BUILDING FOR TOMORROW

DILIP BUILDCON LIMITED

ANNUAL REPORT

BUILDING FOR TOMORROW

With recent inflationary headwinds and supply-chain hurdles, the world has been forced to embrace a pace of change that has drastically altered how industries operate.

In these testing times, we have maintained our utmost focus on protecting our people, customers and profitability while recalibrating our strategies to pivot to emerging opportunities. On the one hand, we are leveraging our operational efficiencies and digital capabilities. On the other, we are building for the future with an agile workforce and an experienced management team.

For us, innovation and responsibility have been at the core of building a sustainable enterprise and exploring possibilities towards creating a better future. Whether by developing sustainable solutions or offering superior solutions for construction and mobility, we relentlessly focus on delivering world-class products that are synonymous with quality and durability.

We continue to cultivate ethics and integrity as the cornerstones of our purpose, creating and safeguarding value across the board and contributing to a sustainable future in the process. Starting with our leaders, the principles of conscious capitalism trickle down across our areas of impact, creating a culture that nurtures and cares, augmenting our business success.

We have aligned our vision with India's growth and are contributing through our infrastructure capabilities to make India a global superpower.

“
Working through the challenges is the only way to develop perseverance and resilience.
”

As a result of the global Covid-19 pandemic crisis, your Company has had to endure numerous challenges over the past few years. Nevertheless, we remain steadfast in achieving our vision to be a major stakeholder in building India's infrastructure. We have established ourselves as an important player in the construction industry through our sustained focus on building capabilities for the future.

Building for Tomorrow

Business Segments

Contributing to India's growth vision

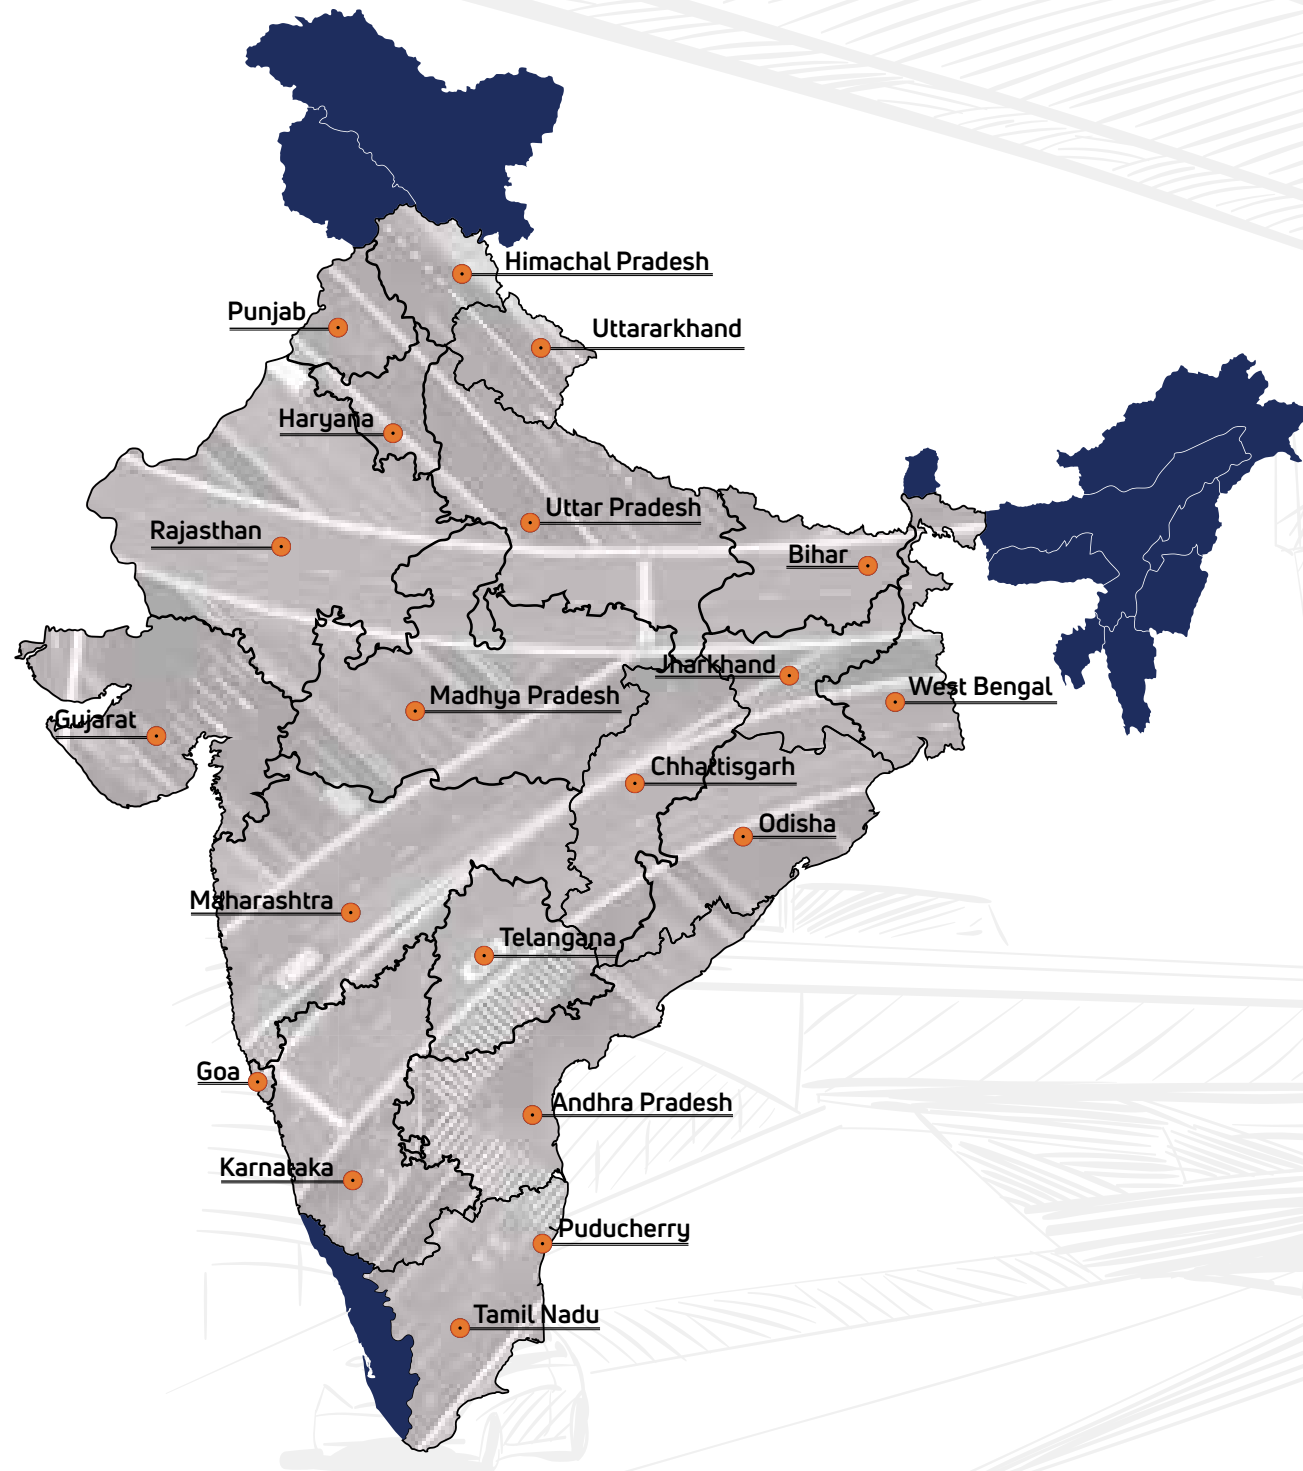

A new dream of "New India 2022" has been outlined for the country by Prime Minister Narendra Modi in his fourth Independence Day address in 2017. An infrastructure that is robust is imperative to the country's ability to fulfill this dream. Roads, railways, dams, buildings, mines, bridges and power plants in India help propel the country's growth and make it a global power. In its role as India's largest Engineering, Procurement and Construction (EPC) company, DBL plays an important role in achieving this vision. By leveraging our execution process and engineering capabilities, we are helping India become a global power. Moreover, we are well placed to take advantage of the opportunities that India's growth path will uncover.

More Than Three Decades In The Making

A young civil engineer, Dilip Suryavanshi, established DBL in 1987 as a construction firm specializing in real estate. Hence began the journey of delivering innovative and excellence-driven projects throughout India, aiding the growth story of India. With a focus on hard work, respect for relationships, and a drive for excellence, we have learned and evolved during our journey.

Chairman Message

“
Against such a challenging backdrop, DBL’s business remained resilient, shouldered by our diverse business segment and experienced Board & Management team.”

Dilip Suryavanshi

Dear Shareholders,

I sincerely hope that all of you are safe and in good health. I am delighted to write to you at the end of what has been yet another turbulent year. Global supply chain disruptions, high input prices, and geopolitical tensions characterized the year which started with a more severe COVID-19 pandemic. Against such a challenging backdrop, DBL’s business remained resilient, shouldered by our diverse business segment and experienced Board & Management team.

As a result of war and pandemic, crude oil prices have increased, fueling inflation. This has severely impacted businesses, trade, manufacturing, infrastructure, and employment opportunities. One of the main concerns was

controlling the shooting inflation, which was also getting sticky and was negatively affecting individuals and businesses alike. In April 2022, retail inflation increased by 7.8%, and wholesale prices by 15%. Adding to this, a shortage of raw materials and strained supply lines contributed to inflationary pressures.

Amidst such a market scenario, your Company couldn’t remain unaffected. Due to soaring inflation, the price of the raw material and other input costs increased manifolds. There were logistical bottlenecks, supply-chain constraints, and a few other short-term operational hurdles for the Company to address.

Believing in its capability to steer through obscurities, your Company persevered these challenges only to

Building for Tomorrow

emerge even stronger. Keeping the focus on Building for Tomorrow, your Company managed to remain resilient and committed to its collective goals.

Infrastructure Sector – Bedrock of Nation’s Growth

As India moves into its next phase of growth, infrastructure plays an important role. Therefore, the government focus on infrastructure spending and plan to invest about ₹102 lakh crore in infrastructure projects by 2024-25. In the Budget for 2022-23, the Government earmarked an amount of ₹ 68,000 crore for the Ministry of Road Transport and Highways. Among all ministries in 2022-23, this is the highest increase over revised estimates. The Gati Shakti programme launched by the Government is focused on the expansion of roads, railways, ports, airports, mass transport, waterways and logistics infrastructure.

In 2021-22, the country completed 10,457 km of national highways, compared to 13,327 km in 2020-21, according to the Ministry of Road Transport and Highways. Due to the disruption caused by the second and third waves of the pandemic, along with an unusually long rainy season, road completion declined significantly. These factors prevented NHAI from constructing the 12,000 km of highways it had envisaged last year, although it awarded a record number of highways to be constructed in FY22-23.

The government places a high priority on infrastructure spending because it multiplies economic growth. Accordingly, the government has increased capital spending by 35% for FY23, compared to FY22’s 5.5 trillion. New hybrid annuity policies have been simplified to provide further stimulus. This demonstrates the government’s commitment to improving the infrastructure sector with significant increases in allocations for urban development and connecting cities.

The Year in Review

By the end of FY22, there was a substantial inflow of new projects, continuing the general trend of previous years. The road sector accounted for the lion’s share of your Company’s influx of orders. In FY21-22, the number of road projects awarded increased by 22% (12,731 km). NHAI and the Ministry of Road Transport and Highways (MoRTH) awarded 5,113 km of road projects in March 2022, which was almost six times more than the previous month.

Despite improvement in project awarding, delays in government payments, shortages of raw materials, and labor shortages slowed project execution. During peak working season, unseasonal rains along with cyclones resulted in a marked slowdown in construction activities.

COVID-19’s second wave also had an impact on it. Average daily construction slowed further due to a surge in input prices. Due to this, the earlier delay could not be compensated, which resulted in a drop in productivity. Construction of highways fell by a fifth Y-o-Y at 29 km per day compared with the goal set at the beginning of the fiscal year at 40 km per day, which was subsequently revised to 33 km per day in November - December.

We achieved major milestones during the year:

- Completed 12 projects during the year
- Projects completed across 8 states in road and mining sectors
- 5 New projects won during the year
- Projects won across 3 sectors & 5 different states.

All other projects are progressing well and we expect to complete them on schedule.

Building for Tomorrow

As we move forward, we are prioritizing our strategy around three broad areas - continued focus on the road sector, moving up the value chain, diversifying into other sectors within the infrastructure space, and maintaining steady growth. As part of our efforts to improve profitability and deleverage the balance sheet, we maintain strict cost controls. We will continue to look at opportunities beyond the road sector like railways, metro, tunnels, mining, and airports to diversify our order book. Several projects have been identified for these sectors in India’s infrastructure plans. In the coming years, we will focus on exploring and tapping into these new business opportunities that will contribute to the top line of our company. Additionally, we are leveraging digitalization to enhance efficiency in our processes and expect this to be one of our key drivers in the future. With our capabilities and rich market experience, we are optimistic about the future.

To conclude, I would like to thank all of our stakeholders, including employees and associates as our joint efforts help us continue on our growth journey. We are entering the new fiscal with optimism that together we can overcome any challenge to ensure growth and sustainability.

Warm wishes,
Dilip Suryavanshi

CEO Message

“In terms of results for our people, our clients, our communities and our shareholders, we deliver consistently.”

● Devendra Jain

Dear Shareholders,

It is during challenging times that an organization is most likely to demonstrate its true strength. As a result of the recent multi-directional headwinds, many organizations have had to redefine their business models and set up entirely new protocols. Several obstacles hindered our business operations and business growth this year as a result of the continued lockdowns to prevent the spread of Covid-19. Yet, despite all odds, we persevered in our operations and progressed successfully towards completing our projects. In terms of results for our people, our clients, our communities and our shareholders, we deliver consistently.

Maintaining Resilience

Not only was the year challenging because of the pandemic, but also because of exceptionally heavy and prolonged monsoons. In spite of the odds, we continue to diversify into different sectors - roads and highways account for 50% of our orders, while tunnels, special bridges, metros, irrigation and mining constitute the remaining 50%. Our current order book is ₹ 2,56,000 million. The Consolidated Revenue stood at ₹ 95,564 million in the financial year 2021-22 as against ₹ 1,01,682 million in the financial year 2020-21. The decrease was mainly due to a decrease in interest income on financial asset revenue and toll revenue. Consolidated Profit after Tax (PAT) including Other Comprehensive Income was ₹ 5,309.42 million for the financial year 2021-22 as compared to a profit of ₹ 4,421.39 million in the previous year. In addition, we

won 5 new projects for road, mining, and tunnel across Madhya Pradesh, Himachal Pradesh, Chhattisgarh, Telangana and Karnataka.

For our mining projects, we are progressing well on a Mine Developer cum Operator (MDO) contract for the development and operation of the huge Siarmal open cast project in the state of Odisha. The contract value is ₹ 3,642 million and the contract period is 25 years. The mining reserve is 1091 million tonnes. Our Coal business will ensure a steady income for the Company and healthy levels of EBIDTA as well.

In order to further strengthen our balance sheet, we are in process of divestment of road assets. Divestment has been completed for 3 HAM projects and is underway for 10 HAM projects worth ₹ 150 million to Shrem InvIT at 1.56x valuation. This will take place in 3 phases; in September, Q3 and Q4 of FY 2022-23.

Our backward integration capabilities contribute to our steady revenue. From start to finish, we are in charge of all aspects of the design-build-operate process. In order to meet our business needs, we have set up manufacturing units for high-quality road furniture. To reduce material consumption and reuse materials as much as possible, we are setting up an in-house foundry. The next priority was to ensure that our people were taken care, COVID care centers were set up for them, as well as arrangements for their food and accommodation were provided to them. As a result, we were able to resume operations quite quickly once the lockdown was lifted.

Building for Tomorrow

Lingering Repercussions of COVID-19

This year, the compounding impact of previous lockdowns lingered on, due to which the business suffered. In the wake of the government-induced lockdown, our plants were also closed, like all other businesses. There were other factors as well, such as a massive dearth of labour and monsoon conditions, which impacted our operations. Additionally, the persistently rising interest rates and supply-chain bottlenecks continue to remain a challenge. Now, as the entire economy is on a path to rebound, a slow and gradual recovery is now taking place in our business as well. As the lockdown has been lifted, workers have resumed their construction work on sites where in-site arrangements have been made.

A record high in raw material prices was reached during the year. There was a steep rise in the prices of steel, cement, crude oil, among other materials. In addition, COVID-19 and the long monsoon contributed to our standstill costs due to our fixed-cost business model. In spite of all these challenges, we have been successful in completing all our projects in time.

Maintaining a steady focus on ESG

In addition to our commitment to social, environmental, and governance goals (ESG), we are also committed to creating sustainable long-term value for our stakeholders. In order to conserve the environment, we are undertaking a variety of initiatives. Trees were planted along the sides of the roads we built, rooftop solar systems were installed at our plants in Bhopal and Indore and materials were reduced and reused wherever possible. The empowerment of society and communities in which we operate is a necessary component of our financial success. In an effort to reduce accident-related fatalities, we hold regular road safety awareness campaigns. Besides health and preventive care, we support sports, rural development projects and education for underprivileged children. As we strive to make the world a better place, we are aware that change begins from within. Therefore, we're strengthening our corporate governance to conduct fair and ethical business in the future. To enhance our non-financial performance, we will continue to prioritize issues related to ESG in the years ahead.

Building for Tomorrow

In terms of business improvement, we are well on track. We have new projects inflow which is capable enough to increase our growth momentum in the years to come. Our business outlook remains upbeat on the back of thriving industry growth drivers. In the latest Union Budget, the Government of India (GoI) has announced significant allocations towards infrastructure development. It plans to invest about ₹ 10.2 lakh million in infrastructure projects by 2024-25. The five-year-long National Infrastructure Pipeline (NIP) will enter its second year in FY21, during

which ₹ 1,95,040 million are to be invested. About ₹ 1.95 lakh million has been budgeted during FY21 as part of the NIP. Over the next five years, the road sector is expected to contribute for 18% of capital spending. As a result, we will have a variety of opportunities at our disposal. NHAI plans to construct 25,000 km of national highways in 2022-23, through engineering, procurement and construction (EPC) and hybrid annuity model (HAM) projects.

A prolonged rainy season and the pandemic prevented the NHAI from completing last year's expected 12,000 kilometers. From April to November in FY22, highway construction reached its lowest level in four years at 21.3 km per day. Though, this year, the number of highways awarded in FY22 was a high of 12,731 km, despite a slowdown in highway construction last year. Previously, 10,964 km had been awarded.

For irrigation, in the Union Budget 2021-22, the Pradhan Mantri Krishi Sinchai Yojana (PMKSY) is allocated Rs. 11,588 crores. It is planned to double the amount of the 'Micro Irrigation Fund' to ₹ 1,000 million. To boost the mining sector, five key industrial projects worth ₹ 0.146 lakh million approved by the Odisha government in July 2021 are expected to boost steel production capacity by 27.5 million tons. A memorandum of understanding (MoU) was approved by the Union Cabinet in June 2021 between the Ministry of Mines and the Secretariat of Mining Policy of the Ministry of Productive Development of Argentina.

In the railway sector, 400 new generation Vande Bharat Trains to be manufactured during the next three years. 100 PM GatiShakti Cargo terminals for multimodal logistics to be developed during the next three years. To enhance the metro transportation, With a Budget allocation of ₹ 1,913 million in 2022-23, multiple Metro projects are being planned and built in India as well. Currently, ~700 km of conventional metro is operating in the country across 18 cities, while another ~1,000 km of metro and RRTS are under development across 27 cities (18 existing + 9 new).

As a result, your Company is in a position to continue building projects that will make India one of the leading nations in the field of infrastructure through leveraging the initiatives taken by the government in various sectors.

As I conclude, I want to extend my gratitude to all members of the DBL family - you've done a great job supporting the Company's growth in the future. We are grateful to all our stakeholders and investors for their continued support and faith in the company. On behalf of the Board of Directors and Senior Management team, I would like to express our sincere appreciation. DBL will achieve new heights of success in the future as we work together.

Warm wishes,
Devendra Jain

Building for Tomorrow

Self Sufficient

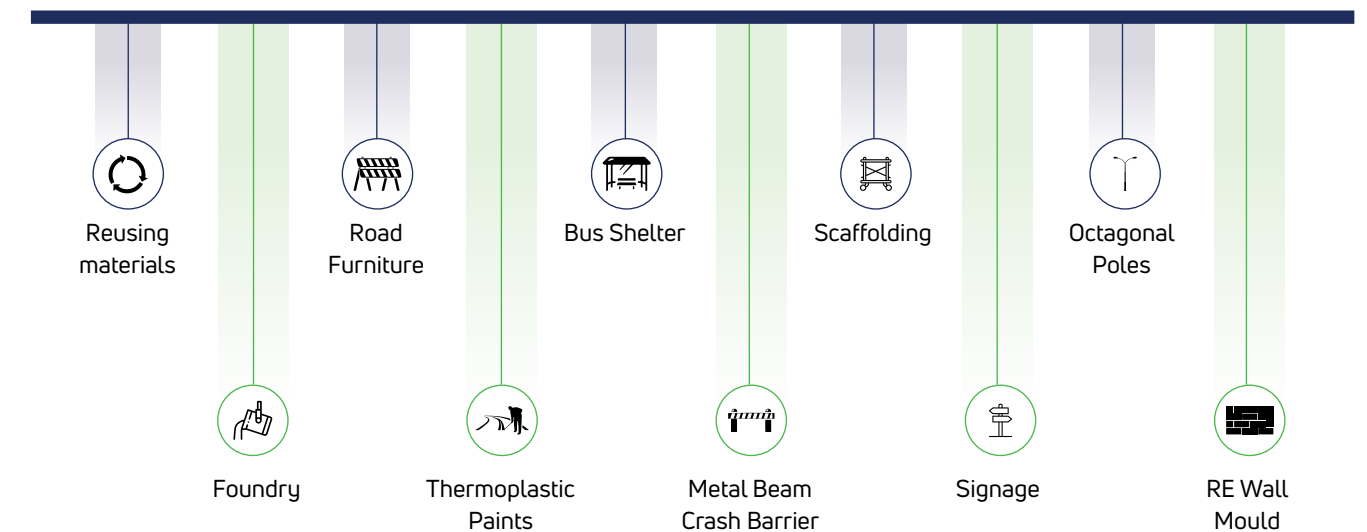

Our subsidiary Aarneel Technocrafts manufactures high-quality road furniture and signage, including geo trel mesh, octagonal poles, steel beam crash barriers, guardrails, scaffolding, RE wall moulds, and retroreflective thermoplastic paints. This allows us to maintain a steady supply of road furniture, which lowers costs and speeds up the timely completion of projects.

Focus on Waste Reduction

In all stages of our construction process, we reduce and reuse materials to reduce waste. To meet this purpose, we have established manufacturing facilities for manganese steel castings for crushers and earthmoving equipment comprising jaw plates, cones and tooth points. The foundry recycles metal scrap for reuse in making road furniture. We also manufacture strip steel expansion joint and structural elastomeric bearing for use in bridges.

Backward integration

Unlike the norm, we have gone against the grain and firmly rooted ourselves in the space of backward integration. The majority of companies rely on suppliers and distributors for business activities ahead in the value chain, while we built our own ecosystem to optimize the entire greater supply chain efficiencies and operational synergies, considering the evolving landscape. Our supply chain efficiencies have helped us strengthen relationship with clients.

What we depend on..

RELATIONSHIPS

Esteemed partners

We have earned the trust of reputed public sector clients on the back of our excellent project execution and high quality. We are proud to have worked on projects awarded by the state and central governments and authorities such as MoRTH, NHAI, Northern Coalfields Limited and Singareni Collieries Limited.

Trusted suppliers

Our trusted supplier partners source materials and provide critical services for us.

Purposeful people

Our 30,737 dedicated people invest their skills and time in our offices, factories, sites and are increasingly working in more flexible and agile ways. We are the largest employer in the Indian Construction Industry with approx 79% Employee retention ratio.

Building for Tomorrow

Input materials

We use thousands of tons of raw materials, and chemicals for our products.

Financial resources

Capital from our shareholders allows us to invest for the long-term.

Intangible assets

Our manufacturing excellence, technological capabilities, and organizational design set us apart.

RESOURCES

Innovation

Innovation is at the heart of everything we do and we continue to nurture a culture of innovation to excel. We strive to constantly improve our processes and projects by learning from the best in the industry. Our goal is to attain the highest levels of technical excellence and innovation, and to improve our safety, quality, cost, and efficiency. To distinguish ourselves from our peers and improve our operational excellence, we have introduced a wide range of innovations:

- Enhancing business productivity using the latest technologies and processes
- Automating processes across various modules with Robotics Process Automation (RPA)
- Among the best and most advanced implementations of automatic payments with banks
- E-Invoicing and E-Way Bills using SAP's Business Technology Platform (BTP)
- Integration of SAP ERP with a top-notch Indian telecom company
- Implemented SAP Analytics Cloud (SAC) with more advanced features in dashboarding, replacing traditional dashboards

Operational Excellence

Achieving operational excellence is a priority at DBL. Staying ahead of the competition is essential for our growth strategy. Operational excellence comes from managing and investing in our business processes systematically.

Equipment Ownership

Our fleet of 11,237 latest equipment is regularly maintained and upkeep. Therefore, unforeseen breakdowns do not cause delays or expenditures. GPS tracking is installed on every vehicle, ensuring its location 24x7. Operators of the equipment and vehicles are highly trained and skilled.

In-house Design, Engineering and Construction

Having our own design, engineering, and construction capabilities allows us to custom tailor projects according to our clients' needs, thereby minimizing third-party involvement.

Focus on High Quality

Our commitment to quality extends from project execution and maintenance to material procurement and production. The sites are regularly audited and quality checked. Premier government technical institutions conduct proof checks. A proof check is conducted based on parameters such as strength, durability, maintenance history, ride quality, and longevity of the road. Environmental impact is also an important factor in our projects.

The value we create for...

Future Growth Drivers

ESG at a Heart of Everything We do

ESG is at the core of DBL's business. Especially in a business where we must construct with speed and quality, but also build to last for national benefit. As part of our environmental commitment, we are committed to consuming environmentally responsible resources, consuming an optimal amount, recycling waste, consuming a modest amount of fossil fuels, and building resistance to climate change, which leads to a declining carbon footprint. In our social component, we emphasize investing in our people, the culture of our organization, relationships with our clients, and our commitment to our communities. As part of our governance component, we articulate strategic clarity, prioritize values that guide the conduct of our business, emphasize operational discipline, explain Board composition, and elicit a culture of responsibility among our stakeholders. A combination of environment, social, and governance enables secure, scalable, and sustainable long-term growth by doing the right things the right way.

A. Environment

In order to conserve the environment, we are undertaking a wide range of initiatives. By striking a balance between economic growth and preservation of the environment at our operating locations, we strive to preserve the environment while being mindful of ecology. As part of our commitment to environmental sustainability, we took steps to maintain ecological balance, conserve natural resources, and improve soil, air, and water quality. We planted trees on our roads, installed solar systems on our Indore and Bhopal plants, and reduced and reused materials. During the previous year, DBL approved ₹50 lakh for the renovation and maintenance of the area around Bhadbhada Dam in consideration of environmental sustainability.

As we move forward, we will continue to prioritize ESG matters and strive to improve our non-financial performance.

Initiatives Undertaken During FY2022

We have been undertaking the following initiatives in various parts of India. This year, these projects were carried out in Bhopal, Madhya Pradesh:

Celebration of World Environment Day

A celebration of world environment day was held across the DBL project sites in efforts to demonstrate the company's commitment to environmental sustainability. There were several initiatives taken on this day, including tree plantation drives, clean-up of roadside eateries and establishments, waste reduction training, and construction site hygiene training. As part of this event, various project sites (including Jabalpur-Shahpura and Patan; Guna-Baiora and Ghagra Bridge-Varanasi) were cleaned of rainwater and carriageways.

Geo Green initiative

DBL has also begun the Geo Green initiative as a means to control soil erosion from either side of the road construction. During road construction, a large amount of soil is displaced and the earth is lost, affecting the quality of the surrounding land. To prevent this, DBL plants trees along the dividers, grows grass on the roads, and beautifies them during the construction process. DBL focuses on energy efficiency and minimizing the environmental impact of its projects. To control soil erosion on either side of under construction roads, DBL purchased 526,818 m² of geo green of ₹4.36 crore, including 25,893 kg mixed grass seeds of ₹74 lakhs and 480,276 kg organic menu soil conditioner of ₹44 lakhs. Additionally, DBL has planted approximately 5,00,000 trees across all of its sites. The company has certified its office building space in Madhya Pradesh which was built to the highest Green standards. Apart from this, DBL has various other programs such as afforestation.

Reusing Milled Material

DBL stores steel scrap waste at all its sites in a covered and isolated area from beginning to end. The scrap is used to develop new iron and steel equipment and highway infrastructure parts. Reusing milled material in road bases is one of the greatest value additions to DBL innovations. In this process, milling machines are used to separate the aggregate from the existing roads. In order to meet the specifications, DBL then blends the material (40%) with fresh aggregates (60%) to satisfy the requirements. Road construction authorities have approved this process, DBL recycles more than 10% of total waste and products.

Manufacturing Sand

DBL manufactures sand for construction purposes in accordance with its code of environmental sustainability. Overtime, DBL has reduced its dependency on government-approved sand and limited adverse effects on river banks. Concrete based on manufactured sand has significant technological and commercial advantages. Natural sand has been completely replaced by DBL's manufactured sand, saving up to ₹1,870 million per year.

Solar Panels Installation

Along with its subsidiaries, DBL is taking steps to develop its renewable energy business. As a first step in this initiative, DBL is installing rooftop solar systems at three plants in Indore and Bhopal. Taking this idea to country by country, DBL has started working on a solar-powered toll plaza across India that would further save 7,57,740 units annually. Ananthapuram-Anakapalli PKG-1 and Ananthapuram-Anakapalli PKG-3 solar plants will be commissioned and operational during the current financial year.

GPS Adoption

GPS technology has been implemented by DBL in its machines to track machine life, fuel consumption, and consumables. In addition, the technology provides real-time alerts and notifications for vehicle location and mapping. By utilizing this technology, DBL is able to guide driver hours and operators on the right path, resulting in around 25% fuel savings.

B. Social

At DBL, we believe in building a better future, together. As a company, we believe that financial success is incomplete if it does not contribute to the empowerment of our society and communities. In order to reduce fatalities caused by accidents, we undertake regular safety awareness initiatives. As well, we work to improve the health and preventive care of the underprivileged, to promote sports, and to improve rural development. Corporate social responsibility is the commitment of a company to improve the quality of life of the community and society at large and to take responsibility for its effects on the environment and social well-being. Throughout its history, the company has adopted structures that have consistently attracted best external talent and promoted internal talent into roles and responsibilities. Through DBL's people-centric focus, an open work environment, and a culture of continuous improvement and development, several employees have realized their career goals. It is DBL's policy to provide equal employment opportunities regardless of race, color, religion, sex, national origin, age, gender, or disability. The average salary of employees other than managers increased by 12.25% as compared to the previous year. Various training programs are conducted for employees periodically.

Making a positive contribution to Social Empowerment

Our mission at DBL is to build a better future together. As a company, we are devoted to empowering communities and individuals. We strive every day to make a lasting difference in people's lives by doing our best. The goal of our company is to create a sustainable positive impact through responsible business practices.

Developments during FY2022

We have been taking the various initiatives in different parts of the country. The following projects were undertaken in Bhopal, Madhya Pradesh this year:

Hum Sath Hai

To spread awareness about paralysis, we launched the 'Hum Sath hai' initiative. We set up health camps that undertook physical check-ups of the attendees, motivated them to maintain good health and provided personal consultancy. In addition, rehabilitation and recovery assistance was provided to those in need. Our untiring efforts towards the upliftment of society have been recognised and appreciated. This year, we have been facilitated with a "Hirkani social activity award by Mahima Bahuudeshiy Samajik Sanstha, Nagpur, Maharashtra".

Promoting health and prevention

Nutrition plays an important role in maintaining good health. We aim to eliminate hunger, poverty, and malnutrition, and promote healthcare through our initiative. Our organization organizes health camps for blood donation, yoga practice, and assistance to paralyzed patients. This year, as a recognition of our initiatives, we have been facilitated with the "GAPTON 2021 - Global Development & Trends in Physiotherapy".

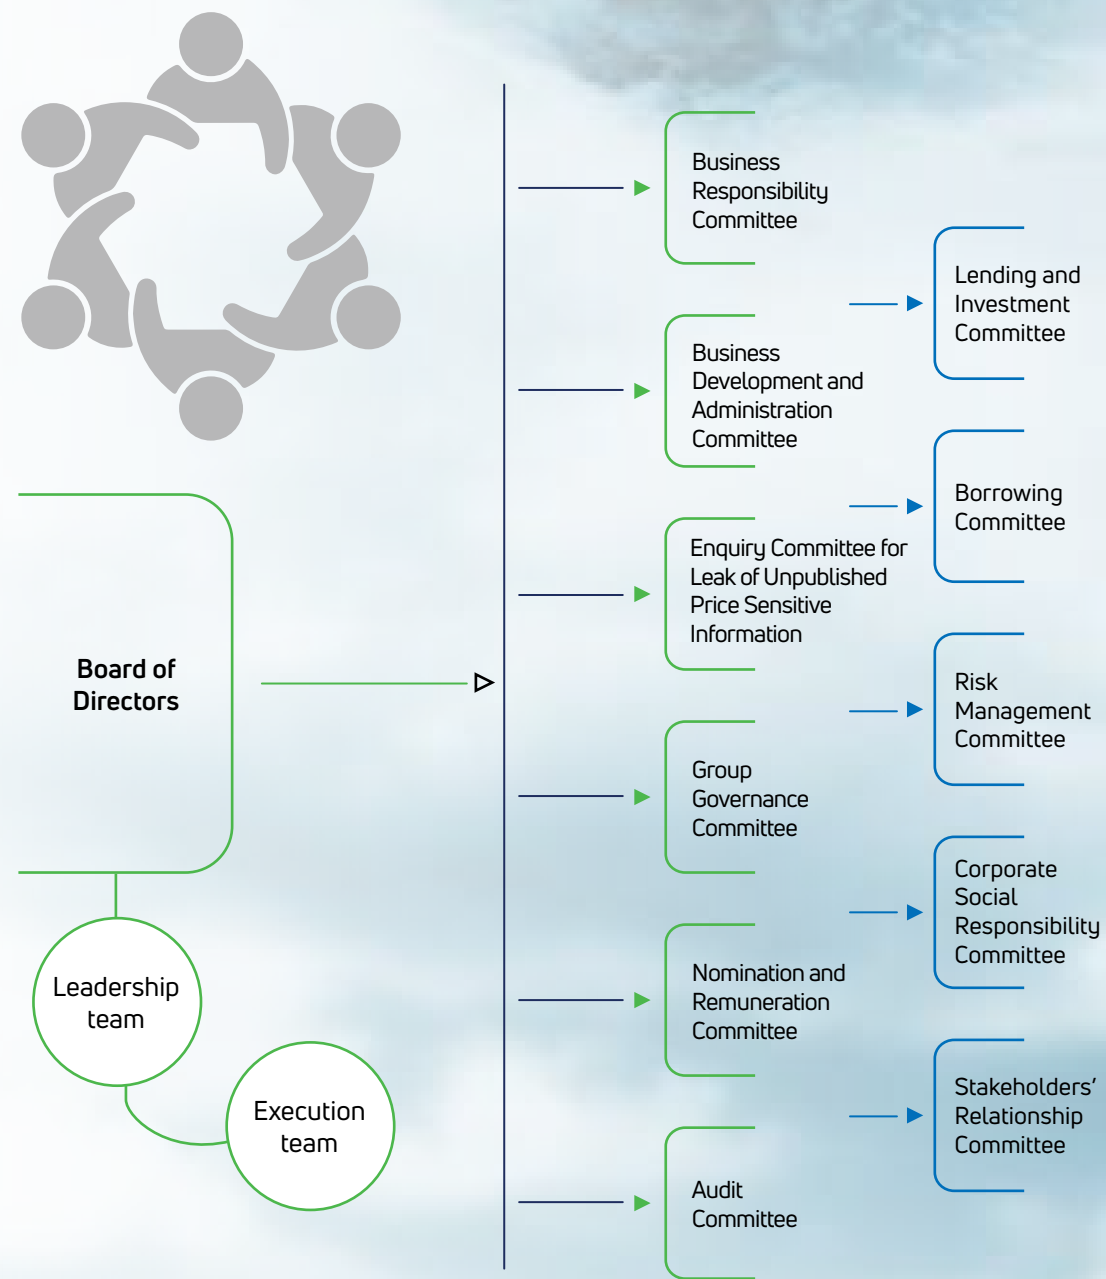

Sports initiatives

Through our programs, we offer training to rural children to promote rural sports, not only nationally recognized sports, but also Paralympic and Olympic sports.

C. Corporate Governance

In a world of unforeseen and unexpected changes, governance commitment would allow a smoother corporate curve: shorter down cycles complemented by longer upcycles. Further, we believe that companies with strong governance will inevitably lead to long-term shareholder value creation by enhancing stakeholder confidence.

Management Discussion and Analysis

1. Global Economy

The world economy faced multiple challenges in the year 2021 and the six months of 2022 so far. In the second half of 2021, the new variant, Omicron, became the cause of health concern and reason of re-imposition of travel restrictions and other safety measures. At the beginning of 2022, another challenge was thrust on the world as start of Russia-Ukraine war. At the global level, this conflict led to a massive fuel shortage and supply-chain disruptions, leading to spiraling inflation.

Exhibit 1: Global Growth Outlook

	Projections		
	2021	2022	2023
World Output	5.9	4.4	3.8
Advanced Economies	5.0	3.9	2.6
Emerging Market and Developing Economies	6.5	4.8	4.7
Emerging Market and Middle-income Economies	6.8	4.8	4.6
Low-income Developing Economies	3.1	5.3	5.5

The impact of the war on the economy is expected to produce a marked downturn throughout FY 2022. In addition, the ongoing pandemic in a few geographies, regional restrictions, supply chain bottlenecks, capacity constraints and higher energy prices caused inflation to rise. At the result, the International Monetary Fund (IMF) predicted in its April 2022 World Economic Outlook (WEO) report, a slowdown in global growth from 6.1% to 3.6%, which was lower than its January 2022 forecast.

1.1 Outlook

The global economy is experiencing a downturn, which has led regulators to consider tightening monetary policy to decrease inflation expectations and remove excess liquidity. According to estimates, advanced nations will grow by 3.9% in FY 2022 and 2.6% in FY 2023. Emerging nations are expected to grow by 4.8% and 4.7%, respectively, in FY 2022 and FY 2023. As a whole, the global GDP growth is expected to be 4.4% in FY 2022 and 3.8% FY 2023. The Russia-Ukraine conflict has created a humanitarian crisis, which must be addressed through cooperative efforts among nations. In addition, it is imperative to ensure no further economic fragmentation occurs in the future. Climate change, global liquidity management, and the pandemic need to be dealt with simultaneously.

2. Indian Economy

Following the first COVID-19 wave, the financial year 2021-22 was expected to be a year of recovery due to a normalized resumption of economic activity. Instead, the year was marked by an outbreak characterized by a more virulent second wave, resulting in a rapid increase in infections and a high mortality rate. In contrast to the first wave, the second wave featured partial lockdowns across different states in India. Though, as a result of improved vaccination efforts by the government, the economy rebounded faster than expected. However, it was the emergence of the Omicron variant towards the end of Q3 that disrupted the recovery momentum once more, but fortunately, this disruption lasted only a brief time.

Building for Tomorrow

Exhibit 2

Source: National Statistics Office 2nd Advance Estimates dated Feb 28, 2022

Due to geopolitical tensions that emerged towards the end of the year, commodity prices have increased sharply, leading to record levels of inflation and rising interest rates. Even with these turbulences, India is projected to have a GDP growth of 8.9% in FY 2021-22, up from a 6.6% contraction in FY 2020-21.

In its Union Budget 2022, India emphasized maintaining fiscal deficit at current levels while investing in capital expenditure. Since it serves as a multiplier of growth and creates employment at the same time. In addition to supporting the Government's efforts, the RBI maintains a cautious but accommodative monetary policy. India may be better able to handle the worsening terms of trade caused by high oil prices as a result of the tax buoyancy due to improved economic activity. It is encouraging that the Government is committed to achieving its NIP target and that private capital expenditure is showing early signs of revival, which bodes well for the economy. A sustained resurgence in economic output is further shown by rising domestic demand, improved capacity utilization, and leaner corporate balance sheets. In addition to the positive sentiment, the IMD predicted another normal monsoon year. Consumer confidence and household optimism are also on the rise in the wake of the easing of COVID-19 protocols.

Rural demand is expected to recover because of Rabi output, and urban demand will continue to strengthen as well due to a pickup in contact-intensive services. In the short term, geopolitical conflict may impede supply chain dynamics and

commodity prices. It is also possible that rising interest rates across the world could have an impact on capital flows into the country. Nonetheless, India is in a better position to handle the challenges, as in the past, because of its structural reforms and thoughtful fiscal stimulus.

2.1 Government impetus through Union Budget 2022-23

Public Capital Investment

- Public investment to continue to pump-prime private investment and demand in 2022-23
- Outlay for capital expenditure stepped up sharply by 35.4% to ₹ 7.50 lakh crore in 2022-23 from ₹ 5.54 lakh crore in the current year
- Outlay in 2022-23 to be 2.9% of GDP
- 'Effective Capital Expenditure' of Central Government estimated at ₹ 10.68 lakh crore in 2022-23, which is about 4.1% of GDP

PM GatiShakti

- The scope of PM GatiShakti National Master Plan will encompass the seven engines for economic transformation, seamless multimodal connectivity and logistics efficiency
- The seven engines that drive PM GatiShakti are Roads, Railways, Airports, Ports, Mass Transport, Waterways and Logistics Infrastructure
- The projects pertaining to these 7 engines in the National Infrastructure Pipeline will be aligned with PM GatiShakti framework

Road Transport

- National Highways Network to be expanded by 25,000 Km in 2022-23
- ₹20,000 Crore to be mobilized for National Highways Network expansion

Railways

- One Station One Product concept to help local businesses & supply chains
- 2,000 Km of railway network to be brought under Kavach, the indigenous world class technology and capacity augmentation in 2022-23
- 400 new generation Vande Bharat Trains to be manufactured during the next three years
- 100 PM GatiShakti Cargo terminals for multimodal logistics to be developed during the next three years

Infrastructure

- The Government launched a new scheme, namely Prime Minister's Development Initiative for North-East Region (PM-DevINE) with the objective of funding infrastructure and social development projects in the North-East
- An initial allocation of ₹ 1,500 crore made to enable livelihood activities for youth and women under the scheme

2.2 RBI' Measures to Curb Inflation

In June 2022, the Reserve Bank of India projected the CPI inflation at 6.7% for 2022-23. This is a bit lower than the inflation of 7.04% in May 2022 and 7.8% in April 2022. India's overall inflation is significantly driven by the imported prices

of crude oil and edible oil accounting for 80% and 60% of the consumption respectively. India's ability to import crude oil from Russia despite its conflict with Ukraine and relaxation of export controls over palm oil by Indonesia have helped to rein in the inflation to some extent.

For containing inflation, RBI raised the interest rate by 0.4% in March 2022 and 0.5% in June 2022.

From the supply side, trade disruptions, export bans, and the resulting rise in global commodity prices will continue to stoke inflation as long as the Russia-Ukraine conflict persists, and global supply chains remain unrepaired. According to the Monthly Economic Review May 2022 published by the Department of Economic Affairs, tightening interest rates won't address inflation from the demand side.

2.3 Covid-19 Receding, But We Need to Remain Cautious

In worldwide cases, the World Health Organization reported an increase for the third straight week, following a declining trend since March 2022. Over 4.1 million new cases were reported during the week of 20 to 26 June 2022, an increase of 18% over the previous week. Positively, new weekly deaths did not increase - they remained at 8,500 as they were the previous week. In light of the fact that several countries have gradually changed their COVID-19 test strategies, WHO advises interpretation of these numbers with caution. It is likely that fewer tests will be performed and a smaller number of cases will be detected as a result, that is why these numbers are uncertain. As a result of lockdowns, maintaining a personal distance, wearing masks, and vaccination drives, Covid-19 has indeed been contained. Travel restrictions have gradually been relaxed, and public life is returning to normal. It is still recommended that we continue to observe the precautions to prevent the spread of the virus with abundant caution.

2.4 Outlook

For the year 2022-23, India's GDP is expected to rise by 8.7% due to extensive vaccine coverage, supply-side reforms, regulatory easing, export growth, and fiscal leeway for capital investment. As the economy is in good health and financial conditions are stable, the year ahead looks bright for the private sector. Growth is predicted for FY 2022-23 on the assumption that interruptions and economic hardship will not occur. Additionally, India is expected to continue growing as one of the world's fastest-growing economies in the coming decade.

Exhibit 3

Year	Real GDP (₹ in lakh crores)	Real GDP growth
FY20 Pre-pandemic	145.18	3.7%
FY21 Pandemic	135.58	-6.6%
FY22 Rebound from pandemic	147.36	8.7%

Source: Ministry of Statistics and Policy Implementation

Like many countries around the world, India faces near-term challenges in managing its fiscal deficit, sustaining economic growth, reining in inflation and containing the current account

deficit and maintaining a fair value of the Indian currency. However, India is relatively better placed to weather these challenges because of its financial sector stability, robust agricultural output even during the pandemic period and successful vaccination drives. This optimism is also based on the policy measures like the Production Linked Incentives (PLI) for green energy, semiconductor, and electric vehicle industries, push for domestic defense supplies, digitization of financial systems, priority given to the creation of infrastructure, etc.

3. Indian Construction and Infrastructure Industry

Infrastructure plays a major role in the Indian economy. As the sector is critical to India's overall growth, the government has made enacting regulations that would ensure world-class infrastructure development on time a high priority. Power, bridges, dams, highways, and urban infrastructure development are all part of the infrastructure industry. The construction industry market in India works across 250-sub-sector with linkages across sector. Despite the slowdown and lockdowns that followed the economy's opening up, India's infrastructure and construction sectors have done well. As per the global construction, the construction industry in India is estimated to grow by 16.5% over CY 2021 to reach USD 42,127 Billion in CY 2022.

Due to the country's focus on infrastructure development, it is expected that the construction sector will grow as well. In the latest Union Budget, the Government of India (GoI) has announced significant allocations towards infrastructure development. Affordable housing, smart cities, data centers etc. also witnessed heightened focus and budget allocations. Focus and rigor displayed by the GoI is expected to auger well for the infrastructure sector and create multiple opportunities for companies.

- Government plans to invest about ₹102 lakh crore in infrastructure projects by 2024-25. The five-year-long National Infrastructure Pipeline (NIP) will enter its second year in FY21, during which ₹ 1, 950,397 crores are to be invested. About ₹ 19.5 lakh crore has been budgeted during FY21 as part of the NIP
- Approximately 42% of the NIP projects are under implementation, which means construction has already begun. Another 19% is under a development stage, while a big 31% is still in the conceptual stage
- India's projected capital expenditures on infrastructure will be dominated by sectors such as energy (24%), roads (19%), urban (16%), and railways (13%) between 2020 and 2025

3.1 Impact of COVID-19 on the Indian Infrastructure Industry

- There were severe challenges to the sector due to travel restrictions and disrupted supply chains
- As foreign engineers and technicians are often needed on construction sites for projects sponsored by foreign entities, they have been severely affected
- Because of labor shortages caused by lockdowns, many infrastructure companies had to shut down operations for the duration of the lockdown
- The sector has been adversely affected by delayed or cancelled tender processes, lower demand projections, and

reallocation of government budget funds to tackle Covid-19 containment

3.2 Indian Road Infrastructure Sector

Since the onset of the global pandemic, highway construction has seen a sluggish growth. In 2021-22, the pace of highway construction in India fell to 29 km/day, compared to 36.5 km/day in 2020-21. Further, the target for 2021-22 was 40 km/day, which was later revised to 33 km/day. In 2021-22, the country completed 10,457 km of national highways, compared to 13,327 km in 2020-21, according to the Ministry of Road Transport and Highways. Due to the disruption caused by the second and third waves of the pandemic, along with an unusually long rainy season, road completion declined significantly. While the construction of highways slowed in 2021-22, the award of highways stood at 12,731 km, compared to 10,964 km in 2020-21. In the Budget for 2022-23, the Government earmarked an amount of ₹ 68,000 crore for the Ministry of Road Transport and Highways. Among all ministries in 2022-23, this is the highest increase over revised estimates. The Gati Shakti programme launched by the Government is focused on the expansion of roads, railways, ports, airports, mass transport, waterways and logistics infrastructure. As part of this multi-modal logistics plan, all these key focus areas are expected to work in collaboration, thereby, driving the infrastructure growth in the country for the next 25 years.

3.2.1 Road Networks and National Highways

With a total length of 5.89 million kilometers, India has the second-largest road network in the world. Approximately 64.5% of all goods in India are transported by road; 90% of all Indian passengers commute by road. The government continues to allocate significant resources to further infrastructure development despite the improvement in road transportation and overall infrastructure in the country. Between 2016-17 and 2021-22, the highway development in India grew at 17% CAGR.

Highway development will include construction of 2,500 km of access control highways, 9,000 km of economic corridors, 2,000 km of coastal and land port roads, and 2,000 km of

strategic highways. FASTag mechanism encourages greater commercialization of highways enabling the NHAI to raise more resources. It was proposed to monetize over 6,000 km of highway bundles by 2024. Over the next five years, the road sector is expected to contribute for 18% of capital spending.

A prolonged rainy season and the pandemic prevented the NHAI from completing last year's expected 12,000 kilometers. From April to November in FY22, highway construction reached its lowest level in four years at 21.3 km per day.

The number of highways awarded in FY22 was a high 12,731 km, despite a slowdown in highway construction last year. Previously, 10,964 km had been awarded.

3.2.2 Government Initiatives for the Sector

- The Government aims to construct 65,000 km of national highways at a cost of ₹ 5.35 lakh crore (US\$ 741.51 billion) by 2022
- India's Gati Shakti program has consolidated a list of 81 high impact projects, out of which road infrastructure projects were the top priority. The major highway projects include the Delhi-Mumbai expressway (1,350 km), Amritsar-Jamnagar expressway (1,257 km) and Saharanpur-Dehradun expressway (210 km). The main aim of this program is a faster approval process which can be done through the Gati shakti portal and digitized the approval process completely
- Andhra Pradesh will spend US\$ 296.05 million to build 8,970 km of roads
- To transform road infrastructure in Punjab, Haryana and Rajasthan, the Indian government has planned to construct roads extending 313 km for ₹ 11,000 crore (US\$ 1.48 billion)
- The Government of India has allocated ₹ 111 lakh crore (US\$ 1.4 trillion) under the National Infrastructure Pipeline for FY 2019-25. The roads sector is likely to account for 18% capital expenditure over FY 2019-25
- In October 2021, the government launched a conversion project for 15 major roads in the Agartala smart city, the project will convert these roads to weather-resilient ones, and further strengthen development of the region
- In September 2021, the Indian government announced road

projects worth ₹ 1 lakh crore (US\$ 13.48 billion) to develop road infrastructure in Jammu and Kashmir. The region has also witnessed growth in national highways, from 7 in 2014 to 11 in 2021

3.2.3 Highlights of the Year

- In August 2021, the Union Minister of Road Transport and Highways, Mr. Nitin Gadkari sanctioned ₹ 100 crore (US\$ 13 million) to restore roads affected by heavy rains in Konkan and Western Maharashtra
- Under Phase-I of Bharatmala Pariyojana, the Ministry has approved implementation of 34,800 km of national highways in 5 years with an outlay of ₹ 5,35,000 crore (US\$ 76.55 billion). Under this scheme, 22 greenfield projects (8,000 km length) are being constructed; this is worth ₹ 3.26 lakh crore (US\$ 43.94 billion)
- In FY22 (until October), the Ministry of Road Transport and Highways constructed national highways extending 4,450 km compared with 4,956 km in FY21 (until October)
- In September 2021, the Ministry of Road Transport and Highways constructed national highways extending 3,824 km compared with 3,335 km in August 2021

3.2.4 Emerging Trends

- As of March 2022, the government plans to spend ₹ 10,565 crore (US\$ 1.38 billion) on the Trans-Arunachal Highway and Kaladan Multi-Model Transport Project, as well as other roads development projects such as capital connectivity, district connectivity, connectivity to the international border, and improvement and strengthening of roads in the region of Sikkim
- The government also aims to construct 23 new national highways by 2025
- NHAI plans to construct 25,000 km of national highways in 2022-23 at a pace of 50 km per day
- The Minister for Road Transport & Highways and Micro, Small and Medium Enterprises, Mr. Nitin Gadkari, is targeting to construct 40 km per day in FY22
- In August 2021, the Union Minister of Road Transport and Highways, Mr. Nitin Gadkari, announced to launch 1,080-km (road construction) projects worth ₹ 25,370 crore (US\$ 3.4 billion) in Gujarat under the Bharatmala Pariyojana—the ambitious road and highways project that aims to build highways from Maharashtra, Gujarat, Rajasthan, Punjab, Haryana and then cover the entire string of Himalayan territories

3.2.5 Growth Drivers for Road Sector

Rising population:

India has the second largest population in the world with a count of 1.41 billion in 2021-22 with a median age of 26.7 years. The increasing population drives the need of being connected through roadways and improved transit time.

Urbanization:

The urbanization rate of India is projected to reach 37-38% by 2025, driving the need of improved urban infrastructure.

Rapid industrialization:

With the launch of the Production Linked Incentive (PLI) scheme by the Government, the industrial growth in the country will grow exponentially. Against the backdrop of this, the need of faster transit times and improved road infrastructure would rise, in addition to the need of better road connectivity across the country.

Infrastructure Investment:

The Government has been increasingly investing on infrastructure development across the country. In doing so, the Government launched the National Infrastructure Pipeline (NIP) for FY 2020-25 with the objective of strengthening the infrastructure status in the country.

3.3 Urban Infrastructure

Transport in India is huge and diversified, serving the needs of more than 1.1 billion people. Around 5.5% of the nation's GDP is generated by the industry, with road transportation accounting for most of it. According to the ICRA, the transportation industry is likely to grow by 6-9% in the current financial year, while the domestic road transportation sector is likely to grow by up to 12% till 2023.

3.4 National Transport Master Plan (NTMP)

A national transport master plan (NTMP) is being developed by various transport ministries (roads & highways, shipping, aviation and railways) jointly with an estimated investment of 10% lakh crore. The plan is aimed at providing seamless movement of freight and passengers across multiple modes of transport. NTMP is a strategic framework and investment plan for sustainable development of the transport infrastructure envisaged to include construction of multi-modal transport hubs that will have railway stations, light railway stations (metro) and bus terminals under one roof. The roads ministry plans to develop 10 such hubs across the country in partnership with the railways and shipping ministries.

3.5 Railways

45% of the economy's modal freight needs to be carried by rail, which makes India the fourth-largest railway network globally. It plans to contribute about 1.5% to the country's GDP by building infrastructure to support that share. The rail sector was not immune to the impacts of the Coronavirus pandemic, although travel and transportation have gradually resumed. Indian Railways recorded an 18% increase in freight loading during 2021-22, up to 31.12.2021, with nations opening up and demand reviving for both passenger and freight services.

3.5.1 Regional Rapid Transport System (RRTS)

RRTS is a new commuter service connecting regional nodes in National Capital Region (NCR) at high speeds, with high capacity and comfort. The region covers 35,000 km, including the entire NCE and portions of Haryana, Uttar Pradesh, and Rajasthan. A RRTS differs from conventional railways in that it provides reliable, high frequency, point-to-point regional travel at high speed on a dedicated route.

3.5.2 High-Speed and Semi High-Speed Rail

High-speed rail is seen as a way to reduce travel times, expand capacity, and boost economic activity in India, just as it is in Japan and China. According to an ambitious National Rail Plan released in 2021, high-speed rail will connect all big cities in north, west, and south India. Towns with populations of at least one million people between 300 and 700 km apart are being selected by the government for the development of high-speed rail. India has hired Japanese technology, engineers, and financing to help build its first railway line, a 508-kilometer link between Mumbai and Ahmedabad in western India.

3.5.3 Metro Rail

There is a rapid expansion of metro transportation around the world. The metro is the ideal transit option due to its versatility, accessibility, comfort, and safety. With a Budget allocation of ₹ 19,130 Crores in 2022-23, multiple Metro projects are being planned and built in India as well. Currently, ~700 km of conventional metro is operating in the country across 18 cities, while another ~1,000 km of metro and RRTS are under development across 27 cities (18 existing + 9 new). The government plans to implement two new technologies, 'MetroLite' and 'MetroNeo', to deliver metro rail systems at a lower cost while providing the same experience, convenience, and safety in Tier-2 cities and Tier-1 city outskirts.

3.6 Irrigation

In India, 58% of the population depends on agriculture for their livelihood. In order to expand cultivated areas and reduce water wastage in the country, the Pradhan Mantri Krishi Sinchayee Yojana (PMKSY) has been launched. In this program, rainwater is harnessed at a micro level through 'Jal Sanchay' and 'Jal Sinchan'. Additionally, subsidies are provided for micro irrigation to facilitate 'Per Drop More Crop'. An amalgamation of the Accelerated Irrigation Benefit Program (AIBP), River Development & Ganga Rejuvenation, Integrated Watershed Management Programme (IWMP), and On-farm Water Management has resulted in the Pradhan Mantri Krishi Sinchayee Yojana. In addition to promoting efficient use of water, these initiatives will improve production and productivity, which will ultimately improve income for farmers.

3.6.1 Government Initiatives

- There has been an increase in the budget of the Ministry of Agriculture and Farmers Welfare from ₹ 1.23 lakh crore (US\$ 16.20 billion) to ₹ 1.32 lakh crore (US\$ 17.28 billion)

- In the Union Budget 2021-22, the Pradhan Mantri Krishi Sinchayee Yojana (PMKSY) is allocated ₹ 11,588 crores (US\$ 1.5 billion)
- It is planned to double the amount of the 'Micro Irrigation Fund' to ₹ 10,000 crores (US\$ 1.37 billion)
- As part of its efforts to encourage innovation in agriculture, the Government of India is introducing a new program called AGRI-UDAAN, which mentors start-ups and helps them connect with potential investors

3.7 Mining

The mineral potential of India is immense, and mining leases are granted for a 50-year period. As of FY 2022, the number of reporting mines in India stands at 1,245. Growth is being driven by infrastructure development and automotive production. The power and cement industries are also contributing to the sector's growth. The residential and commercial building industries are expected to continue to grow, resulting in a strong demand for iron and steel.

The mining sector continued to operate during the nationwide lockdown, but it was still significantly impacted by the pandemic. The main reasons for this were restrictions on public and transport vehicles, lack of demand, and labor shortages.

Exhibit 6

Source: www.statista.com

As part of the government's efforts to boost mining in the country, the following initiatives were undertaken:

- India's Ministry of Mines has signed MoUs with a number of countries
- Mineral Conservation and Development (Amendment) Rules were notified by the Ministry of Mines in November 2021 to provide rules regarding conservation of minerals, systematic and scientific mining, and mineral development for the protection of the environment
- In November 2021, Prime Minister Narendra Modi inaugurated the Purvanchal Expressway, which was constructed by Steel Authority of India Ltd. (SAIL) and Central Public Sector Enterprises (CPSEs)
- To unlock India's vast mineral potential through exploration, the Ministry of Mines has handed over 152 mineral block reports to different state governments. The Geological Survey of India (GSI) has also handed over 52 potential G-4 mineral blocks to 15 state governments

- Five key industrial projects worth ₹ 1.46 lakh crore (US\$ 19.60 billion) approved by the Odisha government in July 2021 are expected to boost steel production capacity by 27.5 million tons
- A memorandum of understanding (MoU) was approved by the Union Cabinet in June 2021 between the Ministry of Mines and the Secretariat of Mining Policy of the Ministry of Productive Development of Argentina. A mineral resources cooperation mechanism will be provided by the MoU

3.8 Tunnels

The infrastructure sector is experiencing rapid growth with projects in railways, roads, highways, water supply, and urban mass transit. The country has seen a surge in tunneling activity as a result. There has also been an increase in the size of tunneling projects. Tunnel safety and high-tech equipment are becoming increasingly important, as construction, design, and engineering techniques have improved. The deployment of advanced technologies such as TBMs and NATMs has increased. The technology of micro tunnels is also being tested in congested urban areas. More than Rs 5 trillion is expected to be invested in the tunneling sector over the next 4-5 years. There have been a number of projects and investments in the country that have contributed to the growth of tunnel construction, including hydropower development, the development of urban mass rapid transit systems, the construction of road and rail networks, and the upgrade of water supply and sewer systems. A total of 1641 tunnels which span 3445 km are currently under development, whether they are complete, under implementation, awarded, under bidding, announced, approved, planned/proposed or stalled. 77% of these projects have been completed; 20% are under construction; and 3% have just been awarded. Over the next five years, tunneling will provide opportunities for contractors, developers, technology providers, as well as equipment and material suppliers. Infrastructural development across a wide range of sectors will also contribute to the growth of tunnel construction.

3.9 Special Bridges

In order to strengthen India's bridge infrastructure, several initiatives have been undertaken:

- A bridge connecting India to Bangladesh was inaugurated in March 2021 by Prime Minister Narendra Modi over the river Feni, which flows between the Indian border in Tripura and Bangladesh. A total of ₹ 133 crores (US\$ 18 million) were spent on the construction of the bridge by the National Highways and Infrastructure Development Corporation Limited (NHIDCL)
- Dhubri (Assam)-Phulbari (Meghalaya) - the country's longest bridge - was laid in February 2021 by the Prime Minister. By building the bridge, North East India will be able to connect more seamlessly with the rest of the country and travel time and distance between Bhutan and Bangladesh will be reduced
- The Indian Railways is currently working on the country's first vertical lift bridge, which will connect Rameswaram with mainland India

3.10 Airports

India is the third-largest civil aviation market, with a market size of USD16 Billion in July 2021. According to the International Air Transport Association (IATA), India is predicted to surpass China and the United States as the world's largest air passenger market by 2030.

The aviation industry is on track for substantial expansions and enhancements. The Ministry of Civil Aviation plans to build 21 additional airports across India in the next four to five years. Further, over the same time period the Airports Authority of India (AAI) plans to expand and upgrade many current airports at an investment of ₹ 25,000 Crores. This includes the widening and modification of existing terminals, the construction of new terminals, the expansion or strengthening of existing runways, technical blocks, and the control towers of the Airport Navigation Services.

1. COMPANY OVERVIEW

Dilip Buildcon Limited (DBL) is India's foremost infrastructure company, with strong capabilities in roads & bridges, water sanitation, mining, dams, sewage treatment, irrigation projects and construction and development of residential and commercial buildings. The company is present in 19 states and 1 union territory, and the current order book is ₹ 256 bn. DBL has not only been among the fastest growing infrastructure and construction companies in previous five years, it is also the largest owner of construction-related equipment with 11,237 vehicles. DBL's time management skills are unmatched with more than 90% of the projects getting completed before deadline, reflected in receipt of early completion bonus of ₹ 5,655 million in the last nine years by the company.

DBL's Key competitive advantages

DBL is in the business which is very competitive and we take pride in the fact that we have been growing above industry average since inception. The bigger achievement is that this growth doesn't come at the cost of profitability and we work with margins which are conservatively calculated and continuously monitored for any unwanted variations. This is only possible because of the fact that DBL is nimble in its decision making and uncompromising standards on execution.

As a result, DBL is today synonymous with punctuality, excellence and delivering high-quality projects on time and it has been possible due to our robust business model, which integrates in-house designing, ownership of the latest equipment, exclusive team, selecting projects after wholesome analysis, capability to execute anywhere in the country, and strong relationships with customers all over the nation. Our major competitive advantages are as follows;

Backward integration for capturing the value better and control over value chain

Going against the flow and prevailing conventional wisdom,

DBL has excelled in building backward integration capability for controlling the cycle "Design, Build, and Operate". For a continuous supply of equipment, which is good in quality and also cost-effective, following products are manufactured by our group companies:

1. Manufacturing of high-quality road furniture i.e. octagonal street light poles, metal beam crash barrier, retro reflective signage, road marking paint, bus shelter, overhead gantries, overhead cantilevers, reinforced earth walls, etc.
2. Manufacturing, producing, casting, recycling, upcycling, assembling, reconstructing, engineering and other related activities of all kinds of machineries, equipment and tools like tooth point, jaw plates, cone metal, wear plates, bearing plates, etc.
3. Manufacturing of strip seal expansion joint, structural elastomeric bearing used in bridges.

This strategy offers crucial input in completing projects on time. DBL considers it a responsibility to reduce waste, keep a check on pollution, and improve efficiency. We do this by reducing the usage of materials and reusing them whenever possible. For reusing the road furniture, the foundry repurposes the metal scraps.

Equipment ownership for better execution and cost control

A total fleet of 11,237 latest equipment empowers mobilization, availability, and prudent jurisdiction over execution. The delays and expenditures due to unfortunate breakdowns are also eliminated. All the equipment in the fleet are of the same model and company, so as to ensure the availability of spare parts, and huge savings due to maintenance. To track the whereabouts of the tools, GPS is installed in each of them. They are operated by trained full-time workers to ensure maximum efficiency.

In-house design, engineering and construction for maintaining consistent quality

DBL has extensive experience in completing large infrastructure projects in different sectors including bridges & culverts, roads and highways, canals, dams, tunnels, coal mining and water supply projects. The entire process is monitored by our in-house design, construction, and engineering team. The team is responsible for overseeing the projects right from the blueprint to its commissioning. This helps in customising the projects as per the client's needs and minimise the dependence of third parties. Every department, from building construction, business development & tendering, engineering, contract management, design & technical audit, and equipment management have been awarded broad responsibilities.

Extensive geographical reach and no major region is unfamiliar for DBL

We are present in 19 states and 1 Union territory in India, due to which we cover almost 85% of the country geographical wise. In 2009, we had diversified our geographical presence for the first-time outside Madhya Pradesh by entering

Himachal Pradesh. Over previous twelve years, we have won and executed projects across the length and breadth of the country, from West Bengal in East to Gujarat in West and from Himachal Pradesh and Punjab in North to Tamil Nadu and Kerala in South. DBL has been able to successfully manage project bidding, execution and workforce mobilization challenges across several different regions of the country and has proved that your company is not restricted to a particular geographical area. The creation of infrastructure and as a result, construction activity is very dynamic and regions of high growth opportunity keep evolving. Presences in multiple regions isolate DBL from getting negatively impacted in temporary slow-down in any one area.

Business diversification

DBL is one of the leading full service infrastructure company. Primarily with the order book from just road construction two decades ago, the Company has now successfully forayed and diversified into business segments which include Roads, Bridges, Tunnels, Metros, Airports, Mining, and Irrigation. At present the Company's order book consists of orders from MoRTH, NHAI, AAI, Coal India and other central & state government undertakings. The technical experience is getting richer and with every entry into newer segments, the range of in-house capabilities is continuously expanding. The Company will continue to look into newer opportunities and keep diversifying its order book.

In-house execution team brings the edge in project completion

DBL has one of the largest in-house execution teams in India. With a workforce of 30,737, training with the original equipment manufacturers and the development of managerial talent is a continuous endeavour for us.

Valuable client relationships which withstood the test of time and are not replicable easily

We have established relationship with public sector clientele and on the back of our track record, excellent pre-qualification credentials. DBL has been focusing more

on EPC projects, from the State and Central governments and with a diversified clientele, our business has lower payment/receivable risks. We are proud to have worked on projects awarded by the State and Central governments and authorities like Ministry of Roads Transport & Highways, National Highways Authority of India, Airport Authority of India, Northern Coalfields Limited, Singareni Collieries Limited, Mahanadi Coalfields Limited and State Government.

DBL's working relationship with every project sponsorship authority in India is cordial. Our technical and financial qualifications are a result of proper execution of previous projects and transparent financials.

Relentless focus on cost control and working capital management

Our working capital management benefits from our decision to concentrate more on higher margin projects and excellent project management skills. It is our endeavour to lessen the Net Working Capital further by reducing the number of project sites, reducing inventory, and improving the share of mining which has fortnightly payments.

2. RISKS, CHALLENGES AND HOW DBL WORKS ON THE MITIGATION

The infrastructure sector is the backbone of India's socio-economic development. However, it is marked by new risks and concerns every year. While performing in a dynamic environment, DBL has designed a comprehensive framework for the classification, handling, and moderation of risks. Some of the risk mitigation strategies are as follows:

Competition risks

DBL is competing with several other companies for the acquisition of concessions for projects. After intense competition for two decades and in some cases irrational bids as well, the competition has become more prudent. The companies are becoming cautious and making rational bids.

Mitigation: Since the market is shaped by the competition, the Company changes its policies and processes in accordance with the trends so as to ensure a sustained business plan. We make efforts to complete the project before the stipulated time and within the budget. This helps us to earn the early completion bonus, which directly impacts our income and adds to the margins.

Timely completion of the project

While completing infrastructure projects, especially the BOT projects, on-time completion can be the most crucial for the financial viability of the project. Any stress on the completion time will affect the financial model and hence, margins and returns on the project. This year, apart from issues like land acquisition and project clearances, the cash flow was also tightened due to increased scrutiny by lenders and payment approving authorities. All these factors contributed to the delay in the delivery of a few projects.

Mitigation: The Company proactively treats these issues

as top priority and assists the Authorities in the processes related to obtaining land acquisition and clearances.

Capital-intensive business risk

The infrastructure sector depends heavily on capital investment. The availability of funds is central to bidding for projects, especially under BOT-toll and hybrid annuity models.

Mitigation: Our working capital cycle is carefully optimised. We first pool our assets and resources which will be employed for completing various projects within geographical proximity. As a result of our high credit rating, we are able to get loan facilities at competitive rates of interest. The company's debt-equity ratio has reduced considerably, which indicates smart deployment of funds and healthy internal accruals.

Input cost risk

It is essential that the right material of high-quality be available in the desired quantity to deliver the projects on time. A sudden increase in the input costs directly impacts the margin.

Mitigation: The Company does not involve in the sub-contracting and ensure an optimal use of equipment, proper construction activities, and the use of our own mines and crushers for meeting the demands of stone aggregates. Other important raw materials are purchased directly for market leaders to guarantee the right quality, price, and on-time supply. To safeguard our margins, we enter relevant cost escalation provisions in our contracts with customers.

Labour risk

Our workforce is the most important asset in our business. We pay attention to their needs and ensuring that the work environment promotes professionalism and efficiency. Great Care is taken from the time of recruitment of personnel to their continuous growth as skilled professionals. This is an issue which is being dealt by the whole industry.

Mitigation: The company focuses on forming a group of motivated individuals who have the passion and zeal to work hard and excel in the industry. The employees must be goal-oriented and commit to exceed expectations of the clients. The incentives provided are at par with the industry standards. Training and team building activities are conducted periodically to reduce stress and increase efficiency. All employees are provided generous retirement benefits, social security measures, and self and family welfare schemes.

Debt Financing Risk

The Company has considerable debt and is prone to the risks of debt financing. The amount of debt and the boundaries levied on the Company, by past or present loan deals, can have severe consequences. This is also dependent on the cost of borrowing.

Mitigation: Our talented and skilled team sees to it that the risks are managed adequately by measures like adequate cash flow planning.

1. DBL's FINANCIAL AND OPERATIONAL PERFORMANCE

Overview of Performance for DBL as Consolidated Entity

The Company's performance during the year 2021-22 has been satisfactory considering the challenging environment posed by pandemic. The company has been focusing on efficient conversion of order book into revenues and relentlessly pursuing operational excellence along with maximum possible cash conservation to enhance shareholder value.

Order Inflow and Order Book

DBL group secured 5 new orders worth ₹ 78,110 million for the year 2021-22,. DBL has won new orders across 3 sectors i.e. road, mining and tunnel which shows diversified business approach. New orders have been won in 5 states which proves DBL's geographical spread. DBL is disciplined in bidding projects at desired margins which DBL will not compromise only for the sake of winning projects and increasing order book.

Order Book Composition

Exhibit 8

Revenue from Operations

The Consolidated Revenue stood at ₹ 95,564.29 million in the financial year 2021-22 as against ₹ 1,01,682.82 million in the financial year 2020-21. The decrease was mainly due to decrease in interest income on financial asset revenue and toll revenue.

Exhibit 9

Operating Cost and PBDIT

During the financial year 2021-22, Manufacturing, Construction and Operating (MCO) expenses increased by 9.66% to ₹ 82,824.39 million compared to ₹ 75,528.65 million in the previous year due to rise in commodity prices. These expenses mainly comprise cost of construction and change in inventories.

Staff expenses for the financial year 2021-22 at ₹ 2,254.54 million as compared to ₹ 1,982.02 million in the previous year.

The Consolidated Operating Profit (PBDIT) before exceptional items decreased by 62.64% at ₹ 8,110.02 million for the financial year 2021-22 as compared to ₹ 21,705.84 million in the previous year.

Depreciation and Amortisation

Depreciation & Amortisation expenses for the financial year 2021-22 decreased by 9.7% to ₹ 3,997.71 million as compared to ₹ 4,429.44 million in the previous year.

Other Income

Other income for the financial year 2021-22 decreased by 9.0% at ₹ 383.86 million as compared to ₹ 422.14 million in the previous year.

27. Pursuant to Finance Act, 2020 and press release of Central Board of Direct Taxes, if the company declared the dividend, the company is not required to pay the Dividend Distribution Tax but the dividend income will be taxable in the hands of shareholders w.e.f. April 1, 2020 and the Company is required to deduct tax at source from dividend paid to shareholders at the prescribed rates. For the prescribed rates for various categories, the shareholders are requested to refer to the Finance Act, 2020 and amendments thereof. The shareholders are requested to update their PAN with the Company/R&T Agent i.e. Link Intime India Pvt. Ltd. (in case of shares held in physical mode) and depositories (in case of shares held in demat mode). No communication on the tax determination/deduction shall be considered after cut-off date i.e. Friday, September 23, 2022. All communications/queries in this respect should be addressed to our RTA, Link Intime India Private Limited to its email address dbldivtax@linkintime.co.in. Kindly refer note no. 40 below for instructions.

For Resident Members, tax shall be deducted at source under Section 194 of the Income Tax Act, 1961.

Members having a valid PAN	10% or as notified by the Government of India
Members not having PAN/valid PAN	20% or as notified by the Government of India

No tax shall be deducted on the dividend payable to a resident individual if the total dividend to be received by the resident shareholders during the financial year 2022-23 does not exceed ₹ 5,000/-. In case where the shareholder provides Form 15G/Form 15H and provided that all the required eligibility conditions are met, no tax will be deducted at source.

Apart from above cases following categories of shareholders are exempt from tax deduction at source:

- (a) Life Insurance Corporation of India [clause (a) to 2nd proviso to section 194]
- (b) General Insurance Corporation of India/The New India Assurance Company Ltd./United India Insurance Company Ltd. / The Oriental Insurance Company Ltd./National Insurance Company Ltd. [clause (b) to 2nd proviso to section 194]
- (c) any other insurer in respect of any shares owned by it or in which it has full beneficial interest [clause (c) to 2nd proviso to section 194].

The following payees are also not subject to TDS in view of the provisions of sections 196, 197A of the Income Tax Act, 1961 and CBDT notification:

- (a) Government [section 196(i)];
- (b) Reserve Bank of India [section 196(ii)];
- (c) a corporation established by or under a Central Act which is, under any law for the time being in force, exempt from Income-tax on its income [section 196(iii)];
- (d) Mutual Fund [section 196(iv)];
- (e) any person for, or on behalf of, the New Pension System Trust referred to in section 10(44)[sub section 1E to section 197A]
- (f) Category I or a Category II Alternative Investment Fund (registered with SEBI as per section 115UB) as per Notification 51/2015 since their income, other than profits and gains of business and profession.

For Foreign Portfolio Investor (FPI) category Shareholders, taxes shall be deducted at source under Section 196D of the Income Tax Act, 1961 at 20% (plus applicable surcharge and cess) on the amount of dividend payable.

For other Non-resident Shareholders, taxes are required to be deducted in accordance with the provisions of Section 195 of the Income tax Act, 1961, at the rates in force. As per the relevant provisions of the Income tax Act, 1961, the tax shall be deducted at the rate of 20% (plus applicable surcharge and cess) on the amount of dividend payable to them. However, as per Section 90(2) of the Income tax Act, 1961, the non-resident shareholder has the option to be governed by the provisions of the Double Tax Avoidance Agreement (DTAA) between India and the country of tax residence of the shareholder, if they are more beneficial to them. To avail benefit of rate of deduction of tax at source under DTAA, such non-resident shareholders will have to provide the following:

1. Self-attested copy of the PAN allotted by the Indian Income Tax authorities;
2. Tax residency certificate from the jurisdictional tax authorities confirming residential status [for the dividend declared in FY 2022-23] – TRC
3. Declaration by the non- resident in prescribed form 10F
4. Self-declaration by the non-resident shareholder as to:
 - Eligibility to claim tax treaty benefits based on the tax residential status of the shareholder, including

having regard to the Principal Purpose Test (if any), introduced in the applicable tax treaty with India;

- No Permanent Establishment/fixed base in India in accordance with the applicable tax treaty;
- Shareholder being the beneficial owner of the dividend income to be received on the equity shares.

Further the finance Act, 2021 has inserted the provisions of Section 206AB of the Act with effect from July 1, 2021. The provisions of Section 206AB of the Act require the Company to deduct tax at higher rates, as mentioned, from dividend amount paid/credited to Members who (a) have not filed return of income for two previous assessment years; and (b) are subjected to tax deduction/collection at source, in aggregate, amounting to ₹ 50,000 or more in each of such two years.

In order to enable us to determine the appropriate tax rate at which tax has to be deducted at source under the respective provisions of the Income tax Act, 1961, we request you to upload the abovementioned details and documents in the format as provided by the Link Intime India Private Limited. Kindly refer note no. 39 below for instruction and/or on the email id eagm@dilipbuildcon.co.in by 05.00 p.m. IST on or before Friday, September 23, 2022.

Please note that the Company is not obligated to apply the beneficial DTAA rates at the time of tax deduction/withholding on dividend amounts. Application of beneficial DTAA rate shall depend upon the completeness and satisfactory review by the Company of the documents submitted by Non-Resident shareholder.

Shareholders who are exempted from TDS provisions through any circular or notification may provide documentary evidence in relation to the same, to enable the Company in applying the appropriate TDS on Dividend payment to such shareholder.

A Resident individual member having valid PAN, subject to fulfilment of conditions specified in the Income Tax Act, 1961 can provide Form No. 15G/15H, to avail the benefit of non-deduction of tax at source. Resident shareholders may also submit any other document(s) as prescribed under the Income Tax Act, 1961 to claim a lower/Nil withholding tax. Mentioning PAN is mandatory for Members who will be providing Form 15G/15H or any other documents to claim a lower/Nil withholding tax. No tax shall be deducted on the dividend payable to a resident individual shareholder if the total dividend to be received by them during Financial Year 2022-23 does not exceed ₹ 5000/-.

For Non-Resident members, taxes are required to be withheld in accordance with the provisions of the Income Tax Act, 1961, the withholding tax shall be at the rate of 20% (plus applicable surcharge and cess). Certain non-resident members may be eligible to avail the benefit conferred by the Double Tax Avoidance Agreement (DTAA) between India and the Country of residence of shareholder, subject to fulfilment of conditions attached thereto. Application of beneficial DTAA Rate shall depend upon the completeness and satisfactory review by the Company, of the documents submitted by Non- Resident members. To avail beneficial rates under DTAA, the Non-Resident members will have to provide certain documents viz; Tax Residency Certificate for FY 2022-23 from the jurisdictional tax authorities confirming residential status, Form 10F as prescribed under Income tax rules, self-attested copy of Permanent Account Number ('PAN') card, self-declaration in the format prescribed by the Company. Mr. Devendra Jain (DIN: 02374610) is not disqualified from being appointed as the Managing of the Company in terms of Section 164 of the Act and has given his consent in form DIR -2 to act as the Managing Director of the Company along with form MBP-1 & DIR 8.

The Board of Directors recommend to pass as a **Special Resolution** as set out in Item No. 8 of this notice for the approval of members.

Accordingly, approval of the members is being sought to appoint Mr. Devendra Jain (DIN: 02374610) as a Managing Director of the Company and designated him as a Managing Director & CEO of the Company in terms of the provisions of Section 196, 197, 203 and read with Schedule V and other applicable provisions, if any, of the Companies Act, 2013 and the Rules made thereunder and the Articles of Association of the Company.

Except Mr. Devendra Jain, being the appointee director, none of the other Directors and Key Managerial Personnel of the Company and their relatives are in anyway concerned or interested financially or otherwise in the resolution as set out at Item No. 8 as **Special Resolution**.

Item No. 9

Pursuant to the provisions of Section 179 of the Companies Act, 2013 which deals with the authority to issue securities, including debentures, whether in or outside India, Section 71 of the Act which deals with the issue of debentures read with Section 42 of the Act which deals with the offer or invitation for subscription of securities of a Company on private placement, Rule 14 of the Companies (Prospectus and Allotment of Securities) Rules, 2014 and the Companies (Share Capital and Debentures) Rules, 2014, the Company intends to offer or invite subscriptions for secured/unsecured redeemable non-convertible debentures, in one or more series/tranches, of an aggregate nominal value up to ₹ 1000.00 Crores (Rupees One Thousand Crores Only), on a private placement basis or otherwise.

In this regard before making an offer or invitation for subscription on a private placement basis or otherwise, the Company is required to obtain approval of its members by means of a Special Resolution. It shall be sufficient if the Company passes a Special Resolution only once in a year for all the offers or invitations for such non-convertible debentures during the year.

Considering the above, the Board of Directors at its meeting held on August 12, 2022 has proposed to obtain the consent of the members for offering or inviting subscriptions for secured/unsecured redeemable non-convertible debentures, in one or more series/tranches on private placement, issuable/redeemable at par, as may be required by the Company, from time to time and as set out herein, for a period of 1 (one) year from the date of passing this resolution in order to augment long-term resources for financing inter-alia the ongoing capital expenditure and for general corporate purposes. The pricing of the NCDs will depend primarily upon the prevailing market conditions and the regulatory scenario.

The Board recommends to pass as a **Special Resolution** set forth in Item No. 9 of the accompanying notice for the approval of the Members.

None of the Directors or Key Managerial Personnel of the Company and their relatives are in any way concerned or interested financially or otherwise, as set out at Item No. 9 as a **Special Resolution**.

Item No. 10

Section 42 of the Companies Act, 2013, read with Rule 14 of the Companies (Prospectus and Allotment of Securities) Rules, 2014, prescribe the provisions subject to which a company is allowed to issue Securities on Private Placement basis. Every proposed offer of Securities or invitation to subscribe to

Securities on Private Placement basis requires prior approval of Members of the Company by way of Special Resolution.

Considering the above, the Board of Directors at its meeting held on August 12, 2022 has proposed to obtain the consent of the members in order to augment the business of the Company, for borrowing, from time to time, by issuance of Commercial Papers (CPs), on Private Placement basis, upto an amount not exceeding ₹ 1000.00 Crores (Rupees One Thousand Crores Only) with or without earmarking of the Working Capital Limit. The said limit shall be within the overall borrowing limit as may be approved by the members under Section 180(1)(c) of the Companies Act, 2013.

The pricing of the CPs will depend primarily upon the prevailing market conditions and the regulatory scenario. The pricing for each of the issuance would be approved by the Board of Directors.

The Board recommends to pass as a **Special Resolution** set forth in Item No. 10 of the accompanying notice for the approval of the Members.

None of the Directors or Key Managerial Personnel's of the Company and their relatives, are in any way concerned or interested financially or otherwise, as set out at Item No. 10 as a **Special Resolution**.

Item No.11

The Board has considered that in the ordinary course of business, the Company is required to give loans and provide

guarantee and securities on behalf of the Subsidiary Companies and/or Associate Companies and/or any other Company and/or Joint Venture and/or Trust and/or Body Corporate(s), Banks, Financial Institutions, NBFC and other body corporate(s) while providing financial support/Loans as per the requirement of the lenders/Government authorities and business necessity from time to time. The Board has considered that the Companies (Amendment Act), 2017, the Central Government has substituted the section 185 and according to that, now the Company is eligible to give loans and provide guarantee or security on behalf of the other Companies to the Bank and Financial Institutions, etc. where any or all the directors are interested, subject to the requirement for approval of the members by way of special resolution and that the amount of loans, guarantee and securities should be utilised by such Companies for their principal business activities. Hence, in order to conduct the smooth operations of the business and align with the various legislations, policies, guidelines laid down by various statutory authorities/lenders and other operational business requirements of the Subsidiary Companies and/or Associate Companies (whether public or private company) and/or Joint Venture and/or Trust and/or Body Corporate(s), on the basis of recommendation of Audit Committee, the Board of Directors of the Company has proposed to obtain approval of the shareholders by way of special resolution as contained in the notice of the Annual General Meeting for an amount of ₹ 5264.50 Crores (Rupees Five Thousand Two Hundred Sixty Four Crores and Fifty Lakhs Only) in one or more tranches at any time and the said loan/ guarantee/any security given by the Company shall be utilized for the principal business activities of the recipient Company(ies).

The Board recommends to pass as a **Special Resolution** set forth in Item No. 11 of the accompanying notice for the approval of the Members.

None of the Directors, Key Managerial Personnel of the Company or their relatives or any of other official(s) of the Company are financially interested in the aforesaid resolution, however they may be deemed to be interested financially or otherwise to the extent of their directorship or the shareholding by them in such Companies, if any.

Item No. 12

The special resolution contained in the Notice under Item No. 12 relates to a resolution by the Company enabling the Board to create, issue, offer and allot Equity Shares, GDRs, ADRs, Foreign Currency Convertible Bonds, Convertible or Non-convertible Debentures and such other securities as stated in the resolution (the "Securities"), including by way of a Qualified Institutional Placement in accordance with the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended (the "SEBI ICDR Regulations"), in one or more tranches, at such price as may be deemed appropriate by the Board at its absolute discretion including the discretion to determine the categories of Investors to whom the issue, offer, and allotment shall be made considering the prevalent market conditions and other relevant factors and wherever necessary, in consultation with lead manager(s) and other agencies that may be appointed by the Board for the purpose of the Issue.

This special resolution enables the Board to issue Securities of the Company for an aggregate amount not exceeding ₹ 2000.00 Crores (Rupees Two Thousand Crores Only) or its equivalent thereof.

The special resolution also seeks to empower the Board to issue Securities by way of QIP to QIBs in accordance with Chapter VI of the SEBI (ICDR) Regulations. The pricing of the Securities that may be issued to QIBs pursuant to SEBI ICDR Regulations shall be freely determined subject to such price not being less than the price determined in accordance with the pricing formula provided under Chapter VI of the SEBI (ICDR) Regulations (the "QIP Floor Price"). Further, the Board may also offer a discount of not more than such percentage as permitted on the QIP Floor Price calculated in accordance with the pricing formula provided under SEBI (ICDR) Regulations. The "Relevant Date" for this purpose will be the date as determined in accordance with the SEBI ICDR Regulations.

Accordingly, the Board at its meeting held on August 12, 2022, subject to approval of members, approved the issuance of securities at such price as may be deemed appropriate by the Board at its absolute discretion considering the prevalent market conditions and other relevant factors and wherever necessary, in consultation with lead manager(s) and/or other advisor(s) appointed in relation to the proposed Issue, in accordance with the applicable laws.

As the Issue may result in the issue of Securities of the Company to investors who may or may not be members of the Company, consent of the members is being sought pursuant to Sections 23, 41, 42 and 62(1)(c) and other applicable provisions, if any, of the Companies Act, 2013 and any other law for the time being in force and being applicable and in terms of the provisions of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

The Board recommends to pass as a Special Resolution set forth in Item No. 12 of the accompanying notice for the approval of the Members.

None of the Promoter, Director, Key Managerial Personnel of the Company and their relatives are deemed to be concerned or interested financially or otherwise in the said resolution, except to the extent of Equity Shares/ Securities that may be subscribed by them or by companies/firms/institutions in which they are interested as director or member or otherwise if any.

Item No. 13

Considering the rich experience and expertise brought to the Board by the Non-executive directors and in appreciation of their contribution and services they have rendered/will be rendering to the Company and it is proposed that during the tenure of the Non-executive directors, where in any financial year the Company has no profits or inadequate profit, the Company may pay the commission to the Non-executive directors of the Company within the limit as specified in Schedule V of Part II of section II to the Companies Act, 2013 and the said commission shall be valid for the period not exceeding three years and to be paid from the financial year 2022-23 onwards.

The said Commission to be payable to Non-Executive Directors shall be in addition to the sitting fee payable to them and out-of-pocket expenses incurred for attending meetings of the Board and Committees thereof. The resolution as set out in Item No. 13 of the Notice is accordingly recommended by the Board at its meeting held on August 12, 2022 and seek members approval as an **Special Resolution**.

The Board recommends to pass as a **Special Resolution** set forth in Item No. 13 of the accompanying notice for the approval of the Members.

Save and except all the Non-Executive Directors of the Company, none of the other Directors/Key managerial personnel of the Company / their relatives is, in any way, concerned or interested financially or otherwise, in the resolution as set out at Item No. 13 of the Notice as an **Special Resolution**.

ROAD INFRASTRUCTURE MAINTENANCE AND TOLL OPERATION BUSINESS:

In road infrastructure maintenance and toll operation business, DBL maintain roads and highways and conduct toll operations of BOT projects. As of March 31, 2022, DBL had completed 31 projects to totalling 6040.10 Lane kms. These completed BOT projects include projects undertaken on various public private partnership models, such as on a (i) hybrid annuity basis - where the GOI shares a portion of the total cost of the project and the source of revenue is the fixed amount that the relevant government agency pays us for building and maintaining the roads on an annual basis, (ii) purely toll basis - where the only source of revenue is the toll chargeable on vehicles using the road, (iii) purely annuity basis - where the only source of revenue is the fixed amount that the relevant government agency pays us for building and maintaining the roads on an annual basis, and (iv) toll plus annuity basis - where the source of revenue includes the toll chargeable on vehicles using the road and the fixed amount that the relevant government agency pays us for building and maintaining the roads on an annual basis. Due to the annuity component in our operational BOT projects, income is assured to the extent of the annuities to be collected during each financial year under the relevant concessions, thus reducing the risk of income fluctuations resulting from traffic pattern changes.

As of March 31, 2022, DBL has a portfolio of 50 BOT projects, of which 31 have been completed and the remaining 19 projects are under-construction. The 31 completed BOT projects include projects undertaken on hybrid annuity basis, toll basis, annuity basis and annuity plus toll basis. The 19 under construction BOT projects are all being undertaken on a hybrid annuity basis.

DBL has divested 24 BOT projects by way of share acquisition cum shareholders agreements entered into with Shrem Roadways Private Limited, Shrem Tollway Private Limited and Shrem Infraventure Private Limited (individually the "Shrem Entity" and collectively, the "Shrem Entities").

DBL has further divested 3 under construction BOT projects undertaken on hybrid annuity basis by entering share purchase and shareholders agreement with Cube Highways and Infrastructure III Pte Limited (Cube).

The Company along with its wholly owned subsidiary "DBL Infra Assets Private Limited" ("DIAPL") have executed a non-binding term sheet, with 'Shrem InvIT' (an infrastructure investment trust, registered under Indian Trust Act 1882

with Securities and Exchange Board of India) on 21 January 2022, for transferring their investment in equity share capital and promoter's unsecured loan in respect of 10 subsidiary companies (Hybrid Annuity Model ("HAM") projects).

DIVESTMENT OF BOT PROJECTS

Divestment to Shrem Entities

As per DBL's strategy and focus on providing EPC services, DBL has taken steps to free up capital invested in the Divestment Projects for re-deployment elsewhere. DBL has entered into 24 separate tripartite share acquisition cum shareholders agreements with Shrem Roadways Private Limited, Shrem Tollway Private Limited and Shrem Infraventure Private Limited, as applicable, each dated March 26, 2018 pursuant to which DBL agreed to transfer its entire equity shareholding in 18 of the completed BOT project special purpose vehicles (SPVs) and 6 of the under -construction BOT project SPVs to the relevant Shrem Entities (the "Divestment"). The Company had completed the transfer of shares in 24 subsidiary companies in accordance with the share acquisition cum shareholders agreement (SHA) signed in March 2018.

Divestment to Cube

DBL has entered into share purchase and shareholder agreements with Cube Highways and Infrastructure Pte Limited, dated August 31, 2019 pursuant to which DBL agreed to transfer its entire equity shareholding in 5 of the under-construction BOT project SPVs (the "Divestment"). The DBL's equity shareholding will be transferred upon completion of conditions contained in the agreements. However, out of the said 5 subsidiary companies, the contract in respect of 2 subsidiary companies has been mutually terminated via termination agreement entered into between the parties.

During the year the Company along with its nominee have transferred its 49% equity stake in its 3 subsidiary companies to Cube Highways and its nominee. The balance 51% equity stake will be transferred in 3 subsidiary companies, after the expiry of mandatory lock-in period as per the provisions of the concessionaire agreements and subject to various regulatory approvals.

Divestment to Shrem InvIT

The Company along with its wholly owned subsidiary "DBL Infra Assets Private Limited" ("DIAPL") have executed a non-binding term sheet, with 'Shrem InvIT' (an infrastructure investment trust, registered under Indian Trust Act 1882 with Securities and Exchange Board of India) on 21 January 2022, for transferring their investment in equity share capital and promoter's unsecured loan in respect of 10 subsidiary companies (Hybrid Annuity Model ("HAM") projects) at expected consideration of 2,34,900.00 lakhs. Equity transfer to Shrem InvIT shall be completed in a progressive manner after the completion of the projects, subject to receipt of approvals from the respective

project lenders and National Highways Authority of India. The consideration for the transfer of shares will be received in form of units of the Invit.

Internal Control System and their Adequacy

Your Company has an effective internal control and risk-mitigation system, which are constantly assessed and strengthened with new/revised standard operating procedures. The Company's internal control system is commensurate with its size, scale and complexities of its operations. The internal and operational audit is entrusted to M/s Sunil Saraf & Associates, a reputed firm of Chartered Accountants. The main thrust of internal audit is to test and review controls, appraisal of risks and business processes, besides benchmarking controls with best practices in the industry.

The Audit Committee of the Board of Directors actively reviews the adequacy and effectiveness of the internal control systems and suggests improvements to strengthen the same. The Company has a robust Management Information System, which is an integral part of the control mechanism.

To maintain its objectivity and independence, the Internal Audit Function reports to the Chairman of the Audit Committee.

Risk management

Risk management is embedded in your Company's operating framework. Pro-active Risk Management has been identified as a key strategic initiative to ensure sustainable growth. Risk Management is an integral part of the overall governance process to identify, segregate, mitigate, control and monitor various risks at business, prospect and operational levels. Some of the risks that may arise to the Company are explained here:

The Company is exposed to market risk, credit risk, liquidity risk, regulatory risk, human resource risk and commodity price risk.

(a) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Financial instruments affected by market risk include borrowings, trade and other payables, security deposit, trade and other receivables, deposits with banks etc. The Company's activities exposed to interest rate risk.

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company dynamically manages interest rate risks through a mix of fund-raising products and investment products across maturity profiles and currencies within a robust risk management framework.

The sensitivity analysis for interest rate risk has been mentioned in Note 33 of standalone financial statements and consolidated financial statements being part of this Annual Report.

(b) Credit Risk

Credit risk on trade receivables and unbilled work-in-progress is limited as the customers of the Company mainly consists of the government promoted entities having a strong credit worthiness. For other customers, the Company uses a provision matrix to compute the expected credit loss allowance for trade receivables and unbilled work-in-progress. The provision matrix takes into account available external and internal credit risk factors such as credit ratings from credit rating agencies, financial condition, ageing of accounts receivable and the Company's historical experience for customers.

C Liquidity Risk

Liquidity risk is the risk that the Company may not be able to meet its present and future cash flow and collateral obligations without incurring unacceptable losses. The Company constantly monitors the liquidity levels, economic and capital market conditions and maintains access to the lowest cost means of sourcing liquidity through banking lines, trade finance and capital markets.

(d) Regulatory Risk

The Company is exposed to risks attached to various statutes, laws and regulations. The Company is mitigating these risks through regular review of legal compliances carried out through internal control and audits.

(e) Human Resource Risk

Retaining the existing talent pool and attracting new talent are major risks. The Company has initiated various measures including training and integration of learning and development activities. The Company has formulated various schemes in the interest of the employees i.e. DBL Employees Voluntary Benevolent Fund Scheme, Camp & Accommodation with various modern amenities, Free Child Education Policy for Drivers & Operators, One Lakh Gift Policy for Daughters marriage of Drivers/ Operators, Best Drivers & Machine Operator Award.

(f) Commodity Price Risk

The company is exposed to the risk of price fluctuations of Raw materials required for their road projects such as Bitumen, Cement, Steel (Iron & Steel), Crushed Stone, etc. The company proactively manages these risks through forward booking, inventory management and proactive vendor development practices. The risk of price fluctuations in commodities is also mitigated to certain extent based on the price escalation clause included in the contracts with the customers.

Environment and Safety

The Company is conscious of the importance of clean environment and safe operations. The Company's policy requires conduct of operations in such manner so as to ensure safety of all concerned, compliances of environmental regulations and preservation of natural resources.

Disclosures Prevention of Sexual Exploitation, Abuse and Harassment Committee

The Prevention of Sexual Exploitation, Abuse and Harassment Committee has been formulated by the Board of Directors of the Company. To enhance the criteria in sexual harassment policy, the Policy has been further amended on August 14, 2021 by the Board of Directors of the Company. The aim of the said policy to provide all employees a safe environment to work together having free from sexual exploitation, abuse and harassment. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent generally seven days in advance other than those held at shorter notice, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

All the decisions in the Board Meeting and Committee meeting are carried out unanimously and recorded in the minutes of the meetings of the Board of Directors and committee of the Board of Directors, as the case may be.

I further report that, based on the information provided and the representation made by the Company and also on the review of the compliance certificates/reports taken on record by the Board of Directors of the Company, in my opinion there are adequate systems and process in the company commensurate with the size and operations of the company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

I further report that, during the period under review there were no specific events/actions in pursuance of the above-referred laws, rules, regulations, guidelines etc. having a major bearing on the Company affairs.

CORPORATE GOVERNANCE REPORT

Your Company Dilip Buildcon Limited (DBL) is committed to maintain the highest standards of Corporate Governance and adhere to the Corporate Governance requirements set out by the Securities and Exchange Board of India SEBI (Listing Obligations and Disclosure Requirements) Regulations. The Report on Corporate Governance as stipulated under the SEBI Listing Obligations and Disclosure Requirements Regulations, 2015 (LODR) forms an integral part of Board's Report. The requisite certificate from the Auditors of the Company confirming compliance with the conditions of Corporate Governance is attached to this report.

Corporate Governance is a set of principles, processes and systems which govern a company. The elements of Corporate Governance are independence, transparency, accountability, responsibility, compliance, ethics, values and trust. Corporate Governance enables an organization to perform efficiently and ethically to generate long term wealth and create value for all its stakeholders.

The Company believes that sound Corporate Governance is critical for enhancing and retaining investor trust and your Company always seeks to ensure that its performance goals are met accordingly. The Company has established systems and procedures to ensure that its Board of Directors is well informed and well equipped to fulfill its overall responsibilities and to provide management with the strategic direction needed to create long term shareholders value. The Company has adopted many ethical and transparent governance practices even before they were mandated by law. The Company has always worked towards building trust with shareholders, employees, customers, suppliers and other stakeholders based on the principles of good corporate governance. The policies and the code are reviewed periodically to ensure their continuing relevance, effectiveness and responsiveness to the needs of our stakeholders.

STATEMENT ON COMPANY'S PHILOSOPHY ON CODE OF GOVERNANCE

Fundamentals of Corporate Governance includes transparency, accountability and independence. At Dilip Buildcon Limited, we feel proud to be a part of an organisation whose foundation stone was laid down for good governance which eventually became an integral principle of the business, as demonstrated in the words above. To succeed, we believe, it requires highest standards of corporate behaviour towards everyone we work with, the communities we touch and the environment on which we have an impact.

Corporate Governance encompasses a set of systems and practices to ensure that the Company's affairs are being managed in a manner which ensures accountability, transparency and fairness in all transactions in the widest sense. The objective is to meet stakeholder's aspirations and societal expectations. Good governance practices stem from the dynamic culture and positive mind set of the organization. We are committed to meet

the aspirations of all our stakeholders. This is demonstrated in shareholder returns, high credit ratings, governance processes and an entrepreneurial performance focused work environment. The essence of Corporate Governance lies in promoting and maintaining integrity, transparency and accountability in the management's higher echelons. The demands of Corporate Governance require professionals to raise their competence and capability levels to meet the expectations in managing the enterprise and its resources effectively with the highest standards of ethics. It has thus become crucial to foster and sustain a culture that integrates all components of good governance by carefully balancing the complex inter-relationship among the Shareholders, Board of Directors, Committees, Auditors and the Senior Management of the Company.

We believe, Corporate Governance is not just a destination but a journey to constantly improve sustainable value creation.

Reconciliation of Share Capital Audit Report:

As stipulated by SEBI, a qualified Practicing Company Secretary carries out Secretarial Audit to reconcile the total admitted capital with National Securities Depository Limited (NSDL) and Central Depository Services (India) Limited (CDSL) and the total issued and listed capital. This audit is carried out every quarter and the report there on is submitted to the Stock Exchanges where the Company's shares are listed. The audit confirms that the total listed and paid-up capital is in agreement with the aggregate of the total number of shares in dematerialized form (held with NSDL and CDSL) and total number of shares in physical form.

Means of communication to shareholders:

- The un-audited quarterly/half yearly standalone and consolidated financial results are announced within forty-five days of the close of the quarter. The audited standalone and consolidated annual results are announced within sixty days from the closure of the Financial Year as per the requirement of the SEBI (LODR) Regulations, 2015.
- The approved financial results are forthwith sent to the Stock Exchanges where the shares of the Company are listed and are published in National English newspaper and in local language (Hindi) newspaper, within forty-eight hours of approval thereof.
- The Company's financial results and official press releases are displayed on the Company's website www.dilipbuildcon.com

- Any presentation made to the institutional investors or/and analysts are also posted on the Company's website www.dilipbuildcon.com
- Management Discussion and Analysis forms part of the Annual Report, which is sent to the shareholders of the Company.
- The quarterly results, shareholding pattern, Corporate Governance Report, other quarterly compliances, all the price sensitive information and all other corporate communication to the Stock Exchanges viz. BSE Limited and National Stock Exchange of India Limited are filed electronically. The Company has complied with filing submissions through BSE's BSE Listing Centre and with NSE's NEAPS.
- A separate dedicated section under "Investors", on the Company's website gives information of shareholding pattern, quarterly/half yearly results and other relevant information of interest to the investors/public.

Share transfer system:

During the financial year 2021-22, the transfer of shares in physical form has not been processed by Registrar & Transfer Agent. In case of shares in electronic form, the transfers are processed by NSDL/ CDSL through respective Depository Participants. In compliance with the SEBI (LODR) Regulations, 2015, a Practicing Company Secretary carries out audit of the System of Transfer and a certificate to that effect is issued. Presently, the company do not have any outstanding shares in physical form.

Share transactions are simpler and faster in electronic form. After a confirmation of a sale/purchase transaction from the broker, shareholders should approach the depository participant with a request to debit or credit the account for the transaction. The depository participant will immediately arrange to complete the transaction by uploading the account. There is no need for a separate communication to the company to register the transfer.

The Company has obtained the certificate from a practising Company Secretary confirming the compliance of share transfer formalities by the Company pursuant to regulation 40(9) of the SEBI (LODR) Regulations, 2015 for half year ended September 30, 2021 and March 31, 2022 respectively and submitted to the stock exchange.

All communication regarding share certificates, change of address, dividend etc. should be addressed to R & T agent i.e. Link Intime India Private Limited.

Pursuant to the amendment in Regulation 40 of SEBI (LODR) Regulations, 2015, vide Gazette notification dated June 8, 2018, the SEBI, effective from April 1, 2019, barred physical transfer of shares of listed companies and mandated transfer only through demat. However, the investors are not barred from holding shares in physical form.

Nomination:

Individual shareholders holdings are singly or jointly in physical form can nominate a person in whose name the shares shall be transferable in case of death of the registered shareholder(s). Nomination facility in respect of shares held in electronic form is also available with the Depository Participants as per the bye-laws and business rules applicable to NSDL and CDSL. Nomination forms can be obtained from the Company's Registrar and Share Transfer Agent.

INDEPENDENT AUDITOR'S REPORT

To the Members of Dilip Buildcon Limited

Report on the Audit of Standalone Ind AS Financial Statements

1. Opinion

We have audited the accompanying standalone Ind AS financial statements of Dilip Buildcon Limited ("the Company"), which comprise the Balance Sheet as at 31st March 2022, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended and a summary of significant accounting policies and other explanatory information (hereinafter referred to as 'standalone financial statements').

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules 2015, as amended of the state of affairs of the Company as at March 31, 2022, its loss, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

2. Basis for Opinion

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing, as prescribed under Section 143(10) of the Act.

Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone Ind AS financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on standalone Ind AS financial statements.

3. Emphasis of Matter

We draw your attention to Note 46 of the standalone Ind AS financial statements, as regards the management's assessment of the financial impact due to restrictions and conditions related to Covid-19 pandemic situation.

Our opinion is not modified in respect of this matter.

4. Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone Ind AS financial statements of the current year. These matters were addressed in the context of our audit of the standalone Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. no.	Key Audit Matter	Auditors Response
1.	Revenue recognition and accounting for Construction contracts	
	<p>Significant accounting judgements including estimation of costs to complete, determining the stage of completion and the timing of revenue recognition.</p> <p>For majority of its contracts, the Company recognizes revenue and profit on the stage of completion based on the proportion of contract costs incurred for the work performed to the balance sheet date, relative to the estimated costs on the contract at completion. The recognition of revenue and profit / loss therefore are based on estimates in relation to the estimated total costs of each contract.</p>	<p>We performed the following audit procedures:</p> <p>Testing the design and implementation of internal controls including control over process for determining estimates used as evaluating whether they are operating effectively.</p> <p>Testing related information used in recording and disclosing revenue in accordance with the new revenue accounting standard.</p> <p>Testing different sample of contracts for identification of performance obligations.</p>

Sr. no.	Key Audit Matter	Auditors Response
	<p>At each reporting date, revenue is accrued for costs incurred against work performed in accordance with the contract for which invoice may not have been raised. Identification that such accrual will result into work that would be billable and recoverable when the work has not been acknowledged by the customer involves significant amount of judgement.</p> <p>Revenue on contracts may also include variable consideration (variations and claims). Variable consideration is recognized when the recovery of such consideration is highly probable. The nature of these judgements results in being subject to management override.</p>	<p>Reviewed the Company's process of collecting information supporting the basis for accrual of costs against work performed upto the cut off dates. Reviewed the design and operating effectiveness of management's key controls in collecting such data with respect of costs.</p> <p>Tested the cut-offs for revenue recognized against such un-invoiced amounts and reviewed the process of such recognition.</p> <p>Review for change of scope and impact of the same on estimated costs to complete the contracts</p> <p>Perform analytical procedures for reasonableness of revenues disclosed by type of contracts.</p>
2	<p>Assessment of receivables (including unbilled receivables)</p> <p>Risk of material misstatement related to estimation of expected credit loss as a result of lack of precision in their measurement. The estimates depend on number of factors such as ageing, credit risks and the ability of the parties to make payment.</p>	<p>We performed the following audit procedures:</p> <p>Assessed the Company's basis for determining the model, internal controls based on which the Company determines the basis of provisioning, compliance with and consistently applying the accounting policies Verification of subsequent receipts and post balance sheet events if any.</p>

5. Other Information (Information other than the standalone Ind AS financial statements and Auditor's report thereon)

The Company's Board of Directors is responsible for the preparation of other information. The other information comprises the information included in the Management Discussion and Analysis, Directors Report, Business Responsibility Report, Corporate Governance and Shareholders Information, but does not include the standalone Ind AS financial statements and our auditor's report thereon. The Annual report is expected to be made available to us after the date of our auditor's report.

Our opinion on the standalone Ind AS financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the standalone Ind AS financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone Ind AS financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the other information included in the above reports, if we conclude that there is material misstatement therein, we are required to communicate the matter to those charged with governance and determine the actions under the applicable laws and regulations.

6. Management's responsibility for the Standalone Ind AS financial statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS accounting Standards specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 as amended.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company

and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone Ind AS financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

7. Auditor's Responsibilities for the Audit of the Standalone Ind AS financial statements

Our objectives are to obtain reasonable assurance about whether the standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone Ind AS financial statements.

As part of an audit in accordance with Standards on auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- i) Identify and assess the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- ii) Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- iii) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- iv) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- v) Evaluate the overall presentation, structure and content of the standalone Ind AS financial statements, including the disclosures, and whether the standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of standalone Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in

extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

8. Report on Other Legal and Regulatory Requirements

- i) As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
- ii) As required by section 143 (3) of the Act, based on our audit, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the standalone Ind AS financial statements.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, Statement of Profit and Loss including Other comprehensive income, the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid standalone Ind AS financial statements comply with the Indian Accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2015, as amended.
 - e) On the basis of written representations received from the directors of the Company as on March 31, 2022, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2022, from being appointed as a director in terms of section 164 (2) of the Act.
 - f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B" to this report.
 - g) With respect to the other matters to be included in the Auditors Report in accordance with the requirements of Section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the
- h) explanations given to us, the remuneration paid / provided by the Company to its directors during the year is in accordance with the provisions of Section 197 of the Act.
 - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone Ind AS financial statements to the extent determinable/ascertainable. – Refer Note 26 to the standalone Ind AS financial statements.
 - ii. The Company does not have any long-term contracts including derivative contracts for which there are any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv. (a) The Management has represented that no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - (b) The Management has represented that no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

(c) Based on audit procedures that we have considered reasonable and appropriate nothing has come to our notice that has caused us to believe that the representations under sub-clause iv (a) and iv(b) contain any material misstatement.

v. The dividend declared and paid by the Company during the year is in compliance with provisions of Section 123 of the Companies Act, 2013.

As stated in note 11(b) to the standalone Ind AS financial statements, the Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of proposed dividend is in accordance with section 123 of the Act, as applicable.

Annexure 'A' to the Auditors' Report of even date on the standalone Ind AS financial statements of Dilip Buildcon Limited – Statement on the matters specified in paragraphs 3 and 4 of Companies (Auditor's Report) Order, 2016

Referred to in paragraph 8 (i) under Report on Other Legal and Regulatory Requirements of our report of even date

According to the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that:

- i) a) A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment and Right-of-use Assets.
- B) The Company has maintained proper records showing full particulars of Intangible Assets.
- b) Property, Plant and Equipment, Capital Work in Progress, Right-of-use Assets and Investment Property have been physically verified by the management during the year and no material discrepancies were identified on such verification.
- c) The title deeds of immovable properties included in Property, Plant and Equipment are held in the name of the Company.
- d) The Company has not revalued its Property, Plant and Equipment (including Right of Use assets) during the year.
- e) No proceedings have been initiated or is pending against the Company during the year for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.
- ii) a) As per information and explanations given to us the inventory has been physically verified by the management at regular intervals. In our opinion, the frequency of verification needs to be further improved having regard to the size of the Company and nature of its business. As informed to us, there was no material discrepancy in the aggregate for each class of inventory noticed on verification to the extent reconciled with the records available in this respect between the physical stocks and the book records.
- b) The Company has been sanctioned working capital limits in excess of five crore rupees during the year, from banks on the basis of security of current assets. The quarterly statements were submitted to respective Banks as per the terms of the sanction letter. On comparison of the quarterly statements with the books of accounts, there were discrepancies found, the reconciliation of which is given in Note 12.3 of standalone Ind AS Financial statements.
- iii) a) During the year, the Company has provided loans to thirty-two subsidiary companies, sixteen associate and jointly controlled entities, one other related company and to four other companies and stood guarantee to loans taken by eight subsidiary companies. The details are as given below:

Annexure 'B' to the Auditors' Report of even date on the standalone Ind AS financial statements of Dilip Buildcon Limited

Report on the Internal Financial Controls with reference to Standalone Ind AS Financial Statements under Clause (i) of Sub-Section 3 of Section 143 of the Companies Act, 2013

Referred to in paragraph 8 (ii) (f) under Report on Other Legal and Regulatory Requirements of our report of even date

1. We have audited the internal financial controls with reference to Standalone Ind AS Financial Statements of Dilip Buildcon Limited ("the Company") as of March 31, 2022 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to Standalone Ind AS Financial Statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India" (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to Standalone Ind AS Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Standalone Ind AS Financial Statements was established and maintained

and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to Standalone Ind AS Financial Statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls with reference to Standalone Ind AS Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to Standalone Ind AS Financial Statements.

Meaning of Internal Financial Controls with reference to Standalone Ind AS Financial Statements

4. A company's internal financial control with reference to Standalone Ind AS Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to Standalone Ind AS Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone Ind AS financial statements.

Inherent Limitations of Internal Financial Controls with reference to Standalone Ind AS Financial Statements

5. Because of the inherent limitations of internal financial controls with reference to Standalone Ind AS Financial Statements, including the possibility of collusion or

improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Standalone Ind AS Financial Statements to future periods are subject to the risk that the internal financial control with reference to Standalone Ind AS Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

material respects, an adequate internal financial controls system with reference to Standalone Ind AS Financial Statements and such internal financial controls with reference to Standalone Ind AS Financial Statements were operating effectively as at March 31, 2022, based on the internal control with reference to Standalone Ind AS Financial Statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls with reference to Standalone Ind AS Financial Statements issued by the Institute of Chartered Accountants of India.

Opinion

6. In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all

Notes to Financial Statements

for the year ended 31st March, 2022

1. Company Overview and Significant Accounting Policies

1.1 Company Overview

Dilip Buildcon Limited (the 'company') is domiciled in India with its registered office at Bhopal, Madhya Pradesh, India. The Company has been incorporated under the provisions of the Companies Act, 1956.

The Company's equity shares are listed on Bombay Stock Exchange (BSE) and National Stock Exchange (NSE) with effect from 11 August 2016.

The company is presently in the business of development of infrastructure facilities on Engineering Procurement and Construction basis (EPC) and undertakes contract from various Government and other parties and special purpose vehicles promoted by the Company.

1.2 Basis of Preparation of financial statements

The Company's financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as notified by Ministry of Corporate Affairs under sections 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules 2016.

The financial statements of the Company for the year ended 31st March 2022 were approved for issue in accordance with the resolution of the Board of Directors on 30th May 2022.

1.3 Basis of accounting

The Company maintains its accounts on accrual basis following the historical cost convention, except for certain financial instruments that are measured at fair values in accordance with Ind AS. Further, the guidance notes/ announcements issued by the Institute of Chartered Accountants of India (ICAI) are also considered, wherever applicable except to the extent where compliance with other statutory promulgations override the same requiring a different treatment.

1.4 Presentation of Financial Statements

The Balance Sheet, Statement of Profit and Loss and Statement of Changes in equity are prepared and presented in the format prescribed in the Schedule III to the Companies Act, 2013 ("the Act"). The disclosure requirements with respect to items in the Balance Sheet and Statement of Profit and Loss, as prescribed in the Schedule III to the Act, are presented by way of notes forming part of the financial statements along with the other notes required to be disclosed under the notified

Accounting Standards and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

1.5 Current / Non-Current classification

An asset or liability is classified as 'current' when it satisfies any of the following criteria:

- (i) it is expected to be realized or settled, or is intended for sale or consumption in, the company's normal operating cycle;
- (ii) it is held primarily for the purpose of being traded;
- (iii) it is expected to be realized or settled within twelve months from the reporting date; or
- (iv) an asset is cash or a cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months from the reporting date
- (v) in case of liability, the company does not have an unconditional right to defer settlement of the liability for at least twelve months from the reporting date.

All other assets and liabilities are classified as non-current.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out above which are in accordance with Schedule III to the Act.

Operating Cycle

Based on the nature of products and services of the Company and the normal time between acquisition of assets and their realization in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current

1.6 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial

Notes to Financial Statements

for the year ended 31st March, 2022

statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

This note provides an overview of the areas that involved a higher degree of judgement or complexity and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in the relevant note.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

A. Judgements in applying accounting policies

The judgements, apart from those involving estimations (see note below) that the Company has made in the process of applying its accounting policies and that have a significant effect on the amounts recognised in these financial statements pertain to useful life of assets. The Company is required to determine whether its intangible assets have indefinite or finite life which is a subject matter of judgement.

B. Key source of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

a) Property, Plant and Equipment

Determination of the estimated useful lives of tangible assets and the assessment as to which components of the cost may be capitalized. Useful lives of tangible assets are based on the life prescribed in Schedule II of the Companies Act, 2013. In cases, where the useful lives are different from that prescribed in Schedule II, they are based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers' warranties and maintenance support.

b) Recognition and measurement of defined benefit obligations

The obligation arising from defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation and vested future benefits and life expectancy. The discount rate is determined based on the prevailing market yields of Indian Government Securities as at the Balance Sheet Date for the estimated term of the obligations.

c) Recognition of deferred tax assets

A deferred tax asset is recognised for all the deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised.

d) Recognition and measurement of other provision

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may therefore vary from the figure included in other provisions.

e) Discounting of long-term financial instruments

All financial instruments are required to be measured at fair value on initial recognition. In case of financial instruments which are required to be subsequently measured at amortised cost, interest is accrued using the effective interest method.

1.7 Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest lakhs, unless otherwise indicated.

1.8 Property, plant and equipment and Depreciation

Property, Plant and Equipment is recognized when it is possible that future economic benefits associated with the item will flow to the Company and the cost can be measured reliably.

Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Notes to Financial Statements

for the year ended 31st March, 2022

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the company. Advance given towards acquisition of Property, Plant and Equipment outstanding at the reporting date are disclosed as capital advances under Non-Current Assets.

Property, Plant and Equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition is recognized in the Statement of Profit and Loss in the same period.

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the straight-line method and is generally recognised in the statement of profit and loss. Assets acquired under finance leases are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the company will obtain ownership by the end of the lease term. Freehold land is not depreciated.

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (upto) the date on which asset is ready for use (disposed of).

1.9 Intangible Assets

Intangible assets that the Company controls and from which it expects future economic benefits are capitalised upon acquisition at cost comprising the purchase price and directly attributable costs to prepare the assets for its intended use.

Intangible Assets is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition is recognized in the Statement of Profit and Loss in the same period

Intangible assets that have finite lives are amortised over their useful lives by the straight-line method.

1.10 Investments in Subsidiaries, Associates and Joint ventures

Investments in Subsidiaries, Associates and Joint Ventures are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount.

On disposal of investments in subsidiaries, associates and joint venture, the difference between net disposal proceeds and the carrying amounts are recognized in the Statement of Profit and Loss.

1.11 Inventories

Construction material, components, stores and spares are valued at lower of cost or net realisable value. Cost is determined on first in first out basis and comprise all cost of purchase, duties, taxes and all other costs incurred in bringing the inventory to their present location and condition.

1.12 Impairment of non-financial assets

The Company assesses at each balance sheet date whether there is any indication that an asset or cash generating unit (CGU) may be impaired. If any such indication exists, the company estimates the recoverable amount of the asset. The recoverable amount is the higher of an asset's or CGU's net selling price or its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognised in the statement of profit and loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

1.13 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

Initial Recognition

The Company recognizes financial assets when it becomes a party to the contractual provisions of the instrument. All financial assets are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets that are not at fair value through profit or loss are added to the fair value on initial recognition.

Subsequent measurement

For the purpose of subsequent measurement, financial assets are classified in two broad categories:- i) Financial assets at fair value and ii) Financial assets at amortised cost. Where assets are measured at fair value, gains and losses are either recognised entirely in the statement of profit and loss [i.e fair value through profit or loss], or recognised in other comprehensive income [i.e. fair value through other comprehensive income]. A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Derecognition

The company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the company neither transfers nor retain substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

Impairment of financial asset

For impairment of financial assets, Company applies expected credit loss (ECL) model. Following financial assets and credit risk exposure are covered within the ECL model:

- a. Financial assets that are debt instruments, and are measured at amortised cost e.g. loans, debt securities, deposits, trade receivables and bank balance

- b. Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115.

The company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables including receivables recognised under service concession arrangements.

The application of simplified approach does not require the company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. For recognition of impairment loss on other financial assets and risk exposure, the company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, then the impairment loss is provided based on lifetime ECL.

Financial liabilities

Initial recognition

The company initially recognises borrowings, trade payables and related financial liabilities on the date on which they are originated.

All other financial instruments (including regular-way purchases and sales of financial assets) are recognised on the trade date, which is the date on which the company becomes a party to the contractual provisions of the instrument.

Non-derivative financial liabilities are initially recognised at fair value, net of transaction costs incurred.

Subsequent measurement

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified,

Notes to Financial Statements

for the year ended 31st March, 2022

such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention either to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

1.14 Leases

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the option to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e.

the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

1.15 Provisions and Contingencies

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events, it is probable that there will be an outflow of resources and a reliable estimate can be made of the amount of the obligation. These are reviewed at each balance sheet date and adjusted to reflect the current best estimate. Contingent liabilities are not provided for and are disclosed by way of notes unless the possibility of outflow of resources embodying economic benefits is remote

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost in the statement of profit and loss.

1.16 Revenue recognition

Contract revenue includes the initial amount agreed in the contract plus any variations in contract work, claims and incentive payments, to the extent that it is probable that they will result in revenue and can be measured reliably.

If the outcome of a construction contract can be estimated reliably, contract revenue is recognised in profit or loss in proportion to the stage of completion of the contract. The stage of completion is assessed by reference to surveys of work performed. Otherwise, contract revenue is recognised only to the extent of contract costs incurred that are likely to be recoverable.

Revenue related to construction or upgrade services provided under a service concession arrangement is

Notes to Financial Statements

for the year ended 31st March, 2022

recognised based on the stage of completion of the work performed. Operation or service revenue is recognised in the period in which the services are provided by the company.

Interest income is recognised in the Statement of Profit and Loss using the effective interest method.

1.17 Borrowing Cost

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

1.18 Earnings per equity share

Basic earnings per equity share is computed by dividing the net profit or loss attributable to the equity holders of the company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit or loss attributable to the equity holders of the company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed to have been converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period.

1.19 Cash Flow statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

1.20 Employee Benefits

Short Term Employment benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-

term employee benefits. Benefits such as salaries, wages etc. and the expected cost of ex-gratia are recognized in the period in which the employee renders the related service. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Post Employment Employee Benefits

Retirement benefits to employees comprise payments to government provident funds, gratuity fund and Employees State Insurance.

Defined Contribution Plans

The Company's contribution to defined contributions plans such as Provident Fund, Employee State Insurance are recognised in the Statement of Profit and Loss in the year when the contributions to the respective funds are due. There are no other obligations other than the contribution payable to the respective Funds.

Defined Benefit Plans

Gratuity liability is defined benefit obligation. The Company's net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value.

The present value of the obligation under such defined benefit plan is determined based on actuarial valuation by an independent actuary, using the projected unit credit method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan, are based on the market yields on Government securities as at the Balance Sheet date.

Remeasurement of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in Other Comprehensive Income. Net interest expense (income) on the net defined liability (assets) is computed by applying the discount rate, used to measure the net defined liability (asset), to the net defined liability (asset) at the start of the financial year after taking into account any changes as a result of contribution and benefit payments during the year. Net interest expense and other expenses related to

Notes to Financial Statements

for the year ended 31st March, 2022

defined benefit plans are recognised in Statement of Profit and Loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in Statement of Profit and Loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

Actuarial gains/losses are recognized in the other comprehensive income.

1.21 Income Taxes

Current Tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Minimum alternative tax (MAT) credit is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay income tax higher than that computed under MAT, during the year that MAT is permitted to be set off under the Income Tax Act, 1961 (specified year). In the year, in which the MAT credit becomes eligible to be recognized as an asset the said asset is created by way of a credit to the Statement of profit and loss and shown as MAT credit entitlement.

The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay income tax higher than MAT during the specified year.

Deferred Tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted

by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. The company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. The income tax provision for the interim period is made based on the best estimate of the annual average tax rate expected to be applicable for the full financial year.

1.22 Assets Held for Sale

Non-current assets are classified as held for sale when their carrying amount will be recovered principally through a sale transaction rather than continuing use and a sale is highly probable.

Assets designated as held for sale are measured at the lower of carrying amount at designation and fair value less costs to sell.

1.23 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

For cash and other liquid assets, the fair value is assumed to approximate to book value, given the short-term nature of these instruments. For those items with a stated maturity exceeding twelve months, fair value is calculated using a discounted cash flow methodology.

Notes to Financial Statements

for the year ended 31st March, 2022

A fair value measurement of a non-financial asset considers a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the company has determined classes of assets and liabilities based on the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

The Company maintains policies and procedures to value financial assets or financial liabilities using the best and most relevant data available. In addition, the Company internally reviews valuations, including independent price validation for certain instruments. Further, in other instances, Company retains independent pricing vendors to assist in corroborating the valuations of certain instruments.

The fair value of the financial assets and liabilities are included at the amount at which the instrument that would be received to sell an asset or paid to transfer liability in an orderly transaction between market participants at the measurement date.

The following methods and assumptions were used to estimate the fair values:

Notes to Financial Statements

for the year ended 31st March, 2022

* The Company has not disclosed the fair values of trade payables, trade receivables, other bank balances and cash and cash equivalents because their carrying amounts are reasonable approximation of fair value.

Fair value of security deposits have been estimated using a discounted cash flow model. The valuation requires management to make certain assumptions about interest rates, maturity period, credit risk, forecasted cash flows.

Long-term fixed-rate and variable-rate receivables/borrowings are evaluated by the Company based on parameters such as interest rates, individual creditworthiness of the customer and the risk characteristics of the financed project. Based on this evaluation, allowances are taken into account for the expected credit losses of these receivables. As of reporting date the carrying amounts of such receivables, net of allowances are not materially different from their calculated fair values.

Carrying value of loans from banks, other non current borrowings and other financial liabilities is estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities. The own non-performance risk as at reporting date was assessed to be insignificant.

The Company will continue to hold investments of 26% in respect of 4 companies out of the 24 companies sold earlier in accordance with the concessionaire agreements entered into with the authorities. As per the SHA, the Company has given away all the rights towards dividend and share in profits in respect of these companies and accordingly the Company has provided for impairment on these investments as at year end.

Note 42

- a. The Company has entered into shareholder and share purchase agreement with Cube Highways and Infrastructure III PTE Limited (Cube Highways) on 31 August 2019 to sell its entire shareholding in a phased manner in 5 subsidiary companies having projects under construction (as per Hybrid Annuity Mode ('HAM') Projects). The expected consideration for said 5 subsidiary companies is around ₹ 72,500.00 lakhs to be received in a phased manner subject to shareholding transfer restrictions set out in concession agreement executed between National Highways Authority of India and respective subsidiary company and subject to various regulatory and lender approvals. However, out of the

for the year ended 31st March, 2022

said 5 subsidiary companies, the contract in respect of 2 subsidiary companies has been mutually terminated via termination agreement entered into between the parties resulting into revised expected consideration of ₹ 43,000.00 lakhs.

- b. The Company along with its nominee have transferred its 49% equity stake in its 3 subsidiary companies to Cube Highways and its nominee on 31 December, 2021. The Company has earned profit of ₹ 5,936.88 lakhs and disclosed as part of 'exceptional item' in the statement of Profit and Loss.
- c. The balance 51% equity stake to be transferred in 3 subsidiary companies, is scheduled to be completed after expiry of mandatory lock-in period as per the provisions of the concessionaire agreements and subject to various regulatory approvals. The consideration in respect of the balance 51% will be determined at the time of transfer and thus no effect for the same has been given in this respect.

Note 43

- a. During the year, the Company has acquired the entire shareholding in High Fly Airlines Private Limited for a consideration of ₹ 200.00 lakhs. The name of the Company has been subsequently changed to DBL Infra Assets Private Limited.
- b. During the year, the Company has transferred its ownership of 49% in respect of existing 9 subsidiary companies and 65% in respect of existing 1 subsidiary company to DBL Infra Assets Private Limited. The Company has earned Nil profit on all these transactions.

Note 44

The Company along with its wholly owned subsidiary "DBL Infra Assets Private Limited" ("DIAPL") have executed a non-binding term sheet, with 'Shrem InvIT' (an infrastructure investment trust, registered under Indian Trust Act 1882 with Securities and Exchange Board of India) on 21 January 2022, for transferring their investment in equity share capital and promoter's unsecured loan in respect of 10 subsidiary companies (Hybrid Annuity Model ("HAM") projects). Equity transfer to Shrem InvIT shall be completed in a progressive manner after the completion of the projects, subject to receipt of approvals from the respective project lenders and NHAI. The consideration for the transfer of shares will be received in form of units of the InvIT at expected consideration of ₹ 2,34,900.00 lakhs.

Note 45

As per Rule 18(7) of the Companies (Share Capital and Debentures) Rules, 2014, the Company had to create a

Debenture Redemption Reserve for the purpose of redemption of debentures at the rate of 25% of the value of the outstanding debentures.

The value of outstanding debenture being ₹ 60,000 lakhs at year ending March 2018, the debenture redemption reserve of ₹ 15,000 lakhs had been created and the equivalent amount had been transferred from 'Retained Earnings' to 'Debenture Redemption Reserve'.

Ministry of Corporate Affairs vide notification dated 16 August 2019 amended the Companies (Share Capital and Debentures) Rules, 2014 and it was called as Companies (Share Capital and Debentures) Amendment Rules, 2019. Based on this notification, the listed Companies were not required to transfer 25% of the value of outstanding Debentures to the Debenture Redemption Reserve. Therefore, no additional amount was transferred to Debenture Redemption Reserve post this notification.

Note 46

The Company has considered the possible effects that may result from COVID-19 in the preparation of these financial statements including the recoverability of carrying amounts of financial and non-financial assets. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of COVID-19, the Company has, at the date of approval of the financial statements, used internal and external sources of information and expects that the carrying amount of the assets will be recovered.

Note 49 Disclosure as per Ind AS 115 - Revenue from Contract with Customers

(a) Contract with Customers

The Company has recognised ₹ 8,87,183.30 lakhs (P.Y. - ₹ 9,11,530.99 lakhs) as revenue from Contracts with customers during the year.

(b) Disaggregation of Revenue

Segments have been identified in accordance with Indian Accounting Standards (IndAS) 108 on Operating Segments considering the risk or return profiles of the business. As required under Ind AS 108, the Chief Operating Decision Maker (CODM) evaluates the performance and allocates resources based on analysis of various performance indicators. Accordingly, information has been presented for the Group's operating segments and the Company has identified business segment as primary segment. The reportable segment is Construction and Engineering Contracts and the business of Construction and Development of Real Estate is at a nascent stage and no actual operations have commenced.

Therefore the Company has identified the reportable segment as 'Construction and Engineering Contracts' and it believes that this identification best depict show the nature, amount, timing and uncertainty of our revenues and cash flows are affected by industry, market and other economic factors.

(c) Contract Balances

(i) Contract Balances

Details of trade receivables, contract assets and contract liabilities arising from the contracts with customers are given below:

Particulars	₹ in Lakhs	
	31 March 2022	31 March 2021
Trade receivables (Refer Note 7)	1,03,795.34	1,10,471.35
Contract Assets:		
Retention Money, Withheld Money, Security & Other Deposits (Refer Note 10)	77,351.87	75,926.90
Unbilled Revenue (Refer Note 5)	1,10,080.34	58,565.73
Contract Liabilities:		
Advances from customers (Refer Note 16)	1,08,842.61	97,108.02

Revenue for construction contracts is recognised in profit or loss in proportion to the stage of completion of the contract.

Notes to Financial Statements

for the year ended 31st March, 2022

The stage of completion is assessed by reference to surveys of work performed. Otherwise, contract revenue is recognised only to the extent of contract costs incurred that are likely to be recoverable. Revenue in excess of billings is recognised as Unbilled revenue and is classified as Financial Asset for these cases as right to consideration is unconditional upon passage of time.

During the year ended March 31, 2022, ₹ 58,565.73 lakhs (P.Y. - ₹ 54,375.19 lakhs) of opening unbilled revenue has been either reclassified to Trade Receivables upon billing to customers on completion of milestone or has been part of closing unbilled revenue.

Changes in Contract Assets and Contract Liabilities are on account of transaction undertaken in the normal course of business.

(d) Performance Obligations

The Company has applied the practical expedient as provided in Ind AS 115 and excluded the disclosure relating to remaining performance obligation for:

- (i) Contracts where the original expected duration is one year or less
- (ii) Contracts where the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date. Typically this involves those contracts where invoicing is on time and material basis.

Remaining performance obligation estimates are subject to change and are affected by several factors such as terminations, changes in the scope of contracts, periodic revalidations of estimates and other macro economic factors.

The aggregate amount of transaction price allocated to the performance obligations that are unsatisfied (or partially unsatisfied) as at March 31, 2022, after considering the practical expedient mentioned above is ₹ 25,59,452.88 lakhs (P.Y. - ₹ 28,07,986.98 lakhs) out of which 40% is expected to be recognised as revenue within the next one year and the balance thereafter.

INDEPENDENT AUDITOR'S REPORT

To the Members of Dilip Buildcon Limited

Report on the Audit of Consolidated Ind AS Financial Statements

1. Opinion

We have audited the accompanying consolidated Ind AS financial statements of Dilip Buildcon Limited (hereinafter referred to as "the Holding Company"), its subsidiaries (the Holding Company and its Subsidiaries together referred to as "the Group"), which comprise the Consolidated Balance Sheet as at 31st March 2022, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended and a summary of significant accounting policies and other explanatory information (hereinafter referred to as 'consolidated Ind AS financial statements').

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated Ind AS financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules 2015, as amended of the consolidated state of affairs of the Group, as at March 31, 2022, its consolidated loss, consolidated total comprehensive income, consolidated changes in equity and its consolidated cash flows for the year ended on that date.

2. Basis for Opinion

We conducted our audit of the consolidated Ind AS financial statements in accordance with the Standards on Auditing, as prescribed under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Ind AS financial statements section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated Ind AS financial statements in India in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

3. Emphasis of Matter

We draw your attention to Note 45 of the consolidated Ind AS financial statements, as regards the management's assessment of the financial impact due to restrictions and conditions related to Covid-19 pandemic situation. Our opinion is not modified in respect of this matter.

4. Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated Ind AS financial statements of the current period. These matters were addressed in the context of our audit of the consolidated Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. no.	Key Audit Matter	Auditors Response
1	<p>Revenue recognition and accounting for Construction contracts</p> <p>Significant accounting judgements including estimation of costs to complete, determining the stage of completion and the timing of revenue recognition.</p> <p>Revenue on contracts may also include variable considerations (variations and claims). Variable considerations are recognized when the recovery of such considerations is highly probable. The nature of these judgements results in being subjects to management override.</p> <p>For majority of its contracts, the Company recognizes revenue and profit on the stage of completion based on the proportion of contract costs incurred for the work performed to the balance sheet date, relative to the estimated costs on the contract at completion. The recognition of revenue and profit / loss therefore are based on estimates in relation to the estimated total costs of each contract.</p>	<p>We performed the following audit procedures:</p> <p>Testing the design and implementation of internal controls including control over process for determining estimates used as evaluating whether they are operating effectively.</p> <p>Testing related information used in recording and disclosing revenue in accordance with the new revenue accounting standard.</p> <p>Testing different sample of contracts for identification of performance obligations</p> <p>Reviewed the Company's process of collecting information supporting the basis for accrual of costs against work performed upto the cut off dates. Reviewed the design and operating effectiveness of management's key controls in collecting such data with respect of costs.</p>

Sr. no.	Key Audit Matter	Auditors Response
	At each reporting date, revenue is accrued for costs incurred against work performed in accordance with the contract for which invoice may not have been raised. Identification that such accrual will result into work that would be billable and recoverable when the work has not been acknowledged by the customer involves significant amount of judgement.	Tested the cut-offs for revenue recognized against such un-invoiced amounts and reviewed the process of such recognition. Review for change of scope and impact of the same on estimated costs to complete the contracts Perform analytical procedures for reasonableness of revenues disclosed by type of contracts.
2	Assessment of receivables (including unbilled receivables) Risk of material misstatement related to estimation of expected credit loss as a result of lack of precision in their measurement. The estimates depend on number of factors such as ageing, credit risks and the ability of the parties to make payment.	We performed the following audit procedures: Assessed the company basis for determining the model, internal controls based on which the Company determines the basis of provisioning, compliance with and consistently applying the accounting policies Verification of subsequent receipts and post balance sheet events if any.

5. Other Information (Information other than the consolidated Ind AS financial statements and Auditor’s report thereon)

The Holding Company’s Board of Directors are responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Directors Report, Business Responsibility Report, Corporate Governance and Shareholders Information, but does not include the consolidated Ind AS financial statements and our auditor’s report thereon. The Annual report is expected to be made available to us after the date of this auditor’s report.

Our opinion on the consolidated Ind AS financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated Ind AS financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated Ind AS financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the other information included in the above reports, if we conclude that there is material misstatement therein, we are required to communicate the matter to those charged with governance and determine the actions under the applicable laws and regulations.

6. Responsibility of Management and those charged with Governance for the Consolidated Ind AS financial statements

The Holding company’s Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated Ind AS financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including consolidated other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Ind AS accounting Standards specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 as amended.

The respective Board of Directors of the companies included in the Group and its associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and its Associates and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the directors of the holding company as aforesaid.

In preparing the consolidated Ind AS financial statements, the respective Board of Directors of the companies included in the Group and its Associates are responsible for assessing the ability of the Group and its Associates to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Group and its Associates or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the Companies included in the Group and its Associates are responsible for overseeing the financial reporting process of the Group and its Associates.

7. Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated Ind AS financial statements.

As part of an audit in accordance with Standards on auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We, also:

- i) Identify and assess the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ii) Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Companies included in the Group and its Associates has adequate internal financial controls system in place and the operating effectiveness of such controls.

- iii) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Companies included in the Group and its Associates.
- iv) Conclude on the appropriateness of Companies included in the Group management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- v) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- vi) Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its Associates to express an opinion on the consolidated Ind AS financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated Ind AS financial statements of which we are the independent auditors. For the other entities included in the consolidated Ind AS financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated Ind AS financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on

our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

8. Other Matters

- (a) We did not audit the financial statements, in respect of thirty-four subsidiaries, whose Ind AS financial statements include total assets of Rs. 7,17,598.51 lakhs, as at March 31, 2022; total revenues of Rs. 4,02,942.12 lakhs and net cash inflows of Rs. 24,480.22 lakhs for year ended on that date as considered in the consolidated Ind AS financial statements.

These Ind AS financial statements have been audited by other auditors whose financial statements, and auditor's reports have been furnished to us by the management. Our opinion on the consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures as included in respect of these subsidiaries, and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries is based solely on the report of other auditors.

- (b) The Financial Statements and other financial information in respect of two subsidiaries, whose Ind AS Financial Statements and other financial information include total assets of Rs.13,202.03 Lakhs as at March 31, 2022, total revenues of Rs.5,205.66 Lakhs and net cash inflows amounting to Rs.231.24 Lakhs for the year ended on that date as considered in the consolidated Ind AS financial statements have been audited by one of the joint auditors, M/s MSG & Associates.
- (c) The Financial statements and other financial information in respect of three subsidiaries whose Ind AS financial statements and other financial information include total assets of Rs.77,268.79 lakhs as at March 31, 2022; total revenues of Rs.6,004.89 lakhs and net cash inflows of Rs.277.91 lakhs for the year ended on that date as considered in the consolidated Ind AS financial statements, have been

audited by one of the joint auditors, M/s Mukund M. Chitale & Co.

Our opinion on the consolidated Ind AS financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

9. Report on Other Legal and Regulatory Requirements

- (i) As required by section 143 (3) of the Act, based on our audit, we report that:
- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated Ind AS financial statements.
 - b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated Ind AS financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
 - c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including consolidated other comprehensive income), the Consolidated statement of changes in equity and the Consolidated Statement of Cash Flows dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the consolidated Ind AS financial statements.

Annexure 'A' to the Auditor's Report of even date on the Consolidated Ind AS financial statements of Dilip Buildcon Limited

Report on the Internal Financial Controls with reference to Consolidated Ind AS Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

Referred to in paragraph [9(i)(f)] under Report on Other Legal and Regulatory Requirements of our report of even date

1. We have audited the internal financial controls with reference to Consolidated Ind AS Financial Statements of Dilip Buildcon Limited (hereinafter referred to as "the Holding Company"), its subsidiaries (the Holding Company and its Subsidiaries together referred to as "the Group"), of March 31, 2022 in conjunction with our audit of the consolidated Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The respective Board of Directors of the Holding Company and its subsidiary companies, incorporated in India are responsible for establishing and maintaining internal financial controls based on the internal control with reference to Consolidated Ind AS Financial Statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India" (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Group's internal financial controls with reference to Consolidated Ind AS Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountants of

India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Consolidated Ind AS Financial Statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to with reference to Consolidated Ind AS Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Consolidated Ind AS Financial Statements included obtaining an understanding of internal financial controls with reference to Consolidated Ind AS Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Group's internal financial controls system with reference to Consolidated Ind AS Financial Statements.

Meaning of Internal Financial Controls with reference to Consolidated Ind AS Financial Statements

4. A company's internal financial control with reference to Consolidated Ind AS Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to Consolidated Ind AS Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Consolidated Ind AS Financial Statements

- 5 Because of the inherent limitations of internal financial controls with reference to Consolidated Ind AS Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Consolidated Ind AS Financial Statements to future periods are subject to the risk that the internal financial control with reference to Consolidated Ind AS Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

- 6 In our opinion, the Holding Company and its subsidiary companies, which are companies incorporated in India, have in all material respects, an adequate internal financial controls system with reference to Consolidated Ind AS

Financial Statements and such internal financial controls with reference to Consolidated Ind AS Financial Statements were operating effectively as at March 31, 2022, based on the internal control with reference to Consolidated Ind AS Financial Statements criteria established by the Holding Company and its subsidiary companies, considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

- 7 Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to Consolidated Ind AS Financial Statements insofar as it relates to thirty-nine subsidiary companies incorporated in India, and to whom internal control with reference to Consolidated Ind AS Financial Statements is applicable, is based on the corresponding reports of the Auditors of such companies.

Notes to Consolidated Financial Statements

for the year ended 31st March, 2022

1. Company Overview and Significant Accounting Policies

1.1 Company Overview

Dilip Buildcon Limited (the 'company') is domiciled in India with its registered office at Bhopal, Madhya Pradesh, India. The Company has been incorporated under the provisions of the Companies Act, 1956.

The Company's equity shares are listed on Bombay Stock Exchange (BSE) and National Stock Exchange (NSE) with effect from 11 August 2016.

The company is presently in the business of development of infrastructure facilities on Engineering Procurement and Construction basis (EPC) and undertakes contract from various Government and other parties and special purpose vehicles promoted by the Company.

1.2 Basis of Preparation of financial statements

The Company's Ind AS financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as notified by Ministry of Corporate Affairs under sections 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules 2016.

The financial statements of the Company for the year ended 31st March 2022 were approved for issue in accordance with the resolution of the Board of Directors on 30th May 2022.

1.3 Basis of accounting

The Company maintains its accounts on accrual basis following the historical cost convention, except for certain financial instruments that are measured at fair values in accordance with Ind AS. Further, the guidance notes/ announcements issued by the Institute of Chartered Accountants of India (ICAI) are also considered, wherever applicable except to the extent where compliance with other statutory promulgations override the same requiring a different treatment.

1.4 Presentation of Financial Statements

The Balance Sheet, Statement of Profit and Loss and Statement of Changes in equity are prepared and presented in the format prescribed in the Schedule III to the Companies Act, 2013 ("the Act"). The disclosure requirements with respect to items in the Balance Sheet and Statement of Profit and Loss, as prescribed in the Schedule III to the Act, are presented by way of notes forming part of the financial statements along with the other notes required to be disclosed under the notified

Accounting Standards and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

1.5 Current / Non-Current classification

An asset or liability is classified as 'current' when it satisfies any of the following criteria:

- (i) it is expected to be realized or settled, or is intended for sale or consumption in, the company's normal operating cycle;
- (ii) it is held primarily for the purpose of being traded;
- (iii) it is expected to be realized or settled within twelve months from the reporting date; or
- (iv) an asset is cash or a cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months from the reporting date
- (v) in case of liability, the company does not have an unconditional right to defer settlement of the liability for at least twelve months from the reporting date.

All other assets and liabilities are classified as non-current.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out above which are in accordance with Schedule III to the Act.

Operating Cycle

Based on the nature of products and services of the Company and the normal time between acquisition of assets and their realization in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

1.6 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgements and assumptions. These estimates, judgements and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the

Notes to Consolidated Financial Statements

for the year ended 31st March, 2022

financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

This note provides an overview of the areas that involved a higher degree of judgement or complexity and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in the relevant note.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

A. Judgements in applying accounting policies

The judgements, apart from those involving estimations (see note below) that the Company has made in the process of applying its accounting policies and that have a significant effect on the amounts recognised in these financial statements pertain to useful life of assets. The Company is required to determine whether its intangible assets have indefinite or finite life which is a subject matter of judgement.

B. Key source of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

a) Property, Plant and Equipment

Determination of the estimated useful lives of tangible assets and the assessment as to which components of the cost may be capitalized separately. Useful lives of tangible assets are based on the life prescribed in Schedule II of the Companies Act, 2013. In cases, where the useful lives are different from that prescribed in Schedule II, they are based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers' warranties and maintenance support.

b) Recognition and measurement of defined benefit obligations

The obligation arising from defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation and vested future benefits and life

expectancy. The discount rate is determined based on the prevailing market yields of Indian Government Securities as at the Balance Sheet Date for the estimated term of the obligations

c) Recognition of deferred tax assets

A deferred tax asset is recognised for all the deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised.

d) Recognition and measurement of other provision

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may therefore vary from the figure included in other provisions.

e) Discounting of long-term financial instrument

All financial instruments are required to be measured at fair value on initial recognition. In case of financial instruments which are required to be subsequently measured at amortised cost, interest is accrued using the effective interest method.

1.7 Basis of Consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries. The assets, liabilities, income and expenses of subsidiaries are aggregated and consolidated, line by line, from the date control is acquired by any Group entity to the date it ceases. Profit or loss and each component of other comprehensive income are attributed to the Group as owners and to the non-controlling interests.

The Group presents the non-controlling interests in the Balance Sheet within equity, separately from the equity of the Group as owners. The excess of the Group's investment in a subsidiary over its share in the net worth of such subsidiary on the date control is acquired is treated as goodwill while a deficit is considered as a capital reserve in the Consolidated Financial Statements. On disposal of the subsidiary, attributable amount on goodwill is included in the determination of the profit or loss and recognised in the Statement of Profit and Loss. Impairment loss, if any, to the extent the carrying amount exceeds the recoverable amount is charged off to the Statement of Profit and Loss as it arises and is not reversed. For impairment testing, goodwill is allocated to Cash Generating Unit (CGU) or a group of CGUs to which it relates, which is not larger than an operating segment, and is monitored for internal management purposes.

Notes to Consolidated Financial Statements

for the year ended 31st March, 2022

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented, to the extent possible, in the same manner as the Company's separate financial statements.

The List of Subsidiaries and Associates included in the Consolidated financial statements are as under:

1.8 Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest lakhs, unless otherwise indicated.

1.9 Property, plant and equipment and Depreciation

Property, Plant and Equipment is recognized when it is possible that future economic benefits associated with the item will flow to the Company and the cost can be measured reliably.

Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-

refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the company. Advance given towards acquisition of Property, Plant and Equipment outstanding at the reporting date are disclosed as capital advances under Non-Current Assets.

Notes to Consolidated Financial Statements

for the year ended 31st March, 2022

Property, Plant and Equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition is recognized in the Statement of Profit and Loss in the same period.

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the straight-line method, and is generally recognised in the statement of profit and loss. Assets acquired under finance leases are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the company will obtain ownership by the end of the lease term. Freehold land is not depreciated.

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (upto) the date on which asset is ready for use (disposed of).

1.10 Intangible Assets

(a) Other Intangible Assets

Intangible assets that the Company controls and from which it expects future economic benefits are capitalised upon acquisition at cost comprising the purchase price and directly attributable costs to prepare the assets for its intended use.

Intangible Assets is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition is recognized in the Statement of Profit and Loss in the same period.

Intangible assets that have finite lives are amortised over their useful lives by the straight line method.

(b) Service concession arrangements (Toll Rights)

The Company recognises an intangible asset arising from a service concession arrangement to the extent the company has right to charge for the use of concession infrastructure. Intangible asset would be initially measured at cost. The fair value, at the time of initial recognition of such an intangible asset received as consideration for providing construction or upgrade services in a service concession arrangement, is regarded to be its cost. Borrowing costs directly attributable to the construction of a qualifying asset are capitalised as part of the cost. Subsequent to initial recognition the intangible asset is measured at cost less accumulated amortisation and accumulated impairment losses.

Subsequent costs

Subsequent costs are capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates.

- Amortisation

Amortisation is calculated over the cost of the asset, or other amount substituted for cost, less its residual value. Amortisation is recognised in statement of profit and loss on a straight-line basis over the estimated useful lives of intangible assets from the date that they are available for use, since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset.

The estimated useful life of an intangible asset in a service concession arrangement is a period from when the company has right to charge the user of infrastructure for such use to the end of the concession period.

1.11 Investments in associates, joint ventures and subsidiaries

Investments in Subsidiaries, Associates and Joint Ventures are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount.

On disposal of investments in subsidiaries, associates and joint venture, the difference between net disposal proceeds and the carrying amounts are recognized in the Statement of Profit and Loss.

1.12 Inventories

Construction material, components, stores and spares are valued at lower of cost or net realisable value. Cost is determined on first in first out basis and comprise all cost of purchase, duties, taxes and all other costs incurred in bringing the inventory to their present location and condition.

1.13 Impairment of non-financial assets

The Company assesses at each balance sheet date whether there is any indication that an asset or cash generating unit (CGU) may be impaired. If any such indication exists, the company estimates the recoverable amount of the asset. The recoverable amount is the higher of an asset's or CGU's net selling price or its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Notes to Consolidated Financial Statements

for the year ended 31st March, 2022

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognised in the statement of profit and loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

1.14 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

Initial Recognition

The Company recognizes financial assets when it becomes a party to the contractual provisions of the instrument. All financial assets are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets that are not at fair value through profit or loss are added to the fair value on initial recognition.

Subsequent measurement

For the purpose of subsequent measurement, financial assets are classified in two broad categories:- i) Financial assets at fair value and ii) Financial assets at amortised cost. Where assets are measured at fair value, gains and losses are either recognised entirely in the statement of profit and loss [i.e. fair value through profit or loss], or recognised in other comprehensive income [i.e. fair value through other comprehensive income]. A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Derecognition

The company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the company neither transfers nor retain substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

Impairment of financial asset

For impairment of financial assets, Company applies expected credit loss (ECL) model. Following financial assets and credit risk exposure are covered within the ECL model:

- a. Financial assets that are debt instruments, and are measured at amortised cost e.g. loans, debt securities, deposits, trade receivables and bank balance
- b. Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115.

The company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables including receivables recognised under service concession arrangements.

The application of simplified approach does not require the company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. For recognition of impairment loss on other financial assets and risk exposure, the company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, then the impairment loss is provided based on lifetime ECL.

Financial liabilities

Initial recognition

The company initially recognises borrowings, trade payables and related financial liabilities on the date on which they are originated.

All other financial instruments (including regular-way purchases and sales of financial assets) are recognised on the trade date, which is the date on which the company becomes a party to the contractual provisions of the instrument.

Notes to Consolidated Financial Statements

for the year ended 31st March, 2022

Non-derivative financial liabilities are initially recognised at fair value, net of transaction costs incurred.

Subsequent measurement

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

1.15 Leases

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the option to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows

1.16 Provisions and Contingencies

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events, it is probable that there will be an outflow of resources and a reliable estimate can be made of the amount of the obligation. These are reviewed at each balance sheet date and adjusted to reflect the current best estimate. Contingent liabilities are not provided for and are disclosed by way of notes.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost in the statement of profit and loss.

Notes to Consolidated Financial Statements

for the year ended 31st March, 2022

1.17 Revenue recognition

Contract revenue includes the initial amount agreed in the contract plus any variations in contract work, claims and incentive payments, to the extent that it is probable that they will result in revenue and can be measured reliably.

If the outcome of a construction contract can be estimated reliably, contract revenue is recognised in profit or loss in proportion to the stage of completion of the contract. The stage of completion is assessed by reference to surveys of work performed. Otherwise, contract revenue is recognised only to the extent of contract costs incurred that are likely to be recoverable.

Revenue related to construction or upgrade services provided under a service concession arrangement is recognised based on the stage of completion of the work performed. Operation or service revenue is recognised in the period in which the services are provided by the company

Income from toll is recognised on receipt basis.

Interest income is recognised in the Statement of Profit and Loss using the effective interest method.

Other income comprises of interest income, dividend income, foreign currency gain on financial assets and liabilities.

1.18 Borrowing Cost

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

1.19 Earnings per equity share

Basic earnings per equity share is computed by dividing the net profit or loss attributable to the equity holders of the company by the weighted average number of equity shares outstanding during the year. Diluted earnings per equity share is computed by dividing the net profit or loss attributable to the equity holders of the company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted

for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period present.

1.20 Cash Flow statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

1.21 Employee Benefits

Short Term Employment benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages etc. and the expected cost of ex-gratia are recognized in the period in which the employee renders the related service. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Post Employment Employee Benefits

Retirement benefits to employees comprise payments to government provident funds, gratuity fund and Employees State Insurance.

Defined Contribution Plans

The Company's contribution to defined contributions plans such as Provident Fund, Employee State Insurance are recognised in the Statement of Profit and Loss in the year when the contributions to the respective funds are due. There are no other obligations other than the contribution payable to the respective Funds

Defined Benefit Plans

Gratuity liability is defined benefit obligation. The Company's net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value.

Notes to Consolidated Financial Statements

for the year ended 31st March, 2022

The present value of the obligation under such defined benefit plan is determined based on actuarial valuation by an independent actuary, using the projected unit credit method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan, are based on the market yields on Government securities as at the Balance Sheet date.

Remeasurement of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in Other Comprehensive Income. Net interest expense (income) on the net defined liability (assets) is computed by applying the discount rate, used to measure the net defined liability (asset), to the net defined liability (asset) at the start of the financial year after taking into account any changes as a result of contribution and benefit payments during the year. Net interest expense and other expenses related to defined benefit plans are recognised in Statement of Profit and Loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in Statement of Profit and Loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs. Actuarial gains/losses are recognized in the other comprehensive income.

1.22 Income Taxes

Current Tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Minimum alternative tax (MAT) credit is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay income tax higher

than that computed under MAT, during the year that MAT is permitted to be set off under the Income Tax Act, 1961 (specified year). In the year, in which the MAT credit becomes eligible to be recognized as an asset the said asset is created by way of a credit to the Statement of profit and loss and shown as MAT credit entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay income tax higher than MAT during the specified year.

Deferred Tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. The company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. The income tax provision for the interim period is made based on the best estimate of the annual average tax rate expected to be applicable for the full financial year.

1.23 Assets Held for Sale

Non-current assets are classified as held for sale when their carrying amount will be recovered principally through a sale transaction rather than continuing use and a sale is highly probable.

Assets designated as held for sale are held at the lower of carrying amount at designation and fair value less costs to sell.

1.24 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Notes to Consolidated Financial Statements

for the year ended 31st March, 2022

The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

For cash and other liquid assets, the fair value is assumed to approximate to book value, given the short term nature of these instruments. For those items with a stated maturity exceeding twelve months, fair value is calculated using a discounted cash flow methodology.

A fair value measurement of a non-financial asset considers a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient

data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the company has determined classes of assets and liabilities based on the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

The DBL Group maintains policies and procedures to value financial assets or financial liabilities using the best and most relevant data available. In addition, the DBL Group internally reviews valuations, including independent price validation for certain instruments. Further, in other instances, DBL Group retains independent pricing vendors to assist in corroborating the valuations of certain instruments.

The fair value of the financial assets and liabilities are included at the amount at which the instrument that would be received to sell an asset or paid to transfer liability in an orderly transaction between market participants at the measurement date.

Notes to Consolidated Financial Statements

for the year ended 31st March, 2022

The following methods and assumptions were used to estimate the fair values:

* The DBL Group has not disclosed the fair values of trade payables, trade receivables and cash and cash equivalents, because their carrying amounts are reasonable approximation of fair value.

Fair value of security deposits have been estimated using a DCF model. The valuation requires management to make certain assumptions about interest rates, maturity period, credit risk, forecasted cash flows.

Long-term fixed-rate and variable-rate receivables/borrowings are evaluated by the DBL Group based on parameters such as interest rates, individual creditworthiness of the customer and the risk characteristics of the financed project. Based on this evaluation, allowances are taken into account for the expected credit losses of these receivables. As of reporting date the carrying amounts of such receivables, net of allowances are not materially different from their calculated fair values.

Carrying value of loans from banks, other non current borrowings and other financial liabilities is estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities. The own non-performance risk as at reporting date was assessed to be insignificant.

Fair value hierarchy

The following table provides the fair value measurement hierarchy of DBL Group's assets and liabilities grouped into Level 1 to Level 3 as described in significant accounting policies - Note 1. Further table describes the valuation techniques used, key inputs to valuations and quantitative information about significant unobservable inputs for fair value measurements.

Note 33: Financial risk management policy and objectives

The key objective of the DBL Group's capital management is to ensure that it maintains a stable capital structure with the focus on total equity to uphold investor, creditor, and customer confidence and to ensure future development of its business. The DBL Group is focused on maintaining a strong equity base to ensure independence, security, as well as financial flexibility for potential future borrowings, if required without impacting the risk profile of the DBL Group.

DBL Group's principal financial liabilities, comprise borrowings from banks, trade payables and security deposits. The main purpose of these financial liabilities is to finance DBL Group's operations (short term). DBL Group's principal financial assets include investments, security deposit, trade and other receivables, deposits with banks and cash and cash equivalents, that derive directly from its operations.

DBL Group is exposed to market risk, credit risk and liquidity risk.

i) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk interest rate risk, currency risk and other price risk such as equity price risk and commodity risk. Financial instruments affected by market risk include borrowings, trade and other payables, security deposit, trade and other receivables, deposits with banks.

The sensitivity analysis in the following sections relate to the position as at 31 March 2022 and 31 March 2021. The sensitivity of the relevant income statement item is the effect of the assumed changes in respective market risks.

Notes to Consolidated Financial Statements

- f. Rental expense recorded for short-term leases was ₹ 7,093.76 lakhs (P.Y. - ₹ 4,750.42 lakhs) for the year ended 31 March, 2022 as shown in Note 20.

Note 39

In opinion of the Board of Directors of the DBL Group, the Current Assets, Loans and Advances are expected to be realized approximately at the value at which they are stated in the accounts in the ordinary course of business.

Note 40

There are no amounts due and outstanding to be credited to Investor Education and Protection Fund as at 31st March 2022.

Note 41

Royalty on use of construction material is determined by the concerned authorities and the amount of Royalty payable as at year end has not been ascertained in absence of necessary confirmation from the said authorities and the management does not consider the same to be substantial and material.

Note 42

- a. The Company had signed indicative term sheet with a party on 24 August, 2017 for divestment of its entire stake in respect of 24 subsidiary companies. The share acquisition cum shareholders agreement in respect of these 24 subsidiaries was entered into in March 2018. The Company had completed the transfer of shares in 16 subsidiary companies in the earlier years.
- b. During the year, the Company has completed the sale of balance 8 subsidiary companies in accordance with the share acquisition cum shareholders agreement (SHA) signed in March 2018. The Company has earned loss of ₹ 17,903.49 lakhs and disclosed as a part of 'exceptional item' in the statement of Profit and Loss.

The Company will continue to hold investment of 26% in respect of 4 companies out of the 24 companies sold earlier in accordance with the concessionaire agreements entered into with the authorities. As per the SHA, the Company had given away all the rights towards dividend and share in profits in respect of these companies. In view of the same, the Company had not consolidated the investment held in these 4 companies; of which, the Company has written off the investments held in 3 companies to the extent of share of profit amounting to ₹ 1,639.96 lakhs and disclosed as a part of 'exceptional item' in the statement of Profit and Loss.

Note 43

- a. The Company has entered into shareholder and share purchase agreement with Cube Highways and Infrastructure III PTE Limited (Cube Highways) on 31 August 2019 to sell its entire shareholding in a phased manner in 5 subsidiary companies having projects under construction (as per Hybrid Annuity Mode ('HAM') Projects. The expected consideration for said 5 subsidiary companies is around ₹ 72,500.00 lakhs to be received in a phased manner subject to shareholding transfer restrictions set out in concession agreement executed between National Highways Authority of India and respective subsidiary company and subject to various regulatory and lender approvals. However, out of the said 5 subsidiary companies, the contract in respect of 2 subsidiary companies has been mutually terminated via termination agreement entered into between the parties resulting into revised expected consideration of ₹ 43,000.00 lakhs.
- b. The Company along with its nominee have transferred its 49% equity stake in its 3 subsidiary companies to Cube Highways and its nominee on 31 December, 2021. The Company has earned profit of ₹ 13,763.85 lakhs and disclosed as part of 'exceptional item' in the statement of Profit and Loss.

Notes to Consolidated Financial Statements

for the year ended 31st March, 2022

c. The balance 51% equity stake to be transferred in 3 subsidiary companies, is scheduled to be completed after expiry of mandatory lock-in period as per the provisions of the concessionaire agreements and subject to various regulatory approvals. The consideration in respect of the balance 51% will be determined at the time of transfer and thus no effect for the same has been given in this respect. However, as per the terms of the SPA, balance 51% shares will not give any right to future cash flows to the Company; and therefore since the benefits do not accrue to the Company, these 3 subsidiary companies are not consolidated.

Note 44

As per Rule 18(7) of the Companies (Share Capital and Debentures) Rules, 2014, the DBL Group had to create a Debenture Redemption Reserve for the purpose of redemption of debentures at the rate of 25% of the value of the outstanding debentures.

The value of outstanding debenture being ₹ 60,000/- lakhs at year ending March 2018, the debenture redemption reserve of ₹ 15,000/- lakhs had been created and the equivalent amount had been transferred from 'Retained Earnings' to 'Debenture Redemption Reserve'.

Ministry of Corporate Affairs vide notification dated 16 August 2019 amended the Companies (Share Capital and Debentures) Rules, 2014 and it was called as Companies (Share Capital and Debentures) Amendment Rules, 2019. Based on this notification, the listed Companies were not required to transfer 25% of the value of outstanding Debentures to the Debenture Redemption Reserve. Therefore, no additional amount was transferred to Debenture Redemption Reserve post this notification.

Note 45

The DBL Group has considered the possible effects that may result from COVID-19 in the preparation of these financial statements including the recoverability of carrying amounts of financial and non-financial assets. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of COVID-19, the DBL Group has, at the date of approval of the financial statements, used internal and external sources of information and expects that the carrying amount of the assets will be recovered.

Note 46 Loan Moratorium facility vide RBI circular

Due to difficulty faced by the borrowers in repayment of loans due to cash flow issues amid lockdown because of Covid-19 pandemic, RBI vide its Notification Ref RBI/2019-201186 DOR.No .BP.BC.47L21.04.04812019-20 dated 27th March 2020 (COVID-19 Regulatory Package) had asked the bankers to provide three months moratorium in loan repayments to its borrowers. The

DBL Group had opted for this facility and has intimated to the respective bankers vide letter dated 28th March 2020 asking for keeping all the payments due from the DBL Group under the Consortium Loan Agreement, any interests and charges therein in abeyance for the month of April and May 2020.

In view of the extension of the lockdown and continuing disruptions on account of COVID-19, RBI vide its letter dated May 22, 2020 had decided to permit lending institutions to extend the moratorium on term loan instalments by another three months, i.e., from June 1, 2020 to August 31, 2020. In regards to same, the DBL Group had opted for this facility and has intimated to the respective bankers vide letter dated May 25, 2020 asking for keeping all the payments due from the DBL Group under the Consortium Loan Agreement, any interests and charges therein in abeyance for the month of June 01, 2020 to August 31, 2020.

Note 47 Invocation of Force Majeure Clause due to impact of Covid-19

Ministry of Finance vide its Notification Ref. no. F.18/4/2020-PPD, had announced on 13th May 2020 that in respect of public-private partnership concession contracts, a period of the contract may have become unremunerative. Therefore, after fulfilling due procedure and wherever applicable, contractor may invoke Force Majeure Clause (FMC) for all construction/work contracts and in such event, date for completion of contractual obligations shall stand extended for a period not less than three months and not more than six months. Accordingly, the DBL Group had invoked FMC for construction contracts and asked for extension of construction period. The Company had been granted the extension for all construction/work contracts in the range of three to nine months.

Note 48

(a) Loan Redemption Reserve

During the current year, the DBL Group has transferred back ₹ 4,627.79 lakhs from Loan Redemption Reserve to Retained Earnings on account of sale of stake in subsidiaries. During the previous year, the DBL Group had set aside ₹1,810.00 lakhs towards Loan Redemption Reserve on account of amount repayable in the subsequent financial year. The treatment of LRR in computing Minimum Alternate Tax (MAT) is on the basis of technical advice obtained by the DBL Group.

(b) Toll Operation Suspension

Contract Liabilities:		
Advances from customers (Refer Note 16)	86,374.77	57,456.09

Notes to Consolidated Financial Statements

for the year ended 31st March, 2022

Revenue for construction contracts is recognised in profit or loss in proportion to the stage of completion of the contract. The stage of completion is assessed by reference to surveys of work performed. Otherwise, contract revenue is recognised only to the extent of contract costs incurred that are likely to be recoverable. Revenue in excess of billings is recognised as Unbilled revenue and is classified as Financial Asset for these cases as right to consideration is unconditional upon passage of time.

During the year ended March 31, 2022, ₹ 58,565.73/- lakhs (P.Y. - ₹ 54,375.19/- lakhs) of opening unbilled revenue has been either reclassified to Trade Receivables upon billing to customers on completion of milestone or has been part of closing unbilled revenue.

Changes in Contract Assets and Contract Liabilities are on account of transaction undertaken in the normal course of business.

(d) Performance Obligations

The DBL Group has applied the practical expedient as provided in Ind AS 115 and excluded the disclosure relating to remaining performance obligation for:

- (i) Contracts where the original expected duration is one year or less
- (ii) Contracts where the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date. Typically this involves those contracts where invoicing is on time and material basis.

Remaining performance obligation estimates are subject to change and are affected by several factors such as terminations, changes in the scope of contracts, periodic revalidations of estimates and other macro economic factors.

The aggregate amount of transaction price allocated to the performance obligations that are unsatisfied (or partially unsatisfied) as at March 31, 2021, after considering the practical expedient mentioned above is ₹ 25,59,452.88/- lakhs (P.Y. - ₹ 28,07,986.98/- lakhs) out of which 40% is expected to be recognised as revenue within the next one year and the balance thereafter.

Note 50 Additional disclosures

- (i) During the financial years ended 31 March 2022, the Company has granted loans to the related parties (associates and jointly controlled entities as defined under the Companies Act, 2013), which is repayable on demand.

- (ii) There is no benami property held by the Company and no proceedings have been initiated or pending against the Company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.

- (iii) The Company has not entered in to any transactions during the year with the companies struck off under section 248 of Companies Act, 2013 or section 560 of Companies Act, 1956.
