**EXPLANATORY STATEMENT AS REQUIRED BY SECTION 102 OF THE COMPANIES ACT, 2013****ITEM NO. 4****Continuation of Mr. Atul R. Shah (DIN: 00004528) as Non-Executive Director:**

In the Thirty-Eight Annual General Meeting of the Company held on September 8, 2023, Mr. Atul Rameshchandra Shah, Non-Executive Director (DIN: 00004528) who retired by rotation, was reappointed.

Reg. 17(1A) of the SEBI (Listing Obligations and Disclosure Requirement) Regulations, 2015 provides that no listed entity shall continue the directorship of any person as a non-executive director who has attained the age of seventy-five years unless a special resolution is passed to that effect.

Since Mr. Atul R. Shah will attain the age of seventy-five years on October 26, 2024, pursuant to Reg. 17(1A), a special resolution is required to be passed by the Members for the continuation of his appointment as Non-Executive Director.

**Justification for continuation of appointment:**

Mr. Atul R. Shah is a Chartered Accountant having more than 49 years expertise in Corporate Laws, Taxation, Accounts and Auditing. His rich experience and deep understanding of financial and regulatory requirements is invaluable in guiding the Company.

The Board considers that his continued association would be of immense benefit to the Company, and it is desirable to continue to avail services of Mr. Shah as non-executive Director. Accordingly, the Board of Directors recommends the continuation of his appointment as Non-Executive Director of the Company.

The Board, based on the recommendation of the Nomination and Remuneration Committee, unanimously recommends the resolution set out at item No. 4 of the Notice for approval by the Members by way of a Special Resolution.

Other than Mr. Atul R. Shah, none of the Directors or Key Managerial Personnel of the Company or their relatives are interested or concerned, financially or otherwise, in the resolution as set out in item no. 4 of this Notice. This Explanatory Statement may also be regarded as a disclosure under Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements), 2015.

**ITEM NO. 5****Consent of Members for increase in the limits applicable for making investments under Section 186 of the Companies Act, 2013**

In order to make optimum use of funds available with the Company, the Board of Directors of the Company proposes to make use of the surplus funds, by making investment in other bodies corporate or mutual funds/bonds/government securities etc., as and when required.

Pursuant to the provisions of Section 186(3) of the Companies Act, 2013 and Rules made there under, the Company needs to obtain prior approval of shareholders by way of special resolution passed at the General Meeting in case the amount of investment proposed to be made is more than the higher of sixty percent of the paid up share capital, free reserves and securities premium account, or one hundred percent of free reserves and securities premium account.

In the 36<sup>th</sup> Annual General Meeting held on September 3, 2021, members had approved the investment limit of Rs. 100 crore (Indian Rupees One Hundred Crore Only). However, keeping in view the surplus funds available with the Company, it is now proposed to revise the investment limit to Rs. 150 crore (Indian Rupees One Hundred Fifty Crore Only).

Accordingly, approval of the members is sought by way of special resolution as contained in the notice of the Annual General Meeting for an investment limit not exceeding INR 150 Crore (Indian Rupees One Hundred Fifty Crore Only) outstanding at any time, notwithstanding that such investments are in excess of the limits prescribed under Section 186 of the Companies Act, 2013.

The Directors, therefore, unanimously recommend the Special Resolution set out in item No. 5 as an enabling resolution, authorizing the board of directors of the Company to make investments, within the limits as mentioned in the proposed resolution, for the approval of the shareholders.

None of the Directors, Key Managerial Personnel of the Company or their relatives or any of other officials of the Company as contemplated in the provisions of Section 102 of the Companies Act, 2013 is, in any way, financially or otherwise, concerned or interested in the resolution set out at item no. 5. This Explanatory Statement may also be regarded as a disclosure under Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements), 2015.

#### ITEM NO. 6

Provided that such registers or copies of return may also be kept at any other place in India in which more than one-tenth of the total number of members entered in the register of members reside, if approved by a special resolution passed at a general meeting of the Company.

Link Intime India Private Limited whose office is located at C-101, 247 Park, LBS Marg, Vikhroli (West), Mumbai - 400 083.

Since the Corporate Office of the Company has been recently located at 1005-1006 The Summit Business Bay, Andheri - Kurla Road, Andheri East, Mumbai - 400 093, it is proposed to keep the Annual Returns and other statutory registers and records prescribed under the Companies Act, 2013 and Rules framed thereunder (other than books of accounts and financial statements under Section 128 of the Act which shall continue to be kept at the registered office of the Company) at the Corporate Office address, as approved by the Board of Directors in the meeting held on May 21, 2024.

The Board recommends the Special Resolution as set out at item no. 6 for approval by the Members.

None of the Directors, Key Managerial Personnel of the Company or their relatives or any of other officials of the Company as contemplated in the provisions of Section 102 of the Companies Act, 2013 is, in any way, financially or otherwise, concerned or interested in the resolution set out at item no. 6. ### BUSINESS OVERVIEW AND STATE OF AFFAIRS

India stands at a pivotal point in its growth journey, poised to become a US\$5 trillion economy within the next few years. It is expected that the gross domestic product (GDP) will exceed 7.2% in 2023-24, marking the third consecutive year of over 7% growth. This resilience is particularly compelling at a time when global growth continues to face challenges.

From a Company perspective, during the year under review the fluctuations in prices of petroleum products and the simmering geo political tensions due to wars in Ukraine and Middle East and supply chain disruptions resulted in lower margins. The compression in demand in matured markets was offset by positive growth in domestic volumes. In the long run, the rising demand in domestic markets will ensure sustained revenue growth.

Your Company's sales turnover during the year under review was Rs. 7667.14 lacs as compared to Rs. 8870.48 lacs in the previous year. Other income in the year under review was Rs. 2172.58 lacs as compared to Rs. 143.98 lacs in previous year, due to sharp increase in value of investment portfolio on account of bullishness in the stock market. Hence, total of sales and other income increased to Rs. 9839.72 lacs from Rs. 9014.46 lacs in previous year. The Profit Before Tax (PBT) for the period was Rs. 2797.83 lacs as against profit of Rs. 1087.73 lacs in the previous year.

### SHARE CAPITAL

The total issued and paid-up share capital of the Company as on March 31, 2024 is Rs. 9,16,36,030/- divided into 91,63,603 equity shares of Rs.10/- each. There was no change in the share capital of the Company during the year under review.

### EVENTS OCCURRING AFTER THE BALANCE SHEET DATE

No material changes and commitments which could affect the financial position of the Company have

occurred between the end of the financial year of the Company to which the financial statements relate and the date of this Report.

## DIVIDEND

The Board of Directors of the Company recommends for consideration of shareholders at the 39<sup>th</sup> Annual General Meeting, the payment of final dividend @ 18 % (Re. 1.80 per share) (subject to tax deduction at source) on the equity shares of face value of Rs. 10/- each for the year ended March 31, 2024.

The Board proposes to transfer an amount of Rs. 50.00 lacs to the General Reserve.

## TRANSFER TO INVESTOR EDUCATION AND PROTECTION FUND

In accordance with Section 124 and 125 of the Companies Act, 2013 and Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 and amendments thereof, equity dividend amount of Rs. 254,393/- and OCPS dividend amount of Rs. 67,829/- both for the financial year 2015-16 which remained unclaimed for a period of seven years was transferred to the Investor Education and Protection Fund (IE&PF) during the year. Further, 6820 shares pertaining to such unclaimed dividend for financial year 2015-16 was also transferred to the IE&PF Authority, as per the statutory provisions. Dividend amount of Rs. 317,415 /- for the financial year 2022-23, in respect of the shares held by the IE&PF Authority was also transferred to the designated IE&PF bank account during the year.

### To the Members of Rishiroop Limited Report on the Standalone Financial Statements

#### Opinion

#### Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

#### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

The Key Audit Matter	How the matter was addressed in our audit
<b>Valuation &amp; classification of Financial Instruments</b>	
<p>As per Ind As 109, 'Financial Instruments', an entity shall recognize a financial asset or a financial liability in its balance sheet when, and only when, the entity becomes party to the contractual provisions of the instrument.</p> <p>The financial assets shall be classified as subsequently measured at amortized cost, fair value through comprehensive income or fair value through profit &amp; loss. The measurement basis and valuation of the financial assets involve significant judgment &amp; estimation on behalf of the management in determining the basis of the entity's model for managing the financial assets and the contractual cash flow characteristics of the financial assets.</p> <p>As disclosed in note no. 44 to these financial statements, the Company has significant amounts of financial assets that are measured at either fair value through other comprehensive income, fair value through profit &amp; loss or at amortized cost. Further the fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> <li>- We analysed &amp; obtained an understanding of the Company's model of managing the financial assets &amp; the contractual characteristics of the financial assets which were used in subsequent measurement of the financial assets at either amortized cost, fair value through comprehensive income or fair value through profit &amp; loss.</li> <li>- We evaluated and tested the design and operating effectiveness of key controls related to valuation of financial instruments and independent price verification.</li> <li>- We evaluated the valuation techniques, inputs and assumptions through comparison with the valuation techniques commonly used in the markets, validation of observable inputs using external market data, and comparison with valuation outcomes obtained from various pricing sources.</li> <li>- Furthermore, we evaluated and tested the design and operating effectiveness of internal controls related to disclosures of fair value</li> </ul>

### **Information other than the financial statements & Auditor's report thereon**

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the standalone financial statements and our auditors' report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance or conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### **Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements**

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Standalone Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Companies Act, 2013,

we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonable knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality & qualitative factors in (i) planning the scope of our audit and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## Annexure - B to the Independent Auditor's Report

Report on the Internal Financial Controls under Clause (i) of Sub-Section 3 of Section 143 of the Companies Act, 2013 ("the Act") referred to in paragraph 2 (f) on Report on Other Legal and Regulatory Requirements of our report.

### Opinion

We have audited the internal financial controls over financial reporting with reference to the standalone financial statements of Rishiroop Limited ("the Company") as of 31<sup>st</sup> March, 2024 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion the Company has in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31<sup>st</sup> March 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

### Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

### Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to

the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### **Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### 2 Significant Accounting Policies :

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the periods presented, unless otherwise stated.

#### 2.1 Basis of Preparation and Presentation of Financial Statements & Use of Estimates :

2.1.1 The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) as prescribed under Section 133 of the Act to be read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016, the relevant provisions of the Companies Act, 2013 (“The Act:”) and guidelines issued by the Securities & Exchange Board of India.

The Company’s Financial Statements for the year ended 31st March, 2024 comprises of the Balance Sheet, Statement of Profit and Loss, Cash Flow Statement, Statement of Changes in Equity and the Notes to Financial Statements.

2.1.2 The preparation of financial statements, in conformity with generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, Income and expenses and disclosure of contingent liabilities at the date of the financial statements. Although these estimates are based upon management’s best knowledge of current events and actions, actual results could differ from these estimates. Underlying estimates are reviewed on an ongoing basis. Any revision to accounting estimates is recognised prospectively in current and future periods.

2.1.3 The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities:

- (i) Derivative Financial Instruments measured at fair value.
- (ii) Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments)
- (iii) Assets held for sale - measured at the lower of its carrying amount and fair value less costs to sell; and
- (iv) Employee’s Defined Benefit Plan as per actuarial valuation at every year end.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions, regardless of whether that price is directly observable or estimated using another valuation technique. In determining the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

#### 2.2 Functional and presentation Currency :

The financial statements are presented in Indian Rupees, which is the functional currency of the Company and the currency of the primary economic environment in which the Company operates.

## 2.3 Revenue recognition :

### 2.3.1 The Company earns revenue primarily from Manufacture, Sale of goods, rendering services.

Effective April 1, 2018, the Company has applied Ind AS 115 which establishes a comprehensive framework for determining whether, how much and when revenue is to be recognised. Ind AS 115 replaces Ind AS 18 Revenue. The Company has adopted Ind AS 115 using the cumulative effect method. The effect of initially applying this standard is recognised at the date of initial application (i.e. April 1, 2018).

### 2.3.2 Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

Revenue from the sale of goods is recognised at the point in time when

- Control is transferred to the customer.
- The company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold.
- The amount of revenue can be measured reliably.

### 2.3.3 Revenue is measured based on the transaction price, which is the consideration, adjusted for price concessions also excludes taxes collected from customers.

### 2.3.4 Use of significant judgements in revenue recognition

1. The Company's order from customers could include promises to transfer products and services to a customer. The Company assesses the products / services promised in a order and identifies distinct performance obligations in the contract. Identification of distinct performance obligation involves judgement to determine the deliverables and the ability of the customer to benefit independently from such deliverables.
2. The Company uses judgement to determine an appropriate standalone selling price for a performance obligation. The Company allocates the transaction price to each performance obligation on the basis of the relative standalone selling price of each distinct product or service promised in order.

### 2.3.5 Dividend and interest income :

Dividend income from investment is recognized when the company's right to receive payment has been established.

Interest income from a financial asset is recognized when it is probable that the economic benefit will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on time basis, by reference to the principal outstanding and at the effective interest rate applicable.

## 2.4 Inventories :

Inventories are valued, after providing for obsolescence, as under:

- 2.4.1 Raw materials, stores, spares, packing materials, loose tools and traded goods at weighted average cost or net realizable value, whichever is lower.
- 2.4.2 Imports in transit are valued at purchase cost.
- 2.4.3 Work-in-progress at weighted average cost including conversion cost or net realizable value, whichever is lower.
- 2.4.4 Finished goods and Goods in transit at weighted average cost including conversion cost and Custom Duty, GST & Taxes paid / payable on such goods or net realizable value, whichever is lower.

## 2.5 Classification of Assets and Liabilities into Current / Non - Current :

The Company has ascertained its operating cycle as twelve months for the purpose of Current / Non-Current classification of its Assets and Liabilities.

For the Purpose of Balance Sheet, an asset is classified as current if :

- (i) It is expected to be realized, or is intended to be sold or consumed, in the normal operating cycle; or
- (ii) It is held primarily for the purpose of trading; or
- (iii) It is expected to realize the asset within twelve months after the reporting period; or
- (iv) The asset is a cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

Similarly, a liability is classified as current if:

- (i) It is expected to be settled in the normal operating cycle; or
- (ii) It is held primarily for the purpose of trading; or
- (iii) It is due to be settled within twelve months after the reporting period; or
- (iv) The Company does not have an unconditional right to defer the settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification.

All other liabilities are classified as non-current.

## 2.6 Property, Plant and Equipment :

For transition to Ind AS, the Company has elected to continue with the carrying value of its property, plant and equipment recognized as at 1st April, 2016 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

Cost includes purchase price, inward freight, taxes and expenses incidental to acquisition and installation, up to the point the asset is ready for its intended use. Own manufactured asset are capitalized at factory cost. Certain project related direct expenses, incurred at site for the period upto the date of commencement of commercial production are capitalized.

**Depreciation and Amortisation :**

Depreciation on Fixed Assets have been provided on the following basis.

- a) Written Down Value basis at the rates and in the manner prescribed under Schedule II of Companies Act, 2013.
- b) Lease Hold Land is being amortized over the period of lease. Leasehold building improvements are written off over the period of lease or their estimated useful life whichever is lower, on a straight line basis.
- c) Residual value of the assets is estimated at 5% of cost. The useful lives of the assets of the Company are as follows:-

<b>Asset</b>	<b>Useful lives</b>
Leasehold land	Over lease period
Factory Buildings	30 years
Plant & equipment	15 years
Office equipment	5 years
Electricals and Lab equipment	10 Years
Furniture and fixtures	10 years
Vehicles	8 years
Computers	3 years

When an asset is scrapped or otherwise disposed off, the cost and related depreciation are removed from the books and the resultant profit or loss (including capital profit), if any, is reflected in the statement of profit and loss.

The estimated useful life and residual value is reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

#### 2.6.1 Intangible Assets :

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortization. Amortization is recognized on a straight line basis over their estimated useful lives of 3 years, which reflects the pattern in which the asset's economic benefits are consumed. The estimated useful life, the amortization method and the amortization period are reviewed at the end of each reporting period, with effect of any change in estimate being accounted for on a prospective basis.

An intangible asset is derecognized on disposal or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, and are recognised in the profit or loss when the asset is derecognised.

#### 2.7 Non - current assets held for sale :

Non - current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the asset is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such asset and its sale is highly probable.

Non - current assets classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell.

Non - current assets held for sale are disclosed under "Other Non-Current Assets".

#### 2.8 Impairment of tangible and intangible assets other than goodwill :

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognized immediately in profit and loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in profit and loss.

#### 2.9 Financial Instrument :

Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the instruments.

##### 2.9.1 Financial asset

All regular way purchases or sales of financial assets are recognized and de-recognized on a trade date

basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognized financial assets are subsequently measured in their entirety at either amortized cost or fair value, depending on the classification of the financial assets.

#### **2.9.1.1 Financial assets at amortised cost**

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

#### **2.9.1.2 Financial assets at Fair Value through Profit and Loss ( FVTPL)**

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on re-measurement recognized in profit and loss. The net gain or loss recognized in profit and loss incorporates any dividend or interest earned on the financial asset and is included in the 'Other Income / Other expenses' line item. Dividend on financial assets at FVTPL is recognized when the Company's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity and the amount of dividend can be measured reliably.

#### **2.9.1.3 Financial assets at Fair Value through Other Comprehensive Income ( FVTOCI)**

Financial assets at FVTOCI are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding and selling financial assets.

The company has made an irrevocable election to present subsequent change in the fair value of Debt instruments not held for trading in other comprehensive income.

#### **2.9.1.4 Impairment of financial assets**

The Company applies the expected credit loss model for recognizing impairment loss on financial assets measured at amortized cost, lease receivables, trade receivables, other contractual rights to receive cash or other financial asset, and financial guarantees not designated as at FVTPL.

For trade receivables or any contractual rights to receive cash or another financial assets that results from transactions that are within the scope of Ind AS 18, the Company always measures their allowances at an amount equal to lifetime expected credit losses.

Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivable, the Company has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

#### **2.9.1.5 Derecognition of financial assets**

The Company de-recognizes a financial asset when contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

#### **2.9.1.6 Foreign exchange gains and losses**

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period.

For foreign currency denominated financial assets measured at amortized cost and FVTPL, exchange differences are recognized in profit and loss, except for those which are designated as hedging instruments in a hedging relationship.

## 2.9.2 Financial liabilities

Financial liabilities are subsequently measured at amortized cost or at FVTPL.

### 2.9.2.1 Financial liabilities at FVTPL

Financial liabilities such as derivative that is not designated and effective as a hedging instrument are classified as at FVTPL.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on re-measurement recognized in profit and loss. The net gain or loss recognized in profit and loss is included in the 'Other Income/ Other Expenses' line item.

### 2.9.2.2 Financial liabilities subsequently measured at amortized cost

Financial liabilities that are not held for trading and are not designated as at FVTPL are measured at cost.

### 2.9.2.3 Foreign exchange gains and losses

For financial liabilities that are denominated in a foreign currency and are measured at amortized cost at the end of each reporting period, the foreign exchange gains or losses are determined based on the amortized cost of the instruments and are recognized in 'Other Income / Other Expenses'.

The fair value of financial liabilities denominated in foreign currency is determined in that foreign currency and translated at the spot rate at the end of the reporting period. For financial liabilities that are measured at FVTPL, the foreign exchange component forms part of the fair value gains or losses and is recognized in profit and loss.

### 2.9.2.4 Derecognition of financial liabilities

The Company de-recognizes financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired.

#### Derivative financial instruments

The Company enters into foreign exchange forward contracts to manage its exposure of foreign exchange rate risks.

Derivatives are initially recognized at fair value at the date the derivative contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognized in profit and loss immediately.

## 2.10 Contingent Liabilities and Contingent Assets :

Contingent liability is disclosed in the case of:

- i) a present obligation arising from a past event, when it is not probable that an outflow of resources will be required to settle the obligation
- ii) a present obligation when no reliable estimate is possible, and
- iii) a possible obligation, arising from past events where the probability of outflow of resources is not remote.

Contingent assets are neither recognized nor disclosed. Contingent liabilities and contingent assets are reviewed at each balance sheet date and updated / recognized as appropriate.

## 2.11 Borrowing Cost :

As per Indian Accounting Standard 23 (Ind AS 23) on "Borrowing Costs" borrowing costs that are -

- (a) directly attributable to the acquisition, construction, production of a qualifying asset are capitalized as a part of cost of such asset till the time the asset is ready for its intended use and;

- (b) not directly attributable to qualifying assets are determined by applying a weighted average rate and are capitalized as a part of the cost of such qualifying asset till the time the asset is ready for its intended use.

Remaining borrowing costs are recognized as an expense in the period in which they are incurred.

A qualifying asset is an asset that necessarily requires a substantial period of time to get ready for its intended use or sale.

## 2.12 Lease :

### Company as a lessee

The Company recognizes right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any re-measurement of the lease liability. The right-of-use assets are depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognized in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the company uses incremental borrowing rate. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently re-measured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and re-measuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

The Company recognizes the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and statement of profit and loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognizes any remaining amount of the re-measurement in statement of profit and loss.

The Company has elected not to apply the requirements of Ind AS 116 - Leases to short term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

## 2.13 Foreign Currencies :

Items included in the financial statements are measured using the currency of the primary economic environment in which the company operates ('the functional currency'). These financial statements are presented in Indian rupee which is the Company's functional and presentation currency. Transactions in currencies other than the Company's functional currency (foreign currencies) are recognized at the rate of exchange prevailing at the dates of transactions. At the end of each reporting period monetary item denominated in foreign currencies are translated at the rates prevailing at that date.

Changes in fair value of forward contracts designated as fair value hedge are recognised in the statement of profit and loss.

## 2.14 Employee Benefits :

### 2.14.1 Post - Employment Benefits

#### 2.14.1.1 Defined Contribution Plans:

Defined contribution plan consists of Government Provident Fund Scheme and Employee State Insurance scheme. Company's contribution paid/payable during the year under these schemes are recognized as expense in the statement of Profit and Loss. There are no other obligations other than the contribution made by the company.

#### 2.14.1.2 Defined Benefit Plans:

For defined benefit retirement plans (i.e. gratuity ) the cost of providing benefits is determined using the projected unit credit method, with independent actuarial valuations being carried out at the end of each annual reporting period. Re-measurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling and the return on plan assets(excluding interest), is reflected immediately in the statement of financial position with a charge or credit recognized in other comprehensive income in the year in which they occur. Defined benefit costs are categorized as follows:

- > service cost ( including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- > net interest expense or income; and
- > re-measurement

### 2.14.2 Compensated Absences ( Leave Salary )

Compensated absences which accrue to employees and which are expected to be availed within twelve months immediately following the year end are reported as expenses during the year in which the employee performs the service that the benefit covers and the liabilities are reported at the undiscounted amount of the benefit, and where the availment or encashment is otherwise not expected to wholly occur within the next twelve months, the liability on account of the benefit is actuarially determined using the projected unit credit method.

## 2.15 Provisions :

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

## 2.16 Income Taxes :

Income tax expenses comprise current tax and deferred tax charge or credit.

Current Tax is measured on the basis of estimated taxable income for the current accounting period in accordance with the applicable tax rates and the provisions of the Income-tax, 1961 and other applicable tax laws.

Deferred tax is provided, on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax assets and liabilities are measured at tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted at the reporting date. Tax relating to items recognized directly in equity or OCI is recognized in equity or OCI and not in the statement of Profit and Loss. MAT Credits are in the form of unused tax credits that are carried forward by the Company for a specified period of time, hence it is grouped with deferred Tax asset.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable.

#### **2.17 Earnings Per Share :**

The basic Earnings Per Share ("EPS") is computed by dividing the net profit / (loss) after tax for the year attributable to the Equity shareholders, by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, net profit / (loss) after tax for the year attributable to the equity shareholders and the weighted average number of equity shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

#### **2.18 Critical Accounting Judgements and Key Sources of Estimation Uncertainty :**

The preparation of the Company's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

##### **2.18.1 Critical judgments in applying accounting policies**

In the process of applying the Company's accounting policies, management has made the following judgments, which have the most significant effect on the amounts recognized in the financial statements.

##### **2.18.2 Key assumptions**

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

##### **2.18.3 Useful Lives of Property, Plant and Equipment**

The Company uses its technical expertise along with historical and industry trends for determining the economic life of an asset / component of an asset. The useful lives are reviewed by management periodically and revised, if appropriate. In case of a revision, the unamortized depreciable amount is charged over the remaining useful life of the assets.

##### **2.18.4 Fair value measurement of financial instruments**

Fair value of financial assets and liabilities is normally determined by references to the transaction price. If the fair value is not reliably determinable, the company determines the fair value using valuation techniques that are appropriate in the circumstances and for which sufficient data are available, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

##### **2.18.5 Defined benefit plans**

The cost of the defined benefit gratuity plan and other post - employment medical benefits and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

#### (b) Fair Value Hierarchy

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consist of the following three levels :

Level 1 - Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs are other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)

Level 3 - Inputs are not based on observable market data (unobservable inputs). Fair value are determined in whole or in part using a valuation model based on assumption that are neither supported by prices from observable current market transaction in the same instrument nor are they based on available market data.

The Investments included in level 3 of fair value hierarchy have been valued using the cost approach to arrive at their fair value. The cost of unquoted investments approximate the fair value because there is a wide range of possible fair value measurements and the cost represents estimate of fair value within the range.
