III. Other Information

1) **Reasons of Loss and Inadequate Profits**

The political & economic instability coupled with lack of acceptable banking facilities, the Company's exports

(Voils) to key exports markets - Sudan & Yemen have come down sharply. The economic sanctions by US have crippled both these countries and the products sold by the Company in these markets are market specific & don't have much acceptability in other markets. Further, the domestic market also witnessed the downfall during the FY 2018-19 and has affected the profits of the Company.

2) Steps taken or proposed to be taken for improvement

The company is making all efforts to fill the drop of sales in Sudan and Yemen by increasing presence in readymade garment segment space and alternative markets. The company is exploring strategic alliances with large domestic and international brands to boost sales on sustainable basis. As strategy we have expanded our customer base in Bangladesh which is emerging as a major hub for textiles trade globally.

3) Expected Increase in Productivity and profits in measurable terms

With improving domestic market and new strategic initiatives, the Company is hopeful for better performance in the next financial year.

Item No 6 & 7

In terms of the provisions of Companies Act, 2013, Members of the Company, at their 19th Annual General Meeting held on 29th September, 2014, had approved the appointment of Mr. Shobhan Thakore and Mr. Ranjan Pant as Independent Directors of the Company, whose terms are due to expire on 28th September, 2019.

As per the Section 149(10) of the Act, an independent director shall hold office for a term of five consecutive years and shall be eligible for re-appointment for a second term of five years on passing of a special resolution by the Company.

On the recommendation of Nomination & Remuneration Committee, the Board of Directors of the Company at their meeting held on 8th May, 2019 considered and approved the re-appointment of the above Independent Directors of the Company for the second term of five years i.e. upto 28th September, 2024. The Company has also received consent letters from Mr. Shobhan Thakore and Mr. Ranjan Pant for their re-appointment.

In the opinion of the Board, the Independent Directors fulfill the conditions specified in the Act and the Rules made thereunder and listing regulations, for appointment as Independent Directors.

In compliance with the provisions of Section 149 read with Schedule IV of the Act, the appointment of above directors as Independent Directors is now being placed before the Members in general meeting for their approval.

Further, in terms of Regulation 17 of the Listing Regulations, a non-executive director who attains the age of seventy-five years, shall not continue his directorship as a non-executive director, unless such appointment is approved by the members by special resolution. Mr. Shobhan Thakore shall attain the age of seventy-five years on 3rd July, 2022 and accordingly the approval of the members is also sought for continuation of his appointment on attaining the age of seventy five years.

Accordingly, the Board recommends the passing of the resolution set out in Item No. 6 and 7 of the notice as the **Special Resolutions**.

Mr. Shobhan Thakore and Mr. Ranjan Pant are interested in the resolutions set out respectively at Item Nos. 6 and 7 of the Notice with regard to their respective re-appointments.

Save and except the above, none of the Directors, Key Managerial Personnel or their relatives is concerned or interested in the Resolutions mentioned in Item No. 6 and 7.

Item No 8

In view of the existing and future financial requirements of the Company to support its business operations, the Company is in need of additional funds. As an alternative means of funding, your Company may raise funds through offer and issue of Non-Convertible Debentures ("NCDs") on a Private Placement basis.

Further, as per the provisions of Section 42 of the Companies Act, 2013 and Rules made thereunder, the prior approval of shareholders through Special Resolution shall be valid for all the offers or invitations for such NCDs during one year. Accordingly, the approval of the shareholders is sought for the fresh offer of NCDs on a Private Placement basis upto a limit of ₹ 150 Crores for a period of one year commencing immediately from the date of passing of this resolution.

The Board of Directors of the Company recommends the passing of the resolution set out in Item No. 8 of the notice as the Special Resolution.

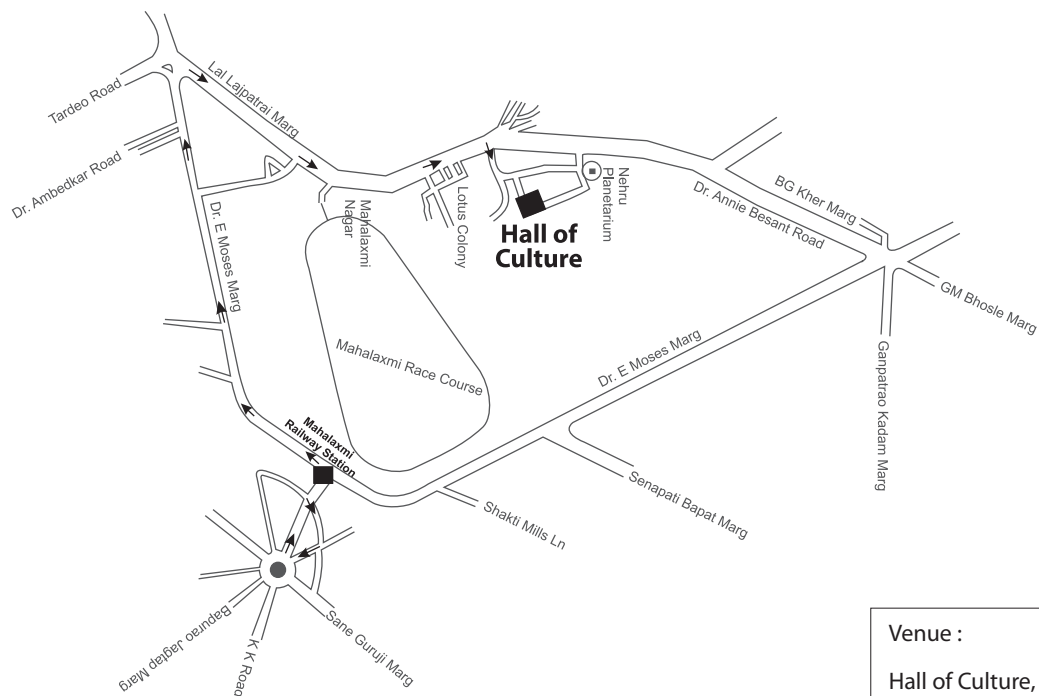

None of the Directors, Key Managerial Personnel of the Company or their relatives is concerned or interested in the resolution set out in the Item No. 8 of the Notice.

CSR Annual Report 2018-19

CSR at a Glance: 2018-19

Even after 72 years of attaining independence, a significant number of our rural/ tribal population has to run from pillar to post to get primary health services. In spite of walking and travelling long hours to Primary Health Centres (PHC), often to their dismay either the doctor is not present or there are no primary medicines. Understanding the criticality of the need for affordable healthcare for the poor in our country, UAPF with its strong operational knowledge of running Mobile Health Units (MHUs) since the last 9 years has extended its health services for people living in the forests too. Resources are utilized to a great extent each year to reach out to as many marginalized groups as possible.

The total MHUs managed currently are 10, Nagpur has four MHUs, Raigad and Shahapur District has two each, one in Pench and an Ophthalmology van at Jhunjhunu District. The MHU in Bor and Umred Karandala forest cover 24 villages respectively every week. The other two MHUs are in Butibori and Hingna Taluka. Along with primary health services, the foundation periodically conducts mega health camps wherein overall screening, HB and sugar testing is also undertaken. More specific camps like Orthopedic, Gynecology etc are also organized with the support of Gram Panchayat and forest department.

In the last FY 2018-19 in all 38,334 patients were examined and treated in the various locations at Nagpur.

Ophthalmology for Construction workers:

The foundation tries to reach as many marginalized groups as possible with the preeminent aim of providing affordable and quality health care at the door step.

Camps held: 11

People screened: 659

Spectacles distributed: 371

Referred to base hospital: 35

Cataract surgeries: 2

Almost 60 % Construction Workers needed glasses.

23% have been identified with other eye related problems.

Rural Eye Health at Jhunjhunu District (2015-2019)

UAPF along with Sight Savers International launched a project three years back, Ophthalmology service for the entire District of Jhunjhunu. The project is in its final stage now, it will be terminated with a dissemination programme wherein, a report will be published on the key mile stones achieved by during the last three years. At the local level, the information will be shared with the District Chief Medical officer, Collector, representatives of NGO and

private hospitals functioning in that region. The work will be continued by the base hospital that has been the service provider during the entire duration of the project.

- Total population: 21,39,658
- 8 Blocks, 301 Panchayats
- People Screened : 42,616
- Spectacles distributed : 12,673
- Surgeries conducted : 4,300

Health Services at Tribal Residential Ashram Schools

The Government of Maharashtra along with UAPF undertook the initiative of providing Primary Health services in the Tribal Ashram Schools. A resolution in this direction was passed three years back and for the first time a District model was adopted to start the health services on a daily basis with the help of Mobile vans. Today, approximately 16,000 children from 32 residential Ashram schools benefit from our weekly health services at Shahapur/ Murbad at Thane District and all schools of Raigad District. Along with curative services, foundation stresses a lot on prevention of diseases. The focus through all these efforts is to prevent diseases, promote healthy habits and bring in discipline in their daily life. The foundation also provides sanitary napkins at very subsidized rates; all vans are stocked with sanitary napkin packets, the girls are very comfortable in buying it from the MHU team.

Supplementary Nutrition Programme

Many of the children at the tribal schools are weak and malnourished, after assessing their HB levels, the foundation identified 150 children from three schools, and they have been provided with fortified supplementary nutrition, (Healthy Laddoos). The staff has been trained to make the premix laddoos hygienically and it is then given to the children. If their HB levels show improvement, the aim is to make government implement this programme in all the tribal schools.

School Adoption: Infrastructure Development

UAPF has adopted Chafewadi Ashram School, Neral, Raigad District. There are about 350 children, both day scholars and boarders. To begin with, three RO plants have been set up and the maintenance of the machines is also taken care by the foundation, the children now get potable water. The girl's dormitory has been extended, newly painted and additional fans have been fitted. The room which had a very pathetic look has now been given a face lift. The standard VII children did not have a classroom, class was conducted in one tiny dormitory and the foundation converted a store room into a beautiful classroom, which now has wall to wall tiles, bright colour and good ventilation. The foundation is developing an indoor games room, this has been fitted

on a vacant plot in the school premises, and the work is in progress to develop this.

Sustainable livelihoods:

Hand block printing as an initiative started just over two years back, it has now become a source of livelihood for rural women. The women are involved in printing, product development and also participate in the exhibitions to

market the products. All women have now been registered under the Government of India Handicraft Board; they have received artisan cards, which will enable them to participate in government sponsored exhibitions across India.

- Printed 8000 meters, participated in 4 exhibitions in Mumbai and Nagpur.
- Rekh is the brand name of the products.

Management Discussion & Analysis

Overview: Global Economy

Global growth is expected to remain at 3.0 per cent in 2019 and 2020, however, the steady pace of expansion in the global economy masks an increase in downside risks that could potentially exacerbate development challenges in many parts of the world, according to the World Economic Situation and Prospects 2019.

This broadly steady forecast masks marked differences between the outlook for advanced economies and EMDEs. Growth in advanced economies is projected to slow, as labour market slack diminishes and monetary policy accommodation is gradually unwinding, moving closer to subdued potential growth rates, which remain constrained by aging populations and weak productivity trends. Conversely, growth in EMDEs is expected to accelerate, reaching 4.5 percent in 2018 and an average of 4.7 percent in 2019-20. Growth in commodity importers is projected to remain stable, averaging 5.7 percent in 2018-20, as a gradual slowdown in China is offset by a pickup in some other large economies. Within the broader group of EMDEs, growth in low-income countries is projected to rise to 5.6 percent on average in 2019-20, as conditions gradually improve in oil and metals-exporting economies.

The fashion industry is going through a seismic shift, driven by massive long-term changes that serve as a backdrop for everything that is happening. These are overarching, interconnected forces that will drive and shape the trends in years to come.

The key challenges, the apparel industry will face in 2019, are not new. McKinsey Global Fashion Survey shows that the four biggest challenges are:

1. Dealing with volatility, uncertainty and shifts in the global economy;
2. Competition from online and Omni channel;
3. Value chain improvement and digitalization;
4. Decreasing foot traffic and offline retailing pressure.

One of the biggest opportunities lies in digitalization of the value chain. As an example, the use of rich data and granular customer insights to inform decisions offer business opportunities across the fashion value chain, in areas ranging from dynamic pricing to optimized product replenishment.

Indian Textile Market: Industry Structure and Development

India's textile sector is one of the mainstays of the national economy. The country continues to be the only country other than China to have the full textile chain i.e. from fibre to clothing.

Indian Textiles and Apparels Industry has gone through major Taxation reform in term of GST implementation which had short term impact in FY'19 but this will boost the organised sector.

The industry currently estimated at around US\$ 100 billion, is expected to reach US\$ 223 billion by 2021 has witnessed a spurt in investment during the last five years. The industry (including dyed and printed) attracted Foreign Direct Investment (FDI) worth US\$ 2.41 billion during April 2000 to December 2016 and 26% of this investment came during October 2015 to December 2016 but there is reverse flow of FDI too, to competing nations like Bangladesh, Sri Lanka and Ethiopia due to Duty Free Apparels zones for EU and US.

Recovery in domestic demand continued in 2017, despite sluggish growth in the early part of the year (due to demonetisation) because of strong festive offtake and minimal impact of the GST on domestic apparel consumption. With higher economic growth expected in 2018-19, the resulting return to normalcy in consumer spending will lead to healthy domestic offtake.

Currently, per-capita expenditure on domestic clothing among Indians is less than 5% of American counterparts. The industry seems to expand at a 10-12% CAGR between 2017 and 2022. Key drivers of growth are raising income, higher penetration of organised retail and growing preference of readymade garments over tailor-made ones. Among the major segments, women's apparel is expected to outperform the industry due to the increasing number of working women, entry of branded players in the space and increased awareness of latest fashion trends.

Outlook

Indian textiles industry is a well-established Industry showing strong features and a bright future. In fact, the country is the second biggest textiles manufacturer worldwide, right after China. Similar force is demonstrated in the cotton production and consumption trend where India ranks just after China and USA. The textiles manufacturing business is a pioneer activity in the Indian manufacturing sector and it has a primordial importance in the economic life of the country, which is still predominantly based on the agro-alimentary sector. Employing around 35 million people, textiles industry stands as a major foreign currency revenue generator and further proves it in its 14% share of industrial production and the 16% of export revenues it generated.

Textiles industry is not limited to manufacture and export of garments. The success of Indian textiles lies in effective vertical integrations policies which have helped operators in taming the processes which while lying beyond simple manufacturing exercise do have a serious impact on it, for

example, raw material treatment. Thus, cotton, jute, silk or wool and even synthetic material are also produced by this industry to complement and strengthen the garments manufacturing industry. Almost one quarter of the world's spindle activities is hosted in India, again positioning itself just after China. Looming is another important element that accounts for significant activity in this industry; in fact, it takes an impressive 61% share including handlooms. The country is also significant textiles fiber and yarn manufacturer on the world scene, taking on its own a 12% share of the world's production volume. India ranks on the second place as regards in production of silk and cellulose fiber and yarn whilst standing on the fifth position when it comes to synthetic fiber and yarn.

Indians have well understood the importance of staying one step ahead of developments in the world economic environment. Industry operators are increasingly moving towards modernization and expansion as encouraged by the so-designated Textile Upgradation Fund Scheme implemented by Government.

In that view, many manufacturing companies in India are rushing towards expansion and modernization options. Manufacturers are having recourse to fund raising programmes pushing EPS to higher growth, dissolving equity on its way. Business collaborations with foreign players, creation of buying offices and Government's effort to enhance quality production and export are many visible signs of Indians coming into force on the global market.

Risk Management

Risks are inherent in all businesses. The challenge for the Company is to effectively and responsibly manage and control the risks on a sustained basis to enhance returns.

Industry Risk

The demand for textiles is perennial and major fluctuations occur largely due to changes in overall economic growth and manufacturing competitiveness.

However, the business is cyclical on the supply side considering the quantum of capital investment involved in capacity expansion. This makes it necessary for the Company to incur large capital expenditure at the right time. An error in estimation, can, therefore, affect its financial health.

Risk Mitigation

Morarjee has consistently invested funds in its manufacturing plants to bring them in line with the latest technology. This prudence is reflected in the enhanced market presence due to higher production and improved quality at a lower cost of production.

Raw Material Risk

The company is exposed to the vagaries of nature, with cotton being the principal raw material for fabric manufacturing.

Risk Mitigation

Procurement of raw cotton at right price remains crucial. The Company covers its cotton requirements from time to time through the domestic and international markets. The Company also seeks out alternative cotton varieties and blends to increase its raw material basket. Thus this enables an in built risk mitigation for cotton price fluctuation.

Product Substitution Risk

Man Made Fibres are a direct substitute for cotton textiles.

Risk Mitigation

The company specialises in producing the best quality cotton fabrics, which are at par with the highest global quality standards and has created a niche positioning with products which cater to high-end customers. The company also produces high quality printed cotton fabric for the African market.

Independent Auditor's Report

To the Members of Morarjee Textiles Limited

Report on the Audit of the Standalone Ind AS Financial Statements

Opinion

We have audited the accompanying standalone Ind AS financial statements of Morarjee Textiles Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2019, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended and notes to the standalone Ind AS financial statements including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "Ind AS Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Indian Accounting Standards ("Ind AS"), of the state of affairs of the Company as at March 31, 2019, its loss including other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the standalone Ind AS financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the standalone Ind AS financial statements under the provisions of the Act and Rules thereunder and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial

statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matter described below to be the key audit matter to be communicated in our report.

Key audit matter

How the matter was addressed in the audit

Valuation of Inventory

Total inventory valuation as on March 31, 2019 is ₹ 10,489.40 lakhs (March 31, 2018 : ₹ 10,399.37 lakhs)

Inventory of Company comprises of finished goods and Work in Progress (WIP). As described in Note 8 to the accompanying standalone Ind AS financial statements, Cost of Inventory represents the costs of materials, conversion cost and related production costs at each stage till date. It is held at the lower of cost and net realisable value (NRV). Some of the finished goods and WIP (Grey Cloth) are slow moving.

Considering the materiality of the amount involved and degree of management judgment in valuation, we have identified valuation of inventory as a key audit matter for the current year audit.

Our audit procedures in respect of this area included but not limited:

We understood and tested the design and operating effectiveness of controls as established by the management for valuation of inventory and identifying slow moving inventory and determination of net realizable value of inventory as on date.

We observed the physical inventory verification procedures carried out by the management as at the year end.

We performed year end cut-off procedures to validate the actual stocks carried in the inventory as at year end.

We tested the adequacy of the key assumptions and estimates used to determine cost allocation at each stage of production and consistency in such allocation including mathematical accuracy of the calculations

We performed inventory movement and ageing analysis as a re-performance procedure for assessing management's ascertainment of slow moving inventory.

We performed NRV testing by comparing subsequent sale/order value. We also evaluated judgment used by the management for arriving at the diminution in value of slow moving inventory.

The above audit procedures enabled us to conclude on the valuation of inventory held by the company as on the date of Balance Sheet.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion & Analysis, Corporate Governance and Directors' Report, but does not include the

standalone Ind AS financial statements and our auditor's report thereon.

Our opinion on the standalone IndAS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone IndAS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including Ind AS specified under section 133 of the Act, read with relevant rules issued thereunder. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone Ind AS financial statements as a whole are free from material misstatement, whether due to

fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this standalone Ind AS financial statements. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone Ind AS financial statements, including the disclosures, and whether the standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope

and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- (1) As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in "Annexure 1", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
- (2) As required by Section 143(3) of the Act, we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c. The Balance Sheet, the Statement of Profit and Loss, the Statement of Cash Flows and the Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
 - d. In our opinion, the aforesaid Standalone Ind AS Financial Statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with relevant rules issued thereunder;

e. On the basis of written representations received from the directors as on March 31, 2019 and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2019 from being appointed as a director in terms of Section 164 (2) of the Act;

f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, we give our separate Report in "Annexure 2".

ANNEXURE 1 TO THE INDEPENDENT AUDITOR’S REPORT

[Referred to in Paragraph 1 under ‘Report on Other Legal and Regulatory Requirements’ in the Independent Auditor’s Report of even date to the members of Morarjee Textiles Limited (“the Company”) on the Standalone Ind AS Financial Statements for the year ended March 31, 2019]

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
 - (b) During the year, the fixed assets of the Company have been physically verified by the Management and as informed, no material discrepancies were noticed on such verification. In our opinion, the frequency of verification is reasonable having regard to the size of the Company and the nature of its assets.
 - (c) The title deeds of immovable properties recorded as fixed assets in the books of account of the Company are held in the name of the Company.
- (ii) The inventory (excluding stocks lying with third parties) has been physically verified by the Management during the year. In our opinion, the frequency of verification is reasonable. In respect of inventory lying with third parties at the year end, it has substantially been confirmed by them. As informed, no material discrepancies were noticed on physical verification carried out during the year.
- (iii) As informed, the Company has not granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under Section 189 of the Act. Accordingly, Paragraphs 3 (iii)(a), 3 (iii)(b) and 3 (iii)(c) of the Order are not applicable to the Company.
- (iv) Based on information and explanation given to us in respect of loans, investments, guarantees and securities, the Company has complied with the provisions of Section 185 and 186 of the Act.

- (v) In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits from the public within the provisions of Sections 73 to 76 of the Act and the rules framed there under.
- (vi) We have broadly reviewed the books of account maintained by the Company in respect of products where the maintenance of cost records has been specified by the Central Government under sub-section (1) of Section 148 of the Act and the rules framed there under and we are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained.
- (vii) (a) The Company is generally regular in depositing with appropriate authorities, undisputed statutory dues including provident fund, employees’ state insurance, income tax, sales tax, service tax, value added tax, goods and services tax, customs duty, excise duty, cess and any other material statutory dues applicable to it, however, delays in deposit have not been serious.

AND

According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, employees’ state insurance, income tax, sales tax, service tax, value added tax, goods and services tax, customs duty, excise duty, cess and any other material statutory dues applicable to it, were outstanding, at the year end, for a period of more than six months from the date they became payable.

- (b) According to the information and explanation given to us, there are no dues with respect to income tax, sales tax, service tax, value added tax, goods and services tax, customs duty, excise duty, which have not been deposited on account of any dispute, except as follows:

Name of the Statute	Nature of Dues *	Financial Year	Amount (₹ in lakhs)	Forum where Dispute is Pending

ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT

[Referred to in Paragraph 2 under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditor's Report of even date to the members of Morarjee Textiles Limited on the Standalone Ind AS Financial Statements for the year ended March 31, 2019]

Report on the Internal Financial Controls over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial

reporting of Morarjee Textiles Limited ("the Company") as of March 31, 2019 in conjunction with our audit of the Standalone Ind AS Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established

by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing specified under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls with reference to Financial Statements

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance

regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;(2)provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31,2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Notes

to Standalone Financial Statements for the year ended 31st March, 2019

Company Overview

Morarjee Textiles Limited (“the Company”) is a public limited company, incorporated and domiciled in India which mainly deals in manufacture of yarn and fabric. The registered office of the Company is located at 2, Peninsula Spenta, Senapati Bapat Marg, Lower Parel, Mumbai – 400 013. The Company is listed on the Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE).

The standalone financial statements for the year ended 31st March, 2019 were approved by the Board of Directors and authorized for issue on 8th May, 2019.

Note 1: Significant Accounting Policies

(a) Basis of Preparation of Financial Statements

(i) Statement of Compliance with Indian Accounting Standards (Ind AS)

These financial statements comply, in all material respects, with Ind AS notified under section 133 of the Companies Act, 2013 (“the Act”), Companies (Indian Accounting Standards) Rules, 2015 (as amended) and other relevant provisions of the Act.

(ii) Historical Cost Convention

The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities:

- a) Certain financial assets and liabilities that are measured at fair value
- b) Derivative financial instruments

(iii) Functional and Presentation Currency

These financial statements are presented in Indian Rupees, which is also the functional currency of the Company. All financial information presented in Indian Rupees has been rounded off to two decimals in lakhs.

(iv) Current and Non-current Classification

All assets and liabilities have been classified as current and non-current as per the Company’s normal operating cycle (Twelve months) and other criteria set out in Schedule III to the Act.

(b) Property, Plant and Equipment (PPE) and Depreciation

All items of PPE are stated at cost less depreciation and impairment, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Cost includes its purchase price including non-refundable taxes and duties, directly attributable costs of bringing the asset to its present location and condition and initial estimate of costs of dismantling and removing the item and restoring the site on which it is located.

Subsequent costs are included in the carrying amount of PPE or recognised as a separate PPE, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred.

Machinery spares and servicing equipment are recognised as PPE when they meet the definition of PPE. Otherwise, such items are classified as inventory.

Capital work- in- progress includes cost of PPE under installation / under development as at the Balance Sheet date.

The Company depreciates its PPE over the useful life in the manner prescribed under Part C of Schedule II to the Act. Depreciation commences when the assets are ready for their intended use and is computed on pro-rata basis from the date of installation/ acquisition till the date of sale/ disposal. Management believes that useful life of assets are same as

Notes to Standalone Financial Statements for the year ended 31st March, 2019

those prescribed in Schedule II to the Act, except for machinery spares wherein based on technical evaluation, useful life has been estimated to be different from that prescribed in Schedule II of the Act

Useful life considered for calculation of depreciation for machinery spares varies from 2 to 10 years.

Lease hold PPE are amortised over the period of lease or useful life, whichever is lower. Leasehold land (under Finance Lease) is amortised over the period of lease.

Gains and losses on disposals are determined by comparing net disposal proceeds with carrying amount. These are included in the Statement of Profit and Loss.

(c) Intangible Assets and Amortisation

Intangible assets that are acquired by the Company, which have finite useful lives are measured at cost less amortisation and impairment, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Cost includes its purchase price including non-refundable taxes and duties, directly attributable costs of bringing the asset to its present location and condition.

Intangible assets are amortised on straight line basis over the estimated useful life.

Useful life considered for amortisation of intangible assets being computer Software is 10 years.

Gains and losses on disposals are determined by comparing net disposal proceeds with carrying amount. These are included in the Statement of Profit and Loss.

(d) Leases

Where the Company is Lessee

A lease is classified at the inception date as a finance lease or an operating lease.

A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease. Finance leases are capitalised at the commencement of the lease at the inception date at fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the Statement of Profit and Loss, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with Company's general policy on the borrowing cost.

All other leases are classified as operating leases. Operating lease payments are recognised as an expense in the Statement of Profit and Loss on straight line basis over the lease term, unless the payments are structured to increase in line with the expected general inflation to compensate for the lessor in expected inflationary cost increase.

Where the Company is Lessor

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straightline basis over the term of the relevant lease.

(e) Borrowing Cost

Borrowing costs are interest and other costs that the Company incurs in connection with the borrowing of funds and is measured with reference to the effective interest rate applicable to the respective borrowing.

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its

intended use. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use. Other borrowing costs are expensed in the period in which they are incurred.

(f) Government Grants

Grants from the government are recognised at their fair value where there is reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Government grants relating to the purchase of PPE are included in non-financial liabilities as deferred income and are credited to the Statement of Profit and Loss on straightline basis over the expected lives of related assets and presented within other income.

Government grants relating to an expense item are recognised in the Statement of Profit and Loss by way of a deduction to the related expense on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed.

(g) Financial instruments

(i) Financial Assets

Initial Recognition and Measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent Measurement

The Company classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income (FVTOCI) or fair value through profit or loss (FVTPL) on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset, as per Ind AS 109.

a. Subsequent Measurement- Equity Instruments

All equity investments other than investments in subsidiaries, joint ventures and associates are measured at fair value. Equity investments which are held for trading are classified as FVTPL. For all other equity investments, the Company decides to classify the same either at FVTOCI or FVTPL. The Company makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.

Investment in equity instruments of subsidiaries, joint ventures and associates are measured at cost.

b. Subsequent Measurement - Debt Instruments

A financial asset being debt instrument that meets the following 2 conditions is measured at amortised cost (net off any write down for impairment) unless the asset is designated at fair value through profit or loss under the fair value option.

Business Model Test: the objective of the Company's model is to hold the financial asset to collect the contractual cash flows (rather than to sell the instrument prior to its contractual maturity to realise its fair value changes).

Cash Flow Characteristics Test: The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding.

A financial asset that meets the following 2 conditions is measured at fair value through other comprehensive income unless the asset is designated at fair value through profit or loss under the fair value option.

Business Model Test: the financial asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling the financial assets.

Cash Flow Characteristics Test: The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding.

Even if an instrument meets the two requirements to be measured at amortised cost or fair value through other comprehensive income, a financial asset is measured at fair value through profit or loss if doing so eliminates or

Notes to Standalone Financial Statements for the year ended 31st March, 2019

significantly reduces a measurement or recognition inconsistency (sometimes referred to as an 'accounting mismatch') that would otherwise arise from measuring assets or liabilities or recognising the gains or losses on them on different basis.

All other debt instruments are measured at fair value through profit or loss.

Derecognition of Financial Assets

The Company de-recognises a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all risks and rewards of ownership of the asset, to another entity.

Impairment of Financial Assets

Loss allowance for expected credit losses is recognised for financial assets measured at amortised cost and FVTOCI.

For financial assets other than trade receivables, whose credit risk has not significantly increased since initial recognition, loss allowance equal to twelve months expected credit losses is recognised. Loss allowance equal to the lifetime expected credit losses is recognised if the credit risk on the financial instruments has significantly increased since initial recognition.

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables, considering historical trend, industry practices and the business environment in which the Company operates or any other appropriate basis.

The impairment losses and reversals are recognised in Statement of Profit and Loss.

(ii) Equity and Financial Liabilities

Debt and equity instruments issued by an entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

a. Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

b. Financial Liabilities

Initial Recognition and Measurement

Financial liabilities are initially recognised at fair value plus any transaction costs that are attributable to the acquisition of the financial liabilities, except for the financial liabilities at FVTPL which are initially measured at fair value.

Subsequent Measurement

The financial liabilities are classified for subsequent measurement either at amortised cost or at fair value through Profit and Loss (FVTPL).

Amortised cost for financial liabilities represents amount at which financial liability is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount.

Derecognition of Financial Liabilities

A financial liability is removed from the Balance Sheet when the obligation is discharged, or is cancelled, or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

Derivative Financial Instruments

Derivative financial instruments such as forward contracts are taken by the Company to hedge its foreign currency risks, are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value with changes in fair value recognised in the Statement of Profit and Loss in the period when they arise (other than in case of hedge accounting).

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

(h) Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted prices in active markets for identical assets or liabilities
- Level 2 — Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- Level 3 — Inputs for the asset or liability that are not based on observable market data.

(i) Inventories

Inventories are stated at the lower of cost and net realisable value. Costs comprise direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale. The cost formula used for determination of cost is 'Weighted Average Cost'.

Machinery spares, stand-by equipment and servicing equipment are recognised as inventory when the useful life is less than one year and the same are charged to the Statement of Profit and Loss as and when issued for consumption.

(j) Income Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The Company's liability for current tax is calculated using the Indian tax rates and laws that have been enacted by the reporting date. The Company periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretations and provisions where appropriate.

Deferred income tax is provided in full, using the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying amount in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred income tax assets is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses, only if, it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Notes to Standalone Financial Statements for the year ended 31st March, 2019

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and current tax liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Minimum Alternate Tax (MAT) credit is recognised as deferred tax asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

(k) Provisions and Contingencies

Provisions

A provision is recognised when the Company has a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent Liabilities and Contingent Assets

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases, where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements unless the probability of outflow of resources is remote.

Contingent assets are not recognised in the financial statements. If the inflow of economic benefits is probable, then it is disclosed in the financial statements.

Provisions, contingent liabilities, contingent assets and commitments are reviewed at each Balance Sheet date.

(l) Employee Benefits

(i) Short-term Obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled.

(ii) Post-employment Obligations

The Company operates the following post-employment schemes:

- (a) Defined benefit plan (Gratuity), and
- (b) Defined contribution plans such as superannuation scheme, provident fund.

Defined Benefit Plan

The liability or asset recognised in the Balance Sheet in respect of defined benefit gratuity plan is the present value of the defined benefit obligation at the end of the reporting period. The defined benefit obligation is calculated annually on the basis of actuarial valuation using the Projected Unit Credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The interest cost is calculated by applying the discount rate to the balance of the defined benefit obligation. This cost is included in employee benefits expense in the Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income.

Defined Contribution Plans

Defined Contribution Plans such as superannuation scheme, provident fund are charged to the Statement of Profit and Loss as an expense, when an employee renders the related services.

(iii) Other Long-term Employee Benefits

The liabilities for compensated absences that are not expected to be settled wholly within 12 months are measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the Projected Unit Credit method. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in the Statement of Profit and Loss.

The obligations are presented as current liabilities in the Balance Sheet if the entity does not have any unconditional right to defer settlement for at least 12 months after the end of the reporting period, regardless of when the actual settlement is expected to occur.

(m) Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM). The CODM monitors the operating results of its business segments separately for the purpose of making decision about the resources allocation and performance assessment. The operating segments have been identified on the basis of the nature of products/ services.

The Board of Directors of the Company has appointed the Managing Director as the Chief Operating Decision Maker (CODM) who is assessing the financial performance and position of the Company, and makes strategic decisions.

(n) Cash and Cash Equivalents

For the purpose of presentation in the Statement of Cash Flows as well as the Balance Sheet, cash and cash equivalents include cash on hand, demand deposits with banks, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(o) Earnings per Share (EPS)

Basic earnings per share are computed by dividing the profit / (loss) after tax by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for the events for bonus issue, bonus element in a rights issue to existing shareholders, share split and reverse share split (consolidation of shares).

Diluted earnings per share is computed by dividing the profit / (loss) after tax as adjusted for dividend, interest and other charges to expense or income (net off any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on conversion of all dilutive potential equity shares.

(p) Non-current Assets Held for Sale

The Company classifies non-current assets as held sale if their carrying amounts will be recovered principally through a sale rather than through continuing use. Such non-current assets classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell. Any expected loss is recognised immediately in the Statement of Profit and Loss.

Notes to Standalone Financial Statements for the year ended 31st March, 2019

The criteria for held for sale classification are regarded as met only when the sale is highly probable i.e. an active program to locate a buyer to complete the plan has been initiated and the asset is available for immediate sale in its present condition and the assets must have been actively marketed for sale at a price that is reasonable in relation to its current fair value. Actions required to complete the sale should indicate that it is unlikely that significant changes to that plan to sale these assets will be made. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

PPE and intangible assets once classified as held for sale are not depreciated or amortised. Assets and liabilities classified as held for sale are presented separately as current items in the Balance Sheet.

(q) Dividend Distribution to Equity Shareholders

Dividend distributed to Equity shareholders is recognised as distribution to owners of capital in the Statement of Changes in Equity, in the period in which it is paid. Dividend proposed by the Board of Directors, subject to the approval of shareholders, is disclosed in the notes to financial statements.

(r) Foreign Currency Transactions

Transactions in foreign currencies are recognised at the prevailing exchange rates on the transaction dates. Realised gains and losses on settlement of foreign currency transactions are recognised in the Statement of Profit and Loss.

Monetary foreign currency assets and liabilities at the year-end are translated at the year-end exchange rates and the resultant exchange differences are recognised in the Statement of Profit and Loss.

(s) Revenue Recognition

The Company derives revenues primarily from sale of manufactured goods. Effective 01 April 2018, the Company has adopted Indian Accounting Standard 115 (Ind AS 115) - 'Revenue from contracts with customers' using the cumulative catch-up transition method, applied to contracts that were not completed as on the transition date i.e. 01 April 2018. Accordingly, the comparative amounts of revenue and the corresponding contract assets /liabilities have not been retrospectively adjusted. The effect on adoption of Ind-AS 115 was insignificant.

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable net of discounts, returns and rebates taking into account contractually defined terms and excluding taxes or duties collected on behalf of the government.

Sale of Products

Sales are recognised at a point in time when control of the goods is transferred to the customer, generally on delivery of the goods. The normal credit term is 0 to 180 days on delivery. In determining the transaction price for sale of goods, the company considers the effect of variable consideration, the existence of significant financial components and consideration payable to the customer (if any).

The company provides volume rebates to certain customers once the quantity of product purchased during the period exceeds a threshold limit specified in the contract. The company does not adjust consideration for the effect of a significant financial component, if it expects, at contract inception, that customer pays for those goods within one year. No revenue is recognised if there are significant uncertainties regarding recovery of the amount due, associated costs or the possible return of goods.

Duty Drawback Scheme

Export benefits under Duty Drawback Scheme is estimated and accounted in the year of export.

Interest Income

Interest income is accrued on a time proportion basis, by reference to the principal outstanding and the applicable effective interest rate.

Dividend Income

Dividend income from investments is recognised when the shareholder's rights to receive payment have been established.

Income from Services

Income from services is recognised (net of taxes as applicable) as they are rendered, based on agreement/arrangement with the concerned customers.

(t) Significant Accounting Estimates, Judgements and Assumptions:

The preparation of the Company's financial statements in conformity with Ind AS requires Management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances existing when the financial statements were prepared. The estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates is recognised in the year in which the estimates are revised and in any future year affected.

In the process of applying the Company's accounting policies, Management has made the following judgements which have significant effect on the amounts recognised in the financial statements:

- i. Useful Lives of Property, Plant and Equipment: Determination of the estimated useful life of tangible assets and the assessment as to which components of the cost may be capitalised. Useful life of tangible assets is based on the life specified in Schedule II of the Act and also as per Management estimate for certain category of assets. Assumption also needs to be made, when the Company assesses, whether as asset may be capitalised and which components of the cost of the assets may be capitalised.
- ii. Fair Value Measurement of Financial Instruments: When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using appropriate valuation techniques. The inputs for these valuations are taken from observable sources where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of various inputs including liquidity risk, credit risk, volatility etc. Changes in assumptions/ judgements about these factors could affect the reported fair value of financial instruments.
- iii. Measurement of Defined Benefit Plan: The cost of the defined benefit gratuity plan and other post-employment benefits and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.
- iv. Impairment of Financial Assets: Trade receivables are stated at their normal value as reduced by appropriate allowances for estimated irrecoverable amounts. Individual trade receivables are written off when Management deems them not collectable. Impairment is made on the expected credit loss model, which is the present value of the cash shortfall over the expected life of the financial assets. The impairment provisions for financial assets are based on assumption about the risk of default and expected loss rates. Judgement in making these assumptions and selecting the inputs to the impairment calculation are based on past history, existing market condition as well as forward looking estimates at the end of each reporting period.

- v. Impairment of Non-financial Assets: The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, the Company estimates the asset's recoverable amount.

The company expects to recover full amount related to government subsidies related to interest and capitalisation. Further company also expects to recover/ adjust input tax credit related to GST in future.

- vi. Contingencies: Management judgement is required for estimating the possible outflow of resources, if any, in respect of contingencies/ claim/ litigation against the Company as it is not possible to predict the outcome of pending matters with accuracy.
- vii. Net Realisable Value for Inventory Valuation: The Company assesses net realisable value considering subsequent realisation, ageing and obsolescence for the purpose of valuation of inventories lower of cost or net realisable value.

Notes to Standalone Financial Statements for the year ended 31st March, 2019

(u) Recent Accounting Developments

The amendments to standards that are issued, but not yet effective, up to the date of issuance of the Entity's financial statements are disclosed below. The Entity intends to adopt these standards, if applicable, when they become effective.

- **Ind AS 116 "Leases":**

On March 30, 2019, Ministry of Corporate Affairs has notified Ind AS 116, Leases. Ind AS 116 will replace the existing leases Standard, Ind AS 17 Leases, and related Interpretations. The Standard sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract i.e., the lessee and the lessor. Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than twelve months, unless the underlying asset is of low value. Currently, operating lease expenses are charged to the statement of Profit & Loss. The Standard also contains enhanced disclosure requirements for lessees. Ind AS 116 substantially carries forward the lessor accounting requirements in Ind AS 17.

The effective date for adoption of Ind AS 116 is annual periods beginning on or after April 1, 2019. The Company is currently evaluating the effect of this amendment on the standalone financial statements.

- **Ind AS 12 Appendix C, Uncertainty over Income Tax Treatments:**

On March 30, 2019, Ministry of Corporate Affairs has notified Ind AS 12 Appendix C, Uncertainty over Income Tax Treatments which is to be applied while performing the determination of taxable profit (or loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. According to the appendix, companies need to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, that the companies have used or plan to use in their income tax filing which has to be considered to compute the most likely amount or the expected value of the tax treatment when determining taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates.

The effective date for adoption of Ind AS 12 Appendix C is annual periods beginning on or after April 1, 2019. The Company is currently evaluating the effect of this amendment on the standalone financial statements.

Discount rate - 0.5%	479.01	453.08	129.00	117.41

A description of methods used for sensitivity analysis and its limitations:

Sensitivity analysis is performed by varying a single parameter while keeping all the other parameters unchanged.

Sensitivity analysis fails to focus on the interrelationship between underlying parameters. Hence, the results may vary if two or more variables are changed simultaneously.

The method used does not indicate anything about the likelihood of change in any parameter and the extent of the change if any.

42 Capital Management

a) Risk Management

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors the return on capital as well as the level of dividends to ordinary shareholders.

The Board of Directors seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position.

The Company monitors capital using a ratio of 'adjusted net debt' to 'adjusted equity'. For this purpose, adjusted net debt is defined as total liabilities, comprising interest-bearing loans and borrowings less cash and cash equivalents.

43 Financial Risk Management

Risk Management Framework

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

A. Credit risk

Credit risk arises from the possibility that the counter party may not be able to settle their obligations as agreed. To manage this, the Company periodically assesses financial reliability of customers and other counter parties, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of financial assets. Individual risk limits are set and periodically reviewed on the basis of such information.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis through each reporting period. To assess whether there is a significant increase in credit risk, the Company compares the risk of default occurring on asset as at the reporting date with the risk of default as at the date of initial recognition.

The Company measures the expected credit loss of trade receivables from individual customers based on historical trend, industry practices and the business environment in which the entity operates. Loss rates are based on actual credit loss experience and past trends.

The Company has made specific provision for certain receivables based on assessment of recovery due to litigation, old claims etc. The outstanding of these receivables is ₹ 68 lakhs (Previous Year ₹ 131.67 lakhs) as on March 31, 2019. The same has been considered as credit impaired and made 100% provision against those receivables.

Further, the Company has considered 360 days past due unsecured receivables as credit impaired for the purpose of disclosure based on nature of business and credit cycle in its business operations even though the Company is following simplified approach for life time provisioning.

i Trade Receivables

a) Ageing

ii Investments other than Investments in Joint Ventures

There is investment of ₹ 0.89 lakh (₹ 0.89 lakh as at 31st March, 2018) and no impairment has been recognised on such investments.

iii Cash and Bank Balances

The Company held cash and bank balance with credit worthy banks of ₹ 975.44 lakhs at March 31, 2019 (March 31, 2018 ₹ 559.77 lakhs) includes fixed deposit lien marked with bank of ₹ 333.91 lakhs at March 31, 2019 (March 31, 2018 ₹ 313.66 lakhs) The credit risk on cash and cash equivalents is limited as the Company generally invests in deposits with banks where credit risk is largely perceived to be extremely insignificant.

iv Loans

No impairment in respect of loans was necessary during the current as well as previous years.

B. Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Management monitors rolling forecasts of the Company's liquidity position on the basis of expected cash flows. The Company manages its liquidity risk by preparing periodic cash flow projections to monitor liquidity requirements. In addition, the Company monitors the Balance Sheet liquidity ratios against internal and external regulatory requirements and maintains debt financing plans.

Maturity Pattern of Financial Liabilities

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and include contractual interest payments.

C Market Risk

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and loans and borrowings.

i Currency Risk

The Company operates internationally and portion of the business is transacted in several currencies and consequently the Company is exposed to foreign exchange risk through its sales to overseas customers and purchases from overseas suppliers in various foreign currencies. Foreign currency exchange rate exposure is partly balanced by purchasing of goods in the respective currencies.

(a) Derivative Instruments

(d) Foreign Currency Risk Sensitivity

A change of 1% in foreign currency exchange rate applied on net foreign exposure (i.e. net unhedged payable / receivable) would have following impact on profit before tax:

Particulars	Year ended 31.03.2019		Year ended 31.03.2018	
	1% Increase ₹ in lakhs	1% decrease ₹ in lakhs	1% Increase ₹ in lakhs	1% decrease ₹ in lakhs

JPY	-	-	(0.08)	0.08
Increase / (decrease) in profit or loss	8.75	(8.75)	1.31	(1.31)

ii Interest rate Risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing investments will fluctuate because of fluctuations in the interest rates.

Exposure to Interest Rate Risk

In order to optimise the Company's position with regards to interest income and interest expenses and to manage the interest rate risk, the Company performs a comprehensive corporate interest rate risk management by balancing the proportion of fixed rate and floating rate financial instruments in its total portfolio. According to the Company, interest rate risk exposure is only for floating rate borrowings. The interest rate profile of the Company's interest-bearing financial instruments as reported to the Management of the Company is as follows.

Particulars	As at 31.03.2019 ₹ in lakhs	As at 31.03.2018 ₹ in lakhs
Borrowings bearing fixed rate of interest	6,949.41	8,066.77
Borrowings bearing variable rate of interest	44,033.51	44,045.98
Total Borrowings	50,982.92	52,112.75

Interest rate sensitivity

a) Fair Value Sensitivity Analysis for Fixed-rate Instruments

The Company does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

Notes to Standalone Financial Statements for the year ended 31st March, 2019

b) Cash Flow Sensitivity Analysis for Variable-rate Instruments

A reasonably possible change of 25 basis points in interest rates at the reporting date would have increased (decreased) equity and profit or loss by the amounts shown below. This analysis assumes that all other variables in particular foreign currency exchange rates remain constant.

A change of 25 bps in interest rates would have following impact on profit before tax.

Particulars	Year ended 31.03.2019 ₹ in lakhs	Year ended 31.03.2018 ₹ in lakhs
25 bp decrease	110.08	110.11
25 bp increase	(110.08)	(110.11)

Independent Auditor's Report

To the Members of Morarjee Textiles Limited

Report on the Audit of the Consolidated Ind AS Financial Statements

Opinion

We have audited the accompanying Consolidated Ind AS Financial Statements of Morarjee Textiles Limited (hereinafter referred to as "the Holding Company") and its joint ventures, comprising of the Consolidated Balance Sheet as at March 31, 2019, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended, and notes to the consolidated Ind AS financial statements including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated Ind AS financial statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of report of other auditor on separate Ind AS financial statements and on the other financial information of the joint ventures, the aforesaid Consolidated Ind AS Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Indian Accounting Standards ("Ind AS"), of the consolidated state of affairs of the Holding Company and joint ventures as at March 31, 2019, their consolidated loss (including other comprehensive income), their consolidated cash flows and consolidated changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the consolidated Ind AS financial statements section of our report. We are independent of the Holding Company and its joint ventures in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the consolidated Ind AS financial statements under the provisions of the Act and Rules thereunder and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated Ind AS financial statements of the current period. These matters were addressed in the context of our audit of the consolidated Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matter described below to be the key audit matter to be communicated in our report.

Key audit matter	How the matter was addressed in the audit
<p><u>Valuation of Inventory</u></p> <p>Total inventory valuation as on March 31, 2019 is ₹ 10,489.40 lakhs (March 31, 2018 : ₹ 10,399.37 lakhs)</p> <p>Inventory of holding Company comprises of finished goods and Work in Progress (WIP). As described in Note 8 to the accompanying stand-alone Ind AS financial statements, Cost of Inventory represents the costs of materials, conversion cost and related production costs at each stage till date. It is held at the lower of cost and net realisable value (NRV). Some of the finished goods and WIP (Grey Cloth) are slow moving.</p> <p>Considering the materiality of the amount involved and degree of management judgment in valuation, we have identified valuation of inventory as a key audit matter for the current year audit.</p>	<p>Our audit procedures in respect of this area included but not limited:</p> <p>We understood and tested the design and operating effectiveness of controls as established by the management for valuation of inventory and identifying slow moving inventory and determination of net realizable value of inventory as on date.</p> <p>We observed the physical inventory verification procedures carried out by the management as at the year end.</p> <p>We performed year end cut-off procedures to validate the actual stocks carried in the inventory as at year end.</p> <p>We tested the adequacy of the key assumptions and estimates used to determine cost allocation at each stage of production and consistency in such allocation including mathematical accuracy of the calculations.</p> <p>We performed inventory movement and ageing analysis as a re-performance procedure for assessing management's ascertainment of slow moving inventory.</p> <p>We performed NRV testing by comparing subsequent sale/order value. We also evaluated judgment used by the management for arriving at the diminution in value of slow moving inventory.</p> <p>The above audit procedures enabled us to conclude on the valuation of inventory held by the company as on the date of Balance Sheet.</p>

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion & Analysis, Corporate Governance and Directors' Report, but does not include the consolidated Ind AS financial statements and our auditor's report thereon.

Our opinion on the consolidated Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Ind AS Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these Consolidated Ind AS Financial Statements in terms of the requirements of the Companies Act, 2013 ("the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated changes in equity of the Holding Company and its joint ventures in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with relevant rules issued thereunder. The respective Board of Directors of the Holding Company and its joint ventures are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Holding Company and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Ind AS Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Ind AS Financial Statements by the Directors of the Holding Company, as aforesaid.

In preparing the Consolidated Ind AS Financial Statements, the respective Board of Directors of the Holding Company and of its joint ventures are responsible for assessing the ability of the Holding Company and its joint ventures to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management either intends to liquidate the Holding Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Holding Company and its joint ventures are responsible for overseeing the financial reporting process of the Holding Company and its joint ventures.

Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated Ind AS financial statements. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company and its joint ventures, which are companies incorporated in India, have adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies

used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Holding Company and its joint ventures to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Holding Company and its joint ventures to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated Ind AS financial statements, including the disclosures, and whether the consolidated Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Holding Company and its joint ventures to express an opinion on the consolidated Ind AS financial statements. We are responsible for the direction, supervision and performance of the audit of the Ind AS financial statements of such entities included in the consolidated Ind AS financial statements of which we are the independent auditors. For the other entities included in the consolidated Ind AS financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated Ind AS financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

- (a) The Consolidated Ind AS Financial Statements include Holding Company's share of net loss (including other comprehensive income) of ₹ 1.72 lakhs for the year ended March 31, 2019, as considered in the Consolidated Ind AS Financial Statements, in respect of one joint venture whose Ind AS financial statements have not been audited by us. These Ind AS financial statements have been audited by other auditor whose report has been furnished to us by the Management and our opinion on the Consolidated Ind AS Financial Statements, in so far as it relates to the amounts and disclosures included in respect of this joint venture, and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid joint venture, is based solely on the report of the other auditor.
- (b) The Consolidated Ind AS Financial Statements also include Holding Company's share of net loss of ₹5.05 lakhs for the year ended March 31, 2019, as considered in the Consolidated Ind AS Financial Statements, in respect of one joint venture whose Ind AS financial statements have not been audited by us. These Ind AS financial statements are unaudited and have been furnished to us by the Management and our opinion on the Consolidated Ind AS Financial Statements, in so far as it relates to the amounts and disclosures included in respect of this joint venture, and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid joint venture, are based solely on such unaudited Ind AS financial statements. In our opinion and according to the information and explanations given to us by the Management, these Ind AS financial statements are not material to the Holding Company.

Our opinion on the Consolidated Ind AS Financial Statements and our report on the Other Legal and Regulatory Requirements below, are not modified in respect of the above matters with respect to our reliance on the work done and the report of the other auditor

and the Ind AS financial statements certified by the Management.

Report on Other Legal and Regulatory Requirements

As required by Section 143(3) of the Act, we report, to the extent applicable, that:

- a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated Ind AS financial statements;
- b. In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated Ind AS financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors;
- c. The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows dealt with by this report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated Ind AS financial statements;
- d. In our opinion, the aforesaid consolidated Ind AS financial statements comply with the Indian Accounting Standards specified under section 133 of the Act read with relevant rules issued thereunder;
- e. On the basis of written representations received from the directors of the Holding Company as on March 31, 2019 and taken on record by the Board of Directors of the Holding Company, and the report of the statutory auditor of its joint venture, none of the directors of the Holding Company and its joint venture is disqualified as on March 31, 2019 from being appointed as a director in terms of Section 164 (2) of the Act;
- f. With respect to the adequacy of the internal financial controls with reference to financial statements of the Holding Company and its joint ventures incorporated in

India and the operating effectiveness of such controls, we give our separate report in the "Annexure".

- g. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended;
In our opinion and to the best of our information and according to the explanations given to us by the Holding Company and the reports of the statutory auditors of its joint venture incorporated in India, the remuneration paid/ provided to their directors during the year by the Holding Company, and joint venture incorporated in India is in accordance with the provisions of section 197 of the Act;
- h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - (i) The Consolidated Ind AS Financial Statements disclose the impact of pending litigations on the consolidated financial position of the Holding Company and its joint venture - Refer Note no. 37 to the Consolidated Ind AS Financial Statements;
 - (ii) The Holding Company and its joint venture did not have any material foreseeable losses on long term contracts including derivative contracts;

ANNEXURE TO THE INDEPENDENT AUDITOR'S REPORT

[Referred to under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditor's Report of even date to the members of Morarjee Textiles Limited on the Consolidated Ind AS Financial Statements for the year ended March 31, 2019]

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the Consolidated Ind AS Financial Statements of the Company as of and for the year ended March 31, 2019, we have audited the internal financial

controls over financial reporting of the Holding Company and its joint ventures, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company and its joint ventures, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal

control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (“the Guidance Note”) issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Holding Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditor in terms of its report referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting, of the Holding Company and its joint venture.

Meaning of Internal Financial Controls with reference to Financial Statements

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting

includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its joint ventures, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Other Matter

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to one joint venture which is a company incorporated in India, is based on the corresponding report of the auditor of such company.

Notes

on Consolidated Financial Statement for the year ended 31st March, 2019

Company Overview

Morarjee Textiles Limited ("the Company") is a public limited company, incorporated and domiciled in India which mainly deals in manufacture of yarn and fabric. The registered office of the Company is located at 2, Peninsula Spenta, Senapati Bapat Marg, Lower Parel, Mumbai – 400 013. The Company is listed on the Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE).

The consolidated financial statements for the year ended 31st March, 2019 were approved by the Board of Directors and authorized for issue on 8th May, 2019.

Note 1: Significant Accounting Policies

(a) Basis of Preparation of Financial Statements

(i) Statement of Compliance with Indian Accounting Standards (Ind AS)

These financial statements comply, in all material respects, with Ind AS notified under section 133 of the Companies Act, 2013 ("the Act"), Companies (Indian Accounting Standards) Rules, 2015 (as amended) and other relevant provisions of the Act.

(ii) Principles of Consolidation and Equity Accounting

Investments in Joint Ventures are accounted for using the equity method, after initially being recognised at cost in the consolidated Balance Sheet.

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses of the investee in the Statement of Profit and Loss, and the Group's share of Other Comprehensive Income of the investee in Other Comprehensive Income. Dividends received or receivable from joint ventures are recognised as a reduction in the carrying amount of the investment. When the Group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity. Unrealised gains on transactions between the Group and its joint ventures are eliminated to the extent of the Group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees are changed where necessary to ensure consistency with the policies adopted by the Group. The carrying amount of equity accounted investments is tested for impairment.

(iii) Historical Cost Convention

The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities:

- a) Certain financial assets and liabilities that are measured at fair value
- b) Derivative financial instruments

(iv) Functional and Presentation Currency

These financial statements are presented in Indian Rupees, which is also the functional currency of the Company. All financial information presented in Indian Rupees has been rounded off to two decimals in lakhs.

(v) Current and Non-current Classification

All assets and liabilities have been classified as current and non-current as per the Company's normal operating cycle (Twelve months) and other criteria set out in Schedule III to the Act.

(b) Property, Plant and Equipment (PPE) and Depreciation

All items of PPE are stated at cost less depreciation and impairment, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Cost includes its purchase price including non-refundable taxes and duties, directly attributable costs of bringing the asset to its present location and condition and initial estimate of costs of dismantling and removing the item and restoring the site on which it is located.

Notes to Consolidated Financial Statements for the year ended 31st March, 2019

Subsequent costs are included in the carrying amount of PPE or recognised as a separate PPE, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred.

Machinery spares and servicing equipment are recognised as PPE when they meet the definition of PPE. Otherwise, such items are classified as inventory.

Capital work- in- progress includes cost of PPE under installation / under development as at the Balance Sheet date.

The Company depreciates its PPE over the useful life in the manner prescribed under Part C of Schedule II to the Act. Depreciation commences when the assets are ready for their intended use and is computed on pro-rata basis from the date of installation/ acquisition till the date of sale/ disposal. Management believes that useful life of assets are same as those prescribed in Schedule II to the Act, except for machinery spares wherein based on technical evaluation, useful life has been estimated to be different from that prescribed in Schedule II of the Act

Useful life considered for calculation of depreciation for machinery spares varies from 2 to 10 years.

Lease hold PPE are amortised over the period of lease or useful life, whichever is lower. Leasehold land (under Finance Lease) is amortised over the period of lease.

Gains and losses on disposals are determined by comparing net disposal proceeds with carrying amount. These are included in the Statement of Profit and Loss.

(c) Intangible Assets and Amortisation

Intangible assets that are acquired by the Company, which have finite useful lives are measured at cost less amortisation and impairment, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Cost includes its purchase price including non-refundable taxes and duties, directly attributable costs of bringing the asset to its present location and condition.

Intangible assets are amortised on straight line basis over the estimated useful life.

Useful life considered for amortisation of intangible assets being computer Software is 10 years.

Gains and losses on disposals are determined by comparing net disposal proceeds with carrying amount. These are included in the Statement of Profit and Loss.

(d) Leases

Where the Company is Lessee

A lease is classified at the inception date as a finance lease or an operating lease.

A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease. Finance leases are capitalised at the commencement of the lease at the inception date at fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the Statement of Profit and Loss, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with Company's general policy on the borrowing cost.

All other leases are classified as operating leases. Operating lease payments are recognised as an expense in the Statement of Profit and Loss on straight line basis over the lease term, unless the payments are structured to increase in line with the expected general inflation to compensate for the lessor in expected inflationary cost increase.

Where the Company is Lessor

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straightline basis over the term of the relevant lease.

(e) Borrowing Cost

Borrowing costs are interest and other costs that the Company incurs in connection with the borrowing of funds and is measured with reference to the effective interest rate applicable to the respective borrowing.

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use. Other borrowing costs are expensed in the period in which they are incurred.

(f) Government Grants

Grants from the government are recognised at their fair value where there is reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Government grants relating to the purchase of PPE are included in non-financial liabilities as deferred income and are credited to the Statement of Profit and Loss on straightline basis over the expected lives of related assets and presented within other income.

Government grants relating to an expense item are recognised in the Statement of Profit and Loss by way of a deduction to the related expense on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed.

(g) Financial instruments

(i) Financial Assets

Initial Recognition and Measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent Measurement

The Company classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income (FVTOCI) or fair value through profit or loss (FVTPL) on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset, as per Ind AS 109.

a. Subsequent Measurement- Equity Instruments

All equity investments other than investments in subsidiaries, joint ventures and associates are measured at fair value. Equity investments which are held for trading are classified as FVTPL. For all other equity investments, the Company decides to classify the same either at FVTOCI or FVTPL. The Company makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.

Investment in equity instruments of subsidiaries, joint ventures and associates are measured at cost.

b. Subsequent Measurement - Debt Instruments

A financial asset being debt instrument that meets the following 2 conditions is measured at amortised cost (net off any write down for impairment) unless the asset is designated at fair value through profit or loss under the fair value option.

Notes to Consolidated Financial Statements for the year ended 31st March, 2019

Business Model Test: the objective of the Company's model is to hold the financial asset to collect the contractual cash flows (rather than to sell the instrument prior to its contractual maturity to realise its fair value changes).

Cash Flow Characteristics Test: The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding.

A financial asset that meets the following 2 conditions is measured at fair value through other comprehensive income unless the asset is designated at fair value through profit or loss under the fair value option.

Business Model Test: the financial asset is held within a business model whose objective is achieved both by collecting contractual cashflows and selling the financial assets.

Cash Flow Characteristics Test: The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding.

Even if an instrument meets the two requirements to be measured at amortised cost or fair value through other comprehensive income, a financial asset is measured at fair value through profit or loss if doing so eliminates or significantly reduces a measurement or recognition inconsistency (sometimes referred to as an 'accounting mismatch') that would otherwise arise from measuring assets or liabilities or recognising the gains or losses on them on different basis.

All other debt instruments are measured at fair value through profit or loss.

Derecognition of Financial Assets

The Company de-recognises a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all risks and rewards of ownership of the asset, to another entity.

Impairment of Financial Assets

Loss allowance for expected credit losses is recognised for financial assets measured at amortised cost and FVTOCI.

For financial assets other than trade receivables, whose credit risk has not significantly increased since initial recognition, loss allowance equal to twelve months expected credit losses is recognised. Loss allowance equal to the lifetime expected credit losses is recognised if the credit risk on the financial instruments has significantly increased since initial recognition.

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables, considering historical trend, industry practices and the business environment in which the Company operates or any other appropriate basis.

The impairment losses and reversals are recognised in Statement of Profit and Loss.

(ii) Equity and Financial Liabilities

Debt and equity instruments issued by an entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

a. Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

b. Financial Liabilities

Initial Recognition and Measurement

Financial liabilities are initially recognised at fair value plus any transaction costs that are attributable to the acquisition of the financial liabilities, except for the financial liabilities at FVTPL which are initially measured at fair value.

Subsequent Measurement

The financial liabilities are classified for subsequent measurement either at amortised cost or at fair value through Profit and Loss (FVTPL).

Amortised cost for financial liabilities represents amount at which financial liability is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount.

Derecognition of Financial Liabilities

A financial liability is removed from the Balance Sheet when the obligation is discharged, or is cancelled, or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

Derivative Financial Instruments

Derivative financial instruments such as forward contracts are taken by the Company to hedge its foreign currency risks, are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value with changes in fair value recognised in the Statement of Profit and Loss in the period when they arise (other than in case of hedge accounting).

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

(h) Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted prices in active markets for identical assets or liabilities
- Level 2 — Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- Level 3 — Inputs for the asset or liability that are not based on observable market data.

(i) Inventories

Inventories are stated at the lower of cost and net realisable value. Costs comprise direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale. The cost formula used for determination of cost is 'Weighted Average Cost'.

Machinery spares, stand-by equipment and servicing equipment are recognised as inventory when the useful life is less than one year and the same are charged to the Statement of Profit and Loss as and when issued for consumption.

Notes to Consolidated Financial Statements for the year ended 31st March, 2019

(j) Income Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The Company's liability for current tax is calculated using the Indian tax rates and laws that have been enacted by the reporting date. The Company periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretations and provisions where appropriate.

Deferred income tax is provided in full, using the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying amount in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred income tax assets is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses, only if, it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and current tax liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Minimum Alternate Tax (MAT) credit is recognised as deferred tax asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

(k) Provisions and Contingencies

Provisions

A provision is recognised when the Company has a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent Liabilities and Contingent Assets

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases, where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements unless the probability of outflow of resources is remote.

Contingent assets are not recognised in the financial statements. If the inflow of economic benefits is probable, then it is disclosed in the financial statements.

Provisions, contingent liabilities, contingent assets and commitments are reviewed at each Balance Sheet date.

(l) Employee Benefits

(i) Short-term Obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled.

(ii) Post-employment Obligations

The Company operates the following post-employment schemes:

- (a) Defined benefit plan (Gratuity), and
- (b) Defined contribution plans such as superannuation scheme, provident fund.

Defined Benefit Plan

The liability or asset recognised in the Balance Sheet in respect of defined benefit gratuity plan is the present value of the defined benefit obligation at the end of the reporting period. The defined benefit obligation is calculated annually on the basis of actuarial valuation using the Projected Unit Credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The interest cost is calculated by applying the discount rate to the balance of the defined benefit obligation. This cost is included in employee benefits expense in the Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income.

Defined Contribution Plans

Defined Contribution Plans such as superannuation scheme, provident fund are charged to the Statement of Profit and Loss as an expense, when an employee renders the related services.

(iii) Other Long-term Employee Benefits

The liabilities for compensated absences that are not expected to be settled wholly within 12 months are measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the Projected Unit Credit method. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in the Statement of Profit and Loss.

The obligations are presented as current liabilities in the Balance Sheet if the entity does not have any unconditional right to defer settlement for at least 12 months after the end of the reporting period, regardless of when the actual settlement is expected to occur.

(m) Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM). The CODM monitors the operating results of its business segments separately for the purpose of making decision about the resources allocation and performance assessment. The operating segments have been identified on the basis of the nature of products/ services.

The Board of Directors of the Company has appointed the Managing Director as the Chief Operating Decision Maker (CODM) who is assessing the financial performance and position of the Company, and makes strategic decisions.

(n) Cash and Cash Equivalents

For the purpose of presentation in the Statement of Cash Flows as well as the Balance Sheet, cash and cash equivalents include cash on hand, demand deposits with banks, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Notes to Consolidated Financial Statements for the year ended 31st March, 2019

(o) Earnings per Share (EPS)

Basic earnings per share are computed by dividing the profit / (loss) after tax by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for the events for bonus issue, bonus element in a rights issue to existing shareholders, share split and reverse share split (consolidation of shares).

Diluted earnings per share is computed by dividing the profit / (loss) after tax as adjusted for dividend, interest and other charges to expense or income (net off any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on conversion of all dilutive potential equity shares.

(p) Non-current Assets Held for Sale

The Company classifies non-current assets as held sale if their carrying amounts will be recovered principally through a sale rather than through continuing use. Such non-current assets classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell. Any expected loss is recognised immediately in the Statement of Profit and Loss.

The criteria for held for sale classification are regarded as met only when the sale is highly probable i.e. an active program to locate a buyer to complete the plan has been initiated and the asset is available for immediate sale in its present condition and the assets must have been actively marketed for sale at a price that is reasonable in relation to its current fair value. Actions required to complete the sale should indicate that it is unlikely that significant changes to that plan to sale these assets will be made. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

PPE and intangible assets once classified as held for sale are not depreciated or amortised. Assets and liabilities classified as held for sale are presented separately as current items in the Balance Sheet.

(q) Dividend Distribution to Equity Shareholders

Dividend distributed to Equity shareholders is recognised as distribution to owners of capital in the Statement of Changes in Equity, in the period in which it is paid. Dividend proposed by the Board of Directors, subject to the approval of shareholders, is disclosed in the notes to financial statements.

(r) Foreign Currency Transactions

Transactions in foreign currencies are recognised at the prevailing exchange rates on the transaction dates. Realised gains and losses on settlement of foreign currency transactions are recognised in the Statement of Profit and Loss.

Monetary foreign currency assets and liabilities at the year-end are translated at the year-end exchange rates and the resultant exchange differences are recognised in the Statement of Profit and Loss.

(s) Revenue Recognition

The Company derives revenues primarily from sale of manufactured goods. Effective 01 April 2018, the Company has adopted Indian Accounting Standard 115 (Ind AS 115) - 'Revenue from contracts with customers' using the cumulative catch-up transition method, applied to contracts that were not completed as on the transition date i.e. 01 April 2018. Accordingly, the comparative amounts of revenue and the corresponding contract assets /liabilities have not been retrospectively adjusted. The effect on adoption of Ind-AS 115 was insignificant.

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable net of discounts, returns and rebates taking into account contractually defined terms and excluding taxes or duties collected on behalf of the government.

Sale of Products

Sales are recognised at a point in time when control of the goods is transferred to the customer, generally on delivery of the goods. The normal credit term is 0 to 180 days on delivery. In determining the transaction price for sale of goods, the company considers the effect of variable consideration, the existence of significant financial components and consideration payable to the customer (if any).

The company provides volume rebates to certain customers once the quantity of product purchased during the period exceeds a threshold limit specified in the contract. The company does not adjust consideration for the effect of a significant financial component, if it expects, at contract inception, that customer pays for those goods within one year. No revenue is recognised if there are significant uncertainties regarding recovery of the amount due, associated costs or the possible return of goods.

Duty Drawback Scheme

Export benefits under Duty Drawback Scheme is estimated and accounted in the year of export.

Interest Income

Interest income is accrued on a time proportion basis, by reference to the principal outstanding and the applicable effective interest rate.

Dividend Income

Dividend income from investments is recognised when the shareholder's rights to receive payment have been established.

Income from Services

Income from services is recognised (net of taxes as applicable) as they are rendered, based on agreement/arrangement with the concerned customers.

(t) Significant Accounting Estimates, Judgements and Assumptions:

The preparation of the Company's financial statements in conformity with Ind AS requires Management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances existing when the financial statements were prepared. The estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates is recognised in the year in which the estimates are revised and in any future year affected.

In the process of applying the Company's accounting policies, Management has made the following judgements which have significant effect on the amounts recognised in the financial statements:

- i. **Useful Lives of Property, Plant and Equipment:** Determination of the estimated useful life of tangible assets and the assessment as to which components of the cost may be capitalised. Useful life of tangible assets is based on the life specified in Schedule II of the Act and also as per Management estimate for certain category of assets. Assumption also needs to be made, when the Company assesses, whether as asset may be capitalised and which components of the cost of the assets may be capitalised.
- ii. **Fair Value Measurement of Financial Instruments:** When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using appropriate valuation techniques. The inputs for these valuations are taken from observable sources where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of various inputs including liquidity risk, credit risk, volatility etc. Changes in assumptions/ judgements about these factors could affect the reported fair value of financial instruments.
- iii. **Measurement of Defined Benefit Plan:** The cost of the defined benefit gratuity plan and other post-employment benefits and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

Notes to Consolidated Financial Statements for the year ended 31st March, 2019

- iv. **Impairment of Financial Assets:** Trade receivables are stated at their normal value as reduced by appropriate allowances for estimated irrecoverable amounts. Individual trade receivables are written off when Management deems them not collectable. Impairment is made on the expected credit loss model, which is the present value of the cash shortfall over the expected life of the financial assets. The impairment provisions for financial assets are based on assumption about the risk of default and expected loss rates. Judgement in making these assumptions and selecting the inputs to the impairment calculation are based on past history, existing market condition as well as forward looking estimates at the end of each reporting period.
- v. **Impairment of Non-financial Assets:** The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, the Company estimates the asset's recoverable amount.

The company expects to recover full amount related to government subsidies related to interest and capitalisation. Further company also expects to recover/ adjust input tax credit related to GST in future.
- vi. **Contingencies:** Management judgement is required for estimating the possible outflow of resources, if any, in respect of contingencies/ claim/ litigation against the Company as it is not possible to predict the outcome of pending matters with accuracy.
- vii. **Net Realisable Value for Inventory Valuation:** The Company assesses net realisable value considering subsequent realisation, ageing and obsolescence for the purpose of valuation of inventories lower of cost or net realisable value.

(u) Recent Accounting Developments

The amendments to standards that are issued, but not yet effective, up to the date of issuance of the Entity's financial statements are disclosed below. The Entity intends to adopt these standards, if applicable, when they become effective.

- **Ind AS 116 "Leases":**

On March 30, 2019, Ministry of Corporate Affairs has notified Ind AS 116, Leases. Ind AS 116 will replace the existing leases Standard, Ind AS 17 Leases, and related Interpretations. The Standard sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract i.e., the lessee and the lessor. Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than twelve months, unless the underlying asset is of low value. Currently, operating lease expenses are charged to the statement of Profit & Loss. The Standard also contains enhanced disclosure requirements for lessees. Ind AS 116 substantially carries forward the lessor accounting requirements in Ind AS 17.

The effective date for adoption of Ind AS 116 is annual periods beginning on or after April 1, 2019. The Company is currently evaluating the effect of this amendment on the standalone financial statements.

- **Ind AS 12 Appendix C, Uncertainty over Income Tax Treatments:**

On March 30, 2019, Ministry of Corporate Affairs has notified Ind AS 12 Appendix C, Uncertainty over Income Tax Treatments which is to be applied while performing the determination of taxable profit (or loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. According to the appendix, companies need to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, that the companies have used or plan to use in their income tax filing which has to be considered to compute the most likely amount or the expected value of the tax treatment when determining taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates.

The effective date for adoption of Ind AS 12 Appendix C is annual periods beginning on or after April 1, 2019. The Company is currently evaluating the effect of this amendment on the standalone financial statements.

Discount rate - 0.5%	479.01	453.08	129.00	117.41

A description of methods used for sensitivity analysis and its limitations:

Sensitivity analysis is performed by varying a single parameter while keeping all the other parameters unchanged.

Sensitivity analysis fails to focus on the interrelationship between underlying parameters. Hence, the results may vary if two or more variables are changed simultaneously.

The method used does not indicate anything about the likelihood of change in any parameter and the extent of the change if any.

42 Capital Management

a) Risk Management

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors the return on capital as well as the level of dividends to ordinary shareholders.

The Board of Directors seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position.

The Company monitors capital using a ratio of 'adjusted net debt' to 'adjusted equity'. For this purpose, adjusted net debt is defined as total liabilities, comprising interest-bearing loans and borrowings less cash and cash equivalents.

Particulars	As at 31.03.2019 ₹ in lakhs	As at 31.03.2018 ₹ in lakhs

43 Financial Risk Management

Risk Management Framework

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

A. Credit risk

Credit risk arises from the possibility that the counter party may not be able to settle their obligations as agreed. To manage this, the Company periodically assesses financial reliability of customers and other counter parties, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of financial assets. Individual risk limits are set and periodically reviewed on the basis of such information.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis through each reporting period. To assess whether there is a significant increase in credit risk, the Company compares the risk of default occurring on asset as at the reporting date with the risk of default as at the date of initial recognition.

The Company measures the expected credit loss of trade receivables from individual customers based on historical trend, industry practices and the business environment in which the entity operates. Loss rates are based on actual credit loss experience and past trends.

Notes to Consolidated Financial Statements for the year ended 31st March, 2019

The Company has made specific provision for certain receivables based on assessment of recovery due to litigation, old claims etc. The outstanding of these receivables is ₹ 68 lakhs (Previous Year ₹ 131.67 lakhs) as on March 31, 2019. The same has been considered as credit impaired and made 100% provision against those receivables.

Further, the Company has considered 360 days past due unsecured receivables as credit impaired for the purpose of disclosure based on nature of business and credit cycle in its business operations even though the Company is following simplified approach for life time provisioning.

ii Investments other than Investments in Joint Ventures

There is investment of ₹ 0.89 lakh (₹ 0.89 lakh as at 31st March, 2018) and no impairment has been recognised on such investments.

iii Cash and Bank Balances

The Company held cash and bank balance with credit worthy banks of ₹ 975.44 lakhs at March 31, 2019 (March 31, 2018 ₹ 559.77 lakhs) includes fixed deposit lien marked with bank of ₹ 333.91 lakhs at March 31, 2019 (March 31, 2018 ₹ 313.66 lakhs) The credit risk on cash and cash equivalents is limited as the Company generally invests in deposits with banks where credit risk is largely perceived to be extremely insignificant.

iv Loans

No impairment in respect of loans was necessary during the current as well as previous year.

B. Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Management monitors rolling forecasts of the Company's liquidity position on the basis of expected cash flows. The Company manages its liquidity risk by preparing periodic cash flow projections to monitor liquidity requirements. In addition, the Company monitors the Balance Sheet liquidity ratios against internal and external regulatory requirements and maintains debt financing plans.

C Market Risk

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and loans and borrowings.

i Currency Risk

The Company operates internationally and portion of the business is transacted in several currencies and consequently the Company is exposed to foreign exchange risk through its sales to overseas customers and purchases from overseas suppliers in various foreign currencies. Foreign currency exchange rate exposure is partly balanced by purchasing of goods in the respective currencies.

Notes to Consolidated Financial Statements for the year ended 31st March, 2019

(d) Foreign Currency Risk Sensitivity

A change of 1% in foreign currency exchange rate applied on net foreign exposure (i.e. net unhedged payable / receivable) would have following Impact on profit before tax:

Particulars	Year ended 31.03.2019		Year ended 31.03.2018	
	1% Increase ₹ in lakhs	1% decrease ₹ in lakhs	1% Increase ₹ in lakhs	1% decrease ₹ in lakhs

JPY	-	-	(0.08)	0.08
Increase / (decrease) in profit or loss	8.75	(8.75)	1.31	(1.31)

ii Interest rate Risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing investments will fluctuate because of fluctuations in the interest rates.

Exposure to Interest Rate Risk

In order to optimise the Company's position with regards to interest income and interest expenses and to manage the interest rate risk, the Company performs a comprehensive corporate interest rate risk management by balancing the proportion of fixed rate and floating rate financial instruments in its total portfolio. According to the Company, interest rate risk exposure is only for floating rate borrowings. The interest rate profile of the Company's interest-bearing financial instruments as reported to the Management of the Company is as follows.

Particulars	As at 31.03.2019 ₹ in lakhs	As at 31.03.2018 ₹ in lakhs
Borrowings bearing fixed rate of interest	6,949.41	8,066.77
Borrowings bearing variable rate of interest	44,033.51	44,045.98
Total Borrowings	50,982.92	52,112.75

Interest rate sensitivity

a) Fair Value Sensitivity Analysis for Fixed-rate Instruments

The Company does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

b) Cash Flow Sensitivity Analysis for Variable-rate Instruments

A reasonably possible change of 25 basis points in interest rates at the reporting date would have increased (decreased) equity and profit or loss by the amounts shown below. This analysis assumes that all other variables in particular foreign currency exchange rates remain constant.

A change of 25 bps in interest rates would have following impact on profit before tax.

Particulars	Year ended 31.03.2019 ₹ in lakhs	Year ended 31.03.2018 ₹ in lakhs
25 bp decrease	110.08	110.11
