptions were made during the reporting year.

b) Financial Instruments and Cash Deposits :

The Company considers factors such as track record, size of the institution, market reputation and service standards to select the banks with which its balances are maintained. The Credit risk from balances with bank is managed by the Company's finance and treasury department. Investment of surplus funds are also managed by finance and treasury department. The Company does not maintain significant cash in hand. Excess balance of cash other than those required for its day to day operations is deposited into the bank.

For other financial instruments, the finance and treasury department assesses and manages credit risk based on internal assessment. Internal assessment is performed for each class of financial instrument with different characteristics.

43.03 Liquidity Risk :

Liquidity risk is the risk that the Company may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. It will encounter difficulty in raising funds to meet commitments associated with financial instruments that are settled by delivering cash or another financial asset. The Company's objective is to, at all times, maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company relies on short term borrowings and operating cash flows in the form of suppliers credit and working capital to meet its need for fund.

The Company underwent significant liquidity issues for the reasons mentioned in note no. 36, Further, ACRE continues to support the operations of the Company.
