# Piramal plans to raise \$1.5 bn for private credit

SAIKAT DAS  
July 25

**PIRAMAL ALTERNATIVES PLANS** will raise \$1.5 billion for investment in India's high-yield companies via private credit, according to its chief executive officer.

The unit of Piramal Group, which is controlled by billionaire Ajay Piramal, has four existing private credit funds that together have raised \$4 billion, said Kalpesh Kikani, managing director and chief executive officer of Piramal Alternatives. Their returns have exceeded 20% on an annualised basis, he said.

Those four funds include India Resurgence Fund in partnership with Bain Capital and the Performing Credit Fund where the Caisse de depot et placement du Quebec is an anchor investor.

"Deployments should be through our four existing funds that can offer private source of capital," Kikani said. The company is sounding out interna-

tional investors for funds, "be it for transformation, turnaround, growth capital or special situations." India's economy is forecast to grow 5.9% this year, outpacing China and the average for other emerging economies in Asia, according to the International Monetary Fund. That's spurring inflows into the country. "The need for private capital has suddenly surged amid India's fast expanding economy," said Kikani. — BLOOMBERG

# INDIA SECOND-LARGEST MARKET FOR FIRM AFTER US Unilever eyes key markets as volumes flat in Q2: CEO

VIVEAT SUSAN PINTO  
Mumbai, July 25

**HEIN SCHUMACHER, THE** new chief executive officer (CEO) of Unilever, who replaced Alan Jope on July 1, said he remained committed to stepping up performance at the consumer goods company, after it reported flat volumes for the June quarter on Tuesday.

Sales growth of 7.9% for the June quarter rose on the back of price hikes, while volume growth declined 0.3% for the period. Of Unilever's turnover, 60% comes from emerging markets, which includes India, the company's second-largest market globally after the US.

In an earnings' call on Tuesday, Schumacher, 51, said he would be visiting more of the company's key markets in the days ahead, as he prepared to unveil his broad plans for Unilever in October. Besides the US and India, the company counts China among its priority markets. While Schumacher has

already visited the top three priority markets, he said, he would be visiting Indonesia and other emerging markets in the future as part of his larger outreach programme to understand Unilever's brands and markets across the globe, he said.

"I would like to see us continuing our agility, accountability and category focus," Schumacher said about his first impressions three weeks into the job as CEO. "There is real opportunity to step up performance and competitiveness and drive significant value creation ahead," he said, adding that

he wanted to see more brands performing better than competition in the future.

"Our brands should be winning superiority tests week in, week out, and when they are not, we should be taking decisive action," he said, adding that the company would be investing more behind brands in the future as moderating inflation improved gross margins giving the firm

more room to reinvest in the business.

Schumacher also said that in fast-moving consumer goods (FMCG), consumers have the "final say" and that product superiority mattered the most in the industry.

Less than half of Unilever's business (41%) is winning share on a rolling 12-month basis, according to its latest results, which Schumacher said was "disappointing." The consumer goods veteran, who joined Unilever in October last year, said he wanted to increase this number, by paying more attention to research and development and holistic product quality.

Alongside product superiority, Schumacher outlined a keen focus on the innovation pipeline of the company and sustainability.

# IPL, 5G push Jio data usage growth to 7-quarter high

JATIN GROVER  
New Delhi, July 23

**RELIANCE JIO,** India's largest telecom operator by market share, witnessed a seven-quarter high growth in per capita data consumption on its network in the April-June quarter.

The growth was led by events like the Indian Premier League (IPL), 5G adoption and home broadband services, the firm said.

In the April-June quarter, average data consumption per user per month on Jio's network rose

7.8% quarter-on-quarter (q-o-q) to 24.9 GB. On a year-on-year (y-o-y) basis, the per capita data consumption on Jio's network increased 20%.

"This quarter, the monthly data traffic crossed 11 exabyte for the quarter, on the whole it was more than 33. And this was a function of multiple things: of course, 5G adoption also now showing up on network, fibre-to-home ramp up, as well as some events like IPL which resulted in a lot of data consumption on the network," said Anshuman Thakur,

head of strategy at Reliance Jio. "We are continuing to build capacity in the network both

through the 5G expansion," he said, adding that they are "well prepared for data traffic growing much more in the quarters to come." While the growth trigger for data consumption was set by streaming of FIFA and Women's IPL on Jio Cinema, in Men's IPL Jio witnessed nearly 32 million concurrent users watching IPL at its peak with more than 17 billion streams served over the season.

Prior to the April-June quarter, Reliance Jio witnessed a 12.8% QoQ growth in the per capita data consumption in the July-Septem-

ber quarter of FY22 to 17.6 GB. At that time, the growth was led by shift to work-from-home set-up by companies during Covid-19, higher content consumption by people and improvement of subscriber mix. That was the same quarter when the company witnessed a net subscriber reduction of 11 million, largely due to the removal of inactive subscribers from its network. Interestingly, in the April-June quarter, Jio's net subscriber addition at 9.2 million were the highest in four quarters. Increase in subscriber base too led

to increase in data consumption on Jio's network. One of the key reasons for Jio to see higher user addition, is because of the churn of subscribers by Vodafone Idea.

"While the rest of the industry has seen (subscriber) de-growth of nearly 3.7%, that has largely been driven by nearly 7% growth year on year in Jio subscriber base. And if you look at the net port-ins, we were about two and a half times the net port-ins for us as compared to our nearest competitor," said Kiran Thomas, president at Reliance Jio.

# Eruditus targets 40% increase in revenue in FY 24

ANES HUSSAIN  
Bengaluru, July 25

**ERUDITUS, THE EDTECH** unicorn backed by Softbank, is setting its sights on a 40% revenue increase in the coming financial year, according to the company's co-founder and CEO, Ashwin Damera. This would bring the company's revenue to around \$560 million in FY24. The ambitious outlook, according to Damera, comes on the back of an estimated 63% revenue growth in FY23 to \$400 million.

Eruditus has not yet officially made public its financial results for 2022-2023. Damera claims that despite overall sluggishness in the global edtech market, Eruditus' has managed to sustain its financial performance. The company has made significant progress in narrowing its losses in FY22 to \$40 million from \$66 million in FY21. The company is projecting to achieve full-year profitability with an estimated 7% EBITDA (earnings before income tax depreciation and amortisation), which would amount to \$40 million for FY 2023-24.

One of the factors contributing to Eruditus success, according to Damera, is its B2B enterprise segment. "Enterprise has witnessed a growth rate of 75-80%. In Q4 2023 B2B enterprise stood in at about 28% EBITDA. This growth has significantly improved our margins, putting us on the path to profitability." Operating in a business with higher gross margins, ranging from 55% to 60%, has also contributed to boosting our financial performance," he added.

Despite growth, Eruditus was careful in keeping "people cost as well as overhead cost the same by not allowing the workforce, and batch size to bleed out." "We have started automating a lot of

processes leading to operational synergy. And therefore the growth is coming at the same time we are able to maintain operating leverage which leads to a better bottom line." "Our international presence has been another key driving force, with approximately 80% of business generated overseas, while the remaining 20% comes from India. The United States is our most significant market amounting to about 35% of our students and revenue. India follows in closely at about 20% revenue." Looking forward, Damera sees tremendous potential in the Indian market, which is likely to be a major focus for the company's growth in the next few years.

# Minister: Will look at Foxconn, Vedanta chip plans separately

**THE CENTRE WILL** wait for separate proposals from Taiwan's Foxconn and Indian conglomerate Vedanta to set up semiconductor plants in the country and evaluate them accordingly, Minister of State for Electronics and IT Rajeev Chandrasekhar said here on Tuesday.

Early this month, Foxconn pulled out of a semiconductor joint venture with billionaire Anil Agarwal-promoted Vedanta. The Taiwanese electronics manufacturing giant said it was working to apply separately for setting up a semiconductor unit in India.

"There were two private partners who submitted a joint venture proposal (to set up a semiconductor unit in India). They now believe they will submit their proposals separately. So we will wait for their proposals and evaluate them accordingly," Chandrasekhar said when asked about the development. — PTI

### चकमकप्रकरणी एसआयटी स्थापन करण्याचे आदेश

**मुंबई :** चोरीच्या अनेक गुन्ह्यांमध्ये फरारी आरोपी असलेल्या जोगिंदर राणा याच्या नालासोपारा येथे २०१८ मध्ये झालेल्या कथित बनावट चकमकीच्या तपासासाठी उच्च न्यायालयाने मंगळवारी विशेष तपास पथक (एसआयटी) स्थापन करण्याचे आदेश दिले.

जोगिंदर याचा भाऊ सुरेंद्र राणा याने वकील दत्ता माने यांच्यामार्फत केलेल्या याचिकेवरील सुनावणीसाठी वेळी न्यायमूर्ती रेवती माहिते - डेरे आणि न्यायमूर्ती गौरी गोडसे यांच्या खंडपीठाने उपरोक्त आदेश दिले. नालासोपारा येथील स्थानिक गुन्हे विभागाचे पोलीस निहाळक मनोज सकपाळ आणि पोलीस हवालदार मंगेश चव्हाण यांनी बनावट चकमक घडवून आणल्याचा आरोप याचिकाकर्त्याने केला होता. तसेच, याप्रकरणी या दोघांवर गुन्हा दाखल करण्याची आणि प्रकरण सीबीआयकडे वर्ग करण्याची मागणी याचिकेत करण्यात आली होती.

घटनेच्या वेळी आणि नंतर घटनास्थळी उपस्थित असलेल्या नागरिकांनी भ्रमणध्वनीद्वारे काढलेली छायाचित्रे आणि चित्रफितींवरून पोलीसांनी जोगिंदर याची बनावट चकमक घडवून आणल्याचे दिसते, असा दावा याचिकाकर्त्याने केला होता. याप्रकरणी गुन्हा दाखल करण्याच्या मागणीसाठी राज्य सरकार, पोलीस महासंचालक आणि पालघरचे पोलीस अधीक्षक यांच्याकडे निवेदन सादर केले होते. मात्र, त्यांच्याकडून काहीच प्रतिसाद देण्यात आला नाही. पोलीसांनी याप्रकरणी केवळ अपघाती मृत्यूची नोंद केली आहे.
