CCI may Seek Less Info on Mergers

Market share disclosure forms likely to be simplified

Shrimi.Choudhary
@timesgroup.com

New Delhi: The Competition Commission of India (CCI) is planning a revamp of the disclosure requirements when entities seek approval for merger deals to make the process less burdensome, people aware of deliberations told ET. At present, disclosures are made under Form-II if the market share of the post-merger entity exceeds 15%. The form has 30 queries that seek voluminous details about the deal and post-merger market and the business environment. In the case of less significant deals, Form-I, or short form, is filed that seeks basic information of mergers and queries are lesser and generic. CCI is looking if this threshold of 15% market share can be raised, and the outdated queries such as the economics of the segment, data on research and development, and quantitative efficiencies of the company can be dropped or modified in line with international best practices. Globally, competition laws focus on queries that are relevant for merging firms and are deal-focused, not to file Form-II as it's complicated, confusing, and not so useful.

friendly. The exercise is quite cumbersome, an official, privy to the plan, told ET. "Keeping in mind the challenges, CCI's team is working to make the regime simpler but much-focused on the merger information. So, that will give a clearer picture of the company's focus and intent and fast-track the entire process," the official added.

The disclosure under Form-II is mainly to ensure that the merger is not anti-competition, the official said. Other than market share, Form-II has to be also filed if CCI is not satisfied with the 'combination' disclosure or suspects misrepresentation of facts when it's reviewing the application.

GSK, Generali Deals Cleared

It also approved Italian firm Generali Group's proposal to raise its shareholding in Future Generali India Life Insurance to 71% from the current 65%. —Our Bureau
