- › In passenger car segment, volumes from served model supported better than industry performance however, in utility vehicle segment, end of life on served model resulted in higher decline than industry
- › In SCV segment, commencement of supplies to new model resulted in growth; In M&HCV segment, volumes of higher tonnage vehicles declined more than other categories. This resulted in lower pack values and hence higher revenue decline
- › Drop in two wheeler segment partially mitigated by new business for Friction materials
- › Drop in Farm Tractor segment higher than industry driven by decline in served customers/models
