About Cochin Shipyard Limited

Cochin Shipyard Limited (CSL) was incorporated in the year 1972 as a fully owned Government of India Company. At present the Government of India holds 72.86% in the equity share capital of the Company. In the last four decades, the Company has emerged as a forerunner in the Indian shipbuilding & ship repair industry and also a well-known player on the global shipbuilding front. CSL has exported 45 ships to various commercial clients outside India such as National Petroleum Construction Company (Abu Dhabi), the Clipper Group (Bahamas), Vroon Offshore (Netherlands) and SIGBA AS (Norway).

The Company has built and repaired some of the largest ships in India and is presently building the prestigious Indigenous Aircraft Carrier for the Indian Navy. Over the years, CSL has successfully responded to fluctuations in the shipbuilding requirements of the markets and have evolved from building bulk carriers to smaller and more technically sophisticated vessels such as Platform Supply Vessel (PSV) and Anchor Handling Tug Supply Vessels (AHTS). CSL has worked with several leading technology firms in the industry including Rolls Royce Marine (Norway), GTT (France), Vard Group (Norway) etc. This has added to CSL's credibility in the international markets. CSL's key shipbuilding clients on the domestic front include the Indian Navy, the Indian Coast Guard and the Shipping Corporation of India Limited. CSL has also undertaken repairs of various types of vessels including upgradation of ships of the oil exploration industry as well as periodical maintenance, repairs and life extension of ships. CSL is presently one of the best performing shipyards in India.
