Leading Global Helicopter OEM TRUSTS Ramco Aviation

To provide digital transformation for their global MRO locations

New Jersey, USA – October 13, 2020 – Global Aviation software specialist [Ramco Systems](#) announced that it will implement its flagship aviation software [Ramco Aviation M&E MRO Suite V5.8](#) for a leading helicopter OEM, to digitally transform its global MRO operations.

Ramco will implement its unified enterprise application containing modules for Engineering, Maintenance, Supply Chain, Safety Compliance, MRO & Part Sales and Mobility for Warehouse and Mechanics.

Ramco Aviation Suite will enable high productivity and automation of MRO Operations by moving away from manual recording of data and enabling access to real-time information. The application will ensure high efficiency with its next generation capabilities like straight through processing, mobility, hub-based architecture and secured technology. The system also enables Task card digitization with electronic signature capability to achieve paperless operations with dual authentication.

Virender Aggarwal, CEO, Ramco Systems, said, “Having gained the confidence of 7 of the top 10 Heli-operators, this win puts us on the front foot to lead the Heli MRO segment. We are thrilled to add a leading helicopter manufacturer to our growing clientele. Our focus on delivering digital transformation with quantifiable results continues to gain the trust of clients, globally. This has been possible because of the steadfast focus we place on Innovation and infusing our application with AI, ML, Chatbots, User based personalization and more.”

[Ramco Aviation Software](#) is trusted by 24,000+ users to manage 4,000+ aircraft globally. Accessible on cloud and mobile, Ramco Aviation Software continues to innovate with ‘Anywhere Apps’, significantly reducing transaction time both during aircraft-on-ground (AOG) conditions and critical aircraft turnarounds. Ramco is changing the paradigm of enterprise software with Artificial Intelligence and Machine Learning based solutions, powered by cool new features such as digital task cards, offline capability, chatbots, mail bots, HUBs and cognitive solutions. With 80+ Aviation organizations onboard, Ramco is the solution of choice for top heli-operators, leading defense and multiple MROs around the world.

About Ramco Systems:

Ramco is a next-gen enterprise software player disrupting the market with its multi-tenant cloud and mobile-based enterprise software in HR and Global Payroll, ERP and M&E MRO for Aviation. Part of the USD 1 billion Ramco Group, Ramco Systems focuses on Innovation and Culture to differentiate itself in the marketplace. On the Innovation front, Ramco has been focusing on moving towards Active ERP leveraging Artificial Intelligence and Machine Learning by building features such as **Talk It** - which allows transactions to be carried out by simple voice commands, **Bot it** – which allows users to complete transactions using natural conversations; **Mail It** – transact with the application by just sending an email; **HUB It** - a one screen does it all concept built to address all activities of a user; **Thumb It** – mobility where the system presents users with option to choose rather than type values and **Prompt It** – a cognitive ability which will let the system complete the transaction and prompts the user for approval.
