Notes to the financial results
1. The audited consolidated financial results for the quarter and year ended 30 June 2020 were approved by the Board of Directors in its meeting held on 20 August 2020.
2. Based on the "management approach" as defined in Ind AS 108-Operating Segments, the Chief Operating Decision Maker evaluates the Group's performance as a single business segment namely travel and transportation vertical.
3. The figures for the quarter ended 30 June 2020 and 30 June 2019 are the balancing figures between audited figures in respect of the full financial year and the published unaudited year to date figures upto third quarter of the respective financial years. Also, the figures upto the end of the third quarter were only reviewed and not subjected to audit.
4. The COVID 19 pandemic, the country-wide lockdown and the far-reaching travel restrictions in various geographies across the globe have affected the airline and travel industry in an unprecedented way. As the Company's business model is principally based on per transaction pricing, the Company's revenue which is linked to airline passenger transactions has been impacted.
5. The Company has adopted various business continuity measures from the beginning of lockdown to ensure the safety and wellbeing of all its employees, including providing IT infrastructure and connectivity wherever possible, to enable employees to work from home. As a result of this, the Company has been able to service its customers and ensure that the operations are minimally affected.
6. The Company is closely monitoring the impact on its customers on account of the COVID 19 Pandemic and the impact of external factors. As the Company's revenues are linked to airline passenger transactions a reduction in revenues in the ensuing quarters is assessed. However, in many contracts with the customers, the Company's revenue stands protected to the extent of the agreed minimum billing. As and when the restrictions are eased across geographies and there is a revival of the economy, the Company expects to see demand revival in the airline and travel industry, and accordingly in the revenues of the Company. At present, the Company does not foresee any material adverse impact in the demand for the software solutions and the Company is well positioned to fulfill its obligations relating to existing contracts / arrangements. The management has taken into consideration internal and external sources of information including economic forecasts and industry reports in determining the impact on various elements on its financial results.
7. Management continuously monitors the market dynamics and keeps evaluating events that have impact on the airline and travel industry. Management has used the principle of prudence in applying judgements, estimates and assumptions including sensitivity analysis and based on the current estimates, the Management expects to fully recover the carrying amount of trade receivables including unbilled receivables and other current and non-current assets. Management believes that it has taken into account all possible impact of known events arising from COVID 19 pandemic in the preparation of these financial results. The eventual outcome of impact of the global pandemic may be different from those estimated as on the date of approval of these financial results. Management has assessed the impact of existing and anticipated effects of COVID 19 pandemic on the future cash flow projections considering various scenarios. The Company believes that it should be able to meet its commitments and in addition, the funds are expected to be generated from its operating activities. To manage the impact on profitability resulting from reduced revenues due to COVID 19, the Company has implemented and continues to implement various cost control measures across the organization including reducing the cost of human resources (with the consent of relevant employees), travel, marketing and events, etc. to conserve cash to address any uncertainties in evolving situations.
8. Based on the aforesaid assessment the Management strongly believes that as per estimates made conservatively, it will continue as a going concern.
9. Effective 1 July 2019, the Company has adopted Ind AS 116, Leases, using modified retrospective method. The Company has elected the practical expedients, which allows the Company not to reassess its prior conclusions about lease identification, lease classification and initial direct costs. The comparative information is not restated in the financial results. In the statement of financial results for the current period, the nature of expenses in respect of operating leases has changed from lease rent in previous period to amortisation cost for the right-of-use assets and finance cost for interest accrued on lease liability. On transition, the adoption of the new standard resulted in recognition of Right-of-use asset of Rs. 5,113.3 lakhs and lease liability of Rs. 5,529.3 lakhs.
10. Other operating revenue for the year ended 30 June 2020 includes export incentive under the Service Export of India Scheme amounting to Rs. 1,788.61 lakhs for the period April 18 to March 20.
11. The Company has elected to exercise the option permitted under Section 115BAA of the Income Tax Act, 1961 as introduced by the Taxation Laws (Amendment) Ordinance, 2019. Accordingly, the Company has recognised provision for income tax and remeasured its deferred tax asset based on the rate applicable as per the said section.
12. Figures for the previous period have been regrouped/reclassified wherever necessary to make them comparable.
13. The financial results of the Company on a standalone basis for the quarter and year ended 30 June 2020 are summarised below.
