

Business Update Release

Lords Chloro Alkali receives approval to list on National Stock Exchange

Listing has commenced on 28th August, 2023

28th August, 2023, New Delhi: **Lords Chloro Alkali Limited (BSE: 500284, NSE: LORDSCHLO)**, amongst India's leading producer of wide range of chemicals, has announced that the Company has received listing and trading approval from NSE for listing of its 2,51,53,861 Equity shares of Face value of Rs. 10/- each. The Listing has commenced at NSE on 28th August, 2023.

Management Comment:

Commenting on this development, **Mr Ajay Virmani, Managing Director, Lords Chloro Alkali Ltd.** said:

"We are very happy to announce that Lords Chloro Alkali has been granted listing and trading approval from NSE. This opportunity will help us to reach out to a wider investor community. It will also create a better visibility for the company.

I would like to thank the NSE for giving us this platform and opportunity. I would also like to thank all the stakeholders and most importantly the Lords Chloro Alkali team for their dedication and hard work in helping us in achieving this.

The listing on NSE marks a significant milestone in our growth journey. We are excited about this development and aim to achieve substantially higher visibility in the markets, which would set the tone for future growth and expansions."

New initiatives undertaken:

Looking towards the future, Lords Chloro Alkali Ltd is implementing its expansions. The company is in the process of **increasing its Caustic Soda capacity to 300 TPD**, an increase of over 43%, signalling its commitment to meeting the growing demand for its products.

Additionally, the company is diversifying its product portfolio by **introducing Chlorinated Paraffin Wax** by the 2nd half of this Financial Year. The 50 TPD plant is in the process of completion and will initially start with 20 TPD.

Furthermore, the company is making strides towards sustainability by **setting up a captive 12 MW solar power plant** in Rajasthan, a move that not only reduces its carbon footprint but also improves its overall cost structure significantly.

With a rich history of over four decades in the industry, Lords Chloro Alkali Ltd continues to be a major player, catering to diverse markets and consistently striving for growth, innovation, and environmental responsibility.
