#### IMPORTANT

What is meant by Audit prior to issuance of Unaudited Financial Results? It is a process of audit of financial statements of a company for the period covered by the financial year concerned. As such, even though the audited financial statements are available, the audit report relating to the same may not be issued by the auditors until after the date of the financial results are issued. Hence, the term 'Audit prior to issuance of financial results' means that the audit report relating to the financial results is issued before the financial results are issued.
