Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial may also adversely affect our business, financial condition, results of operations and cash flows. If any or some combination of the following risks, or other risks that are not currently known or believed to be adverse, actually occur, our business, financial condition and results of operations could suffer, the trading price of, and the value of your investment in, our Equity Shares could decline and you may lose all or part of your investment. Moreover, the COVID-19 pandemic could adversely affect our business and financial results and could heighten other risks described in this section. In making an investment decision with respect to this Issue, prospective investors must rely on their own examination of the Company and the terms of this Issue, including the merits and risks involved. You should consult your tax, financial and legal advisors about the consequences to you of an investment in the Rights Equity Shares.

The following risk factors have been determined by our Board of Directors on the basis of their materiality. The following factors have been considered for determining the materiality:

- (i) Some events may not be material individually, but may be found material collectively,
- (ii) Some events may have material impact qualitatively instead of quantitatively; and
- (iii) Some events may not be material at present but may have material impact in the future.

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are risk factors where the impact may not be quantifiable and hence, the same has not been disclosed in such risk factors. The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk over another.

This Draft Letter of Offer also contains forward-looking statements that involve risks and uncertainties. Our results could differ materially from such forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Draft Letter of Offer.

2. ***Our gross income may decrease substantially if our operation cum management contract is not renewed, are renewed on terms that are unfavorable to us or are terminated.***

We run our sole hospital, Family Care Hospitals (Mira Road) situated at Survey No. 26- Hissa No. 4, Survey No. 27- Hissa No. 5 and Survey No. 24- Hissa No. 3 at Village Goddeo, Bhayandar, Taluka Thane, Maharashtra, under an operation cum management contract with the owner of the hospital. The operation cum management contract is for a period of 9 (Nine) years which commenced on January 18, 2018, subject to such conditions as agreed between the parties and as stated in the operation cum management contract. This contract may be terminated with notice at the discretion of either party. Accordingly, these relationships may not continue for the full term of the contract or may not be renewed, and the owner of the hospital may terminate its relationship with us, including after we have made improvements at the hospital. For example, our earlier operation cum management contract for Family Care Hospital in Mahim, Mumbai was terminated by the owner of the hospital.

The loss of the contract or the renewal of the contract on unfavorable terms could adversely impact our business. Further, if a dispute occurs between us and the owner of the hospital or the owner encounters financial difficulties, we may not receive the deposit or costs borne by us in relation to the operation and management of the hospital.

3. ***We are highly dependent on our doctors, nurses and other healthcare professionals, as well as other key personnel and the loss of, or inability to attract or retain, such persons could adversely affect our business and results of operations.***

Our operation depends upon the commitment of the consultants towards the hospital, their ability, effort and experience of our doctors and healthcare professionals. Our doctors are not associated with us exclusively and allowed to practice and work with other hospitals which are competing with us.

Factors that healthcare professionals consider important before deciding where they will work include emoluments and incentives, reputation of the healthcare establishment, quality of the facilities, and a sufficient number of patients and surgeries made available to them. We seek to attract healthcare professionals who are well-known personalities in their fields and regions with large patient bases and referral networks, and it may be difficult to negotiate favourable terms and arrangements with these professionals. We typically agree to pay our physicians a professional fee based on the services they provide. Depending on market conditions and scarcity of the trained professionals, we may have to increase the fees and salaries (as applicable) paid to our healthcare professionals and consultants, and there would be no assurance that we will be able to control such expenses completely as planned. If we are unable to make payments to these consultants or other healthcare professionals on time, or if our relationship with them deteriorates, or these professionals receive better opportunities with other healthcare service providers, we may be unable to retain them.

Failure to attract and retain such qualified healthcare professionals for our hospitals could adversely affect our business, financial condition, results of operations, cash flows and prospects. Certain patients choose our hospitals because of the reputation of some of our Individual doctors. If we fail to retain those key doctors, we may not be able to attract such patients, which may have and verse impact on the patient volume and our profitability.

There is no assurance that our consultant doctors will continue to provide services to us or devote their full time to our hospitals. We may, as a result, be unable to effectively utilize their time and expertise in providing services to our patients. These arrangements may also give rise to conflicts of interest, including with regard to how these doctors allocate their time and other resources between our hospitals and other clinics or hospitals at which they work and where doctors refer patients. Such conflicts may prevent us from providing a high quality of service at our hospitals and adversely affect the level of our patient intake which may have an impact on our business, results of operations and cash flows.

As a multi-specialty hospital operator, we must attract and retain qualified healthcare professionals in a wide range of specialty areas, and there may be fewer qualified professionals and competition for these individuals in a particular specialty area at the time when our staffing needs arise.

We may also be required to incur increased costs to retain and recruit medical personnel, which may have a material adverse effect on our business, financial condition, results of operations, cash flows and prospects.

4. ***We require several licenses and approvals for our business and operations, which may be subject to periodic renewal and review. Failure to obtain them in a timely manner or at all may adversely affect our operations.***

We require certain approvals, licenses, registrations and permissions to operate our business, some of which have expired and for which we have either made or are in the process of making an application for obtaining the approval or renewing such licenses, registrations and permissions. For further details, see the section titled ***“GOVERNMENT AND OTHER APPROVALS”*** beginning on page 171 of this Draft Letter of Offer. If we fail to obtain any of these approvals or licenses, or renewals thereof, in a timely manner, or at all, our business may be adversely affected.

5. ***We have certain contingent liabilities that have not been provided for in our financial statements, which if they materialise, may adversely affect our financial condition.***

We are involved in disputes, lawsuits, claims, inquiries and proceedings including commercial matters that arise from time to time in the ordinary course of business. For details of the outstanding litigation please see section titled “**OUTSTANDING LITIGATION AND MATERIAL DEVELOPMENTS**” and for the details of Contingent Liability please see section titled “**Restated Financial Statement – Note 21**” on page 158 and 113, respectively of this Draft Letter of Offer. If a significant portion of our contingent liabilities materialize, it could adversely affect our results for operations, financial condition and cash flows.

6. ***We have unsecured loans from related parties and other lenders, which are repayable on demand. Any demand from lenders for repayment of such unsecured loans, may adversely affect our business operations.***

As per our Restated Financial Statements, as on March 31, 2022 we have unsecured loan of ₹ 54.91 lakhs from related parties and others which is repayable on demand. Any demand from lenders for repayment of such unsecured loans, may adversely affect our liquidity and business operations. For further details of these unsecured loans, please see the section titled “**Restated Financial Statements**” beginning on page 113 of this Draft Letter of Offer.

7. ***We are yet to obtain consents/ no objection certificate from certain lenders of our Company for the Issue.***

Our Company has entered into agreements for borrowings with certain lenders. These agreements include certain restrictive covenants regarding inspection of books of accounts of the Company, which mandate certain restrictions in terms of our business operations which inter-alia include change in capital structure (including this present proposed Issue), repaying secured loan and unsecured loans, undertake guarantee obligations, which shall require our Company to obtain prior approval. In accordance with the terms of the loan agreements, our Company had applied to 2 (02) lenders for obtaining their consents/ non-objection certificates for undertaking this Issue, however, as of date of this Draft Letter of Offer, our Company has not received no-objection certificates from both (02) lenders. We have vide mails dated August 01, 2022, requested to provide us with their consent/no objection certificate to undertake the Issue, however, as of date of this Draft Letter of Offer, we have not received any response from these lenders. Undertaking the Issue without obtaining consents/no objection certificates from the aforementioned lenders may constitute a breach of covenant under the relevant financing documents, which could entitle the respective lenders to consider this Issue as an event of default under the loan agreements, thereby entitling them to take adverse actions against our Company as per their respective agreements. The occurrence of any of the events mentioned above can adversely affect our business, results of operations and financial condition.

8. ***Our Audit Report for FY 2022 includes following remarks as “Emphasis of Matter”.***

Our Auditor’s report for the FY 2022 contains certain observations as “Emphasis of Matter”. The observations as per Audit Report is mentioned below:

a) Attention is invited to Note No. 19 of Financial Statement the fact that in the accompanying statement of financial results relating to Statutory Dues related to Provident Fund Rs. 10.14 lakhs, GST Rs. 43.67 lakhs and Profession Tax Rs. 2.67 lakhs and TDS amounting to Rs. 81.49 lakhs have become overdue and remained unpaid. Interest, penalty, if any in respect of the same has remained unascertained and unaccounted for.

b) IND AS 115 requires Income to be recognised as and when the performance obligation is satisfied. However, the Company has a policy of recognizing Income on receipt basis. Income is booked as and when the patient (client) makes the payment. The amount cannot be quantified in absence of proper details.

c) An eviction suite is filed against the Company due to non-payment of lease rent in respect of the Mahim Division. As per Order dated 27th September, 2021 of the Small Causes Court Mumbai has directed the Company to deposit arrears of rent. The total amount under the said order approximately

accumulated to Rs 386 lakhs. However, the Company has preferred an appeal against the aforesaid order. Pending the outcome, no provision for the said amount has been made.

The opinion of our auditor is not modified in respect of aforesaid matters.

9. ***Our Company doesn't own the premises where its imaging centers and registered office are situated, and lease/leave & license agreement have been executed for the same. Any termination or dispute in relation to this lease/ rental agreement may have an adverse effect on our business operations and results thereof.***

All our imaging centers are located on premises that are not owned by us. Further, our registered office is located on premises that are leased by our Company. In relation to our imaging centers, while we are typically provided the premises on which we conduct our operations, there is no assurance that such arrangements will continue to be made. In case we are required to enter into lease and leave and license agreements for a substantial portion of our operations in the future, in the event of any deficiency in the title of the owners from whose premises we operate, breach of the contractual terms of any lease, leave and license agreements, or if any of the owners of these premises do not renew the agreements under which we occupy the premises, or if they seek to renew such agreements on terms and conditions unfavorable to us, or if they terminate our agreements, we may suffer a disruption in our operations and will have to look for alternate premises. We may be unable to relocate our diagnostic centers and our registered office in a timely manner or at acceptable terms, which may adversely affect our business, results of operations and financial condition.

10. ***The Accreditations received by the Company is the assurance of the standard and protocols followed by the Company. If we fail to maintain the accreditations or fail to renew accreditations, it will affect our reputation, business, operation and profitability of the Company.***

Our hospital, is accredited by the NABH (National Accreditation Board for Hospitals and Health care Providers). The accreditation of the hospital means the standard followed by the hospital for the care of patients (COP), Management of Medications (MOM) and Access, Assessment and Continuity of Care (AAC). If we fail to adhere the guidelines prescribed by the NABH for continuance of the accreditation and the accreditations are suspended or withdrawn then our reputation, business, operations and profitability will affect adversely, we may lose the patients and doctors who are working with us.

11. ***If we are unable to identify expansion opportunities or we experience delays or other problems in implementing such projects, our growth, financial condition and results of operations may be adversely affected.***

We presently operate one hospital under the brand "Family Care" situated at Mira Road, Thane, Maharashtra. Our growth depends on our ability to acquire and manage additional hospitals. We are continuously evaluating projects for operation and management including acquisition opportunities, some of which we may realize in the imminent future. The number of attractive expansion opportunities may be limited, and may command high valuations. We may be unable to secure the necessary financing to implement expansion plans. If we are unable to expand or grow our operations, our business will be limited to the existing hospital through which we operate and also would result limiting our growth options and ability to increase or sustain the business value and volumes significantly.

12. ***We have experienced negative cash flows in previous years / periods. Any operating losses or negative cash flow in the future could adversely affect our results of operations and financial condition.***

(₹ in Lakhs)

Particulars	FY 2021-22	FY 2020-21	FY 2019-20
Net Cash Generated from Operating Activities	158.73	390.27	36.74

Cash flow of a Company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and to make new investments without raising finance from external resources. Any operating losses or negative cash flows could adversely affect our results

of operations and financial conditions. If we are not able to generate sufficient cash flows, it may adversely affect our business and financial operations. For further details please see the section titled “*Restated Financial Statements*” beginning on page 113 of this Draft Letter of Offer.

- 13. *As the securities of our Company are listed on Stock Exchange in India, our Company is subject to certain obligations and reporting requirements under the SEBI Listing Regulations. Such non-compliance / lapses may or may not attract penalties in the future. Our Company is required to make filings under various rules and regulations as applicable under the Companies Act, 2013, some of which have not been done within the stipulated time period.

Some of the discrepancies including but not limited to consists of:

- Lucy Massey was appointed as Additional Director of the Company in the Board meeting held on 08.11.2021 to hold office upto the date of Annual General Meeting and her appointment was not regularized in the Annual General Meeting held on 30.11.2021. - During the Fiscal year 2019-20, the Company has received show cause notice no. 17/1/2018/IEPFA/INSP1/206(4)/SCN/1F4NF/WR/MUM/10 dated November 19, 2019 from IEPF Authority, MCA for non-transfer of shares to IEPF.

We cannot assure you that these filings and errors will not be subject to any penalties imposed by the relevant authority in this respect.

- 15. *Our Promoter/Promoter Group has made delayed compliances as required under the SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 2011. Such noncompliance/ lapses may attract penalties.***

Gautam Deshpande, being the promoter of our Company had in the past gifted 16,89,301 Equity Shares constituting 5.26% of the total paid-up share capital of the Company to his spouse i.e Sowmya Deshpande. The acquirer has inadvertently failed to make timely disclosures required as per Regulation 10 of the SEBI SAST Regulations. However, the requisite disclosures have now been submitted. There

have been instances in past where erroneous disclosures has been filed with the Stock Exchange. We cannot assure you that these delayed compliances will not be subject to any penalties imposed by the relevant authority in this respect and would affect the promoter and promoter group and/or the Company as the case may be.

- 16. *We face intense competition from other healthcare service providers. If we are unable to compete effectively, our business, results of operations and cash flows may be materially and adversely affected.***

We operate in a competitive environment. We compete with hospitals, clinics, diagnostic chains, imaging centers and dispensaries of varying sizes with different specialties. We compete on the basis of factors such as our specialty and other service offerings, quality and selection of healthcare professionals, affordability, quality of care, technology, quality of facilities, patient satisfaction, brand and reputation. Our pharmacies in our hospitals compete on factors such as price and product offerings. Some of our multi-specialty competitors offer services that we do not offer. Some of our competitors are owned or operated by governmental bodies or by private not-for-profit entities supported by endowments and charitable contributions, which can finance capital expenditures without incurring significant tax obligations. We may also face competition from new market entrants, healthcare companies which may enter the Indian market in the future.

- 17. *We have entered into certain transactions with related parties. These transactions or any future transactions with our related parties could potentially involve conflicts of interest.***

We have entered into certain transactions with related parties with our Promoter, Directors, their relatives, Group Entities and may continue to do so in future. Our Company has entered into such transactions due to easy proximity and quick execution. However, there is no assurance that we could not have obtained better and more favorable terms than from transaction with related parties. Additionally, our Company believe that all our related party transactions have been conducted on an arm's length basis, but we cannot provide assurance that we could have achieved more favorable terms had such transactions been entered with third parties. Our Company may enter into such transactions in future also and we cannot assure that in such events there would be no adverse effect on results of our operations, although all related party transactions that we may enter will be subject to board or shareholder approval, as under the Companies Act, 2013 and the Listing Regulations. For details of transactions, please refer to "*Related Party Transactions*" as stated under the section titled "*Restated Financial Statements*" beginning on page on page 113 of this Draft Letter of Offer.

- 18. *We may generate revenue from the arrangements with government sponsored health schemes, any adverse change in these regulations/government policies related to such schemes may adversely affect our business, results of operations, cash flows and prospects.***

We provide medical services under various government schemes and directives viz Mahatma Jyotiba Phule Jan Arogya Yojana (MJPJAY), Ayushman Bharat Pradhan Mantri Jan Arogya Yojana and Dedicated Covid Healthcare Centre Government schemes are an important source of new patient registrations and revenue for us. Also, pricing for the same are determined as per government statutes. As a result, if the applicable tariffs specified in the agreements with government payers are revised downwards, or if the extent of coverage or limits are reduced, or if the payment terms are made longer, or if the reimbursement policies are changed in the agreements with the government payers, or if the government payers terminate their agreements with us, or if payments get delayed, or if unilateral decisions are announced by the government, our number of new patient registrations will decline, treatment profitability will decline, working capital requirements will rise, and our revenue and profitability could be negatively affected.

- 19. *Our insurance coverage may not adequately protect us against certain operating hazards and this may have an adverse effect on our business. Further, our insurance premia may increase and any significant deterioration in our claims experience, may result in insurance not being available to us on acceptable terms.***

Our existing insurance may not be sufficient to cover all damages, whether foreseeable or not. As a result, any successful claims against us in excess of the insurance coverage may adversely affect our

business, reputation, financial condition, results of operations, cash flows and prospects. Insurance against losses of this type can be expensive and insurance premiums may increase in the near future. Insurance rates may also vary by specialty and other factors. The rising costs of insurance premiums could have a material adverse effect on our financial position and results of operations.

However, we cannot assure you that any claim under the insurance policies maintained by us will be honoured fully, in part or on time, or that we have obtained sufficient insurance to cover all our losses. In addition, our insurance coverage expires from time to time. We apply for the renewal of our insurance coverage in the normal course of our business, and while we have no reason to believe that we will not be able to renew our existing insurance coverage as and when such policies expire, or obtain comparable coverage from similar institutions as may be necessary or appropriate to conduct our businesses as now conducted, we cannot assure you that such renewals will be granted in a timely manner, or at acceptable cost, or at all. To the extent that we suffer loss or damage, or successful assertion of one or more large claims against us for events for which we are not insured, or for which we did not obtain or maintain insurance, or which is not covered in full or part by insurance, exceeds our insurance coverage or where our insurance claims are rejected, the loss would have to be borne by us and our results of operations, financial condition and cash flows could be adversely affected.

Further as on date, our Company does not have D&O insurance.

20. *We rely on third parties for certain aspects of our operations, and any deficiency in services provided by them could adversely affect our business and reputation.*

We rely on third parties for certain aspects of our operations including but not limited to business coordinators, patient referencing from local medical practitioners and reporting doctor consultants. We cannot assure you that there will be no disruptions in the provision of such services or that these third-parties will adhere to their contractual obligations. If there is a disruption in the third-party services, or breach of contractual obligations, or if the third-party service providers discontinue their service agreements with us, or change their priority to serve patients to us, our business could be adversely affected and may result in litigation or other costs. Such additional costs, in addition to the cost of entering into agreements with third-parties in the same industry, may adversely affect our business, results of operations and financial condition. If any third-party service provider terminates its contractual arrangement with our Company, we cannot assure you that we will be able to replace it with other third party service provider in a timely manner and at acceptable terms, or at all.

We cannot assure you that the performance of such third-parties will meet our required specifications or performance parameters and cannot be decisively integrated into our business operations. Our third-party service providers are contractually obligated to provide their service in accordance with the requirements and standards set forth in our contractual arrangements with them, however, we have limited control over such third parties and we may be subject to liability in case of their non-compliance with their contractual obligations. A failure by such third parties to perform their obligations as stipulated or as being indicated at all may result in us not being able to effectively provide our services and adversely affect our business, financial condition and results of operations.

21. *If we are unable to keep abreast with technological changes, new equipment and service introductions, changes in patients' needs and evolving industry standards, our business and financial condition may be adversely affected. Further, we will also incur costs associated with replacing obsolete equipment.*

The health care industry involves new developments due to continuous research and up gradation of medical equipment's, patients need for the upgraded instruments and equipment's needed to cater treatment, substantial changes in treatment methodologies, and changes in Indian government medical treatment guidelines. One of the factors for the medical expert consultants and doctors to be retained with the Hospital is providing them the latest available medical instruments. Changes may require fresh investment into equipment and technology and also increased maintenance and service costs. Our success depends on our ability to anticipate industry trends and identify, develop and market new value-added services that meet patient demands, to continually enhance our equipment and technologies in a timely and cost-effective manner. The change in the industry standard require us to upgrade internal

process and procedures and new equipment and technologies. The changes require deployment of additional finance and if we are not able to arrange the finance in a timely manner and any delays in procuring the latest equipment's, will affect our business, financial conditions and operation of the hospital and imaging centers.

22. *Delay in receipt of payment from our patients / customers may affect our cash flows, which may, in turn affect our financial condition and results of operations.*

Our patients either pay for their medical expenses by themselves, or through third party payers or through some other credit arrangements. Such third-party payers include central, state and local government bodies, private and public insurers, third party insurance service administrators and corporate entities that pay for medical expenses of their employees. Agreements with third party payers typically specify the services covered, the approved tariffs for each of the services and the terms of payment. Our revenue received through such third-party payers constitutes a key component of our total revenue from operations. We are dependent on the timely payment of outstanding dues by such third-party payers and we suffer from recurring time lapses in recovering our fees and costs incurred from such third-party payers. Some patients who may pay the hospital fees in various instalments, in such case of partial payments we may not be able to collect their remaining payments/instalments in a timely manner or not at all. Delays, cancellations of prior committed payments, changed policies and outlooks of such associates or stopping of cashless facilities also adversely affect the flow of patients and reduces the overall business prospects of our Company.

23. *Failure to establish and comply with appropriate quality standards when performing imaging, testing and diagnostics services, medical care and support could result in litigation and liability for us and could materially and adversely affect its reputation and results of operations.*

The imaging services that we offer in our imaging centers and diagnostics tests performed in our hospital, are intended to supply healthcare professionals with information to help them establish or support diagnoses and prescribe medication and treatment for patient care. Inaccuracies or negligence in performing the testing and imaging services, for example through the misreading of test results, overdose of drugs, the contamination of samples or errors caused by testing equipment, could lead to incorrect diagnoses by doctors, adverse reactions by patients to the substances used in diagnostic testing, prescriptions of inappropriate treatment or decisions by doctors and other healthcare professionals not to prescribe treatment when treatment is required. Any of these may lead to illness, harm, death or other adverse effects or liabilities, which could in turn subject us to malpractice claims from patients. Further, we are also generally exposed to liabilities relating to its employees' contact with hazardous samples and waste.

Claims and litigation or any negative publicity against us by either patients or employees or other stakeholders may result in liability for the harm or other adverse effects caused. Payments related to such liabilities may adversely affect our financial position and results of operations. The process of defending such cases, including the malpractice claims discussed above, even when we may be successful in their defense, is costly, could distract management from executing our strategy and could result in substantial damage to our Company's reputation in the medical community and adverse publicity leading to substantial damage to our reputation in the general public, each of which could materially and adversely affect our business. To the extent we are held liable for negligence, it could have a material adverse effect on our business, results of operations, financial condition and prospects.

24. *We are exposed to legal claims and regulatory actions arising from the provision of healthcare services and may be subject to liabilities arising from claims of malpractice and medical negligence which could materially and adversely affect our reputation and prospects.*

We are exposed to the risk of medico-legal claims, legal claims and regulatory actions or otherwise arising out of the medical services provided by us. From time to time, we may be subject to claims alleging, among other things, medical negligence by our healthcare professionals and product liability for medical devices we use, pharmaceuticals we dispense and medical and pharmaceutical products we sell in our pharmacy. We could also be the subject of complaints from patients who are dissatisfied with the quality and cost of healthcare services. We may from time to time receive complaints from, or be

involved in, disputes with our clients and patients with regard to misdiagnosis and other acts of medical negligence. The occurrence of false positive or false negative checkup results, misdiagnosis and other acts of medical negligence is a unique risk of the healthcare service industry caused by uncertainties during the medical examination service process. They can be attributed to various factors, such as the negligence of medical personnel, failure of medical equipment, inaccurate results of medical tests conducted by outsourced laboratories, individual patient-specific conditions and disease complications.

We rely on our healthcare professionals to make proper diagnoses, administer proper treatment and make other clinical decisions. However, we do not have direct control over the clinical activities of our healthcare professionals, as their diagnoses and treatments of patients are subject to their professional judgment, and in most cases, must be performed on a real time basis.

- 25. *If we fail to achieve favorable pricing on medical consumables, pharmacy items, drugs, and surgical instruments from our suppliers or are unable to pass on any cost increases to our payers, and other adverse regulatory changes in the healthcare industry our profitability could be materially and adversely affected.***

Our profitability is affected by our ability to achieve favorable pricing on our medical consumables, pharmacy items and medical equipment from our suppliers, including through negotiations for supplier rebates. Because these supplier negotiations are continuous and reflect the ongoing competitive environment, the variability in timing and amount of incremental supplier discounts and rebates can affect our profitability. These supplier programs may change periodically, potentially resulting in higher cost of surgical instruments, drugs and consumables. Further, such pricing constraints can impair our continued profitability and financial condition in general. If we are unable to adopt alternative means to deliver value to our patients, our revenue and profitability may be materially and adversely affected.

- 26. *Employee misconduct or failure of our internal processes or procedures could harm us by impairing our ability to attract and retain patients and subject us to significant legal liability and reputational harm.***

Our business is exposed to the risk of employee misconduct or the failure of our internal processes and procedures. Our business operations involve significant interaction with patients. Misconduct by employees could involve the improper use or disclosure of confidential information, integrity in execution of assigned tasks, competency in executing responsibilities as per standard protocols or instructions, which could result in costly litigation and serious reputational or financial harm. While we strive to monitor, detect and prevent fraud or misappropriation by our employees, through various internal control measures and insurance coverage, we may be unable to adequately prevent or deter such activities in all cases. While we have been able to identify such issues in the past, there could be instances of fraud and misconduct by our employees, which may go unnoticed for certain periods of time before corrective action is taken. In addition, we may be subject to regulatory or other proceedings in connection with any such unauthorized transaction, fraud or misappropriation by our employees, which could adversely affect our goodwill, business prospects and future financial performance. Even when we identify instances of fraud and other misconduct and pursue legal recourse or file claims with our insurance carriers, we cannot assure you that we will recover any amounts lost through such fraud or other misconduct.

- 27. *We are dependent on a number of Key Management Personnel, including our senior management, and the loss of or our inability to attract or retain such persons could adversely affect our business, results of operations and financial condition.***

We depend on our Promoter, Key Managerial Personnel to maintain strategic direction, manage the operations and meet the business challenges that may arise in future related to the business. The loss of, or inability to attract or retain, such persons could materially and adversely affect our business and financial results. Our Promoter, Key Managerial Personnel and Senior Management have been integral part of our Company for the development of the business. We may also be required to increase our levels of employee compensation more rapidly than in the past to remain competitive in attracting skilled employees that our business requires. If we are unable to hire and train replacement personnel in a timely

manner or increase our levels of employee compensation to remain competitive, our business, financial results, results of operations and cash flows may be materially and adversely affected.

28. *If we are unable to establish and maintain an effective internal control, our business and reputation could be adversely affected.*

We are responsible for establishing and maintaining adequate internal measures commensurate with the size and complexity of operations. Our internal audit functions make an evaluation of the adequacy and effectiveness of internal systems on an ongoing basis to ensure our operations adhere to our policies, compliance requirements and internal guidelines. We periodically test and update our internal processes and systems and there have been no past material instances of failure to maintain effective internal controls and compliance system. However, we are exposed to operational risks arising from the potential inadequacy or failure of internal processes or systems, and our actions may not be sufficient to ensure effective internal checks and balances in all circumstances. We take reasonable steps to maintain appropriate procedures for compliance and disclosure and to maintain effective internal controls over our financial reporting so that we produce reliable financial reports and prevent financial fraud.

29. *The occurrence of various man-made and natural disasters at facility center are susceptible to risks and could adversely affect our results of operations and financial conditions.*

We store, handle and use certain chemicals, such as alcohol, sanitizers, gases, radioactive materials, fuel and other inflammable materials at our hospital. Healthcare facilities are subject to risks associated with fires, power failures, telecommunications failure and other events. Such events could materially impact our business in the future. Furthermore, any short circuit of power supply for our equipment and machines including air conditioning plants could result in accidents and fires that could result in injury or death to our employees, our patients, and other persons present at our hospital. Natural disasters such as cyclones, storms, floods, earthquakes, tornadoes, fires, explosions, pandemics and man-made disasters such as terrorism, political tensions, civil unrests and other acts of violence and wars like situations in India could adversely affect our business, financial condition and results of operations.

30. *Our business and operations would suffer in the event of computer system failures, cyber-attacks or deficiencies in our cyber-security.*

Our information technology systems, software and networks may be vulnerable to unauthorized access, computer viruses or other malicious code and other events that could compromise data integrity and security and result in identity theft, for which we could potentially be liable. We are responsible for protecting the personal, sensitive information about our patients collected and stored by us from privacy breaches. However, a privacy breach may occur through procedural or process failure, information technology malfunction, or deliberate unauthorized intrusions. Theft of data for competitive purposes, particularly patient lists and preferences, is an ongoing risk whether perpetrated via employee collusion or negligence or through deliberate cyber-attack. Despite the implementation of security measures, our internal computer systems, and those of third parties on which we rely, are vulnerable to damage from, among others, computer viruses, malware, natural disasters, terrorism, war, telecommunication and electrical failures, cyber-attacks or cyber-intrusions over the Internet, attachments to emails, persons inside our organization, or persons with access to systems inside our organization or similar disruptive problems. The risk of a security breach or disruption, particularly through cyber-attacks or cyber intrusion, including by computer hackers, foreign governments, and cyber terrorists, has generally increased as the number, intensity and sophistication of attempted attacks and intrusions from around the world have increased. If such an event were to occur and cause interruptions in our operations, it could result in a material disruption of our product development programs. Any such security breach may compromise information stored on our networks and may result in significant data losses or theft of personally identifiable information. A cybersecurity breach could also hurt our reputation by adversely affecting the patients' perception of the security of their information. In addition, a cybersecurity attack could result in other negative consequences, including disruption of our internal operations, increased cyber security protection costs, lost revenue, regulatory actions or litigations.

31. *Our business may be adversely affected by adverse news, scandals or other incidents associated with the Indian pharmaceutical industry*

Incidents that reflect doubt as to the quality or safety of pharmaceutical products sold by other participants in the Indian pharmaceutical industry, including by our competitors, have been, and may continue to be, subject to widespread media attention. For example, in the past, there have been negative publicity relating to proposed and bans on online pharmacies in certain markets. Industry bodies have also lobbied against and issued warnings to online pharmacies, and have complained to drugs controllers and other authorities. Such incidents may damage the reputation of not only the parties involved, but also the pharmaceutical industry in general, even if such parties or incidents have no relation to us, our management, our employees or our suppliers. Any such negative publicity may indirectly and adversely affect our reputation and business operations.

32. *Any downtime for maintenance and repair of our medical equipment could lead to business interruptions that could be expensive and harmful to our reputation and to our business.*

Our equipment, including operation theatres, require constant maintenance, including cleaning, sanitizing and overhaul. Maintenance work on most equipment can be performed only by the manufacturer or a designated or third-party service provider and involves significant downtime to complete maintenance. At times, maintenance of some equipment cannot be performed at our hospitals, and may have to be moved to the location of the manufacturer or service provider, adding to the downtime. Our equipment is subject to normal wear and tear and will be in need of repairs from time to time. Some repairs may be routine in nature, involving lower downtime, and some repairs may require replacement of parts of the equipment, which may be time consuming. During such times, we may not be able to put the equipment to use. We may, as a result, suffer losses by reason of not being able to use such equipment.

33. *We have not independently verified certain data in this Draft Letter of Offer.*

We have not independently verified data from the industry and related data contained in this Draft Letter of Offer and although we believe the sources mentioned in the report to be reliable, we cannot assure you that they are complete or reliable. Such data may also be produced on a different basis from comparable information compiled with regards to other countries. Therefore, discussions of matters relating to India, its economy or the industries in which we operate that is included herein are subject to the caveat that the statistical and other data upon which such discussions are based have not been verified by us and may be incomplete, inaccurate or unreliable. Due to incorrect or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, we cannot assure you that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

34. *The objects of the Offer have not been appraised by any bank or financial institution. Our funding requirements and proposed deployment of the Net Proceeds are based on management estimates and may be subject to change based on various factors, some of which are beyond our control. Any variation in the utilization of the Net Proceeds or in the terms of the conditions as disclosed in this Draft Letter of Offer would be subject to certain compliance requirements.*

Our funding requirements and deployment of the Net Proceeds are based on internal management estimates and current market conditions, and have not been appraised by any bank or financial institution or other independent agency. It is subject to change in light of changes in external circumstances, costs, other financial condition or business strategies. Furthermore, the deployment of the Net Proceeds is at our discretion. We operate in a highly competitive and dynamic industry and may need to revise our estimates from time to time based on changes in external circumstances or costs, or changes in other financial conditions, business or strategy. Any delay or inability in obtaining such Board/Shareholders' approval may adversely affect our business or operations.

35. *Our Promoter have diluted significant shareholding of our Company*

Our Promoter was holding 50.73% of the Equity Share capital of the Company as on March 31, 2022. Subsequently, our Promoter has diluted his shareholding in the Company and the present shareholding of the Promoter and members of the Promoter Group as on September 30, 2022 is 13.74%. Promoter and members of the Promoter Group may have certain implications, including but not limited to any restrictions in participating in this Issue. Our Promoter is currently in control of our Company, however,

we cannot assure that our Promoter would continue to be in control of the Company in the future. These could adversely affect the strategic and operational business risk and operations aspect of the Company including their commitment to the Company.

36. *The deployment of funds is entirely at our discretion and as per the details mentioned in the section titled “Objects of the Issue”*

As the Issue size is not more than ₹ 10,000 Lakhs, under Regulation 82 of the SEBI ICDR Regulations it is not required that a monitoring agency be appointed by our Company, for overseeing the deployment and utilisation of funds raised through this Issue. Therefore, the deployment of the funds towards the Objects of this Issue is entirely at the discretion of our Board of Directors and is not subject to monitoring by external independent agency. Our Board of Directors along with the Audit Committee will monitor the utilisation of Issue proceeds and shall have the flexibility in applying the proceeds of this Issue. However, the management of our Company shall not have the power to alter the objects of this Issue except with the approval of the Shareholders of the Company given by way of a special resolution in a general meeting, in the manner specified in Section 27 of the Companies Act, 2013. Additionally, the dissenting shareholders being those shareholders who have not agreed to the proposal to vary the objects of this Issue, our Promoter shall provide them with an opportunity to exit at such price, and in such manner and conditions as may be specified by the SEBI, in respect to the same. For further details, please see the section titled “*Objects of the Issue*” beginning on page 57 of this Draft Letter of Offer.

37. *Our future funds requirements, in the form of fresh issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.*

We may require additional capital from time to time, to service our operations and growth requirements, depending on our business needs. Any fresh issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuancemay be done on terms and conditions, which may not be favorable to the existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

38. *Our Company was incorporated in 1994 and it was acquired by existing promoter in the Financial Year 2012-13, therefore certain documents related to incorporation of our Company are not traceable. We cannot assure you that such documents will be available at all or any time in the future.*

Our Company is unable to trace certain Certificate of Incorporation and Certification of Incorporation subsequent to name change. While information in relation to change in the registered office of our Company has been disclosed in “*General Information*” and “*Our Business*” on page 46 and 81 based on statutory filings and data available with the Company, we may not be able to furnish any further information other than what is disclosed.

39. *Our Company does not have any documentary evidence for the experience and Income Tax Demand Screenshot of some of our Directors.*

Due to lack of documents and relevant information from some of the Directors, we have relied upon their bio-data provided to us as is required under the SEBI ICDR Regulations and therefore cannot verify if the bio-data/profiles of the Directors are correct and also, we have not received Income Tax Demand Screenshot from certain. For further details, please refer to the chapter titled “*Our Management*” beginning on page 102 of this Draft Letter of Offer.

EXTERNAL RISK FACTORS

40. *Slowdown in economic growth in India could cause our business to suffer.*

Our performance and growth are dependent on the health of the Indian economy. The economy could be adversely affected by various factors such as political or regulatory action, including adverse changes in liberalization policies, social disturbances, terrorist attacks and other acts of violence or war, natural calamities, interest rates, commodity and energy prices and various other factors. Any significant change may adversely affect our business and financials.

41. *Our business and activities may be regulated by the Competition Act, 2002.*

The Competition Act, 2002, as amended (the “Competition Act”), was enacted for the purpose of preventing practices having an adverse effect on competition in India and has mandated the Competition Commission of India (the “CCI”) to regulate such practices. Under the Competition Act, any arrangement, understanding or action, whether formal or informal, which causes or is likely to cause an appreciable adverse effect on competition in India is void and may result in substantial penalties. Any agreement among competitors which directly or indirectly determines purchase or sale prices, directly or indirectly results in bid rigging or collusive bidding, limits or controls production, supply, markets, technical development, investment or the provision of services, or shares the market or source of production or provision of services in any manner, including by way of allocation of geographical area or types of goods or services or number of customers in the relevant market or any other similar way, is presumed to have an appreciable adverse effect on competition in the relevant market in India and shall be void. The Competition Act also prohibits the abuse of dominant position by any enterprise. If it is demonstrated that any contravention committed by a Company took place with the consent or connivance or is attributable to any neglect on the part of, any director, manager, secretary or other officer of such Company, that person shall be guilty of the contravention and may be punished.

On March 4, 2011, the Government notified and brought into force the combination regulation (merger control) provisions under the Competition Act with effect from June 1, 2011. These provisions require acquisitions of shares, voting rights, assets or control or mergers or amalgamations that cross the prescribed asset and turnover based thresholds to be mandatorily notified to and pre-approved by the CCI. Additionally, on May 11, 2011, the CCI issued the Competition Commission of India (Procedure in regard to the transaction of business relating to combinations) Regulations 2011, as amended, which sets out the mechanism for implementation of the merger control regime in India. Consequently, all agreements entered into by us may fall within the purview of the Competition Act.

Further, the CCI has extraterritorial powers and can investigate any agreements, abusive conduct or combination occurring outside India if such agreement, conduct or combination has an appreciable adverse effect on competition in India. However, we cannot predict the impact of the provisions of the Competition Act on the agreements entered into by us at this stage. We are not currently party to any outstanding proceedings, nor have we received notice in relation to non-compliance with the Competition Act or the agreements entered into by us. However, if we are affected, directly or indirectly, by the application or interpretation of any provision of the Competition Act, or any enforcement proceedings initiated by the CCI, or any adverse publicity that may be generated due to scrutiny or prosecution by the CCI or if any prohibition or substantial penalties are levied under the Competition Act, it would adversely affect our business, financial condition, results of operations and cash flows.

42. *Financial instability in other countries may cause increased volatility in Indian and other financial markets.*

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the United States and elsewhere in the world in recent years has affected the Indian economy. Although one country can have an adverse effect on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any global financial instability, including further deterioration of credit conditions in the U.S. market, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our results of operations and financial condition.

The Indian economy is also influenced by economic and market conditions in other countries. This includes, but is not limited to, the conditions in the United States, Europe and certain economies in Asia. Financial turmoil in Asia and elsewhere in the world in recent years has affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and its business.

Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby impact the Indian economy. Financial disruptions in the future could adversely affect our business, prospects, financial condition and results of operations. The global credit and equity markets have experienced substantial dislocations, liquidity disruptions and market corrections.

These could include greater volatility of markets in general due to the increased uncertainty. These and other related events could have a significant impact on the global credit and financial markets as a whole, and could result in reduced liquidity, greater volatility, widening of credit spreads and a lack of price transparency in the global credit and financial markets. There are also concerns that a tightening of monetary policy in emerging markets and some developed markets will lead to a moderation in global growth. In response to such developments, legislators and financial regulators in the United States and other jurisdictions, including India, have implemented a number of policy measures designed to add stability to the financial markets. However, the overall long-term impact of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have had the intended stabilizing effects. Any significant financial disruption in the future could have an adverse effect on our cost of funding, loan portfolio, business, future financial performance and the trading price of the Equity Shares.

43. *The Companies Act, 2013 has effected significant changes to the existing Indian company law framework, which may subject us to higher compliance requirements and increase our compliance costs.*

A majority of the provisions and rules under the Companies Act, 2013 have recently been notified and have come into effect from the date of their respective notification, resulting in the corresponding provisions of the Companies Act, 1956 ceasing to have effect. The Companies Act, 2013 has brought into effect significant changes to the Indian company law framework, such as in the provisions related to issue of capital, disclosures in offer document, corporate governance norms, audit matters, related party transactions, introduction of a provision allowing the initiation of class action suits in India against companies by shareholders or depositors, a restriction on investment by an Indian company through more than two layers of subsidiary investment companies (subject to certain permitted exceptions), prohibitions on loans to directors and insider trading and restrictions on directors and key managerial personnel from engaging in forward dealing.

Further, companies meeting certain financial thresholds are also required to constitute a committee of the board of directors for corporate social responsibility activities and ensure that at least 2% of the average net profits of the Company during three immediately preceding financial years are utilized for corporate social responsibility activities. Penalties for non-compliance have been prescribed under the Companies Act, 2013, which may subject our Company, Directors, and key managerial employees to such penalties and formal actions as prescribed under the Companies Act, 2013, if we not be able to comply with the provisions of the New Companies Act within the prescribed timelines, and this could harm our reputation. To ensure compliance with the requirements of the Companies Act, 2013 within the prescribed timelines, we may need to allocate additional resources, which may increase our regulatory compliance costs and divert management attention. While we shall endeavour to comply with the prescribed framework and procedures, we may not be in a position to do so in a timely manner.

The Companies Act, 2013 introduced certain additional requirements which do not have corresponding equivalents under the Companies Act, 1956. Accordingly, we may face challenges in interpreting and complying with such provisions due to limited jurisprudence on them. In the event, our interpretation of such provisions of the Companies Act, 2013 differs from, or contradicts with, any judicial pronouncements or clarifications issued by the Government in the future, we may face regulatory actions or we may be required to undertake remedial steps. Additionally, some of the provisions of the Companies Act, 2013 overlap with other existing laws and regulations (such as the corporate governance norms and insider trading regulations). We may face difficulties in complying with any such overlapping requirements. Further, we cannot currently determine the impact of provisions of the Companies Act,

2013, which are yet to come in force. Any increase in our compliance requirements or in our compliance costs may have an adverse effect on our business and results of operations.

44. *Changes in technology may render our current technologies obsolete or require us to make substantial capital investments and failure to respond to technological advancements and emerging standards and practices on a cost-effective and a timely basis may affect our results of operations.*

Modernization and technology up gradation is essential to reduce costs and increase the output. Our technology may become obsolete or may not be upgraded timely, hampering our operations and financial conditions. We shall further continue to keep our technology updated. In case of availability of an updated technology in the industry, we may be required to implement new technology as failure to respond to technological advancements and emerging standards and practices on a cost-effective and a timely basis may affect our results of operation. Further, the cost in upgrading our technology may be significant which could substantially affect our finances and operations.

45. *Political, economic or other factors that are beyond our control may have an adverse effect on our business and results of operations.*

The Indian economy and its securities markets are influenced by economic developments and volatility in securities markets in other countries. Investors' reactions to developments in one country may have adverse effects on the market price of securities of companies located elsewhere, including India. Adverse economic developments, such as rising fiscal or trade deficit, in other emerging market countries may also affect investor confidence and cause increased volatility in Indian securities markets and indirectly affect the Indian economy in general. Any of these factors could depress economic activity and restrict our access to capital, which could have an adverse effect on our business, financial condition and results of operations and reduce the price of our Equity Shares. Any financial disruption could have an adverse effect on our business, future financial performance, shareholders' equity and the price of our Equity Shares.

We are dependent on domestic, regional and global economic and market conditions. Our performance, growth and market price of our Equity Shares are and will be dependent to a large extent on the health of the economy in which we operate. There have been periods of slowdown in the economic growth of India. Demand for our products may be adversely affected by an economic downturn in domestic, regional and global economies. Economic growth in the countries in which we operate is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports, global economic uncertainty and liquidity crisis, volatility in exchange currency rates, and annual rainfall which affects agricultural production. Consequently, any future slowdown in the Indian economy could harm our business, results of operations and financial condition. Also, a change in the government or a change in the economic and deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business in particular and high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins.

46. *Natural disasters, epidemics, pandemics, acts of war, terrorist attacks and other events could materially and adversely affect our business.*

Natural disasters (such as earthquakes, fire, typhoons, cyclones, hurricanes and floods), pandemics, epidemics, strikes, civil unrest, terrorist attacks and other events, which are beyond our control, may lead to global or regional economic instability, which may in turn materially and adversely affect our business, financial condition, cash flows and results of operations. Any of these occurrences could cause severe disruptions to our daily operations and may warrant a temporary closure of our facilities. Such closures may disrupt our business operations and adversely affect our results of operations. Our operation could also be disrupted if our customers or business partners are affected by such natural disasters or epidemics.

An outbreak or epidemic, such as SARS, the H1N1 and H5N1 viruses or COVID-19 could cause general consumption or the demand for various products to decline, which could result in reduced demand for our services. Such an outbreak or epidemic may significantly interrupt our business operations as health

or governmental authorities may impose quarantine and inspection measures on us or our contractors, or restrict the flow of cargo to and from areas affected by the outbreak or epidemic.

Furthermore, certain regions in India have witnessed terrorist attacks and civil disturbances and it is possible that future terrorist attacks or civil unrest, as well as other adverse social, economic and political events in India could have a negative effect on us. Transportation facilities, including vehicles, can be targets of terrorist attacks, which could lead to, among other things, increased insurance and security costs. Regional and global political or military tensions or conflicts, strained or altered foreign relations, protectionism and acts of war or the potential for war could also cause damage and disruption to our business, which could materially and adversely affect our business, financial condition, cash flows and results of operations. Such incidents could create the perception that investments in Indian companies involve a higher degree of risk and such perception could adversely affect our business and the price of the Equity Shares. We may also face difficulty in accessing certain parts of India at certain times of the year or under adverse or inclement weather conditions.

47. *Changing laws, rules and regulations and legal uncertainties in India and other countries may adversely affect our business and financial performance.*

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy. For example, the Government of India implemented a comprehensive national goods and services tax (“GST”) regime with effect from July 1, 2017, that combined multiple taxes and levies by the Central and State Governments into a unified tax structure. Our business and financial performance could be adversely affected by any unexpected or onerous requirements or regulations resulting from the introduction of any changes in laws or interpretation of existing laws, or the promulgation of new laws, rules and regulations relating to GST, as it is implemented. The Government has enacted the GAAR which have come into effect from April 1, 2017.

Further, the Government of India has announced the union budget for the Fiscal 2023, pursuant to which the Finance Bill, 2021 (“Finance Bill”) has introduced various amendments. The Finance Bill has received assent from the President of India on March 28, 2021, and has been enacted as the Finance Act, 2021 (“Finance Act”). There is no certainty on the impact that the Finance Act may have on our business and operations or on the industry in which we operate. We cannot predict whether any amendments made pursuant to the Finance Act would have a material adverse effect on our business, financial condition and results of operations. Unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals. For instance, the Supreme Court of India has, in a decision clarified the components of basic wages, which need to be considered by companies while making provident fund payments. Our Company has not made relevant provisions for the same, as on date. Any such decisions in future or any further changes in interpretation of laws may have an impact on our results of operations. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current businesses or restrict our ability to grow our businesses in the future.

48. *Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.*

Indian legal principles related to corporate procedures, directors’ fiduciary duties and liabilities, and shareholders’ rights may differ from those that would apply to a Company in another jurisdiction. Shareholders rights including in relation to class actions, under Indian law may not be as extensive as shareholders rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation in another jurisdiction. Further, our Company’s Articles of Association, composition of our Company’s Board, Indian laws governing our corporate affairs, the validity of corporate procedures, directors’

fiduciary duties, responsibilities and liabilities, and shareholders' rights may differ from those that would apply to a Company in another jurisdiction. Shareholders' rights under Indian law may not be as extensive and widespread as shareholders' rights under the laws of other countries or jurisdictions. Investors may face challenges in asserting their rights as a shareholder in an Indian Company than as a shareholder of an entity in another country or jurisdiction.

49. *Adverse geopolitical conditions such as increased tensions between India and China, could adversely affect our business, results of operations and financial condition.*

Adverse geopolitical conditions such as increased tensions between India and China resulting in any military conflict in the region could adversely affect our business and operations. Such events may lead to countries imposing restrictions on the import or export of products or raw materials, among others, and affect our ability to procure raw materials required for our manufacturing operations. We could also be affected by the introduction of import tariffs in India, or in the countries to which we export our products, or changes in trade agreements between countries.

50. *Any downgrading of India's debt rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India's credit ratings international debt by international rating agencies may adversely affect our ability to raise additional overseas financing and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our ability to fund our growth on favourable terms or at all, and consequently adversely affect our business and financial performance and the price of our Equity Shares.

51. *Our Company may be unable to protect its intellectual property, or if our Company infringes on the intellectual property rights of others, our business may be adversely affected.*

Our Company is currently using the logo  which is not owned or registered as a trade name or trademark by our Company and we have taken consent to use Scandent logo on right to use basis from Doctor Dental Services Limited under the provisions of the Trademarks Act, 1999. In case of their withdrawal of our rights to use, we may not be able to make use of such trademark or proprietary rights in connection with our business and consequently, we may be unable to capitalize on the brand recognition associated with our Company. The occurrence of any of such events can adversely affect our business, business reputation, results of operations and financial condition.

52. *Inflation in India could have an adverse effect on our profitability and if significant, on our financial condition.*

Inflation rates in India have been volatile in recent years, and such volatility may continue in the future. India has experienced high inflation in the recent past. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of salaries, and other expenses relevant to our business

53. *Conditions in the Indian securities market and stock exchanges may affect the price and liquidity of our Equity Shares.*

Indian stock exchanges, which are smaller and more volatile than stock markets in developed economies, have in the past, experienced problems which have affected the prices and liquidity of listed securities of Indian companies. These problems include temporary exchange closures to manage extreme market volatility, broker defaults, settlement delays and strikes by brokers. In addition, the governing bodies of the Indian stock exchanges have from time-to-time restricted securities from trading, limited price movements and restricted margin requirements. Further, disputes have occurred on occasion between listed companies and the Indian stock exchanges and other regulatory bodies that, in some cases, have had a negative effect on market sentiment. If similar problems occur in the future, the market price and liquidity of the Equity Shares could be adversely affected. Further, a closure of, or trading stoppage on, either of the Stock Exchanges could adversely affect the trading price of our Equity Shares.

- 54. *Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.***

The Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Renouncee(s) may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renouncee(s) prior to the Issue Closing Date. Further, in case the Rights Entitlements do not get credited in time, or in case of On Market Renunciation, such Renouncee will not be able to apply in the Issue with respect to such Rights Entitlements.

- 55. *SEBI has recently, by way of circulars dated January 22, 2020, May 6, 2020, July 24, 2020, January 19, 2021 and April 22, 2021, October 01, 2021 (SEBI Rights Issue Circular) streamlined the process of rights issues. You should follow the instructions carefully, as stated in such SEBI circulars, and in this Draft Letter of Offer.***

The concept of crediting Rights Entitlements into the demat accounts of the Eligible Equity Shareholders has recently been introduced by the SEBI. Accordingly, the process for such Rights Entitlements has been recently devised by capital market intermediaries. Eligible Equity Shareholders are encouraged to exercise caution, carefully follow the requirements as stated in the SEBI Rights Issue circulars and ensure completion of all necessary steps in relation to providing/updating their demat account details in a timely manner. Further, while in accordance with the SEBI Rights Issue Circulars, the credit of Rights Entitlements shall be made into the demat accounts of the Eligible Equity Shareholders as on the Record Date, such Eligible Equity Shareholders shall be participate in the Issue only in accordance with the applicable laws in their respective jurisdictions.

In accordance with Regulation 77A of the SEBI ICDR Regulations read with the SEBI Rights Issue Circulars, the credit of Rights Entitlements and Allotment of Equity Shares shall be made in dematerialized form only. Prior to the Issue Opening Date, our Company shall credit the Rights Entitlements to (i) the demat accounts of the Eligible Equity Shareholders holding the Equity Shares in dematerialised form; and (ii) a demat suspense escrow account opened by our Company, for the Eligible Equity Shareholders which would comprise Rights Entitlements relating to (a) Equity Shares held in the account of the IEPF authority; or (b) the demat accounts of the Eligible Equity Shareholder which are frozen or the Equity Shares which are lying in the unclaimed suspense account (including those pursuant to Regulation 39 of the SEBI Listing Regulations) or details of which are unavailable with our Company or with the Registrar on the Record Date; or (c) Equity Shares held by Eligible Equity Shareholders holding Equity Shares in physical form as on Record Date where details of demat accounts are not provided by Eligible Equity Shareholders to our Company or Registrar; or (d) credit of the Rights Entitlements returned/reversed/failed; or (e) the ownership of the Equity Shares currently under dispute, including any court proceedings, if any; or (f) non-institutional equity shareholders in the United States.

- 56. *We cannot guarantee that the Equity Shares issued under this Issue will be listed on the Stock Exchanges in a timely manner, if at all.***

In accordance with Indian law and practice, after our Board or committee passes the resolution to allot the Equity Shares but prior to crediting such Equity Shares into the Depository Participant accounts of the investors, we are required to apply to the Stock Exchanges for final approval for listing and trading of the Equity Shares. There could be a failure or delay in obtaining these approvals from the Stock Exchanges, which in turn could delay the listing of the Equity Shares on the Stock Exchanges. There can be no assurance that the Equity Shares allocated to you will be credited to your demat account, or that trading in the Equity Shares will commence within the specified time period, subjecting you to market risk for such period. Any failure or delay in obtaining these approvals would restrict your ability

to dispose of your Equity Shares. Further, historical trading prices, may not be indicative of the prices at which the Equity Shares will trade in the future.

57. *Any future issuance of Equity Shares by us or sales of our Equity Shares by any of our significant shareholders may adversely affect the trading price of our Equity Shares*

Any future issuance of our Equity Shares by us could dilute your shareholding. Any such future issuance of our Equity Shares or sales of our Equity Shares by any of our significant shareholders may also adversely affect the trading price of our Equity Shares and could impact our ability to raise capital through an offering of our securities. There can be no assurance that we will not issue further Equity Shares or that the shareholders will not dispose of, pledge or otherwise encumber their Equity Shares. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Equity Shares.

58. *Investors may be subject to Indian taxes arising out of capital gains on the sale of our Equity Shares.*

Under current Indian tax laws and regulations, capital gains arising from the sale of shares in an Indian Company are generally taxable in India. Previously, any gain realised on the sale of listed equity shares on or before March 31, 2018 on a stock exchange held for more than 12 months was not subject to long-term capital gains tax in India if securities transaction tax (“STT”) was paid on the sale transaction. However, the Finance Act, 2018, now seeks to tax on such long-term capital gains exceeding ₹ 100,000 arising from sale of equity shares on or after April 1, 2018, while continuing to exempt the unrealised capital gains earned up to January 31, 2018 on such Equity Shares. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which our Equity Shares are sold. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India. Capital gains arising from the sale of our Equity Shares will be exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India’s ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of our Equity Shares Rights Entitlements.

Further, the Finance Act, 2019, which has been notified with effect from April 1, 2019, stipulates the sale, transfer and issue of securities through exchanges, depositories or otherwise to be charged with stamp duty. The Finance Act has also clarified that, in the absence of a specific provision under an agreement, the liability to pay stamp duty in case of sale of securities through stock exchanges will be on the buyer, while in other cases of transfer for consideration through a depository, the onus will be on the transferor. The stamp duty for transfer of securities other than debentures, on a delivery basis is specified at 0.015% and on a non-delivery basis is specified at 0.003% of the consideration amount. These amendments have been notified on December 10, 2019; however, these amendments will come into effect from July 1, 2020. The Finance Act, 2020 has also provided a number of amendments to the direct and indirect tax regime, including, without limitation, a simplified alternate direct tax regime and that dividend distribution tax will not be payable in respect of dividends declared, distributed or paid by a domestic Company after March 31, 2020, and accordingly, such dividends would not be exempt in the hands of the shareholders, both resident as well as non-resident.

59. *Applicants to this Issue are not allowed to withdraw their Applications after the Issue Closing Date.*

In terms of the SEBI ICDR Regulations, Applicants in this Issue are not allowed to withdraw their Applications after the Issue Closing Date. The Allotment in this Issue and the credit of such Equity Shares to the Applicant’s demat account with its depository participant shall be completed within such period as prescribed under the applicable laws. There is no assurance, however, that material adverse changes in the international or national monetary, financial, political or economic conditions or other events in the nature of force majeure, material adverse changes in our business, results of operation, cash flows or financial condition, or other events affecting the Applicant’s decision to invest in the Equity Shares, would not arise between the Issue Closing Date and the date of Allotment in this Issue. Occurrence of any such events after the Issue Closing Date could also impact the market price of our

Equity Shares. The Applicants shall not have the right to withdraw their applications in the event of any such occurrence. We cannot assure you that the market price of the Equity Shares will not decline below the Issue Price. To the extent the market price for the Equity Shares declines below the Issue Price after the Issue Closing Date, the shareholder will be required to purchase Equity Shares at a price that will be higher than the actual market price for the Equity Shares at that time. Should that occur, the shareholder will suffer an immediate unrealized loss as a result. We may complete the Allotment even if such events may limit the Applicants' ability to sell our Equity Shares after this Issue or cause the trading price of our Equity Shares to decline.

60. *Overseas shareholders may not be able to participate in the Company's future rights offerings or certain other equity issues.*

If our Company offers or causes to be offered to holders of its Equity Shares rights to subscribe for additional Equity Shares or any right of any other nature, our Company will have discretion as to the procedure to be followed in making such rights available to holders of the Equity Shares or in disposing of such rights for the benefit of such holders and making the net proceeds available to such holders. For instance, our Company may not offer such rights to the holders of Equity Shares who have a registered address in the United States unless: (i) a registration statement is in effect, if a registration statement under the US Securities Act is required in order for the Company to offer such rights to holders and sell the securities represented by such rights; or (ii) the offering and sale of such rights or the underlying securities to such holders are exempt from registration under the provisions of the US Securities Act. Our Company has no obligation to prepare or file any registration statement. Accordingly, shareholders who have a registered address in the United States may be unable to participate in future rights offerings and may experience a dilution in their holdings as a result.

61. *The Issue Price of the Rights Equity Shares may not be indicative of the market price of the Equity Shares after the Issue.*

The Issue Price of the Rights Equity Shares will be determined by our Company in consultation with the Lead Manager. This price may not be indicative of the market price for the Equity Shares after the Issue. The market price of the Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. We cannot assure you that you will be able to resell your Equity Shares at or above the Issue Price. There can be no assurance that an active trading market for the Equity Shares will be sustained after this Issue, or that the price at which the Equity Shares have historically traded will correspond to the price at which the Equity Shares will trade in the market subsequent to this Issue.

62. *After the Issue, the price of the Equity Shares may be volatile.*

The Issue Price may not necessarily be indicative of the market price of the Equity Shares after the Issue is completed. The trading price of the Equity Shares may fluctuate after the Issue due to a variety of factors, including our results of operations and the performance of our business, competitive conditions, general economic, political and social factors, the performance of the Indian and global economy and significant developments in India's fiscal regime, volatility in the Indian and global securities market, performance of our competitors, the Indian financial services industry and the perception in the market about investments in the financial services industry, changes in the estimates of our performance or recommendations by financial analysts and announcements by us or others regarding contracts, acquisitions, strategic partnerships, joint ventures, or capital commitments. In addition, if the stock markets in general experience a loss of investor confidence, the trading price of the Equity Shares could decline for reasons unrelated to our business, financial condition, or results of operations. The trading price of the Equity Shares might also decline in reaction to events that affect other companies in our industry even if these events do not directly affect us. Further, the trading price of the Equity Shares have been volatile in the past.

63. *No market for the Rights Entitlements may develop and the price of the Rights Entitlements may be volatile.*

No assurance can be given that an active trading market for the Rights Entitlements will develop on the Stock Exchange during the Renunciation Period or that there will be sufficient liquidity in Rights

Entitlements trading during this period. The trading price of the Rights Entitlements will not only depend on supply and demand for the Rights Entitlements, which may be affected by factors unrelated to the trading in the Equity Shares, but also on the quoted price of the Equity Shares, amongst others.

Factors affecting the volatility of the price of the Equity Shares, as described herein, may magnify the volatility of the trading price of the Rights Entitlements, and a decline in the price of the Equity Shares will have an adverse effect on the trading price of the Rights Entitlements. Since the trading of the Rights Equity Shares will be on a separate segment compared to the Equity Shares on the floor of the Stock Exchanges, the trading of Rights Equity Shares may not track the trading of Equity Shares. The trading price of the Rights Entitlements may be subject to greater price fluctuations than that of the Equity Shares.

We will not distribute the Draft Letter of Offer, Letter of Offer, Abridged Letter of Offer, Application Form and Rights Entitlement Letter (the "Issue Materials") to overseas Shareholders who have not provided an address in India for service of documents. We will dispatch the Issue Materials to Shareholders who have provided an address in India for service of documents. We will not distribute the Issue Materials to addresses outside India on account of restrictions that apply to circulation of such materials in overseas jurisdictions. In the case that Eligible Equity Shareholders have provided their valid e-mail addresses, the Letter of Offer will be sent only to their valid e-mail address and in the case that such Eligible Equity Shareholders have not provided their e-mail address, then the Letter of Offer will be dispatched, on a reasonable effort basis, to the Indian addresses provided by them.

However, the Companies Act requires companies to serve documents at any address, which may be provided by the members as well as through e-mail. Presently, there is lack of clarity under the Companies Act and the rules made thereunder with respect to distribution of the Issue Materials in overseas jurisdictions where such distribution may be prohibited under the applicable laws of such jurisdictions. Therefore, we cannot assure you that the regulator or authorities would not adopt a different view with respect to compliance with the Companies Act and may subject us to fines or penalties.

64. *You may not receive the Equity Shares that you subscribe in the Issue until fifteen days after the date on which this Issue closes, which will subject you to market risk.*

The Equity Shares that you subscribe in the Issue may not be credited to your demat account with the depository participants until approximately 15 days from the Issue Closing Date. You can start trading such Equity Shares only after receipt of the listing and trading approval in respect thereof. There can be no assurance that the Equity Shares allocated to you will be credited to your demat account, or that trading in the Equity Shares will commence within the specified time period, subjecting you to market risk for such period.

65. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

As an Indian Company, we are subject to exchange controls that regulate borrowing in foreign currencies, including those specified under FEMA. Such regulatory restrictions limit our financing sources for our projects under development and hence could constrain our ability to obtain financing on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that the required approvals will be granted to us without onerous conditions, or at all. Limitations on foreign debt may adversely affect our business growth, results of operations and financial condition.

Further, under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

Additionally, the Indian government may impose foreign exchange restrictions in certain emergency situations, including situations where there are sudden fluctuations in interest rates or exchange rates, where the Indian government experiences extreme difficulty in stabilizing the balance of payments or where there are substantial disturbances in the financial and capital markets in India. These restrictions may require foreign investors to obtain the Indian government's approval before acquiring Indian securities or repatriating the interest or dividends from those securities or the proceeds from the sale of those securities. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

66. *Holders of Equity Shares could be restricted in their ability to exercise pre-emptive rights under Indian law and could thereby suffer future dilution of their ownership position.*

Under the Companies Act, any Company incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of shares to maintain their existing ownership percentages prior to the issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the shares voted on such resolution, unless our Company has obtained government approval to issue without such rights. However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without us filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights unless we make such a filing. We may elect not to file a registration statement in relation to pre-emptive rights otherwise available by Indian law to you. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, your proportional interests in us would be reduced.

67. *Any future issuance of Equity Shares, or convertible securities or other equity-linked securities by our Company may dilute your shareholding and any sale of Equity Shares by our Promoter or members of our Promoter Group may adversely affect the trading price of the Equity Shares.*

Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by our Company may dilute your shareholding in our Company; adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. We cannot assure you that we will not issue additional Equity Shares. The disposal of Equity Shares by any of our Promoter and Promoter Group, or the perception that such sales may occur may significantly affect the trading price of the Equity Shares. We cannot assure you that our Promoter and Promoter Group will not dispose of, pledge or encumber their Equity Shares in the future.

**To be finalised upon determination of Issue Price and updated in the Letter of Offer. The amount shall not exceed 25% of the Gross Proceeds.*

Given the dynamic nature of our business, we may have to revise our funding requirements and deployment on account of a variety of factors such as our financial condition, business strategy and external factors such as market conditions, competitive environment, interest or exchange rate fluctuations, taxes and duties, working capital margin and other external factors which may not be within the control of our management. This may entail rescheduling or revising the planned expenditure and funding requirements, including the expenditure for a particular purpose, at the discretion of our management. Subject to applicable law, if the actual utilisation towards Issue Expenses is lower than the proposed deployment, the balance will be used towards general corporate purposes to the extent that the total amount to be utilized towards general corporate purposes will not exceed 25% of the gross proceeds. In case of a shortfall in raising requisite capital from the Net Proceeds towards meeting the Objects, business considerations may require us to explore a range of options including utilising our internal accruals and seeking additional debt from existing and future lenders. We believe that such alternate arrangements would be available to fund any such shortfalls. To the extent our Company is unable to utilise any portion of the Net Proceeds towards the aforementioned objects, per the estimated scheduled of deployment specified above, our Company shall deploy the Net Proceeds in subsequent financial years towards the aforementioned objects.

The above fund requirements are based on our current business plan, internal management estimates and have not been appraised by any bank or financial institution. These are based on current conditions and are subject to revisions in light of changes in external circumstances or costs, or our financial condition, business or strategy. For further details of factors that may affect these estimates, see ***“Risk Factors - The objects of the Offer have not been appraised by any bank or financial institution. Our funding requirements and proposed deployment of the Net Proceeds are based on management estimates and may be subject to change based on various factors, some of which are beyond our control. Any variation in the utilization of the Net Proceeds or in the terms of the conditions as disclosed in this Draft Letter of Offer would be subject to certain compliance requirements.”*** beginning on page no. 22 of this Draft Letter of Offer

Details of the Objects of the Issue

1. Business Development, Sales, Branding and Marketing Expenses

In order to increase our patients base, we expect to incur substantial costs towards business development, sales, marketing and promotional expenses, building our doctors / consultant team and strengthening our technology platform to provide our consumers and hospitals with a seamless user interface and connectivity for our operations.

We will make substantial investments in marketing and promotional activities, especially for acquisition of consumers and creation & enhancement of our brand equity, through our marketing efforts as required for the above activities, which involve a combination of: (i) online channels, such as, digital brand and performance advertising campaigns, paid search engine marketing, and using other digital marketing tools; (ii) offline channels, such as, print, radio, television and mass-media campaigns; and (iii) targeted communication through continuous engagement on social media platforms and personalized messages/push notifications and other pertinent marketing and business development tools. We intend to continue our focus on marketing and promotional activities to reach out to new as well as existing consumers, strengthen our engagement with them as well as promote our brand.

Accordingly, we have entered into an agreement dated September 28, 2022, with Dealmoney Distribution and E-Marketing Private Limited, a group entity in connection with e-commerce lead generation and also other offline modules for the Company. The agreement contains the scope and responsibilities in which these business prospects/ leads will be generated. Such lead generation will help us in terms of growing our prospective consumer for family care services.

Our total marketing and business promotion expenses were ₹ 30.62 Lakhs, 14.76 Lakhs and 15.38 Lakhs as per our Restated Audited Financial Statement for the financial year ended March 31, 2022, March 31, 2021 and March 31, 2020, respectively and which constituted 0.87%, 0.50% and 1.16% of our total expenses for such periods, respectively. We intend to deploy an amount of upto ₹ 1000.00 Lakhs out of the Net Proceeds towards Marketing and Brand building exercises over the next two Fiscal Years.

Maintaining and improving our marketing strategies involve expenditures which may be disproportionate to the revenue generated and customer acquired. There is risk of increased cost of acquiring new consumers through marketing efforts due to increase in competition for digital traffic. If consumer conversion rates are not commensurate with our expenditure, our expenditure may be disproportionate to our returns on such marketing investments.

INTRODUCTION

Healthcare has become one of India's largest sectors, both in terms of revenue and employment. Healthcare comprises hospitals, medical devices, clinical trials, outsourcing, telemedicine, medical tourism, health insurance and medical equipment. The Indian healthcare sector is growing at a brisk pace due to its strengthening coverage, services and increasing expenditure by public as well private players.

India's healthcare delivery system is categorized into two major components public and private. The government, i.e. public healthcare system, comprises limited secondary and tertiary care institutions in key cities and focuses on providing basic healthcare facilities in the form of primary healthcare centers (PHCs) in rural areas. The private sector provides majority of secondary, tertiary, and quaternary care institutions with major concentration in metros and tier-I and tier-II cities.

India's competitive advantage lies in its large pool of well-trained medical professionals. India is also cost competitive compared to its peers in Asia and western countries. The cost of surgery in India is about one-tenth of that in the US or Western Europe. The low cost of medical services has resulted in a rise in the country's medical tourism, attracting patients from across the world. MARKETING AND SALES ARRANGEMENT

We use both traditional and digital methods of marketing. We also use local newspaper advertisement and local media channels to promote our services. We also take advantage of the social media platforms wherever makes business sense. We use multiple conventional and unconventional channels in a cost-effective manner to undertake our marketing activities. Our marketing activities are centered on building our brand image as a trusted healthcare service provider, and enhancing the flow of patients to our healthcare facilities. We have also adopted the concept of health check-up camps not only at our premises but also in the different areas of Mumbai Metropolitan Region.

Our Company has a dedicated team of professionals who oversee different marketing related functions. For our brand building exercises, we use various mass media platforms. Sometimes on-site promotion and displays are also done for branding and new service offerings or pricing discount communications. In the recent past, we have also explored digital marketing channels, including social media, and have identified a specific market segmentation and differentiation approach for greater efficiency and impact, at a relatively competitive cost.

COMPETITION

While our primary competition comprises hospitals, which are institutionalized hospitals providing primary, tertiary, and quaternary healthcare services, we face varying degrees of competition across the numerous markets that we have a presence in. In addition, we compete with many smaller, independent clinical and pathology laboratories as well as laboratories owned by hospitals and physicians. New age medical and alternative medical care services like Ayurveda, Yoga and Naturopathy, Unani, Siddha and Homeopathy (AYUSH) also offer competition for our business.

We believe that our brand, integrated services model, quality of our healthcare services, center infrastructure and customer accessibility are some of the differentiating factors in customers choosing us as their healthcare service provider, which helps us in retaining our customers, and help us compete with our competitors.

Branded and established hospitals across the Mumbai Metropolitan Region can be potential competitors for the hospital business. Similarly, pathology and medical chains, home care service providers and radiology imaging service providers can be considered as a competition for our business.

Emerging new generation med-tech based business model ventures will also be a source competition for our Company.

Re: Report on financial Results for the quarter ended 30th June, 2022

1. We have reviewed the accompanying statement of unaudited financial results of **Scandent Imaging Limited** ('the company') for the quarter ended 30th June, 2022 ('the Statement') attached herewith, being submitted by the company pursuant to the requirements of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.
2. This statement is the responsibility of the Company's management and has been approved by the Board of Directors. Our responsibility is to issue a report on these financial statements based on our review.
3. We conducted our review in accordance with Standard on Review Engagement (SRE) 2410, "Review of Interim Financial Information performed by the Independent Auditor of the Entity", issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the financial statements are free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data, and thus provide less assurance than an audit. We have not performed an audit and accordingly, we do not express an audit opinion.
4. Attention is invited to the following:
 - a. Statutory Dues related to Income Tax, Provident Fund, GST and Profession Tax amounting to Rs 162.92 lakhs have become overdue and remain unpaid. Interest, penalty, if any in respect of the same has remained unascertained and unaccounted for.

- b. IND AS 115 requires Income to be recognised as and when the performance obligation is satisfied. However, the company has a policy of recognising Income on receipt basis. Income is booked when the patient (client) makes the payment.
- c. An eviction suite was filed against the company due to non-payment of lease rent in respect of the Mahim Division. As per Order dated 27th September, 2021 of the Small Causes Court Mumbai has directed the company to deposit arrears of rent. The total amount under the said order approximately accumulated to Rs 386 lakhs. However, the company has preferred an appeal against the aforesaid order. Pending the outcome, no provision for the said amount has been made.

Our conclusion is not qualified in respect of above matters

5. Based on our review conducted as above, except for the matters to which attention is drawn above, nothing has come to our attention that causes us to believe that the accompanying Statement of Unaudited Financial Results, prepared in accordance with the applicable Indian Accounting Standards specified under Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014 and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in terms of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, including the manner in which it is to be disclosed, or that it contains any material misstatement.

Yours faithfully,

Summary of significant accounting policies

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- i. Expected to be realized or intended to be sold or consumed in normal operating cycle
- ii. Held primarily for the purpose of trading,

SCANDENT IMAGING LIMITED

Notes to the Financial Statements

- iv. Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting year.

All other assets are classified as non-current.

A liability is current when:

- i. It is expected to be settled in normal operating cycle
- ii. It is held primarily for the purpose of trading
- iii. It is due to be settled within twelve months after the reporting year other than for (i) above, or
- iv. There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting year.

All other liabilities are classified as non-current.

2.3 Fair Value Measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

The Company categorizes assets and liabilities measured at fair value into one of three levels as follows:

- **Level 1 — Quoted (unadjusted)**

This hierarchy includes financial instruments measured using quoted prices.

- **Level 2**

Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 2 inputs include the following:

- a) Quoted prices for similar assets or liabilities in active markets.
- b) Quoted prices for identical or similar assets or liabilities in markets that are not active.
- c) Inputs other than quoted prices that are observable for the asset or liability.
- d) Market - corroborated inputs.

SCANDENT IMAGING LIMITED

Notes to the Financial Statements

- **Level 3**

They are unobservable inputs for the asset or liability reflecting significant modifications to observable related market data or Company's assumptions about pricing by market participants. Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

2.4 Non-Current Assets Held for Sale

Non-current assets and disposal groups classified as held for sale are measured at the lower of carrying amount and fair value less costs to sell.

2.5 Property Plant and Equipment

Property, Plant and Equipment and intangible assets are not depreciated or amortized once classified as held for sale.

PPE are stated at actual cost less accumulated depreciation and impairment loss. Actual cost is inclusive of freight, installation cost, duties, taxes and other incidental expenses for bringing the asset to its working conditions for its intended use (net of recoverable taxes) and any cost directly attributable to bring the asset into the location and condition necessary for it to be capable of operating in the manner intended by the Management. It includes professional fees and borrowing costs for qualifying assets.

Significant Parts of an item of PPE (including major inspections) having different useful lives and material value or other factors are accounted for as separate components. All other repairs and maintenance costs are recognized in the statement of profit and loss as incurred.

Depreciation of these PPE commences when the assets are ready for their intended use.

Depreciation is provided for on straight line method on the basis of useful life.

The useful life of property, plant and equipment are as follows:-

Asset Class	Useful Life in years
Vehicles	8
Plant & Machinery	13
Plant & Machinery (General)	15
Plant & Machinery (Equipment)	7

SCANDENT IMAGING LIMITED

Notes to the Financial Statements

Office Equipments	5
Computers & Printers	3
Air Conditioners	5
Furniture & Fixtures	10

On assets acquired on lease (including improvements to the leasehold premises), amortization has been provided for on Straight Line Method over the period of lease.

The estimated useful lives and residual values are reviewed on an annual basis and if necessary, changes in estimates are accounted for prospectively.

Depreciation on subsequent expenditure on PPE arising on account of capital improvement or other factors is provided for prospectively over the remaining useful life.

An item of PPE is de-recognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of PPE is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in the Statement of Profit and Loss.

2.6 Intangible Assets

Intangible assets are stated at cost (net of recoverable taxes) less accumulated amortization and impairment loss. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition, and other economic factors (such as the stability of the industry, and known technological advances), and the level of maintenance expenditures required to obtain the expected future cash flows from the asset. Amortization methods and useful lives are reviewed periodically including at each financial year end.

Depreciation on subsequent expenditure on intangible assets arising on account of capital improvement or other factors is provided for prospectively over the remaining useful life.

The estimated useful lives and residual values are reviewed on an annual basis and if necessary, changes in estimates are accounted for prospectively.

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of an intangible

SCANDENT IMAGING LIMITED

Notes to the Financial Statements

asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, and are recognized in the Statement of Profit and Loss when the asset is derecognized.

Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity

2.7 Financial Assets

Initial Recognition and Measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame are recognized on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent Measurement

For purposes of subsequent measurement, financial assets are classified in following categories based on business model of the entity:

- **Financial Assets at Amortized Cost**

A financial asset is measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

- **Financial Assets at Fair Value Through Other Comprehensive Income (FVTOCI)**

A financial asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

- **Financial Assets and Equity Instruments at Fair Value Through Profit or Loss (FVTPL)**

A financial asset which is not classified in any of the above categories are measured at FVTPL.

SCANDENT IMAGING LIMITED

Notes to the Financial Statements

- **Other Equity Investments**

All other equity investments are measured at fair value, with value changes recognized in Statement of Profit and Loss, except for those equity investments for which the Company has elected to present the value changes in 'Other Comprehensive Income'.

- **Cash and Cash Equivalents**

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

Investments in Subsidiaries, Associates and Joint Ventures

The Company does not have any subsidiaries, Associates and Joint Ventures during the reporting period.

De-recognition

A financial asset is de-recognized only when

- The Company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, it evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is de-recognized.

Where the Company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is de-recognized if the company has not retained control of the financial asset. Where the company retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset.

Impairment of Financial Assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL), simplified model approach for measurement and recognition of Impairment loss on Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115.

SCANDENT IMAGING LIMITED

Notes to the Financial Statements

ECL impairment loss allowance (or reversal) recognized during the year is recognized as income / expense in the statement of Profit and Loss.

2.8 Financial Liabilities

Classification as Debt or Equity

Financial liabilities and equity instruments issued by the company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Initial Recognition and Measurement

Financial liabilities are recognized when the company becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the amortized cost unless at initial recognition, they are classified as fair value through profit and loss.

Subsequent Measurement

Financial liabilities are subsequently measured at amortized cost using the effective interest rate method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognized in the statement of profit and loss.

- **Trade and Other Payables**

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting year. They are recognized initially at their fair value and subsequently measured at amortized cost using the effective interest method.

- **Loans and Borrowings**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

De-recognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

Impairment of Non-Financial Assets

SCANDENT IMAGING LIMITED

Notes to the Financial Statements

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating units (CGU) fair value less costs of disposal and its value in use.

Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets.

When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

Impairment losses of continuing operations, including impairment on inventories, are recognized in the statement of profit and loss.

A previously recognized impairment loss (except for goodwill) is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited to the carrying amount of the asset.

2.9 Revenue Recognition

- **Sale of Services**

Revenue from rendering of services is recognized when the performance of agreed contractual task has been completed.

- **Interest income**

Interest income from a financial asset is recognized using effective interest rate method.

2.10 CENVAT / Value Added Tax / Goods and Service Tax

CENVAT / Value Added Tax / Goods and Service Tax benefit is accounted for by reducing the purchase cost of the materials/fixed assets/services.

SCANDENT IMAGING LIMITED

Notes to the Financial Statements

2.11 Leases

As a Lessee

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to statement of profit and loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

As a Lessor

Lease income from operating leases where the Company is a lessor is recognized in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases.

2.12 Foreign Currency Transactions

The functional currency of the Company is Indian Rupees which represents the currency of the economic environment in which it operates.

Transactions in currencies other than the Company's functional currency (foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions. Monetary items denominated in foreign currency at the year end and not covered under forward exchange contracts are translated at the functional currency spot rate of exchange at the reporting date.

Any income or expense on account of exchange difference between the date of transaction and on settlement or on translation is recognized in the profit and loss account as income or expense.

Non monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation difference on such assets and liabilities carried at fair value are reported as part of fair value gain or loss.

2.13 Employee Benefits

Short term Employee Benefits:-

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the year in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting year and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

SCANDENT IMAGING LIMITED

Notes to the Financial Statements

Long-Term Employee Benefits

Compensated expenses which are not expected to occur within twelve months after the end of year in which the employee renders the related services are recognized as a liability at the present value of the defined benefit obligation at the balance sheet date.

Post-employment Obligations

Defined Contribution Plans

Provident fund benefit is a defined contribution plan under which the Company pays fixed contributions into funds established under the Employee's Provident funds and Miscellaneous Provisions Act, 1952. The Company has no legal or constructive obligations to pay further contributions after payment of the fixed contribution.

The contribution paid/payable under the schemes, is recognized during the period in which the employee renders the related service.

Defined Benefit Plans

Gratuity

The Company provides for gratuity obligations through a defined benefit retirement plan (the 'Gratuity Plan') covering all employees. The Gratuity Plan provides a lump sum payment to vested employees at retirement or termination of employment based on the respective employee salary and years of employment with the Company. The Company provides for the Gratuity Plan based on actuarial valuations in accordance with Indian Accounting Standard 19 (revised), "Employee Benefits ". The present value of obligation under gratuity is determined based on actuarial valuation using Project Unit Credit Method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

Gratuity is recognized based on the present value of defined benefit obligation which is computed using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting year. These are accounted either as current employee cost or included in cost of assets as permitted.

Leave Encashment

As per the Company's policy, leave earned during the year do not carry forward, they lapse if the current period's entitlement is not used in full and do not entitle employees to a cash payment for unused entitlement during service.

Borrowing costs consists of interest and other costs that an entity incurs in connection with the borrowing of funds.

2.15 Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting year, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

Contingent assets are disclosed in the Financial Statements by way of notes to accounts when an inflow of economic benefits is probable.

Contingent liabilities are disclosed in the Financial Statements by way of notes to accounts, unless possibility of an outflow of resources embodying economic benefit is remote.

2.16 Cash Flow Statement

SCANDENT IMAGING LIMITED

Notes to the Financial Statements

equity shares that could have been issued upon conversion of all dilutive potential equity shares.

2.18 Income Taxes

The income tax expense or credit for the year is the tax payable on the current year's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses, if any.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting year. The areas involving critical estimates or judgments are:

1. Useful life of tangible asset Note No. 2.5

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. The Union Cabinet, as provided in the Cabinet Press Release dated May 24, 2017, has given its approval for phasing out the FIPB. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment (“FDI”) and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the Department of Industrial Policy and Promotion) (“DPIIT”), Ministry of Finance, Department of Economic Affairs, FIPB section, through a memorandum dated June 5, 2017, has notified the specific ministries handling relevant sectors.

The Government has, from time to time, made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated FDI Policy Circular of 2020 (“FDI Circular 2020”), which, with effect from October 15, 2020, consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Circular 2020 will be valid until the DPIIT issues an updated circular.

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict, the relevant notification under Foreign Exchange Management (Non-Debt Instruments) Rules, 2019 will prevail. The payment of inward remittance and reporting requirements are stipulated under the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 issued by RBI. The FDI Circular 2020, issued by the DPIIT, consolidates the policy framework in place as on October 15, 2020, and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of RBI, provided that (i) the activities of the investee company falls under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI.

No investment under the FDI route (i.e., any investment which would result in the investor holding 10% or more of the fully diluted paid-up equity share capital of the Company or any FDI investment for which an approval from the government was taken in the past) will be allowed in the Issue unless such application is accompanied with necessary approval or covered under a pre-existing approval from the government. It will be the sole responsibility of the investors to ensure that the necessary approval or the pre-existing approval from the government is valid in order to make any investment in the Issue.

The Lead Managers and our Company will not be responsible for any allotments made by relying on such approvals. Please also note that pursuant to Circular no. 14 dated September 16, 2003 issued by RBI, Overseas Corporate Bodies (“OCBs”) have been derecognized as an eligible class of investors and RBI has subsequently issued the Foreign Exchange Management (Withdrawal of General Permission to Overseas Corporate Bodies (OCBs)) Regulations, 2003. Any Investor being an OCB is required not to be under the adverse notice of RBI and in order to apply for this issue as a incorporated non-resident must do so in accordance with the FDI Circular 2020 and Foreign Exchange Management (Non-Debt Instrument) Rules, 2019. Further, while investing in the Issue, the Investors are deemed to have obtained the necessary approvals, as required, under applicable laws and the obligation to obtain such approvals shall be upon the Investors. Our Company shall not be under an obligation to obtain any approval under any of the applicable laws on behalf of the Investors and shall not be liable in case of failure on part of the Investors to obtain such approvals.
