Mr. Sanjay Gupta, Chairman, APL Apollo, comments in Q1FY24 results

“The Company reported highest ever quarterly sales volume and healthy EBITDA in Q1FY24. This was supported by our continuous focus on adding value added products (VAP) in our portfolio. The VAP contributed 57% to our overall sales volume in Q1FY24. Moreover the ramp up from our greenfield plant in Raipur will support sales volume/EBITDA growth in coming quarters. We continue to remain prudent with our working capital management which remains best in the building material sector.”

The ramp-up of New Raipur plant is on expected lines. The sales mix of value added products will improve in coming quarters with rising contribution of innovative products. We are encouraged to see strong sales growth in the heavy structural steel tubes. The sales mix should eventually move towards 70% for value added products.
