DocExa pro by GlobalSpace Technologies to be launched on live Webinar on Diggipharmax platform on 9th May, 2020

Enabling doctors to create their virtual clinic on a click of a button

Mumbai, May 7th, 2020: GlobalSpace Technologies is happy to announce the launch of DocExa pro “an exclusive digital platform developed using Cloud & AI technology to help Doctors to instantly create their virtual clinics. DocExa launch is a significant development amidst the prevailing pandemic - Covid 19 situation perspective. Today in the era of lock down and social distancing, many Clinicians as well as patients would prefer to consult online rather than physical meetings for non critical medical conditions. Using DocExa platform a clinician can create his digital network of patients with absolute data security and privacy. Patients can download DocExa from app store and get connected to their clinicians, also they have the opportunity to store their medical history on mobile and share with their doctors as and when required. In addition, the platform would also enable to take quality Healthcare Services to the remotest corner of the country and contribute a bit to the noble social cause.

In addition to DocExa, GlobalSpace already has a strategic alliance with Mediapp, India’s leading digital distribution network for Pharmaceuticals. GlobalSpace is working towards integrating DocExa with Mediapp to create a 360 degree ‘Digital Healthcare Ecosystem’. DocExa along with Mediapp would create one of its kind digital platforms wherein a network of over 40000 chemists would be digitally connected to Doctors and Patients. The integrated platform would create one of its kind closed loop hyper local ePharmacy network with digital prescription and EMR. Once evolved, the combined platform would result into a seamless digital connection within the entire Healthcare value chain right from Pharma Companies to distributors to Chemists to Doctors and finally the Patients as well. GlobalSpace has constantly tried to remain ahead of the curve by offering solutions within the Healthcare Space. Launch of ‘DocExa’ is a major leap forward by GlobalSpace, which would make it a fully integrated Healthcare Solution provider.

GlobalSpace would present this exclusive unique platform through webinar to the healthcare ecosystem on 9th May, 2020 at 11:30 a.m. (I.S.T)
