BUSINESS RESPONSIBILITY & SUSTAINABILITY REPORT

Statement from the Chair of the ESG & Diversity Equity Inclusion Committee (“ESG & DEI Committee”)

Dear Stakeholders,

We are delighted to present our Business Responsibility and Sustainability Report (“BRSR”) for the financial year April 1, 2022 to March 31, 2023 (“FY23”). We engaged Ernst & Young Associates LLP (“EY”), as a third party to perform an independent limited assurance of our BRSR. The independent assurance statement by EY is also enclosed as part of the Annual Report.

HCLTech has undergone significant changes during FY23. We launched a new brand identity and we published our new purpose statement – “To bring together the best of technology and our people to supercharge progress”. The mantra of supercharging progress guides how we accelerate digital transformation for our clients, advances the aspirations of our people, contributes toward a more sustainable planet and works toward equitable and sustainable communities. The disclosures we present in our BRSR, reflect our HCLTech purpose.

The environmental, social and governance (“ESG”) & diversity, equity and inclusion (“DEI”) committee of the board met on four occasions in FY23 when HCLTech’s steady progress across these dimensions was reviewed. The key dimensions of our progress against our targets, have also been validated by external third-party recognitions. Some of the highlights are outlined below:

- MSCI has rated HCLTech as an ESG ‘Leader’ in the software and services industry. This year, HCLTech has been recognized as a leader with an “AA” rating, a significant move up from last year’s “A” rating.
- The S&P Global Sustainability Yearbook 2023 has recognized HCLTech as an ‘Industry Mover’. The Yearbook lists leading companies that have demonstrated sustainable business practices in their operations.
- HCLTech has also been included in Sustainalytics’ 2023 Top-Rated ESG companies list in the Software and Services Industry segment and in the Asia Pacific Region.

The progress achieved would not be possible without the appropriate focused execution and resource allocation of the initiatives and projects by the respective teams involved.

Each quarter, the committee presented its review on outcomes and relevant milestones to the board. During FY’23, in response to the recommendations of the committee, HCLTech has implemented an internal audit system covering all ESG disclosures. The outcome of the audit was reviewed by the Audit Committee of the board.

A separate sustainability report for FY’23 will also be published to give more details on the sustainability strategy implementation and the performance against the commitment and goals that have been outlined by HCLTech.

We will be eager to have your feedback on the BRSR disclosures and the sustainability report and look forward to hearing from you.

Robin Abrams
Chairperson – ESG & DEI Committee

VII. Transparency and Disclosures Compliances

23. Complaints / Grievances on any of the principles (Principles 1 to 9) under the National Guidelines on Responsible Business Conduct:

Employees

The Company is committed to provide employees with a safe and secure work environment, which is free of discrimination and harassment, including any form of sexual harassment. The Company's 'Grievance Redressal Protocol' outlines ways of working, responsibilities and processes adopted during handling violations pertaining to following:

- Acts which violate POSH Act 2013 & Secure Policy of the Company.
- Acts which violate COBEC and ABAC Policy of the Company and Acts which come under the purview of Whistleblower Policy of the Company.

The Company has implemented several avenues to resolve employee problems, including the Secure (Anti-Sexual Harassment Initiative), HEAR (Hearing Employees and Resolving their Concerns) platform, and the Whistleblower Policy.

"HEAR" is an integrated channel and serves as access to the Desk of the Ombudsman who directs any grievance raised by the employees to the appropriate individuals to investigate. All employee grievances (including employee / HR related matters) can be reported by writing directly to hear@hcl.com. In case any employee experiences any form of Sexual harassment they can report the incidents by directly writing to Secure@hcl.com. The complaints covered under the Whistleblower Policy can be raised by writing to whistleblower@hcl.com.

For details on employee grievances and resolution, please refer to question 13 of principle 3 and question 6 of principle 5. During FY 2022-23, 54 whistleblower complaints have been filed by employees. Additionally, 66 anonymous complaints were also received.

Investors / Shareholders

The Company's shareholders' grievance redressal mechanism ensures accountability & transparency and is overseen by the Stakeholders' Relationship Committee of the Company. All shareholders queries / grievances are promptly responded to by the Registrar and Share Transfer Agent or the Company. The Company has also placed on its website the FAQs which may be helpful for the shareholders to get information on shareholders related matters and guides them on the steps / documents required to process their requests on various matters. For investor related complaints, refer to section 'Investors' Grievances' in the Corporate Governance Report.

Customers

HCLTech has institutionalized process to help customers raise grievance and complaints related to its business conduct. These include the following:

- Customer Advisory Board (CAB) – It consists of CXOs from our strategic accounts across a variety of industries. The CAB member perspectives, insights and directional guidance help HCLTech better address customer needs and ensure our value propositions and services continue to deliver real value to our customers.
- CREST - Through a governance framework called CREST, HCLTech has institutionalized the process of cadence meetings, the process of checking in regularly with clients. Any customer complaints or escalations as received by the LOB heads, are picked by the respective delivery owners and actions are put in place to address their concerns. This is then tracked as part of Quarterly Business Review ("QBR") or Executive Business Review ("EBR") which is attended by the LOB heads along with customers and tracked as part of CREST.
- ACSAT & PCSAT - HCLTech measures client satisfaction both at project level as well as engagement level. At project level, HCLTech under its Project CSAT (PCSAT) initiative surveys close to 3000+ projects to monitor client satisfaction for each project, while once a year, an independent third party conducts an account-level CSAT (ACSAT) to provide a health check on client engagement and relationships, benchmarked against competitors.
- CRISP – HCLTech has a unique framework called CRISP which is adopted across the organization to act on customer feedback. Taking an action on customer feedback is the key tenet of customer centricity and has helped us improve the relationship with customer and enhance our services over the years. CRISP is an acronym for Customer Relationship Improvement and Solutioning Partnership.
- HCLTech's account management teams also connects with their respective customers on monthly basis to capture their feedback and highlights the same internally. The account teams accordingly take proactive actions to prevent any dissatisfaction.
- Finally HCLTech also has an effective Whistleblower Policy which defines and lays down the process for raising a Complaint for any stakeholder including our clients. They can write to whistleblower@hcl.com wherein any complaints related to Unethical and Improper Practices will be dealt by this Policy. Any HR related complaints are forwarded to hear@hcl.com.

Together these mechanisms ensure HCLTech is well equipped to proactively handle any complaints / grievances on any of the 9 governing principles.

Value Chain Partners

The Company is committed to aiding Suppliers and Partners in adhering to policies and practices. In the event of a grievance, the Company welcomes input and promote communication with any interested party. If suppliers have any questions, concerns, or grievances about Company's policies or procedures, they are encouraged to email us at procurementconcerns@hcl.com. The whistleblower policy of the Company extends to value chain partners as well. During the financial year 2022-23, no grievances were received.

Communities

The corporate social responsibility agenda for HCLTech is delivered by the HCL Foundation. It deeply upholds the value of accountability and aims to accept, assess, and resolve feedback or complaints received from our community of stakeholders ranging from but not limited to HCL Foundation employees, HCLTech employees, volunteers, third-party employees, consultants associated with the projects of the Company, NGO partners, social sector organizations, government authorities, programme participants, community members and others. Any deviation from the law of the land, HCLTech Code of Conduct or HCL Foundation Child Protection Policy by any stakeholder associated with the programmes / projects of the Company is taken up seriously for review and redressal via multi-pronged, scientific and transparent channels.

HCL Foundation aims to ensure that every stakeholder is provided a safe environment to share their concerns / grievances. High level of confidentiality is maintained in sensitive matters to respect and maintain dignity of the complainant. No grievances have been received from community in FY 2022-23.

15. Provide details of any corrective action taken or underway to address safety-related incidents (if any) and on significant risks / concerns arising from assessments of health & safety practices and working conditions.

The Company has taken proactive steps to address safety incidents and mitigate risks associated with health and safety practices. These measures reflect its commitment to maintaining a safe working environment and prioritizing the well-being of our employees and stakeholders.

To enhance accessibility and inclusivity, The Company has modernized entry / exit points at the Noida campus (Sector-126), specifically focusing on gate no. 2 to ensure smooth access for People with Disability (PWDs). This initiative promotes equal opportunities and aligns with Company's commitment to diversity and inclusivity. Rigorous adherence to Safe Work Method Statement ("SWMS") has been implemented before undertaking any hazardous work at the Noida Campus. This systematic approach ensures that potential risks are identified, assessed, and appropriate safety measures are in place, minimizing the likelihood of incidents and promoting a culture of safety.

Recognizing the importance of emergency preparedness, the Company is in the process of reworking the Emergency Management Process at the Noida Campus. Collaborating with external agencies, the Company aims to holistically improve the safety environment within the office premises. This initiative encompasses comprehensive safety measures for employees, visitors, vendor staff, and even children, ensuring their well-being during any unforeseen circumstances.

Adequate monitoring measures have been deployed during material shifting on service lifts at the Chennai Campus. This focus on monitoring helps mitigate potential risks associated with material handling and transportation, reducing the likelihood of accidents and injuries. Regular Planned Preventive Maintenance ("PPM") work is carried out at the Chennai Campus. By conducting routine maintenance activities, the Company ensure the optimal functioning of equipment and infrastructure, minimizing potential hazards and improving overall safety conditions.

To address specific risks and concerns, a study and risk assessment on water floods were conducted at the Jigani Campus in Bangalore. This comprehensive evaluation enables the Company to implement appropriate measures to mitigate the risks associated with water flooding, enhancing the safety of its operations.

Several infrastructure improvements have been made at the Company's campuses. For instance, the FM200 fire suppression system at the Bengaluru Jigani Campus has been replaced with the NOVAC system, enhancing fire safety measures.

Additionally, the cooling tower platform at the Bengaluru Jigani Campus has been replaced with Fiber Reinforced Plastic ("FRP") material, ensuring structural integrity and promoting a safe working environment.

Various other initiatives, such as installing handrails, implementing safety systems, conducting floor activities, and enhancing lighting and emergency provisions, have been undertaken across the Company's campuses to address specific safety concerns and promote a culture of safety.

By continuously evaluating risks, conducting assessments, and implementing appropriate measures, the Company strives to enhance health and safety practices across its campuses, fostering a culture of safety and well-being for all.

PRINCIPLE 4: Businesses should respect the interests of and be responsive to all its stakeholders.

Essential Indicators:

1. Describe the processes for identifying key stakeholder groups of the entity.

The first stage of HCLTech's stakeholder relations involves mapping and prioritizing key stakeholders based on relevance, role, and influence. Once the stakeholders have been identified and prioritized, the engagement channels are established. The result from the engagement is channelised inside the organization and ensures that the stakeholder gets the right feedback or resolution as the case may be. Internal Stakeholders of the Company include employees, senior leaders, managers, Board of Directors, members of HCL Foundation. External stakeholders include customers, investors, regulatory bodies, vendors, service providers and media. The stakeholder engagement exercise has helped the Company's ESG focus areas in line with its underlying philosophy of Act, Pact & Impact. Stakeholder engagement is a critical aspect of HCLTech's ESG strategy. Stakeholder engagement at HCLTech is a continuous process and helps us gauge and address the expectations of our stakeholders.

2. List stakeholder groups identified as key for your entity and the frequency of engagement with each stakeholder group.

Details of stakeholder engagement are available in Sustainability Report (Section 'Stakeholder Engagement').

Leadership Indicators:

1. Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.

The Executive Directors and Senior Management Personnel are actively engaged in regular interactions with various stakeholders, including investors, employees, and customers. These engagements provide invaluable feedback that plays a crucial role in the Company's commitment to sustainability. The feedback obtained from these interactions is then brought to the attention of the Board to ensure that the concerns and ideas of its stakeholders are given due consideration.

In addition, any significant topics that arise through regular stakeholder engagement are brought to the Board through various channels. The Company has a well-defined process in place for addressing suggestions, complaints, and grievances, which are carefully evaluated based on their significance. Depending on the nature and scope of the issues, they are referred to the appropriate committee of the Board.

2. Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.

Yes. The stakeholder consultations are one of the key inputs to determining the material topics. The Company looked at the aspects each stakeholder has brought out during the engagement and prioritized them using a risk and responsibility matrix to arrive at the Company's 12 material topics.

3. Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/ marginalized stakeholder groups.

The CSR projects handled by HCL Foundation focus on vulnerable / marginalized stakeholders as beneficiaries. The design of all Company's interventions ensure that the beneficiaries of its projects are from the vulnerable / marginalized groups. The Diversity, Equity and Inclusion activities of the Company also include actions in support which are explained in the respective section of the annual report and sustainability report.

(Y/N) If yes, disclose whether targets set under the PAT scheme have been achieved. In case targets have not been achieved, provide the remedial action taken, if any.

Not Applicable.

3. Provide details of the following disclosures related to water, in the following format:

Parameter	FY 2022-23	FY 2021-22
Water withdrawal by source (in kilolitres) all values in KL		
(i) Surface water	-	-
(ii) Groundwater	286,101.20	311,277
(iii) Third party water (Tanker and drinking water supplies)	342,432.63	231,972
(iv) Seawater / desalinated water	-	-
(v) Others (Rainwater and Municipality water)	244,154.00	156,070.23
Total volume of water withdrawal (in kilolitres) (i + ii + iii + iv + v)	872,688	699,319
Total volume of water consumption (in kilolitres)	863,373	675,866
Water intensity per rupee of turnover (Water consumed / turnover) KL/Million ₹	0.85	0.79

Note: Indicate if any independent assessment / evaluation / assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, the independent assurance of BRSR and Sustainability Report was conducted by Ernst & Young Associates LLP and Assurance Statement is a part of respective reports. In addition, independent assurance for quantification and reporting of greenhouse gas emissions and removals was conducted by BSI against ISO 14064-1:2018.

4. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

97% of HCL's sewage water is treated at HCLTech's sewage treatment plants. Furthermore, the treated water is re-used at its campuses. Only 3% of the sewage water is sent to the common STPs run by the local municipalities.

5. Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:

This is not a material aspect.

6. Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) & its intensity, in the following format:

Parameter	Unit	FY 2022-23	FY 2021-22
Total Scope 1 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	15,878	18,765
Total Scope 2 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	157,865	143,642
Total Scope 1 and Scope 2 emissions per rupee of turnover	MT CO₂ Equivalent / Million ₹	0.17	0.18

Note: Indicate if any independent assessment / evaluation / assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, the independent assurance of BRSR and Sustainability Report was conducted by Ernst & Young Associates LLP and Assurance Statement is a part of respective reports. In addition, independent assurance for quantification and reporting of greenhouse gas emissions and removals was conducted by BSI against ISO 14064-1:2018.

7. Does the entity have any project related to reducing Green House Gas emissions? If yes, then provide details.

Yes, HCLTech participated in several green projects that included increasing the percentage of renewable energy in its energy mix via power purchase agreements, energy efficiency measures that focused on optimization of chiller, EOL replacement of UPS, HVAC High side and Low side, ATCS Operation Elevator & STP operations. Additionally, the Company has started an EV conveyance initiative for its employees in the Southern Region in India which is also aimed at reducing the overall GHG emissions of the Company.

8. Provide details related to waste management by the entity, in the following format:

Parameter	FY 2022-23	FY 2021-22
Total waste generated (in metric tonnes)		
Plastic waste (A)	28.44	14.72
E-waste (B)	383.55	127.0
Bio-medical waste (C)	3.97	3.9
Construction and demolition waste (D)	29.10	-
Battery waste (E)	67.60	392.08
Used Oil DG (F)	8.51	13.16
Other Hazardous waste. Please specify, if any. (G) (DG Filter, DG Coolant Oil & Oil-Soaked Cotton Waste)	2.69	2.08
Other Non-hazardous waste generated (H). Please specify, if any. (Break-up by composition i.e. by materials relevant to the sector) (Food Waste, Paper and Tissue, Garden Waste, Wooden waste, Carton box, Thermocol Waste, Tin waste, Shredding Papers, Metal Waste & Sanitary waste)	1,468.30	521.65
Total (A+B + C + D + E + F + G + H)	1,992.16	1,074.59

For each category of waste generated, total waste recovered through recycling, re-using or other recovery operations (in metric tonnes)

Category of waste		
(i) Recycled	1,525 MT	-
(ii) Re-used	85 MT	-
(iii) Other recovery operations	0	-
Total	1,610 MT	-

For each category of waste generated, total waste disposed by nature of disposal method (in metric tonnes)

Category of waste		
(i) Incineration	8 MT	-
(ii) Landfilling	0	-
(iii) Other disposal operations	0	-
Total	8 MT	-

Note: Indicate if any independent assessment / evaluation / assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, the independent assurance of BRSR and Sustainability Report was conducted by Ernst & Young Associates LLP and Assurance Statement is a part of respective reports. In addition, independent assurance for quantification and reporting of greenhouse gas emissions and removals was conducted by BSI against ISO 14064-1:2018.

9. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

The details are as mentioned below:

- E-waste – The Company’s E-waste management practices focus on reducing electronic waste, promoting responsible disposal and recycling practices, and maximizing the lifespan of IT equipment to minimize the environmental impact and promote sustainability. The Company’s initiatives are briefly listed below:
 - Responsible IT Asset Disposal: Ensured implementation of proper disposal practices for IT assets at the end of their lifecycle, through partnership with certified e-waste recyclers, dismantlers / refurbishers who follow environmentally responsible processes. The goal is to ensure that IT equipment are recycled or disposed of in a manner that minimizes environmental impact and complies with E-waste handling and management guidelines.
 - IT Equipment Recycling: Collected, segregated and disposed IT Scrap in designated storerooms and initiated disposal process through verified E-waste handlers / recyclers with time bound disposal activity.
 - Employee Awareness and Training: Educated relevant team members on the importance of IT waste and guidelines for responsible IT asset management. Training sessions and awareness campaigns were organized to promote proper recycling and data wiping before disposal.
 - Performance Monitoring and Reporting: Ensured regular monitoring and reporting on IT waste metrics, such as the quantity of electronic waste generated, stored and recycling rates, to track progress and identify areas for improvement.
- Paper – With the aim of reducing paper consumption, initiatives like printer pin deployment, printer on alternate floors, setting up maximum printing limit, double side printing and reduction in font size are encouraged. These measures have resulted in significant conservation of paper.
- Reduce, Recycle, Reuse – The waste management programs are based on the principles of 3R’s. All waste generated by HCL is measured and quantified. The waste is categorized according to the source and disposal method. Hazardous waste is disposed of in an environmentally friendly manner and paper waste is recycled and reused. Bio medical waste is disposed of in a safe manner. Food remains and garden waste are used to make manure.
- Plastic - In line with the Central & State Govt. (India) Directives in the year 2018, HCLTech has made all its campuses in India free from ‘Single use plastics’ through alternative arrangements from the year 2019.
- Other hazardous waste – Other hazardous wastes that include bio medical waste & sanitary napkin waste is disposed in a safe manner.

10. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:

Total water discharged (in kilolitres)	9,315	23,453.06

Note: Indicate if any independent assessment / evaluation / assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, the independent assurance of BRSR and Sustainability Report was conducted by Ernst & Young Associates LLP and Assurance Statement is a part of respective reports. In addition, independent assurance for quantification and reporting of greenhouse gas emissions and removals was conducted by BSI against ISO 14064-1:2018.

3. Water withdrawal, consumption and discharge in areas of water stress (in kilolitres): For each facility / plant located in areas of water stress, provide the following information:

- (i) Name of the area:
- (ii) Nature of operations:
- (iii) Water withdrawal, consumption and discharge in the following format:

Not Applicable.

4. Please provide details of total Scope 3 emissions & its intensity, in the following format:

Parameter	Unit	FY 2022-23	FY 2021-22
Total Scope 3 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	MT CO ₂ e	277,267	229,973
Total Scope 3 emissions per rupee of turnover	MT CO₂e / Million ₹	0.27	0.26

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, the independent assurance of BRSR and Sustainability Report was conducted by Ernst & Young Associates LLP and Assurance Statement is a part of respective reports. In addition, independent assurance for quantification and reporting of greenhouse gas emissions and removals was conducted by BSI against ISO 14064-1:2018.

5. With respect to the ecologically sensitive areas reported at Question 10 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

Not Applicable.

6. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative with summary)
GHG Reduction Initiatives-tCO₂e

7. Does the entity have a business continuity and disaster management plan? Give details in 100 words / web link.

Technological, geopolitical, societal, economic, and environmental risks are all coming together to create an intrinsically complex and fast-changing global risk landscape. The Company's reputation as a 21st Century Enterprise is often measured by its resilience to threats, and how efficiently The Company respond & manage business disruptions. HCLTech is committed to its employees, clients, and interested parties to ensure that necessary efforts are made to safeguard life and safety of personnel, protect property and resume critical services at predefined levels in the event of any untoward incident. To meet the organizational continuity objective, The Company have made significant efforts towards Crisis Management and Resilience planning to ensure effective response, prioritized recovery of its time-sensitive operations and mitigation of potential business continuity risks.

Crisis and Resilience ("C&R") Program falls under the purview of Risk and Compliance function headed by the Chief Risk Officer of HCLTech. The C&R Program is guided by the board, led by subject matter experts, and is based on ISO 22301 standard and global best practices. The Company undertake active engagement with ecosystem partners for real-time horizon scanning of risks and early warning signals. The Company has embedded Resilience-by Design philosophy in the firm across different dimensions of the "new-normal" including resilience in work, workforce, workplace, technology, supply chain, and leadership. The Company has started integrating climate change risks into each of these dimensions and their business continuity / contingency planning solutions.

Being an IT / ITeS provider, there is a potential that our operations may be affected due to core-technical risks materializing in our environment like technology failures, programming errors, cyberattacks etc. In order to mitigate these risks, The Company has embedded 'Resilience-by-Design' across our organization through:

- Battle hardened Business Continuity & Disaster Recovery Plans including Cyber Incident readiness
- Geographically dispersed Data Centers
- Robust multi-vendor MPLS & Internet Network
- Scalable Work from Home (WFH) Computing capability with stringent security controls

HCLTech's Exercising and Testing Framework provides a comprehensive approach to validate effectiveness of the business continuity strategies implemented across the organization. The Company conduct exercises at facility, city, country level(s) based on nature, scale, and complexity of operations. Types of business continuity exercises include (1) Call Tree, (2) Tabletop and (3) Simulation.

Furthermore, our Crisis Management Framework provides agile response, timely communication with internal and external stakeholders, and recovery & restoration based on the rapidly evolving global threat landscape, which includes climate threats.

Independent Assurance Statement

The Management and Board of Directors

HCL Technologies Limited
Noida (Uttar Pradesh), India

Scope

We have been engaged by HCL Technologies Limited to perform Independent Limited assurance, as defined by International Standards on Assurance Engagements (ISAE 3000), hereafter referred to as the engagement, to report on HCL Technologies Limited BRSR (Business Responsibility and Sustainability Report) Report (the "Subject Matter") for the period from 1st April 2022 to 31st March 2023.

Other than as described in the preceding paragraph, which sets out the scope of our engagement, we did not perform assurance procedures on the remaining information included in the Report, and accordingly, we do not express a conclusion on this information.

Criteria applied by HCL Technologies Limited

In preparing the Business Responsibility and Sustainability Report (BRSR) FY 23, HCL Technologies Limited applied Securities and Exchange Board of India (SEBI) BRSR guidelines. As a result, the subject matter information may not be suitable for another purpose.

HCL Technologies Limited Responsibilities

HCL Technologies Limited management is responsible for selecting the Criteria, and for presenting the Business Responsibility and Sustainability Report (BRSR) FY 23 in accordance with that Criteria, in all material respects. This responsibility includes establishing and maintaining internal controls, maintaining adequate records, and making estimates relevant to the preparation of the subject matter, such that it is free from material misstatement, whether due to fraud or error.

EY's Responsibilities

Our responsibility is to express a conclusion on the presentation of the Subject Matter based on the evidence we have obtained.

We conducted our engagement in accordance with the International Standard for Assurance Engagements Other Than Audits or Reviews of Historical Financial Information ('ISAE 3000'). The terms of reference for this engagement as agreed with HCL Technologies Limited. The Subject Matter is presented in accordance with the Criteria, and to issue a report. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risk of material misstatement, whether due to fraud or error.

We believe that the evidence obtained is sufficient and appropriate to provide a basis for our limited assurance conclusions.

Our Independence and Quality Control

We have maintained our independence and confirm that we have met the requirements of the Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants, and have the required competencies and experience to conduct this assurance engagement.

EY also applies International Standard on Quality Control 1, Quality Control for Firms that Perform Audits and Reviews of Financial Statements, and Other Assurance and Related Services Engagements, and accordingly maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards, and applicable legal and regulatory requirements.

Description of procedures performed

Procedures performed in a limited assurance engagement vary in nature and timing from and are less in extent than for a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had a reasonable assurance engagement been performed. Our procedures were designed to obtain a limited level of assurance on which to base our conclusion and do not provide all the evidence that would be required to provide a reasonable level of assurance.

Although we considered the effectiveness of management's internal controls when determining the nature and extent of our procedures, our assurance engagement was not designed to provide assurance on internal controls. Our procedures did not include testing controls or performing procedures relating to checking aggregation or calculation of data within IT systems.

A limited assurance engagement consists of making enquiries, primarily of persons responsible for preparing the Business Responsibility and Sustainability Report (BRSR) FY 23 and related information and applying analytical and other appropriate procedures.

Our procedures included:

- ▶ Conducted interviews with select personnel at corporate teams to understand the process for collecting, collating, and reporting the subject matter as per Standards and Securities and Exchange Board of India (SEBI) BRSR guidelines;
- ▶ Checked that the calculation criteria have been correctly applied in accordance with the methodologies outlined in the Criteria;
- ▶ Undertook analytical review procedures to support the reasonableness of the data through consultations with the site team and sustainability team;
- ▶ Review of relevant data, on a selective test basis, for the following units/ locations, through consultations with the site team and sustainability team
- ▶ Review of data on a sample basis, at the above-mentioned locations, pertaining to the following disclosures of the BRSR Guidelines:
 - Environmental Topics: Energy (P6.1, P6.9), Water (P6.2), Emissions (P6.4, P6.12), Waste (P6.5);
 - Social Topics: New employee hires and employee turnover (General disclosure), Unions of associations (P3.5), Performance and Career Development Reviews (P3.7), No. of CSR projects in aspirational districts (P8.4), Total beneficiaries of CSR Projects (P8.6)
- ▶ Execution of an audit trail of claims and data streams, on a selective test basis, to determine the level of accuracy in the collection, transcription, and aggregation processes followed.
- ▶ Review of the Company's plans, policies, and practices, pertaining to their social, environmental, and sustainable development, to be able to make comments on the fairness of and Integrated Reporting;
- ▶ Review of the Company's approach towards materiality assessment disclosed in the Report to identify relevant issues;
- ▶ Review of select qualitative statements in various sections of the Business Responsibility and Sustainability Report (BRSR) FY 23.

We also performed such other procedures as we considered necessary in the circumstances

Emphasis of matter

The assurance scope excludes:

- ▶ Data and information outside the defined reporting period (1st April 2022 to 31st March 2023)
- ▶ Data and information on the economic and financial performance of the Company
- ▶ Data, statements, and claims already available in the public domain through Annual Report, Integrated Annual Report, or other sources available in the public domain
- ▶ The Company's statements that describe the expression of opinion, belief, inference, aspiration, expectation, aim, or future intention provided by the Company
- ▶ The Company's compliance with regulations, acts, and guidelines with respect to various regulatory agencies and other legal matters

Our Conclusion

Based on our procedures and the evidence obtained, we are not aware of any material modifications that should be made to the Business Responsibility and Sustainability Report (BRSR) FY 23 for the period from 01st April 2022 to 31st March 2023, in order for it to be in accordance with the Standards and Securities and Exchange Board of India (SEBI) BRSR guidelines.

Restricted use: This report is intended solely for the information and use of HCL Technologies Limited and is not intended to be and should not be used by anyone other than HCL Technologies Limited.
