# Delay in green clearances curbing not only new projects but expansion too, says dyestuff makers association

**FE BUREAU**  
Ahmedabad, September 15

**DESPITE REPEATED CLAIMS** related to 'ease of doing business' from Gujarat government, new industrial projects are facing unnecessary delays in availing various permissions including that of environment clearances.

Raising the issue of delay in permissions Gujarat Dyestuff Manufacturer Association (GDMA) claimed that due to delay in permissions, not only new projects but expansions of many dyestuff units have been on hold.

“We have appealed to the state government to grant all permissions related to new industrial units within the period of three months. Currently many greenfield projects including that of dyestuff are facing difficulties to start production due to delay in various permissions, especially environment related permissions,” said Yogesh Parikh, president, GDMA.

To get permission for land fill site to dispose industrial solid waste, it is mandatory to avail environment clearance certificate after public hearing from the forest & environment department. But dyestuff units are not getting permissions despite fulfilment of all condi-

tions. GDMA has demanded that to avoid such situation Gujarat Industrial Development Corporation (GIDC) should be authorized to issue notification for solid waste disposal sites after verification of land.

GDMA has also demanded for 100 acres of non-agriculture land from the state government for the purpose near the industrial areas in Vapi, Dahej, Ankleshwar, Ahmedabad and Vadodara.

According to GDMA if proper infrastructure for solid waste disposal would

be developed, not only new industrial projects but many existing units would pump in fresh investments. As a result, not only state government’s revenue would increase but a plethora of employment opportunities will also be generated, said GDMA in its representation to Gujarat Chief Minister.

The association has also demanded to reduce natural gas prices being provided to the chemical and dyestuff industry.

According to Parikh current prices are too high and if prices would reduce, local dyestuff and chemical units will be able to compete globally. Gujarat government has decided to lay a deep sea pipeline for the disposal of industrial waste water. For the purpose, the government will charge 30% of the total cost from beneficiary units. Looking at the current Covid-19 situation, this charge should be taken in instalment, he adds.

# Gujarat to set up world's 1st CNG terminal at Saurashtra region

**FE BUREAU**  
Ahmedabad, September 15

**THE GUJARAT GOVERNMENT** on Tuesday issued a letter of intent to set up the world’s first compressed natural gas (CNG) terminal at Bhavnagar port in Saurashtra region.

The state government said that a consortium consisting Foresight Group of UK, Mumbai-based Padmanabh Mafatal Group and Boskalis group of the Netherlands are authorised to develop CNG port terminal at Bhavnagar.

In the first phase the developers would invest ₹1,300 crore for the 1.5 million metric tonne per annum (MMTPA) of CNG handling capacity. Sources in the Chief Minister’s Office (CMO) said that the developers will also construct a Roll in-Roll out (Ro-Ro) terminal, liquid cargo terminal and container terminal at Bhavnagar port.

“As of now, the total investment for the project approved by is around ₹2,000 crore. A MoU was signed for this ambitious project between Gujarat Maritime Board (GMB) and Foresight Group during the Vibrant Gujarat Summit held in January 2019,” said a senior official in the state port & transport department.

Currently, the existing port at Bhavnagar is having a capacity to handle 3 MMTPA cargo, said the official, adding that after the construction of CNG port terminal and other facilities it would enhance to nine MMTPA.

According to him, major modifications are required on the north side of the existing Bhavnagar port to develop CNG, Ro-Ro and liquid terminals. Moreover, there is a requirement of dredging in the water channel of the port basin, construction of two lock gates and off-shore infrastructure for CNG transportation, he said.
