The brief summary for seeking such variation are as under:

Post Covid-19 situation, the Company has expanded more in Hyderabad as compare to Bangalore, as a result of this change there has been a significant reduction in the capital expenditure (capex) requirements in the Bangalore and Kolkata regions. This change in operational emphasis has naturally led to a decreased demand for the financial resources that were previously allocated for capex in these areas. Meanwhile, the financial resources necessary for capex in Hyderabad were primarily sourced from preferential allotment funds. This well-considered allocation of funds has played a crucial role in supporting the Company's expansion efforts in the Hyderabad region. Considering decreased need for capex funds in Bangalore and Kolkata due to the operational realignment, the Company's board of directors is proposing to redirect these funds towards enhancing the company's working capital, reflecting the Company's adaptive approach to financial resource management. This strategic adjustment underscores the Company's commitment to effective financial utilization as it navigates its evolving operational landscape.
