## **GlobalSpace Technologies Announces New Strategic Alliance with CCI for its DocExa platform**

*Garnering a larger pie in its Healthcare vertical*

**Mumbai, August 21, 2020:** GlobalSpace Technologies Limited is delighted to announce its **strategic partnership & recommendation from CCI (Chest Council of India)** for providing DocExa pro platform to its entire member base. The arrangement further enhances faith on Company's capability to take the product on a larger platform. DocExa – the first Artificial Intelligence enabled virtual Consultation platform has received quite positive acceptance amongst the Medical fraternity – both from the Pharma Companies and from Doctors as well within a short span of time since its formal launch.

DocExa Pro platform would enable Chest Physicians to set up their own personalized virtual consultation clinic with zero exposure of patient database getting shared with other doctors. Equipped with AS2 advanced levels encryption, all the data remain highly secured in the app. The app would enable instant payments via UPI and e-wallets. Doctors would be able to prescribe medicines with three different easy modes and charge consultation fees as per their discretion. DocExa App will also help to access the medical history submitted by a patient in a single PDF file. Apart from these, few additional features will be added to this App like Q- Management & Social distancing tools as well as attendant login.

This is another major leap forward by the Company as it will add another specialist Doctors- chest physicians to the DocExa platform. Thus, DocExa will have more category wise specialists' doctors for consulting under its banner. The entire integrated platform with Mediapp – is likely to substantially increase the wallet share for GlobalSpace towards the Healthcare spend. With a distinguished early mover advantage and superior platform, GlobalSpace is likely to garner larger pie of healthcare spends.

Commenting on the development, Mr. Krishna Singh, Founder & CMD said, 'We are glad to announce that we have added one more speciality of Doctors to our DocExa pro platform. The alliance gives a substantial large platform for scaling our DocExa reach and garnering a substantial market share in the Digital Healthcare Space. DocExa is the first Artificial Intelligence (AI) enabled virtual consultation app developed by us and we keep on updating the App as per the need of an hour. We are very proud to say that DocExa is fully compliant with Telemedicine guidelines of the Ministry of Health. GlobalSpace has emerged as a 360-degree Digital Healthcare service provider.'

### **About GlobalSpace Technologies Limited:**

GlobalSpace Technologies is a Digital, Mobility, Analytics, AI & Cloud technology Company providing integrated Healthtech platforms to major stakeholders of Healthcare domain. GSTL's software product platforms and solutions enable large and medium enterprises embrace mobility & digital technology for their business enhancement.
