DroneAacharya Aerial Innovations Limited, a leading player in the drone technology and training sector, is pleased to announce that it has been awarded a prestigious tender worth INR 11,80,000.00 by the Indian Defence System. The company will undertake advanced drone pilot training and GIS (Geographic Information System) training for 20 officers from the Northern Command Pre-Induction Training School at Bhalra, Jammu and Kashmir.

This achievement marks a significant milestone for DroneAacharya as it demonstrates the increasing integration of drones into the Indian Defence System, coupled with the need for professional training to harness their full potential.

The 14-day onsite training program will encompass a range of advanced modules, including Night Flying, Challenging Maneuvers, Emergency Response, Data Processing, and Image Interpretation. DroneAacharya aims to equip the officers with the necessary skills and knowledge to operate drones effectively in diverse and challenging environments.

As the only Private DGCA (Directorate General of Civil Aviation) certified drone pilot training organization in India to have conducted over 580 trainings, DroneAacharya has also successfully delivered more than 200 drone pilot training sessions for various Defense organizations across the country.

Amit Takte, Chief Technology Officer ("CTO") of DroneAacharya Aerial Innovations Limited, expressed his enthusiasm, stating, "We are honored to have been selected for this crucial task by the Indian Defence System. This reaffirms our position as a trusted partner in providing high-quality drone training services. We look forward to contributing to the skill development of the officers, enabling them to leverage drone technology effectively in their defense operations."

The training program is scheduled to commence within this month, and DroneAacharya remains committed to delivering excellence and contributing to the advancement of drone technology in India.
