ON PAID SUBSCRIPTION

Google's AI chatbot Bard is now Gemini

JEFFREY DASTIN
San Francisco, February 8

GOOGLE ON THURSDAY renamed its Bard chatbot after the new artificial intelligence that is powering it, called Gemini, and said consumers can pay for better reasoning capabilities as it vies with Microsoft to win subscriptions.

US customers can subscribe for \$19.99 a month to access Gemini Advanced

US customers can subscribe for \$19.99 a month to access Gemini Advanced, which includes a more powerful Ultra 1.0 AI model, the Alphabet subsidiary said. Subscribers will receive two terabytes of cloud storage that typically cost \$9.99 monthly and they will soon gain access to Gemini in Gmail and Google's productivity suite. This bundle, known as the Google One AI Premium plan, represents one of the company's biggest answers yet to Microsoft and its partner OpenAI. It also shows growing competition over consumers, who now have several paid AI subscription options.

models and other features, while Microsoft recently announced a competing subscription for AI in programs such as Word and Excel. Both subscriptions cost \$20 a month in the United States.

In an interview, Product Lead Jack Krawczyk said cloud storage, Gmail and other integrations would put Google's subscription in harmony with how people work.

"When I pay \$20 a month, access to a model alone is not really enough," he said. Krawczyk said the target market is people who want the most capable generative AI technology that can conjure new content on command and handle queries where no obvious answer exists online.

OpenAI's ChatGPT Plus a year ago pioneered the market for buying early access to AI

FROM THE FRONT PAGE

UPA plunged economy into a crisis: White Paper

ALSO, THERE WASN'T any explicit comparison of the economic growth rates between the 10 years of the Modi regime and the previous decade. The Covid-19 pandemic had wreaked havoc on the economy during the NDA government, but the recovery was smart, and the fiscal cost of it controlled.

The White Paper said there is "miles to go and mountains to scale before we sleep" as the destination is to make India a developed nation by 2047. "It is our Kartavya Kaal," said the paper.

The paper tabled in the Lok Sabha by finance minister Nirmala Sitharaman said the UPA's governance record was marred by price instability, banking crisis, external vulnerability, messy public finances with under-reporting of deficits and lack of asset creation.

"In 2014, when we formed the government, the economy was in a fragile state; public finances were in bad shape; there was economic mismanagement and financial indiscipline and there was widespread corruption. It was a crisis situation," it said.

The economy under UPA suffered from "double-digit inflation, ailing banking sector following excessive lending during the boom phase, and high policy uncertainty marred India's business climate, dented its image and the people's con-

Cong's black paper flags 'failures' of govt

ON INFLATION, the paper says prices of essentials such as mustard oil, wheat, milk, diesel and petrol, and domestic cooking gas (LPG) soared by 37-120% in the past decade.

The Congress also said that "blunders" such as demonetisation and a "poorly-designed" goods and services tax (GST) completely "derailed" the economy and

destroyed job-generating small businesses.

On migrant workers, the Congress said that the nationwide lockdown in March 2020 disrupted the livelihood of 40 million workers and triggered a humanitarian crisis.

The Congress also accused the Modi government of targeting the Opposition with its investigative

agencies and ending the independence of the media, along with the Election Commission, Enforcement Directorate and the Reserve Bank of India.

Moreover, the black paper said that the last decade has seen "blatant discrimination" against women, scheduled castes, scheduled tribes, other backward classes and minorities.

fidence about their future, despite the Vajpayee-led NDA government having handed over a healthy and resilient economy with high-growth potential in 2004," according to the White Paper.

The paper refused to accord credit to the UPA for the boom years of the first decade of the millennium. "The high growth and low inflation of the first five years (of UPA) were due mainly to the global economic boom of 2002-07 and the wide-ranging, productivity-enhancing economic reforms carried out prior to 2004. The UPA government's economic policies were mediocre to start with and worsened increasingly as the decade evolved," the paper quoted an economist as saying. Referring to the reform

measures undertaken by the NDA government to mend the situation, the paper said these have significantly elevated the medium-term investment prospects of the economy even as it resolved the execution challenges that plagued the UPA government by implementing technology-based targeting and monitoring mechanisms.

Besides substantially improving upon the UPA government's programme delivery, the NDA also undertook several policy innovations to tap India's development potential, the paper said. The PM-Kisan Samman Nidhi with an annual ₹6,000 cash support since 2019 has empowered

farmers and improved their incomes without hurting the borrower-lender relationship, it said.

"When our government came to office, public finances were not in a healthy state. To restore public finances to good health, our government went to great lengths to transform India's fiscal system into a reformed tax and spending ecosystem," the White Paper said giving examples goods and services tax (GST) rollout and thrust on capital expenditure.

Moving away from the past practice, below-the-line financing is now being transparently disclosed. "So far, this government has expended about ₹1.93 trillion in the last ten

BAT signals stake sale in ITC

MARROCO HAD SAID that BAT wanted to retain a level of influence at ITC and that a 25% stake was required for veto rights. Shares of ITC, however, fell 5.4% intra-day on the BSE and finally settled at ₹414.45 apiece, down 4.04% versus the previous day's close.

Some of the other key shareholders in ITC are LIC (15.21%), FPIs (14.23%), retail investors (11.29%), mutual funds (9.66%) and SUUTI (7.82%). The Centre had decided against divesting the SUUTI stake in ITC last year. On the other hand, BAT, best known for brands such as Dunhill and Lucky Strike cigarettes, had disappointed investors when it opted against a fresh buyback programme last year, experts said, to focus instead on reducing debt and investing in new products.

BSE data shows that BAT's shareholding in ITC has reduced by 347 basis points in the last 22 years, from 32.77% to 29.03% now. Based on the current market price, the value of BAT's current shareholding in ITC is ₹1.5 trillion (\$18 billion). This is almost 26% of its current market capitalisation of nearly \$70 billion on the LSE.
